

Undergraduate University Catalog 2024-2025

University of
Pittsburgh

Academic Calendar

ACADEMIC CALENDAR • 2024-25

Dates highlighted in yellow apply to all schools on all University campuses. Those in blue apply only to the Pittsburgh campus.

Official dates for degrees awarded apply to all schools on all University campuses. Specific dates affecting the professional programs in the Schools of Dental Medicine, Law, Medicine, Pharmacy, Health and Rehabilitation Sciences, and the Joseph M. Katz Graduate School of Business may be obtained from the appropriate Dean's Office.

* Employees covered by the collective bargaining agreements will be governed by the terms of those agreements.

NOTE: THE UNIVERSITY RESERVES THE RIGHT TO MAKE SUCH CALENDAR CHANGES AS IT DEEMS NECESSARY

University of Pittsburgh Nondiscrimination Policy Statement

The University of Pittsburgh, as an educational institution and as an employer, values equality of opportunity, human dignity, and racial/ethnic and cultural diversity. Accordingly, the University prohibits and will not engage in discrimination or harassment on the basis of race, color, religion, national origin, ancestry, sex, age, marital status, familial status, sexual orientation, gender identity and expression, genetic information, disability, or status as a veteran. The University also prohibits and will not engage in retaliation against any person who makes a claim of discrimination or harassment or who provides information in such an investigation. Further, the University will continue to take affirmative steps to support and advance these values consistent with the University's mission.

For information on University equal opportunity and affirmative action programs, please contact: University of Pittsburgh, Office of Diversity and Inclusion, Cheryl Ruffin, Institutional Equity Manager, 4415 Fifth Avenue, 2nd Floor Webster Hall, Pittsburgh, PA 15260 (412) 648-7860.

For complete details on the University's Nondiscrimination Policy, please refer to CS 07 Nondiscrimination, Equal Opportunity, and Affirmative Action Policy. For information on how to file a complaint under this policy, please refer to CS 07 Nondiscrimination and Anti-Harassment Procedure.

About the University of Pittsburgh

The University of Pittsburgh is an internationally respected center of learning and research, offering exceptional educational opportunities in the arts, sciences, and professions.

Mission

The University of Pittsburgh, founded in 1787, is one of the oldest institutions of higher education in the United States. As one of the nation's distinguished comprehensive universities, the resources of the University constitute an invaluable asset for the intellectual, economic, and social enrichment of Pennsylvania, while the international prestige of the University enhances the image of Pennsylvania throughout the world.

The University's mission is to:

- Provide high-quality undergraduate programs in the arts and sciences and professional fields, with emphasis upon those of special benefit to the citizens of Pennsylvania;
- Offer superior graduate programs in the arts and sciences and the professions that respond to the needs of Pennsylvania, as well as to the broader needs of the nation and the world;
- Engage in research, artistic, and scholarly activities that advance learning through the extension of the frontiers of knowledge and creative endeavor;
- Cooperate with industrial and governmental institutions to transfer knowledge in science, technology, and health care;
- Offer continuing education programs adapted to the personal enrichment, professional upgrading, and career advancement interests and needs of adult Pennsylvanians; and
- Make available to local communities and public agencies the expertise of the University in ways that are consistent with the primary teaching and research functions and contribute to social, intellectual, and economic development in the Commonwealth, the nation, and the world.

The trustees, faculty, staff, students, and administration of the University are dedicated to accomplishing this mission, to which they pledge their individual and collective efforts, determined that the University shall continue to be counted among the prominent institutions of higher education throughout the world.

History

The University began in the Pennsylvania wilderness as the Pittsburgh Academy in 1787, the year the U.S. Constitution was adopted. Thirty-two years later, the Pittsburgh Academy became the Western University of Pittsburgh, and in 1908, the school changed its name to the University of Pittsburgh. Graduate degrees have been conferred since 1836, and the first doctoral program was developed in 1884. A private institution for most of its past, the University of Pittsburgh became state-related in 1966, establishing a relationship with the Commonwealth of Pennsylvania that continues to benefit both partners. Today, as an elected member of the prestigious Association of American Universities, the University of Pittsburgh claims its place among the top public research universities in the nation.

Accreditation

The University of Pittsburgh is accredited by the Middle States Commission on Higher Education, 3624 Market Street, Philadelphia, PA 19104, (267) 284 - 5000. In addition, programs may be accredited by discipline-specific accrediting bodies. See Schools, Departments, and Programs section of this catalog for this information.

Academic Organization and Pittsburgh Campus Overview

As a state-related, coeducational institution, the University of Pittsburgh's Pittsburgh campus offers a multitude of degree-granting and other programs housed in 16 undergraduate, graduate, and professional schools. The University system includes the Pittsburgh campus and four regional campuses at Bradford, Greensburg, Johnstown, and Titusville.

There are more than 100 academic, research, and administrative buildings and residence halls located on the Pittsburgh campus, which covers 132 acres in the culturally rich Oakland neighborhood. At the heart of the campus stands a central landmark—the Cathedral of Learning, a 42-story Gothic tower, which is the tallest school building in the Western Hemisphere. The Cathedral contains the Nationality Rooms, 27 classrooms, each designed to reflect a distinct culture and providing an overall, multidimensional understanding of America's heritage.

At the Pittsburgh campus, over 4,900 faculty serve over 28,500 students, including 9,500 graduate and more than 19,000 undergraduate students. Alumni accomplishments range from managing Fortune 500 corporations, to writing best-selling novels, to unlocking the secrets of DNA ... and more.

University of Pittsburgh Board of Trustees

The Board of Trustees is responsible for advancing the purposes of the University; promoting and protecting its independence, academic freedom, and integrity; and enhancing and preserving its assets for the benefit of future students and society at large. In addition, because the University of Pittsburgh is a state-related institution, the trustees ensure that Pitt meets its obligations both to the Commonwealth of Pennsylvania and to society generally.

General administrative, academic, and management authority is delegated to the chancellor. However, the board retains ultimate responsibility for all University affairs.

There are three or more regular meetings of the Board of Trustees each year, including an annual meeting. Special meetings also may be called. Much of the board's work is carried out by committees; many of these committees include faculty, staff, and students as non-voting representatives.

Deans, and Presidents of the University of Pittsburgh

Deans - Pittsburgh Campus

Eugene "Gene" Anderson, PhD, Dean, Joseph M. Katz Graduate School of Business and College of Business Administration

Bruce Childers, PhD, Dean, School of Computing and Information

Mary Crossley, JD, Interim Dean, School of Law

Anthony Delitto, PhD, Dean, School of Health and Rehabilitation Sciences

Elizabeth Farmer, PhD, Dean, School of Social Work

Nicola Foote, PhD, Dean, David C. Frederick Honors College

Christine Kasper, PhD, RN, Dean, School of Nursing

Adam K. Leibovich, PhD, Dean, Kenneth P. Dietrich School of Arts and Sciences and the College of General Studies

Maureen Lichtveld, MD, MPH, Dean, School of Public Health

Michele V. Manuel, PhD, Dean, Swanson School of Engineering (*term effective, September 1, 2024*)

Marnie Oakley, DMD, Dean, School of Dental Medicine

Amy Lynn Seybert, PharmD, Dean, School of Pharmacy

Anantha Shekhar, MD, PhD, Dean, School of Medicine

Sanjeev G. Shroff, PhD, Interim Dean, Swanson School of Engineering (*term ending, August 31, 2024*)

Carissa Schively Slotterback, PhD, Dean, Graduate School of Public and International Affairs

Eboni M. Zamani-Gallaher, PhD, Dean, School of Education

Presidents - Regional Campuses

Robert Gregerson, PhD, President, University of Pittsburgh at Greensburg

Richard T. Esch, President, University of Pittsburgh at Bradford and University of Pittsburgh at Titusville

Jem Spectar, PhD, President, University of Pittsburgh at Johnstown

Academic Regulations

Advising

At the University of Pittsburgh, advising and mentoring are integral to the University's educational mission. We advocate for collaborative and holistic advising interactions.

As an institution, we champion the academic advising relationship by requiring that students meet with their advisor at least once per semester, but also encourage advisors and students to connect more often, as needed.

The University of Pittsburgh's undergraduate academic advising structure, as defined by NACADA, the Global Community for Academic Advising, is a decentralized, satellite model. Using this model, each school, college, or division within the institution has established its own approach to advising. Also, advising and mentoring takes place in the undergraduate colleges/schools, advising centers and specialized student support offices. Last, we know that Pitt students often transition from one school/department/unit to another or seek additional majors, minors, certificates or support in more than one place.

Pitt utilizes an "Academic Advising" hold on student accounts, which are automatically placed by the Office of the University Registrar each term and must be lifted by a student's academic advisor or departmental administrator before enrollment can take place.

No single advisor or mentor at the University of Pittsburgh has expertise in all areas. We recognize that students should consult with their network faculty and staff during their academic journey, who may be able to advise them on the many opportunities available at our institution to academically engage and thrive at Pitt. Additionally, advisors should feel comfortable and confident making referrals across the campus community.

Allowable Credits (Credit and Course Limitations)

There are certain limitations on credits, other than those earned as part of regular undergraduate courses taken at the University, that may be applied toward a degree. Those limitations are detailed below.

Standardized Tests

Each school determines whether and under what circumstances the advanced standing credits listed below will be awarded toward a University of Pittsburgh degree or certificate offered by the school. Contact the individual schools for details.

Transfer Credit

The University will grant credit earned at other institutions based on course equivalencies, including expected learning outcomes, with those of the University curriculum and standards, subject to University policy and individual school requirements. The University will not refuse to consider a transfer credit based on the accreditation of the sending institution. Transfer credit is subject to University policy and individual school requirements.

Standardized Tests

Credits may be earned toward a University of Pittsburgh degree or certificate through standardized examinations such as the College-Level Examination Program (CLEP), Occupational Competency, ACT-PEP Challenge, and Advanced Placement (AP) Exams. In addition, some schools give credit for the International Baccalaureate Higher-Level Examinations. Students should contact their school to determine how credit may be granted based on completion of these examinations.

Credit by Course Examination

In some cases, students may earn credits toward a University of Pittsburgh degree or certificate by passing an examination administered by the University without registering for the course. Contact the individual department or school for information, as each sets its own policies as to the specific courses for which students may request credit by examination.

Educational Experiences in the Armed Forces

The University will grant credit for formal courses and occupational training offered by all branches of the military based on course equivalencies, including expected learning outcomes, with those of the University curriculum and standards.

Career Development Courses

Noncredit, career development courses are not applicable to the bachelor's degree but may be included among the requirements for certain professional certificates.

Cooperative Programs

The University has established some arrangements with industries that permit students to rotate four-month terms between the workplace and the classroom. These are paid positions related to the student's field of study. These programs are administered by the Swanson School of Engineering and are available to any student with a science-related major. The experience normally starts in the sophomore or junior year. Students should contact their school or department to determine the maximum number of credits that may be earned toward their degree requirements through cooperative programs. Call 412-624-9826 for more information.

Duplication of Course Content

Students may not earn credit for courses that substantially duplicate the content of other courses for which they have already received credit.

Directed Reading and Research, Independent Study, Internships

Some schools offer individually designed study other than regular courses. Students are limited by the individual schools as to how many such independent study, directed reading, directed research, and internship credits can be counted among the required credits for the degree. Requirements and procedures may also differ. Contact the school for details.

Directed Reading

The student undertakes a specified course of study comparable to a regular course under the direct supervision of a faculty member.

Directed Research

The student pursues a defined research project on campus under the guidance of a faculty member.

Independent Study

Independent study involves an independent program of study, research, or creative activity designed under specified conditions and is usually conducted off campus with less immediate direction by the sponsoring faculty member.

Internships

Some schools provide internship experiences appropriate to the student's academic discipline. An internship is a supervised, work-related experience, either volunteer or compensated. It is intended to be a new experience, not an existing position in which the student is already working. Students will only get internship credit for a current employment situation that has been pre-approved as an internship by the relevant school or department.

English Language Institute Courses

Credit for certain English Language Institute courses may be applied toward the undergraduate degree. See school for details.

Enrollment in Graduate Courses

University of Pittsburgh undergraduate students with sufficient preparation are permitted to enroll in certain graduate courses at the University following procedures determined by each school. The graduate credits earned may be counted toward the undergraduate degree if approved by the student's school. These may not be counted as credits toward a graduate degree except as noted below.

Undergraduate students who need fewer than 15 credits to complete requirements for the baccalaureate degree and who intend to continue study toward an advanced degree may be permitted during their final term to register for graduate courses that will later apply toward a graduate degree. The student must obtain written permission from the school of proposed graduate study that the courses may count when and if the student is admitted into the graduate degree program. This privilege should not be granted if the proposed total program exceeds a normal full-time load. Although these credits will appear on the undergraduate transcript, they will not count toward fulfilling undergraduate degree requirements. They will be posted as advanced standing credits on the graduate transcript.

Reserve Officer Training Corps (ROTC) Credits

Students may elect to participate in either the Air Force ROTC or Army ROTC Programs at the University of Pittsburgh or the Navy ROTC Program at Carnegie Mellon University. Contact individual schools to determine which

credits earned in ROTC courses may be applied toward a degree. (For more information on ROTC, see the Special Academic Opportunities section of this catalog.)

Registration (Enrollment)

For additional registration information, visit the University registrar's Web site at www.registrar.pitt.edu

Full-Time and Part-Time Study

Full-time study is defined as enrollment for 12 to 18 credits per term, and part-time study is defined as enrollment for one to 11 credits per term. Students are charged a flat tuition rate for full-time study in the fall and spring terms. For part-time students, tuition payment is on a per-credit basis. Students may exceed the 18-credit limit with written permission from the dean of their school, but they will be billed on a per-credit basis for each additional credit. University fees and other applicable charges are assessed on student statements. Some schools within the University may also apply academic limitations on the number of credits for which a student is permitted to enroll each term. For instance, students in Arts and Sciences must get permission to enroll for more than 18 credits. During the summer term and summer sessions, most students are billed on a per-credit basis regardless of the number of credits taken.

Registering for Classes

After students are admitted to a school they will be assigned an academic advisor. All Undergraduate students must meet with their academic advisor each term prior to enrolling in classes. Most students have the ability to use the self-service enrollment tools available through PeopleSoft/HighPoint CX.

Continuing students with the ability to utilize self-service enrollment will be assigned an enrollment appointment during the first two weeks of the enrollment period. Students in programs that do not permit self-service enrollment should contact their academic advisor regarding the enrollment process for their program. The enrollment period for a term or session is published in the University's *Academic Calendar*.

Once students have enrolled, they may view their class schedules online via PeopleSoft/HighPoint CX.

Adding and Dropping Courses

Students may add or drop courses from the start of their enrollment appointment until the end of the add/drop period. The dates for the add/drop periods are published in the University's *Academic Calendar*. Students are encouraged to consult their academic advisors regarding the impact of course changes on their academic career. Students who no longer wish to remain enrolled in a course after the add/drop period has ended may withdraw from the course or resign from the University. See *Monitored Withdrawal from a Course and Resigning from the University*.

Extended Drop Period

Under special circumstances, undergraduate students may be eligible to drop a course in the third week of the fall or spring semester, effective with the Spring 2018 semester. Students must meet all of the following criteria to drop a course during the extended drop period:

- Undergraduate students at all campuses
- Undergraduate courses

- Fall and spring semesters
- Students must remain in full-time status after dropping the course(s).
- The student's advisor must provide permission to drop.
Students must review the proposed drop with their academic advisor. If the student's advisor finds that the student is eligible, the advisor will process the drop(s). If the student's advisor cannot process the drop for any reason, then the advisor will request that the Registrar's Office at the student's campus process it.

Cross-Registration

Cross-registration provides students with the opportunity to enroll in courses at member institutions of the Pittsburgh Council on Higher Education (PCHE). The designated colleges and universities at which undergraduate students may cross-register include Carlow University, Carnegie Mellon University, Chatham University, Community College of Allegheny County, Duquesne University, La Roche College, Pittsburgh Theological Seminary, Point Park University, and Robert Morris University. Only full-time students may cross-register. Please note that students must maintain a full-time course load (at least 12 credits as an undergraduate) at Pitt while cross-registered. Students who cross-register do not pay tuition to the host institution; however, they are responsible for any additional fees associated with the course such as laboratory fees, books, etc. Students normally may register for only one course off campus in a given term. The grades and credits earned at the host institution are transferred to the home school. The academic policies of the host institution prevail.

Cross-registration is only available in the fall and spring terms. During the summer, students may attend one of the above colleges as guest students, but they must pay that institution's tuition and fees. Students are discouraged from cross-registering during their term of graduation to avoid any delays in the receipt of course credit needed to graduate. Students should meet with their advisors or a school representative before they cross-register. For more information on cross-registration, visit pche-pa.org/.

Monitored Withdrawal from a Course

After the add/drop period has ended, students may withdraw from a course that they no longer wish to attend by completing a Monitored Withdrawal Request form in the office of the school offering the course. Students must process the Monitored Withdrawal Request form within the first nine weeks of the term in the fall and spring. Because summer sessions vary in length, students should check the University's *Academic Calendar* for those deadlines. Students should check with the school offering the course for the last day to submit a Monitored Withdrawal Request form. A W will appear on the student's transcript. There is no financial adjustment to students' tuition or fee obligations involved in withdrawing from courses, but withdrawing may jeopardize satisfactory academic progress, financial aid, and athletic eligibility.

Resigning from the University/Termination of Registration

If students decide to drop all of their classes after the add/drop period has ended and before 60 percent of the term or session has been completed, they must resign from the University for that term. Official resignation from the University requires students to contact the Student Appeals Office. Students have several options. They may resign in person, by mail, or by calling 412-624-7585, where students may leave a message 24 hours a day, including weekends and holidays. An R will appear on the student's academic transcript for each course in the term of resignation. Tuition is prorated from the date of the student's notification to the Student Appeals Office of the student's desire to resign, unless 60 percent of the term has been completed, in which case there is no refund.

After the 60 percent point in time of the term or session has passed, students who wish to terminate their registration may process a withdrawal from all classes only with the permission of the academic dean. If the reason for withdrawal is medical or psychological in nature, the academic dean may consult with the director of Student Health Service prior to making a determination. There is no financial adjustment associated with this procedure, which results in the assignment of a W for all classes.

Grading and Records

For additional grading and records information, visit the Office of the University Registrar's web site at www.registrar.pitt.edu.

GPA

The Grade Point Average (GPA) is the numeric indication of a student's academic achievement based on a 4.00 grade point scale. Undergraduates must have a 2.00 GPA in order to graduate from the University of Pittsburgh. The value is the average of total letter grades earned and is available by term or career. Some academic centers may also maintain degree and/or major/departmental GPA values.

Grading System

The University of Pittsburgh has a standard letter grade system (see Letter Grade Option). Some additional grading options are available for some courses as determined by the school and the instructor (see Grading Options below). Finally, undergraduate students may choose to audit a course. Students must complete Grade Option/Audit Request forms to request a grading option available in a particular course.

Grading Options

Individual schools may elect to offer a course with the following grade options:

LG	Letter grade
H/S/U	Honors/Satisfactory/Unsatisfactory
S/NC	Satisfactory/No-Credit

LG and H/S/U Letter grade and Honors/Satisfactory/Unsatisfactory

LG and S/NC Letter grade and Satisfactory/No-Credit

Students may select a grade option for those courses that offer more than one option at the point of enrollment or by submitting a Grade Option/Audit Request form by the established deadline to the school offering the course (generally four weeks from the start of the term, but check with the school for specific deadlines). If the student does not select a grade option for a course when more than one grade option is available, the default option (generally the letter grade option) will automatically apply.

Letter Grades

The University's letter grade system identified below will be followed without exception:

Grade	Quality Points
A+	= 4.00
A	= 4.00 Superior Attainment
A-	= 3.75
B+	= 3.25
B	= 3.00 Meritorious Attainment
B-	= 2.75
C+	= 2.25
C	= 2.00 Adequate Attainment
C-	= 1.75
D+	= 1.25
D	= 1.00 Minimal Attainment
D-	= 0.75
F	= 0.00 Failure

H/S/U Grade Option

Certain courses are offered on the H/S/U (Honors/Satisfactory/Unsatisfactory) grade option. Under this option, students earn an H if they do exceptional work (equivalent to an A- or higher under the letter grade system), an S if they do satisfactory work (equivalent to grades from a C up to a B+), or a U if they do unsatisfactory work (equivalent to a C- or lower). The H and S grades received under this option are counted toward graduation but are not computed in the student's GPA. The U grade is counted toward neither graduation nor the GPA.

S/NC Grade Option

Certain courses are offered on the S/NC (Satisfactory/No-Credit) grade option. This option was designed to encourage students to explore new and potentially difficult subjects without fear of the risks of failure. Under this option, a student who does satisfactory work (a grade of C or better) in a course receives the grade of S. If the student's work is not satisfactory (a grade of C- or lower), the grade of NC (No Credit) is given. Courses for which an S is received are counted toward graduation but are not computed in the GPA. Courses in which an NC is received are counted toward neither graduation nor the GPA.

Other Grades and Symbols: Unfinished, Resign, Withdraw

One of the symbols listed below may appear on the student's transcript in lieu of one of a final grade. None of these carry quality points:

G

The G signifies unfinished course work that is ongoing. Students assigned a G are required to complete course requirements no later than one year after the term or session in which the course was taken. Some schools have a shorter deadline for completion of G grades; see school for details.

The NG indicates a G has lapsed and is no longer in progress, and it will remain on the record, which will require the student to re-register for the course if it is needed to fulfill requirements for graduation.

R

The R signifies that a student resigned from the University for the term. (See Resigning from the University for more information.)

W

The W signifies that a student has withdrawn from a course. (See Monitored Withdrawal from a Course for more information.)

Auditing a Course

With the consent of the school and instructor, students may choose to audit a course. To audit a course, a student must register and pay tuition for the course. An audit is not counted toward graduation or the GPA.

Repeating Courses

A student may repeat any course, except as noted below. No sequence course may be repeated for credit after a higher numbered course in that sequence has been passed with a C or higher grade. (This also pertains to graduate and first professional students who have passed with a B or higher grade.) No course may be repeated at any other institution and have that grade accepted as a replacement for the original grade earned at the University of Pittsburgh. The grade earned by repeating a course is used in lieu of the grade originally earned.

The following calculations apply to all students at the University of Pittsburgh:

- The original course and grade remain on the transcript and/or the academic record, however, the grade and credits originally earned are not counted in the calculation of the GPA.
- The repeated course does not increase the number of credits counted toward meeting the degree requirements unless an F is replaced by a passing grade.

When a W, R, N, or NC is recorded for the repeated course, it will not be identified as a course repeat. Thus, the original grade earned will continue to be counted in the GPA. Incompletes (G or I) will not be identified as repeated courses until the course work is completed. Students may repeat a course no more than two times. Any grade earned in the repeated course will be posted to the academic record even if it is lower than the original grade. The repeated course must be the same in which the original grade was earned. In extenuating circumstances, a department chairman, with the dean's approval, may substitute another course of similar content. Course repeat forms must be submitted to the Office of the University Registrar to affect grade replacement.

Grade Changes

The instructor of a course may change a student's grade by submitting a grade change through the Grade Change Work Flow, which can be found on the Faculty Portal. All grade changes require the authorization of the dean of the school from which the original grade was issued. Students can verify grade changes for the terms available online via PeopleSoft/HighPoint CX.

Viewing Grades

Students can access their grades online via PeopleSoft/HighPoint CX. Grade submission deadlines can be found in the University's *Academic Calendar*.

Transcripts

An academic transcript serves as a permanent record of a student's academic progress. The transcript is a cumulative record of the student's GPA, as well as a record of the department, title, and grade for each course in which the student has enrolled and summary advanced standing information. Students may request an official transcript that bears the seal and signature of the University Registrar. Upon graduation, the transcript reflects a student's degree and date, major, minor, or certificate, and, if applicable, honors and area of concentration.

Academic Record

The academic record is not an official University transcript, but a document containing a student's complete University of Pittsburgh academic history. In addition to the information provided on the transcript, the academic record may display additional course details, certain academic events and detailed advanced standing/placement/transfer credit information. Students can view a copy of their academic record in the Student Center at my.pitt.edu.

Academic Standing

Undergraduate students' academic standing is maintained and monitored each term by the school in which a student is enrolled. Students who are not on academic probation or academic suspension (i.e., students who maintain a cumulative grade point average of 2.00 or higher) are considered to be in good academic standing.

Dean's List

Students whose grades indicate outstanding academic achievement are recognized on their school's Dean's List. The following schools have a Dean's List:

- Dietrich School of Arts and Sciences
- College of Business Administration
- School of Dental Medicine
- Swanson School of Engineering
- College of General Studies
- School of Computing and Information
- School of Health and Rehabilitation Sciences

- School of Nursing
- School of Pharmacy
- School of Public Health

Other Academic Honors

Schools and programs may have additional ways of recognizing academic achievement by students, such as Phi Beta Kappa, Tau Beta Pi, or a Term Honor List. More information about these opportunities is available through the school.

Probation, Suspension, and Dismissal

Students who fail to make satisfactory progress may be subject to academic probation and/or suspension and dismissal. Students who have completed at least 12 grade point credits and whose GPA falls below 2.00 will be placed on academic probation by the dean of the school. After a certain period of time on academic probation (determined by the student's school), a student is subject to academic suspension and restricted from registering for classes in that school. Details of the undergraduate school's probation system are available through that school.

Effect on Financial Aid

Conditions for financial aid eligibility usually require students to complete a specified number of credits each year and maintain a specified grade point average. Questions about the effect of unsatisfactory academic standing on financial aid should be directed to the Office of Admissions and Financial Aid in Alumni Hall at 412-624-7488.

Graduation

Requirements for Graduation

Graduation requirements differ among schools. However, all undergraduate schools require a minimum of 120 passing credits to graduate, as well as a GPA of at least 2.00. (See specific schools and programs for detailed graduation requirements.) For more policy information please refer to the University of Pittsburgh Policies and the Office of the Provost Policies and Academic Regulations.

Application to Graduate

Students must file an application for graduation through the Online Graduation Application. Each school establishes its own deadline by which students must apply for graduation. Students should check with their schools for the deadlines.

Graduation with Honors

Undergraduate members of a graduating class who have attained an outstanding scholastic record may graduate with University honors. To be eligible, a student must complete at least 60 letter-graded credits at the University of Pittsburgh. All degree-related course work completed at the University is calculated in the grade point average. Receipt of University honors is based on having obtained the following grade point average at graduation:

Summa Cum Laude 3.75

Magna Cum Laude 3.50

Cum Laude 3.25

The honor status achieved by a student will appear on the student's official University transcript and diploma.

Each school may award undergraduate program honors based on the major GPA and other criteria, as determined by the school and department.

Commencement

Candidates for graduation are encouraged to appear in person at commencement, usually held the Sunday after the spring term ends. The official certification of degrees typically occurs several weeks after the ceremony.

With the exception of students who receive their diplomas at individual school ceremonies, all diplomas are mailed to students approximately four weeks after the official certification date for each graduation period.

Student Rights and Responsibilities

The University has a number of official policies affecting students. For complete and current text on all University policies, please see <http://www.policy.pitt.edu/>.

The information that follows summarizes several key University-wide policies affecting undergraduate students, but students are also responsible for being cognizant of those University, school, and departmental regulations relevant to their programs of study.

Academic Integrity Policy

Students have the responsibility to be honest and to conduct themselves in an ethical manner while pursuing academic studies. Students have the right to be treated by faculty in a fair and conscientious manner in accordance with the ethical standards generally recognized within the academic community (as well as those recognized within the profession). Should a student be accused of a breach of academic integrity or have questions regarding faculty responsibilities, procedural safeguards including provisions of due process have been designed to protect student rights. These may be found in Guidelines on Academic Integrity: Student and Faculty Obligations and Hearing Procedures [here](#).

Computing Use Policy

Every member of the University community has two basic rights regarding computing: privacy and a fair share of resources. It is unethical for another person to violate these rights. All users, in turn, are expected to exercise common sense and decency with regard to the campus computing resources. Please read Acceptable Computing Access and Use, available in campus computing labs or online at technology.pitt.edu/security/acceptable-computing-access-and-use for details.

Students are subject to the rules and regulations as described in the University of Pittsburgh *Student Code of Conduct*. Students should realize that any misuse of computing resources may result in the suspension of their computing privileges.

Student Code of Conduct

The Student Code of Conduct is an outline of the nonacademic rights and responsibilities of University students. The code defines offenses by and against students. A student or University official may file a complaint of violation of the Student Code of Conduct at the University Student Judicial System. For a copy of the code, please contact the judicial system office in 738 William Pitt Union at 412-648-7910 or see www.studentaffairs.pitt.edu/studentconduct.

Judicial System

The Office of Student Conduct of the University Student Judicial System coordinates the Campus Judicial Board. It also receives, previews, and acts upon complaints of violations of the *Student Code of Conduct*. Its purpose is to provide due process and fair treatment in adjudicating charges filed for violations of the code. All complaints about nonacademic student behavior should be filed here.

Pitt Promise: A Commitment to Civility

The University of Pittsburgh is committed to the advancement of learning and service to society. This is best accomplished in an atmosphere of mutual respect and civility, self-restraint, concern for others, and academic integrity. Students are asked to accept the obligation to live by these common values and commit themselves to principles of behavior that contribute to a civil campus environment and to support this behavior in others. The Pitt Promise is online at <https://www.studentaffairs.pitt.edu/dean/pittpromise/>.

Other Policies

Affirmative Action and University of Pittsburgh Nondiscrimination Policy Statement

The University of Pittsburgh, as an educational institution and as an employer, values equality of opportunity, human dignity, and racial/ethnic and cultural diversity. Accordingly, as fully explained in CS 07 UNIVERSITY OF PITTSBURGH POLICY, the University prohibits and will not engage in discrimination or harassment on the basis of race, color, religion, national origin, ancestry, sex, age, marital status, familial status, sexual orientation, gender identity and expression, genetic information, disability, or status as a veteran. The University also prohibits and will not engage in retaliation against any person who makes a claim of discrimination or harassment or who provides information in such an investigation. Further, the University will continue to take affirmative steps to support and advance these values consistent with the University's mission. This policy applies to admissions, employment, access to and treatment in University programs and activities. This is a commitment made by the University and is in accordance with federal, state, and/or local laws and regulations.

For information on University equal opportunity and affirmative action programs, please contact: University of Pittsburgh, Office for Diversity, Equity, and Inclusion, 18th Floor, Cathedral of Learning, 4200 Fifth Ave., Pittsburgh, PA 15260, diversity@pitt.edu, (412) 648-7860.

For complete details on the University's Nondiscrimination Policy, please refer to CS 07 UNIVERSITY OF PITTSBURGH POLICY. For information on how to file a complaint under this policy, please refer to CS 07 UNIVERSITY OF PITTSBURGH PROCEDURE.

Drug-Free School and Workplace Policy

The University of Pittsburgh prohibits the unlawful manufacture, distribution, dispensation, possession, or use of a controlled substance on University property or as part of any University activity. Faculty, staff, and students of the University must also comply with the laws of the Commonwealth of Pennsylvania on the possession and consumption of alcohol.

Violation of this policy will result in disciplinary action within 30 days, including, but not limited to, a warning, written reprimand, suspension, dismissal, expulsion, and/or mandatory participation and successful completion of a drug abuse assistance or rehabilitation program approved by an appropriate health or law-enforcement agency.

Any University employee paid from federally funded grants or contracts, or any students participating in any federally funded or guaranteed Student Loan Program, must notify the University of any criminal drug statute conviction for a violation occurring at the University or while engaged in University activities. For more information, see https://www.policy.pitt.edu/sites/default/files/Policies/Community-Standards/Policy_CS_04.pdf.

E-mail Communication Policy

The University of Pittsburgh has established e-mail as an official means of communication with students. For more information, see https://www.policy.pitt.edu/sites/default/files/Policies/01-Administrative_and_Organization/Policy_AO_15.pdf.

Faculty-Student Relationships

The University's educational mission is promoted by professional relationships between faculty members and students. Relationships of an intimate nature (that is, sexual and/or romantic) compromise the integrity of a faculty-student relationship whenever the faculty member has a professional responsibility for the student. The University prohibits intimate relationships between a faculty member and a student whose academic work, teaching, or research is being supervised or evaluated by the faculty member.

If an intimate relationship should exist or develop between a faculty member and a student, the University requires the faculty member to remove himself/herself from all supervisory, evaluative, and/or formal advisory roles with respect to the student.

Definition note: In this policy, the definition of faculty member refers to anyone appointed by the University as a teacher, researcher, or academic administrator, including graduate and undergraduate students so appointed. For complete text on this policy, see https://www.policy.pitt.edu/sites/default/files/Policies/Community-Standards/Policy_CS_02.pdf.

Family Educational Rights and Privacy Act (FERPA)

The University, in compliance with the Family Educational Rights and Privacy Act of 1974 (FERPA), affirms the University's commitment to safeguard the privacy of education records and to comply with the relevant regulations through policy AC 04: FERPA: Access to and Disclosure of Education Records.

Annual Notification of FERPA Rights

The Family Educational Rights and Privacy Act (FERPA) affords students attending, or who have attended, certain rights with respect to their education records. Students are considered to begin the period of attendance at the University once they are registered for their initial term of enrollment.

These rights include:

(1) The right to inspect and review their education records within 45 calendar days of the receipt of a request.

- Students may formally request to inspect and review their own Education Record, by submitting a request in writing to the Office of the University Registrar. The Office of the University Registrar shall identify appropriate Records Custodians to whom the request should be addressed and/or provide guidance in this process when necessary.
- Once a request is received, the Record Custodian will coordinate the opportunity for the Student to inspect and review the requested Education Record within 45 calendar days of the request. The Record Custodian shall verify the identity of the requester through proper photographic identification prior to allowing inspection of the Record.

(2) The right to exercise limited control through written consent over the disclosure of information contained in their education record.

The University discloses education records without a student's prior written consent under the FERPA exception for disclosure to school officials with legitimate educational interest. A School Official is an individual who engages in the instructional, supervisory, advisory, administrative, governance, public safety, research, and support functions of the University. They need not necessarily be a paid employee of the University. A School Official may include a contractor, consultant, volunteer, service provider, or other party under the direct control of the University to whom the University has contracted institutional services or functions for which the University would otherwise use an employee. Legitimate Educational Interest is the need for a School Official to access specific student education records in the course of performing their duties for the University.

The University may disclose education records without a student's prior written consent to school officials of another postsecondary institution where the student seeks or intends to enroll or where the student is already enrolled so long as the disclosure is for purposes related to the student's enrollment or transfer.

(3) The right to request to amend their education records if they believe the record to be inaccurate, misleading, or in violation of their privacy rights.

- Students may submit a request in writing to the appropriate Records Custodian to request an amendment to their Education Record. Such a request should clearly identify: the Student; the part of the Record believed to be inaccurate, misleading, or in violation of their FERPA rights; and the change being requested. The Office of the University Registrar shall identify appropriate Records Custodians to whom the request should be addressed and/or provide guidance in this process when necessary.
- Records Custodians must respond to Students' amendment requests within 30 days. If the Records Custodian agrees with the request, they may make the change and must notify the Student in writing of the amendment. If the Records Custodian disagrees with the request, the Records Custodian must notify the Student of the denial of the request and their right to request a hearing.
- Additional information regarding the hearing procedures will be provided to the student when notified of the right to a hearing and can be found in University Policy and Procedure AC04.

(4) The right to file a complaint with the U.S. Department of Education if they believe one of their primary rights under FERPA regulations has been violated or concerning alleged failures by the University to comply with the requirements of FERPA.

Complaints regarding alleged FERPA violations can be filed with the U.S. Department of Education at:

<https://studentprivacy.ed.gov/file-a-complaint>

U.S. Department of Education
Student Privacy Policy Office
400 Maryland Ave., SW Washington, DC 20202-8520

FERPA.Complaints@ed.gov

Questions concerning the University's FERPA Policy AC 04 may be directed to the Office of the University Registrar at 412-624-7600.

Directory Information

The University has established categories of information known as "Directory Information" within University Policy AC 04. It may disclose directory information from education records without written consent from a student unless that student has notified the University in writing of their request to restrict the disclosure of their directory information. When the Office of the University Registrar receives a student's request to restrict the release of Directory Information, no further disclosures of Directory Information are made without that student's written consent. A student may rescind this action by submitting a request in writing to the Office of the University Registrar via a form available through the FERPA information webpage.

The University designates the following types of personally identifiable information within an education record as Directory Information:

- Name
- Address
- Telephone Number
- E-mail Address
- Dates of Attendance
- Enrollment Status
- Level and Classification
- Field(s) of Study
- Degree Candidacy and/or Expected Graduation Date
- Degree(s) Conferred and Credential(s) Awarded, including the Date(s) of such Conferrals or Awards
- Awards, Scholarships, and Honors
- Thesis and Dissertation Titles
- Previous Institution(s) Attended
- Image or Likeness
- Past and Present Participation in Officially Recognized University Activities
- Date of Birth*

*Given the sensitive nature of date of birth, the University does not disclose a Student's date of birth as Directory Information except as required by law or for legitimate purposes to confirm the identification of a specific Student Education Record when the date of birth is furnished by a third-party.

Statement of Compliance Regarding Satisfactory Academic Progress (SAP) for VA Educational Beneficiaries - 38 US Code Section 3675(b)

This policy applies to students who are VA beneficiaries and is intended to prevent the submission of VA-claims ("certifications") for those students who are suspended. Specifically:

- In this instance, VA beneficiaries are defined as students receiving VA educational benefits under Chapter-30, Chapter-33, Chapter-35 and Chapter-1606, Title 38 U.S. Code.

- Students placed on academic probation at the end of the term may be certified for VA educational benefits for the subsequent term. If the student does not meet satisfactory academic progress in that subsequent term-defined as attaining a cumulative GPA at or above 2.00 for full-time students or attaining a cumulative GPA at or above 2.00 after attempting 12 additional credits for part-time students-the university will immediately suspend further VA certifications on behalf of the student.
- Students returning from one calendar year of suspension must re-apply for admission to the university. If accepted, those students may be certified for VA educational benefits.
Certification of Chapter-31 students will be at the discretion of the student's VA vocational rehabilitation counselor.

Statement of Compliance Regarding VA Educational Beneficiaries - 38 US Code Section 3679(e)

As a matter of policy, the University of Pittsburgh allows students identified as *covered individuals** to attend and participate in all course(s) of education for any given term in which the student has been certified for VA educational benefits. This policy includes those circumstances in which VA payment(s) for student tuition and fees is late or delayed for up to 90 days after date of certification. The University retains the right to impose late fees upon those students who incur or retain an outstanding balance beyond the amount of expected VA tuition & fee payment for the term.

It is school policy to request all beneficiaries of VA educational benefits-including covered individuals*-provide the following documentation as part of certification process:

- VA Certificate of Eligibility (COE) or Statement of Benefits as printed from the VA.gov website
- Completion of a certification request form (in hard-copy or on-line), which includes biographical information necessary for submission in the VA's IT system of record-VA-Once.
Failure to provide such documentation will result in the delay of any VA claim or certification.

* Note: VA defines a **Covered Individual** as any individual who is entitled to VA educational assistance under the VA's Vocational Rehabilitation and Employment program (38 U.S. Code Chapter 31) or the VA's Post-9/11 GI Bill® (38 U.S. Code Chapter 33).

("GI Bill®" is a registered trademark of the U.S. Department of Veterans Affairs (VA). More information about education benefits offered by VA is available at the official U.S. government website at www.benefits.va.gov/gibill).

Statement of Compliance Regarding the Johnny Isakson and David P. Roe Veterans Health Care and Benefits Improvement Act of 2020 - Section 1018

In accordance with the "*Responsible Education Mitigating Options and Technical Extensions Act*" or the "REMOTE Act" of 2021 to Section 1018 of the *Johnny Isakson and David P. Roe, M.D. Veterans Health Care and Benefits Improvement Act of 2020* (Public Law 116-315), the University of Pittsburgh provides a College Financing Plan (formerly known as Financial Aid Shopping Sheet) to every student who completes a FAFSA application including all VA beneficiaries.

Per Veterans Benefits Administration notification, "Isakson and Roe, Section 1018 Changes, dated June 13, 2022: The REMOTE Act affords the opportunity for schools to use the College Financing Plan (CFP), available through the U.S. Department of Education as a means to satisfy the requirements of section 3679(f). An Educational Training Institution that utilizes this form providing sufficient consumer information, will be exempt from all section 3679(f)

requirements, and does not need to apply for a waiver. An Educational Training Institution does not need to be participating in Federal Title IV Federal Student Aid to utilize the CFP to satisfy the requirements of section 3679(f).

Harassment Policies

Harassment

No University employee, student, or individual on University property may intentionally harass or abuse a person (physically or verbally) with the purpose or effect of unreasonably interfering with such person's work or academic performance, or of creating an intimidating, hostile, or offensive work or academic environment.

Sexual Harassment

The University of Pittsburgh is committed to the maintenance of a community free from all forms of sexual harassment. Sexual harassment violates University policy as well as state, federal, and local laws. It is neither permitted nor condoned.

It is also a violation of the University of Pittsburgh's policy against sexual harassment for any employee or student at the University of Pittsburgh to attempt in any way to retaliate against a person who makes a claim of sexual harassment. Any individual who, after thorough investigation and an informal or formal hearing, is found to have violated the University's policy against sexual harassment will be subject to disciplinary action, including, but not limited to, reprimand, suspension, termination, or expulsion.

Any disciplinary action taken will depend upon the severity of the offense. For more information, see https://www.policy.pitt.edu/sites/default/files/Policies/Community-Standards/Policy_CS_20.pdf.

Immunization Policy

All incoming full-time and part-time graduate, professional, and undergraduate students, except those enrolled solely in online programs, must submit proof of immunization against measles, mumps, rubella, varicella, and if living on-campus, meningitis.

A student may be granted a medical exemption from immunization based on a written statement from a physician or their designee. An exemption from immunization also may be granted based on a student's written objection to the immunization on religious grounds or based on a moral or ethical conviction.

For more information, see Vaccinations and Immunization Requirements, Policy CS29.

Patent Policy

A University student, during his or her period of enrollment, may be responsible for new discoveries and inventions that could have commercial value and contribute to scientific, technological, social, and cultural progress. Those accomplishments should be patented in the best interest of the student, the University, the public, and the government. The University's policy on patents determines the rights and obligations of the student and the University in any technology the student may invent while enrolled in the University. Details of this University policy are available from the Office of Technology Management or at https://www.policy.pitt.edu/sites/default/files/Policies/Research-Innovation/Policy_RI_10.pdf.

Research Integrity

The University of Pittsburgh seeks excellence in the discovery and dissemination of knowledge. Excellence in scholarship requires all members of the University community to adhere strictly to the highest standards of integrity with regard to research, instruction, and evaluation. Research misconduct carries potential for serious harm to the University community, to the integrity of science, and to society as a whole. The University's Research Integrity Policy is available online at https://www.policy.pitt.edu/sites/default/files/Policies/Research-Innovation/RI_07_Policy.pdf.

Smoking Policy

Smoking is prohibited in all University-owned and -leased facilities, including residence halls and off-campus housing facilities, and in all University vehicles, including motor pool vehicles, campus buses, and vans, with explicit limited exceptions described in University Policy 04-05-03. For complete policy text, see https://www.policy.pitt.edu/sites/default/files/Policies/Community-Standards/Policy_CS_21.pdf.

Student Service Indicators Policy

Access to many student services including registration and access to grades may be delayed for a number of reasons ranging from financial liability to missing data. Complete information on this policy is available online at https://www.policy.pitt.edu/sites/default/files/Policies/Academic/Policy_AC_62.pdf.

Use of Alcohol Policy

The University of Pittsburgh prohibits use and dispensing of alcohol in compliance with the laws of the Commonwealth of Pennsylvania. For more information, see https://www.policy.pitt.edu/sites/default/files/Policies/Community-Standards/Policy_CS_24.pdf.

Application for Admission

Most undergraduate admissions to the University of Pittsburgh's Pittsburgh campus are handled by the Office of Admissions and Financial Aid. This section details the general requirements and procedures for admissions to the University through that office and also provides admissions information for prospective students whose applications are not handled by that office. Some schools and programs require supplemental application materials or admission requirements in addition to those requested by the Office of Admissions and Financial Aid. Those requirements are listed within the Schools and Academic Programs section of this bulletin.

The admissions information in this section is subject to change at any time. It is intended to serve only as a general source of information.

Pittsburgh Campus First-Year Student Admissions

Prospective students who have not earned college credits since graduating from high school with a diploma or GED should consult this section for information on admission to the University of Pittsburgh.

Admissions Contact Information

University of Pittsburgh
Office of Admissions and Financial Aid
Alumni Hall
4227 Fifth Ave.
Pittsburgh, PA 15260-6601
412-624-PITT (7488)
Admissions: pitt.admissions@pitt.edu
Financial Aid: finaid@pitt.edu
admissions.pitt.edu
financialaid.pitt.edu

High School Preparation

First-Year Student applicants to the University of Pittsburgh should have completed a minimum of 17 units of credit in college-preparatory-level courses in high school. Specific course requirements for first-year entry schools include:

- Swanson School of Engineering applicants should have completed four units of mathematics through trigonometry/pre-calculus-as well as a unit each of chemistry and physics.
- School of Nursing applicants should have three units of laboratory science, including one year of chemistry with a lab, and four units of mathematics.
- College of Business Administration applicants should have completed four units of mathematics through trigonometry, pre-calculus or calculus in their senior year.

Application Procedures

Students seeking admission to the University of Pittsburgh must complete the online application, a Self-Reported Academic Record or an official high school transcript, and the \$55 application fee. Students may choose to submit SAT or ACT scores but are not required to do so. The Personal Statement, included with the First-Year Student Application, is optional but required for scholarship candidates.

Exceptions: Applicants to the Dental Hygiene Program, and students seeking special or non-degree status should see the application procedures outlined under their respective admissions sections (Dental Hygiene Program-School of Dental Medicine Admissions, and Special and Non-Degree Status).

Application Deadlines

The University of Pittsburgh practices a rolling admissions policy, meaning there is not a specific deadline by which prospective students must apply. Applicants are considered and informed of admission decisions on a first-come, first-served basis. However, applicants who want to be automatically reviewed for institutional merit scholarships must submit applications by December 1. See Academic Merit Scholarships.

Note: International students must apply by:

- April 1: for fall and summer term admission
- October 1: for spring term admission

Academic Merit Scholarships

Applicants are automatically considered for Pitt academic merit scholarships if their applications and all supporting materials are received by December 1. Scholarships are awarded for four years or eight semesters, provided that the student adheres to University Scholarship Guidelines.

Graduate School Guarantees

Outstanding first-year students applicants who indicate certain professional programs as their intended field of study on their application will automatically be reviewed for guaranteed admission into that professional program. We offer guarantees for 20 graduate programs, including business, law, medicine, dental medicine, and physician assistant studies.

A separate application is not necessary, although some programs have additional application requirements. Pitt Guaranteed Admissions Programs are competitive, so we highly recommend you apply for admission early in your senior year of high school. Early application is recommended as spaces are limited. Please note that the Medical School Guarantee has a deadline of November 1.

Enrollment Fee/Tuition Deposit

Once accepted, students must reserve their positions in the upcoming class by submitting a nontransferable, nonrefundable \$300 enrollment fee by May 1 for the fall term. This fee is a combined \$100 tuition deposit and a \$200 orientation fee). Residence hall accommodations on the Pittsburgh campus are guaranteed to first-year students admitted for the fall term who pay the \$300 enrollment fee by May 1 and meet all housing contract and deposit deadlines. Housing is guaranteed for three full years from the time admission is offered. After that housing is available on a first-come, first-served basis.

Deferred Admission

First-Year Student applicants who are interested in deferring University of Pittsburgh admissions may do so for up to one academic year following the term for which admission was offered, provided the enrollment fee has been paid by the May 1 deadline.

Examples of deferrals may include, but are not limited to a religious activity, community service, or world travel. Students may only defer to the same term as their original admission. For example, spring term admission students may only defer to the following spring term. Please refer to the deferral website for most up-to-date information.

International first-year students are eligible for deferral but must work with the Office of International Services regarding visas.

Regional Campus Admissions

Listed below is the contact information for the admissions offices of the University of Pittsburgh's four regional campuses. Contact the regional campuses for more information on their particular requirements:

Transfer Student Admissions

Prospective students who are high school graduates and have attended postsecondary institutions, colleges, or universities (except those who took college classes while in high school and are considered first-year students with advanced standing) apply for admission as transfer students through the Office of Admissions and Financial Aid. Transfers between University of Pittsburgh schools or campuses are handled through the school or campus.

Application Procedures

Degree-seeking transfer students who wish to be considered for admission to the University of Pittsburgh must complete an online application, an official high school transcript or GED, an official transcript from each postsecondary institution attended (whether or not it is intended that all courses will be counted toward a degree at the University of Pittsburgh), official SAT or ACT test result score if either test was taken, and the \$45 application fee.

Exceptions: Applicants to the Dental Hygiene Program, and students seeking special or non-degree status should see the application procedures outlined under their respective admissions sections (PharmD Program, Dental Hygiene Program-School of Dental Medicine Admissions, and Special and Non-Degree Status).

NOTE: International transfer students must apply online.

Admission Deadlines

The University of Pittsburgh practices a rolling admissions policy, meaning there is not a specific deadline by which transfer students must apply. Applicants are considered and informed of admission decisions as they apply. The following schools practice rolling admission for all three terms, except where noted: Dietrich School of Arts and Sciences, College of Business Administration, Swanson School of Engineering, College of General Studies, School of Nursing (fall and spring term admission only) and the School of Social Work (fall and spring term admission only). However, there are several schools and programs that have definitive deadlines by which applications must be submitted for consideration. You can verify deadlines for your school of interest online.

NOTE: International applicants must apply by the deadlines specified or the specific program deadline, whichever comes first.

Articulation Agreements and Transfer Credit Guide Summaries

The University of Pittsburgh has formal articulation agreements with various higher education institutions throughout the state of Pennsylvania to facilitate the transfer of students from one institution to the other as they pursue their educational goals. The table lists the current articulation agreements and their specific requirements.

Transfer Scholarships

Transfer scholarships are available to College of General Studies students who are U.S. citizens and eligible non-citizens. Degree-seeking applicants are automatically reviewed for eligibility. These annual scholarships range in value from \$600 to \$2,500. The scholarships are offered through: the CGS Alumni Endowment Scholarship Fund including John O. Bolvin and Anne E. Levenson scholarships, The Brackmann and Saalbach Family Endowed Scholarship, Joan C. Dash Scholarship, Bruce P. McGough Scholarship, Tom R. Slone Scholarship (designated for students who are active in the Big Brothers Big Sisters youth mentoring organization), and the Grace C. Stewart Fund. Awarding of these scholarships is handled through the Office of Admissions and Financial Aid.

Evaluation of Transfer Credits

Credits earned at another accredited institution are evaluated by the admitting school, which determines the number of advanced standing credits the transfer student will be awarded and the distribution of these credits in relation to the school's degree requirements and University policy. See the appropriate school's information in this bulletin.

Deferred Admission

The University does not offer deferred admission for a subsequent term to admitted students not enrolling for the term of their admission. However, students wishing to have their applications re-reviewed for another term may submit a request in writing to the Office of Admissions and Financial Aid.

Readmission

Students who previously attended the University of Pittsburgh then attended other institutions and wish to return to the University are considered transfer students and must reapply following the guidelines for transfer students. The admitting school will evaluate the credits previously earned at the University of Pittsburgh along with credits earned elsewhere to determine the number of credits the transfer student will be allowed. Acceptable credits from institutions other than Pitt will appear on the student transcript as advanced standing credits and will not count in the GPA calculation. Credits earned at the University of Pittsburgh will appear as term entries on the student transcript, and courses accepted toward the degree will be used when calculating the student's GPA.

Former University of Pittsburgh students who have not attended another institution may be reinstated through the dean's office of the school in which they were previously enrolled.

Dental Hygiene Program-School of Dental Medicine Admissions

The School of Dental Medicine offers a two-year (six consecutive terms) Associate of Science Degree in Dental Hygiene. The program is designed to fulfill the professional and academic requirements of the Commission on Dental Accreditation. Completion of the program prepares the student for licensure as a dental hygienist in most states.

Admissions Contact Information

University of Pittsburgh
School of Dental Medicine
Dental Hygiene Program
B-82 Salk Hall
Pittsburgh, PA 15261-1937
412-648-8432
hygieneadmissions@pitt.edu
dental.pitt.edu/students/dental-hygiene-program

Admission Requirements

Applicants to the Dental Hygiene Program must fulfill the following criteria before applying: have a high school diploma, have a minimum GPA of 3.0 at all academic institutions, have a minimum SAT I combined math and verbal score of 1200 or ACT score of 24, have successfully completed chemistry and biology courses with laboratory components, and have successfully completed a college-level English composition course and a college-level introduction to sociology course.

Application Procedures

Applicants to the Dental Hygiene Program must submit the following items to the School of Dental Medicine by November 1 for early decision review: a completed Dental Hygiene Program application, including the Personal Essay; three professional references; transcripts from all academic institutions attended; 15 hours of job shadowing with a practicing dental hygienist; and SAT I/ACT scores. Once the application materials have been received, the qualified applicant will be invited to attend a mandatory Applicant Seminar and participate in a personal interview with the admissions committee.

Students who complete this program also have the option of completing a Bachelor of Science in Dental Hygiene offered by the College of General Studies (see the College of General Studies listing in the Schools and Academic Programs section of this bulletin for information on BS degree completion option).

School of Nursing-RN Options (Early admissions To MSN Or DNP)

The University of Pittsburgh RN Options (Early Admission to MSN or DNP) curriculum is designed for registered nurses, who obtained their initial nursing education through either a CCNE, ACICS or ACEN [NLN] accredited diploma or associate degree or diploma program and want to pursue undergraduate education with early admission to graduate nursing program. Courses are taught by nursing leaders who are experts in their field. Faculty serve as educators, role models and mentors for their students. The RN Options curriculum builds upon the individual professional nurse's strengths and experiences to expand professional knowledge and practice skills. Graduates of the University of Pittsburgh School of Nursing possess critical appraisal/thinking skills, sophisticated clinical practice knowledge, and the ability to integrate the latest research findings to provide quality, safe and effective patient care.

Course offerings are flexible and students may begin coursework in any term (fall/spring/summer).

Applicants should apply using the online application.

Contact Information

University of Pittsburgh
School of Nursing

Pittsburgh, PA 15261
1-888-747-0794 or 412-624-4586
sao50@pitt.edu
www.nursing.pitt.edu

Admission Requirements and Application Procedures

Application Guidelines

RN-MSN or DNP early admission track:

- Successful completion of a nursing diploma or associate degree program submitting official Transcripts from institution.
- Cumulative Grade Point Average (GPA) of 3.0 for previous college and/or coursework, which must be semester credits or the equivalent.
- Copy of current RN license (All students must obtain a Pennsylvania license) (students may be permitted to take theory courses only until evidence of successful completion of NCLEX is provided)
- Successful completion of all prerequisite courses
- ≥ 3.0 GPA in Associate Degree or nursing diploma (from ACEN (NLN), ACICS, or CCNE accredited program)
- Graduate Record Exam (GRE) :
MSN track - may be waived if the RN program GPA is 3.5 or higher; or DNP track - no waiver, Verbal & Quantitative sections (competitive score), Analytical Writing (≥ 3)
- Brief type written essay (as needed DNP project statement)
- Current resume
- Three letters of professional recommendation, one from current manager
- Completed online application
- International applicants: consult nursing.pitt.edu & ois.pitt.edu
Formal interview*

Applicants must meet the admission criteria for the BSN Program and simultaneous conditional admission to the preferred graduate program. If admitted they will complete the remaining 24 credits will be at the graduate level. Full and part-time schedules are available.

*Potential students will meet with the RN Options Coordinator for an interview and must meet with the coordinator of the graduate program.

School of Nursing - Accelerated 2nd Degree BSN Program

The Accelerated 2nd Degree BSN is designed to enable individuals with a Baccalaureate Degree in another discipline the ability to earn a Bachelor's of Science Degree in Nursing (BSN) in three consecutive full-time terms. The

Accelerated 2nd Degree BSN requires 122 credits: 31 credits from a previous degree, 36 to 38 prerequisite credits, and 54 curriculum credits. The curriculum is fast-paced and designed to build upon the individual's previous education while providing additional science and nursing content. At the completion, graduates are eligible to take the National Council Licensure Examination (NCLEX) to become Registered Nurses (RN).

Admission to the Accelerated 2nd Degree BSN is competitive and is based upon proven academic achievement and grades earned in prerequisite courses. The school admits three cohorts, Fall, Spring and Summer.

Contact Information

University of Pittsburgh
School of Nursing
239 Victoria Hall
Pittsburgh, PA 15261
1-888-747-0794
sao50@pitt.edu
<http://www.nursing.pitt.edu>

Admission Requirements and Application Procedures

The Accelerated 2nd Degree BSN requires an applicant to complete 36 prerequisite credits. These courses may be taken at any college or university. Courses from other institutions must be evaluated as equivalent to University of Pittsburgh courses. (Coursework taken at the University of Pittsburgh School of Nursing prior to admission may be taken as a non-degree seeking student.)

Required prerequisites include:

Course	Credits
General and Biological Chemistry *+(includes a lab)	4
English Composition (scientific/technical)	3
<i>Directed Elective</i>	3
Psychology	3
Sociology	3
Statistics (<i>descriptive, probability, & inferential</i>)	3
Human Anatomy & Physiology *+ (<i>includes a lab</i>)	6 - 8
Human Genetics *+	3
Microbiology *+ (<i>includes a lab</i>)	4
Pathophysiology	4

*Should have been completed within the past ten years

+Should have achieved a grade of "B-" or better

Application Deadlines and Other Information

Early submission of an application is recommended. New classes begin in the Fall, Spring and Summer term. Accelerated 2nd Degree BSN applications are reviewed, and admission decisions made, based on the application deadlines: Fall Term -- February 15/June 1; Spring Term--June 1/October 1; Summer Term--October 1/February 15.

Prospective students must apply online to the School of Nursing.

School of Pharmacy PharmD Program

Transfer students, both within the Pitt system and from other colleges and universities, applying for admission to the School of Pharmacy must: (1) file an online PharmCAS application with all supporting credentials by the deadline; and (2) submit a School of Pharmacy Supplemental Application by the deadline specified in the online instructions. For more information on deadlines, online applications, admission calendar, and application instructions, please visit the school's "Admission Process" Web site.

Transfer within University Schools and Regional Campuses

Transfer between Schools

Students enrolled in an undergraduate school of the University who wish to transfer to another undergraduate school at the University should contact the school in which they are currently enrolled to request a transfer of their records. The student's records will be evaluated by the receiving school, which will then notify the student of acceptance or rejection.

Transfer between Campuses

Students enrolled in one campus of the University who wish to transfer to another campus of the University should contact the school at the campus in which they are currently enrolled to request a transfer of their records. The receiving schools will evaluate the records and notify students of acceptance or rejection.

Reinstatement

Students who have left the University for one calendar year or more (whether of their own volition or as a result of a suspension) and who wish to continue their studies must apply for reinstatement through the school to which they were previously admitted.

Second-degree Candidates

Previous Degree Earned Elsewhere

Students who have earned a previous undergraduate degree from an institution other than the University of Pittsburgh and wish to earn a second degree are treated as transfer students and must apply through the Office of Admissions and Financial Aid. (See Transfer Student Admissions.)

Previous Degree Earned at the University of Pittsburgh

Students who have earned an undergraduate degree from a school or campus of the University of Pittsburgh and who now wish to earn another bachelor's degree should apply as second-degree students directly through the desired school. This process may vary with some upper-level division schools.

Each school determines the number of previously earned credits that will apply. A minimum of 30 new credits must be earned to receive a second degree. In addition to those general rules, schools may have other requirements.

Special and NonDegree Admissions

College in High School

The College in High School Program, offered through the Dietrich School of Arts and Sciences, offers qualified area high school students the opportunity to earn college credits from the University during their regular school day. Courses in chemistry, communication, computer science, French, Latin, mathematics, physics, and statistics are offered. There is a registration process and fee for this program. For further information, contact the College in High School office at 412-624-6828.

Postbaccalaureate Students

Some of the schools at the University will allow students who have already earned a bachelor's degree to take courses at the University as nondegree students. Students should contact the appropriate school for information about admission requirements.

Students interested in the Dietrich School of Arts and Sciences or the College of General Studies should contact the College of General Studies, 412-624-6600, 407 Cathedral of Learning; College of Business Administration students should contact 412-383-9600, 2100 Sennott Square; Swanson School of Engineering students should contact the Engineering Student Records Office, 412-624-9800, 151 Benedum Hall.

NOTE: International applicants should file an online application.

Guest/Visiting Students

Guest students are those who are seeking a degree at another university but want to take courses at the University of Pittsburgh for credit with the expectation that the credits will transfer back to the student's home institution. Guest students must be in good academic standing and generally must apply at least a few weeks before the start of a given term. Contact the appropriate school for other admission requirements. Admission for the fall and spring terms is handled through the school. Summer admission for visiting students is handled through the College of General Studies.

NOTE: International applicants should file an online application.

Summer Visiting Students

Students who are seeking a degree at another university but want to take courses at the University of Pittsburgh for credit during the summer should apply through the College of General Studies (CGS). Contact CGS at 412-624-6600.

EXCEPTION: International students

Readmission of student service members to the University of Pittsburgh

The University of Pittsburgh will promptly readmit a service member with the same academic status they had when last attending or accepted for admission. This requirement applies to any student who cannot attend school due to military service.

Definitions

Military service (or service in the uniformed services)-Voluntary or involuntary service in the armed forces, including service by a member of the National Guard or Reserve on active duty, active duty for training, or full-time National Guard duty under federal authority, for a period of more than 30 consecutive days under a call or order to active duty of more than 30 consecutive days. This does not include National Guard service under state authority.

Service member-someone who is a member of, applies to be a member of, performs, has performed, applies to perform, or has an obligation to perform, service in the uniformed services.

Appropriate officer-A warrant, commissioned, or noncommissioned officer authorized to give such notice by the military service concerned.

Armed Forces-the U.S. Army, Navy, Air Force, Marine Corps, Space Force, and Coast Guard.

Active duty-full-time duty in the active military service of the United States. Active duty includes full-time training duty, annual training duty, and attendance, while in the active military service, at a school designated as a service school by law or by the Secretary of the military department concerned. Active duty does not include full-time National Guard duty.

Notice and Procedure

The student must notify the school of their military service and intention to return to school as follows:

- *Notification of military service.* The student (or an appropriate officer of the armed forces or official of the Department of Defense) must give oral or written notice of such service to the University of Pittsburgh Office of Veterans Services ("OVS") as far in advance as is reasonable under the circumstances. This notice does not have to indicate whether the student intends to return to the school and may not be subject to any rule of timeliness. (Timeliness must be determined by the facts in each case.) Alternatively, at the time of readmission, the student may submit an attestation of military service that necessitated their absence from school. No notice is required if precluded by military necessity, such as service in operations that are classified or would be compromised by such notice.
- *Notification of intent to return to school.* The student must also give oral or written notice of their intent to return to their program of study to OVS within three years after the completion of the period of service. A student who is hospitalized or convalescing due to an illness or injury incurred or aggravated during the performance of service must notify OVS within two years after the end of the period needed for recovery from the illness or injury. A student who fails to apply for readmission within these periods does not automatically forfeit eligibility for readmission but is subject to the applicable University of Pittsburgh policies or practices generally governing student leaves of absence, readmission, and/or reinstatement.

OVS suggests that students providing Notification of military service or Notification of intent to return to school do so sending an email to the Director of OVS at the following address veterans@pitt.edu, or orally by calling 412-383-5580, in order to ensure accuracy and expeditious processing, but such notice is not required to follow any particular format.

When a student is requesting readmission, they will be required to provide any supporting documentation requested by the University, in accordance with 34 C.F.R. § 668.18(g).

The University of Pittsburgh will promptly readmit the student into the next class or classes in the program beginning after they provide notice of intent to reenroll, unless they request a later date or unusual circumstances require the University of Pittsburgh to admit them at a later date.

The University of Pittsburgh will admit the student with the same academic status, which means:

- to the same program to which the student was last admitted or, if that exact program is no longer offered, the program that is most similar to that program, unless they choose a different program;
- at the same enrollment status, unless the student wants to enroll at a different enrollment status;
- with the same number of credit hours previously completed, unless the student is readmitted to a different program to which the completed credit hours are not transferable; and
- with the same academic standing (e.g., with the same satisfactory academic progress status) the student previously had. If the student is readmitted to the same program, for the first academic year in which they return, the University of Pittsburgh will assess the tuition and fee charges that they were or would have been assessed for the academic year during which they left the school. However, if their veteran's education benefits or other service member education benefits will pay the higher tuition and fee charges that other students in the program are paying for the year, the University of Pittsburgh may assess those charges to the student as well.

If the student is admitted to a different program, and for subsequent academic years for a student admitted to the same program, the University of Pittsburgh will assess no more than the tuition and fee charges that other students in the program are assessed for that academic year.

The cumulative length of the absence and of all previous absences from the University of Pittsburgh for military service may not exceed five years. Only the time the student spends actually performing service is counted.

Helping students to be readmitted and when it might not occur

If the University of Pittsburgh determines that the student is not prepared to resume the program with the same academic status at the point where they left off or will not be able to complete the program, the University of Pittsburgh will make reasonable efforts at no extra cost to the student to help them become prepared or to enable them to complete the program. This may include providing refresher courses and/or other remedial measures as the University deems appropriate under the circumstances.

The University of Pittsburgh is not required to readmit the student if it determines:

- that there are no reasonable efforts it can take to prepare the student to resume the program at the point where they left off or to enable them to complete the program; or
- that after it makes reasonable efforts (those that do not place an undue hardship on the institution), the student is not prepared to resume or complete the program.
"Undue hardship" means an action requiring significant difficulty or expense considering the overall financial resources of the school and the impact of such action on its operation.

The University of Pittsburgh has the burden to prove by a preponderance of the evidence that the student is not prepared to resume the program with the same academic status at the point where they left off or that they will not be able to complete the program.

Campus Facilities and Student Services

Academic Resources

A strong infrastructure of services is key to ensuring academic success at any institution of higher learning. The University of Pittsburgh has a wide variety of academic resources that provide that infrastructure to aid students with their research, computing, tutoring, and advising needs.

University Library System

271 Hillman Library
412-648-7710
feedback@library.pitt.edu
www.library.pitt.edu

The University of Pittsburgh libraries and collections provide an abundant amount of information and services to the University's students, faculty, staff, administrators, and researchers. In fiscal year 2007, the University's 28 libraries and collections have surpassed 5.1 million volumes. In addition, they contain more than 5 million pieces of microforms, and more than 48,000 current serials.

Under the administration of the Hillman University Librarian and Director, the University Library System (ULS) includes the following libraries and collections: Hillman (main), African American, Allegheny Observatory, Archives Service Center, Buhl (social work), Center for American Music, Chemistry, Darlington Memorial (American history), East Asian, Engineering (Bevier Library), Frick Fine Arts, Government Documents, Katz Graduate School of Business, Langley (biological sciences, behavioral neuroscience), Mathematics, Music, Public and International Affairs/Economics, and Special Collections. Libraries are also located at each of the University's four regional campuses. The ULS maintains a high-density storage area at the Library Facility in the Point Breeze section of Pittsburgh.

The Hillman Library is the largest facility, with seating for 1,530 users. It offers an open stack arrangement and an extensive range of library services. Hillman Library houses collections in the humanities and social sciences and includes area studies, psychology, computer science, maps, and government documents. In addition to the ULS, the University offers the Barco Law Library and the Health Sciences Library System.

The Health Sciences Library System (HSLs) at the University of Pittsburgh comprises several libraries that support the educational, research, patient care, and service activities of the schools of the health sciences (Medicine, Dental Medicine, Pharmacy, Health and Rehabilitation Sciences, Nursing, and Public Health) as well as the hospitals of the University of Pittsburgh Medical Center. The HSLs include Falk Library of the Health Sciences, The Western Psychiatric Institute and Clinic Library, The Libraries at UPMC Shadyside, and the Children's Hospital of Pittsburgh Libraries. The Computer and Media Center in Falk Library is the primary health sciences facility and service point for audiovisual and microcomputer resources. HSLs Online (www.hsls.pitt.edu) is the gateway to extensive electronic resources for clinical and research needs.

This year, the University of Pittsburgh's online library catalog, PITTCat, which provides access to materials held in all University libraries, has been updated. PITTCat+ now offers, in addition to the more than five million titles from PITTCat Classic, all items from the D-Scribe Digital Collections, along with enhanced book content such as integrated article searching, access to tables of contents, jacket covers, and book reviews. Further features are a word cloud of associated search terms, spelling variants, translated terms, and thesaurus terms, as well as refined search options that allow searches based on library location. Searches can also be saved as an RSS feed that will send notifications when new items are added to the catalog.

The ULS also provides access to a comprehensive journal and magazine article discovery tool, Zoom!, as well as other online resources such as: Web of Science, Science Direct, and Scopus in the physical sciences; PsycINFO, ERIC, and Congressional Quarterly for the social sciences; Historical Abstracts, Philosopher's Index, and RILM Abstracts of Music Literature in the arts and humanities; and additional collections of article and newspaper databases from EBSCO and Lexis-Nexis.

These and hundreds of other online resources are available via the Pitt Digital Library at www.library.pitt.edu. The University of Pittsburgh is a member of the Association of Research Libraries. Through membership in several Pennsylvania consortia of libraries (PALCI, PALINET, and the Oakland Library Consortium), cooperative borrowing arrangements have been developed with other Pennsylvania institutions.

Information Technology (CSSD)

Walk-In Support Desks
Litchfield Towers Lobby
University Store on Fifth
412-624-HELP (4357)
technology.pitt.edu

University of Pittsburgh students have access to the latest information technology resources provided by Computing Services and Systems Development.

Connect to Wi-Fi

Depending on location, you'll find one of two networks on campus: PittNet in academic and administrative buildings-including the William Pitt Union-and MyResNet in all rooms, common areas, and dining facilities in residence halls.
pi.tt/pittnet

Sign In Once, Authenticate Twice

Use Pitt Passport single sign-on to access many of the University's web-based services. Download the Duo Mobile app to verify your identity with multifactor authentication. For services that don't use single sign-on, Pitt Password Manager creates strong, unique passwords and saves them in a secure vault-that you can access from any device-using a single master password. pi.tt/passport

Log In to Your Pitt Email

Your email address begins with your University Computing Account username: *abc123@pitt.edu*. The email account is yours to keep, even after you graduate. pi.tt/emailsetup

Install Free Software-Including Office

Install the software you need at no charge, including Microsoft Office, Antivirus (Symantec Endpoint Protection), Anti-Malware (Malwarebytes), and nearly 70 additional titles. Gain cloud-based access to even more applications via Office 365 ProPlus, along with Office apps for Android and iPhone. pi.tt/studentsoftware

Browse the Pitt App Center

Fine nearly 50 free University-related iOS and Android apps for doing everything from viewing class assignments to checking the Panthers' score. pi.tt/appcenter

Find Focus in Student Computing Labs

Eight computing labs around campus-some open 24 hours a day-provide convenient access to Windows and Mac computers with a variety of software, as well as scanners, printers, charging stations, and space to use your own device. What's more, computer kiosks throughout campus provide a quick alternative for getting online if you forget your phone or your battery dies. pi.tt/labs

Print from Your Laptop or Smartphone

It's easy to print to any of the 80 print stations across the Pittsburgh campus. Download the Pitt Print Client from software.pitt.edu to print from your computer. Using a phone or tablet? Simply email the file to mobileprint@pitt.edu or colorpint@pitt.edu. Alternatively, visit print.pitt.edu to upload files and manage your Pitt Printing account. pi.tt/print

Manage Your Academics

Register for classes, message the instructor, get assignments, and see grades using the Pitt PS Mobile and Courseweb (Blackboard) apps. pi.tt/courseapps

On-Demand Learning

Brush up on your tech skills, learn a new topic or take up a new hobby with thousands of free courses offered through LinkedIn Learning. pi.tt/linkedin

Cloud Storage & Collaboration

Store, work on, and share files in real time, from any device, using Box and/or Microsoft OneDrive. pi.tt/collaboration

Discover Additional Online Services

Whether you need help connecting to PittNet Wi-Fi, finding a campus shuttle, or loading Panther Funds, AskCathy Service Discovery (askcathy.pitt.edu) can help you quickly find online University resources. pi.tt/askcathy

Get Help When and How You Want It

The 24/7 IT Help Desk is your central point of contact for all Pitt Information Technology services. Get fast and friendly support via phone, chat, email, walk-in locations, or an online form-even on holidays. pi.tt/help

Writing Center

Writing Center
317B O'Hara Student Center
412-624-6556
writingcenter.pitt.edu

The Writing Center provides a place for all University of Pittsburgh students to come to work on their writing. The Center is staffed by experienced consultants who have been trained to help others with their writing. The Center also offers Writers' Café (for anyone interested in the craft of creative writing) and International Café (for international undergraduate and graduate students). Online tutoring is available for students who are off campus. For more information (including our schedule of events) or to make an appointment, visit our website.

English Language Institute

M13 Parkvale Building
412-624-5901

The English Language Institute (ELI) is part of the Department of Linguistics and offers a variety of English-as-an-additional-language courses and programs, as well as courses and support for matriculated students at the University and expertise for other University-related endeavors that involve English language learners and Teaching English to Speakers of Other Languages (TESOL).

Non-Credit English Classes

- Speaking, listening, writing, reading, and grammar courses in English for speakers of other languages from abroad and the local international community who want to improve their English for academic, professional, or personal reasons
 - Admission to the ELI's non-credit courses and programs does not include admission to the University of Pittsburgh.
Support for Matriculated Students at the University of Pittsburgh
 - English proficiency testing of non-native speakers of English who are matriculating in University programs
 - Credit and non-credit English language support courses for matriculated students and teaching assistants/fellows who are non-native speakers of English
 - Specialized English instruction to University programs by request
 - Assessment of teaching assistants/fellows who are non-native speakers of English to ensure compliance with the legal requirements of the Commonwealth of Pennsylvania
 - Teacher training, internships, and research opportunities for matriculated students in University programs in the areas of Applied Linguistics and TESOL
 - Expertise for various other University-related endeavors that involve English language learners and TESOL
- Additionally, the ELI actively participates in and contributes to the development of the field of English for speakers of other languages, especially in areas of classroom instruction, second language learning and acquisition, curriculum design, program structure, and administrative practices. For more information about the English Language Institute, contact elipitt@pitt.edu, visit www.eli.pitt.edu, or call 412-624-5901.

Housing

The University provides a variety of housing options and support services to students, including Residence Life and Off-Campus Living. Students may choose to live on campus in University-owned housing or in off-campus housing.

Housing Application Process

Incoming Students

As part of the admissions process, the University provides entering freshmen with a three-year housing guarantee, provided they

- Have been admitted through the Office of Admissions and Financial Aid and their tuition deposit has been received by May 1, and
- Have submitted their Housing/Dining Services Application, contract, and deposit by the due date.

Returning Guaranteed Students

Students who have lived in University housing during their first year with a housing "guarantee" are guaranteed housing for their second and third years at the University provided that they

- Maintain their status as current and continuing full-time undergraduate students in each successive year and
- Currently reside in University Housing and meet all housing requirements (application, contract, deposit, and due date) in each successive year.

The housing application process takes place each spring and is administered by Panther Central, which is located in the Litchfield Towers main lobby. For all housing information, stop in or call Panther Central at 412-648-1100 or visit <https://www.pc.pitt.edu/housing-services>.

Residence Life

The director and assistant directors of Residence Life are responsible for resident assistants and resident directors, who work with students as their live-in advisors and resource persons within the residence halls. The office also advises the Resident Student Association (RSA), the Residence Life governing body. The staff offers a variety of educational and social activities within the residence halls, addresses student counseling and conduct issues, and provides other assistance to residents on matters affecting the quality of life in the residence halls.

Residence Life also offers students opportunities to live in focused living learning communities, which are linked with specific academic departments. Residence Life staff provide personal assistance 24 hours a day, seven days a week. For more information, students should contact the resident director in their hall, visit or call the office in 203 Bruce Hall (412-648-1200/1201), or go to www.reslife.pitt.edu.

Off-Campus Living

The Off-Campus Living (OCL) Center provides assistance to students, staff, and faculty in identifying, renting, leasing, or purchasing suitable living accommodations. Off-Campus Living provides the following: information on University-owned apartments, an apartment roommate matching service, a sublet service, maps of Pittsburgh and surrounding areas, rental tips, campus shuttle schedules, free local telephone service to contact landlords, and listings of apartments inspected and approved by the City of Pittsburgh. Call 412-624-6998, visit the office at 204 Brackenridge Hall, 3959 Fifth Avenue, or go to www.ocl.pitt.edu.

Student Resources

The University is committed to providing a high quality of life for its students and toward that end supports a variety of offices and activities designed to aid students in realizing their potential and having a fulfilling on-campus life.

Affirmative Action

In addition to its work with developing, implementing, and monitoring the University's affirmative action program, the Office of Affirmative Action is responsible for receiving, investigating, and mediating complaints from any members of the University community who believe they have been discriminated against or harassed on the basis of their race, color, religion, national origin, ancestry, sex, age, marital status, familial status, sexual orientation, gender identity or expression, disability, or status as a disabled veteran or a veteran of the Vietnam era. Individuals may request information and advice anonymously if they wish. The privacy of all parties will be respected. The office is in 412 Bellefield Hall, 315 S. Bellefield Ave.; the phone number is 412-648-7860.

Athletics

The University offers a variety of opportunities for students to participate in athletics on the varsity, intramural, and club levels, as well as on-campus facilities for group sports and individual exercise.

Varsity Sports

The University offers 10 sports for men (baseball, basketball, cross country, diving, football, soccer, softball, swimming, indoor and outdoor track, and wrestling) and nine sports for women (basketball, cross country, diving, gymnastics, soccer, swimming, tennis, indoor and outdoor track, and volleyball) at the varsity level as well as cheerleading activities. For more information about these sports and contact numbers for varsity coaches, call 412-6488200 or visit the Pittsburgh Panthers Web site at www.pittsburghpanthers.com.

Intramural and Club Sports

New outdoor playing fields are available behind the renovated Cost Sports Center. Call 412-648-8210 for more information or visit the intramural program's Web site at www.intramurals.pitt.edu.

Sports clubs offer participation in sports ranging from bowling to rowing. Contact the Student Organization Resource Center (833 William Pitt Union, 412-624-7116) for more information on sports clubs or visit the Web site at www.sorc.pitt.edu.

Sports Facilities

There are a variety of sports facilities available for use by individuals and groups. Fitness centers are available in Litchfield Towers, Schenley Quadrangle, Lothrop Hall, Sutherland Hall, Bellefield Hall, Trees Hall, and the Baierl Student Recreation Center in the Petersen Events Center. Gymnasiums and swimming pools are available in Trees Hall and Bellefield Hall. The Baierl Student Recreation Center has two convertible racquetball/squash courts and four racquetball courts. In addition, eight squash courts are available in the Fitzgerald Field House, and soccer fields are available through the Department of Athletics.

Visit www.intramurals.pitt.edu for a virtual tour of the facilities, reservation information, and hours of operation.

Book Centers

The University owns and operates two bookstores on campus: The Book Center and The Health Book Center. The Book Center, at 4000 Fifth Ave., carries textbooks for most University courses, as well as a general book selection,

school supplies, and sundries such as art supplies, stationery, greeting cards, and calendars. Call 412-648-1455 or visit <http://www.pittuniversitystore.com/home.aspx> for more information. The Health Book Center, at 3527 Forbes Ave., carries all course books for the Schools of Medicine, Dental Medicine, Health and Rehabilitation Sciences, Nursing, and Pharmacy, as well as the School of Public Health. Call 412-648-8915 or visit <http://www.pittuniversitystore.com/home.aspx> for more information.

The University Counseling Center

The University Counseling Center, in 334 William Pitt Union, is staffed by licensed psychiatrists, psychologists, social workers, and counselors who provide a variety of services for undergraduate and graduate students. All services of the center are accredited by the International Association of Counseling Services and are confidential, free, and voluntary.

We provide individual, couples, and group counseling for students seeking assistance for relationship problems, anxiety, depression, stress, and concerns about academic progress or direction. We also provide psychiatric services and medication management for currently enrolled students. Special services such as sexual assault counseling and advocacy are provided through the center's Office of Sexual Assault Services. In addition, drug and alcohol assessments and counseling are provided at the center.

For information about the center and its services, see www.counseling.pitt.edu. To schedule an appointment, call 412-648-7930.

Sexual Assault Services/University Counseling

The Office of Sexual Assault Services provides individual and group counseling designed to alleviate the trauma associated with sexual victimization. Emergency medical, legal, and police support is provided. Students are assisted in negotiating course schedules or room changes and in obtaining medical, legal, and counseling resources available to them in the University and local communities.

The Office of Sexual Assault Services also sponsors Peers 2 Peers. This is a volunteer student outreach program whose mission is to create an awareness of the dynamics of sexual assault on the Pittsburgh campus, promote effective communication, and prevent sexual victimization through educational programming. For more information, call 412-648-7856 or 412-648-7930, visit 334 William Pitt Union, or see <http://www.saserv.pitt.edu>.

Disability Resources and Services

The Office of Disability Resources and Services (DRS) provides a broad range of support services to assist students with disabilities. Services include, but are not limited to, tape-recorded textbooks, sign language interpreters, adaptive computer technology, Braille translation, and nonstandard exam arrangements. Contact DRS at 412-648-7890 or 412-383-7355 (TTY) in 140 William Pitt Union or see www.drs.pitt.edu for more information.

Dining Services

Campus Dining Services offers students a variety of dining options. All student dining services are coordinated and administered through Panther Central, which is located in the Litchfield Towers main lobby. All students residing in residence halls are required to purchase a meal plan. Students living in University apartment-style accommodations may purchase a meal plan but are not required to do so. Students can select from a variety of meal plans, each offering different combinations of dining passes and dining dollars. Campus Dining Services invites you to check out all of our dining options across campus.

Major Residence Hall Dining Facilities

- Market Central in Litchfield Towers
- The Perch at Sutherland

Retail Operations

- Quick Zone in Litchfield Towers and Sutherland Hall
 - Market to Go in Litchfield Towers
 - Schenley Café in William Pitt Union
 - Cathedral Café in the Cathedral of Learning
 - Petersen Events Center Food Court
 - Starbucks Coffee Carts across campus
 - Einstein Bros. Bagels in Posvar Hall and Benedum Hall
- For all dining information, stop in or call Panther Central at 412-648-1100 or visit www.pc.pitt.edu/dining/index.html.

Health Care and Student Health Service

All full-time students pay a student health fee each term to cover a variety of services at the Student Health Service in Suite 500 of the Medical Arts Building, 3708 Fifth Ave., Pittsburgh, PA 15213. The Student Health Service is a multiservice health care facility that offers outpatient clinical services, gynecology, and comprehensive health education programs. Call 412-383-1800 or visit www.studenthealth.pitt.edu for more information.

The University of Pittsburgh Pharmacy, in the same suite as the Student Health Service, offers over-the-counter and prescription medicines, often at lower prices than available elsewhere. Call 412-383-1850 or visit www.studentaffairs.pitt.edu/shspharmacy for more information.

Students should have health insurance to protect themselves in the event of illness or injury. A direct-pay medical insurance plan is available to students through University health plans. The plan is designed to provide insurance benefits for services not offered at the Student Health Service as well as for hospitalization and emergency care. Applications and product information are available at the Student Health Service.

ID Cards (Panther Cards)

Every student, faculty, and staff member at the University must obtain an ID card from Panther Central, located in the Litchfield Towers main lobby. Student IDs, or "Panther Cards," are used to access residence halls (your assigned residence only), meal plan, athletic events, campus shuttle buses, recreational facilities (within your residence hall, Bellefield Hall, Trees Hall, and the Baierl Student Recreation Center), Student Health Services, computer labs, and Pitt Program Council events. The Panther Card also affords access to off-campus benefits such as free admission to some Pittsburgh cultural facilities. In addition, the Panther Card offers access to Panther Funds at local participating merchants. For all Panther Card information, stop in or call Panther Central at 412-648-1100 or visit www.pc.pitt.edu/card/index.html.

International Services

708 William Pitt Union
412-624-7120
www.ois.pitt.edu

The Office of International Services (OIS) advises international students on how to maintain their immigration status and helps to ensure compliance for both international visitors and the University, with respect to federal regulations. OIS also provides generalized support in connecting the University's international community and their hosting departments with resources inside and outside campus. For more information, contact OIS at ois@pitt.edu, or call 412-624-7120.

Parking and Transportation

The University provides a variety of parking and transportation services, both on and off campus. For more information, contact the University Department of Parking, Transportation, and Services at 412-624-8612 or visit www.pts.pitt.edu.

Parking Services

Student parking is available year-round. The Parking Services Office provides several parking options to meet the different schedules and needs of students. Commuter parking is available daily on a cash basis or by the term in selected facilities by permit only. Resident student permits are available for full-time students residing in one of the University residence halls operated through the Housing Office. Evening permits are available for parking after 2:50 p.m. weekdays and all day on weekends, except during special events, in many University lots. For more information, visit our Web site at www.pts.pitt.edu/parking. The Parking Services Office is located at 204 Brackenridge Hall, 412624-4034.

Commuting Alternatives (Ridesharing)

Daily commuter students can save money by sharing a ride. A free, computerized matching service is available to help you locate others interested in carpooling. Contact the University's ridesharing partner online at commuteinfo.org, or call 888-814-6110. For additional commuting alternatives, visit www.pts.pitt.edu/commuting.

Public Transportation

Students may ride any Port Authority bus, incline, or light-rail train within Allegheny County for free by showing their valid University ID cards. The Department of Parking, Transportation, and Services, at 3525 Forbes Ave., maintains all Port Authority rider information, including maps, schedules, and routes to facilitate the use of public transit. Port Authority bus schedules are also available in the lobby of the William Pitt Union.

Pittsburgh campus Transportation System

University of Pittsburgh students may ride all of the Pitt buses and shuttles fare-free by showing a valid University ID.

In addition, students are permitted two guest riders (space permitting). Buses and shuttles normally have a 20- or 30minute route. Detailed maps and time schedules are available online at www.pc.pitt.edu/transportation/index.html and at the William Pitt Union information desk. The Department of Parking, Transportation, and Services is located at 3525 Forbes Ave.

SafeRider

A night-time, non-emergency van service called SafeRider is available during the evening and early morning hours to transport you from one campus building to another, from local residences to campus buildings, and from campus buildings to local residences within the University boundaries, and it is not on a regular University bus route. SafeRider operates during the following hours:

Fall and Spring:

Sunday-Wednesday and days when the shuttle system operates on a holiday schedule

7 p.m.-3 a.m.

Thursday-Saturday

7 p.m.-5 a.m.

Summer:

Daily 9 p.m.-3 a.m.

For service, call the dispatcher at 412-648-CALL (2255) during these times. You will need to provide the following information when you call: your name, pick-up location and the telephone number at the pick-up location, destination, number of individuals with you, and student ID number. Consult the SafeRider brochure for additional information concerning policies and procedures.

Buses Home for the Holidays

This program is designed to give students a safe, comfortable, alternative ride home for the three major recesses: Thanksgiving, winter, and spring. Buses depart from the William Pitt Union, and most of the destinations served are direct routes. Deluxe motor coaches (Lenzer/Coach USA) transport the students in air-conditioned comfort while movies are shown en route.

Bicycle Registration Program

Registration of bicycles is recommended as a deterrent to theft, to help in the identification of lost or stolen bicycles, and to help better accommodate cyclists at the University. Registration is easy, and it is free. You may register bikes at www.pts.pitt.edu/commuting/bicycling/bike-registration.php.

Bicycle lockers are available at two convenient locations. The locker totally encloses the bicycle, protecting it from rain and snow. There is also room to store a helmet, riding shoes, and other accessories. Lockers may be rented by the term at the Parking Services Office in 204 Brackenridge Hall.

Career Development

The Career Development Office is dedicated to helping students prepare for rewarding careers by providing individual assistance and a variety of professional development programs. Career counselors and consultants assist students with choosing or changing an academic major through personal assessments, writing effective resumes and cover letters, networking with professionals, exploring internship opportunities, applying for graduate or professional school, and preparing for job interviews. Career Development has a variety of online resources that are available through the my.pitt.edu portal, including *FutureLinks*, a career management software program that enables students to apply for jobs and internships, as well as register for job fairs, career workshops, and other programs and events. Diverse educational programs are offered for students in all stages of their journey. For more information, call 412-648-7130, stop by 224 William Pitt Union, or see www.careers.pitt.edu.

Police Department

The University of Pittsburgh Police Department provides police and security services to the University community. For emergency calls, dial 811 from on-campus phones or 412-624-2121 from off-campus phones. The University of Pittsburgh Police Department's main headquarters is in G1N30 Wesley W. Posvar Hall. For general information calls (non-emergency), dial 412-624-4040 or see <http://www.police.pitt.edu>.

Student Government

Undergraduates at the University are represented by two primary governing bodies, the Student Government Board and the College of General Studies (CGS) Student Government Council.

The Student Government Board (SGB)

The Student Government Board (SGB) is an elected body of nine students that exists to promote the concerns, interests, needs, and welfare of non-College of General Studies undergraduates at the Pittsburgh campus of the University of Pittsburgh. As the governing body for students, SGB serves as the liaison to University faculty, administration, and staff. SGB also distributes student activity fee funds to student clubs and organizations.

SGB makes appointments to University committees and also oversees SGB committees, whose membership is open to all undergraduates. These SGB committees include Academic Affairs; Allocations; Communications; Community and Governmental Relations; Elections; Facilities, Technology, and Transportation; First Year Council; Judicial; Wellness; and any existing task force or ad-hoc committee. The SGB meets weekly during the fall and spring terms. For more information, call 412-648-7970, visit 848 William Pitt Union, or see www.sgb.pitt.edu.

The CGS Student Government Council

The CGS Student Government Council is composed of five elected members who represent the interests of students in the College of General Studies. The Council coordinates a variety of student programs and services and allocates the CGS student activity fee. In addition to the five members of the Council, there are five divisions that help carry out the Council's business: Budget and Finance, Judicial Affairs, First Degree, Marketing and Advertising, and Student Programs. For more information, call 412-648-7895, visit 824 William Pitt Union, or see www.cgssg.pitt.edu.

PITT Arts

Each year, 22,000 Pitt students experience the power of the visual and performing arts in Pittsburgh through the PITT ARTS program, which sponsors 110 free student outings per year, including trips to the symphony, cinema, opera, ballet, theater, and museums. Students may also use their student ID cards (Panther Card) to visit the Carnegie Museums of Art and Natural History, Phipps Conservatory and Botanical Gardens, and The Andy Warhol Museum at no cost. Visit the PITT ARTS Web site at www.pitt.edu/~pittarts to find a listing of current arts events in Pittsburgh and on campus, and explore the cheap seats page to find out about deeply discounted tickets, sold right in the William Pitt Union, to local arts organizations.

Pitt Program Council

A variety of entertainment and educational activities are planned each year by the student committees of the Pitt Program Council (PPC), the central programming organization on campus. Programs include lectures, travel packages,

weekend films, miniseminars, recreational tournaments, annual homecoming activities, and art gallery exhibits. New members are always welcome. For more information, contact the Pitt Program Council at 412-648-7900, or visit www.pitt.edu/~ppc.

Student Employment and Placement Assistance

The mission of the Office of Student Employment and Placement Assistance (SEPA) is to connect Pitt students who are actively seeking jobs or internships with recruiters and human resources professionals at businesses and organizations throughout the country. SEPA staff work to build relationships with representatives in a variety of career fields and help match qualified students with companies. SEPA hosts several career fairs each semester, facilitates the on-campus interviewing process, and helps students to tap into the Pitt Career Network sponsored by the Pitt Alumni Association. Employers and students use the online career management software program *FutureLinks*, which is accessible on the my.pitt.edu portal, to make connections. For more information, call 412-648-HIRE (4473), stop by the office located at 200 William Pitt Union, or visit www.sepa.pitt.edu.

Student Media

Student-produced media creates original news and entertainment for students and provides training to students interested in working in the media.

The Pitt News publishes a daily newspaper in print, online, social media and mobile app and features news, sports, opinions, art and entertainment and videos.

WPTS-FM radio station broadcasts alternative and independent music, campus news and sports via the FM dial, webstreaming and mobile apps. Their website provides music articles, concert reviews, and news and sports reports.

UPTV-21 television station posts varied short comedic and dramatic video entertainment programs on YouTube and streams some programming live on its website.

Student Organizations

More than 500 registered student organizations provide myriad opportunities for extracurricular activity. In addition to government, media, publications, programming, fraternity, sorority, and honor societies, there are clubs for sports, recreation, performing arts, politics, religion, service, professional and academic pursuits, ethnic and cultural enrichment, and many other specialized interests. Students may also participate in organizations that represent the interest of specific student groups, such as the Black Action Society. A complete list of registered student organizations is available at www.sorc.pitt.edu. The Student Organization Resource Center (SORC) is the office that oversees registered student organizations and is located in 833 William Pitt Union.

Student Volunteer Outreach

The Student Volunteer Outreach (SVO) promotes, supports, and provides opportunities for students to participate in community service and service-learning activities ranging from one-time service projects and alternative break projects to internships and ongoing volunteer opportunities. It also sponsors annual projects and events, including the SVO/SGB Pittsburgh Project, Pitt Partnership for Food, and the Agency Fair for student volunteers. The SVO is on the ninth floor of the William Pitt Union; its Web site is www.svo.pitt.edu.

University Child Development Center

The University Child Development Center is a developmental child-care facility for children between the ages of 6 weeks and 5 years. The center is open to children of University students, faculty, and staff. The children are free to select activities from an age-appropriate environment prepared by the teaching staff. The environment allows children to practice previously learned skills and challenges children to develop new psychosocial, cognitive, and motor skills in a relaxed, nurturing atmosphere. The center is at 635 Clyde St. and is open from 7 a.m. to 6 p.m. Monday through Friday. For more information, call 412-383-2100 or see www.hr.pitt.edu/ucdc.

Veterans Services

The staff of the Office of Veterans Services facilitates the transition of veterans from military to University life, supports their ongoing academic success, and assists veterans, guardsmen, reservists, spouses, and dependents in receiving their military education benefits. In addition to these services, the office implements the VA work study program. The Office of Veterans Services is located on the first floor of Posvar Hall, inside of the College of General Studies. Please call 412-624-3213 or email veterans@pitt.edu for more information.

William Pitt Union

The William Pitt Union, built more than 100 years ago and located across Bigelow Boulevard from the Cathedral of Learning, serves as the focal point for campus activities, student organizations, and the Division of Student Affairs. The union features a recreation center, videogame center, dining service, information service, art gallery, dance studio, lounges, meeting rooms, student organization offices, ticket office, dining rooms, and several multi-use spaces for programs. To reach the union's information desk, call 412-648-7815.

Financial Information

Tuition

Enrollment Fee or Tuition Deposit

Upon acceptance to the University, students may be required to pay a nonrefundable, nontransferable enrollment fee or tuition deposit. If paying an enrollment fee, part of that fee will be considered to be a tuition deposit, and part might be used to pay for new student programming of some nature. The tuition deposit component will be applied toward their first-term tuition. The amount of the deposit varies, depending on your program of admission. Instructions for payment will be specified in the admission letter.

Full-time and Part-time Tuition and Mandatory Fees

This information can be found on the Tuition Rates and Mandatory Fees page.

Determining How Full-Time vs Part-Time Students are Billed

Undergraduate:

Undergraduate students registered for 12 to 18 credits are regarded as full-time students and are assessed the current undergraduate "flat" tuition rate for their academic center.

Undergraduate students registered for fewer than 12 credits are considered part-time and are billed on a per-credit basis.

Students will be charged per credit for each credit exceeding the full-time credit limit.

Graduate:

Graduate students registered for 9 to 15 credits are regarded as full-time students and are assessed the current graduate "flat" tuition rate for their academic center.

Graduate students registered for fewer than 9 credits are considered part-time and are billed on a per-credit basis.

Students will be charged per credit for each credit exceeding the full-time credit limit.

In the Summer Term:

All graduate students are billed on a per-credit basis except for students enrolled in a full-time program that charges a flat rate per term for fall, spring, and summer.

DETERMINING HOW UNDERGRADUATE VS. GRADUATE STUDENTS ARE BILLED

Students are billed at the undergraduate or graduate tuition level in accordance with University of Pittsburgh Tuition and Fees Policy.

- A student enrolled in an associate's or bachelor's degree program is considered an **undergraduate** student and is billed at the appropriate undergraduate tuition rate.
- A student who has already been awarded a bachelor's degree and is enrolled in a **graduate** or doctorate-professional practice program is considered a graduate student and is billed at the appropriate graduate tuition rate, even for undergraduate classes taken during the student's graduate career.
- A student who has already been awarded a bachelor's degree and is enrolled in an associate's program or in another bachelor's program is considered a **post-baccalaureate** student. Post-baccalaureate students enrolled in an undergraduate academic center are billed at the undergraduate tuition rate, while post-baccalaureate students enrolled in an academic center that has both undergraduate and graduate degree programs may be billed at either the undergraduate or graduate rate, according to the admitting school's program requirements.

About Mandatory Fees

Mandatory Fee figures are applicable to students regardless of Pennsylvania or Out-of-State residency. Not listed under Mandatory Fees are:

1. **Course/major fees** that are based upon registration in specific courses (e.g., lab fees).
2. **Academic fees** (e.g., application fees, academic program fees for programs such as Cooperative Engineering Program and Study Abroad).
3. **Service fees** (e.g., late application for graduation and lost ID cards).
4. **Professional workshop and professional development fees**
5. **Specific-student fees** such as the Freshman Socialization Fee at the Greensburg Campus.

Residency/Reduced Tuition

Admitted students who are United States citizens and have lived in Pennsylvania for a continuous period of 12 months before enrollment in any institution of higher education may be eligible for Pennsylvania tuition rates. Students who wish to challenge their residency classification may petition for Pennsylvania tuition rates by submitting convincing evidence for review to the Student Appeals Office in Thackeray Hall. The University's policy on Pennsylvania Residency Classification is located online at <https://www.policy.pitt.edu/pa-residency-classification-eligibility-reduced-tuition>.

Military affiliated students and students who are not U.S. citizens may be eligible for Pennsylvania tuition rates if they meet the qualifications and provide the documentation required by University of Pittsburgh Policy, Pennsylvania Residency Classification.

For any student younger than 22, both the student and parent(s) or legal guardian(s) must meet the residency requirements to be eligible for reduced tuition.

Eligibility for Pennsylvania tuition (in-state rates) is governed by the University's Policy on PA Residency Classification. The policy establishes the criteria used to classify a student as a Pennsylvania Resident (PA Resident) or Non-Resident for tuition purposes. PA Residents are charged in-state tuition rates; Non-Residents are charged out-of-state rates. The term "PA Resident" for tuition billing purposes may differ from other definitions of Pennsylvania residency.

I. Scope

This policy affects tuition rates charged to students who are enrolled in classes at the University of Pittsburgh. It outlines the requirements that must be met to be considered a PA Resident and the responsibilities of those charged

with managing the process governing classification of a student's residency, including the PA Residency Coordinators at each campus.

II. Definitions

A. PA Resident: Classification of students who are charged the in-state tuition rate.

B. Enrolled: Enrolled, as it pertains to this policy, means a student is registered for one or more classes.

III. Policy

One of the requirements to be considered a PA Resident for tuition purposes is that a student must live in PA for 12 continuous months immediately prior to enrollment at an institution of higher education in PA. This is called the "12 Month Requirement." Students under the age of 22 are considered minors for purposes of residency determination and are classified based on the residency information of their parent(s) or legal guardian(s).

In addition to meeting the 12 Month Requirement, Non-U.S. Citizens must submit documentation proving they fall into one of the three immigration categories in the "Non-U.S. Citizens Immigration Requirements" section of this policy.

Section V below outlines the requirements that must be met in determining residency classification. As explained in that section, PA Residency Coordinators serve as the central points of contact for submitting materials required under this Policy. Contact information for the PA Residency Coordinators at each campus is provided in Section IX-Resources, below. Where deadlines in this Policy refer to academic term and session dates, please refer to the University's official academic calendar on the Office of the University Registrar's website.

Scholarships Contingent on Non-Residency

A student receiving a scholarship or grant contingent on maintaining a residence in a state other than PA will be classified as a Non-Resident for tuition purposes.

University of Pittsburgh grants or scholarships awarded to the student based on out-of-state residency status may be reduced or cancelled if the student is subsequently reclassified as a PA Resident.

IV. Requirements

A. 12 Month Requirement

Students who have lived in PA for at least 12 consecutive months immediately prior to enrollment at any institution of higher education in PA meet the 12 Month Requirement. For U.S. Citizens, this is all that is required for classification as a PA Resident. Students who are Non-U.S. Citizens must also meet the immigration requirements described in Subsection B below in order to be eligible for reclassification to PA Resident. Students under the age of 22 are considered minors for purposes of residency determination and are classified based on the residency information of their parent(s) or legal guardian(s).

Students who do not meet the 12 Month Requirement are classified as Non-Residents. Those who wish to challenge their classification can file a petition with their campus PA Residency Coordinator. Instructions are provided below in Section VI. Petitioning to Overcome the 12 Month Requirement.

B. Non-U.S. Citizens Immigration Requirements

In addition to meeting the 12 Month Requirement, Non-U.S. Citizens must demonstrate that they fall into one of three immigration categories to be reclassified to PA Resident:

1. Asylee, refugee, or U.S. Lawful Permanent Resident (green card holder); or

2. Has an approved I-140 or I-130, along with Form I-797, the Receipt Notice for the filing of Form I-485; or
3. Has an approved I-140 or I-130, along with evidence to support that they intend, but are unable, to file a Form I-485 because they do not have a current priority date as determined by the most recent U.S Department of State Visa Bulletin.* To provide sufficient evidence under this category, the student must provide evidence of their country of birth; in most cases, a copy of the passport identification page meets this requirement.

Filing Deadlines. Students who meet the 12 Month Requirement and fall into one of the immigration categories above must submit copies of their immigration documents to their campus PA Residency Coordinator to request reclassification by:

- Fall, Spring, and Summer Terms: no later than 30 calendar days after the first official day of classes for the term.
- Summer session within the Summer Term: no later than 15 calendar days after the first official start date of classes for the session.

If documentation is submitted after the deadline, the request for reclassification will be effective on the first day of the following term or summer term session. Residency reclassification is not retroactive to any prior terms.

** Refer to the U.S. Department of State and U.S. Citizen and Immigration Services for further information about determining your priority dates. As explained in those resources, a person's priority date is determined by the specific category of permanent residency applied for, and the country of chargeability (birth).*

C. Military Affiliated Students

Qualifications. Individuals who meet at least one of the following qualifications are eligible for PA Resident status for tuition purposes:

Under the Commonwealth of Pennsylvania Statutes Title 24 (Education), Section 2509 (the "Act").

1. Any Veteran, their spouse, dependent children, or any other individual who is eligible to receive benefits under any of the following:

1. 10 U.S.C. Chapter 1606 Montgomery GI Bill® Selected Reserve
2. 38 U.S.C. Chapter 30 Montgomery GI Bill® Active Duty
3. 38 U.S.C. Chapter 31 Vocational Rehabilitation and Employment
4. 38 U.S.C. Chapter 33 Post-9/11 GI Bill®

In addition, a child, a spouse, or a surviving spouse who is eligible to receive benefits under Chapter 35 (relating to survivors' and dependents' educational assistance) qualifies for the PA Resident tuition rate.

For purposes of the Act, a "Veteran" is any individual who served in the United States Armed Forces, including a reserve component or National Guard, and who was discharged or released from service under conditions other than dishonorable.

If you meet any of the above-listed requirements, please provide a copy of the Service Member's DD214 and your Certificate of Eligibility from the VA to the Residency Coordinator at the Pittsburgh campus.

2. Military personnel who are assigned to an active duty station in Pennsylvania and who reside in Pennsylvania, and their spouses and dependent children. If you meet this requirement, please provide a copy, to the Residency Coordinator at the Pittsburgh campus, of the active duty member's orders and a copy of the first page of the most recent IRS Form 1040/1040A displaying the name of the spouse or dependent child, if applicable.

3. Civilian personnel employed at a US Department of Defense facility who are transferred to Pennsylvania by the US Department of Defense and who reside in Pennsylvania, and their spouses and dependent children. If you meet this requirement, please provide a letter, to the Residency Coordinator at the Pittsburgh campus, from the US Department of Defense that documents the transfer to Pennsylvania specifying the name of the person employed, the applicable US Department of Defense facility in Pennsylvania, and the start date, along with a copy of the first page of the most recent IRS Form 1040/1040A displaying the name of the spouse or dependent child, if applicable.

Under the Commonwealth of Pennsylvania Consolidated Statutes Title 51 (Military Affairs), Chapter 32:

1. Service Members of the Pennsylvania National Guard who are receiving the Education Assistance Program (EAP) Grant qualify for the resident tuition rate. Beginning academic year 2020-2021, PA National Guard members' spouses, surviving spouses, and children who are eligible for benefits under the Military Family Education Program (MFEP) also qualify for the resident tuition rate. If you meet these requirements, you will be reclassified to a Pennsylvania resident once you are an enrolled student and the financial aid office has been notified by the Pennsylvania Higher Education Assistance Agency that you have been awarded EAP or MFEP benefits.

Filing Deadlines. Military affiliated students should submit the documentation described in paragraph (1), (2), or (3) above to the PA Residency Coordinator at their campus to request reclassification by:

- Fall, Spring, and Summer Terms: no later than 30 calendar days after the first official day of classes for the term
- Summer session within the Summer Term: no later than 15 calendar days after the first official start date of classes for the session.
- date of classes for the session.

If documentation is submitted after the deadline, the request for reclassification will be effective on the first day of the following term or summer term session. Residency reclassification is not retroactive to any prior terms.

GI Bill® is a registered trademark of the U.S. Department of Veterans Affairs (VA). More information about education benefits offered by VA is available at the official U.S. government website at www.benefits.va.gov/gibill.

V. Petitioning and Appealing to Overcome the 12 Month Requirement

A. Filing a Petition

Students whose initial residency classification is Non-Resident because they do not meet the 12 Month Requirement may complete the University's petition form and file it, together with supporting documentation, to the PA Residency Coordinator at their campus. Through the Petition Process and supporting documentation, the student must demonstrate that they:

1. Came to PA for reasons other than enrollment in an institution of higher education; and/or
 2. Intend and are able to live in PA permanently or indefinitely upon completion of their academic studies.
- Contact information for the PA Residency Coordinator at each campus, the petition form, and its filing instructions, are provided in Section IX-Resources, below.

Petition Deadlines. A student must submit their petition to the PA Residency Coordinator by:

- Fall, Spring, and Summer Terms: no later than 30 calendar days after the first official day of classes for the term.
- Summer session within the Summer Term: no later than 15 calendar days after the first official start date of classes for the session.

Petitions Filed After the Deadline. A petition filed after the deadline will be considered for the following term or summer term session.

Request for Additional Documentation. If additional documentation and information is requested by the PA Residency Coordinator, it must be submitted within 15 days of the date requested. Otherwise, the petition will be denied for that term.

B. Factors Considered

The following factors may be taken into consideration by the University when rendering a decision on a petition or appeal for reclassification. No required number of factors must be met, since each case is decided on the basis of the facts provided, the quality and reliability of the documentation submitted, and *the student's intentions and actual ability to live permanently or indefinitely in PA.*

- Payment of appropriate PA state and local taxes.
- Agreement for permanent, full-time employment in Pennsylvania.

- Lease or purchase of a permanent, independent residence in Pennsylvania by the student.
 - Transfer of bank accounts, stocks, automobiles, and other registered property to Pennsylvania from another state.
 - Membership in social, civic, political, athletic, and religious organizations located in Pennsylvania.
 - Procurement of a Pennsylvania driver's license.
 - Procurement of a Pennsylvania motor vehicle registration.
 - Registration to vote in Pennsylvania
 - A notarized statement by the student or their parent(s) or legal guardian(s) in the case of a minor declaring their intention to make Pennsylvania their residence either permanently or for an indefinite period of time.
 - A notarized statement from the parent(s) or legal guardian(s) of a student under the age of 22 setting forth facts to establish the student's financial independence and separate residence. The student should provide financial documentation demonstrating the ability to fully and independently support themselves to substantiate this condition.
- C. PA Residency Coordinator Decision

The PA Residency Coordinator will review the petition and supporting documentation, and then render a decision and provide written notification to the student.

If the petition was submitted by the deadline for the term, and the petition is approved, the residency reclassification will remain in effect going forward.

A petition filed after the deadline for a term, if approved, will be effective on the first day of the following term or summer term session. Reclassification is not retroactive to any prior terms.

If the petition is denied, the student has 30 days from the date of notice of denial to inform their PA Residency Coordinator in writing if they wish to appeal by appearing before the University Residency Appeals Committee (the Committee) as noted in Subsection D below. The PA Residency Coordinator will notify the Committee of the student's request.

D. University Residency Appeals Committee

If a student properly files an appeal of the PA Residency Coordinator's decision, the student will be invited to the next regularly scheduled meeting of the Committee so the Committee can review the PA Residency Coordinator's decision. The student has the option to attend that meeting with the Committee to discuss their case and answer questions. After the meeting, the Committee will deliberate and render a final decision that will be provided to the student in writing. If the student wishes to be accompanied to the meeting by legal counsel, the attorney will be limited to observing and cannot participate in the meeting, nor respond to questions on behalf of the student.

If the initial petition form was submitted by the deadline, and the Committee approves the student's appeal, the effective beginning term of reclassification will be term in which the student filed the petition.

If the initial petition form was submitted after the deadline for a term, and the Committee approves the appeal, the effective beginning term of reclassification will be on first day of the following term or summer term session. Reclassification is not retroactive to any prior terms.

VI. Notifications

1. When a student moves from Pennsylvania to another state they must give written notice to their campus PA Residency Coordinator.
2. When parents of a student under 22 years of age move, the student must give written notice of any change in their parent's/parents' or legal guardian's/legal guardians' address to their campus PA Residency Coordinator.

VII. Adjustments and False Information

Students who are found eligible for in-state rates due to an error in classification are subject to retroactive reclassification as Non-Residents and are responsible for the payment of all related tuition and fees.

Students who are found eligible for in-state rates as a result of false or concealed facts are subject to University discipline and are responsible for the immediate payment of all Non-Resident tuition and fees. Failure to make payment in full may result in legal action and additional costs, including legal fees, court costs, and collection costs that may include an additional percentage of the total amount due to the University, if the unpaid account balance is assigned to a Collection Agency.

The University reserves the right to periodically audit and make any necessary adjustment in the classification of all students.

VIII. Governance or Responsibilities

A. Student

- Under 22, notifies the University of a change in residency of their parent(s) or legal guardian(s);
- Notifies the University of a change in their residency status;
- Files a petition with their campus PA Residency Coordinator, if they receive a Non-Resident classification; and
- Notifies their PA Residency Coordinator if they wish to file an appeal of a decision to deny their petition of a Non-Resident classification.

B. PA Residency Coordinator

- Reviews residency petitions and makes decisions on residency classification;
- Communicates results to the student as needed and when appropriate;
- Notifies the University Residency Appeals Committee of a student's appeal of the PA Residency Coordinator's decision on a petition; and
- Provides written notification to the student of the Committee's final decision, if the student has elected to have the Committee review the appeal.

C. University Residency Appeals Committee

- Reviews student appeals; and
- Provides final decisions on residency classification based on information provided during the review of the appeal.

Petitioning for Eligibility for Reduced Tuition Rates

Instructions for Petitioning

Financial Obligation

Students establish a financial obligation to the University when they enroll in courses and will be asked to acknowledge that obligation to be permitted to enroll in classes each term. The agreement to pay (Promissory Note) the student electronically agrees to provides detailed information about the student's financial obligation and also the consequences of default of that obligation. Unpaid accounts may be referred to a collection agency, reported to credit bureau(s), and/or the student may be subject to legal action. In either case, the student will be responsible for any and all expenses incurred, including attorney fees. Students will bear the University's costs and fees associated with all collection activity resulting from the student's failure to make payment under the agreement they will sign each term.

Fees

Special Service Fees may be charged for University transactions that are processed beyond deadlines, due dates, and specified time limits. Special service fees are listed each term in the Schedule of Classes.

Course Fees are associated with certain courses and will be charged when the student enrolls in those courses. These courses are identified in the Schedule of Classes and Course Descriptions. Course fee information is also available on the Academic Regulations page.

Late Payment Fees are charged when students make payment after the published due date for their charges for the term.

Payments and Credit Balance Refunds

PittPAY is the University's online financial portal for students and the Authorized Users that students have designated as having access to their financial information.

Payments may be made in PittPAY by electronic check (eCheck) or by credit or debit card. While there is no charge for eCheck transactions, our vendor will charge a non-refundable convenience fee for all debit or credit card payments. Check payments can be mailed to the address on the Remittance Form at the bottom of the Term Statement, which students and Authorized Users can generate and print themselves.

International Payments can be processed in PittPAY through the University's partnership with Flywire. Flywire offers a streamlined and cost effective way for students and Authorized Users to make international payments on the student account from almost any country, in most currencies.

PittPAY Payment Plans are available for those who elect to make payments in a series of monthly installments, instead of one payment by the due date. Participation in a payment plan is optional. To view available payment plan offers, go to the Payment Plans tab in PittPAY.

eRefunds are automatic refunds of credit balances from the student account. Credit balances occur when payments to the account, including the disbursement of loans and financial aid, exceed the amount you owe. Students and Authorized Users who are Parent PLUS loan borrowers, go to the eRefund tab in PittPAY to designate the checking or savings account where your credit balances should be directly deposited.

College of Business Administration

College of Business Administration

The College of Business Administration (Pitt Business) is the undergraduate division of the Joseph M. Katz Graduate School of Business and awards the Bachelor of Science in Business Administration (BSBA) degree. Detailed information about the College of Business Administration is available on our website: <http://www.cba.pitt.edu/about/>. Pitt Business offers full-time and part-time programs with majors in accounting, business analytics, business information systems, finance, global management, human resources management, marketing, and supply chain management. Double-degree programs are also available to BSBA students in conjunction with the Dietrich School of Arts and Sciences and the School of Computing and Information (SCI). Pitt Business also offers certificate programs in innovation and entrepreneurship, international business, leadership and ethics, sports management, and supply chain management for students in the BSBA degree program.

Additional programs include the business minor, available to non-business degree-seeking students, and a post-baccalaureate career development certificate program in accounting, available through the College of General Studies. Pitt Business draws its faculty from the Katz Graduate School and is accredited by AACSB International, the Association to Advance Collegiate Schools of Business.

Admissions

Application Procedures

First-time freshman and external transfer admissions to Pitt Business are handled through the Office of Admissions and Financial Aid. Students planning to relocate to Pitt Business from another Pitt academic program or campus should contact the program they are currently enrolled in to have their records forwarded to Pitt Business for evaluation. Details for freshman and transfer admissions and relocation are provided in the Application for Admission section of this catalog.

Pitt Business specific information for applicants can be found as follows:

- Freshman
- External Transfer
- Internal Transfer and Regional Campus Relocation

Special Admissions

Under certain circumstances, second-degree, post-baccalaureate, and guest students may apply directly to the College of Business Administration for admission. Students applying under one of these statuses are considered for admission based on the strength of their academic records. (See Second Degree Candidates and Special and Nondegree Admissions sections of this catalog for more information.) Contact the Pitt Business Office of Admissions for specifics on admission requirements and other procedures.

Evaluation of Transfer Credits

Students transferring from other colleges or universities must apply to the College of Business Administration through the Office of Admissions and Financial Aid. (See Transfer Student Admissions section of this catalog for detailed information.) Transfer students will receive an email with a BSBA degree requirements checklist upon admission to Pitt Business. Pitt Business will evaluate coursework from other colleges based on content and equivalency to coursework offered at the University of Pittsburgh. The degree checklist shows how the transferred courses will apply to the student's BSBA degree. To transfer, a course must be completed with a grade of C or better. The University does not accept grades for transfer; only credits. A minimum of 40 credits must be completed at the University of Pittsburgh. Students who have questions about their credit evaluation should contact the Pitt Business Office of Admissions. Please see our website for additional details on transfer credits:
<http://www.cba.pitt.edu/admissions/transfer/credit-policies>

Academic Standards and Policies

Graduation Requirements

To graduate from the College of Business Administration with a Bachelor of Science in Business Administration, students must:

- Earn a minimum of 120 credits with a minimum GPA of 2.00 or greater.
- Complete the A&S Foundations, Business Prerequisites, and General Education Courses.
- Complete the Business Core requirements.
- Complete all major requirements with no course grade lower than a C- and a major GPA of 2.25 (C+).
- Apply for graduation.

Academic Standing Policy

For BSBA students, academic standing is reviewed at the end of the fall and spring semesters. As a result of this review, students are assigned one of the following academic standing codes:

Good Academic Standing

Students remain in good academic standing while maintaining a cumulative grade point average (GPA) of 2.0 in all courses at the University of Pittsburgh.

Academic Probation

Any student with a cumulative GPA below 2.0 at the end of the fall or spring semester is placed on academic probation. Notice of probation is emailed to the student's University of Pittsburgh email address.

Academic Suspension

An academic suspension from CBA prohibits students from enrolling in courses at the University of Pittsburgh for one calendar year. Students will not be awarded transfer credit for courses taken at other colleges or universities while on academic probation or suspension.

Full-time students

If a full-time student on probation's cumulative GPA remains below 2.0 after one term of additional enrollment, the student is subject to suspension or dismissal. Students on probation who enroll and then withdraw from all courses are still subject to suspension for not raising their cumulative GPA to 2.0 after an additional term of enrollment.

Part-time students

If, after attempting 12 additional credits, a part-time student on probation's cumulative GPA remains below 2.0, the student is subject to suspension or dismissal.

Appealing a Suspension

Within ten days of being notified of a suspension, students can appeal that suspension by writing an email describing any extenuating circumstances to the Director of the Tafel Center for Student Success. If that appeal is denied, students can appeal for a second and final time by writing an email describing extenuating circumstances to the Associate Dean for the Undergraduate Program.

Reinstatement after the First Suspension

Near the end of the calendar year of suspension, suspended students are eligible to apply for reinstatement to Pitt Business with a letter to the Director of The Tafel Center for Student Success presenting a rationale for reinstatement. Reinstated students return on academic probation and have one term of enrollment to raise their cumulative GPA to 2.0 or be subject to a second suspension or dismissal.

Second Academic Suspension

If suspended a second time, a student is not eligible for reinstatement for five years. After five years, suspended students are eligible to apply for reinstatement to the Pitt Business with a letter to the Associate Dean for the Undergraduate Program presenting a rationale for reinstatement.

Academic Dismissal

Dismissal from Pitt Business is permanent and dismissed students are not eligible for reinstatement.

Grade Point Average Standards

Overall GPA

A cumulative grade point average (GPA) of at least 2.00 is required to be maintained in all courses applied toward the BSBA degree.

Major GPA

A cumulative GPA of 2.25 (C+ average) is required in all courses applied toward a student's major. A C- or better must be earned in each course applied toward a student's major.

Satisfactory/No-Credit Grade Option Policy

Business courses must be taken on a letter-grade basis. Courses taken to fulfill the requirements in microeconomics, macroeconomics, and calculus must also be taken on a letter-grade basis. Language classes, arts and sciences courses, and electives may be taken on a satisfactory/no-credit grade basis.

Under the satisfactory/no credit grade option, a student who does satisfactory work (C or better) receives the grade of "S" for the course and earns credit for the course. If a student does unsatisfactory work (defined as C- or lower), the student receives the grade of "NC" and does not earn credit for the course. Once a student selects the satisfactory/no credit grade option, the option cannot be reverted to a letter grade.

The deadline to elect the S/NC grade option and submit grade option forms to the associate dean's office of the school offering the course is the end of the fourth week of the term.

G and I Grades

This policy applies to all courses offered by Pitt Business.

A "G" grade may be assigned at the option of the instructor during the last month of the term to students who have been making regular progress but are unable to complete the work of the course by the end of the term due to extenuating personal circumstances.

An "I" grade may be assigned to students who are unable to complete an internship or independent study due to the unique requirements or circumstances of the course.

A course must be completed with the same instructor assigning the "G" or "I" grade by an agreed-upon deadline (usually within one month, but not later than one year from the end of the term). If the remaining work is not completed by the deadline, the grade will automatically change to "NG" and will no longer appear as "In-progress" on a student record. The "NG" grade will remain on the record and the student will be required to re-enroll in the course if it is needed to fulfill requirements for graduation.

The student and instructor should complete the online Pitt Business G Grade Agreement form at least one day before grades are due at the end of the term.

Course Repeat Policy

A Pitt Business student may repeat a required Arts & Sciences course (including calculus, microeconomics, macroeconomics and composition), a business core requirement, and/or a business major requirement once. If the minimal acceptable grade is not earned after repeating the course, the student may have to select a different business major or transfer out of Pitt Business. All other courses taken outside of Pitt Business may be repeated twice.

In the calculation of the major and overall grade point averages, the grade earned in the second taking of a course replaces the grade earned in the first taking; however, the grade earned in the first taking of the course, remains on the student's transcript with a notation indicating the course was repeated and is no longer used in the GPA.

Dean's List

Early each term, students whose grades in the previous grading period indicate outstanding achievement are recognized in the Dean's List.

Full-Time Students

Full-time students (those enrolled in 12 or more credits) who earned 12 credits in the preceding term (not including courses taken on the Satisfactory/No Credit option) with a term GPA of at least 3.5 and no grade lower than a C are placed on the Dean's List.

Part-Time Students

Part-time students (those enrolled in fewer than 12 credits) who earned 12 credits in previous terms (not including courses taken on the Satisfactory/No Credit option) with a GPA of at least 3.50 and no grade lower than a C are placed on the Dean's List. Part-time students are evaluated for Dean's List recognition by determining if 12 credits on the letter-grade system have been completed since the last Dean's List recognition. If 12 credits have been completed, the GPA for the terms in which the last 12 credits were completed is used to assess Dean's List eligibility.

Academic Integrity

The Pitt Business Guidelines on Academic Integrity apply to students enrolled in Pitt Business, students taking courses offered by Pitt Business, faculty teaching courses in Pitt Business, and senior administrators of Pitt Business and the University.

It is very important that all students and faculty are familiar with and follow these guidelines. Please contact the Associate Dean for the Undergraduate Program with questions or comments about the Pitt Business Academic Integrity Guidelines.

Academic Advising and Enrollment

Advising

Pitt Business students are supported by the same academic advisor throughout college, and they work closely together to develop a personalized plan for each student. The plan is based on the student's unique strengths, goals, and ambitions. Since no two students are alike, no plans are identical.

Advising appointments occur face-to-face and every semester. Students receive holistic guidance on how to maximize their opportunities from academic, career, and international programs, and advisors ensure they stay on track to graduate on time.

Enrollment

Full-time/Part-time

During fall and spring terms, a student will be full-time if they are enrolled in at least 12 credits at the end of the add/drop period (end of the second week of the term). Full-time students with between 12 and 18 credits will pay the full-time flat rate for tuition.

During fall and spring terms, a student will be part-time if they are enrolled in fewer than 12 credits at the end of the add/drop period (end of the second week of the term). Part-time students pay tuition on a per-credit basis.

During summer term students enroll and are charged on a per-credit basis.

Information about tuition and fees.

Maximum Term Credit Load

The regular term maximum credit load is 18 credits. In special circumstances, a strong student can ask for and receive permission to take more than 18 credits, but students will be charged additional tuition for each credit above 18. To receive this permission, a student must speak with their academic advisor. The academic advisor will work directly with the Director of the Tafel Center for Student Success to determine if permission will be given.

Enrollment Order

The order in which students enroll in fall and spring term courses is based on total earned credits as determined by the Student Information System. Students with more earned credits enroll earlier than students with fewer credits.

Add/Drop

From the moment they enroll until the end of the second week of the semester, students may change their fall or spring schedules without penalty. They can make the changes themselves or seek help by scheduling an appointment with their academic advisor.

Summer add/drop periods vary with the session the course is offered in.

Always consult the University Calendar for add/drop deadlines.

Extended Drop

The third week of fall and spring terms is the extended drop period. Full-time students may drop a course from their schedule without penalty if the drop does not take their credit total below 12 credits. During the extended drop period, students must contact their advisor and ask them to perform the drop. There is no extended drop in the summer term.

Monitored Withdrawal

Until approximately the end of the ninth week of the fall and spring terms, and at various times in the summer, depending on which session a course is taken, a student can withdraw from a course by submitting a form to the associate dean's office of the school offering the course. Withdrawing results in a W on the transcript, where a letter grade would go, but the W does not affect the GPA. The W does not indicate whether the student was passing or failing the course at the time of withdrawal. Academic advisors can assist with withdrawal decisions when students are unsure what actions to take. Withdrawing from a course may cause financial aid problems due to lack of satisfactory academic progress. Students who receive financial aid should consult with the Office of Financial Aid before withdrawing. Check the University Calendar for withdrawal deadlines.

Academic Program Options

Bachelor of Science in Business Administration (BSBA)

Program Learning Goals

Goal 1. Develop knowledge of core business functions.

- 1.1 Demonstrate disciplinary understanding of core business functions.
- 1.2 Gain experience in the application of the knowledge of business functions.

Goal 2. Develop the analytical skills required to be an effective problem solver.

2.1 Demonstrate competence using contemporary analytical techniques and tools to identify and define problems and opportunities and to propose solutions based on that evidence.

Goal 3. Develop competencies necessary for success as a business leader.

- 3.1 Demonstrate professional competence in written business communication.
- 3.2 Demonstrate behaviors associated with being an effective team member.
- 3.3 Develop skills in problem solving and critical thinking.
- 3.4 Attain experience in a leadership role in a co-curricular or extra-curricular activity.
- 3.5 Demonstrate effectiveness in delivering a professional presentation.

Goal 4. Understand the role of business in society.

- 4.1 Develop conceptual understanding of ethical decision-making.
- 4.2 Attain experience in a professional context in issues pertaining to Equity, Diversity & Inclusion.
- 4.3 Participate in curricular, co-curricular or extra-curricular experiential learning activities connecting business topics to community concerns.
- 4.4 Acquire a global focus through curricular, co-curricular or extra-curricular activities.

A&S Foundations, Business Prerequisites, and General Education

Courses

BSBA students are required to earn a minimum of 41 credits in the Arts and Sciences. These credits are comprised of A&S Foundations courses, Business Prerequisites, and General Education courses.

Foundations Courses

These include BUS 0010 or BUS 0020, first-year or transfer orientation courses, respectively, English composition, and foreign language if needed. There are several ways students can fulfill the foreign language requirement:

1. Three years of study of a single foreign language in high school, passed with an average of C or better over the three years.
2. Placement into Level III of a foreign language on a University of Pittsburgh language placement test.
3. Placement into Level II of a foreign language on a University of Pittsburgh language placement test and completion of the appropriate Level II course.
4. Completion of a two-course Pitt foreign language sequence (at least 6 credits).

Business Prerequisite Courses

These are courses that prepare students to take later business core and major courses. The prerequisite courses are:

Calculus

The calculus requirement is fulfilled with one of the following options:

- MATH 0120 Business Calculus-4 credits
- MATH 0125 + 0126 Business Calculus 1 and 2-total of 4 credits
- MATH 0220 Calculus 1-4 credits

A sufficient score on the math assessment is required for placement into calculus courses. Students can also fulfill the calculus requirement by scoring a 4 or 5 on the AP Calculus AB or BC exams.

Micro Economics

This requirement is fulfilled by completing ECON 0100 Introduction to Microeconomic Theory. The requirement can also be satisfied by scoring a 4 or 5 on the AP Micro Econ exam. (3 credits)

Macro Economics

This requirement is fulfilled by completing ECON 0110 Introduction to Macroeconomic Theory. The requirement can also be satisfied by scoring a 4 or 5 on the AP Macro Econ exam. (3 credits)

General Education Requirements

The general education courses are from the humanities, social sciences, and natural sciences. These courses will help students develop multiple ways of seeing, understanding, and explaining our increasingly complicated world.

Humanities

Take one course from two of the following areas: Literature, Philosophy, Music/Art (6 credits).

Social Science

Take two courses from different departments (e.g. ANTH and HIST) (6 credits).

Natural Science

Take one course (3 credits).

Foreign Culture

Take one course or study abroad on an approved program (3 credits).

Diversity, Equity, Inclusion

Take one course (3 credits).

Business Core Courses

All BSBA students must complete fifteen business core courses (45 credits) that cover a broad spectrum of business functional areas. This breadth of knowledge helps our graduates to become accomplished managers and business leaders.

BUSSPP 0020 Managing in Complex Environments

BUSACC 0030 Financial Accounting

BUSACC 0040 Managerial Accounting

BUSQOM 0050 Decision Analytics

BUSENV 0060 Managerial Ethics

BUSBIS 0100 Programming Essentials

BUSQOM 0101 Business Analytics 1 (stat)

BUSQOM 0102 Business Analytics 2

BUSECN 1010 Managerial Econ
or BUSBIS 1060 Intro to Information Systems

BUSORG 1020 Organizational Behavior

BUSORG 1101 Business Communication

BUSFIN 1030 Introduction to Finance

BUSMKT 1040 Introduction to Marketing

BUSQOM 1070 Operations Management

BUSSPP 1080 Strategic Management

Majors

There are eight majors, as follows:

Accounting

The major in accounting provides students with the general business and accounting knowledge necessary to succeed in professional accounting roles. Accounting majors will also acquire the communication, technical, and interpersonal skills necessary to resolve complex problems successfully in unstructured settings.

Business Analytics

Business Analytics is the science of using historical data to develop mathematical models that help organizations make decisions about their future. It enables data-driven decision-making by modeling outcomes using predictive analytics. Additionally, students will learn how to diagnose problems and envision solutions from an evidence-based perspective. Data analysis and interpretation are some of the skills employers most often require today.

Business Information Systems

Through the Pitt Business, Business Information Systems (BIS) major, students will develop the ability to partner with or contribute to IT-enabled business strategy, operations, and projects in various ways. Success in the 21st century requires that business managers and analysts understand what technologies are available in the marketplace and how these technologies can lead to competitive advantages, staying competitive, and to new business products, services, and models.

Finance

The finance major provides students with a thorough understanding of the theoretical financial principles and the practical implementation of these principles in business. Finance students learn how financial markets operate and how to make effective investment and financial decisions for firms and individuals. The major is designed to develop students' analytical skills and problem-solving abilities.

Global Management

The Global Management major enables students to develop expertise in managing people, processes, and policies in a global context. A deep understanding of these interrelated areas, complemented by a concentration in a business function and a focused choice of arts and sciences courses, is critical for those who seek to add value to the firms of tomorrow.

Human Resources

Human Resources management involves effectively managing, developing, and deploying an organization's greatest asset: its people. This major prepares students to become both good managers of people and good users of data.

Marketing

The major in marketing is designed to provide students with the conceptual background and practical skills necessary to address what new products a firm should introduce, how products should be priced, how best to identify channels of distribution, and how best to promote new and existing products.

Supply Chain Management

Supply Chain Management includes planning, procurement, manufacturing, fulfillment, inventory management, logistics, returns to suppliers, and returns from customers - all the functional areas involved in receiving and filling a customer's order with a repeatable and satisfying experience.

Honors Degree and Distinction

Students enrolled in the College of Business Administration are eligible to complete coursework and credentials through the David C. Frederick Honors College (FHC). Students may be admitted to the FHC as incoming first-year or transfer students, or as upper-class Pitt students. Details about admission to the FHC can be found [here](#).

FHC credentials include the: Honors Degree, Honors Distinction, and the Bachelor of Philosophy (BPhil) degree. Students are encouraged to discuss these options with their Pitt Business academic advisor and their Frederick Honors College advisor. FHC designated business courses and FHC courses that fulfill general education requirements can be taken to fulfill both the academic and experiential credit requirements for FHC credentials.

Double Degrees

Students may enhance their Bachelor of Science in Business Administration degree by simultaneously completing a second degree from the Dietrich School of Arts and Sciences or the School of Computing and Information.

Double Degree with Dietrich School of Arts and Sciences

Offered with the Dietrich School of Arts and Sciences, the Double Degree program is for students seeking to earn degrees in both business and arts and sciences. Students earning degrees from both Pitt Business and DSAS complete a minimum 150-credit program, generally requiring five years of study. Students considering this option should consult with their Pitt Business academic advisor to determine if this program is the right fit and what steps are needed to apply and be accepted into the Double Degree program.

Double Degree with the School of Computing and Information

Offered with the School of Computing and Information (SCI), Pitt Business offers a double degree program for BSBA students seeking to earn degrees in business and one of the SCI majors. Students earning degrees from both Pitt Business and SCI complete a minimum 150-credit program, generally requiring five years of study. Students considering this option should consult with Pitt Business and SCI advisors to determine what this would entail, and the steps needed to apply and be accepted into the Double Degree program.

Accelerated Degrees

The Accelerated Degree programs offered at Pitt Business enable very motivated students to earn a BSBA plus a graduate degree in a professional field in less time.

BSBA/MAcc

Offered with the Joseph M. Katz Graduate School of Business, the 3+1 BSBA/MAcc program enables first-year's who enter Pitt Business with at least 15 advanced standing college credits to earn their BSBA and a master's degree in accounting in only four years.

BSBA/JD

Offered with the Pitt School of Law, the Accelerated Law Admissions Program (ALAP) allows Pitt Business students to earn their BSBA and Juris Doctorate in a total of six years. Customarily, it would take four years to earn the BSBA and three years to complete law school. To participate, students must apply and be accepted into the School of Law during their junior year in the business school.

Certificates

Within the College of Business Administration

Pitt Business certificates may only be completed in combination with the BSBA degree and are only available to Pitt Business students.

Certificate Program in Innovation and Entrepreneurship

The Certificate Program in Innovation and Entrepreneurship (CPIE) is a unique opportunity for Pitt Business students who wish to explore the interface between innovation and entrepreneurship as an enhancement to their business major.

The CPIE is designed to provide students with exposure to entrepreneurship, whether their goal is to start and build a successful business or drive innovation inside a traditional organization.

Certificate Program in International Business

The Certificate Program in International Business (CPIB) offers a special opportunity to Bachelor of Science in Business Administration students with a strong interest in the global aspects of business. The CPIB will contribute to a student's preparation for a career in international business, which often begins with domestic job placements that can lead to international assignments as the professional's career progresses.

Certificate Program in Leadership and Ethics

The program curriculum assumes that an emphasis on leadership, without proper consideration of ethics, will not generate leaders who approach their roles with a sense of responsibility and accountability.

Certificate Program in Sports Management

The Certificate Program in Sports Management (CPSM) at Pitt Business allows students to couple their functional area of study with coursework and real-world experiences rooted in the business side of the sports industry, one of the world's most popular and profitable industries. Students will learn to see sports not from the lens of a fan or an athlete but as a multi-faceted, multi-disciplined business where substantial opportunity exists for students to apply the business skills they have developed through the Pitt Business curriculum.

Undergraduate Certificate in Supply Chain Management

The Undergraduate Certificate in Supply Chain Management (CSCM) is a joint program offered by Pitt Business and the Swanson School of Engineering. Pitt Business students are given the opportunity to understand important concepts in supply chain management and develop managerial and technical skills, which are highly valued in today's corporate environment. The program also offers an international travel experience for students to gain hands-on exposure to global supply chain organizations.

Outside the College of Business Administration

Pitt Business students can earn certificates in a wide variety of subjects from:

- The Dietrich School of Arts and Sciences
- The College of General Studies
- The University Center for International Studies (UCIS)

Minors

Minors for BSBA students

BSBA students may earn minors from other Pitt schools. The most popular minor is in Economics from the Dietrich School of Arts and Sciences, but BSBA students have earned minors from departments across DSAS and from the College of General Studies.

Business Minor for non-business students

The business minor has been designed for students earning degrees outside the College of Business Administration. The minor provides non-business students with a cohesive overview of key business areas. It is designed to increase students' preparation for work in business organizations after graduation and their marketability for professional opportunities. Degree-seeking students enrolled in any undergraduate college on the Pittsburgh campus (other than the College of Business Administration) are eligible to apply for the 18-credit minor.

Student Services and Opportunities

Career Development Office

We know that business students have impressive goals and career ambitions, and the Pitt Business Undergraduate Programs Career Development team is equipped to help you reach them. The Career Development team equips students with the tools and professional networks to manage their career development and land their dream job.

We have forged partnerships with top employers to connect students with high-quality recruiters. Everything we do at Pitt Business has one goal: when you make the big leap into your first professional job, you'll land on your feet and go far, fast.

The Pitt Business Career Development team supports:

- Individualized career exploration and counseling appointments just for Pitt Business students
- One-on-one assistance in developing resumes and cover letters
- Access to job and internship postings specifically for Pitt Business students
- Networking preparation workshops
- Mock interview sessions
- Entrance to exclusive on-campus recruiting events
- Access to Pitt Business alumni

Internships and other career development experiences are an absolutely essential part of business education. With over 500+ companies hiring Pitt Business students, students complete professional internships in the City and in the World. Being located in a metropolitan area gives our students more opportunities to intern at well-known companies. Paid internships are such an integral part of a business education that the Career Development team has created a scholarship program to help students not only land an internship but ensure that if they are working for a company that traditionally does not pay interns, they can receive a scholarship for that work.

The Pitt Business Career Development team also strives to provide students with co-curricular programming and the opportunities they need to succeed after graduation. These programs allow students to explore a specific industry and aim to increase students' knowledge and skills. These programs also allow students to develop industry-specific skills that complement their academic major, certificate, or minor. Co-curricular programs include:

Finally, the Career Development team is made up of professional staff as well as Executives in Residence and Professional Development Consultants. The Executive in Residence (EIR) program is a powerful career development resource available to Pitt Business students only. The EIRs have significant experience in the professional world, and they are available to share that experience with students. The EIRs offer personalized advising support and career coaching. As current or former senior leaders in organizations, they know firsthand what it takes to reach the top ranks in the business world.

The Professional Development Consultants (PDCs) play a critical role in serving the Pitt Business community. The PDCs are enthusiastic student leaders who recognize the value of career development and want to support fellow students with their career-related needs. PDCs participate in individual peer advising, campus outreach, special projects, peer mentoring, and event programming.

Global Experience Office

Pitt Business students' ultimate destination is the world, and they don't wait to get there—they go during their degree. Students can excel in a global experience in more than 75 countries worldwide and complete business programs through the Global Business Institute, International Internship Program, Plus3 Program, and Global Service-Learning projects. In fact, 55% of Pitt Business students participate in a global experience.

These programs have been established to complement the business curriculum and integrate academics, career development, and global competence. These and many other program options give our students the freedom to choose when, where, and for how long they would like to experience the world. Students can complete programs during summer, fall, spring, spring break, and during the full academic year.

Ultimately, we aim to prepare you for a globally enriching academic and professional experience. There are several resources that can help students to go global. The first step is to work closely with your academic advisor to ensure that you thoughtfully plan your global experience in your academic plan. While working with your advisor, please ensure you also work with the Global Experiences office. The Pitt Business Global Experience team has compiled a 12-point checklist that covers everything you need to know about traveling abroad. The instructions cover everything from before your trip to when you return home. Finally, Pitt Business students are eligible for several scholarships to help make their global experience more affordable, including some scholarships offered exclusively to Pitt Business students.

Finally, the Pitt Business Global Experience Office offers a year-long ambassador program for students who are interested in sharing their international experience with peers, learning about the global experience industry, and gaining professional experience in the workplace.

Pitt Business Outside the Classroom Curriculum

The Pitt Business Outside the Classroom Curriculum (OCC) provides students with a clearly defined pathway of extracurricular experiences in business that they should complete as college students. Built like a game with progressive levels of challenge and rewards, the program is fun, engaging, and impactful. It gives students a way to easily identify which activities they should complete, organize their categories of participation, and track their cumulative progress in real-time. Created to complement our academic curriculum, the OCC prepares students to become well-rounded business professionals. For additional details, please visit our website at: <https://www.cba.pitt.edu/student-life/pitt-business-outside-the-classroom/>

Business Student Organizations

Business students must diversify their experiences at Pitt and develop hands-on leadership skills essential to a career in business. Pitt Business student organizations are a good way to do this. Designed to run like small businesses, the organizations put students in control. We count on members to coordinate speaker visits from the corporate community, to arrange site visits to local offices of financial institutions and accounting firms, to sponsor social activities for members, and much more. As a member of a student organization, you will make friends for life and develop skills that enhance your resume for your first job. For additional details, please visit our website at: <http://www.cba.pitt.edu/studentlife/organizations>.

Pitt Business major: Accounting

The major in accounting provides students with the general business and accounting knowledge necessary to succeed in professional accounting roles.

Accounting majors will acquire the communication, technical, and interpersonal skills necessary to successfully resolve complex problems in unstructured settings. Accounting majors will also benefit from participation in extracurricular activities, internships, and organizations such as the University of Pittsburgh Accounting Association and Beta Alpha Psi, the national accounting honorary fraternity.

Students who plan to become a Certified Public Accountant (CPA) need to complete 150 credit hours for certification. There are multiple ways to achieve 150 credits during a student's academic career, one of which is to continue their education in the Master of Science in Accounting Program (MAcc) offered by the Joseph M. Katz Graduate School of Business, but students are advised to meet with their advisor regularly to determine a course of study that best fits their individual circumstance. For students who do not wish to become CPAs, the accounting major is an excellent complement to other business majors, enhancing the value of each major.

Highly motivated students are also able to participate in our 3+1 BSBA and MS in Accounting (MAcc) program which enables students to earn both degrees and 150 credits in only four years. Students can also complete the BSBA and MAcc degrees in 4.5 or 5 years, depending on their individual situations.

Requirements

- Earn a minimum of 120 Academic Credits and fulfill all BSBA degree requirements
- Complete two BSBA core courses in accounting as well as six required accounting major courses (18 credits) as described below.
- Fulfill All:
 - A&S Foundations, Business Prerequisites, and General Education Courses
 - BSBA Core Curriculum Requirements
- Cumulative GPA of 2.25 (C+) in all courses applied toward an Accounting major.
- Grade of "C-" or better must be earned in each course applied toward an Accounting major.

Courses

Pitt Business Core Courses

Each of these courses must be completed with a C or better in order to proceed with the accounting major.

- BUSACC 0030 Financial Accounting
- BUSACC 0040 Managerial Accounting

Required Major Courses

- BUSACC 1204 Intermediate Financial Reporting 1
 - BUSACC 1205 Intermediate Financial Reporting 2
- Select four of the following classes:**

- BUSACC 1210 Financial Statement Analysis
- BUSACC 1216 Advanced Financial Accounting
- BUSACC 1221 Strategic Cost Management
- BUSACC 1236 Accounting Information Systems
- BUSACC 1238 Auditing
- BUSACC 1242 Taxes and Decision Making

Accounting Electives not counted toward Accounting Major*

- BUSACC 1245 Volunteer Income Tax Assistance Program (permission required)
- BUSACC 1296 Accounting Internship
- BUSENV 1760 Business Law
- Global Business Institute - Accounting Summer Program

*These courses may or may not count toward CPA Certification. Check your intended state's CPA requirements for details.

Careers

Skills Needed

- Accuracy and attention to detail.
- Analytical, critical-thinking, and problem-solving skills.
- A high GPA is expected to be competitive in the market. Grades are an indicator of technical ability in accounting and of a person's work ethic.
- Excellent communication skills are needed, in addition to working well in a team environment.
- Strong technical skills; many positions require using specialized accounting software.

Types of Jobs

- Budget Analysis
- Financial
- Management Accounting
- Tax
- Auditing

Types of Industries

- Public Accounting
- Corporate Accounting
- Government
- Education
- Non-profit
- Self-employed - CPA

Pitt Business major: Business Analytics

Business analytics is the science of using historical data to develop mathematical models that help organizations make decisions for their future. Business analytics enables data-driven decision-making by modeling outcomes using predictive analytics.

In the major, students will learn how to diagnose problems and envision solutions from an evidence-based perspective. They learn to build statistical models, measure data, interpret results, and then synthesize findings to improve organizational performance. This holistic approach will teach students both the statistical and managerial sides of business analytics. The field of business analytics draws from disciplines including statistics, operations research, computer science, information systems and others.

Data analysis and interpretation are some of the skills that employers most often require today. Business Analytics is used in a wide variety of industries including retail, hospitality, banking and securities, media and entertainment, transportation, education, healthcare, and government.

Requirements

- Earn a minimum of 120 Academic Credits
- Complete two BSBA core courses in analytics BUSQOM 0101 Business Analytics 1, and BUSQOM 0102 Business Analytics 2
- Including 18 Academic Credits in Business Analytics
- Fulfill All:
- A&S Foundations, Business Prerequisites, and General Education Courses
- BSBA Core Curriculum Requirements
- Cumulative GPA of 2.25 (C+) in all courses applied toward a Business Analytics major.
- A "C-" or better must be earned in each course applied toward a Business Analytics major.

Courses

Pitt Business Core Courses

Each of these courses must be completed with a C or better in order to proceed with the business analytics major.

- BUSBIS 0100 Programming Essentials for Business Analytics
- BUSQOM 0101 Business Analytics 1
- BUSQOM 0102 Business Analytics 2

Required Major Courses

- BUSBIS 1605 Database Management
 - Prerequisite: BUSBIS 1060 Introduction to Information System
- BUSQOM 1090 Applied Optimization and Simulation
- BUSBIS 0105 Data Visualization and Storytelling
 - Prerequisite: BUSBIS 0100 Programming Essentials for Business
- BUSQOM 1085 Applied Business Analytics Project
 - Prerequisites: BUSBIS 0105 Data Visualization and Storytelling and BUSQOM 1760 Data Mining
- BUSQOM 1760 Data Mining
 - Prerequisite: BUSQOM 0102 Business Analytics 2

Elective Major Courses

Must complete at least one course.

- BUSACC 1236 Accounting Information Systems
- BUSFIN 1351 Financial Modeling
- BUSFIN 1329 Fixed-Income Securities
- BUSHRM 1688 Human Resource Analytics
- BUSMKT 1428 Digital and Social Media Marketing
- BUSBIS 1630 Project Management
- BUSBIS 1650 IS Consultancy Practices Solution Development
- BUSMKT 1447 Marketing Analytics for Customer Engagement

Careers

Skills Needed

- Quantitative
- Communication
- Problem Solver
- Critical Thinker
- Visualizer
- Both detail-oriented and big picture thinker

Types of Jobs

- Business Intelligence Analyst
- Data Analyst
- Data Scientist
- Data Analytics Consultant
- Marketing Analyst

Types of Industries

- Medium to Large Corporations

- Consulting Firms

Pitt Business major: Business Information Systems

Information technology (IT) has revolutionized the way consumers and businesses relate and interact. For consumers, online retailing has become the dominant distribution channel for a wide variety of products and services, with massive shifts underway from brick and mortar to e-commerce and the Web, and now into social media. Not only has technology changed consumer habits, it has also dramatically changed the workplace.

Technological innovations enable new strategies, products, and distribution channels while increasing efficiency and productivity in all industries. Success in the 21st century requires that business managers and analysts understand what technologies are available in the marketplace and how these technologies can lead to competitive advantage, staying competitive, and to new business products, services, and models. Therefore, it is necessary that managers understand how IT interacts with business strategies, organizations, and customers, and it is essential that businesses manage their portfolios of IT investments accordingly.

Through the Pitt Business Business Information Systems (BIS) major, students will develop the abilities to partner with, or contribute to, IT-enabled business strategy, operations and projects in a variety of ways, including, but not limited to:

- Evaluating new information technologies, business models, and their implications
- Understanding the relationships between competitive advantage and information technologies
- Assessing a business or business area to recognize where process improvements can be made

- Eliciting and identifying requirements
 - Communicating effectively with consumers, managers, analysts, business partners, and IT professionals
 - Modeling needs, processes, and data
 - Managing data as an asset
 - Managing processes
- The Pitt Business BIS major meets the qualifications of a STEM-designated degree program, as set forth by the federal government. International students may receive an extension in the United States for the program.

Requirements

- Earn a minimum of 120 Academic Credits
- Including 15 Academic Credits in BIS
- Fulfill All:
 - A&S Foundations, Business Prerequisites, and General Education Courses
 - BSBA Core Curriculum Requirements
- Cumulative GPA of 2.25 (C+) in all courses applied toward a BIS major.
- A "C-" or better must be earned in each course applied toward a BIS major.

Courses

Required Core Courses

Must complete with a C or better in order to proceed with the BIS major.

- BUSBIS 1060 Introduction to Information Systems

Required Major Courses

- BUSBIS 1600 Technology-Enabled Business Transformation
- BUSBIS 1605 Database Management
- BUSBIS 1630 Project Management

Elective Major Courses

Must take a minimum of two.

- BUSBIS 1625 Electronic Commerce
 - BUSBIS 1635 IT Systems in Supply Chains
 - BUSBIS 1640 IT Architectures and Issues
 - BUSBIS 1645 Information Systems Ethics
 - BUSBIS 1650 Information Systems Consultancy Practices Solution Development
 - BUSBIS 1655 Design Thinking
 - BUSBIS 1660 Disruptive Technologies
 - BUSBIS 1670 Data Warehousing
 - BUSACC 1236 Accounting Information Systems
 - BUSQOM 1085 Applied Business Analytics Project
- Students may structure their BIS major elective course choices into specialized career-related tracks. The following tracks are available:

- **Enterprise Systems Specialization** (complete BUSBIS 1635 IT Systems in Supply Chains, plus a specialized elective)
- **Design Specialization** (complete BUSBIS 1655 Design Thinking, plus a specialized elective)
- **Project Management Specialization** (complete BUSBIS 1645 Information Systems Ethics, plus a specialized elective)
- **IS Consulting Specialization** (complete BUSBIS 1650: Information Systems Consultancy Practices Solution Development, plus a specialized elective)
Students should talk with their academic advisor and with the Career Development team to determine which BIS specialization track best advances their career goals.

BIS majors are encouraged to enhance their technical skills by completing CS 0007 Introduction to Computer Programming, followed by CMPINF 0401 Intermediate Programming.

Careers

Skills Needed

- Determining how a system should work and how changes in conditions, operations, and the environment will affect outcomes.
- Monitoring/Assessing performance of yourself, other individuals, or organizations to make improvements or take corrective action.
- Identifying complex problems and reviewing related information to develop and evaluate options and implement solutions.
- Using logic and reasoning to identify the strengths and weaknesses of alternative solutions, conclusions or approaches to problems.

Types of Jobs

- Business Technology Analysis
- Consulting
- IT Management
- Operations
- Customer Service/Sales

Types of Industries

- Medium to Large Corporations
- Government
- Start-up Organizations
- Retail
- Consulting Firms

Pitt Business major: Finance

The finance major provides students with a thorough understanding of the theoretical financial principles and the practical implementation of these principles in business. Students learn how financial markets operate and how to make effective investment and financial decisions for firms and individuals. The major is designed to develop students' analytical skills and problem-solving abilities. Financial markets are the major conduits through which investments are channeled in the global marketplace, and understanding these markets and how to make investment decisions are crucial for success in business.

Finance majors at Pitt Business have an excellent opportunity to gain experience in the school's Financial Analysis Laboratory. The 3,000-square-foot facility, which resembles the trading floor of a investment bank or financial firm, is equipped with 58 computer stations, a stock ticker, and tote display boards that give students hands-on training with the equipment and technology used in the capital markets industry. Through the facility, students gain experience in interacting with real-time financial information flows and in using the industry's analytic tools and software.

The University of Pittsburgh is a Chartered Financial Analyst (CFA) program partner. CFA program partners are academic leaders and champions of practical, relevant, and thought-provoking investment education programs around the world. Learn more about the partnership.

Requirements

- Earn a minimum of 120 Academic Credits
- Including 15 Academic Credits in Finance
- Fulfill All:
 - A&S Foundations, Business Prerequisites, and General Education Courses
 - BSBA Core Curriculum Requirements
- Complete BUSFIN 1030 Introduction to Finance
- Cumulative GPA of 2.25 (C+) in all courses applied toward a Finance major.
- A "C-" or better must be earned in each course applied toward a Finance major.

Courses

Required Core Course

Must complete with a C or better in order to proceed with the finance major:

- BUSFIN 1030 Introduction to Finance

Required Major Courses

- BUSFIN 1311 Corporate Finance
- BUSFIN 1321 Investment Management

Elective Major Courses

Must complete at least three courses.

- BUSFIN 1316 Corporate Financial Strategy
- BUSFIN 1327 Risk Management
- BUSFIN 1329 Investments Analysis & Strategies
- BUSFIN 1341 International Finance
- BUSFIN 1351 Financial Modeling
- BUSFIN 1355 Valuation
- BUSFIN 1356 Fintech
- BUSFIN 1357 Emerging Topics in Finance
- BUSFIN 1361 Real Estate Finance

Careers

Skills Needed

- Quantitative skills are very important. It is beneficial to take additional courses in math, statistics, and accounting.
- Many positions in finance require the ability and to analyze and interpret data; having an eye for detail is a needed trait.
- Develop strong interpersonal and communication skills.

Types of Jobs

- Analyst/Associates
- Equity/Credit Research
- Institutional Sales
- Trading
- Structured finance
- Emerging markets
- Public finance
- Credit/Ratings Analyst
- Broker
- Capital Market

Types of Industries

- Commercial Banking
- Corporate Finance
- Financial Planning
- Insurance
- Investment Banking
- Money Management
- Real Estate

Pitt Business major: Global Management

The global management major enables students to develop expertise in the management of people, processes, and policies in a global context.

- People - Enhancing and developing competencies to manage people across national and cultural boundaries.
- Processes - Integrating knowledge development, product procurement, manufacturing, and distribution for a global supply chain.
- Policies - Managing internal and external environments such as globally-dispersed stakeholders, corporate governance, and cross-border regulations.

A deep understanding of these interrelated areas, complemented by a concentration in a business function and a focused choice of arts and sciences courses, is critical for those who seek to add value to the firms of tomorrow.

Starting with the core material of traditional management theory and practice, the Global Management Major adds knowledge of global policy, economics, regulations, and operations. The integrated, forward-looking "people, process, policy model" provides students with an advantage in competing for attractive internships and full-time positions in multinational firms.

Requirements

Study Abroad Requirement

Pitt Business has a broad array of international internship, global service learning and international consulting field project opportunities. Global Management majors are required to complete at least one these international workplace-based experiences from the following options:

- International Internship through the Global Business Institute or International Internship Program
- Service-learning Project through Global Service Learning program (BUS 1755).
- Consulting Field Project (BUS 0600) through the Global Business Institute.

Foreign Language Requirement

At a minimum, Level 4 of a foreign language must be satisfactorily completed (a two-year, four-course sequence at the University of Pittsburgh). If a foreign language is studied while abroad, the student's language proficiency will be evaluated upon return via a University of Pittsburgh foreign-language placement exam. Students are encouraged to pursue language study beyond the minimum requirement to enhance basic proficiency and to be more prepared to take advantage of the study/internship abroad experience.

Courses

Required Prerequisite Courses

Earn a minimum grade of "C" (2.00) in each of the following prerequisite courses:

- ECON 0100 Introduction to Microeconomic Theory
- ECON 0110 Introduction to Macroeconomic Theory
- BUSORG 1020 Organizational Behavior
- BUSHRM 1050 Human Resources Management
- BUSQOM 1070 Operations Management
- BUSSPP 1080 Strategic Management

Required Major Courses

Global Management majors must complete four of the five required major courses.

- BUSORG 1655 International Dimensions of Organizational Behavior
- BUSECN 1508 Key International Economic Issues for Managers
- BUSHRM 1670 Global Workforce Management & Change (Fall Term)
- BUSSCM 1730 Managing Global Supply Chains
- BUSSPP 1740 Global Strategy and Competitive Advantage (Spring Term)

Additional Required Courses

Global Management majors are required to complete two courses in a single defined area of the University Center for International Studies. These areas include Africa, Asia, the European Union, Latin America, Russia/Eastern Europe, or Western Europe.

Careers

Skills Needed

- Learn at least one additional language and take part in a global experience.
- Sharpen your public-speaking skills and communication skills between cultures.
- Demonstrate intercultural competency, sensitivity, and tolerance.
- Specialize in one area of business in addition to your Global Management major.
- Develop traits such as creativity, initiative, tenacity, a willingness to take risks, and an adventurous spirit.

Types of Industries

- International Business
- International Relations/Government
- Non-profit
- Consulting Firms
- Language services/education

Pitt Business major: Human Resources Management

Human resources management involves the effective management, development, and deployment of an organization's greatest asset: its people. The field has been transformed by the greater use of analytics and the diversification of a global talent pool.

To succeed in this environment, the Pitt Business Human Resources major prepares students to become both good managers of people and good users of data. We equip students with strong business, technical, and professional competencies that balance their qualitative and quantitative skills. On the quantitative side, we incorporate HR analytics into every course taught in the program. Students are taught how to collect, interpret, and implement data in order to make strategic HR decisions that create a competitive advantage for the organization. Through the extensive use of Microsoft Excel and Tableau, students develop the capability to understand the implications of prescriptive analytics and human capital management.

As part of the school's commitment to experience-based learning, Pitt Business HR students have the opportunity to complete real-world projects in their classes. Global companies in Pittsburgh work directly with our faculty to develop these unique projects, which incorporate organizational challenges in people analytics, workplace diversity, and training and development. Students put HR theory into practice, and have the opportunity to present their findings to company executives.

The Pitt Business HR major is aligned with the Society for Human Resource Management (SHRM) curriculum. Students are eligible to take the SHRM CP Exam program, which provides a significant competitive advantage on the job market.

Requirements

- Earn a minimum of 120 Academic Credits
- Including 18 Academic Credits in HRM/OB
- Fulfill All:
 - [A&S Foundations, Business Prerequisites, and General Education Courses](#)
 - [BSBA Core Curriculum Requirements](#)
- Complete BUSORG 1020 Organizational Behavior
- Cumulative GPA of 2.25 (C+) in all courses applied toward a HRM major.
- A "C-" or better must be earned in each course applied toward a HRM major.

Courses

Core Course

Must complete with a C or better in order to proceed with the Human Resources Management major.

- BUSORG 1020 Organizational Behavior

Required Major Courses

- BUSHRM 1675 Human Resources Staffing (Fall Term)
- BUSHRM 1677 Training and Development (Fall Term)
- BUSHRM 1680 Compensation & Performance Management (Spring Term)
- BUSHRM 1685 Employment & Labor Relations (Spring Term)

Elective Major Courses

Must complete at least two courses.

- BUSENV 1757 Race and Business Ethics
- BUSORG 1650 Issues in Career Management
- BUSORG 1655 International Dimensions of Organizational Behavior
- BUSORG 1660 Managing Diversity in Organizations
- BUSHRM 1050 Managing People
- BUSHRM 1665 Negotiating in Business
- BUSHRM 1670 Global Workforce Management & Change
- BUSHRM 1687 Human Resources Planning & Strategy
- BUSHRM 1688 Human Resource Analytics
- BUSHRM 1689 Sports Management

Careers

Skills Needed

- Able to communicate your thoughts, ideas, and information clearly and concisely both in writing and verbally.
- Listen by giving full attention, understanding points being made, and asking appropriate questions.
- Recognize problems and devise an appropriate plan of action to resolve them.
- Organize and interpret data.
- Work well with others especially in a team environment.

Types of Jobs

- Benefits & Compensation
- Employee Relations
- Global HR
- Labor Relations
- Organizational & Employee Development

- Staffing/Recruiting
- Training
- Consulting

Types of Industries

- Medium to Large Corporations
- Retail
- Government
- Banking
- Consulting Firms

Pitt Business major: Marketing

The major in marketing is designed to provide students with the conceptual background and practical skills necessary to address what new products a firm should introduce; how products should be priced; how best to identify channels of distribution; and how best to promote new and existing products, among many other business questions.

Requirements

- Earn a minimum of 120 Academic Credits
- Including 18 Academic Credits in Marketing
- Fulfill all:
 - A&S Foundations, Business Prerequisites, and General Education Courses
 - BSBA Core Curriculum Requirements
- Complete BUSMKT 1040 Introduction to Marketing
- Cumulative GPA of 2.25 (C+) in all courses applied toward a marketing major.
- A "C-" or better must be earned in each course applied toward a marketing major

Courses

Required Core Course

Must complete with a C or better in order to proceed with the Marketing major.

- BUSMKT 1040 Introduction to Marketing

Required Major Courses

- BUSMKT 1411 Marketing Research
- BUSMKT 1441 Consumer Behavior

Elective Major Courses

Must complete at least four courses.

- BUSMKT 1422 Principles of Selling
- BUSMKT 1425 Sales Force Management

- BUSMKT 1426 Advertising and Sales Promotion
- BUSMKT 1427 Public Relations Management
- BUSMKT 1428 Digital and Social Media Marketing
- BUSMKT 1431 Product Development and Management
- BUSMKT 1435 Services Marketing
- BUSMKT 1447 Marketing Analytics for Customer Engagement
- BUSMKT 1451 Retail Management
- BUSMKT 1461 International Marketing
- BUSMKT 1470 Sports Marketing
- BUSMKT 1481 Brand Management
- BUSMKT 1485 Projects in Marketing
- BUSSCM 173: Managing Global Supply Chains
- USBIS 1625 Electronic Commerce
- ENGR 1600 International Technology - Innovation and Leadership

Careers

Skills Needed

- Able to communicate your thoughts, ideas, and information clearly and concisely both in writing and verbally.
- Recognize problems and devise an appropriate plan of action to resolve them.
- Organize and interpret complex data.
- Be creative and good at generating new idea; then organizing those ideas and communicating them verbally.
- Work well with others, especially in a team environment.

Types of Jobs

- Sales and Customer Relations
- Advertising & Public Relations
- Product Management
- Market Research
- Purchasing
- Brand Management

Types of Industries

- Large Corporations
- Retail
- Government
- Banking
- Non-profit
- Consulting Firms

Pitt Business major: Supply Chain Management

Supply chain management (SCM) includes the design and planning of supply chain activities and the execution, control, and monitoring that help companies build competitive infrastructure and create net value. The supply chain

includes planning, procurement, manufacturing, fulfillment, inventory management, logistics, returns to suppliers, and returns from customers - all the functional areas involved in receiving and filling a customer's order with a repeatable and satisfying experience.

The SCM major discusses integration with marketing; product and process engineering; accounting and finance; human resources; environmental, health, safety and quality; facilities management; and information technology areas. Finally, the major assumes a global perspective not only in terms of the internal operations of manufacturing and service businesses, but also with partnerships among suppliers, customers, and third-party logistic providers worldwide.

The SCM major is designed to provide its graduates with both theoretical knowledge of SCM and the ability to apply this knowledge to real-world problems and opportunities in a manner that improves business performance with a focus on the following key topics:

- Building a strategic framework to analyze a supply chain.
- Designing global supply chain networks.
- Planning and coordinating demand and supply in a supply chain.
- Planning and managing inventories in a supply chain.
- Planning and managing procurement in a supply chain.
- Managing cross-functional drivers in a supply chain.

Requirements

- Earn a minimum of 120 Academic Credits
- Including 15 Academic Credits in SCM
- Fulfill all:
 - A&S Foundations, Business Prerequisites, and General Education Courses
 - BSBA Core Curriculum Requirements
- Complete BUSQOM 1070 Operations Management (C or better).
- Cumulative GPA of 2.25 (C+) in all courses applied toward a SCM major.
- A "C-" or better must be earned in each course applied toward a SCM major.

Courses

Required Core Course

Must complete with a C or better in order to proceed with the Supply Chain Management major.

- BUSQOM 1070 Operations Management

Required Major Courses

- BUSSCM 1730 Managing Global Supply Chains
- BUSSCM 1740 Purchasing and Supply Management
- BUSSCM 1750 Revenue Management

Elective Major Courses

Must complete at least two courses.

- BUSSCM 1725 Global Supply Network & Manufacturing Culture in Latin America
- BUSSCM 1745 Transport and Logistics Management

- BUSSCM 1775 Simulation
- BUSSCM 1780 Six Sigma
- BUSMKT 1431 Product Development and Management
- USBIS 1630 Project Management
- USBIS 1635 IT Systems in Global Supply Chains
- BUSACC 1221 Strategic Cost Management
- IE 1076 Total Quality Management
- IE 1079 Logistics & Supply Chain Engineering
- IE 1080 Supply Chain Analysis
- ENGR 1600 International Technology - Innovation and Leadership

Careers

Types of Jobs

- Operations
- Industrial production
- Logistics
- Purchasing, transportation, storage, and distribution
- Management consulting

Pitt Business Certificate Program in Innovation and Entrepreneurship (CPIE)

Program Description

15 credits are required to complete the CPIE. This includes both required and elective coursework focused on innovation and entrepreneurship. The program culminates in an experience-based learning component (EBL). Students can complete the EBL component by selecting an entrepreneurship project course, an approved entrepreneurship focused internship, or a global entrepreneurship experience. To earn the CPIE, students must maintain a minimum GPA of 2.25 (C+ average) across all courses in the program.

Students are also strongly encouraged to participate in related non-credit entrepreneurship immersion experiences including the IEE's Big Idea Contest and other community and student organizations.

Note: some courses offered intermittently.

Required Courses (6 credits)

The following courses are required:

- BUSORG 1640 The Entrepreneurship Process (3 credits - Offered Fall Term Only)
- BUSORG 1645 Corporate Entrepreneurship (3 credits - Offered Spring Term Only)

Selective Required Courses (3 credits)

Select one of the following:

- BUSENV 1785 Social Entrepreneurship (3 credits)
- BUSENV 1791 Projects in Entrepreneurship (3 credits) (only if not used for experiential requirement)

- BUSPP 1750 Commercializing New Technologies (3 credits)
- BUSMKT 1431 Product Development (3 credits)
- BUSORG 1665 Law, Entrepreneurship, and Innovation (3 credits)
- BUSORG 1705 Immigrant & Minority Entrepreneurship (3 credits)

Elective Courses (3 credits)

Choose one from the following

Note: This course should correspond to elective choices within the student's business major and may also be counted towards the completion of the business major.

- BUSACC 1236 Accounting Information Systems (3 credits)
- BUSFIN 1321 Investment Management (3 credits)
- BUSMKT 1426 Advertising and Sales Promotion (3 credits)
- BUSHRM 1675 Human Resources Staffing (3 credits)
- BUSBIS 1625 Electronic Commerce (3 credits)
- BUSSCM 1730 Managing Global Supply Chains (3 credits)
- BUSBIS 1630 Project Management (3 credits)
- BUSENV 1760 Business Law (3 credits)
- ENGR 1060 Social Entrepreneurship - Engineering for Humanity
- BUSORG 1701 Social Entrepreneurship in South Africa
- BUSORG 1705 Minority & Immigrant Entrepreneurship

Experiential Learning Requirement (3 credits)

Choose one of the following:

- BUSENV 1791 Projects in Entrepreneurship (offered fall term only) (3 credits)
- BUSENV 1790 Entrepreneurial Internship (3 credits)
- Global Entrepreneurship Experience (3 credits)

Pitt Business Certificate Program in International Business (CPIB)

The CPIB provides a special opportunity to BSBA students who have a strong interest in the global aspects of business. The CPIB will contribute to a student's preparation for a career in international business, which often begins with domestic job placements in multinational organizations that can lead to international assignments as the **professional's** career progresses.

Students pursuing the CPIB will be particularly attractive to employers who value students with international interests, perspective, knowledge, and experience. This program will give students an advantage in competing for the most attractive internships and full-time positions with highly internationalized firms.

The CPIB builds on the business core curriculum and is designed as an enrichment of the BSBA program, to be added to a business major; it is not a stand-alone program. Enrollment is open only to students in the BSBA degree program, and students majoring in Global Management may *not* also earn the Certificate in International Business.

Required Courses

- BUSECN 1508 Key Issues in Economics for Managers

- BUSORG 1655 International Dimensions of Organizational Behavior

Major Elective (3 credits)

Complete one Pitt Business international course in your major from the list below"

- BUSACC 1216 Advanced Financial Accounting
- BUSFIN 1341 International Finance
- BUSHRM 1670 Global Workforce Management and Change
- BUSHRM 1620 Independent Study (international topic)
- BUSMKT 1461 International Marketing
- BUSORG 1670 OB Independent Study (international topic)

Study Abroad Experience

Pitt Business has a broad array of international internship, global service learning and international consulting field project opportunities. CPIB students are required to complete at least one these international workplace-based experiences from the following options:

- A term-long Global Business Institute Internship (3 credits for internship plus 3 additional regular course credits in the summer or 9-12 additional course credits during fall or spring)
- A two-month summer International Internship Program (6 credits)
- A spring-term Global Service-Learning Project (3 credits) + one course (3 credits) in a University Center for International Studies (UCIS) defined area: Africa, Asia, the European Union, Latin America, Russia/Eastern Europe, or Western Europe.
- A term-long Consulting Field Project (BUS 0600) through the Global Business Institute (3 credits for Consulting Field Project plus 3 additional regular course credits in the summer or 9-12 additional course credits during fall or spring) At least six credits must be earned via the international experience (i.e. international internship, international consulting project or Global Service-Learning project). Other credits earned during the global experiences program may count toward the overall 15 credits required to earn the CPIB.

Foreign Language

At a minimum, Level 4 of a foreign language must be satisfactorily completed (a two-year, four-course sequence at the University of Pittsburgh). If a foreign language is studied while abroad, the student's language proficiency will be evaluated upon return via a University of Pittsburgh foreign-language placement exam. Students are encouraged to pursue language study beyond the minimum requirement to enhance basic proficiency and to be more prepared to take advantage of the study/internship abroad experience.

Pitt Business Certificate Program in Leadership and Ethics (CPLÉ)

The program curriculum is based on the assumption that an emphasis on leadership, without proper consideration of ethics, will not generate leaders who approach their roles with a sense of responsibility and accountability. That curricular goal is achieved by incorporating course work that draws from key competency areas including: relational leadership, civic and social engagement, ethical decision-making, project team management, and high impact communication.

Certificate Program in Leadership and Ethics

5 courses, 15 credits

Each course may be used in only one of the three CPLE categories.

Two courses from categories 1 and 2, one course from category 3.

1: Experience Based Learning Projects; 2 Social Environment of Business; 3 Functional Elective

Pitt Business Certificate Program in Sports Management (CPSM)

Consisting of 18 academic credits, the Pitt Business Certificate Program in Sports Management (CPSM) will help students to prepare for a career in a sports or sports-related industry by giving them access to opportunities within and outside the classroom to expand the knowledge and skills they have developed through the Pitt Business curriculum. The Pitt Business CPSM is available to Pitt Business students who are pursuing the Bachelor of Science in Business Administration (BSBA) degree.

To supplement their cross-disciplinary classroom work, Pitt Business students can participate in internships with local, national, and international sports organizations and the Pitt Athletics Department. Students are also strongly encouraged to participate in relevant extracurricular activities through community and student-run organizations.

Required Courses (6 credits)

- BUSHRM 1050 Human Resources Management
- BUSHRM 1689 Sports Management

Elective Courses (9 credits)

- BUSBIS 1625 Electronic Commerce
- BUSENV 1757 Race and Business Ethics
- BUSENV 1760 Business Law
- BUSFIN 1321 Investment Management
- BUSHRM 1675 Human Resources Staffing
- BUSHRM 1688 Human Resources Analytics
- BUSMKT 1428 Digital and Social Media Marketing

- BUSMKT 1470 Sports Marketing
- BUSORG 1660 Managing Diversity in Organizations
- BUSQOM 1760 Data Mining
- BUSSCM 1750 Revenue Management

Experiential Learning Requirement (3 credits)

Choose one:

- BUSHRM 1689 Sports Management Project Course
- BUSHRM 1690 Human Resources Management Internship (sports focused)
- BUS 1910 International Business Internship (completed through Global Business Institute Sydney Summer Sports Business Program)

Pitt Business Undergraduate Certificate in Supply Chain Management (CSCM)

The Certificate in Supply Chain Management (CSCM) is offered jointly by Pitt Business and the Swanson School of Engineering. Enrollment is available to BSBA students and students enrolled in the BS engineering programs in the Swanson School of Engineering. The CSCM gives students the opportunity to understand important concepts in supply chain management and develop managerial and technical skills highly valued in today's corporate environment. The program also offers an international travel experience for students to gain hands-on exposure to global supply chain organizations. The CSCM requires 15 credits and is comprised of coursework offered by both Pitt Business and the Swanson School of Engineering.

Pitt Business students may not combine the CSCM and the Supply Chain Management major. They may complete only one of these programs.

Required Courses (6 credits)

- BUSQOM 1070 Operations Management (3 credits)
- BUSSCM 1730 Managing Global Supply Chains (3 credits)

Pitt Business Supply Chain Elective Course (3 credits)

Choose one:

- BUSBIS 1635 Information Technology Systems in Supply Chains (3 credits)
- BUSSCM 1740 Procurement and Distribution Management (3 credits)

Industrial Engineering Elective Course (3 credits)

Choose one:

- IE 1055 Facility Design (3 credits)
- IE 1076 Total Quality Management (3 credits)
- IE 1079 Logistics and Supply Chain Engineering (3 credits)
- IE 1080 Supply Chain Analysis (3 credits)

Note: These elective courses have prerequisites, which may be waived for BSBA students on a case-by-case basis.

Global Supply Chain Project Elective Course (3 credits)

Choose one:

- BUSSCM 1725 Global Supply Networks and Manufacturing Cultures in Latin America (3 credits) - offered infrequently, requires international travel at an additional cost
- BUSSCM 1735 Engineering and Business Collaboration in India: Product Innovation and Value Chains (3 credits) - offered infrequently, requires international travel at an additional cost
- BUSSPP 1740 Global Strategy and Competitive Advantage (3 credits)- spring term only; does not require international travel
- ENGR 1600 Global Innovation and Technology (3 credits) - offered during spring term, requires international travel to China at an additional cost.

In addition, students must earn a grade of C or better in each course counted toward the certificate, and a minimum GPA of 2.25 (C+ average) across all courses in the certificate.

In general, both engineering and CBA students interested in this certificate program will need to plan early. For example, CBA students will need to:

- Satisfy the Pitt Business calculus requirement in the freshman year.
- Take both BUSQOM 0050 Decision Analytics (formerly Quantitative Methods) and BUSQOM 1070 Operations Management in the sophomore year.

Pitt Business Minor for Non-Business Students

The business minor has been designed for students earning degrees outside the College of Business Administration. The minor provides non-business students with a cohesive overview of key areas of business. It is designed to increase students' preparation for work in business organizations after graduation and their marketability for professional opportunities. Degree-seeking students enrolled in any undergraduate college on Pittsburgh campus (other than the College of Business Administration) are eligible to apply for the minor.

The 18-credit business minor includes five 3-credit courses representing various business areas and a 3-credit capstone course. The capstone provides an opportunity for students earning the minor to integrate and apply the material from across courses. In addition, students will take at least 11 credits of prerequisite coursework prior to admission to the minor.

Courses used toward the business minor must be taken on a letter-grade basis. They may not be taken as Satisfactory/No Credit (S/NC). This includes both the required business courses and the prerequisite courses.

The prerequisite courses for the minor may be fulfilled by Pitt coursework, transfer credit, or AP/IB credit.

A cumulative grade point average (GPA) of 2.0 is required across the 6 business courses required for the minor, including the 5 required minor courses and the minor capstone course. A minimum grade of C- must be earned in each of the 6 business courses for the minor.

Of the 18 credits in required business coursework for the minor, at least 9 credits (half), including the Capstone course, must be completed at Pitt's Pittsburgh campus. No more than 9 credits may be earned at other institutions (including Pitt regional campuses).

Once enrolled at Pitt, students may not transfer additional business courses from community colleges. Any summer business course transferred in must be completed at an AACSB-accredited business school and approved in advance by the College of Business Administration. Students enrolled in the business minor who wish to transfer in a summer business course can direct questions to Hayley Rieg in Academic Advising in the College of Business Administration.

Prerequisite Courses for the Business Minor (11-13 credits)

- ECON 0100 Introduction to Microeconomic Theory (or IE 1040) - 3 credits

- MATH 0120 Business Calculus (or MATH 0220 or MATH 0235) - 4 credits
- STAT 1100 Statistics and Probability for Business Management (or STAT 1000, STAT 1151 & 1152, ENGR 0020, IE 1070 & 1071, PUBHLT 0310) - 3-6 credits

Required Courses for the Business Minor (18 credits)

Choose five of the following (15 credits):

- BUSACC 0030 Financial Accounting
 - BUSQOM 0050 Decision Analytics
 - BUSORG 1020 Organizational Behavior
 - BUSFIN 1030 Introduction to Finance
 - BUSMKT 1040 Introduction to Marketing
 - BUSBIS 1060 Introduction to Information Systems
- Required (3 credits):
- BUS 1685 Business Minor Capstone

**College of Business Administration
Course Offerings**

Accounting

- BUSACC 0030 - FINANCIAL ACCOUNTING
- BUSACC 0040 - MANAGERIAL ACCOUNTING
- BUSACC 1204 - INTERMEDIATE FINANCIAL REPORTING 1
- BUSACC 1205 - INTERMEDIATE FINANCIAL REPORTING 2
- BUSACC 1210 - FINANCIAL STATEMENT ANALYSIS
- BUSACC 1216 - ADVANCED FINANCIAL ACCOUNTING
- BUSACC 1221 - STRATEGIC COST MANAGEMENT
- BUSACC 1236 - ACCOUNTING INFORMATION SYSTEMS
- BUSACC 1238 - AUDITING
- BUSACC 1242 - TAXES AND DECISION MAKING
- BUSACC 1245 - VOLUNTEER INCOME TAX ASSISTANCE PROGRAM
- BUSACC 1250 - SURVEY OF INTERNATIONAL ACCOUNTING ISSUES AND THE IASB
- BUSACC 1251 - SURVEY OF INTERNATIONAL BUSIENSS ISSUES AND THE CITY OF LONDON

Certificate

Sports Management Certificate

A total of 18 credits is needed to complete the CPSM certificate. This includes a 6-credit required core, plus 9 credits of elective courses and a 3-credit required experience-based learning component course, a sport or sports-related internship, or a global sports or sports-related experience. Students are strongly encouraged to participate in related non-credit sports or sports-related immersion experiences such as competitions, workshops sponsored by local sports-based organizations (e.g. WISE workshops) or activities sponsored by sports or sports-related organizations (e.g. Pirates Charities or Pitt Athletics events). The courses outlined have been selected to build a solid business foundation while permitting students an in-depth analysis of a chosen major field complemented by a personal interest in sports.

Required Courses (6 credits)

The following courses are required:

- BUSHRM 1050 - MANAGING PEOPLE
- BUSHRM 1689 - SPORTS MANAGEMENT

Elective Courses (9 credits)

Select three (3) from the following (elective choices can correspond to elective choices within the student's major).

- BUSHRM 1675 - HUMAN RESOURCES STAFFING
- BUSHRM 1688 - HUMAN RESOURCE ANALYTICS
- BUENV 1760 - BUSINESS LAW
- BUSORG 1660 - MANAGING DIVERSITY IN ORGANIZATIONS
- BUSMKT 1428 - DIGITAL AND SOCIAL MEDIA MARKETING
- BUSMKT 1470 - SPORTS MARKETING
- BUSBIS 1625 - ELECTRONIC COMMERCE
- BUSFIN 1321 - INVESTMENT MANAGEMENT
- BUSSCM 1750 - REVENUE MANAGEMENT
- BUSSCM 1760 - DATA MINING

Experiential Learning Requirement (3 credits)

Select one of the following.

- BUSHRM 1686 - SPORTS MANAGEMENT PROJECT COURSE
- BUSHRM 1690 - HUMAN RESOURCES MANGEMENT INTERNSHIP

Major

Business Analytics, BSBA

Over a period of just four years, the existing 15 credit Business Analytics Certificate has grown to be the most popular certificate of the college; 15% of spring 2021 graduates earned it. The major proposed here takes the existing required courses of the certificate and adds one more to create an 18 credit major.

The Katz/CBA faculty developed and approved the 18-credit undergraduate Business Analytics major. The proposed 18-credit program would build upon the emphasis on business analytics in the recent curriculum changes recommended by the Undergraduate Programs Committee (UPC) and adopted by the faculty of Katz/CBA.

The foundation for the proposed Business Analytics major is provided by the three the new business analytics courses required of all Pitt Business undergraduate students as a result of the 2021 curriculum revision that was adopted by the Katz/CBA faculty. These courses are part of the business core, a set of courses required of all BSBA students, regardless of major.

Required Courses

The three new, required, foundation courses approved by the faculty are:

- BUSBIS 0100 PROGRAMMING ESSENTIALS FOR BUSINESS ANALYTICS (3 credits)
 - BUSQOM 0101 BUSINESS ANALYTICS 1 (3 credits)
 - BUSQOM 0102 BUSINESS ANALYTICS 2 (3 credits)
- Students pursuing the Business Analytics major would take five additional required courses and one elective. The five required courses for the proposed Business Analytics major are:
- BUSXXXX: Data Visualization and Storytelling (3 credits)
 - BUSQOM 1090 APPLIED OPTIMIZATION AND SIMULATION (3 credits)
 - BUSBIS 1605 DATABASE MANAGEMENT (3 credits)
 - BUSSCM 1760 DATA MINING (3 credits)
 - BUSQOM 1085 APPLIED BUSINESS ANALYTICS PROJECT (3 credits) (CAPSTONE)

Elective Options

The three-credit elective requirement will be fulfilled by taking courses from the set of existing courses across business areas, e.g., finance, marketing, supply chain (and from outside business if enrollment capacities allow) that have been reviewed for their analytics focus and have been approved by the faculty for fulfilling this requirement.

- BUSACC 0030 - FINANCIAL ACCOUNTING
- BUSACC 0040 - MANAGERIAL ACCOUNTING
- BUSBIS 1060 - INTRODUCTION TO INFORMATION SYSTEMS
- BUSECN 1010 - MANAGERIAL ECONOMICS
- BUSENV 0060 - MANAGERIAL ETHICS AND STAKEHOLDER MANAGEMENT
- BUSFIN 1030 - INTRODUCTION TO FINANCE
- BUSMKT 1040 - INTRODUCTION TO MARKETING
- BUSORG 1020 - ORGANIZATIONAL BEHAVIOR
- BUSORG 1101 - WORKPLACE COMMUNICATIONS
- BUSQOM 0050 - DECISION ANALYTICS
- BUSQOM 1070 - OPERATIONS MANAGEMENT
- BUSSPP 0020 - MANAGING COMPLEX ENVIRONMENTS
- BUSSPP 1080 - STRATEGIC MANAGEMENT
- BUSXXXX - XXXX - Elective Course

Total Credits for Major: 27

Total Credits for Degree: 120

Minor

Business for Non-Business Students Minor

This document proposes the creation of an eighteen-credit business minor that will be offered to and taken only by non-business students. The proposed program would include five three-credit courses that are part of the current CBA degree requirements and a specially-developed, three-credit capstone course. The program would admit students who have completed their freshman year who have completed 30 or more University credits and who meet admissions requirements of an overall GPA and performance in program prerequisites. Except for the capstone, students in the minor take classes with CBA students, and would need comparable preparation for those classes. The capstone will be designed for this program as a final, integrative, experiential class and would serve as the vehicle for assessment of student learning in the minor.

Choose 5 of the following (15 credits)

- BUSACC 0030 - FINANCIAL ACCOUNTING
- BUSBIS 1060 - INTRODUCTION TO INFORMATION SYSTEMS
- BUSFIN 1030 - INTRODUCTION TO FINANCE
- BUSMKT 1040 - INTRODUCTION TO MARKETING
- BUSORG 1020 - ORGANIZATIONAL BEHAVIOR
- BUSQOM 0050 - DECISION ANALYTICS

Required (3 credits)

Department of Business Administration

Certificate

Innovation & Entrepreneurship Certificate

A total of 15 credits are required to complete the CPIE. This includes both required and elective coursework focused on innovation and entrepreneurship. CPIE elective coursework allows students to tailor their program to their specific business major and to one of three "tracks" including: corporate (innovation and development inside the organization), traditional (business ownership), and social impact (social entrepreneurship). The program culminates in an experience-based learning component (EBL). Students can complete the EBL component by selecting an entrepreneurship project course, an entrepreneurship internship, or a global entrepreneurship experience. To earn the CPIE, students must maintain a minimum GPA of 2.25 (C+ average) across all courses in the program.

Students are also strongly encouraged to participate in related non-credit entrepreneurship immersion experiences such as competitions and student organizations.

Required Courses (6 Credits)

The following courses are required:

- BUSORG 1640 - THE ENTREPRENEURSHIP PROCESS
- BUSORG 1645 - CORPORATE ENTREPRENEURSHIP

Selective Required Course (3 credits)

Select one of the following:

- BUSENV 1785 - SOCIAL ENTREPRENEURSHIP
- BUSSPP 1750 - COMMERCIALIZING NEW TECHNOLOGY
- BUSMKT 1431 - PRODUCT DEVELOPMENT AND MANAGEMENT
- BUSORG 1665 - LAW, ENTREPRENEURSHIP, AND INNOVATION
- BUSORG 1705 - MINORITY AND IMMIGRANT ENTREPRENEURSHIP

Elective Course (3 credits)

Select one from the following: Note: This course should correspond to elective choices within the student's business major and may also be counted towards the completion of the business major.

- BUSACC 1236 - ACCOUNTING INFORMATION SYSTEMS
- BUSFIN 1321 - INVESTMENT MANAGEMENT
- BUSMKT 1426 - ADVERTISING AND SALES PROMOTION
- BUSHRM 1675 - HUMAN RESOURCES STAFFING
- BUSBIS 1625 - ELECTRONIC COMMERCE
- BUSSCM 1730 - MANAGING GLOBAL SUPPLY CHAINS
- BUSBIS 1630 - PROJECT MANAGEMENT
- BUSENV 1760 - BUSINESS LAW
- ENGR 1060 - SOCIAL ENTREPRENEURSHIP- ENGINEERING FOR HUMANITY
- BUSORG 1701 - SOCIAL ENTREPRENEURSHIP
- BUSORG 1705 - MINORITY AND IMMIGRANT ENTREPRENEURSHIP

Experiential Learning Requirement (3 credits)

Select one of the following:

- BUSENV 1791 - PROJECTS IN ENTREPRENEURSHIP
- Entrepreneurial Internship (3 credits)
- Global Entrepreneurship Experience (3 credits)

International Business Certificate

The Certificate Program in International Business (CPIB) builds upon the core curriculum in the College of Business Administration and is available only to BSBA students. Requirements include satisfactory completion of level 4 of a second language (a two-year, four-course sequence at the University of Pittsburgh), specialized course work, and one term of approved study abroad or an international internship (3-12 credits). Students majoring in Global Management may not also earn the Certificate in International Business.

Leadership and Ethics Certificate

The Certificate Program in Leadership and Ethics (CPLÉ) builds upon the core curriculum in the College of Business Administration and is available only to BSBA students. Students admitted to the CPLÉ will be required to successfully complete all requirements for the BSBA degree requirements including satisfactory completion of specialized course work, internships, and a service-learning project integrating ethics and leadership.

Supply Chain Management Certificate

The Certificate in Supply Chain Management (CSCM) is offered jointly by the College of Business Administration and Swanson School of Engineering. Enrollment is available to BSBA students and students enrolled in the BS engineering programs in the School of Engineering. The CSCM provides students with the opportunity to understand important concepts in supply chain management and develop managerial and technical skills which are highly valued in today's corporate environment. The program also offers an international travel experience for students to gain hands-on exposure to global supply chain organizations. The CSCM requires 15 credits and is comprised of coursework offered by both CBA and the School of Engineering.

Program Requirements

1. IE 1080 - SUPPLY CHAIN ANALYSIS - 3 Credits (BUSQOM 1070 is for business students only)
 2. BUSSCM 1730 - MANAGING GLOBAL SUPPLY CHAINS - 3 Credits
 3. **CBA Supply Chain Elective Course** - 3 Credits - Choose one of the following:
 - BUSSCM 1740 - PURCHASING & SUPPLY MANAGEMENT
 - BUSSCM 1750 - REVENUE MANAGEMENT
 4. **Industrial Engineering Elective Course** - 3 Credits - Choose one of the following:
 - IE 1055 - FACILITY LAYOUT AND MATERIAL HANDLING (Note that since Industrial Engineering (IE) students are required to take IE 1055, they must take one of the other courses from this list. Prerequisites can be waived for non-IE engineering students on a case-by-case basis.)
 - IE 1045 - TRANSPORTATION PLANNING METHOD: OR APPLICATIONS
 - IE 1079 - LOGISTIC AND SUPPLY CHAIN ENGINEERING
 - IE 1102 - LEAN SIX SIGMA I (GREEN BELT)
 - IE 1203 - WAREHOUSE OPERATIONS
 - IE 1204 - APPLIED SUPPLY CHAIN ANALYTICS
 5. **Global Supply Chain Project Elective Course** - 3 Credits - Choose one of the following:
 - BUSSPP 1740 - GLOBAL STRATEGY AND COMPETITIVE ADVANTAGE (does not require travel)
 - ENGR 1228 - EXCHANGE URUGUAY-UNIVERSITY OF MONTEVIDEO
 - ENGR 1450 - ENGINEERING- THE GERMAN WAY
 - ENGR 1600 - INTERNATIONAL TECHNOLOGY: INNOVATION AND LEADERSHIP
 - ENGR 1625 - ENGINEERING BUSINESS COLLABORATIONS IN INDIA
 - *Other international project courses may also be considered*
- In addition, the student must obtain a grade of C or better in each course counted toward the Certificate and a minimum QPA of 2.25 (C+ average) across all courses in the Certificate.

Joint Major

Business Information Systems, BSBA

BSBA Degree Requirements

The following sections describe the general requirements for all majors within the Bachelor of Science in Business Administration (BSBA) degree program:

The degree requirements applicable to a particular student are based upon the student's term of entry into the program and reflect any requirement changes that have been approved since this bulletin was published. These requirements and the student's progress toward the BSBA degree are noted on the student's online Undergraduate Advisement Transcript.

Graduation Requirements

120 credits are required for graduation with a BSBA degree. A minimum of 41 credits must be taken in the arts and sciences.

A student may use one course to fulfill two arts and sciences requirements.

Arts and Sciences Foundations: Basic Skills Requirements

There are seven basic skills that all BSBA students must master; these basic skills prepare students for future classes. The basic skills requirements include:

English Composition

- Students who earn 500 or above on SAT Verbal (Critical Reading) are placed into Seminar in Composition (or equivalent course).
- Students who earn below 500 on SAT Verbal (Critical Reading) will be placed into a Workshop in Composition course.
- Recommendations for ENGCMP 0201 or ENGCMP 0151 (tutorials) will be based on class diagnostic writing during add/drop period.
- English as a Second Language students will be placed into appropriate courses based on English Language proficiency. All students are strongly encouraged to complete their English composition requirement(s) in the freshman year.

Students earning a score of 600 on the critical reading portion of the SAT, who also earn a score of 5 on the Advanced Placement (AP) English exam, will be awarded advanced standing credit for ENGCMP 0200 - SEMINAR IN COMPOSITION and 3 additional credits in English composition.

Second Language

Any one of the following fulfills the language requirement:

- Three years of study of a single second language in high school, passed with an average of C or better over the three years.
- Placement into level III of a second language on a University of Pittsburgh language placement test.
- Placement into level II of a second language on a University of Pittsburgh language placement test and completion of the appropriate course from the second course list below.
- Completion of an approved two course sequence of a foreign language.
Students should discuss specific foreign language course options with their academic advisor.

Calculus

Taking one course from the following list fulfills this requirement:

Note: *Only one of these courses may apply to the 120 total credits required for graduation.*

- MATH 0120 - BUSINESS CALCULUS
- MATH 0220 - ANALYTIC GEOMETRY AND CALCULUS 1
or both
- MATH 0125 - CALCULUS FOR BUSINESS 1 and
- MATH 0126 - CALCULUS FOR BUSINESS 2

Statistics

- STAT 1100 - STATISTICS AND PROBABILITY FOR BUSINESS MANAGEMENT fulfills this requirement.

Economics

Both of the following courses must be taken to fulfill this requirement:

- ECON 0100 - INTRODUCTION TO MICROECONOMIC THEORY
- ECON 0110 - INTRODUCTION TO MACROECONOMIC THEORY

Arts and Sciences General Education Electives

In addition to fulfilling the basic skills requirements, students further supplement their business curriculum by taking courses from six general education categories including:

- Literature (one course)
- Music/art (one course)
- Philosophy (one course)
- Social sciences (two courses, each from a different discipline)
- Natural sciences (two courses)
- Foreign culture (two courses or participation in an approved study abroad program)

Note: *All students, including international students and U.S. citizens who have lived abroad for any length of time, must complete the foreign culture requirement.*

Contact the school for a complete listing of approved courses that meet these elective requirements.

Business Core Curriculum

The Business Core Curriculum:

The following courses (36 credits) are required of all CBA students:

- BUSPPP 0020 - MANAGING COMPLEX ENVIRONMENTS
- BUSACC 0030 - FINANCIAL ACCOUNTING
- BUSACC 0040 - MANAGERIAL ACCOUNTING
- BUSQOM 0050 - DECISION ANALYTICS
- BUENV 0060 - MANAGERIAL ETHICS AND STAKEHOLDER MANAGEMENT
- BUSORG 1020 - ORGANIZATIONAL BEHAVIOR

- BUSORG 1101 - WORKPLACE COMMUNICATIONS (prerequisite 30 credits)
- BUSFIN 1030 - INTRODUCTION TO FINANCE (prerequisite 30 credits)
- BUSMKT 1040 - INTRODUCTION TO MARKETING (prerequisite 30 credits)
- BUSECN 1010 - MANAGERIAL ECONOMICS (prerequisite 30 credits)
- BUSQOM 1070 - OPERATIONS MANAGEMENT
- BUSSPP 1080 - STRATEGIC MANAGEMENT

Other Business Requirements

CBA students must also satisfy one of the following requirements:

BUS 0010 - YOUR ACADEMIC AND CAREER SUCCESS This one-credit course is required of all first-time CBA freshmen. In the course, new BSBA students will explore the majors offered in CBA, investigate global opportunities, develop networking and professional skills, create a resume, and learn how to connect with CBA's Career Services team regarding events, internship opportunities, and career development.

BUS 0020 - YOUR CAREER SUCCESS This one-credit course is required of all new CBA transfer students. In the course, students will participate in career exploration, develop and implement a personal strategy for career goal setting and planning, learn and practice communication and other professional skills, and become familiar with the internship and job search processes.

Design Specialization Concentration

In the Design Specialization ARCO, students gain design thinking skills that help integrate the needs of people, the possibilities of technologies, and the requirements for business success. Students will tackle real-world business issues and learn to create solutions that are functional, emotionally meaningful, and economically viable.

Required Course

Students earning the Design Specialization ARCO will have to complete the following required course:

- BUSBIS 1655 - DESIGN THINKING

Course Options

In addition to the required course, students must complete one of the courses from the following list:

- BUSBIS 1625 - ELECTRONIC COMMERCE
- BUSBIS 1640 - IT ARCHITECTURE & PLATFORMS
- BUSBIS 1660 - DISRUPTIVE TECHNOLOGIES
- BUSBIS 1665 - IMPROVING THE USER EXPERIENCE

Total Credits: 6

Enterprise Systems Specialization Concentration

Enterprise systems are the backbone of vital business processes of firms, including enterprise resource planning, supply chain management, and customer relationship management functions. In this track students will learn about the

important business processes, their interconnections, and the ways systems can be configured and used to facilitate those business processes.

Required Course

Students earning the Enterprise Systems Specialization ARCO will have to complete the following required course:

- BUSBIS 1635 - INFORMATION TECHNOLOGY SYSTEMS IN SUPPLY CHAINS

Course Options

In addition to the required course, students must complete one of the courses from the following list:

- BUSBIS 1625 - ELECTRONIC COMMERCE
- BUSBIS 1640 - IT ARCHITECTURE & PLATFORMS
- BUSBIS 1655 - DESIGN THINKING
- BUSBIS 1670 - DATA WAREHOUSING

Total Credits: 6

IS Consulting Specialization Concentration

IS Consulting is the practice of working with organizations to improve their performance. This ARCO prepares a student to be a consultant who has mastered the hard and soft skills needed to work with a client and engage over an IS Implementation.

Required Course

Students earning the IS Consulting Specialization ARCO will have to complete the following required course:

- BUSBIS 1650 - IS CONSULTANCY PRACTICES SOLUTION DEVELOPMENT

Course Options

In addition to the required course, students must complete one of the courses from the following list:

- BUSBIS 1645 - INFORMATION SYSTEMS ETHICS
- BUSBIS 1660 - DISRUPTIVE TECHNOLOGIES
- BUSBIS 1665 - IMPROVING THE USER EXPERIENCE
- BUSBIS 1670 - DATA WAREHOUSING

Total Credits: 6

Project Management Specialization Concentration

The Project Management ARCO prepares a student to master the skills for handling IS Projects. A project is a time bound endeavor with a specific goal. Almost all initiatives in the industry are managed through projects which needs a

thorough understanding of Project Management skills to succeed. This track prepares a student to master the skills needed to be a successful Project Manager.

Required Course

Students earning the Project Management Specialization ARCO will have to complete the following required course:

- BUSBIS 1645 - INFORMATION SYSTEMS ETHICS

Course Options

In addition to the required course, students must complete one of the courses from the following list:

- BUSBIS 1640 - IT ARCHITECTURE & PLATFORMS
- BUSBIS 1650 - IS CONSULTANCY PRACTICES SOLUTION DEVELOPMENT
- BUSBIS 1655 - DESIGN THINKING
- BUSBIS 1665 - IMPROVING THE USER EXPERIENCE

Total Credits: 6

Requirements

The major in accounting is designed to provide students with the general, business, and accounting knowledge necessary for them to succeed as professional accountants. As accounting is a dynamic field, all accounting majors will learn how to keep their knowledge up to date so they can continue to grow throughout their professional careers. Accounting majors will acquire the communication, computer, and interpersonal skills necessary to successfully resolve complex problems in unstructured settings. Accounting majors benefit from participation in extracurricular activities and organizations such as the University of Pittsburgh Accounting Association and Beta Alpha Psi, the national accounting honorary society.

All accounting majors must complete the two (2) BSBA core courses in accounting, two (2) Intermediate Financial Reporting Courses, and choose four (4) other accounting major courses from the list below for a total of eight (8) Accounting classes for 24 credits (6 credits of BSBA core and 18 credits of Accounting Major courses). All courses are three credits unless noted otherwise.

BSBA Core Courses in Accounting (6 Credits)

Students must complete these courses with a C or better in each course to be eligible to take additional accounting courses:

- BUSACC 0030 - FINANCIAL ACCOUNTING
- BUSACC 0040 - MANAGERIAL ACCOUNTING

Required Accounting Courses for all Accounting Majors (6 Credits)

Courses are offered on a rotating basis.

- BUSACC 1204 - INTERMEDIATE FINANCIAL REPORTING 1
- BUSACC 1205 - INTERMEDIATE FINANCIAL REPORTING 2

Choose 4 Accounting Courses from this List (12 Credits)

Courses are offered on a rotating basis.

- BUSACC 1216 - ADVANCED FINANCIAL ACCOUNTING
- BUSACC 1221 - STRATEGIC COST MANAGEMENT
- BUSACC 1236 - ACCOUNTING INFORMATION SYSTEMS
- BUSACC 1238 - AUDITING
- BUSACC 1242 - TAXES AND DECISION MAKING
- BUSACC 1210 - FINANCIAL STATEMENT ANALYSIS

Additional Accounting Electives

- BUSACC 1296 - ACCOUNTING INTERNSHIP (requires CBA approval)
- BUSACC 1298 - ACCOUNTING INDEPENDENT STUDY (requires CBA approval)

BSBA Program Learning Goals

Graduates of the University of Pittsburgh's College of Business Administration should achieve the following learning outcomes in the four broad components of the BSBA program (major, electives, core and foundations):

Demonstrate in-depth knowledge and skills in at least one academic/career focus through completion of majors, certificates, minors and electives.

Demonstrate what every BSBA graduate is expected to know about business and management at graduation. This literacy is developed in courses taught in CBA and in particular courses required of all students and offered by the School of Arts and Sciences.

Demonstrate competency in the fundamentals of analyzing problems and making decisions with standard business data and data sources using appropriate quantitative and qualitative methodologies.

Demonstrate competency in interpersonal skills, including concise and persuasive written and presentation communication.

Demonstrate competency in applying acquired knowledge and skills in real-world situations.

Acquire a basic knowledge of at least one nation, region or culture in areas such as language, history, political systems, literature and artistic expression.

Acquire an exposure to the knowledge and methodologies used to explore natural, individual, social and cultural phenomena.

Students preparing for the Certified Public Accounting (CPA) Exam will need to complete 150 total credit hours. These credits may be completed through the BSBA program and/or through the MS in Accounting program. Particular CPA Exam requirements vary by state. Academic Advisors and members of the Accounting faculty provide guidance to students preparing for the CPA exam, but students are responsible for confirming with the appropriate state board of accountancy that all educational and experiential requirements are met.

Finance, BSBA

BSBA Degree Requirements

The following sections describe the general requirements for all majors within the Bachelor of Science in Business Administration (BSBA) degree program:

The degree requirements applicable to a particular student are based upon the student's term of entry into the program and reflect any requirement changes that have been approved since this bulletin was published. These requirements and the student's progress toward the BSBA degree are noted on the student's online Undergraduate Advisement Transcript.

Graduation Requirements

120 credits are required for graduation with a BSBA degree. A minimum of 41 credits must be taken in the arts and sciences.

A student may use one course to fulfill two arts and sciences requirements.

Arts and Sciences Foundations: Basic Skills Requirements

There are seven basic skills that all BSBA students must master; these basic skills prepare students for future classes. The basic skills requirements include:

English Composition

- Students who earn 500 or above on SAT Verbal (Critical Reading) are placed into Seminar in Composition (or equivalent course).
- Students who earn below 500 on SAT Verbal (Critical Reading) will be placed into a Workshop in Composition course.
- Recommendations for ENGCOMP 0201 or ENGCOMP 0151 (tutorials) will be based on class diagnostic writing during add/drop period.
- English as a Second Language students will be placed into appropriate courses based on English Language proficiency. All students are strongly encouraged to complete their English composition requirement(s) in the freshman year.

Students earning a score of 600 on the critical reading portion of the SAT, who also earn a score of 5 on the Advanced Placement (AP) English exam, will be awarded advanced standing credit for ENGCOMP 0200 - SEMINAR IN COMPOSITION and 3 additional credits in English composition.

Second Language

Any one of the following fulfills the language requirement:

- Three years of study of a single second language in high school, passed with an average of C or better over the three years.
- Placement into level III of a second language on a University of Pittsburgh language placement test.
- Placement into level II of a second language on a University of Pittsburgh language placement test and completion of the appropriate course from the second course list below.
- Completion of an approved two course sequence of a foreign language.
Students should discuss specific foreign language course options with their academic advisor.

Calculus

Taking one course from the following list fulfills this requirement:

Note: *Only one of these courses may apply to the 120 total credits required for graduation.*

- MATH 0120 - BUSINESS CALCULUS
- MATH 0220 - ANALYTIC GEOMETRY AND CALCULUS 1
or both
- MATH 0125 - CALCULUS FOR BUSINESS 1 and
- MATH 0126 - CALCULUS FOR BUSINESS 2

Statistics

- STAT 1100 - STATISTICS AND PROBABILITY FOR BUSINESS MANAGEMENT fulfills this requirement.

Economics

Both of the following courses must be taken to fulfill this requirement:

- ECON 0100 - INTRODUCTION TO MICROECONOMIC THEORY
- ECON 0110 - INTRODUCTION TO MACROECONOMIC THEORY

Arts and Sciences General Education Electives

In addition to fulfilling the basic skills requirements, students further supplement their business curriculum by taking courses from six general education categories including:

- Literature (one course)
 - Music/art (one course)
 - Philosophy (one course)
 - Social sciences (two courses, each from a different discipline)
 - Natural sciences (two courses)
 - Foreign culture (two courses or participation in an approved study abroad program)
- Note:** *All students, including international students and U.S. citizens who have lived abroad for any length of time, must complete the foreign culture requirement.*

Contact the school for a complete listing of approved courses that meet these elective requirements.

Business Core Curriculum

The Business Core Curriculum:

The following courses (36 credits) are required of all CBA students:

- BUSPSP 0020 - MANAGING COMPLEX ENVIRONMENTS
- BUSACC 0030 - FINANCIAL ACCOUNTING
- BUSACC 0040 - MANAGERIAL ACCOUNTING
- BUSQOM 0050 - DECISION ANALYTICS
- BUENV 0060 - MANAGERIAL ETHICS AND STAKEHOLDER MANAGEMENT
- BUSORG 1020 - ORGANIZATIONAL BEHAVIOR
- BUSORG 1101 - WORKPLACE COMMUNICATIONS (prerequisite 30 credits)
- BUSFIN 1030 - INTRODUCTION TO FINANCE (prerequisite 30 credits)
- BUSMKT 1040 - INTRODUCTION TO MARKETING (prerequisite 30 credits)
- BUSECN 1010 - MANAGERIAL ECONOMICS (prerequisite 30 credits)
- BUSQOM 1070 - OPERATIONS MANAGEMENT
- BUSPSP 1080 - STRATEGIC MANAGEMENT

Other Business Requirements

CBA students must also satisfy one of the following requirements:

BUS 0010 - YOUR ACADEMIC AND CAREER SUCCESS This one-credit course is required of all first-time CBA freshmen. In the course, new BSBA students will explore the majors offered in CBA, investigate global opportunities, develop networking and professional skills, create a resume, and learn how to connect with CBA's Career Services team regarding events, internship opportunities, and career development.

BUS 0020 - YOUR CAREER SUCCESS This one-credit course is required of all new CBA transfer students. In the course, students will participate in career exploration, develop and implement a personal strategy for career goal setting and planning, learn and practice communication and other professional skills, and become familiar with the internship and job search processes.

Design Specialization Concentration

In the Design Specialization ARCO, students gain design thinking skills that help integrate the needs of people, the possibilities of technologies, and the requirements for business success. Students will tackle real-world business issues and learn to create solutions that are functional, emotionally meaningful, and economically viable.

Required Course

Students earning the Design Specialization ARCO will have to complete the following required course:

- BUSBIS 1655 - DESIGN THINKING

Course Options

In addition to the required course, students must complete one of the courses from the following list:

- BUSBIS 1625 - ELECTRONIC COMMERCE
- BUSBIS 1640 - IT ARCHITECTURE & PLATFORMS
- BUSBIS 1660 - DISRUPTIVE TECHNOLOGIES
- BUSBIS 1665 - IMPROVING THE USER EXPERIENCE

Total Credits: 6

Enterprise Systems Specialization Concentration

Enterprise systems are the backbone of vital business processes of firms, including enterprise resource planning, supply chain management, and customer relationship management functions. In this track students will learn about the important business processes, their interconnections, and the ways systems can be configured and used to facilitate those business processes.

Required Course

Students earning the Enterprise Systems Specialization ARCO will have to complete the following required course:

- BUSBIS 1635 - INFORMATION TECHNOLOGY SYSTEMS IN SUPPLY CHAINS

Course Options

In addition to the required course, students must complete one of the courses from the following list:

- BUSBIS 1625 - ELECTRONIC COMMERCE
- BUSBIS 1640 - IT ARCHITECTURE & PLATFORMS
- BUSBIS 1655 - DESIGN THINKING
- BUSBIS 1670 - DATA WAREHOUSING

Total Credits: 6

IS Consulting Specialization Concentration

IS Consulting is the practice of working with organizations to improve their performance. This ARCO prepares a student to be a consultant who has mastered the hard and soft skills needed to work with a client and engage over an IS Implementation.

Required Course

Students earning the IS Consulting Specialization ARCO will have to complete the following required course:

- BUSBIS 1650 - IS CONSULTANCY PRACTICES SOLUTION DEVELOPMENT

Course Options

In addition to the required course, students must complete one of the courses from the following list:

- BUSBIS 1645 - INFORMATION SYSTEMS ETHICS
- BUSBIS 1660 - DISRUPTIVE TECHNOLOGIES
- BUSBIS 1665 - IMPROVING THE USER EXPERIENCE
- BUSBIS 1670 - DATA WAREHOUSING

Total Credits: 6

Project Management Specialization Concentration

The Project Management ARCO prepares a student to master the skills for handling IS Projects. A project is a time bound endeavor with a specific goal. Almost all initiatives in the industry are managed through projects which needs a thorough understanding of Project Management skills to succeed. This track prepares a student to master the skills needed to be a successful Project Manager.

Course Options

In addition to the required course, students must complete one of the courses from the following list:

- BUSBIS 1640 - IT ARCHITECTURE & PLATFORMS
- BUSBIS 1650 - IS CONSULTANCY PRACTICES SOLUTION DEVELOPMENT
- BUSBIS 1655 - DESIGN THINKING
- BUSBIS 1665 - IMPROVING THE USER EXPERIENCE

Total Credits: 6

Requirements

The major in finance is designed to provide students with the financial knowledge and skills required for a successful business career. It attempts to give students a thorough understanding of the theoretical financial principles and the practical implementation of these principles in the world of business. Students learn how financial markets operate and how to make effective investment and financial decisions. The major is designed to develop analytical skills and problem-solving abilities.

Finance knowledge and practice have become crucial for the success of corporations and of the individuals employed by them. Financial markets are the major conduits through which investments are channeled in the global marketplace.

Understanding these markets and how to make investment decisions are crucial for success in business.

In addition to the BSBA core course, BUSFIN 1030 - INTRODUCTION TO FINANCE, at least fifteen (15) credits in finance course work are required for the finance major.

BSBA Core Course in Finance

This course must be completed with a C or better to take additional finance courses:

- BUSFIN 1030 - INTRODUCTION TO FINANCE

Required Finance Major Courses

- BUSFIN 1311 - CORPORATE FINANCE
- BUSFIN 1321 - INVESTMENT MANAGEMENT

Finance Electives

Courses are offered on a rotating basis.
(A minimum of three courses must be taken.)

- BUSFIN 1316 - CORPORATE FINANCIAL STRATEGY
- BUSFIN 1326 - EFFICIENCY OF CAPITAL MARKETS
- BUSFIN 1327 - RISK MANAGEMENT
- BUSFIN 1328 - CAPITAL MARKETS
- BUSFIN 1331 - FINANCIAL INSTITUTIONS AND MARKETS
- BUSFIN 1341 - INTERNATIONAL FINANCE
- BUSFIN 1345 - MARKETS AND TRADING
- BUSFIN 1347 - MERGERS, ACQUISITIONS AND CORPORATE STRUCTURES
- BUSFIN 1351 - FINANCIAL MODELING
- BUSFIN 1354 - Valuation
- BUSFIN 1390 - FINANCE INTERNSHIP
- BUSFIN 1395 - FINANCE INDEPENDENT STUDY

BSBA Program Learning Goals

Graduates of the University of Pittsburgh's College of Business Administration should achieve the following learning outcomes in the four broad components of the BSBA program (major, electives, core and foundations):

Demonstrate in-depth knowledge and skills in at least one academic/career focus through completion of majors, certificates, minors and electives.

Demonstrate what every BSBA graduate is expected to know about business and management at graduation. This literacy is developed in courses taught in CBA and in particular courses required of all students and offered by the School of Arts and Sciences.

Demonstrate competency in the fundamentals of analyzing problems and making decisions with standard business data and data sources using appropriate quantitative and qualitative methodologies.

Demonstrate competency in interpersonal skills, including concise and persuasive written and presentation communication.

Demonstrate competency in applying acquired knowledge and skills in real-world situations.

Acquire a basic knowledge of at least one nation, region or culture in areas such as language, history, political systems, literature and artistic expression.

Acquire an exposure to the knowledge and methodologies used to explore natural, individual, social and cultural phenomena.

General Management, BSBA

BSBA Degree Requirements

The following sections describe the general requirements for all majors within the Bachelor of Science in Business Administration (BSBA) degree program:

The degree requirements applicable to a particular student are based upon the student's term of entry into the program and reflect any requirement changes that have been approved since this bulletin was published. These requirements and the student's progress toward the BSBA degree are noted on the student's online Undergraduate Advisement Transcript.

Graduation Requirements

120 credits are required for graduation with a BSBA degree. A minimum of 41 credits must be taken in the arts and sciences.

A student may use one course to fulfill two arts and sciences requirements.

Arts and Sciences Foundations: Basic Skills Requirements

There are seven basic skills that all BSBA students must master; these basic skills prepare students for future classes. The basic skills requirements include:

English Composition

- Students who earn 500 or above on SAT Verbal (Critical Reading) are placed into Seminar in Composition (or equivalent course).
- Students who earn below 500 on SAT Verbal (Critical Reading) will be placed into a Workshop in Composition course.
- Recommendations for ENGCOMP 0201 or ENGCOMP 0151 (tutorials) will be based on class diagnostic writing during add/drop period.
- English as a Second Language students will be placed into appropriate courses based on English Language proficiency. All students are strongly encouraged to complete their English composition requirement(s) in the freshman year.

Students earning a score of 600 on the critical reading portion of the SAT, who also earn a score of 5 on the Advanced Placement (AP) English exam, will be awarded advanced standing credit for ENGCMP 0200 - SEMINAR IN COMPOSITION and 3 additional credits in English composition.

Second Language

Any one of the following fulfills the language requirement:

- Three years of study of a single second language in high school, passed with an average of C or better over the three years.
- Placement into level III of a second language on a University of Pittsburgh language placement test.
- Placement into level II of a second language on a University of Pittsburgh language placement test and completion of the appropriate course from the second course list below.
- Completion of an approved two course sequence of a foreign language.
Students should discuss specific foreign language course options with their academic advisor.

Calculus

Taking one course from the following list fulfills this requirement:

Note: *Only one of these courses may apply to the 120 total credits required for graduation.*

- MATH 0120 - BUSINESS CALCULUS
- MATH 0220 - ANALYTIC GEOMETRY AND CALCULUS 1
or both
- MATH 0125 - CALCULUS FOR BUSINESS 1 and
- MATH 0126 - CALCULUS FOR BUSINESS 2

Statistics

- STAT 1100 - STATISTICS AND PROBABILITY FOR BUSINESS MANAGEMENT fulfills this requirement.

Economics

Both of the following courses must be taken to fulfill this requirement:

- ECON 0100 - INTRODUCTION TO MICROECONOMIC THEORY
- ECON 0110 - INTRODUCTION TO MACROECONOMIC THEORY

Arts and Sciences General Education Electives

In addition to fulfilling the basic skills requirements, students further supplement their business curriculum by taking courses from six general education categories including:

- Literature (one course)
- Music/art (one course)
- Philosophy (one course)
- Social sciences (two courses, each from a different discipline)
- Natural sciences (two courses)

- Foreign culture (two courses or participation in an approved study abroad program)
Note: *All students, including international students and U.S. citizens who have lived abroad for any length of time, must complete the foreign culture requirement.*

Contact the school for a complete listing of approved courses that meet these elective requirements.

Business Core Curriculum

The Business Core Curriculum:

The following courses (36 credits) are required of all CBA students:

- BUSSP 0020 - MANAGING COMPLEX ENVIRONMENTS
- BUSACC 0030 - FINANCIAL ACCOUNTING
- BUSACC 0040 - MANAGERIAL ACCOUNTING
- BUSQOM 0050 - DECISION ANALYTICS
- BUSENV 0060 - MANAGERIAL ETHICS AND STAKEHOLDER MANAGEMENT
- BUSORG 1020 - ORGANIZATIONAL BEHAVIOR
- BUSORG 1101 - WORKPLACE COMMUNICATIONS (prerequisite 30 credits)
- BUSFIN 1030 - INTRODUCTION TO FINANCE (prerequisite 30 credits)
- BUSMKT 1040 - INTRODUCTION TO MARKETING (prerequisite 30 credits)
- BUSECN 1010 - MANAGERIAL ECONOMICS (prerequisite 30 credits)
- BUSQOM 1070 - OPERATIONS MANAGEMENT
- BUSSP 1080 - STRATEGIC MANAGEMENT

Other Business Requirements

CBA students must also satisfy one of the following requirements:

BUS 0010 - YOUR ACADEMIC AND CAREER SUCCESS This one-credit course is required of all first-time CBA freshmen. In the course, new BSBA students will explore the majors offered in CBA, investigate global opportunities, develop networking and professional skills, create a resume, and learn how to connect with CBA's Career Services team regarding events, internship opportunities, and career development.

BUS 0020 - YOUR CAREER SUCCESS This one-credit course is required of all new CBA transfer students. In the course, students will participate in career exploration, develop and implement a personal strategy for career goal setting and planning, learn and practice communication and other professional skills, and become familiar with the internship and job search processes.

Design Specialization Concentration

In the Design Specialization ARCO, students gain design thinking skills that help integrate the needs of people, the possibilities of technologies, and the requirements for business success. Students will tackle real-world business issues and learn to create solutions that are functional, emotionally meaningful, and economically viable.

Required Course

Students earning the Design Specialization ARCO will have to complete the following required course:

- BUSBIS 1655 - DESIGN THINKING

Course Options

In addition to the required course, students must complete one of the courses from the following list:

- BUSBIS 1625 - ELECTRONIC COMMERCE
- BUSBIS 1640 - IT ARCHITECTURE & PLATFORMS
- BUSBIS 1660 - DISRUPTIVE TECHNOLOGIES
- BUSBIS 1665 - IMPROVING THE USER EXPERIENCE

Total Credits: 6

Enterprise Systems Specialization Concentration

Enterprise systems are the backbone of vital business processes of firms, including enterprise resource planning, supply chain management, and customer relationship management functions. In this track students will learn about the important business processes, their interconnections, and the ways systems can be configured and used to facilitate those business processes.

Required Course

Students earning the Enterprise Systems Specialization ARCO will have to complete the following required course:

- BUSBIS 1635 - INFORMATION TECHNOLOGY SYSTEMS IN SUPPLY CHAINS

Course Options

In addition to the required course, students must complete one of the courses from the following list:

- BUSBIS 1625 - ELECTRONIC COMMERCE
- BUSBIS 1640 - IT ARCHITECTURE & PLATFORMS
- BUSBIS 1655 - DESIGN THINKING
- BUSBIS 1670 - DATA WAREHOUSING

Total Credits: 6

IS Consulting Specialization Concentration

IS Consulting is the practice of working with organizations to improve their performance. This ARCO prepares a student to be a consultant who has mastered the hard and soft skills needed to work with a client and engage over an IS Implementation.

Required Course

Students earning the IS Consulting Specialization ARCO will have to complete the following required course:

- BUSBIS 1650 - IS CONSULTANCY PRACTICES SOLUTION DEVELOPMENT

Course Options

In addition to the required course, students must complete one of the courses from the following list:

- BUSBIS 1645 - INFORMATION SYSTEMS ETHICS
- BUSBIS 1660 - DISRUPTIVE TECHNOLOGIES
- BUSBIS 1665 - IMPROVING THE USER EXPERIENCE
- BUSBIS 1670 - DATA WAREHOUSING

Total Credits: 6

Project Management Specialization Concentration

The Project Management ARCO prepares a student to master the skills for handling IS Projects. A project is a time bound endeavor with a specific goal. Almost all initiatives in the industry are managed through projects which needs a thorough understanding of Project Management skills to succeed. This track prepares a student to master the skills needed to be a successful Project Manager.

Required Course

Students earning the Project Management Specialization ARCO will have to complete the following required course:

- BUSBIS 1645 - INFORMATION SYSTEMS ETHICS

Course Options

In addition to the required course, students must complete one of the courses from the following list:

- BUSBIS 1640 - IT ARCHITECTURE & PLATFORMS
- BUSBIS 1650 - IS CONSULTANCY PRACTICES SOLUTION DEVELOPMENT
- BUSBIS 1655 - DESIGN THINKING
- BUSBIS 1665 - IMPROVING THE USER EXPERIENCE

Total Credits: 6

Requirements

The major in general management provides students with interests in more than one discipline with the flexibility to concentrate their elective course work in two areas. Course work in the areas noted below may be used for the general management major. Courses with significant international content are offered in several areas. Students with international business interests should also consider a study abroad program.

The core courses in the two focused areas of study must be completed with a C or better to take additional courses in those areas. Courses are offered on a rotating basis.

Accounting

- BUSACC 1204 - INTERMEDIATE FINANCIAL REPORTING 1

- BUSACC 1205 - INTERMEDIATE FINANCIAL REPORTING 2
- BUSACC 1210 - FINANCIAL STATEMENT ANALYSIS
- BUSACC 1216 - ADVANCED FINANCIAL ACCOUNTING
- BUSACC 1221 - STRATEGIC COST MANAGEMENT
- BUSACC 1236 - ACCOUNTING INFORMATION SYSTEMS
- BUSACC 1238 - AUDITING
- BUSACC 1242 - TAXES AND DECISION MAKING
- BUSACC 1296 - ACCOUNTING INTERNSHIP *
- BUSACC 1298 - ACCOUNTING INDEPENDENT STUDY **

Finance

- BUSFIN 1311 - CORPORATE FINANCE
- BUSFIN 1316 - CORPORATE FINANCIAL STRATEGY
- BUSFIN 1321 - INVESTMENT MANAGEMENT
- BUSFIN 1326 - EFFICIENCY OF CAPITAL MARKETS
- BUSFIN 1327 - RISK MANAGEMENT
- BUSFIN 1328 - CAPITAL MARKETS
- BUSFIN 1331 - FINANCIAL INSTITUTIONS AND MARKETS
- BUSFIN 1341 - INTERNATIONAL FINANCE
- BUSFIN 1345 - MARKETS AND TRADING
- BUSFIN 1347 - MERGERS, ACQUISITIONS AND CORPORATE STRUCTURES
- BUSFIN 1351 - FINANCIAL MODELING
- BUSFIN 1355 - VALUATION
- BUSFIN 1390 - FINANCE INTERNSHIP *
- BUSFIN 1395 - FINANCE INDEPENDENT STUDY **

Human Resources Management

- BUSHRM 1665 - NEGOTIATING IN BUSINESS
- BUSHRM 1670 - GLOBAL WORKFORCE MANAGEMENT AND CHANGE
- BUSHRM 1675 - HUMAN RESOURCES STAFFING
- BUSHRM 1680 - COMPENSATION AND PERFORMANCE MANGEMENT
- BUSHRM 1685 - EMPLOYMENT AND LABOR RELATIONS
- BUSHRM 1690 - HUMAN RESOURCES MANGEMENT INTERNSHIP *
- BUSHRM 1695 - HUMAN RESOURCES MANGEMENT INDEPENT STUDY **

Management Information Systems

- BUSBIS 1060 - INTRODUCTION TO INFORMATION SYSTEMS
- BUSBIS 1600 - TECHNOLOGY-ENABLED BUSINESS TRANSFORMATION
- BUSBIS 1605 - DATABASE MANAGEMENT
- BUSBIS 1625 - ELECTRONIC COMMERCE
- BUSBIS 1630 - PROJECT MANAGEMENT
- BUSBIS 1635 - INFORMATION TECHNOLOGY SYSTEMS IN SUPPLY CHAINS
- BUSBIS 1640 - IT ARCHITECTURE & PLATFORMS

- BUSBIS 1645 - INFORMATION SYSTEMS ETHICS
- BUSBIS 1615 - BUSINESS INFORMATION SYSTEMS INTERNSHIP
- BUSBIS 1620 - BUSINESS INFORMATION SYSTEMS INDEPENDENT STUDY

Marketing

- BUSMKT 1411 - MARKETING RESEARCH
- BUSMKT 1422 - PRINCIPLES OF SELLING
- BUSMKT 1425 - SALES LEADERSHIP AND MANAGEMENT
- BUSMKT 1426 - ADVERTISING AND SALES PROMOTION
- BUSMKT 1427 - PUBLIC RELATIONS MANAGEMENT
- BUSMKT 1428 - DIGITAL AND SOCIAL MEDIA MARKETING
- BUSMKT 1431 - PRODUCT DEVELOPMENT AND MANAGEMENT
- BUSMKT 1435 - SERVICES MARKETING
- BUSMKT 1441 - CONSUMER BEHAVIOR
- BUSMKT 1451 - RETAIL MANAGEMENT
- BUSMKT 1461 - INTERNATIONAL MARKETING
- BUSMKT 1481 - BRAND MANAGEMENT
- BUSMKT 1485 - PROJECTS IN MARKETING
- BUSMKT 1490 - MARKETING INTERNSHIP *
- BUSMKT 1495 - MARKETING INDEPENDENT STUDY **

Supply Chain Management

- BUSQOM 1725 - GLOBAL SUPPLY NETWORKS AND MANUFACTURING CULTURES IN LATIN AMERICA
- BUSSCM 1730 - MANAGING GLOBAL SUPPLY CHAINS
- BUSBIS 1635 - INFORMATION TECHNOLOGY SYSTEMS IN SUPPLY CHAINS
- BUSQOM 1790 - SUPPLY CHAIN MANAGEMENT INTERNSHIP *

Organizational Behavior

- BUSORG 1640 - THE ENTREPRENEURSHIP PROCESS
- BUSORG 1645 - CORPORATE ENTREPRENEURSHIP
- BUSORG 1655 - INTERNATIONAL DIMENSIONS OF ORGANIZATIONAL BEHAVIOR
- BUSORG 1660 - MANAGING DIVERSITY IN ORGANIZATIONS
- BUSORG 1670 - ORGANIZATIONAL BEHAVIOR INDEPENDENT STUDY **

Note:

* Plans for Internships must be approved by CBA Career Services before registration for the course is permitted. Internships will not be counted toward fulfilling Major requirements for students declaring after August 26, 2012.

** Plans for Independent Study courses must be approved by the Associate Dean before registration for the course is permitted.

Global Management, BSBA

BSBA Degree Requirements

The following sections describe the general requirements for all majors within the Bachelor of Science in Business Administration (BSBA) degree program:

The degree requirements applicable to a particular student are based upon the student's term of entry into the program and reflect any requirement changes that have been approved since this bulletin was published. These requirements and the student's progress toward the BSBA degree are noted on the student's online Undergraduate Advisement Transcript.

Graduation Requirements

120 credits are required for graduation with a BSBA degree. A minimum of 41 credits must be taken in the arts and sciences.

A student may use one course to fulfill two arts and sciences requirements.

Arts and Sciences Foundations: Basic Skills Requirements

There are seven basic skills that all BSBA students must master; these basic skills prepare students for future classes. The basic skills requirements include:

English Composition

- Students who earn 500 or above on SAT Verbal (Critical Reading) are placed into Seminar in Composition (or equivalent course).
- Students who earn below 500 on SAT Verbal (Critical Reading) will be placed into a Workshop in Composition course.
- Recommendations for ENGCOMP 0201 or ENGCOMP 0151 (tutorials) will be based on class diagnostic writing during add/drop period.
- English as a Second Language students will be placed into appropriate courses based on English Language proficiency. All students are strongly encouraged to complete their English composition requirement(s) in the freshman year.

Students earning a score of 600 on the critical reading portion of the SAT, who also earn a score of 5 on the Advanced Placement (AP) English exam, will be awarded advanced standing credit for ENGCOMP 0200 - SEMINAR IN COMPOSITION and 3 additional credits in English composition.

Second Language

Any one of the following fulfills the language requirement:

- Three years of study of a single second language in high school, passed with an average of C or better over the three years.
- Placement into level III of a second language on a University of Pittsburgh language placement test.
- Placement into level II of a second language on a University of Pittsburgh language placement test and completion of the appropriate course from the second course list below.
- Completion of an approved two course sequence of a foreign language.
Students should discuss specific foreign language course options with their academic advisor.

Calculus

Taking one course from the following list fulfills this requirement:

Note: *Only one of these courses may apply to the 120 total credits required for graduation.*

- MATH 0120 - BUSINESS CALCULUS
- MATH 0220 - ANALYTIC GEOMETRY AND CALCULUS 1
or both
- MATH 0125 - CALCULUS FOR BUSINESS 1 and
- MATH 0126 - CALCULUS FOR BUSINESS 2

Statistics

- STAT 1100 - STATISTICS AND PROBABILITY FOR BUSINESS MANAGEMENT fulfills this requirement.

Economics

Both of the following courses must be taken to fulfill this requirement:

- ECON 0100 - INTRODUCTION TO MICROECONOMIC THEORY
- ECON 0110 - INTRODUCTION TO MACROECONOMIC THEORY

Arts and Sciences General Education Electives

In addition to fulfilling the basic skills requirements, students further supplement their business curriculum by taking courses from six general education categories including:

- Literature (one course)
- Music/art (one course)
- Philosophy (one course)
- Social sciences (two courses, each from a different discipline)
- Natural sciences (two courses)
- Foreign culture (two courses or participation in an approved study abroad program)

Note: *All students, including international students and U.S. citizens who have lived abroad for any length of time, must complete the foreign culture requirement.*

Contact the school for a complete listing of approved courses that meet these elective requirements.

Business Core Curriculum

The Business Core Curriculum:

The following courses (36 credits) are required of all CBA students:

- BUSPPP 0020 - MANAGING COMPLEX ENVIRONMENTS
- BUSACC 0030 - FINANCIAL ACCOUNTING
- BUSACC 0040 - MANAGERIAL ACCOUNTING
- BUSQOM 0050 - DECISION ANALYTICS

- BUSBIS 1640 - IT ARCHITECTURE & PLATFORMS
- BUSBIS 1650 - IS CONSULTANCY PRACTICES SOLUTION DEVELOPMENT
- BUSBIS 1655 - DESIGN THINKING
- BUSBIS 1665 - IMPROVING THE USER EXPERIENCE

Total Credits: 6

Requirements

The global management major enables students to develop expertise in important dimensions of management in a global context. The GLMGT major requires six (6) courses exposing students to the management of people (International Dimensions of Organizational Behavior, Global Workforce Policy), process (Managing Global Supply Chains), and policy (International Economic Issues for Managers; Global Strategy and Competitive Advantage), plus an integrative, senior-level course, focusing on either a company project or a major global industry. We see these three dimensions as intertwined and mutually critical for those who seek to add value to the management function of today's organizations and the firms of tomorrow. To the core understanding of a traditional management foundation, we add knowledge of a second language at the conversational level with the goal of preparing students to conduct business in a second language.

Second Language Requirement

Global management majors must complete second language study through Level 4 at the University of Pittsburgh with a minimum grade of C+ in each course, along with an additional 3-credit course in the language, also to be completed with a minimum grade of C+. If, for a particular language, the University offers instruction only through Level 4, this requirement is fulfilled by 3 credits of a course specific to the region in which the language is widely spoken, completed with a minimum grade of C+. For students already fluent in a second (or third) language, it is required that they will earn at least 8 credits in another language with a minimum grade of C+ in each course.

A student is not permitted to earn both a Global Management major and a Certificate in International Business.

Required Global Management Major Courses

Earn a minimum grade of C (2.00) in each of the following prerequisites to GLM courses:

- BUSORG 1020 - ORGANIZATIONAL BEHAVIOR
- ECON 0100 - INTRODUCTION TO MICROECONOMIC THEORY
- ECON 0110 - INTRODUCTION TO MACROECONOMIC THEORY

- BUSHRM 1050 - MANAGING PEOPLE
- BUSQOM 1070 - OPERATIONS MANAGEMENT
- BUSSPP 1080 - STRATEGIC MANAGEMENT

Global management majors must successfully complete the following courses

Global management majors must successfully complete the following courses with a C- or better in each course and a cumulative grade point average of 2.25.

- BUSORG 1655 - INTERNATIONAL DIMENSIONS OF ORGANIZATIONAL BEHAVIOR
- BUSECN 1508 - INTERNATIONAL ECONOMICS FOR MANAGERS
- BUSHRM 1670 - GLOBAL WORKFORCE MANAGEMENT AND CHANGE
- BUSSCM 1730 - MANAGING GLOBAL SUPPLY CHAINS
- BUSSPP 1740 - GLOBAL STRATEGY AND COMPETITIVE ADVANTAGE

Note:

Global management majors must also earn a minimum GPA of 2.25 in nine (9) credits of second language beyond Level II or 6 credits of language beyond Level II plus 3 credits of a course specific to the region in which the language is widely spoken.

Complete a study abroad experience of at least four weeks in an internationally-based educational or work experience, preferably one making active use of a student's second language training. With permission, up to six (6) credits of the major area courses may be taken abroad as part of a semester study outside of the U.S. Permission will be based on examination of all course material.

* Plans for Internships must be approved by CBA Career Services before registration for the course is permitted. Internships will not be counted toward fulfilling Major requirements for students declaring after August 26, 2012.

** Plans for Independent Study courses must be approved by the Associate Dean before registration for the course is permitted.

Human Resources Management, BSBA

Required Courses

Students must complete 12 credits of required coursework for the HR major.

- BUSHRM 1675 - HUMAN RESOURCES STAFFING
- BUSHRM 1677 - TRAINING AND DEVELOPMENT
- BUSHRM 1680 - COMPENSATION AND PERFORMANCE MANGEMENT
- BUSHRM 1685 - EMPLOYMENT AND LABOR RELATIONS

Elective Courses

Students must complete minimum 6 credits of elective coursework for the HR major.

- BUSHRM 1665 - NEGOTIATING IN BUSINESS
- BUSHRM 1670 - GLOBAL WORKFORCE MANAGEMENT AND CHANGE

- BUSHRM 1681 - DIGITAL HUMAN RESOURCE FOUNDATIONS
- BUSHRM 1687 - HUMAN RESOURCES STRATEGY AND PLANNING
- BUSHRM 1688 - HUMAN RESOURCE ANALYTICS
- BUSHRM 1689 - SPORTS MANAGEMENT
- BUSENV 1757 - RACE AND BUSINESS ETHICS
- BUSORG 1655 - INTERNATIONAL DIMENSIONS OF ORGANIZATIONAL BEHAVIOR
- BUSORG 1660 - MANAGING DIVERSITY IN ORGANIZATIONS
- BUSHRM 1050 - MANAGING PEOPLE

Total Credits: 18

BUS 0010 - YOUR ACADEMIC AND CAREER SUCCESS This one-credit course is required of all first-time CBA freshmen. In the course, new BSBA students will explore the majors offered in CBA, investigate global opportunities, develop networking and professional skills, create a resume, and learn how to connect with CBA's Career Services team regarding events, internship opportunities, and career development.

BUS 0020 - YOUR CAREER SUCCESS This one-credit course is required of all new CBA transfer students. In the course, students will participate in career exploration, develop and implement a personal strategy for career goal setting and planning, learn and practice communication and other professional skills, and become familiar with the internship and job search processes.

Design Specialization Concentration

In the Design Specialization ARCO, students gain design thinking skills that help integrate the needs of people, the possibilities of technologies, and the requirements for business success. Students will tackle real-world business issues and learn to create solutions that are functional, emotionally meaningful, and economically viable.

Required Course

Students earning the Design Specialization ARCO will have to complete the following required course:

- BUSBIS 1655 - DESIGN THINKING

Course Options

In addition to the required course, students must complete one of the courses from the following list:

- BUSBIS 1625 - ELECTRONIC COMMERCE
- BUSBIS 1640 - IT ARCHITECTURE & PLATFORMS
- BUSBIS 1660 - DISRUPTIVE TECHNOLOGIES
- BUSBIS 1665 - IMPROVING THE USER EXPERIENCE

Total Credits: 6

Enterprise Systems Specialization Concentration

Enterprise systems are the backbone of vital business processes of firms, including enterprise resource planning, supply chain management, and customer relationship management functions. In this track students will learn about the important business processes, their interconnections, and the ways systems can be configured and used to facilitate those business processes.

Required Course

Students earning the Enterprise Systems Specialization ARCO will have to complete the following required course:

- BUSBIS 1635 - INFORMATION TECHNOLOGY SYSTEMS IN SUPPLY CHAINS

Course Options

In addition to the required course, students must complete one of the courses from the following list:

- BUSBIS 1625 - ELECTRONIC COMMERCE
- BUSBIS 1640 - IT ARCHITECTURE & PLATFORMS
- BUSBIS 1655 - DESIGN THINKING
- BUSBIS 1670 - DATA WAREHOUSING

Total Credits: 6

IS Consulting Specialization Concentration

IS Consulting is the practice of working with organizations to improve their performance. This ARCO prepares a student to be a consultant who has mastered the hard and soft skills needed to work with a client and engage over an IS Implementation.

Required Course

Students earning the IS Consulting Specialization ARCO will have to complete the following required course:

- BUSBIS 1650 - IS CONSULTANCY PRACTICES SOLUTION DEVELOPMENT

Course Options

In addition to the required course, students must complete one of the courses from the following list:

- BUSBIS 1645 - INFORMATION SYSTEMS ETHICS

- BUSBIS 1660 - DISRUPTIVE TECHNOLOGIES
- BUSBIS 1665 - IMPROVING THE USER EXPERIENCE
- BUSBIS 1670 - DATA WAREHOUSING

Total Credits: 6

Project Management Specialization Concentration

The Project Management ARCO prepares a student to master the skills for handling IS Projects. A project is a time bound endeavor with a specific goal. Almost all initiatives in the industry are managed through projects which needs a thorough understanding of Project Management skills to succeed. This track prepares a student to master the skills needed to be a successful Project Manager.

Required Course

Students earning the Project Management Specialization ARCO will have to complete the following required course:

- BUSBIS 1645 - INFORMATION SYSTEMS ETHICS

Course Options

In addition to the required course, students must complete one of the courses from the following list:

- BUSBIS 1640 - IT ARCHITECTURE & PLATFORMS
- BUSBIS 1650 - IS CONSULTANCY PRACTICES SOLUTION DEVELOPMENT
- BUSBIS 1655 - DESIGN THINKING
- BUSBIS 1665 - IMPROVING THE USER EXPERIENCE

Total Credits: 6

Requirements

The major in marketing is designed to provide students with the conceptual background and practical skills necessary to address questions such as what new products a firm should introduce, how products should be priced, how to identify the best channels of distribution, and how best to promote new and existing products. Students majoring in marketing can pursue careers in retailing, sales management, marketing research, advertising and promotion, consumer product marketing, or industrial marketing.

In addition to the general BSBA requirements, 18 credits in marketing course work, plus the BSBA core course BUSMKT 1040 - INTRODUCTION TO MARKETING, are required for the marketing major.

BSBA Core Course in Marketing

Students must complete this course with a C or better to be eligible to take additional marketing courses:

- BUSMKT 1040 - INTRODUCTION TO MARKETING

Required Marketing Major Courses

- BUSMKT 1411 - MARKETING RESEARCH
- BUSMKT 1441 - CONSUMER BEHAVIOR

Marketing Electives

Courses are offered on a rotating basis.
(A minimum of four courses must be taken.)

- BUSMKT 1422 - PRINCIPLES OF SELLING
- BUSMKT 1425 - SALES LEADERSHIP AND MANAGEMENT
- BUSMKT 1426 - ADVERTISING AND SALES PROMOTION
- BUSMKT 1427 - PUBLIC RELATIONS MANAGEMENT
- BUSMKT 1428 - DIGITAL AND SOCIAL MEDIA MARKETING
- BUSMKT 1431 - PRODUCT DEVELOPMENT AND MANAGEMENT
- BUSMKT 1435 - SERVICES MARKETING
- BUSMKT 1451 - RETAIL MANAGEMENT
- BUSMKT 1461 - INTERNATIONAL MARKETING
- BUSMKT 1481 - BRAND MANAGEMENT
- BUSMKT 1485 - PROJECTS IN MARKETING
- BUSMKT 1490 - MARKETING INTERNSHIP (requires CBA approval)
- BUSMKT 1495 - MARKETING INDEPENDENT STUDY (requires CBA approval)
- BUSSCM 1730 - MANAGING GLOBAL SUPPLY CHAINS

Supply Chain Management, BSBA

BSBA Degree Requirements

The following sections describe the general requirements for all majors within the Bachelor of Science in Business Administration (BSBA) degree program:

The degree requirements applicable to a particular student are based upon the student's term of entry into the program and reflect any requirement changes that have been approved since this bulletin was published. These requirements and the student's progress toward the BSBA degree are noted on the student's online Undergraduate Advisement Transcript.

Graduation Requirements

120 credits are required for graduation with a BSBA degree. A minimum of 41 credits must be taken in the arts and sciences.

A student may use one course to fulfill two arts and sciences requirements.

Arts and Sciences Foundations: Basic Skills Requirements

There are seven basic skills that all BSBA students must master; these basic skills prepare students for future classes. The basic skills requirements include:

English Composition

- Students who earn 500 or above on SAT Verbal (Critical Reading) are placed into Seminar in Composition (or equivalent course).
- Students who earn below 500 on SAT Verbal (Critical Reading) will be placed into a Workshop in Composition course.
- Recommendations for ENGCOMP 0201 or ENGCOMP 0151 (tutorials) will be based on class diagnostic writing during add/drop period.
- English as a Second Language students will be placed into appropriate courses based on English Language proficiency. All students are strongly encouraged to complete their English composition requirement(s) in the freshman year.

Students earning a score of 600 on the critical reading portion of the SAT, who also earn a score of 5 on the Advanced Placement (AP) English exam, will be awarded advanced standing credit for ENGCOMP 0200 - SEMINAR IN COMPOSITION and 3 additional credits in English composition.

Second Language

Any one of the following fulfills the language requirement:

- Three years of study of a single second language in high school, passed with an average of C or better over the three years.
- Placement into level III of a second language on a University of Pittsburgh language placement test.
- Placement into level II of a second language on a University of Pittsburgh language placement test and completion of the appropriate course from the second course list below.
- Completion of an approved two course sequence of a foreign language.
Students should discuss specific foreign language course options with their academic advisor.

Calculus

Taking one course from the following list fulfills this requirement:

Note: *Only one of these courses may apply to the 120 total credits required for graduation.*

- MATH 0120 - BUSINESS CALCULUS
- MATH 0220 - ANALYTIC GEOMETRY AND CALCULUS 1
or both
- MATH 0125 - CALCULUS FOR BUSINESS 1 and
- MATH 0126 - CALCULUS FOR BUSINESS 2

Statistics

- STAT 1100 - STATISTICS AND PROBABILITY FOR BUSINESS MANAGEMENT fulfills this requirement.

Economics

Both of the following courses must be taken to fulfill this requirement:

- ECON 0100 - INTRODUCTION TO MICROECONOMIC THEORY
- ECON 0110 - INTRODUCTION TO MACROECONOMIC THEORY

Arts and Sciences General Education Electives

In addition to fulfilling the basic skills requirements, students further supplement their business curriculum by taking courses from six general education categories including:

- Literature (one course)
 - Music/art (one course)
 - Philosophy (one course)
 - Social sciences (two courses, each from a different discipline)
 - Natural sciences (two courses)
 - Foreign culture (two courses or participation in an approved study abroad program)
- Note:** *All students, including international students and U.S. citizens who have lived abroad for any length of time, must complete the foreign culture requirement.*

Contact the school for a complete listing of approved courses that meet these elective requirements.

Business Core Curriculum

The Business Core Curriculum:

The following courses (36 credits) are required of all CBA students:

- BUSPSP 0020 - MANAGING COMPLEX ENVIRONMENTS
- BUSACC 0030 - FINANCIAL ACCOUNTING
- BUSACC 0040 - MANAGERIAL ACCOUNTING
- BUSQOM 0050 - DECISION ANALYTICS
- BUENV 0060 - MANAGERIAL ETHICS AND STAKEHOLDER MANAGEMENT
- BUSORG 1020 - ORGANIZATIONAL BEHAVIOR
- BUSORG 1101 - WORKPLACE COMMUNICATIONS (prerequisite 30 credits)
- BUSFIN 1030 - INTRODUCTION TO FINANCE (prerequisite 30 credits)
- BUSMKT 1040 - INTRODUCTION TO MARKETING (prerequisite 30 credits)
- BUSECN 1010 - MANAGERIAL ECONOMICS (prerequisite 30 credits)
- BUSQOM 1070 - OPERATIONS MANAGEMENT
- BUSPSP 1080 - STRATEGIC MANAGEMENT

Other Business Requirements

CBA students must also satisfy one of the following requirements:

BUS 0010 - YOUR ACADEMIC AND CAREER SUCCESS This one-credit course is required of all first-time CBA freshmen. In the course, new BSBA students will explore the majors offered in CBA, investigate global opportunities, develop networking and professional skills, create a resume, and learn how to connect with CBA's Career Services team regarding events, internship opportunities, and career development.

BUS 0020 - YOUR CAREER SUCCESS This one-credit course is required of all new CBA transfer students. In the course, students will participate in career exploration, develop and implement a personal strategy for career goal setting and planning, learn and practice communication and other professional skills, and become familiar with the internship and job search processes.

Design Specialization Concentration

In the Design Specialization ARCO, students gain design thinking skills that help integrate the needs of people, the possibilities of technologies, and the requirements for business success. Students will tackle real-world business issues and learn to create solutions that are functional, emotionally meaningful, and economically viable.

Required Course

Students earning the Design Specialization ARCO will have to complete the following required course:

- BUSBIS 1655 - DESIGN THINKING

Course Options

In addition to the required course, students must complete one of the courses from the following list:

- BUSBIS 1625 - ELECTRONIC COMMERCE
- BUSBIS 1640 - IT ARCHITECTURE & PLATFORMS
- BUSBIS 1660 - DISRUPTIVE TECHNOLOGIES
- BUSBIS 1665 - IMPROVING THE USER EXPERIENCE

Total Credits: 6

Enterprise Systems Specialization Concentration

Enterprise systems are the backbone of vital business processes of firms, including enterprise resource planning, supply chain management, and customer relationship management functions. In this track students will learn about the important business processes, their interconnections, and the ways systems can be configured and used to facilitate those business processes.

Required Course

Students earning the Enterprise Systems Specialization ARCO will have to complete the following required course:

- BUSBIS 1635 - INFORMATION TECHNOLOGY SYSTEMS IN SUPPLY CHAINS

Course Options

In addition to the required course, students must complete one of the courses from the following list:

- BUSBIS 1625 - ELECTRONIC COMMERCE
- BUSBIS 1640 - IT ARCHITECTURE & PLATFORMS
- BUSBIS 1655 - DESIGN THINKING
- BUSBIS 1670 - DATA WAREHOUSING

Total Credits: 6

IS Consulting Specialization Concentration

IS Consulting is the practice of working with organizations to improve their performance. This ARCO prepares a student to be a consultant who has mastered the hard and soft skills needed to work with a client and engage over an IS Implementation.

Required Course

Students earning the IS Consulting Specialization ARCO will have to complete the following required course:

- BUSBIS 1650 - IS CONSULTANCY PRACTICES SOLUTION DEVELOPMENT

Course Options

In addition to the required course, students must complete one of the courses from the following list:

- BUSBIS 1645 - INFORMATION SYSTEMS ETHICS
- BUSBIS 1660 - DISRUPTIVE TECHNOLOGIES

- BUSBIS 1655 - DESIGN THINKING
- BUSBIS 1665 - IMPROVING THE USER EXPERIENCE

Total Credits: 6

College of General Studies

College of General Studies

The College of General Studies (CGS) provides adult and nontraditional students with a wide variety of learning options. Students who enroll in the College of General Studies can complete a Bachelor of Arts or Bachelor of Science degree in career-oriented fields and in concentrations in the arts and sciences. In addition to a degree, students may prepare for transfer to any of the University's upper-division and professional schools. The College also offers a wide range of certificate programs in specialized fields such as health services, accounting, and information sciences. For those students who already have a degree but desire career-related study or preparation for graduate study, the College of General Studies permits them to register in a non-degree program. The College of General Studies uses the same faculties as the Dietrich School of Arts and Sciences and the professional schools of the University to provide instruction.

Professors and instructors teaching for the College of General Studies come from several undergraduate and professional schools across the University of Pittsburgh. CGS instructors include full-time faculty, regular part-time faculty, adjunct, graduate students, and professionals and leaders from throughout the greater Pittsburgh region. A list of CGS-affiliated instructors is available on the CGS Web site.

The College of General Studies targets its curriculum to adult and transfer students who have been out of high school at least two years. Most of the students attending the College have full-time work or family responsibilities and therefore take full advantage of the unique delivery systems available for instruction. Students may enroll in traditional day classes, evening classes, or they may enroll for CGS Online courses.

Admission through the Office of Admissions and Financial Aid

Degree-seeking students are admitted to the College of General Studies by the Office of Admissions and Financial Aid (OAFA).

Degree-Seeking Students

Those students who desire to complete a degree at the University of Pittsburgh, either in the College of General Studies or ultimately transferring elsewhere in the University, are required to apply as degree-seeking students through the University's Office of Admissions and Financial Aid (OAFA).

Students must meet a number of specific admissions criteria, depending on their previous experience. For details, refer to the Office of Admissions and Financial Aid website.

Admission through the College of General Studies

Transfers from Other University of Pittsburgh Schools at the Pittsburgh Campus

To transfer to CGS from another school at the Pittsburgh campus, students should request that the other Pittsburgh campus school send their records to CGS. CGS will review the student records and send letters of acceptance to students who are eligible to transfer into CGS. To qualify, students must have:

- a minimum overall GPA of 2.0,
- at least 12 completed credits in their current program, and
- fulfilled the Mathematics and Seminar in Composition requirements.

Upon acceptance into CGS, students will receive evaluations of their previous course work, acknowledging the courses that have fulfilled CGS skills and general education requirements. To graduate with a degree from CGS, students are required to earn their last 30 credits while enrolled in CGS and to earn at least one-half of the major or 15 credits, whichever is greater, at the University of Pittsburgh, Pittsburgh campus.

Relocation from University of Pittsburgh Regional Campuses

- For students seeking guaranteed relocation who have earned credits only from one of the regional campuses, the normal requirement is for completion of 45 credits at the specific regional campus, with a minimum GPA of 2.5.
- For students seeking guaranteed relocation who have earned 30 or more credits at the specific regional campus and a total of 45 credits overall, a minimum GPA of 2.5 in all courses is required.
- Students with a 3.0 GPA, who would have been directly admissible to the Pittsburgh campus as freshmen, may be considered for relocation with fewer than the above number of college credits.
- You must have completed the Algebra and Seminar in Composition requirements with a grade of C- or better.

Students Seeking a Second University of Pittsburgh Degree

Students who have earned a bachelor's degree in any University of Pittsburgh school or campus and wish to earn a second undergraduate degree in CGS should apply directly to CGS. Applicants should note the following.

- Course work for the second degree will continue to be recorded on the original University of Pittsburgh undergraduate transcript.
- All appropriate course work from the first degree will apply to the second degree.
- Students must earn a minimum of 30 new credits. No coursework repeated from the first degree will count toward the second degree.
- At least half of the credits for the second major toward the second degree must be earned while enrolled in CGS.
- The cumulative GPA and credit total will be based on all credits from the first degree and all new course work taken that applies to the second degree.

Students Seeking Reinstatement

The following students must apply for reinstatement through the College of General Studies.

- CGS students who have not enrolled for three consecutive terms (one calendar year);
- CGS students who have completed their suspension periods and wish to continue their studies; and
NOTE: Reinstatement to CGS is only for CGS and Dietrich students.
- Students who last attended another school at the Pittsburgh campus but have not enrolled in classes for three consecutive terms (one calendar year), have not attended another institution, and wish to be admitted to CGS need to be reinstated into that school, unless special permission is granted by an asst dean.
Students who are returning after completing their suspension period will be reinstated on probation.

The deadline for reinstatement is August 15 for the fall term, December 15 for the spring term, and one week before the beginning of classes in the summer term or summer session. Students who last attended another University of Pittsburgh school on the Pittsburgh campus or who attended a regional campus must meet the admissions requirements for transfer to CGS. Students' academic standing upon reinstatement will continue to be that attained at the end of their last term in residence.

Students who are reinstated for a particular term but do not enroll for that term must apply for reinstatement again if they wish to attend for a later term. Students who have been away from the University for two or more years will be subject to the requirements of the school and of their major at the time of their reinstatement, rather than those in place at the time of their last attendance.

Certificate Program Admission

Students looking to broaden their educational experience or seeking professional development may elect to enroll in an academic certificate program. Certificate programs offer a course concentration in a specific area of study and may partially fulfill the student's degree requirements.

Students seeking admission to one of the certificate programs in the College of General Studies must meet CGS certificate admission criteria and complete the CGS online application. Students are required to provide transcripts from all colleges and universities attended. Students must take at least one-half of the coursework for the certificate at the University of Pittsburgh and earn a 2.0 or better GPA in certificate courses. The certificates offered by CGS are as follows:

- Accounting (post-baccalaureate program)
- Communication
- Community health assessment

- Corporate/community relations
- Digital media
- Disability Studies
- Gender, sexuality, and women's studies
- Information system design
- Leadership
- Managing health services programs and projects
- National preparedness and homeland security
- Nonprofit management
- Writing
- Writing for the professions

* Please note that the Leadership certificate must be earned in conjunction with a degree. To enter the Accounting certificate, students must already have a bachelor's degree with at least a 2.75 GPA.

Non-Degree Admission

Post-Baccalaureate Students

Students who already hold a bachelor's degree and desire to complete University course work as preparation for graduate study or for personal or professional interest, but do not desire to complete a second degree, may apply for admission as non-degree students. These students need to complete the CGS online application for admission and provide transcripts for all previous college work. Students who enroll under this program and later desire to earn a degree will be reviewed for admission under the normal admission criteria. Additional details are available on the CGS Admissions website.

Guest Students

Guest students are students enrolled in an undergraduate degree program at another university who plan to take courses for credit at the University of Pittsburgh with the intention of transferring those courses back to their home institution. To be eligible for admission, students must have a minimum 2.0 cumulative or overall GPA. Additional details are available on the CGS Admissions website.

Financial Aid

The Office of Admissions and Financial Aid handles all financial aid processing for College of General Studies students. Obtain information regarding the necessary forms and important deadline dates from the University's Financial Aid website, or call 412-624-7488 (option 2).

Students who wish to be considered for supplemental financial aid may apply through the Office of the Associate Dean. Students must have a completed current Free Application for Federal Student Aid (FAFSA) on file with the Office of Admissions and Financial Aid. CGS supplemental aid is awarded on a rolling basis and is need-based. Information about the CGS supplemental financial aid application is available in the CGS Scholarships section online.

Academic and need-based scholarships are available through CGS. Information concerning these scholarships for enrolled CGS students is available in the CGS Scholarships section online.

Career Services

A CGS career consultant is available to assist students with the formulation of career objectives and preparation for the job search. Various seminars are offered throughout the year, and a variety of resource materials are available for student use. For more information on CGS career services, visit the CGS Career Services webpage.

Class Locations and Times

Students in the College of General Studies have an array of options for where and when to pursue their course work.

Pittsburgh Campus

The full range of courses offered by the College of General Studies is available at the Pittsburgh campus. The 120-acre campus is located in Oakland.

CGS Online

CGS Online provides students with the opportunity to earn credit towards degrees and certificates through two course formats. All courses offered through CGS Online are Web-based, meaning that most course materials can be accessed through the University's course learning management system. CGS Online courses are offered in the following formats:

- **Web** courses feature online asynchronous instruction and interaction. Students interact with their instructors and other students through the Learning Management System Web site. Students are required to participate in online discussions and activities. Students complete the course requirements within one term and move through the course materials as a cohort.
 - **Hybrid** courses combine online asynchronous interaction and face-to-face or virtual, synchronous instruction. Students are required to attend scheduled workshops and participate in online discussions and activities. Students complete the course requirements within one term and move through the course materials as a cohort.
- CGS Online courses meet the same standards for content excellence and expert instruction as our traditional classroom courses.

Advanced Standing Policy

Applicants must submit official transcripts from each accredited college or university attended, whether or not it is intended that the courses be counted toward a degree. Grades for credits transferred are not used in computing a student's grade point average (GPA). All credits eligible for transfer are subject to the following regulations:

- Only courses with C or better grades will be considered for transfer.
- Courses must correspond with those offered by the University in objectives and content.
- The number of credits granted for a given course cannot exceed the number on the transcript from the school where they were earned, nor can it exceed the number earned in the corresponding courses at the University of Pittsburgh.
- A maximum of 90 credits may be transferred from a four-year institution and 60 credits from a two-year institution, however no more than 90 credits can be transferred.
- All of the credits required for a degree, whether earned in residence or transferred from another institution, must have been earned within 12 years prior to the date on which the degree is awarded. However, when given evidence that the previous courses still provide adequate preparation for courses yet to be taken and still represent a reasonable part of the total academic program, the statute of limitation may be waived. In such cases, the waiver is for a specific period during which the program must be completed.
- Upper-class students (those who have earned 60 or more credits) may not take courses at two-year schools.

- All transfer credits may be subject to reevaluation if a student transfers from one school to another or from one major to another within the University of Pittsburgh or becomes inactive and is subsequently readmitted.
- If a course for which advanced standing is given is repeated at the University of Pittsburgh, the advanced-standing credit is cancelled.

Advanced Placement and Credit by Examination

Students in CGS may also earn advanced standing credits through the following means:

College Level Examination Program (CLEP)

The CLEP program provides a way of earning college credits through testing. Specific regulations governing the awarding of CLEP general examination credits are available by calling 412-624-6480, from an academic advisor, or at www.cgs.pitt.edu/clep-exams.

Credit by Examination

In rare circumstances, credit by examination may be offered. Contact the Office of Student Records (studentrecords@as.pitt.edu or 412-624-6480) with questions. Students may be given credit for successfully completing the advanced-standing tests of the College Entrance Examination Board.

Students who are majoring in administration of justice and who have successfully completed Pennsylvania Act 120 or state police cadet training can receive up to 15 credits of advanced standing. The credits are awarded for specific courses.

Reserve Officer Training Corps (ROTC) Courses

Credits earned in aerospace science (Air Force ROTC), military science (Army ROTC), or naval science (Navy ROTC) through cross registration at Carnegie Mellon University are accepted toward a College of General Studies degree. CGS will grant up to four credits toward graduation for the following courses in lieu of or in combination with physical education courses: AFROTC 0001, AFROTC 0002, AFROTC 0003, and AFROTC 0004; MILS 0011, MILS 0012, MILS 0021, and MILS 0022; or first-year/sophomore level Navy ROTC courses from CMU.

Also, four junior and senior level courses from these three ROTC programs may be used as professional electives for the CGS degree program, if professional electives are permitted. These courses are AFROTC 1013, AFROTC 1014, AFROTC 1015, and AFROTC 1016 (all 3-credit courses); MILS 1031, MILS 1032, MILS 1041 and MILS 1042 (all 1-credit courses); and similar courses from Navy ROTC.

Internships

An internship is a supervised, work-related experience, volunteer or paid, which is related to an academic discipline and is sponsored, evaluated, and graded by a University faculty member. The internship is a new experience and does not represent credit for past work or continuation of the current employment situation. A detailed outline of CGS internship requirements is available on the CGS Internships webpage.

PLEASE NOTE: Several CGS majors require that students complete an internship at a facility that may or will require a criminal background check, an ACT 33/34 clearance, and perhaps a drug screen to determine whether you are qualified to participate in the internship. Additionally, in order to become licensed or employed, many states will

inquire as to whether the applicant has been convicted of a misdemeanor, a felony, or a felonious or illegal act associated with alcohol and/or substance abuse.

Global Experiences (Study Abroad / Study Away / Virtual)

College of General Studies students are encouraged to enhance their undergraduate education by including a global experience. Credit may be earned toward a CGS degree through participation in either Pitt Panther, Pitt Partner, Exchange, or Pitt-Recognized Programs and Institutions. Students may study in virtually any part of the world in these programs or others offered by many American and international institutions. Some programs are of short duration to fit the schedules of students with extensive work, family and other commitments.

Approval for credit must be obtained before studying abroad. The Global Experiences Office provides program approval and CGS Academic Affairs approves course selection and credits. You should have at least a 2.75 GPA before seeking permission to study abroad.

See the CGS Study Abroad website for further details.

Students with a GPA of 3.5 or better planning to pursue graduate work at the University of Pittsburgh may want to consider the Early Admission Option for Graduate Study. This option allows students to use the first 24 credits of graduate work as the last 24 elective credits of their undergraduate program. The following graduate schools at Pitt allow this option in conjunction with the College of General Studies degree program: Graduate School of Public and International Affairs (GSPIA), School of Public Health, and the School of Law.

Note: Students interested in the early admission option for graduate study should contact their CGS advisor as soon as possible to discuss their intention and the process that needs to be followed.

Guidelines:

- Must be superior graduate school candidates and be admitted to the Pitt graduate program. Admissions requirements can be obtained from the graduate schools.
- Must have completed a minimum of ninety-six (96) credits toward the CGS degree, including all general education and major requirements (and no G grades), before the graduate program begins.
- At least, the last thirty (30) of the ninety-six (96) undergraduate credits should be taken while the student is in residence in CGS, and before acceptance as a graduate student. Satisfactory completion of these requirements does not guarantee acceptance into the graduate program. This decision is made by the graduate program.
- All other regulations governing the completion of credits for a CGS degree also apply.
- The graduate program must include a minimum of twenty-four (24) credits of graduate-level coursework. Students must earn a B or better grade in all graduate coursework. (S or H grades in the MSL program)
- Twenty-four (24) credits is the maximum number of graduate credits that can be used to fulfill free elective requirements of the undergraduate degree. A student may seek to use fewer than twenty-four (24) graduate credits toward their free elective credits if they have already partially fulfilled their elective requirements.
- Students must apply for graduation from CGS after completion of the first twenty-four (24) credits in their graduate program with grades of B or better. Students must have earned a total of at least 120 credits.

Note: Students who choose this option must be aware that enrolling as a graduate student may affect their financial aid package. Students are responsible for contacting the Financial Aid Office regarding this issue.

Academic Standards

Students and faculty are expected to familiarize themselves with the published rules and regulations governing academic integrity, the ethical standards of integrity by which each student and faculty member is expected to operate. As members of a community of learners, all students and instructors are expected to adhere to these behavioral, academic, and ethical standards of the University community and of their field of study. The Academic Integrity Code sets the standards for protocol regarding issues such as how to handle cheating or plagiarizing.

Read the full code online. Matters pertaining to academic integrity and the code of student conduct at CGS will be handled in accordance with the academic integrity procedures established by the Dietrich School of Arts and Sciences and fall under the purview of the Office of the Associate Dean for Undergraduate Studies and CGS.

Graduation Requirements

- Students are required to make a graduation appointment with their advisor when registering for classes for their final term. During this appointment, students and their advisor review all the requirements and plan for their last term, as well as share details concerning commencement and graduation ceremonies at the University. Learn more on the CGS Graduation webpage.
- Students must apply for graduation from CGS in the semester prior to their final term. Students must have minimum of 120 credits in order to graduate.
- Students receive a BA or BS degree depending upon the CGS major. The final undergraduate transcript will specify the major completed in CGS.
- The GPA for graduation from CGS will be calculated solely on the earned Pitt credits on the undergraduate transcript. The graduate program courses appear on the graduate transcript and the undergraduate transcript is noted: Baccalaureate degree awarded in conjunction with graduate degree.
- In order for CGS students to graduate with honors from the University, they must have at least 60 letter-graded University of Pittsburgh credits at the undergraduate level. Courses at the graduate level and undergraduate courses graded S or H are not included in this 60 credit requirement.
The Bachelor of Arts or Bachelor of Science degree will be awarded upon the fulfillment of the following conditions:
- Completion of at least 120 credits of University work in one of the prescribed curricular courses, by advanced standing, or by examinations.
- Completion of at least one-half of the major or 15 credits, whichever is greater, at the University of Pittsburgh, Pittsburgh campus.
- Completion of the senior year (30 credits) in the College of General Studies.
- Attainment of at least a cumulative grade point average of 2.00 in courses taken at the University of Pittsburgh.
- Attainment of at least a cumulative grade point average of 2.00 in the major and in any minors.
- Satisfactory completion of all required CGS and major courses.

Grading Policy

There are two grading options available to students registering for courses offered by the College of General Studies: the letter grade option and the satisfactory/no-credit (S/NC) option (formerly the S/N option).

Core requirement courses in the student's major must be taken for the letter grade. Students can apply "S" grades only to internship, study abroad, experiential learning, and elective courses in the major. Students can take a maximum of six credits with the S/NC grade and have those credits applied to CGS major requirements.

Under the S/NC option, a student who does satisfactory work (a grade of C or better) in a course receives the grade of "S." If the student's work is not satisfactory (a grade of C- or lower), the grade of "NC" (for no credit) is given. Courses for which "S" grades are earned are counted toward graduation but are not computed in the GPA. Courses for which

"NC" grades are earned are not counted toward graduation because the "NC" designates that no credit was earned. These courses cannot be applied toward university requirements.

For most courses, students who wish to take a course with the S/NC Grade Option will need to complete the S/NC Grade Option/Audit Request form (Registrar's Office) and the CGS Grade Option Waiver form by the end of the fourth full week of classes during a term (second full week of classes during summer sessions 1 and 2). If the student does not fill out a Grade Option/Audit Request form for a course in which more than one grade option is available, the default option (generally a letter grade) will automatically be selected. There are some formal limitations to a student's choice of grading systems (see below); Students should consult with their academic advisor before deciding to take a course S/NC. See also the CGS Advising page for details.

Limitations to the choice of the satisfactory/no-credit (S/NC) grade option in the College of General Studies:

1. Students can take a maximum of 6 credits with the S/NC grade and have those credits applied to CGS major requirements. There is one exception to this policy: Students who study abroad and take courses that will be applied as S grades through transfer credit can apply up to nine credits to their major requirements. Students can only apply "S" grades to internship, experiential learning, and elective courses in the major. Core requirement courses must be taken for the letter grade
2. Under certain circumstances, departments may declare a course available only for a letter grade or as satisfactory/no-credit. In such courses, students will not have a choice for the other grade option.

G Grade

At the discretion of an instructor, a G grade may be awarded when students who have been attending a course and making regular progress are prevented from completing the course due to extenuating personal circumstances. Students who are assigned a G grade are required to complete course requirements no later than one year after the term or session in which the course was taken, including the summer term, or by an earlier deadline established by the instructor. After that year, the grade will automatically change to NG; an NG grade cannot be changed, and the credits will no longer appear as "in progress." The student will be required to re-register for the course if it is needed to fulfill requirements for graduation. The College of General Studies encourages students with G grades to work with their instructors to complete the requirements for the course as soon as possible. G and NG cannot be applied to graduation requirements.

At the time of requesting a G grade, the student should arrange with the instructor a plan and schedule for completing the course work. The instructor and student must also fill out the CGS G-grade Contract form. For additional information, visit www.cgs.pitt.edu/faculty-resources.

Academic Standing

The College of General Studies is committed to the success of its students and has guidelines in place to connect students with the appropriate resources at the earliest sign of academic difficulty. A student's academic standing is comprised of three factors: term GPA, cumulative GPA, and progress toward a degree. Students in the College of General Studies are expected to maintain a cumulative GPA and term GPA of 2.00 or above for each term of enrollment. In addition, full-time students are expected to successfully complete a minimum of 12 credits during each term of enrollment. Part-time students are expected to successfully complete a minimum of 3 credits during each term of enrollment.

Academic Alert is a marker designed to notify students who show signs, early on and throughout their academic career, of jeopardizing successful progress toward the completion of their undergraduate degree. This may be due to their inability to maintain a satisfactory GPA and/or failing to fulfill the algebra or composition requirement within the first two terms of full-time enrollment. Students who receive two consecutive **Academic Alerts** will be placed on **Academic Probation**.

Students are placed on **Academic Probation** after earning a GPA between a 1.50 and a 1.99 over two consecutive terms or have one semester at or below a 1.49 cumulative GPA. Students may also be placed on Academic Probation if they fail to make progress toward their degree (e.g. failing to earn any academic credits).

Students currently on Academic Probation who earn a term GPA below a 2.00 or fail to make progress toward their degree will be subject to **Academic Suspension**. After being suspended, students are not eligible to re-enroll for one calendar year. Following suspension, students are required to apply for reinstatement at the Undergraduate Dean's Office. Students returning from academic suspension are reinstated on academic probation and are required to develop an academic success plan upon their return. These reinstated students' records are reviewed after each subsequent term of enrollment.

Students who have been reinstated from Academic Suspension must earn at least a 2.00 GPA for each term that they enroll until they have achieved a cumulative GPA of a 2.0 or above. If a student fails to earn a 2.00 term GPA, they are subject to **Academic Dismissal** from the University. Dismissed students are not eligible for reinstatement.

Dean's List

Following the fall and spring terms, full-time College of General Studies students whose grades in the preceding term indicate outstanding academic achievement are recognized on the Dean's List. To be placed on the Dean's List, a student must have earned at least 12 credits (not including courses taken on the Satisfactory/No-Credit option) with a term GPA of at least 3.50. Part-time students will be recognized following each spring term.

Degrees Conferred

The baccalaureate degree, in addition to providing certain skills and broad exposure to the major bodies of knowledge, also allows the opportunity to specialize in a particular field, providing depth of experience essential for vocational competence or further graduate study. An outline of each major is available on the CGS Academics website.

Students admitted to CGS can choose from the following majors. Many majors are available by combining on-campus and online courses.

Bachelor of Arts:

- Administration of Justice - this major is no longer accepting new students, effective Fall 2021
- Health Services
- Humanities - this major is no longer accepting new students, effective Fall 2020
- Law, Criminal Justice, and Society
- Legal Studies - this major is no longer accepting new students, effective Fall 2021
- Liberal Studies
- Media and Professional Communications
- Public Service
- Social Sciences - this major is no longer accepting new students, effective Fall 2020

Bachelor of Science:

- Dental Hygiene
- Health Services
- Natural Sciences

Students who want a major in an arts and sciences field can begin in CGS and transfer to the Dietrich School of Arts and Sciences after completing 12 credits including the algebra and seminar in composition requirements. Admission is determined by the Dietrich School of Arts and Sciences.

Second Degree

Students who are interested in pursuing a second degree must complete all CGS degree and major requirements. These may be completed by combining CGS courses with transfer credits from previous academic course work.

For the second degree, students must complete a minimum of 30 credits in CGS, including at least half of the credits required for the new major (15-18 credits depending on the major).

Double and Triple Majors and Credit Overlap

Students can declare a double or triple major, but will usually earn only one degree. If one major leads to the BA degree and another to the BS degree, students must decide when applying for graduation which degree they wish to receive.

Double Degrees

College of General Studies students may choose to pursue more than one undergraduate degree simultaneously, either within CGS (i.e., both a BA and a BS) or in another undergraduate school of the University. In general, earning two degrees requires a minimum of 150 credits and the completion of the curriculum requirements of both schools.

- The College of General Studies (CGS) and the College of Business Administration (CBA) offer a Double Degree program in which students earn both the BA in Health Services through CGS and the BS in Business Administration (BSBA) through CBA. The double degree program is designed for students who are interested in the intersection of health care management and business administration.

Overlapping Courses Between Majors, Certificates, and Minors

This policy is effective for students who declare their CGS program(s)/plan(s) for Spring 2019 and beyond.

Overlapping (Double-Counting) credits between CGS programs and programs in other schools

A maximum of two courses can overlap (double-count) between a CGS major or certificate and any additional major and/or minor in another school. No course overlaps are allowed between a CGS certificate and a certificate in another school. No course overlaps are allowed between a CGS minor and another minor, certificate, or major outside of CGS.

Overlapping (Double-Counting) credits between majors, certificates and minors within CGS

Courses used for a minor cannot overlap (double-count) with courses used for a major, minor, or a certificate. Students can overlap (double-count) a maximum of six (6) credits between a CGS certificate and a CGS major and/or CGS certificate. The following exceptions apply:

* Students cannot receive a certificate in a program in which they are pursuing their major and/or area of concentration. These programs include: Public Service BA (all three tracks and corresponding certificates), Health Services BA (all two tracks and corresponding certificates), Media and Professional Communications BA (all three tracks and

corresponding certificates). Note: Media and Professional Communications majors CAN pursue a certificate outside their area of concentration (major track), in which case they are only allowed to overlap core requirements between their major and a certificate.

Program and Course Offerings

Certificate

Accounting Certificate

Develop a practical and theoretical foundation in accounting while earning a certificate. Offered by the College of General Studies and the College of Business Administration, the 24-credit part-time evening program enables students to take the same subjects required for accounting majors in the Bachelor of Science in Business Administration program offered by the College of Business Administration.

Participants benefit from the academic instruction of the College of Business Administration and the nontraditional student services available through the College of General Studies. Credits earned may be counted toward certain state licensure requirements.

Who should participate:

Professionals who already have earned a bachelor's degree in any field and wish to develop careers in accounting or another business field in which substantial knowledge of accounting is an asset.

Upon completion of this certificate, participants will be able to:

- Apply substantial knowledge of accounting
- Enhance their careers in the business field
- Meet many of the requirements to sit for the certified public accountant (CPA) examination in Pennsylvania. This certificate is applicable to fields such as public accounting, auditing, taxation, corporate accounting, governmental accounting, and other careers in business that require a substantial knowledge of financial and/or managerial accounting.

CPA preparation

Becoming a CPA in the state of Pennsylvania will require 150 credit hours of coursework, 36 credits of which must be in accounting, auditing, finance, tax, and business law. At that time, completing the certificate program will no longer be sufficient preparation to sit for the CPA exam. To learn about becoming a CPA in Pennsylvania, visit the Pennsylvania Institute of Certified Public Accountants Web site at www.picpa.org. You can also contact the Pennsylvania State Board of Accountancy for more information at 717-783-1404 or by E-mail at st-accountancy@pa.gov.

Admission Requirements

A bachelor's degree and a 2.75 or higher cumulative grade point average are required for admission to the program. A certificate application must be completed online. For an application and additional information on admissions guidelines, see the CGS Admissions webpage. Credits earned at other accredited educational institutions will be evaluated for transfer. However, a minimum of 15 credits must be earned at the University of Pittsburgh. Students must earn a grade of C or better in all University accounting courses.

Obtaining the Certificate

To receive the certificate, you must fill out an online graduation application through the Pitt Portal prior to completing your last term in the program. Visit Graduation / Diplomas on the Registrar's website for the instructions and check the Graduating with a CGS degree/ certificate website for the submission deadline. Contact a CGS advisor to confirm that all requirements for the certificate have been met. To avoid a late fee, you should complete this process when registering for the term.

Curriculum (24 credits)

Students must complete their required courses and a minimum of one elective course for a total of 24 credits. A grade of C or better is required for all courses in the program. Students must follow the approved prerequisites for each course. All courses are three credits, and all courses are offered in the evenings.

Required Courses

- CDACCT 6030 - FINANCIAL ACCOUNTING
- CDACCT 6040 - MANAGERIAL ACCOUNTING
- CDACCT 6204 - INTERMEDIATE FINANCIAL REPORTING 1
- CDACCT 6205 - INTERMEDIATE FINANCIAL REPORTING 2
- CDACCT 6236 - ACCOUNTING INFORMATION SYSTEMS
- CDACCT 6238 - AUDITING
- CDACCT 6242 - INDIVIDUAL TAX ACCOUNTING AND PLANNING

Electives

Choose one course from the list of approved electives.

- BUSENV 1760 - BUSINESS LAW
- CDACCT 6210 - FINANCIAL STATEMENT ANALYSIS
- CDACCT 6216 - ADVANCED FINANCIAL ACCOUNTING
- CDACCT 6221 - STRATEGIC COST MANAGEMENT

Additional Information

Requirements subject to change. Check with an academic advisor before registering.

Communication Certificate

The Certificate in Communication is a 24-credit program designed to train students to be more effective communicators. Courses, taught by faculty of the Department of Communication, include a range of specialized communication topics. Participants may elect to concentrate their studies in such areas as nonverbal, small group, interpersonal, organizational, or mass communication; persuasion in political settings; or the construction, analysis, and delivery of public speech.

Who should participate:

- Business and professional people whose success may be enhanced by improved communication skills and further understanding of the communication process
- Those who wish to increase their personal knowledge of communication for use in their careers

- Citizens involved in community and public positions in which persuasive delivery and analysis are vital
- Persons seeking a better understanding of the impact of interpersonal, organizational, public, and mass communication in the contemporary world
- Students already enrolled in the College of General Studies or other University programs who want to concentrate on communications skills

Upon completion of this certificate, participants will be able to:

- Understand the makeup of a persuasive presentation
 - Polish and refine their communication skills
 - Apply concentrated knowledge of a specialized communication topics
- This certificate is applicable to fields such as education, writing, broadcasting, public relations, sales, communication training, personnel, promotions, advertising, market research, lobbying, politics, communications, and related fields.

Admission Requirements:

Students must meet requirements for admission to the College of General Studies. A certificate application form must be completed and submitted online to the College of General Studies.

Obtaining the Certificate

To receive the certificate, you must fill out an online graduation application through the Pitt Portal prior to completing your last term in the program. Visit Graduation / Diplomas on the Registrar's website for the instructions and check the Graduating with a CGS degree/ certificate website for the submission deadline. Contact a CGS advisor to confirm that all requirements for the certificate have been met. To avoid a late fee, you should complete this process when registering for the term.

Curriculum (24 credits)

- The Communication certificate requires 24 credits, composed of three basic communication courses (9 credits) and five communication elective courses (15 credits).
- Students must achieve a minimum grade of C (2.0) or better for all courses required for the program.
- Up to nine credits earned at other accredited educational institutions may be transferred with approval. A minimum of five courses (15 credits) must be completed at the University of Pittsburgh.

Required Courses (9 credits)

Choose three of the following courses. All courses are 3 credits, unless otherwise noted.

- COMMRC 0500 - ARGUMENT
- COMMRC 0520 - PUBLIC SPEAKING
- COMMRC 0530 - INTERPERSONAL COMMUNICATION
- COMMRC 0540 - DISCUSSION
- COMMRC 0550 - SPEECH COMPOSITION

Electives (15 credits)

Choose five COMMRC courses. All courses are 3 credits, unless otherwise noted. Prerequisite courses are in parentheses; English Composition 0200 is required for all 1000-level courses. Included below is a sampling of courses that can be used to fulfill the certificate requirements:

- COMMRC 0300 - COMMUNICATION AND SOCIETY
- COMMRC 0310 - RHETORIC & SOCIETY
- COMMRC 0320 - MASS COMMUNICATION AND SOCIETY
- COMMRC 1101 - EVIDENCE
- COMMRC 1102 - ORGANIZATIONAL COMMUNICATION (0300)
- COMMRC 1103 - RHETORIC AND CULTURE (0310 or 0320)
- COMMRC 1104 - POLITICAL COMMUNICATION (0310 or 0320)
- COMMRC 1105 - TELEVISION AND SOCIETY (0320)
- COMMRC 1106 - SMALL GROUP COMMUNICATION (0300)
- COMMRC 1109 - NONVERBAL COMMUNICATION (0300)
- COMMRC 1110 - THEORIES OF INTERPERSONAL COMMUNICATION (0300)
- COMMRC 1111 - THEORIES OF PERSUASION (0520 and 0310 or 0320)
- COMMRC 1112 - THEORIES OF RHETORIC (0310 or 0520)
- COMMRC 1114 - FREEDOM OF SPEECH AND PRESS (0310 or 0320)
- COMMRC 1117 - PROPAGANDA AND MISINFORMATION IN THE 21ST CENTURY (0310 or 0320)
- COMMRC 1119 - PRESIDENTIAL RHETORIC 2 (0310 or 0320)
- COMMRC 1121 - HISTORY OF MASS MEDIA (0320)
- COMMRC 1122 - MEDIA CRITICISM (0320)
- COMMRC 1730 - SPECIAL TOPICS IN COMMUNICATION
- COMMRC 1900 - COMMUNICATION INTERNSHIP or CGS 1900 - CHOOSING YOUR PATH: INTERNSHIP SEMINAR

Notes

Requirements are subject to change. Check with an academic advisor before registering.

Community Health Assessment Certificate

Earning a certificate in community health assessment from the College of General Studies will provide a foundation in theory as well as an understanding of the diverse populations you may serve. This flexible program is perfect for social services or community health employees, nonprofit professionals interested in healthcare advocacy, and for those looking to advance into leadership positions.

Students who successfully complete this certificate may apply the credits to an undergraduate degree in the University of Pittsburgh College of General Studies (CGS), such as our bachelor of arts in health services.

Graduates of the program will be able to:

- communicate and interact effectively and professionally with people from diverse backgrounds;
- understand how social, cultural, legal, and environmental factors may impact the behaviors of both patients and health care workers and apply this knowledge to their careers;
- identify behaviors that tend to promote or compromise health;
- apply administrative and managerial skills to nonprofits and community health organizations; and
- identify, recognize, gather, and analyze data that are pertinent to the health services field.

Admission Requirements

Students must meet requirements for admission to the College of General Studies. A certificate application form must be completed and returned to the CGS.

Obtaining the Certificate

To receive the certificate, you must fill out an online graduation application through the Pitt Portal prior to completing your last term in the program. Visit Graduation / Diplomas on the Registrar's website for the instructions and check the Graduating with a CGS degree/ certificate website for the submission deadline. Contact a CGS advisor to confirm that all requirements for the certificate have been met. To avoid a late fee, you should complete this process when registering for the term.

Program Requirements

- The community health assessment certificate requires 18 credits.
- Students must achieve a minimum grade of C (2.0) or better for all courses required for the program.
- Credits earned at other accredited educational institutions may be eligible for transfer. However, a minimum of nine (9) credits must be earned at the University of Pittsburgh.

Curriculum (18 credits)

Required courses

- COMMRC 1181 - HEALTH COMMUNICATION
Note: New course number effective Spring 2023; formerly COMMRC 1730: Special Topics: Health Communication (SEC 75XX)
- NUR 1765 - RISK FACTORS AND HEALTH
- NUR 1829 - CONTEM ISSUES CROSS CULTL HEALTH
- PUBHLT 0330 - INTRODUCTION TO EPIDEMIOLOGY
Formerly: HRS 1017 Introduction to Epidemiology
- PUBSRV 1305 - HEALTH, LAW AND ETHICS
Choose one of the following:
- PUBSRV 1200 - PRACTICES OF NON-PROFIT MANAGEMENT
- SOC 0477 - MEDICAL SOCIOLOGY
- URBNST 0506 - URBAN PLANNING PROCESS
- URBNST 0512 - NEIGHBORHOOD PLANNING

Corporate/Community Relations Certificate

The Certificate in Corporate and Community Relations is an interdisciplinary course of study that helps students to develop the skills they need to effectively communicate a business or organization's mission and achievements to the outside community. It also teaches them how to effectively communicate organizational news and policies internally to fellow employees. Students learn to develop messages and communications strategies that engage the community and promote an organization's image in a positive way.

The certificate is available as a stand-alone option or can be pursued as part of a degree.

Who should enroll:

- Individuals charged with communicating company and organizational news, policies, benefits, and messages to fellow employees
- Individuals charged with communicating and disseminating company and organizational news to an external audience, thereby improving public perception of the organization
- Individuals interested in advancing the causes of community, civic, or volunteer organizations
- Recent graduates or current students who wish to pursue a career incorporate or community communications

Upon completion of this program, students will be able to:

- apply a theoretical understanding of mass media process, history, and ethics to communications-related careers in broadcasting, journalism, legal professions, government, nonprofits, and other fields;
 - identify and analyze audience traits, perspectives, and motivators and develop messages appropriate to each audience;
 - manage and navigate professional relationships with a wide range of constituents;
 - develop and write clear messages that support specific organizational goals and enhance the image of a professional organization in the public's mind; and
 - create professional and effective communication strategies as well as persuasive written materials, customized to the needs of a specific profession, such as business proposals, speeches, marketing plans, and news stories.
- This certificate is applicable to such fields as corporate communications, nonprofit management, advocacy, public relations, broadcasting, sales, communication training, promotions, advertising, lobbying and politics, human resources and relations, and training and development.

Admission Requirements

Students must meet requirements for admission to the College of General Studies. A certificate application must be completed and returned to the College of General Studies.

Obtaining the Certificate

To receive the certificate, you must fill out an online graduation application through the Pitt Portal prior to completing your last term in the program. Visit Graduation / Diplomas on the Registrar's website for the instructions and check the Graduating with a CGS degree/ certificate website for the submission deadline. Contact a CGS advisor to confirm that all requirements for the certificate have been met. To avoid a late fee, you should complete this process when registering for the term.

Curriculum (18 credits)

- The Corporate and Community Relations certificate requires 18 credits, including six (6) credits of core classes, six (6) elective credits, and six (6) specialization credits.
- Students must achieve a minimum grade of C (2.0) or better for all courses required for the program.
- Credits earned at other accredited educational institutions may be eligible for transfer. However, a minimum of nine (9) credits must be earned at the University of Pittsburgh.

Required Courses (6 credits)

- COMMRC 0320 - MASS COMMUNICATION AND SOCIETY
- ENGWR 0610 - INTRODUCTION TO JOURNALISM AND NONFICTION

Electives (6 credits)

Choose two courses from the following:

- BUSERV 1940 - MARKETING FUNDAMENTALS
- COMMRC 1111 - THEORIES OF PERSUASION
- COMMRC 1182 - MEDIA RELATIONS
New course number effective Spring 2023; formerly COMMRC 1732: Special Topics: Public and Media Relations
- PUBSRV 1455 - LAW, ETHICS AND PUBLIC POLICY IN THE MASS MEDIA

Note

CBA students: BUSERV 1940 Marketing Fundamentals may be substituted with BUSMKT 1040 Intro to Marketing.

Specializations (6 credits)

- COMMRC 1102 - ORGANIZATIONAL COMMUNICATION
- COMMRC 1125 - MEDIA THEORY
- COMMRC 1730 - SPECIAL TOPICS IN COMMUNICATION
- COMMRC 1732 - SPECIAL TOPICS IN MASS COMMUNICATION : Communication and New Media Technologies
- ENGCMP 0410 - WRITING IN THE LEGAL PROFESSIONS
- ENGCMP 0420 - WRITING FOR THE PUBLIC
- ENGCMP 0515 - PERSAUSIVE WRITING IN ADVERTISING
- ENGCMP 0520 - INTEGRATING WRITING AND DESIGN
- ENGCMP 0550 - TOPICS IN PUBLIC/PROFESSIONAL WRITING
- ENGCMP 0560 - WRITING ARGUMENTS
- ENGCMP 0600 - INTRODUCTION TO TECHNICAL WRITING
- ENGCMP 0610 - COMPOSING DIGITAL MEDIA
- ENGCMP 0641 - WRITING FOR CHANGE
- ENGCMP 1103 - PUBLIC RELATIONS WRITING
- ENGCMP 1104 - CORPORATE STORYTELLING
- ENGCMP 1112 - PROFESSIONAL USES OF SOCIAL MEDIA
- ENGCMP 1120 - HISTORY AND ETHICS OF ADVERTISING AND PUBLIC RELATIONS
- ENGCMP 1270 - PROJECTS IN BLACK RHETORIC
- ENGCMP 1400 - GRANT WRITING FOR NONPROFITS
- ENGCMP 1401 - WRITING FOR FUNDRAISING AND DEVELOPMENT
- ENGCMP 1420 - WRITING PROPOSALS FOR BUSINESS
- ENGWRT 0710 - INTRO TO AUDIO STORYTELLING
- ENGWRT 1330 - INTERMEDIATE NONFICTION: SCENE AND POINT-OF-VIEW
- ENGWRT 1403 - TOPICS IN NON-FICTION: ELECTRONIC MEDIA
- FMST 1890 - THE BUSINESS OF BROADCASTING
- PSY 1635 - ORGANIZATIONAL PSYCHOLOGY
- PUBSRV 1200 - PRACTICES OF NON-PROFIT MANAGEMENT
- PUBSRV 1310 - DIVERSITY ISSUES IN PUBLIC SERVICE
- SOC 0490 - MASS MEDIA
- URBNST 0512 - NEIGHBORHOOD PLANNING

Digital Media Certificate

Businesses and media organizations today must create, produce, and manage content for multiple platforms, from print and broadcast to online. Whether you're an emerging media professional or work in the marketing or communications department of a business or nonprofit organization, you can benefit from training in digital media.

The 18-credit interdisciplinary Digital Media certificate program offered by CGS introduces you to the power of multimedia content-written, audio, and visual-and how it can be used to communicate with and persuade audiences. You'll choose from a variety of courses in communications, arts, English, film studies, psychology, and political science.

This certificate can be completed as a stand-alone program or in conjunction with another degree at the University of Pittsburgh.

Who should participate:

- Professionals operating in multimedia environments
- Individuals responsible for e-commerce efforts
- People interested in producing content for online publications and sites, films, documentaries, etc.
- Entrepreneurs
- Educators

Upon completion of this certificate, participants will be able to:

- Understand how concepts, design, and technology work together to communicate with mass audiences
 - Design, create, and manipulate digital communication vehicles
 - Understand the importance of visual and textual communication in maintaining organizational success
 - Produce engaging interactive programs, such as for training or sales purposes
- This certificate is applicable to such fields as interactive online training; electronic catalogs; DVDs for sales, marketing, or training purposes; multimedia businesses; and general e-commerce.

Admission Requirements

Students must meet requirements for admission to the College of General Studies. A certificate application form must be completed and submitted online to the College of General Studies.

Obtaining the Certificate

To receive the certificate, you must fill out an online graduation application through the Pitt Portal prior to completing your last term in the program. Visit Graduation / Diplomas on the Registrar's website for the instructions and check the Graduating with a CGS degree/ certificate website for the submission deadline. Contact a CGS advisor to confirm that all requirements for the certificate have been met. To avoid a late fee, you should complete this process when registering for the term.

Curriculum (18 credits)

- The digital media certificate requires 18 credits, including nine (9) credits of core classes and nine (9) elective credits.
- Students must achieve a minimum grade of C (2.0) or better for all courses required for the program.

- Credits earned at other accredited educational institutions may be eligible for transfer. However, a minimum of nine (9) credits must be earned at the University of Pittsburgh.

Required Courses (9 credits)

- COMMRC 0320 - MASS COMMUNICATION AND SOCIETY
- COMMRC 1122 - MEDIA CRITICISM
- ENGFLM 0355 - VISUAL LITERACY or ENGFLM 0401 - IMAGES, ICONS, AND IDEAS

Electives (9 credits)

Choose three of the courses listed below.

- CGS 1900 - CHOOSING YOUR PATH: INTERNSHIP SEMINAR
- COMMRC 0575 - INTRODUCTION TO RADIO PRODUCTION
- COMMRC 1105 - TELEVISION AND SOCIETY
- COMMRC 1125 - MEDIA THEORY
- COMMRC 1126 - MEDIA AND CONSUMER CULTURE
- CS 0134 - WEB SITE DESIGN AND DEVELOPMENT
- ENGCOMP 0425 - DIGITAL HUMANITY cross-listed with HAA 0425
- ENGCOMP 0520 - INTEGRATING WRITING AND DESIGN
- ENGCOMP 0610 - COMPOSING DIGITAL MEDIA
- ENGCOMP 1112 - PROFESSIONAL USES OF SOCIAL MEDIA
- ENGCOMP 1130 - PROJECTS IN DIGITAL COMPOSITION
- ENGCOMP 1201 - DIGITAL NARRATIVE AND INTERACTIVE DESIGN
- ENGFLM 0400 - INTRODUCTION TO FILM
- ENGFLM 1390 - CONTEMPORARY FILM
- ENGFLM 1485 - FILM AND POLITICS
- ENGFLM 1683 - KEEPING IT REAL: DOCUMENTARY FILM AND NONFICTION
- ENGFLM 1695 - HORROR FILM
- ENGLIT 0354 - WORDS AND IMAGES
- ENGLIT 0550 - INTRODUCTION TO POPULAR CULTURE
- ENGWRT 0650 - READINGS IN JOURNALISM
- ENGWRT 0710 - INTRO TO AUDIO STORYTELLING
- ENGWRT 1377 - MEDIA LITERACY: WRITING AND READING YOUR WAY THROUGH THE DIGITAL LANDSCAPE
- FILMST 0001 - FILMMAKING 1: FUNDAMENTALS
- FILMST 0120 - PHOTOGRAPHY 1
- FILMST 0121 - ANIMATION 1
- FILMST 0250 - BUSINESS OF PHOTOGRAPHY AND MULTIMEDIA
- FILMST 0400 - POST-PRODUCTION
- FILMST 0430 - AUDIO PRODUCTION
- FILMST 0601 - FILMMAKING 2: SIGHT AND SOUND
- FILMST 0610 - DIGITAL EFFECTS 1
- FILMST 1001 - BROADCASTING
- FILMST 1132 - ELEMENTS OF SCREENWRITING
- FILMST 1600 - FILMMAKING 3: STORY TO SCREEN

- FMST 1890 - THE BUSINESS OF BROADCASTING
- FMST 1898 - TELEVISION NEWS PRACTICUM: PITT TO THE POINT
- GSWS 1210 - GENDER AND THE DIGITAL
- HAA 0090 - INTRODUCTION TO CONTEMPORARY ART
- HAA 0470 - PHOTOGRAPHY AND ART
- PS 1836 - POLITICS THROUGH FILM
- PSY 1080 - PSYCHOLOGY AND THE MEDIA
- SA 0110 - VISUAL THINKING
- SA 0130 - DRAWING STUDIO 1
- SA 0180 - PHOTO STUDIO 1
- SA 1270 - DIGITAL STUDIO: IMAGING
- SOC 0490 - MASS MEDIA

Notes

Requirements subject to change. Check with an academic advisor before registering.

Disability Studies Certificate

Equity, inclusion, and understanding are at the heart of Disability Studies. As a powerful challenge to the assumptions about people with disabilities, Disability Studies looks at disability as a facet of society and culture, and as an individual experience that is not solely governed by a medical model. The significance of disability is important in all professional and academic contexts such as cultural studies, law, health research and practice, and education.

This 18-credit, interdisciplinary undergraduate certificate is offered in partnership with the Writing Institute and housed in the College of General Studies. Our program offers a diverse course selection representing a range of academic departments from English Composition to Rehab Sciences, from Film Studies to Sociology. Understanding the history and experiences of people with disabilities is valuable across career paths in our increasingly diverse society.

The certificate is available as a stand-alone option or can be pursued as part of a degree.

Who Should Participate

- Those who identify as disabled and want to gain perspective and engage with the idea of disability.
- Those who interact with individuals with disabilities in the course of their daily work (therapists, teachers, health providers, care givers, technologists, legal counselors).
- Those who wish to more accurately and fully represent the experiences and perspectives of people with disabilities.
- Those who work in any setting and who recognize that disability is a form of diversity and want to be better, more informed allies.
- Those who want to work in advocacy roles for constituencies that include people with disabilities. Students already enrolled in the College of General Studies or other University programs who want to concentrate on communication skills

Program Expectations

Graduates of this program will be able to:

- Ethically represent people with disabilities in expressive forms such as writing, film and television media, and music.
- Identify barriers to access for people with disabilities, including environmental, attitudinal, policy, and social barriers.
- Develop strategies for increasing accessibility in a variety of public, professional, and institutional settings.
- Advocate for social, legal, educational, and other concerns impacting populations with disabilities.

- Critically examine the intersection of disability and other identity and cultural constructs, such as gender, sexuality, and race.

Program Requirements

- The Disability Studies certificate requires 18 credits, including one core course, and five elective courses. Courses must be taken from at least three (3) subjects. No more than nine (9) total credits (Core Course and two [2] Electives) can come from ENGCMP; no more than six (6) credits can come from any other single subject code (ENGFLM, GSWS, SOC, etc.).
- Credits earned at other accredited educational institutions may be eligible for transfer on a case by case basis.
- A minimum of nine (9) credits must be earned at the University of Pittsburgh.
- A cumulative grade point average of 2.0 or higher is required in courses being applied to the certificate.

Obtaining the Certificate

To receive the certificate, you must fill out an online graduation application through the Pitt Portal prior to completing your last term in the program. Visit Graduation / Diplomas on the Registrar's website for the instructions and check the Graduating with a CGS degree/ certificate website for the submission deadline. Contact a CGS advisor to confirm that all requirements for the certificate have been met. To avoid a late fee, you should complete this process when registering for the term.

Core Course

The following 3-credit course is required for this certificate:

- ENGCMP 0540 - INTRODUCTION TO DISABILITY STUDIES

Elective Courses

Five elective courses must be taken from at least three different academic departments (ENGCMP can count as one of these three departments). Courses must be approved for Disability Studies credit. With permission of the director, students will be able to count the internship or independent study courses in their majors as electives. Consult Pitt's Course Catalog for current listings. Some approved courses include:

- ANTH 1722 - CULTURE AND POLITICS OF MENTAL HEALTH
- ASL 1625 - THE DEAF AND SOCIETY
- ASL 1725 - SOCIOLINGUISTICS OF SIGN LANGUAGE
Note: Cross-listed with LING 1721
- COMMRC 1073 - INTERPERSONAL COMMUNICATION FOR THE DIVERSE WORKPLACE
- ENGCMP 0415 - WRITING AND ANXIETY
- ENGCMP 1430 - USABILITY TESTING IN TECHNICAL WRITING
- ENGFLM 0585 - TECHNOLOGIES OF THE BODY
Note: Cross-listed with FMST 0790
- ENGFLM 1192 - IRISH FILM
Note: Cross-listed with FMST 11261
- ENGFLM 1533 - DISABILITY IN FILM AND TELEVISION
Note: Cross-listed with FMST 1533
- FR 0088 - AILING BODIES: NARRATIVES OF HEALTH AND ILLNESS
- GSWS 1130 - GENDERED BODIES
- HHD 1489 - CONSIDERATIONS FOR HEALTH AND FITNESS PROGRAMMING
- MUSIC 1306 - MUSIC AND DISABILITY STUDIES
- PS 1216 - MODERN CIVIL RIGHTS IN AMERICAN POLITICS

- PSY 0515 - REHABILITATION PSYCHOLOGY
Note: Cross-listed with HRS 1515
- REHSCI 1280 - PSYCH AND SOCLGY OF DISABILITY
- REHSCI 1290 - PRACTICAL ISSUES IN DISABILITY
- REHSCI 1292 - DIVERSITY AND CULTURAL ISSUES IN HEALTH, DISABILITY AND REHABILITATION
- SOC 0471 - DEVIANCE AND SOCIAL CONTROL
- SOC 0477 - MEDICAL SOCIOLOGY
- SOC 1421 - BODY POLITICS: TECHNOLOGIES, DISABILITY, DIFFERENCE
- SOC 1450 - HEALTH AND ILLNESS
- THEA 1349 - DISABILITY AND PERFORMANCE
- TLL 1580 - FOUNDATIONS OF SPECIAL EDUC

Total Credits: 18

Gender, Sexuality, and Women Studies Certificate

The undergraduate Certificate in Gender, Sexuality, and Women's Studies is an interdisciplinary academic program providing students with the opportunity to broaden their understanding of the changing role that gender plays, both in the United States and around the world. The GSWS Certificate is housed in the College of General Studies and offered in partnership with the Gender, Sexuality, and Women's Studies program. Participants benefit from the academic instruction of GSWS faculty and the nontraditional student services available through the College of General Studies.

Students who want to explore the intersection of gender with race, class, ethnicity, ability, and sexual orientation will find courses of interest, as will students who want to know more about the role of women in history, literature and the arts, media, and science. Students who are planning careers in medicine, the creative arts, social work, education, counseling, law, therapy, and business often find that a background in women's studies enhances their professional activities.

The certificate is available as a stand-alone option or can be pursued as part of a degree.

Admission Requirements

Students must meet requirements for admission to the College of General Studies. A certificate application form must be completed and submitted online to the College of General Studies.

Obtaining the Certificate

To receive the certificate, you must fill out an online graduation application through the Pitt Portal prior to completing your last term in the program. Visit Graduation / Diplomas on the Registrar's website for the instructions and check the Graduating with a CGS degree/ certificate website for the submission deadline. Contact a CGS advisor to confirm that all requirements for the certificate have been met. To avoid a late fee, you should complete this process when registering for the term.

Certificate Requirements (18 credits)

The gender, sexuality, and women's studies (GSWS) certificate requires 18 credits, including six credits of core classes, nine elective credits (which must be taken from two academic departments), and one advanced GSWS course.

- Transfer courses will be accepted on a case-by-case basis up to a maximum of two courses.

- A cumulative grade point average of 2.0 or higher is required in courses being applied to the certificate.
- A minimum of 12 credits must be earned at the University of Pittsburgh.
- The GSWS Certificate may not be pursued concurrently with the B.A. in Gender, Sexuality, and Women's Studies or with the GSWS minor.
- All certificate students are expected to meet at least once per year with the GSWS undergraduate advisor to update their files and discuss what courses are needed to fulfill certificate requirements.

Core Courses (6 credits)

A minimum of two courses (six credits) are required (preferably to be completed early in the student's academic program).

- GSWS 0100 - INTRODUCTION TO GENDER, SEXUALITY, AND WOMEN'S STUDIES
 - GSWS 0150 - GENDER IN THE PROFESSIONS
 - GSWS 0500 - INTRODUCTION TO FEMINIST THEORY *or*
 - GSWS 0550 - SEX AND SEXUALITIES
- Students are advised to take all four core courses to cover the key areas represented by the program (in which case two of these courses will count towards the program electives).

Electives (9 credits)

Three elective courses must be taken from at least two different academic departments (GSWS can count as one of these 2 departments). **Courses must be approved for GSWS credit.** Consult the GSWS Program website for current listings. Some approved courses include:

- AFRCNA 0454 - MAN/WOMAN LITERATURE
- AFRCNA 1309 - WOMEN OF AFRICAN AND AFRICAN DIASPORA
- ANTH 0768 - ANTHROPOLOGY OF GENDER AND SEXUALITY
- ANTH 1728 - GENDER AND GLOBALIZATION
- ENGCMP 0203 - SEMINAR IN COMPOSITION: GENDER STUDIES
- ENGLIT 0610 - WOMEN AND LITERATURE
- ENGLIT 0625 - DETECTIVE FICTION
- ENGLIT 0630 - SEXUALITY AND REPRESENTATION
- ENGLIT 0655 - REPRESENTING ADOLESCENCE
- ENGLIT 0670 - QUEER AND TRANSGENDER LITERATURE
- ENGLIT 0715 - AUSTEN AND BRONTE
- FR 0012 - FRENCH KISS: LOVE, SEX, FRANCE
- FR 0070 - KINGS & QUEENS: FROM VIKINGS TO THE GUILLOTINE
- FR 0088 - AILING BODIES: NARRATIVES OF HEALTH AND ILLNESS
- FR 0090 - EURO CHIC: THE INVENTION OF FASHION
- GSWS 0200 - SEX, RACE, AND POPULAR CULTURE
- GSWS 0600 - GLOBAL LGBTQ LITERATURE
- HIST 0707 - SEX AND GENDER: A GLOBAL HISTORY OF THE MODERN WORLD
- HIST 1082 - WOMEN, GENDER AND SPORT
- HIST 1661 - GENDER AND SEXUALITY IN THE US SINCE 1865
- LCJS 0200 - RACE, CLASS, GENDER, & THE LAW
- LCJS 1550 - GENDER, RACE, CLASS AND CRIMINAL JUSTICE
- LCJS 1583 - SEX, LAW AND MARRIAGE

- PS 1550 - GENDER AND GLOBAL POLITICS
- PSY 0184 - PSYCHOLOGY OF GENDER
- PSY 1110 - PSYCHOLOGICAL ASPECTS OF HUMAN SEXUALITY
- PSY 1113 - PSYCHOLOGY OF WOMEN+
- SOC 0446 - SOCIOLOGY OF GENDER
- SOC 1448 - WORKING WOMEN
- Either GSWS 1900 - INTERNSHIP or GSWS 1901 - INDEPENDENT STUDY may be used to meet an elective requirement, but in this case, the two other courses must each be in different departments. Consult with the GSWS advisor. Special permission from the GSWS advisor required.

Interdisciplinary Course (3 credits)

Choose one upper-level advanced GSWS course (three credits); GSWS 0100 and GSWS 0500 (or GSWS 0550) are prerequisites for some of these courses. Below is a sample list of approved courses. For all upper-level GSWS courses, see the GSWS Major page.

- GSWS 1130 - GENDERED BODIES
- GSWS 1140 - SPECIAL TOPICS
- GSWS 1150 - TRANSNATIONAL FEMINISMS
- GSWS 1170 - QUEER THEORY
- GSWS 1180 - POLITICS OF GENDER AND FOOD
- GSWS 1190 - MASCULINITIES
- GSWS 1210 - GENDER AND THE DIGITAL
- GSWS 1230 - GENDER AND MEDICINE
- GSWS 1280 - TRANSNATIONAL SEXUAL POLITICS
- GSWS 1300 - WANDERLUST: SEX & GENDER IN GLOBAL TOURISM
- GSWS 1450 - GENDER AND SUSTAINABILITY
- GSWS 1460 - GENDER, SEXUALITY, AND CHILDHOOD IN A GLOBAL CONTEXT
- GSWS 1610 - QUEER AND FEMINIST MEDIA ART
- GSWS 1715 - FEEDING THE SOUL: FOOD, GENDER AND RELIGION

Notes

Requirements subject to change. Check with an academic advisor before registering.

Information System Design Certificate

This innovative 18-credit program responds to the increasing industry demand for information system professionals. Offered in partnership with the School of Computing and Information (SCI), this multifaceted undergraduate certificate can be completed as a stand-alone continuing education program or serve as preparation for a bachelor's, master's, or doctoral degree.

Who should participate:

- Professionals in another field who wish to enter the information management field
- Individuals working in the technology field who want or need more formal training to progress in their careers
- People wanting to prepare for a master's degree in information sciences

Upon completion of this certificate, participants will be able to:

- Use scientific programming language to introduce information structures such as linked lists, stacks, and queues
- Develop program modules using a current programming language
- Utilize the theories of data structures and programming language design

These competencies may be applied to positions such as system designer, database developer, database manager, interactive system designer, expert system designer, information retrieval specialist, network designer, database marketer, or administrator who advises and implements technology purchases and upgrades.

This certificate is applicable to fields such as banking, healthcare, library science, judicial systems, communication, education, agriculture, private industry, and government.

Admission requirements

Students must meet requirements for admission to the College of General Studies. A certificate application form must be completed and submitted online to the College of General Studies.

Program Prerequisites

Before applying to this program, students should have completed 1) a college algebra class, and 2) an introductory information systems course or a programming course, earning a C or better in both.

- Recommended programming courses: INFSCI 0010 INTRODUCTION TO INFORMATION, SYSTEMS AND SOCIETY, CS 0007 INTRODUCTION TO COMPUTER PROGRAMMING, CS 0008 INTRODUCTION TO COMPUTER PROGRAMMING WITH PYTHON , or CS 0004 INTRODUCTION TO COMPUTER PROGRAMMING-BASIC .

Please note: Catalog numbers and titles changed as of Fall 2020 (Term: 2211). For course codes and titles prior to Fall 2020, visit the AY 19-20 University Catalog program page: Information System Design Certificate

See also the SCI Courses website for updated course descriptions.

Obtaining the Certificate

To receive the certificate, you must fill out an online graduation application through the Pitt Portal prior to completing your last term in the program. Visit Graduation / Diplomas on the Registrar's website for the instructions and check the Graduating with a CGS degree/ certificate website for the submission deadline. Contact a CGS advisor to confirm that all requirements for the certificate have been met. To avoid a late fee, you should complete this process when registering for the term.

Required Courses: (15 credits)

Complete all five required courses.

- CMPINF 0401 - INTERMEDIATE PROGRAMMING
- INFSCI 0410 - HUMAN-CENTERED SYSTEMS
- INFSCI 0610 - NETWORKS AND INFORMATION
- INFSCI 1400 - ANALYSIS OF INFORMATION SYSTEMS
- INFSCI 1500 - DATABASE MANAGEMENT CONCEPTS AND APPLICATIONS

Electives: (3 credits)

Students must complete a total of 18 credits as follows. All courses must be completed with a C or better grade. Choose one of the following approved courses.

- INFSCI 1014 - GRAPHICS
- INFSCI 1025 - DESIGN OF INFORMATION SYSTEMS
- INFSCI 1031 - GOING DIGITAL: TRANSFORMATIONAL CHANGE
- INFSCI 1059 - WEB PROGRAMMING
- INFSCI 1420 - USER-CENTERED DESIGN
- INFSCI 1460 - IT PROJECT MANAGEMENT
- INFSCI 1550 - GEOSPATIAL INFORMATION SYSTEMS (GIS)
- INFSCI 1600 - SECURITY AND PRIVACY
- INFSCI 1620 - ADVANCED SECURITY AND PRIVACY

Notes

Requirements subject to change. Check with an academic advisor before registering.

Leadership Certificate

The Certificate in Leadership provides a structured framework of courses and experiences for acquiring the basic practical and analytical skills required of successful public and private sector leaders. Offered by the University of Pittsburgh College of General Studies, this program uses the skills and knowledge of students to help advance their careers further, and take their organizations to the next level.

This 18-credit program is designed for students looking to become a more attractive candidate for a managerial or leadership position in their chosen field, or for those students looking to enter into the business, nonprofit, government, or corporate world.

Who should participate:

The Certificate in Leadership is open to any University of Pittsburgh degree-seeking student, regardless of current school or college, who anticipates moving into a leadership role in business, nonprofit, or other organization.

Upon completion of this certificate, participants will be able to:

- Demonstrate knowledge of leadership theories and models, such as situational, participative, transformational, and servant leadership
- Identify and evaluate the effectiveness of different communicative styles, and communicate clearly and effectively themselves
- Analyze an organization in its cultural, social, historical, developmental, geographic, and/or competitive aspects, and decide which type of leadership style would be most effective in that situation
- Determine one's fit to the leadership-related challenges of an organization and what one would need to be more effective as a leader in that situation.

Admission Requirements

Students must meet requirements for admission to the College of General Studies. A certificate application form must be completed and submitted online to the College of General Studies.

Obtaining the Certificate

To receive the certificate, you must fill out an online graduation application through the Pitt Portal prior to completing your last term in the program. Visit Graduation / Diplomas on the Registrar's website for the instructions and check the Graduating with a CGS degree/ certificate website for the submission deadline. Contact a CGS advisor to confirm that all requirements for the certificate have been met. To avoid a late fee, you should complete this process when registering for the term.

Pre-Requisite Requirements

Students seeking a leadership certificate must be in good academic standing and should have already completed two basic courses in communication, one each in oral and written, with a grade of C or better.

Recommended Pre-Requisite Courses

- COMMRC 0520 - PUBLIC SPEAKING
BUSORG 1101 and COMMRC 0500 can be substituted for COMMRC 0520
- ENGCOMP 0400 - WRITTEN PROFESSIONAL COMMUNICATION
ENGCOMP 0420, ENGCOMP 0440, and ENGCOMP 0450 or ENGWRIT 0550 and ENGWRIT 0610 can be substituted for ENGCOMP 0400. Alternatively, refer to the following thematic course clusters and select a lower-level professional writing course that best fits your academic interests and needs.

Note

Applicants without this coursework may be admitted provisionally but must complete the prerequisites prior to taking the LDRSHP 1200 Seminar course.

Co-Curricular Requirement: Emerging Leaders Program

This certificate has a co-curricular requirement: completion of Pitt's Panther Leadership Academy, a 20-week non-credit program run by the Office of Student Affairs. In the course of this program, participants gain exposure to leadership-related issues through workshops and sessions on communications, conflict management, power, influence, diversity, ethics, and personal development plans.

Note: *Students must send proof of completion of Pitt's Panther Leadership Academy program to CGS Advising at cgsadv@pitt.edu.*

You may request to use an alternative, comparable leadership experience (e.g., ROTC Leadership Training, president of student government, or VIH program participant, etc.). This request should be made to a CGS academic advisor and include a detailed rationale explaining how this leadership experience supports the goals of the certificate and your course of study.

Curriculum (18 credits)

The leadership certificate requires 18 credits of core and elective courses.

- a. A required two-course sequence for a total of six credits, covering leadership theories and how to have situational effectiveness as a leader.

b. Four elective courses (12 credits) from the areas of Leadership and Ethics, Interpersonal Relations, and Situational Analysis. Students may petition for a non-listed course (of personal interest or from their discipline) to fulfill the fourth elective requirement or choose a course from the list of approved electives. At least half of the courses must be at the 1000-level.

- Achieve a minimum grade of C (2.0) or better for all courses required for the program.
- Credits earned at other accredited educational institutions may be eligible for transfer. However, a minimum of nine credits must be earned at the University of Pittsburgh.

Required Courses (6 credits)

Students must complete LDRSHP 1100 and the program pre-requisite requirements listed above prior to registering for LDRSHP 1200. The co-curricular requirement can be completed prior or concurrently with the Leadership Seminar.

- LDRSHP 1100 - THEORIES OF LEADERSHIP
- LDRSHP 1200 - LEADERSHIP SEMINAR

Electives (12 credits)

Complete at least one course from each of the three designated areas, four courses in all (a minimum of 12 credits). At least half of the courses must be at the 1000-level.

Area One: Leadership and Ethics

Select a course from Philosophy and elsewhere on ethical reasoning and decision-making.

- COMMRC 1161 - COMMUNICATION ETHICS
- PHIL 0300 - INTRODUCTION TO ETHICS
- PHIL 0350 - PHILOSOPHY AND PUBLIC ISSUES
- PHIL 1300 - ETHICAL THEORY
- PUBSRV 0050 - ETHICS AND ACCOUNTABILITY
- PUBSRV 1305 - HEALTH, LAW AND ETHICS
- PUBSRV 1340 - STRATEGIC PLANNING PUBLIC SECTOR
These may be used as leadership electives for qualified students.
- AFROTC 1014 - LEADING AND COMMUNICATIONS 2
- MILS 0021 - LEADERSHIP & DECISION MAKING
- NUR 1085 - ETHICS IN NURSING AND HEALTH CARE
- PS 1910 - INSTITUTE OF POLITICS INTERNSHIP/SEMINAR (cross-listed with PUBSRV 1910)
- REHSCI 1230 - REHABILITATION ETHICS

Area Two: Interpersonal Relations

Choose from courses in Psychology, Communications, English Composition, and elsewhere on advanced interpersonal communications, including negotiation, persuasion, dispute resolution, and small group behavior.

- AFRCNA 1535 - DIMENSIONS OF RACISM
- ANTH 1760 - ANTHROPOLOGY OF LAW
- COMMRC 0300 - COMMUNICATION AND SOCIETY
- COMMRC 0530 - INTERPERSONAL COMMUNICATION

- COMMRC 1102 - ORGANIZATIONAL COMMUNICATION
- COMMRC 1106 - SMALL GROUP COMMUNICATION
- COMMRC 1109 - NONVERBAL COMMUNICATION
- COMMRC 1111 - THEORIES OF PERSUASION
- ECON 0200 - GAME THEORY PRINCIPLES
- ENGCMP 1100 - LANGUAGE OF BUSINESS AND INDUSTRY
- ENGCMP 1103 - PUBLIC RELATIONS WRITING
- ENGCMP 1400 - GRANT WRITING FOR NONPROFITS
- PSY 0010 - INTRODUCTION TO PSYCHOLOGY
- PSY 0105 - INTRODUCTION TO SOCIAL PSYCHOLOGY
- PSY 0405 - LEARNING AND MOTIVATION
- PSY 1135 - SOCIAL PERCEPTION AND COGNITION
- PSY 1635 - ORGANIZATIONAL PSYCHOLOGY
- SOC 0431 - BUREAUCRACIES

Area Three: Situational Analysis

Take a course from Anthropology, Sociology, and elsewhere and gain insight into a broader dimension or aspect of an organization of interest, or the population with which it interacts.

- ANTH 0701 - CULTURAL ANTHROPOLOGY: OVERVIEW
- ANTH 0780 - INTRODUCTION TO CULTURAL ANTHROPOLOGY
- ANTH 1737 - SPECIAL TOPICS IN CULTURAL ANTHROPOLOGY Semiotic Anthropology
- ANTH 1738 - GENDER PERSPECTIVES IN ANTHROPOLOGY
- ANTH 1755 - URBAN ANTHROPOLOGY
- ECON 0150 - ECONOMIC DATA ANALYSIS
- ECON 0800 - INTRODUCTION TO ECONOMICS Students with a grade of C or better in ECON 0100 and ECON 0110 can substitute for ECON 0800. Use one for the requirement.
- LING 1235 - LANGUAGE, GENDER AND SEXUALITY (cross-listed with GSWS 1235)
- PS 1241 - PUBLIC ADMINISTRATION AND POLITICAL SYSTEM
- PUBSRV 1130 - PLANNING IN THE PUBLIC SECTOR
- SOC 0010 - INTRODUCTION TO SOCIOLOGY
- SOC 0150 - SOCIAL THEORY
- SOC 0432 - WEALTH AND POWER
- SOC 0444 - URBAN SOCIOLOGY
- SOC 1448 - WORKING WOMEN
- URBNST 0114 - URBAN SUSTAINABILITY
Note: Formally URBNST 1614
- URBNST 0300 - REMAKING CITIES THROUGH POLICY AND PRACTICE
- URBNST 0506 - URBAN PLANNING PROCESS
- URBNST 0512 - NEIGHBORHOOD PLANNING

Note

Students may not use more than one of each of the courses in these groups: 1) ANTH 0701 and 0780; 2) ANTH 1755, SOC 0444 and URBNST 0114.

Note

Requirements subject to change. Check with an academic advisor before registering.

Managing Health Services Programs and Projects Certificate

Improve your administrative and business skills and earn a Certificate in Managing Health Services Programs and Projects. This 18-credit, interdisciplinary program emphasizes grant and research project management, and is designed to educate health service workers in the areas of sociology, communications, public administration, and management.

The program is applicable to positions such as health project manager, health administration director, health program director, and medical office manager. Students who successfully complete this certificate may apply the credits earned to an undergraduate degree at the University of Pittsburgh College of General Studies (CGS).

Upon completion of this certificate, students will be able to:

- manage health services research projects, grants, contracts, and finances;
- demonstrate the skills necessary to assume an administrative or managerial role in a health care organization;
- apply organizational theory and concepts to health care facilities; and
- analyze how physical, social, and cultural factors may help or hinder communication about health care needs.

Who should enroll:

- Health care workers who have been charged with, or would like to take on, management of grants and research projects
- Public and community health workers who seek an understanding of how physical, social, and cultural factors may help or hinder communication about health care needs
- Health care employees looking to take on leadership roles in the workplace

Admission Requirements

Students must meet requirements for admission to the College of General Studies. A certificate application form must be completed and submitted online to the College of General Studies.

Obtaining the Certificate

To receive the certificate, you must fill out an online graduation application through the Pitt Portal prior to completing your last term in the program. Visit Graduation / Diplomas on the Registrar's website for the instructions and check the Graduating with a CGS degree/ certificate website for the submission deadline. Contact a CGS advisor to confirm that all requirements for the certificate have been met. To avoid a late fee, you should complete this process when registering for the term.

Program Requirements

- The Managing Health Services Programs and Projects certificate requires 18 credits, including five (5) required courses and at least one (1) elective.
- Credits earned at other accredited educational institutions may be eligible for transfer. However, a minimum of 9 credits must be earned at the University of Pittsburgh.
- Students must achieve a minimum grade of C (2.0) or better for all courses required for the certificate.

Required Courses (15 credits)

Complete all five courses.

- BUSERV 1915 - INTRODUCTION TO MANAGEMENT
- COMMRC 1181 - HEALTH COMMUNICATION
New course number effective Spring 2023; formerly COMMRC 1730: Special Topics: Health Communication (SEC 75XX)
- NUR 1829 - CONTEM ISSUES CROSS CULTL HEALTH
- PUBHLT 0330 - INTRODUCTION TO EPIDEMIOLOGY
Formerly: HRS 1017 Introduction to Epidemiology
- PUBSRV 0040 - PUBLIC SERVICE TECHNOLOGIES

Electives (3 credits)

Take a minimum of one course.

- COMMRC 1102 - ORGANIZATIONAL COMMUNICATION
- ENGCMP 1400 - GRANT WRITING FOR NONPROFITS
- PSY 1635 - ORGANIZATIONAL PSYCHOLOGY
- PUBSRV 1110 - FINANCIAL MANAGEMENT IN THE PUBLIC SECTOR
- PUBSRV 1315 - MANAGING PROJECTS AND CONTRACTS
- BUSORG 1020 - ORGANIZATIONAL BEHAVIOR
- HRS 1009 - ORGANIZATIONAL THEORY & BEHAVIOR

National Preparedness and Homeland Security Certificate

The Certificate in National Preparedness and Homeland Security (NPHS) is designed to teach current and future emergency professionals to analyze information and make decisions in dynamic and complex crisis environments using new and powerful analytic tools. Through experience-based learning activities, certificate students will develop the skills they need to thrive in homeland security and emergency preparedness careers.

This unique 18-credit certificate incorporates hands-on learning methods. The program features dynamic modeling tools developed at the University of Pittsburgh to plan for and respond to disasters; exercises and simulations that follow protocols established by the U.S. Department of Homeland Security; and tools that use virtual reality, visualization, and Geographic Information Systems (GIS) software to integrate information for crisis decision making.

Who should participate:

- Employees of local, state, and federal entities engaged in emergency preparedness, homeland security, and related fields
- Business people who are charged with risk management and are interested in applying industry tested analytics to developing emergency management and continuity of operations (COOP) plans
- Professionals in organizations with first-responders and first receivers, and those looking to step into such leadership positions
- Veterans interested in building on their expertise in decision-making and crisis leadership
- Career changers and current degree seekers looking to enter a growing and important field that uses a data-driven approach to preparedness activities involving both planning and implementation.

Upon completion of this certificate, participants will be able to:

- Develop and implement organizational risk profiles, COOP plans, business recovery plans, and other risk management activities
- Use knowledge of federal, state, and local agency responsibilities to effectively plan and execute emergency response plans
- Apply incident command protocols and consensus building approaches
- Communicate effectively in a crisis, orally and in writing, and transfer information effectively to obtain positive outcomes
- Plan prevention and preparedness operations and measures that help communities handle efforts related to damage limitation, emergency response, and recovery

Admission Requirements

Students must meet requirements for admission to the College of General Studies. A certificate application form must be completed and submitted online to the College of General Studies.

Obtaining the Certificate

To receive the certificate, you must fill out an online graduation application through the Pitt Portal prior to completing your last term in the program. Visit Graduation / Diplomas on the Registrar's website for the instructions and check the Graduating with a CGS degree/ certificate website for the submission deadline. Contact a CGS advisor to confirm that all requirements for the certificate have been met. To avoid a late fee, you should complete this process when registering for the term.

Curriculum (18 credits)

The certificate is composed of twelve credits of required core courses, and six credits of elective courses. Core courses cover foundational content and procedures central to national preparedness and emergency response, in addition to analytical tools and approaches. They include a capstone experience in which students will plan, role-play, and report on a complete disaster scenario involving critical infrastructure sectors such as energy, government, transportation, health, and telecommunications. Elective courses allow students to gain further knowledge or experience relevant to their current or intended career paths in such fields as health, information security, and business continuity. All courses are 3 credits, unless otherwise noted.

- No course with a grade below C will be accepted for certificate credit
- To earn the certificate, students must maintain at least a 2.0 grade point average
- All four required core courses must be completed at the University of Pittsburgh to earn the certificate
- A maximum of six credits may be accepted from other institutions for elective courses
- Students should consult with their advisor and/or core course faculty early in their program to identify elective courses appropriate for their career and/or academic interests

Required Courses (12 credits)

Students must have successfully completed at least one other core course prior to registering for the capstone course. The capstone course may be taken concurrently with another core course.

- NPHS 1510 - FEDERAL AND INTERNATIONAL FRAMEWORK FOR EMERGENCY PREPAREDNESS
- NPHS 1520 - STATE AND LOCAL FRAMEWORK FOR EMERGENCY PREPAREDNESS

- NPHS 1530 - ANALYSIS, INTELLIGENCE AND DECISION TOOLS FOR EMERGENCY PREPAREDNESS
- NPHS 1540 - CAPSTONE COURSE IN EMERGENCY PREPAREDNESS

Electives (6 credits)

The following list shows a sample of courses already approved as electives:

- CS 1655 - SECURE DATA MANAGEMENT AND WEB APPLICATIONS
- CS 1675 - INTRODUCTION TO MACHINE LEARNING
- CS 1699 - SPECIAL TOPICS IN COMPUTER SCIENCE Privacy in Electronic Society
- ECON 0150 - ECONOMIC DATA ANALYSIS
- GEOL 0820 - NATURAL DISASTERS
- IE 1015 - GEOGRAPHIC INFORMATION SYSTEMS
- INFSCI 0610 - NETWORKS AND INFORMATION
Note: Course number and title change as of Fall 2020; formerly listed as INFSCI 1070 Intro to Telecom and Networks.
- INFSCI 1550 - GEOSPATIAL INFORMATION SYSTEMS (GIS)
Note: Course number and title change as of Fall 2020; formerly listed as INFSCI 1068 Geospatial Info System / GIS.
- INFSCI 1620 - ADVANCED SECURITY AND PRIVACY
Note: Course number and title change as of Fall 2020; formerly listed as INFSCI 1074 Computer Security.
- LCJS 1520 - CYBERCRIME
- LCJS 1521 - CYBER SECURITY, LAW, AND MONEY LAUNDERING
- LCJS 1570 - PRINCIPLES OF HOMELAND SECURITY (cross-listed with PUBSRV 1425 - PRINCIPLES OF HOMELAND SECURITY)
- LCJS 1571 - TERRORISM
- NPHS 1900 - INTERNSHIP
- NPHS 1901 - INDEPENDENT STUDY
- NUR 1061 - INDEPENDENT STUDY
- PS 1503 - INTERNATIONAL ORGANIZATION
- PS 1509 - CONFLICT AND WAR THEORY
- PS 1583 - TOPICS IN INTERNATIONAL RELATIONS European and Global Security
- PUBSRV 1320 - GEOGRAPHIC INFORMATION SYSTEMS IN THE PUBLIC SERVICE
- URBNST 0030 - INTRODUCTION TO GIS
- URBNST 0130 - APPLIED GIS
- URBNST 0518 - SMART CITIES: FRONTIERS IN URBAN ANALYTICS & BIG DATA

Notes

Students must meet all relevant course prerequisites. NPHS Internship and NPHS Independent Study courses may be repeated for credit with permission.

Note: With the approval of the NPHS advisor, students enrolled in the SHRS Emergency Medicine (EM) program may apply up to six (6) credits of EM courses toward the NPHS certificate electives.

Requirements subject to change. Check with an academic advisor before registering.

Center for National Preparedness

The Center for National Preparedness (www.cnp.pitt.edu) is an interdisciplinary collaboration of experts and departments at the University of Pittsburgh. It provides research, education, and service aimed at advancing the science,

policy and implementation of effective federal, state, and local preparedness efforts across the public and private sectors. The Center possesses expertise in business continuity, information technology, engineering, medical research, national security policy, and public health.

Nonprofit Management Certificate

Nonprofit agencies of all kinds are being established to fulfill needs in our communities, while existing community benefit organizations are expanding to meet increasing demand for services. This growth means new opportunities in the rewarding nonprofit sector.

The 18-credit nonprofit management certificate is offered by the College of General Studies in partnership with Pitt's Graduate School of Public and International Affairs. The program provides a solid foundation for those looking to enter the field of public service, to enhance their current roles, or to assume leadership positions. Coursework covers topics including management, fundraising, human resources, and more.

This certificate can be pursued as a standalone program or in conjunction with the completion of another degree at Pitt. The credits you earn while completing this certificate may also be transferred to a bachelor's degree program at CGS, such as our BA in public service.

Who should enroll:

- Professionals with public relations experience
- Professionals with an interest in fundraising
- Professionals with a background in program development
- Professionals with knowledge of marketing and advertising
- Recent graduates or current students who wish to pursue a career in the nonprofit field
- Undergraduate degree-seeking students who wish to have an intermediate credential
- Technology workers
- Entrepreneurs who wish to start a nonprofit

Upon completion of this certificate, participants will be able to:

- organize, manage, or supervise a nonprofit organization;
- hire and train an efficient staff;
- understand the structural and financial issues unique to nonprofits;
- effectively raise revenue through fundraising; and
- write grant proposals.

This certificate is applicable to positions such as grant writers, fundraisers, development officers, accountants, information technology workers, and office managers.

Admission Requirements

Students must meet requirements for admission to the College of General Studies. A certificate application form must be completed and submitted online to the College of General Studies.

Obtaining the Certificate

To receive the certificate, you must fill out an online graduation application through the Pitt Portal prior to completing your last term in the program. Visit Graduation / Diplomas on the Registrar's website for the instructions and check

the Graduating with a CGS degree/ certificate website for the submission deadline. Contact a CGS advisor to confirm that all requirements for the certificate have been met. To avoid a late fee, you should complete this process when registering for the term.

Credit Requirements

- The Nonprofit Management certificate requires 18 credits of core courses, including a three-credit internship.
- Students must achieve a minimum grade of C (2.0) or better for all courses required for the program.
- Credits earned at other accredited educational institutions may be eligible for transfer. However, a minimum of nine credits must be earned at the University of Pittsburgh.

Curriculum (18 credits)

Complete all six required courses.

- PUBSRV 0020 - INTRODUCTION TO PUBLIC SERVICE
- PUBSRV 1200 - PRACTICES OF NON-PROFIT MANAGEMENT
- PUBSRV 1210 - FINANCIAL MANAGEMENT OF NON-PROFIT ORGANIZATIONS
- PUBSRV 1220 - HUMAN RESOURCE MANAGEMENT OF NON-PROFIT ORGANIZATIONS
- PUBSRV 1230 - FUNDRAISING FOR NON-PROFIT ORGANIZATIONS
- PUBSRV 1900 - INTERNSHIP SEMINAR

Note: PUBSRV 1910 Institute of Politics Internship/Seminar (4 cr.) may be used in place of PUBSRV 1900 Internship Seminar. Check with your CGS advisor prior to registering.

Notes

Although courses for the certificate can be taken in any order, we strongly recommend that students consider completing PUBSRV 0020 *Introduction to Public Service* first in order to gain exposure to main theories and practices in the field. Normally the internship would be completed last; however, students should start planning their internship early and review their options with a CGS advisor.

- The internship requires 120 hours at the internship site along with registration for the PUBSRV 1900 course. Visit our Internships page for details.
- PUBSRV 1900 is a 3-credit course and may not be divided over two semesters. However, the student could work with their internship instructor to see if the 120 hours could be divided over two terms.
- Students who work at the University should consult with the PUBSRV internship instructor as to whether they need to complete internship hours outside of Pitt or in a different department on campus.

Gainful Employment Information

Requirements are subject to change. Check with an academic advisor before registering.

Writing Certificate

The Certificate in Writing is a 21-credit program designed for those who desire to improve their writing skills. In today's world, the skillful use of the written word is fundamental. This program consists of academic courses taught by faculty of the Department of English. Participants may choose electives to focus on a particular style of writing or to obtain an overview of several writing styles. The program also offers internships with local media, including newspapers, magazines, and television.

Who should participate:

- Students already enrolled in a degree program in the College of General Studies who wish to concentrate on the development of writing skills
- Those who already have a degree, but who wish to develop their writing skills for personal or professional advancement
- People seeking to embark upon writing as a profession

Upon completion of this certificate, participants will be able to:

- Write clearly and accurately
 - Apply writing skills to both fiction and nonfiction works
 - Understand different forms and techniques used in various types of writing
- This certificate is applicable to fields such as media, industrial organizations, governmental agencies, community groups, service providers, and businesses. Skilled writers may work in any organization or field.

Admission Requirements

Students must meet requirements for admission to the College of General Studies. A certificate application form must be completed and submitted online to the College of General Studies.

Obtaining the Certificate

To receive the certificate, you must fill out an online graduation application through the Pitt Portal prior to completing your last term in the program. Visit Graduation / Diplomas on the Registrar's website for the instructions and check the Graduating with a CGS degree/ certificate website for the submission deadline. Contact a CGS advisor to confirm that all requirements for the certificate have been met. To avoid a late fee, you should complete this process when registering for the term.

Curriculum (21 credits)

In addition to Seminar in Composition, students must complete seven courses (21 credits). These classes should include two English writing courses (6 credits) and five English writing electives (15 credits).

- A minimum of five of the required seven courses must be completed at the University of Pittsburgh.
- No course will be accepted for certificate credit with a grade below C, and no course will be accepted as a prerequisite for a higher-level course if the grade earned is lower than a C

Required Courses (6 credits)

All courses are 3 credits.

- ENGWRT 0520 - INTRODUCTION TO FICTION WRITING
- ENGWRT 0610 - INTRODUCTION TO JOURNALISM AND NONFICTION

Electives (15 credits)

All courses are 3 credits.

Courses offered vary by term. Choose five additional courses from any combinations of poetry, fiction, and nonfiction. A sampling of courses that can be used to fulfill the certificate requirements include:

Poetry

- ENGWR 0530 - INTRODUCTION TO POETRY WRITING
- ENGWR 1210 - POETRY WORKSHOP
- ENGWR 1730 - SENIOR SEMINAR IN POETRY

Fiction

- ENGWR 1010 - INTERMEDIATE FICTION
- ENGWR 1090 - MASTERING POINT OF VIEW
- ENGWR 1091 - AUTOBIOGRAPHY AND CREATIVE IMPULSE
- ENGWR 1092 - WRITER'S JOURNALS
- ENGWR 1094 - READINGS IN CONTEMPORARY FICTION
- ENGWR 1710 - SENIOR SEMINAR IN FICTION

Nonfiction

- ENGCMP 1103 - PUBLIC RELATIONS WRITING
- ENGCMP 1104 - CORPORATE STORYTELLING
- ENGWR 1330 - INTERMEDIATE NONFICTION: SCENE AND POINT-OF-VIEW
- ENGWR 1377 - MEDIA LITERACY: WRITING AND READING YOUR WAY THROUGH THE DIGITAL LANDSCAPE
- ENGWR 1390 - READINGS IN CONTEMPORARY NON-FICTION
- ENGWR 1391 - WRITING THE REVIEW
- ENGWR 1393 - SPORTS WRITING
- ENGWR 1399 - TOPICS IN NON-FICTION: NEWSPAPER
- ENGWR 1403 - TOPICS IN NON-FICTION: ELECTRONIC MEDIA
- ENGWR 1750 - SENIOR SEMINAR IN NONFICTION
- ENGWR 1900 - INTERNSHIP: WRITING

Notes

Requirements subject to change. Check with an academic advisor before registering.

Writing for the Professions Certificate

In today's business climate, employees have discovered that the ability to research, organize, and write various kinds of documents is a critical component of many positions, including those that are primarily technical in nature. Organizations expect employees to communicate clearly and effectively with both colleagues and non-expert stakeholders.

This 18-credit certificate provides participants with a strong foundation for developing these vital writing skills. You will learn techniques that are critical for producing clearly written documents-critiquing, analyzing, and researching-as well as the practical applications that build on this groundwork.

Who should participate:

Individuals for whom writing will be a major component of their job responsibilities, e.g., broadcasters, legal professionals, or reporters.

Upon completion of this certificate, participants will be able to:

- Identify and analyze audience traits and perspectives
 - Determine a specific goal and/or purpose of a document, then organize and develop clearly written prose in support of that purpose
 - Apply concentrated knowledge of a specialized communication topic
- This certificate is applicable to such fields as print and online writing professions, health professions, and nonprofit organizations.

Admission Requirements

Students must meet requirements for admission to the College of General Studies. A certificate application form must be completed and submitted online to the College of General Studies..

Obtaining the Certificate

To receive the certificate, you must fill out an online graduation application through the Pitt Portal prior to completing your last term in the program. Visit Graduation / Diplomas on the Registrar's website for the instructions and check the Graduating with a CGS degree/ certificate website for the submission deadline. Contact a CGS advisor to confirm that all requirements for the certificate have been met. To avoid a late fee, you should complete this process when registering for the term.

Curriculum (18 credits)

- The Writing for the Professions certificate requires 18 credits, including 9 credits of core classes and 9 elective credits.
- Students must achieve a minimum grade of C (2.0) or better for all courses required for the program.
- Credits earned at other accredited institutions may be eligible for transfer. However, a minimum of 9 credits must be earned at the University of Pittsburgh.

Required Courses (9 credits)

- ENGCMP 0400 - WRITTEN PROFESSIONAL COMMUNICATION
 - ENGWRT 0610 - INTRODUCTION TO JOURNALISM AND NONFICTION
- And choose one of the following two courses:
Note: Either course may be used towards the elective requirement if both courses are taken.
- COMMRC 0320 - MASS COMMUNICATION AND SOCIETY
 - ENGWRT 1330 - INTERMEDIATE NONFICTION: SCENE AND POINT-OF-VIEW

Electives (9 credits)

Choose three courses from the following:

- COMMRC 1182 - MEDIA RELATIONS

New course number effective Spring 2023; formerly COMMRC 1732: Special Topics: Public and Media Relations (SEC 77XX)

- COMMRC 1730 - SPECIAL TOPICS IN COMMUNICATION
- COMMRC 1732 - SPECIAL TOPICS IN MASS COMMUNICATION : Communication and New Media Technologies
- ENGCOMP 0410 - WRITING IN THE LEGAL PROFESSIONS
- ENGCOMP 0420 - WRITING FOR THE PUBLIC
- ENGCOMP 0515 - PERSUASIVE WRITING IN ADVERTISING
- ENGCOMP 0520 - INTEGRATING WRITING AND DESIGN
- ENGCOMP 0550 - TOPICS IN PUBLIC/PROFESSIONAL WRITING
- ENGCOMP 0560 - WRITING ARGUMENTS
- ENGCOMP 0600 - INTRODUCTION TO TECHNICAL WRITING
- ENGCOMP 0610 - COMPOSING DIGITAL MEDIA
- ENGCOMP 1103 - PUBLIC RELATIONS WRITING
- ENGCOMP 1111 - PROFESSIONAL WRITING IN GLOBAL CONTEXTS
- ENGCOMP 1112 - PROFESSIONAL USES OF SOCIAL MEDIA
- ENGCOMP 1400 - GRANT WRITING FOR NONPROFITS
- ENGCOMP 1401 - WRITING FOR FUNDRAISING AND DEVELOPMENT
- ENGCOMP 1420 - WRITING PROPOSALS FOR BUSINESS
- ENGWRT 0550 - FUNDAMENTALS OF NEWS REPORTING
- ENGWRT 1370 - JOURNALISM BOOT CAMP: WRITE NOW
- ENGWRT 1377 - MEDIA LITERACY: WRITING AND READING YOUR WAY THROUGH THE DIGITAL LANDSCAPE
- ENGWRT 1391 - WRITING THE REVIEW
- ENGWRT 1393 - SPORTS WRITING
- ENGWRT 1399 - TOPICS IN NON-FICTION: NEWSPAPER
- ENGWRT 1403 - TOPICS IN NON-FICTION: ELECTRONIC MEDIA
- ENGWRT 1750 - SENIOR SEMINAR IN NONFICTION

Notes

Requirements subject to change. Check with an academic advisor before registering.

Major

Administration of Justice, BA

In Spring 2021, the Administration of Justice, BA was officially terminated. The last semester students were permitted to declare the existing Administration of Justice major was Fall 2021. Students enrolled in the program will have until August 2028 to complete their degree.

In American society, the justice system is a central social institution. Its effects on individuals and social groups give it a pivotal role in a changing society. The administration of justice program is an upper-division undergraduate course of interdisciplinary study in the liberal arts and sciences that leads to a Bachelor of Arts degree. The goal of this baccalaureate program is to develop an understanding of the evolution, theory, structure, functioning, and processes of change in the total system of criminal justice in our society.

Administration of justice majors develop competence in one of four specialized areas:

- Adult and juvenile corrections
- Law enforcement practice
- Forensics
- Cybercrime

Major Requirements

Students must complete a minimum of 120 credits (approximately 40 courses) for the Bachelor of Arts degree with a major in administration of justice. Of this total, 30 credits (10 courses) make up the major, which is satisfied by taking courses to complete the core requirements, area of concentration, and major electives. The remaining credits required for the degree are outlined in the General Education Requirements section on this page.

An outline of the Administration of Justice major requirements follows:

Core Requirements: 12 credits (four courses)

Administration of Justice

- LCJS 1200 - CRIMINAL LAW Formerly ADMJ 1400
- LCJS 1400 - THE SYSTEM OF CRIMINAL JUSTICE Formerly ADMJ 0500
- LCJS 1590 - SPECIAL TOPICS IN LAW AND CRIMINAL JUSTICE Formerly ADMJ 1450
- LCJS 1900 - PRESERVICE INTERNSHIP Formerly ADMJ 1900

Area of Concentration: 9 credits (three courses)

Choose one of the four areas of specialization. All courses listed under a given area are required.

Adult and Juvenile Corrections

- LCJS 1310 - LAW AND DEVIANCE Formerly ADMJ 1220
- LCJS 1420 - CORRECTIONS Formerly ADMJ 1300
- PSY 0205 - PSYCHOPATHOLOGY

Law Enforcement Practice

- LCJS 1110 - CRIMINOLOGICAL THEORY Formerly ADMJ 1265
or LCJS 1100 CRIMINOLOGY Formerly ADMJ 0600
- LCJS 1210 - CRIMINAL PROCEDURE Formerly ADMJ 1410 (cross-listed with LEGLST 1141)
- LCJS 1410 - LAW ENFORCEMENT AND POLICING Formerly ADMJ 1200

Forensics

- LCJS 1440 - CRIMINAL INVESTIGATION Formerly ADMJ 1100
- LCJS 1500 - CRIMINALISTICS Formerly ADMJ 1115
- LCJS 1510 - PSYCHOLOGY AND LAW Formerly LEGLST 1230

Cybercrime

- LCJS 1520 - CYBERCRIME Formerly ADMJ 1234

Choose two of these four concentration courses

- ADMJ 1246 - FINANCING TERRORISM
- LCJS 1521 - CYBER SECURITY, LAW, AND MONEY LAUNDERING Formerly ADMJ 1238
- LCJS 1531 - INTERNATIONAL ORGANIZED CRIME Formerly ADMJ 1236
- LCJS 1570 - PRINCIPLES OF HOMELAND SECURITY Formerly ADMJ 1425 (cross-listed with PUBSRV 1425)

Major Electives: 9 credits (three courses)

- ADMJ 1210 - JUVENILE DELINQUENCY
- ADMJ 1246 - FINANCING TERRORISM
- ADMJ 1495 Criminal Justice Study Abroad (UPitt-Bradford)
- LCJS 0100 - INTRODUCTION TO LAW, CRIMINAL JUSTICE, & SOCIETY Formerly ADMJ 0100
- LCJS 1100 - CRIMINOLOGY Formerly ADMJ 0600
- LCJS 1110 - CRIMINOLOGICAL THEORY Formerly ADMJ 1265
- LCJS 1210 - CRIMINAL PROCEDURE Formerly ADMJ 1410 (cross-listed with LEGLST 1141)
- LCJS 1310 - LAW AND DEVIANCE Formerly ADMJ 1220
- LCJS 1410 - LAW ENFORCEMENT AND POLICING Formerly ADMJ 1200
- LCJS 1420 - CORRECTIONS Formerly ADMJ 1300
- LCJS 1430 - THE JUVENILE JUSTICE PROCESS Formerly ADMJ 1225
- LCJS 1440 - CRIMINAL INVESTIGATION Formerly ADMJ 1100
- LCJS 1500 - CRIMINALISTICS Formerly ADMJ 1115
- LCJS 1501 - CRIMINALISTICS LAB Formerly ADMJ 1118
- LCJS 1510 - PSYCHOLOGY AND LAW Formerly LEGLST 1230
- LCJS 1520 - CYBERCRIME Formerly ADMJ 1234
- LCJS 1521 - CYBER SECURITY, LAW, AND MONEY LAUNDERING Formerly ADMJ 1238
- LCJS 1530 - ORGANIZED CRIME Formerly ADMJ 1235
- LCJS 1531 - INTERNATIONAL ORGANIZED CRIME Formerly ADMJ 1236
- LCJS 1540 - WHITE COLLAR CRIME Formerly ADMJ 1230
- LCJS 1550 - GENDER, RACE, CLASS AND CRIMINAL JUSTICE Formerly ADMJ 1242
- LCJS 1571 - TERRORISM Formerly ADMJ 1245
- LCJS 1572 - INTRODUCTION POLICE MANAGEMENT Formerly ADMJ 1205
- LCJS 1560 - PROBATION AND PAROLE Formerly ADMJ 1350
- LCJS 1570 - PRINCIPLES OF HOMELAND SECURITY Formerly ADMJ 1425 (cross-listed with PUBSRV 1425)
- LCJS 1599 - INDEPENDENT STUDY Formerly ADMJ 1901 (cross-listed with LEGLST 1901)
- URBNST 0140 - CRIME, PUNISHMENT, JUSTICE, REINTEGRATION
- any Pitt Prison Education Project (PPEP) course (codes vary)

Note:

This major requires that you complete an internship at a facility outside the University, and that facility may require a criminal background check, Act 33/34 clearance, and perhaps drug screening to determine whether you are qualified to participate in the internship. Additionally, in order to become licensed or employed, many states will inquire as to

whether the applicant has been convicted of a misdemeanor, a felony, or a felonious or illegal act associated with alcohol and/or substance abuse.

Transfer Credit Agreement

A transfer credit agreement has been established between the criminal justice program at Butler County Community College and the administration of justice program at Pitt. The agreement gives a course-by-course outline of the associate's degree program and the equivalent course or requirement fulfilled for CGS. Courses transfer if graded C or better. For a copy of the transfer agreement for a specific community college, contact CGS.

Police Academy Certification

Students may receive up to 15 transfer credits for completion of Pennsylvania Municipal Police Academy Act 120 or state police cadet training. Certification course work is equivalent to LCJS 1400, LCJS 1200, LCJS 1210, and two ADMJ elective courses.

General Education Requirements

To earn a Bachelor of Arts or a Bachelor of Science degree in the College of General Studies, you must satisfactorily complete a minimum of 120 credits (approximately 40 courses). This total consists of courses that fulfill CGS General Education Requirements as well as requirements for the students' major, minor and/or certificate.

General Education Requirements (GERs) provide you with an opportunity to discover interests you never knew you had, all while earning credits toward graduation. And, no matter what your future holds, be it a career or grad school, GERs prepare you by emphasizing skills employers want (like critical thinking, problem solving, written and oral communication) and giving you the opportunity to become more aware of our increasingly diverse and interconnected world.

The College of General Studies provides a liberal arts and pre-professional education for undergraduate students that is grounded in scholarly excellence. Pitt offers you the knowledge, understanding, analytical tools, and communication skills you need to become perceptive, reflective, and intellectually self-conscious citizens within a diverse and rapidly changing world. GERs are at the core of our education.

Our **General Education Requirements changed for students entering as of Fall 2018 (2191) term**. See the CGS General Education Requirements for Fall 2018 and afterward here or visit the CGS General Education Requirements website.

Writing (9 credits)

Written communication is central to almost all disciplines and professions. Developing written proficiency is a lifelong process, and it is especially important that undergraduate education accelerates and directs that process toward the achievement of writing skills that will provide a base appropriate for professional or graduate education or for professional employment.

Introductory Composition Course (3 credits)

Students are required to take the college-level introductory composition course ENGCMP 0200 Seminar in Composition (SC). Students are exempted from this course if they earned a 660 on the SAT Evidence-Based Reading and Writing Section and a 5 on the Advanced Placement Exam. Given the importance of establishing a sound foundation for a student's writing, all students are required to pass SC with a grade of C- or better by the time they have

completed 24 credits in enrollment. (Students who do not have a 560 on the SAT or a 24 or above on the ACT might also be required to take the skill-development course ENGCOMP 0150 Workshop in Composition before enrolling in SC.)

Note for students transferring from the School of Engineering into CGS: successful completion of ENGR 0012 Intro to Engineering Computing may be used in place of ENGCOMP 0200 Seminar in Composition.

Two Writing Intensive Courses (6 credits if not overlapped with other General Education requirements)

Writing intensive courses (W-Courses) are designed to teach writing within a discipline through writing assignments that are distributed across the entire term. In these courses, students will produce at least 20 - 24 pages of written work. A significant portion of this work should be substantially revised in response to instructor feedback and class discussion. All students must complete two courses that are designated as 'W-Courses', or one W-Course and a second English composition course. Students should satisfy one of these requirements by taking a W-Course in their major if it is available. **Students may not transfer credits in to satisfy this requirement. W-courses can be overlapped with other General Education courses, except for Professional Communication.**

Math/Algebra (3 credits)

Mastering college-level algebra is required for all students. These skills are foundational for student success in other general education courses.

Students are exempt from having to take Algebra with a 620 SAT Math or 27 ACT Math. Students who do not meet these criteria must earn a C- or higher in MATH 0020, MATH 0025, MATH 0031, CS 0004, or CS 0007. Given the importance of establishing a sound foundation in mathematics, all students are required to satisfy the Algebra requirement by the time they have completed 30 credits in enrollment.

Quantitative and Formal Reasoning (3 credits)

All students are required to take and pass with a grade of C- or better at least one course in university-level mathematics (other than trigonometry) for which algebra is a prerequisite, or an approved course in statistics or mathematical or formal logic.

A C- or better is needed in a course that satisfies this requirement. Students who qualify for placement in an upper-level course in mathematics on a proficiency placement test are exempt.

Diversity (3 credits)

Diversity courses focus centrally and intensively on issues of diversity, and do so in a manner that promotes understanding of difference. They provide students with analytical skills with which to understand structural inequities and the knowledge to be able to participate more effectively in our increasingly diverse and multicultural society. The courses may address, though not be limited to, such issues as race, gender, ethnicity, sexuality, religious difference, and/or economic disparity.

All students must complete one course that is designated as a Diversity course but may take this course within their major field of study, if available. Diversity courses may also be courses that fulfill other General Education Requirements. (3 credits if not overlapped with another General Education course)

Language/Communication (6-10 credits)

All students are required to take a sequence of two courses that provide them with advanced study of a second language other than English, or the ability to develop their skills in oral and professional communication. Students choose one of the following options below:

Option 1: A Sequence of Two Courses in a Second Language (6-10 credits)

Students complete with a grade of C- or better two terms of university-level study in a second language other than English. Exemptions will be granted to students who can demonstrate elementary proficiency in a second language through one of the following:

1. Having completed three years of high school study of a second language with a grade of B or better in each course;
2. Passing a special proficiency examination;
3. Transferring credits for two terms or more of approved university-level instruction in a second language with grades of C or better;
4. Having a native language other than English.

Option 2: A Sequence of Two Courses in Oral and Professional Communication (6 credits)

These classes advance the skills of the student to perform effectively in workplace environments or the public by communicating ideas and concepts and/or introduce students to theories that analyze and explain effective communication in these settings. Students must complete one of the following with a grade of C- or better: COMMRC 0520 or COMMRC 0500. Students select a second class from a list of approved courses.

Humanities and Arts, Social Sciences, and Natural Sciences (27 credits)

Each student is required to take nine courses in the humanities, social sciences, and natural sciences as distributed below. Such courses allow students to pursue their own interests while they explore diverse views of a broad range of human cultures, modes of thought, and bodies of knowledge. The courses that fulfill these requirements are truly courses in the disciplines that draw on the unique resources of a research university.

One course in Literature (3 credits)

By studying a range of literary and other texts in this course, students will be introduced to the techniques and methods of textual analysis and will develop critical perspectives on a variety of forms of cultural expression.

One course in the Arts (3 credits)

This course introduces students to modes of analysis appropriate to music, theater, or the visual and plastic arts. It may take the form of a survey, the study of a genre or period, or may focus on a particular artist.

One course in Creative Work (3 credits)

In this course, students are expected to produce some form of creative work, and they will also be trained in the techniques and modes of its production. The course could be situated in theater, studio arts, writing, visual arts (including photography, film), music, and dance; or it may be a course that engages in innovative or original work in relation to written, oral, or visual material, new media, social media, and other contemporary forms of communication and representation.

One course in Philosophical Thinking or Ethics (3 credits)

This course will emphasize close and critical reading of theories about knowledge, reality, humanity, and values. Courses could focus on human nature; scientific reasoning; theories of cognition and consciousness; human/social rights; competing systems of belief; morality; concepts of freedom; theories of justice; social obligations/constraints; or ethics, including applied or professional ethics.

One course in Social Sciences (3 credits)

A course that treats topics considered of significant importance in the social or behavioral sciences (including social psychology). Courses will introduce students to the subject matter and methodology of a particular discipline and will involve them in the modes of investigation, analysis, and judgment characteristically applied by practitioners.

One course in Historical Analysis (3 credits)

In this course, students will develop skills and methods by which to understand significant cultural, social, economic, or political accounts of the past. The course may focus on pivotal moments of change, or important transitions over longer periods of time. Courses could explore developments in science, technology, literature, or art, and the ideas around them, or examine critical historical shifts by analyzing various data or cultural forms.

Three courses in the Natural Sciences (9 credits)

These will be courses that introduce students to scientific principles and concepts rather than offering a simple codification of facts in a discipline or a history of a discipline. The courses may be interdisciplinary, and no more than two courses may have the same primary departmental sponsor.

Global Awareness and Cultural Understanding (9 credits)

Each student must complete three courses as distributed below:

One course in Global Issues (3 credits)

This course will examine significant issues that are global in scale. Courses could address, for example: globalization; the global and cultural impact of climate change/sustainability; the effects of and resistances to colonialism; or worldwide issues related to health, gender, ethnicity, race, technology, labor, law or the economy.

One course in a Specific Geographic Region (3 credits)

This course will be an in depth study and analysis of a particular region or locality outside the United States.

One course in Cross-Cultural Awareness (3 credits)

This course, through cross-cultural perspective, will promote knowledge of and reflection upon the cultures of Asia, the Middle East, Africa, Latin America, the Caribbean, or the indigenous peoples of the world past and present. Students will develop an understanding of cultures, traditions, and societies that differ substantially from those that prevail in North America and Europe.

Overlapping of General Education Courses

- Courses taken for general education requirements can also be applied to major requirements, when applicable.
- Diversity courses are allowed to overlap with other general education requirements.
- Writing ('W') courses are allowed to overlap with other general education requirements except for the Professional Communication requirement.
- Students may overlap the second course in their language sequence, taken at the college level, with the Geographic Region requirement, except for American Sign Language. This does not apply to students who satisfy the Language requirement through high school study, a proficiency examination, or native proficiency.

Specialized Study (the Major) (30-36 credits)

The baccalaureate degree, in addition to providing certain skills and broad exposure to the major bodies of knowledge, also allows the opportunity to specialize in a particular field, providing depth of experience essential for vocational competence or further graduate study. An outline of each major is available on the CGS Web site, www.cgs.pitt.edu.

Students admitted to CGS can choose from the following majors. Many majors offer a combination of face-to-face and online courses.

- Administration of justice (this major is no longer accepting new students, effective Fall 2021)
- Dental hygiene (for licensed dental hygienists)
- Health services (BA and BS)
- Humanities (this major is no longer accepting new students, effective Fall 2020)
- Law, Criminal Justice, and Society
- Legal studies (this major is no longer accepting new students, effective Fall 2021)
- Liberal Studies
- Media and professional communications
- Natural sciences
- Public service
- Social sciences (this major is no longer accepting new students, effective Fall 2020)

Students who want a major in an arts and sciences field can begin in CGS and transfer to the Dietrich School of Arts and Sciences after completing 12 credits including the mathematics and seminar in composition requirements. Admission is determined by the Dietrich School.

Electives

Any credits not used specifically to satisfy the previous requirements are considered electives. Electives can be taken in a wide variety of subjects to complement, reinforce, or add further breadth to the chosen program of study or to help meet the requirements of a minor or certificate program.

Dental Hygiene, BS

Opportunities for health care professionals are becoming available as a result of the changes in health care delivery formats. To prepare dental hygiene graduates for employment opportunities created by these changes, the University of Pittsburgh's College of General Studies and the School of Dental Medicine have developed a course of study that leads to a Bachelor of Science in dental hygiene. This degree is intended for those students who have graduated from accredited dental hygiene programs with a certificate or associate's degree. (See School of Dental Medicine listings in this bulletin for information about the Associate of Science in Dental Hygiene program.) The Bachelor of Science degree enhances the already completed professional training and provides important exposure to the liberal arts. The combination of basic sciences, clinical experiences, and liberal arts strengthens the career opportunities for dental hygienists in business, sales, dental hygiene education, and research.

Program Requirements

The following program requirements must be met to receive the Bachelor of Science degree:

- Students must earn a minimum of 131 credits to complete the Bachelor of Science degree. These 131 credits are comprised of transfer credits and credits completed at Pitt. Of the 131-credit total, 30 credits must be at the 1000 (junior/senior) level. The courses must be completed within five years of enrolling in the program.
- Students who are transferring from Pitt's associate degree hygiene program to the College of General Studies (CGS) dental hygiene Bachelor of Science degree program complete 40 credits of CGS general education, dental hygiene track, and elective course work.
- At least 30 of the 40 credits must be completed at the University of Pittsburgh in order to fulfill the CGS residency requirement.

- Contact Krista Stokes, CGS dental hygiene academic advisor, for information about transferring credits from other institutions or if you completed your dental hygiene certificate at Pitt before 1995.

Required Courses

The required courses are listed below.

Dental Hygiene Tracks

Students must choose a concentration in health management, education, or research.

Health Management

- DENHYG 1921 - HEALTH MANAGEMENT SEMINAR
- DENHYG 1922 - HEALTH MANAGEMENT PRACTICUM

Education

- DENHYG 1901 - ALLIED HEALTH EDUCATION
- DENHYG 1902 - ALLIED HEALTH EDUCATION PRACTICUM

Research

- NUR 0067 - NURSING RESEARCH: AN INTRODUCTION TO CRITICAL APPRAISAL AND EVIDENCE-BASED PRACTICE or
- PSY 0036 - RESEARCH METHODS LECTURE and
- PSY 0037 - RESEARCH METHODS LABORATORY
Formerly: PSY 0035
- SOC 0230 - SOCIAL RESEARCH METHODS
- Elective - Topic and subject will vary. See Dental Hygiene program website for a list of recommended electives.

General Education Courses

To satisfy the general education component of the program, students take courses in the following general education categories:

Writing (6 credits)

- Two "W" courses
Writing-intensive courses (W-Courses) are designed to teach writing within a discipline through writing assignments that are distributed across the entire term. In these courses, students will produce at least 20-24 pages of written work. A significant portion of this work should be substantially revised in response to instructor feedback and class discussion. All students must complete two courses that are designated as W-Courses. Students should satisfy one of these requirements by taking a W-Course in their major if it is available. Students may not transfer credits in to satisfy this requirement. W-courses can be overlapped with other General Education courses (except for Professional Communication).

Mathematics (3 credits)

- Algebra or CS course
Students are exempt from having to take Algebra if they earned 620 on the SAT Math or 27 on the ACT Math. Students who do not meet these criteria must earn a C- or higher in MATH 0020, MATH 0025, MATH 0031, CS 0004, or CS 0007. Given the importance of establishing a sound foundation in mathematics, all students are required to satisfy the Algebra requirement by the time they have completed 30 credits in enrollment.

Diversity (3 credits)

Diversity courses focus centrally and intensively on issues of diversity, and do so in a manner that promotes understanding of diversity. They provide students with analytical skills needed to understand structural inequities and the knowledge to be able to participate more effectively in our increasingly diverse and multicultural society. The courses may address, though not be limited to, such issues as race, gender, ethnicity, sexuality, religious difference, and/or economic disparity.

All students must complete one course (3 credits) that is designated as a Diversity course but may take this course within their major field of study, if available. Diversity courses may also be courses that fulfill other General Education Requirements. (3 credits if not overlapped with another General Education course).

Students will work with their CGS advisor to identify the most appropriate course.

Humanities and Arts, Social Sciences, and Natural Sciences (15 credits)

- 6 credits in 2 courses that satisfy 2 of the 3 following general education requirements: *The Arts, Creative Work, Philosophical Thinking or Ethics*.
- 3 credits in a course that satisfies the Social Science general education requirement.
- 3 credits in a course that satisfies the Literature general education requirement.
- 3 credits in a course that satisfies the Historical Analysis general education requirement.

Global Awareness and Cultural Understanding (9 credits)

- 3 credits in a course that satisfies the Global Issues general education requirement.
- 3 credits in a course that satisfies the Specific Geographic Region general education requirement.
- 3 credits in a course that satisfies the Cross-Cultural Awareness general education requirement.

General Education Program Notes:

- 9 to 15 credits of the courses above must be at the 1000-level, depending on the student's area of concentration in the major. One of the courses must also satisfy the General Education Diversity requirement. These credits, when combined with the 15 credits for DENHYG 1544, 1545, 1547, 1549, and 1689 completed in Pitt's dental hygiene program, meet the CGS requirement for 30 credits of 1000-level course work. For a complete list of approved general education courses, see: CGS General Education Catalog (PDF).
- If you were admitted to the CGS Dental Hygiene Program prior to Fall 2018, your general education requirements are listed in the undergraduate catalog here. See also the CGS Comprehensive Course List (PDF) for courses that satisfy your General Education Requirements.

Health Services, BA

The health services major is an interdisciplinary course of study designed to prepare students to work in health care. The program analyzes the structure of the health care industry; identifies cultural, legal, and environmental factors that impact health; and provides students with communication and management skills.

Students choose one of two fields:

- Managing health services programs and projects gives students key administrative and business skills, with an emphasis on grant and research project management.

- Community health assessment provides skills to assess the physical, social, and environmental factors influencing health behaviors.

Major Requirements

A minimum total of 120 credits is required for the Bachelor of Arts degree with a major in health services. Of this total, the major consists of 3 credits of prerequisite courses and 33 credits of core and specialization courses. The remaining credits for the degree are outlined on the General Education Requirements section on this page.

Prerequisite: Computer Competency

Choose one of the following courses to fulfill the 3-credit prerequisite coursework. Check with an advisor for information about other options.

- CS 0004 - INTRODUCTION TO COMPUTER PROGRAMMING-BASIC
- CS 0007 - INTRODUCTION TO COMPUTER PROGRAMMING
- CS 0008 - INTRODUCTION TO COMPUTER PROGRAMMING WITH PYTHON
- INFSCI 0010 - INTRODUCTION TO INFORMATION, SYSTEMS AND SOCIETY
- PUBSRV 0040 - PUBLIC SERVICE TECHNOLOGIES

Health Field Core (15 credits)

- COMMRC 1181 - HEALTH COMMUNICATION
New course number effective Spring 2023. Formerly: COMMRC 1730: Special Topics: Health Communication (SEC 75XX)
- NUR 1829 - CONTEM ISSUES CROSS CULTL HEALTH
- PUBHLT 0330 - INTRODUCTION TO EPIDEMIOLOGY
formerly: HRS 1017 Introduction to Epidemiology
- PUBSRV 1305 - HEALTH, LAW AND ETHICS
- SOC 0477 - MEDICAL SOCIOLOGY

Specialization Tracks (18 credits)

Students take a total of two required courses and four elective courses. Check with an academic advisor for course availability and additional elective options.

Track 1: Managing Health Services Programs and Projects

Required, choose two:

- BUSERV 1915 - INTRODUCTION TO MANAGEMENT
- BUSORG 1020 - ORGANIZATIONAL BEHAVIOR or
- COMMRC 1102 - ORGANIZATIONAL COMMUNICATION or
- HRS 1009 - ORGANIZATIONAL THEORY & BEHAVIOR or
- PSY 1635 - ORGANIZATIONAL PSYCHOLOGY
- PUBSRV 1315 - MANAGING PROJECTS AND CONTRACTS

Note

If two organizational courses are taken, one will count as an MHSP electives.

Electives, choose four:

- AFRCNA 1710 - AFRICAN AMERICAN HEALTH ISSUES
- ANTH 1722 - CULTURE AND POLITICS OF MENTAL HEALTH
- ANTH 1726 - GLOBAL PHARMACEUTICALS
- ANTH 1761 - PATIENTS AND HEALERS: MEDICAL ANTHROPOLOGY 1
- CGS 1900 - CHOOSING YOUR PATH: INTERNSHIP SEMINAR or PUBSRV 1900 - INTERNSHIP SEMINAR
- COMMRC 1106 - SMALL GROUP COMMUNICATION
- ECON 0220 - INTRO TO HEALTH ECONOMICS
- ENGCMP 1400 - GRANT WRITING FOR NONPROFITS
- HI 1250 - FOUNDATIONS OF HEALTH INFORMATICS AND INFORMATION MANAGEMENT
- HIM 1455 - QUALITY MANAGEMENT
- HIST 0709 - HISTORY OF GLOBAL HEALTH
- HIST 1090 - HISTORY OF MEDICINE AND HEALTH CARE
- HIST 1706 - DRUGS IN GLOBAL HISTORY
- HPS 0612 - MIND AND MEDICINE
- NUTR 1007 - INTRO TO HUMAN NUTRITION - Note: replaces HRS 1006 Intro to Human Nutrition, effective Summer 2024
- NROSCI 0081 - DRUGS AND BEHAVIOR
- PHIL 1360 - BIOMEDICAL ETHICS
- PSY 1210 - INTRODUCTION TO CLINICAL PSYCHOLOGY
- PUBSRV 1110 - FINANCIAL MANAGEMENT IN THE PUBLIC SECTOR
- PUBSRV 1120 - HUMAN RESOURCES MANAGEMENT IN THE PUBLIC SECTOR
- SOC 0473 - SOCIOLOGY OF GLOBALIZATION AND HEALTH

Track 2: Community Health Assessment

Required, choose two:

- NUR 1765 - RISK FACTORS AND HEALTH
- SOC 1450 - HEALTH AND ILLNESS
- PUBSRV 1310 - DIVERSITY ISSUES IN PUBLIC SERVICE

Electives, choose four:

- AFRCNA 1710 - AFRICAN AMERICAN HEALTH ISSUES
- ANTH 1722 - CULTURE AND POLITICS OF MENTAL HEALTH
- ANTH 1726 - GLOBAL PHARMACEUTICALS
- ANTH 1727 - HEALTH AND ENVIRONMENT IN PITTSBURGH
- CGS 1900 - CHOOSING YOUR PATH: INTERNSHIP SEMINAR or PUBSRV 1900 - INTERNSHIP SEMINAR
- COMMRC 0530 - INTERPERSONAL COMMUNICATION
- ECON 0220 - INTRO TO HEALTH ECONOMICS
- HIST 0709 - HISTORY OF GLOBAL HEALTH

- HIST 1090 - HISTORY OF MEDICINE AND HEALTH CARE
- HIST 1706 - DRUGS IN GLOBAL HISTORY
- HPS 0613 - MORALITY AND MEDICINE
- NUTR 1007 - INTRO TO HUMAN NUTRITION - Note: replaces HRS 1006 Intro to Human Nutrition, effective Summer 2024
- NROSCI 0081 - DRUGS AND BEHAVIOR
- NUR 1634 - HEALTH CARE DELIVERY IN OMAN
- PSY 0515 - REHABILITATION PSYCHOLOGY
- PSY 1210 - INTRODUCTION TO CLINICAL PSYCHOLOGY
- PSY 1215 - HEALTH PSYCHOLOGY
- PSY 1230 - PSYCHOLOGY OF DEATH AND DYING
- PSY 1235 - ALCOHOL USE AND ABUSE
- PSY 1635 - ORGANIZATIONAL PSYCHOLOGY
- PUBHLT 1001 - INTRODUCTION TO GLOBAL HEALTH
- PUBHLT 1002 - SPECIAL TOPICS IN GLOBAL HEALTH
- PUBSRV 1100 - PRACTICES IN PUBLIC ADMINISTRATION
- PUBSRV 1200 - PRACTICES OF NON-PROFIT MANAGEMENT
- REHSCI 1245 - HUMAN DEVELOPMENT
- REHSCI 1275 - INTRO TO OCCUPATION SCIENCE
- REHSCI 1290 - PRACTICAL ISSUES IN DISABILITY
- SOC 0473 - SOCIOLOGY OF GLOBALIZATION AND HEALTH
- URBNST 0506 - URBAN PLANNING PROCESS
- URBNST 0512 - NEIGHBORHOOD PLANNING

Notes

Requirements subject to change. Check with an academic advisor before registering.

An internship is available through the College of General Studies. Please see your advisor for additional information.

Pitt Business-Health Services Double Degree

The College of General Studies (CGS) and the College of Business Administration (CBA) offer a double degree program in which students earn both the BA in Health Services through CGS and the BS in Business Administration (BSBA) through CBA. The double degree program is designed for students who are interested in the intersection of health care management and business administration. Learn more.

General Education Requirements

To earn a Bachelor of Arts or a Bachelor of Science degree in the College of General Studies, you must satisfactorily complete a minimum of 120 credits (approximately 40 courses). This total consists of courses that fulfill CGS General Education Requirements as well as requirements for the students' major, minor and/or certificate.

General Education Requirements (GERs) provide you with an opportunity to discover interests you never knew you had, all while earning credits toward graduation. And, no matter what your future holds, be it a career or grad school, GERs prepare you by emphasizing skills employers want (like critical thinking, problem solving, written and oral communication) and giving you the opportunity to become more aware of our increasingly diverse and interconnected world.

The College of General Studies provides a liberal arts and pre-professional education for undergraduate students that is grounded in scholarly excellence. Pitt offers you the knowledge, understanding, analytical tools, and communication skills you need to become perceptive, reflective, and intellectually self-conscious citizens within a diverse and rapidly changing world. GERs are at the core of our education.

Our **General Education Requirements changed for students entering as of Fall 2018 (2191) term**. See the CGS General Education Requirements for Fall 2018 and afterward here or visit the CGS General Education Requirements website.

Writing (9 credits)

Written communication is central to almost all disciplines and professions. Developing written proficiency is a lifelong process, and it is especially important that undergraduate education accelerates and directs that process toward the achievement of writing skills that will provide a base appropriate for professional or graduate education or for professional employment.

Introductory Composition Course (3 credits)

Students are required to take the college-level introductory composition course ENGCOMP 0200 Seminar in Composition (SC). Students are exempted from this course if they earned a 660 on the SAT Evidence-Based Reading and Writing Section and a 5 on the Advanced Placement Exam. Given the importance of establishing a sound foundation for a student's writing, all students are required to pass SC with a grade of C- or better by the time they have completed 24 credits in enrollment. (Students who do not have a 560 on the SAT or a 24 or above on the ACT might also be required to take the skill-development course ENGCOMP 0150 Workshop in Composition before enrolling in SC.)

Note for students transferring from the School of Engineering into CGS: successful completion of ENGR 0012 Intro to Engineering Computing may be used in place of ENGCOMP 0200 Seminar in Composition.

Two Writing Intensive Courses (6 credits if not overlapped with other General Education requirements)

Writing intensive courses (W-Courses) are designed to teach writing within a discipline through writing assignments that are distributed across the entire term. In these courses, students will produce at least 20 - 24 pages of written work. A significant portion of this work should be substantially revised in response to instructor feedback and class discussion. All students must complete two courses that are designated as 'W-Courses', or one W-Course and a second English composition course. Students should satisfy one of these requirements by taking a W-Course in their major if it is available. **Students may not transfer credits in to satisfy this requirement. W-courses can be overlapped with other General Education courses, except for Professional Communication.**

Math/Algebra (3 credits)

Mastering college-level algebra is required for all students. These skills are foundational for student success in other general education courses.

Students are exempt from having to take Algebra with a 620 SAT Math or 27 ACT Math. Students who do not meet these criteria must earn a C- or higher in MATH 0020, MATH 0025, MATH 0031, CS 0004, or CS 0007. Given the importance of establishing a sound foundation in mathematics, all students are required to satisfy the Algebra requirement by the time they have completed 30 credits in enrollment.

Quantitative and Formal Reasoning (3 credits)

All students are required to take and pass with a grade of C- or better at least one course in university-level mathematics (other than trigonometry) for which algebra is a prerequisite, or an approved course in statistics or mathematical or formal logic.

A C- or better is needed in a course that satisfies this requirement. Students who qualify for placement in an upper-level course in mathematics on a proficiency placement test are exempt.

Diversity (3 credits)

Diversity courses focus centrally and intensively on issues of diversity, and do so in a manner that promotes understanding of difference. They provide students with analytical skills with which to understand structural inequities and the knowledge to be able to participate more effectively in our increasingly diverse and multicultural society. The courses may address, though not be limited to, such issues as race, gender, ethnicity, sexuality, religious difference, and/or economic disparity.

All students must complete one course that is designated as a Diversity course but may take this course within their major field of study, if available. Diversity courses may also be courses that fulfill other General Education Requirements. (3 credits if not overlapped with another General Education course)

Language/Communication (6-10 credits)

All students are required to take a sequence of two courses that provide them with advanced study of a second language other than English, or the ability to develop their skills in oral and professional communication. Students choose one of the following options below:

Option 1: A Sequence of Two Courses in a Second Language (6-10 credits)

Students complete with a grade of C- or better two terms of university-level study in a second language other than English. Exemptions will be granted to students who can demonstrate elementary proficiency in a second language through one of the following:

1. Having completed three years of high school study of a second language with a grade of B or better in each course;
2. Passing a special proficiency examination;
3. Transferring credits for two terms or more of approved university-level instruction in a second language with grades of C or better;
4. Having a native language other than English.

Option 2: A Sequence of Two Courses in Oral and Professional Communication (6 credits)

These classes advance the skills of the student to perform effectively in workplace environments or the public by communicating ideas and concepts and/or introduce students to theories that analyze and explain effective communication in these settings. Students must complete one of the following with a grade of C- or better: COMMRC 0520 or COMMRC 0500. Students select a second class from a list of approved courses.

Humanities and Arts, Social Sciences, and Natural Sciences (27 credits)

Each student is required to take nine courses in the humanities, social sciences, and natural sciences as distributed below. Such courses allow students to pursue their own interests while they explore diverse views of a broad range of human cultures, modes of thought, and bodies of knowledge. The courses that fulfill these requirements are truly courses in the disciplines that draw on the unique resources of a research university.

One course in Literature (3 credits)

By studying a range of literary and other texts in this course, students will be introduced to the techniques and methods of textual analysis and will develop critical perspectives on a variety of forms of cultural expression.

One course in the Arts (3 credits)

This course introduces students to modes of analysis appropriate to music, theater, or the visual and plastic arts. It may take the form of a survey, the study of a genre or period, or may focus on a particular artist.

One course in Creative Work (3 credits)

In this course, students are expected to produce some form of creative work, and they will also be trained in the techniques and modes of its production. The course could be situated in theater, studio arts, writing, visual arts (including photography, film), music, and dance; or it may be a course that engages in innovative or original work in relation to written, oral, or visual material, new media, social media, and other contemporary forms of communication and representation.

One course in Philosophical Thinking or Ethics (3 credits)

This course will emphasize close and critical reading of theories about knowledge, reality, humanity, and values. Courses could focus on human nature; scientific reasoning; theories of cognition and consciousness; human/social rights; competing systems of belief; morality; concepts of freedom; theories of justice; social obligations/constraints; or ethics, including applied or professional ethics.

One course in Social Sciences (3 credits)

A course that treats topics considered of significant importance in the social or behavioral sciences (including social psychology). Courses will introduce students to the subject matter and methodology of a particular discipline and will involve them in the modes of investigation, analysis, and judgment characteristically applied by practitioners.

One course in Historical Analysis (3 credits)

In this course, students will develop skills and methods by which to understand significant cultural, social, economic, or political accounts of the past. The course may focus on pivotal moments of change, or important transitions over longer periods of time. Courses could explore developments in science, technology, literature, or art, and the ideas around them, or examine critical historical shifts by analyzing various data or cultural forms.

Three courses in the Natural Sciences (9 credits)

These will be courses that introduce students to scientific principles and concepts rather than offering a simple codification of facts in a discipline or a history of a discipline. The courses may be interdisciplinary, and no more than two courses may have the same primary departmental sponsor.

Global Awareness and Cultural Understanding (9 credits)

Each student must complete three courses as distributed below:

One course in Global Issues (3 credits)

This course will examine significant issues that are global in scale. Courses could address, for example: globalization; the global and cultural impact of climate change/sustainability; the effects of and resistances to colonialism; or worldwide issues related to health, gender, ethnicity, race, technology, labor, law or the economy.

One course in a Specific Geographic Region (3 credits)

This course will be an in depth study and analysis of a particular region or locality outside the United States.

One course in Cross-Cultural Awareness (3 credits)

This course, through cross-cultural perspective, will promote knowledge of and reflection upon the cultures of Asia, the Middle East, Africa, Latin America, the Caribbean, or the indigenous peoples of the world past and present. Students will develop an understanding of cultures, traditions, and societies that differ substantially from those that prevail in North America and Europe.

Overlapping of General Education Courses

- Courses taken for general education requirements can also be applied to major requirements, when applicable.
- Diversity courses are allowed to overlap with other general education requirements.
- Writing ('W') courses are allowed to overlap with other general education requirements except for the Professional Communication requirement.
- Students may overlap the second course in their language sequence, taken at the college level, with the Geographic Region requirement, except for American Sign Language. This does not apply to students who satisfy the Language requirement through high school study, a proficiency examination, or native proficiency.

Specialized Study (the Major) (30-36 credits)

The baccalaureate degree, in addition to providing certain skills and broad exposure to the major bodies of knowledge, also allows the opportunity to specialize in a particular field, providing depth of experience essential for vocational competence or further graduate study. An outline of each major is available on the CGS Web site, www.cgs.pitt.edu.

Students admitted to CGS can choose from the following majors. Many majors offer a combination of face-to-face and online courses.

- Administration of justice (this major is no longer accepting new students, effective Fall 2021)
- Dental hygiene (for licensed dental hygienists)
- Health services (BA and BS)
- Humanities (this major is no longer accepting new students, effective Fall 2020)
- Law, Criminal Justice, and Society
- Legal studies (this major is no longer accepting new students, effective Fall 2021)
- Liberal Studies
- Media and professional communications
- Natural sciences
- Public service
- Social sciences (this major is no longer accepting new students, effective Fall 2020)

Students who want a major in an arts and sciences field can begin in CGS and transfer to the Dietrich School of Arts and Sciences after completing 12 credits including the mathematics and seminar in composition requirements. Admission is determined by the Dietrich School.

Electives

Any credits not used specifically to satisfy the previous requirements are considered electives. Electives can be taken in a wide variety of subjects to complement, reinforce, or add further breadth to the chosen program of study or to help meet the requirements of a minor or certificate program.

Health Services, BS

The Bachelor of Science in Health Services is an interdisciplinary degree completion program designed for allied health professionals who have already received their technical education and licensure in diagnostic medical sonography, radiological technology or respiratory therapy and for community college graduates who have already completed a designated allied health profession associate degree. The core of this flexible program provides students with communication and management skills as well as broadening students' understanding of health-related issues.

Requirements

Students must earn a minimum of 120 credits to complete the Bachelor of Science degree with a major in health services. Of this total, the degree consists of 12 credits of required health services courses and up to 24 credits of professional courses, with the remainder consisting of general education courses and electives.

Note: Licensed diagnostic medical sonographers, radiological technologists, and respiratory therapists, or those who've earned an associate's degree in an approved allied health profession, will be awarded 24 professional education credits. Credits earned at other colleges or universities will be evaluated for transfer. Please check with an academic advisor for specifics related to your associate's degree program.

Health Service Courses: 12 credits

A minimum of 12 credits, or four courses, are required as follows:

A. Health Field: 6 credits

Students choose two courses from the following list:

- NUR 1765 - RISK FACTORS AND HEALTH
- PHIL 1360 - BIOMEDICAL ETHICS
- PSY 1215 - HEALTH PSYCHOLOGY
- SOC 0477 - MEDICAL SOCIOLOGY
- SOC 1450 - HEALTH AND ILLNESS

B. Administration/Management Field: 3 Credits

Students choose one course from the following list:

- BUSERV 1915 - INTRODUCTION TO MANAGEMENT
- HRS 1009 - ORGANIZATIONAL THEORY & BEHAVIOR or BUSORG 1020 - ORGANIZATIONAL BEHAVIOR or COMMRC 1102 - ORGANIZATIONAL COMMUNICATION or PSY 1635 ORGANIZATIONAL PSYCHOLOGY
- PUBSRV 1100 - PRACTICES IN PUBLIC ADMINISTRATION
- PUBSRV 1120 - HUMAN RESOURCES MANAGEMENT IN THE PUBLIC SECTOR
- PUBSRV 1200 - PRACTICES OF NON-PROFIT MANAGEMENT
- PUBSRV 1315 - MANAGING PROJECTS AND CONTRACTS

C. Related Field: 3 credits

Students choose one additional course from the Health Field or Administration/Management Field lists above or else from the list below:

- ANTH 1726 - GLOBAL PHARMACEUTICALS
- CGS 1900 - CHOOSING YOUR PATH: INTERNSHIP SEMINAR or PUBSRV 1900 - INTERNSHIP SEMINAR
- COMMRC 0530 - INTERPERSONAL COMMUNICATION
- COMMRC 1181 - HEALTH COMMUNICATION
New course number effective Spring 2023. Formerly: COMMRC 1730: Special Topics: Health Communication (SEC 75XX)
- HIST 1706 - DRUGS IN GLOBAL HISTORY
- NUTR 1007 - INTRO TO HUMAN NUTRITION - Note: replaces HRS 1006 Intro to Human Nutrition, effective Summer 2024
- PSY 0515 - REHABILITATION PSYCHOLOGY
Note: Cross-listed with HRS 1515 - REHABILITATION PSYCHOLOGY
- PSY 1255 - PRINCIPLES OF BEHAVIOR MODIFICATION
- PSYED 1001 - INTRO EDUCATIONAL PSYCHOLOGY

Notes

Requirements are subject to change. Many courses are available in an online format. Check with an academic advisor for course availability and additional elective options before registering.

General Education Requirements

To earn a Bachelor of Arts or a Bachelor of Science degree in the College of General Studies, you must satisfactorily complete a minimum of 120 credits (approximately 40 courses). This total consists of courses that fulfill CGS General Education Requirements as well as requirements for the students' major, minor and/or certificate.

General Education Requirements (GERs) provide you with an opportunity to discover interests you never knew you had, all while earning credits toward graduation. And, no matter what your future holds, be it a career or grad school, GERs prepare you by emphasizing skills employers want (like critical thinking, problem solving, written and oral communication) and giving you the opportunity to become more aware of our increasingly diverse and interconnected world.

The College of General Studies provides a liberal arts and pre-professional education for undergraduate students that is grounded in scholarly excellence. Pitt offers you the knowledge, understanding, analytical tools, and communication skills you need to become perceptive, reflective, and intellectually self-conscious citizens within a diverse and rapidly changing world. GERs are at the core of our education.

Our **General Education Requirements changed for students entering as of Fall 2018 (2191) term**. See the CGS General Education Requirements for Fall 2018 and afterward here or visit the CGS General Education Requirements website.

Writing (9 credits)

Written communication is central to almost all disciplines and professions. Developing written proficiency is a lifelong process, and it is especially important that undergraduate education accelerates and directs that process toward the achievement of writing skills that will provide a base appropriate for professional or graduate education or for professional employment.

Introductory Composition Course (3 credits)

Students are required to take the college-level introductory composition course ENGCMP 0200 Seminar in Composition (SC). Students are exempted from this course if they earned a 660 on the SAT Evidence-Based Reading and Writing Section and a 5 on the Advanced Placement Exam. Given the importance of establishing a sound foundation for a student's writing, all students are required to pass SC with a grade of C- or better by the time they have completed 24 credits in enrollment. (Students who do not have a 560 on the SAT or a 24 or above on the ACT might also be required to take the skill-development course ENGCMP 0150 Workshop in Composition before enrolling in SC.)

Note for students transferring from the School of Engineering into CGS: successful completion of ENGR 0012 Intro to Engineering Computing may be used in place of ENGCMP 0200 Seminar in Composition.

Two Writing Intensive Courses (6 credits if not overlapped with other General Education requirements)

Writing intensive courses (W-Courses) are designed to teach writing within a discipline through writing assignments that are distributed across the entire term. In these courses, students will produce at least 20 - 24 pages of written work. A significant portion of this work should be substantially revised in response to instructor feedback and class discussion. All students must complete two courses that are designated as 'W-Courses', or one W-Course and a second English composition course. Students should satisfy one of these requirements by taking a W-Course in their major if it is available. **Students may not transfer credits in to satisfy this requirement. W-courses can be overlapped with other General Education courses, except for Professional Communication.**

Math/Algebra (3 credits)

Mastering college-level algebra is required for all students. These skills are foundational for student success in other general education courses.

Students are exempt from having to take Algebra with a 620 SAT Math or 27 ACT Math. Students who do not meet these criteria must earn a C- or higher in MATH 0020, MATH 0025, MATH 0031, CS 0004, or CS 0007. Given the importance of establishing a sound foundation in mathematics, all students are required to satisfy the Algebra requirement by the time they have completed 30 credits in enrollment.

Quantitative and Formal Reasoning (3 credits)

All students are required to take and pass with a grade of C- or better at least one course in university-level mathematics (other than trigonometry) for which algebra is a prerequisite, or an approved course in statistics or mathematical or formal logic.

A C- or better is needed in a course that satisfies this requirement. Students who qualify for placement in an upper-level course in mathematics on a proficiency placement test are exempt.

Diversity (3 credits)

Diversity courses focus centrally and intensively on issues of diversity, and do so in a manner that promotes understanding of difference. They provide students with analytical skills with which to understand structural inequities and the knowledge to be able to participate more effectively in our increasingly diverse and multicultural society. The courses may address, though not be limited to, such issues as race, gender, ethnicity, sexuality, religious difference, and/or economic disparity.

All students must complete one course that is designated as a Diversity course but may take this course within their major field of study, if available. Diversity courses may also be courses that fulfill other General Education Requirements. (3 credits if not overlapped with another General Education course)

Language/Communication (6-10 credits)

All students are required to take a sequence of two courses that provide them with advanced study of a second language other than English, or the ability to develop their skills in oral and professional communication. Students choose one of the following options below:

Option 1: A Sequence of Two Courses in a Second Language (6-10 credits)

Students complete with a grade of C- or better two terms of university-level study in a second language other than English. Exemptions will be granted to students who can demonstrate elementary proficiency in a second language through one of the following:

1. Having completed three years of high school study of a second language with a grade of B or better in each course;
2. Passing a special proficiency examination;
3. Transferring credits for two terms or more of approved university-level instruction in a second language with grades of C or better;
4. Having a native language other than English.

Option 2: A Sequence of Two Courses in Oral and Professional Communication (6 credits)

These classes advance the skills of the student to perform effectively in workplace environments or the public by communicating ideas and concepts and/or introduce students to theories that analyze and explain effective communication in these settings. Students must complete one of the following with a grade of C- or better: COMMRC 0520 or COMMRC 0500. Students select a second class from a list of approved courses.

Humanities and Arts, Social Sciences, and Natural Sciences (27 credits)

Each student is required to take nine courses in the humanities, social sciences, and natural sciences as distributed below. Such courses allow students to pursue their own interests while they explore diverse views of a broad range of human cultures, modes of thought, and bodies of knowledge. The courses that fulfill these requirements are truly courses in the disciplines that draw on the unique resources of a research university.

One course in Literature (3 credits)

By studying a range of literary and other texts in this course, students will be introduced to the techniques and methods of textual analysis and will develop critical perspectives on a variety of forms of cultural expression.

One course in the Arts (3 credits)

This course introduces students to modes of analysis appropriate to music, theater, or the visual and plastic arts. It may take the form of a survey, the study of a genre or period, or may focus on a particular artist.

One course in Creative Work (3 credits)

In this course, students are expected to produce some form of creative work, and they will also be trained in the techniques and modes of its production. The course could be situated in theater, studio arts, writing, visual arts (including photography, film), music, and dance; or it may be a course that engages in innovative or original work in relation to written, oral, or visual material, new media, social media, and other contemporary forms of communication and representation.

One course in Philosophical Thinking or Ethics (3 credits)

This course will emphasize close and critical reading of theories about knowledge, reality, humanity, and values. Courses could focus on human nature; scientific reasoning; theories of cognition and consciousness; human/social rights; competing systems of belief; morality; concepts of freedom; theories of justice; social obligations/constraints; or ethics, including applied or professional ethics.

One course in Social Sciences (3 credits)

A course that treats topics considered of significant importance in the social or behavioral sciences (including social psychology). Courses will introduce students to the subject matter and methodology of a particular discipline and will involve them in the modes of investigation, analysis, and judgment characteristically applied by practitioners.

One course in Historical Analysis (3 credits)

In this course, students will develop skills and methods by which to understand significant cultural, social, economic, or political accounts of the past. The course may focus on pivotal moments of change, or important transitions over longer periods of time. Courses could explore developments in science, technology, literature, or art, and the ideas around them, or examine critical historical shifts by analyzing various data or cultural forms.

Three courses in the Natural Sciences (9 credits)

These will be courses that introduce students to scientific principles and concepts rather than offering a simple codification of facts in a discipline or a history of a discipline. The courses may be interdisciplinary, and no more than two courses may have the same primary departmental sponsor.

Global Awareness and Cultural Understanding (9 credits)

Each student must complete three courses as distributed below:

One course in Global Issues (3 credits)

This course will examine significant issues that are global in scale. Courses could address, for example: globalization; the global and cultural impact of climate change/sustainability; the effects of and resistances to colonialism; or worldwide issues related to health, gender, ethnicity, race, technology, labor, law or the economy.

One course in a Specific Geographic Region (3 credits)

This course will be an in depth study and analysis of a particular region or locality outside the United States.

One course in Cross-Cultural Awareness (3 credits)

This course, through cross-cultural perspective, will promote knowledge of and reflection upon the cultures of Asia, the Middle East, Africa, Latin America, the Caribbean, or the indigenous peoples of the world past and present. Students will develop an understanding of cultures, traditions, and societies that differ substantially from those that prevail in North America and Europe.

Overlapping of General Education Courses

- Courses taken for general education requirements can also be applied to major requirements, when applicable.
- Diversity courses are allowed to overlap with other general education requirements.
- Writing ('W') courses are allowed to overlap with other general education requirements except for the Professional Communication requirement.
- Students may overlap the second course in their language sequence, taken at the college level, with the Geographic Region requirement, except for American Sign Language. This does not apply to students who satisfy the Language requirement through high school study, a proficiency examination, or native proficiency.

Specialized Study (the Major) (30-36 credits)

The baccalaureate degree, in addition to providing certain skills and broad exposure to the major bodies of knowledge, also allows the opportunity to specialize in a particular field, providing depth of experience essential for vocational competence or further graduate study. An outline of each major is available on the CGS Web site, www.cgs.pitt.edu.

Students admitted to CGS can choose from the following majors. Many majors offer a combination of face-to-face and online courses.

- Administration of justice (this major is no longer accepting new students, effective Fall 2021)
 - Dental hygiene (for licensed dental hygienists)
 - Health services (BA and BS)
 - Humanities (this major is no longer accepting new students, effective Fall 2020)
 - Law, Criminal Justice, and Society
 - Legal studies (this major is no longer accepting new students, effective Fall 2021)
 - Liberal Studies
 - Media and professional communications
 - Natural sciences
 - Public service
 - Social sciences (this major is no longer accepting new students, effective Fall 2020)
- Students who want a major in an arts and sciences field can begin in CGS and transfer to the Dietrich School of Arts and Sciences after completing 12 credits including the mathematics and seminar in composition requirements. Admission is determined by the Dietrich School.

Electives

Any credits not used specifically to satisfy the previous requirements are considered electives. Electives can be taken in a wide variety of subjects to complement, reinforce, or add further breadth to the chosen program of study or to help meet the requirements of a minor or certificate program.

Humanities, BA

The CGS Humanities BA was phased out beginning Fall 2020 and is no longer accepting new students. Inactive students will be able to re-enroll in this major no later than Spring 2023. All students enrolled in the program must complete their degrees by Fall 2028.

Humanities is a liberal arts major with a focus on courses from three humanities departments. This major can be customized to meet your interests and personal or career goals. You will choose to concentrate in three areas from the list below and have the opportunity to take a variety of courses within those areas of study.

Humanities degree graduates have a variety of skills that make them attractive to prospective employers. Career fields pursued by humanities graduates include the following:

- Acting and drama
- College administration
- Event planning
- Human resources
- Politics
- Teaching

- Publishing
- Journalism
- Marketing and advertising
- Public relations
- Insurance
- Real estate
- Social work
- Occupational therapy
- Travel and tourism

Requirements

Students must earn a minimum of 120 credits for the Bachelor of Arts degree with a major in humanities. Of this total, students must take a minimum of 36 credits (approximately 12 courses) according to the specifications below. The remaining credits required for the degree are outlined in the *General Education Requirements* section on this page.

Standard Option

Choose a minimum of 36 credits (approximately 12 courses) from any three departments/programs below. All courses taken must be humanities related.

- Africana Studies (courses must be humanities related)
- Classics
- Communication
- English Composition (0300 and above)
- Film Studies
- English Literature
- English Writing
- Foreign language departments (literature and culture courses)
- History of Art and Architecture
- Music
- Philosophy
- Religious Studies (courses must be humanities related)
- Studio Arts
- Theatre Arts

Notes

- At least five courses must be taken from one department, and at least three courses must be taken from each of the two other departments.
- At least half of the courses taken for the major must be upper-division (1000-level) courses.
- All courses selected for the humanities major must be approved by an academic advisor. Requirements are subject to change. Check with an academic advisor before registering.

An internship program is available through the College of General Studies. Please see an advisor for additional information.

Pre-Education Option

The College of General Studies and the Pitt School of Education have collaborated on a curriculum within the humanities major that incorporates all of the prerequisite course work needed for admission into the certificate program in comprehensive English education. This option may be used by students interested in the Master of Arts in Teaching (MAT) or Professional Year (PY) programs offered in the School of Education. Completion of the prerequisites for the School of Education does not guarantee acceptance to its programs.

Students pursuing this track take a wide variety of English courses in literature, writing/composition, and literary/film/media theory, in addition to a required foundations course in special education, for a total of 36 credits (approximately 12 courses). At least half of these courses must be at the 1000 level.

Students are also encouraged to participate in an internship during their degree program and may fulfill some CGS general education and major requirements by completing a study abroad program. See a CGS advisor for more information.

General Education Requirements

To earn a Bachelor of Arts or a Bachelor of Science degree in the College of General Studies, you must satisfactorily complete a minimum of 120 credits (approximately 40 courses). This total consists of courses that fulfill CGS General Education Requirements as well as requirements for the students' major, minor and/or certificate.

General Education Requirements (GERs) provide you with an opportunity to discover interests you never knew you had, all while earning credits toward graduation. And, no matter what your future holds, be it a career or grad school, GERs prepare you by emphasizing skills employers want (like critical thinking, problem solving, written and oral communication) and giving you the opportunity to become more aware of our increasingly diverse and interconnected world.

The College of General Studies provides a liberal arts and pre-professional education for undergraduate students that is grounded in scholarly excellence. Pitt offers you the knowledge, understanding, analytical tools, and communication skills you need to become perceptive, reflective, and intellectually self-conscious citizens within a diverse and rapidly changing world. GERs are at the core of our education.

Our **General Education Requirements changed for students entering as of Fall 2018 (2191) term.** See the CGS General Education Requirements for Fall 2018 and afterward here or visit the CGS General Education Requirements website.

Writing (9 credits)

Written communication is central to almost all disciplines and professions. Developing written proficiency is a lifelong process, and it is especially important that undergraduate education accelerates and directs that process toward the achievement of writing skills that will provide a base appropriate for professional or graduate education or for professional employment.

Introductory Composition Course (3 credits)

Students are required to take the college-level introductory composition course ENGCOMP 0200 Seminar in Composition (SC). Students are exempted from this course if they earned a 660 on the SAT Evidence-Based Reading and Writing Section and a 5 on the Advanced Placement Exam. Given the importance of establishing a sound foundation for a student's writing, all students are required to pass SC with a grade of C- or better by the time they have completed 24 credits in enrollment. (Students who do not have a 560 on the SAT or a 24 or above on the ACT might also be required to take the skill-development course ENGCOMP 0150 Workshop in Composition before enrolling in SC.)

Note for students transferring from the School of Engineering into CGS: successful completion of ENGR 0012 Intro to Engineering Computing may be used in place of ENGCMP 0200 Seminar in Composition.

Two Writing Intensive Courses (6 credits if not overlapped with other General Education requirements)

Writing intensive courses (W-Courses) are designed to teach writing within a discipline through writing assignments that are distributed across the entire term. In these courses, students will produce at least 20 - 24 pages of written work. A significant portion of this work should be substantially revised in response to instructor feedback and class discussion. All students must complete two courses that are designated as 'W-Courses', or one W-Course and a second English composition course. Students should satisfy one of these requirements by taking a W-Course in their major if it is available. **Students may not transfer credits in to satisfy this requirement. W-courses can be overlapped with other General Education courses, except for Professional Communication.**

Math/Algebra (3 credits)

Mastering college-level algebra is required for all students. These skills are foundational for student success in other general education courses.

Students are exempt from having to take Algebra with a 620 SAT Math or 27 ACT Math. Students who do not meet these criteria must earn a C- or higher in MATH 0020, MATH 0025, MATH 0031, CS 0004, or CS 0007. Given the importance of establishing a sound foundation in mathematics, all students are required to satisfy the Algebra requirement by the time they have completed 30 credits in enrollment.

Quantitative and Formal Reasoning (3 credits)

All students are required to take and pass with a grade of C- or better at least one course in university-level mathematics (other than trigonometry) for which algebra is a prerequisite, or an approved course in statistics or mathematical or formal logic.

A C- or better is needed in a course that satisfies this requirement. Students who qualify for placement in an upper-level course in mathematics on a proficiency placement test are exempt.

Diversity (3 credits)

Diversity courses focus centrally and intensively on issues of diversity, and do so in a manner that promotes understanding of difference. They provide students with analytical skills with which to understand structural inequities and the knowledge to be able to participate more effectively in our increasingly diverse and multicultural society. The courses may address, though not be limited to, such issues as race, gender, ethnicity, sexuality, religious difference, and/or economic disparity.

All students must complete one course that is designated as a Diversity course but may take this course within their major field of study, if available. Diversity courses may also be courses that fulfill other General Education Requirements. (3 credits if not overlapped with another General Education course)

Language/Communication (6-10 credits)

All students are required to take a sequence of two courses that provide them with advanced study of a second language other than English, or the ability to develop their skills in oral and professional communication. Students choose one of the following options below:

Option 1: A Sequence of Two Courses in a Second Language (6-10 credits)

Students complete with a grade of C- or better two terms of university-level study in a second language other than English. Exemptions will be granted to students who can demonstrate elementary proficiency in a second language through one of the following:

1. Having completed three years of high school study of a second language with a grade of B or better in each course;
2. Passing a special proficiency examination;
3. Transferring credits for two terms or more of approved university-level instruction in a second language with grades of C or better;
4. Having a native language other than English.

Option 2: A Sequence of Two Courses in Oral and Professional Communication (6 credits)

These classes advance the skills of the student to perform effectively in workplace environments or the public by communicating ideas and concepts and/or introduce students to theories that analyze and explain effective communication in these settings. Students must complete one of the following with a grade of C- or better: COMMRC 0520 or COMMRC 0500. Students select a second class from a list of approved courses.

Humanities and Arts, Social Sciences, and Natural Sciences (27 credits)

Each student is required to take nine courses in the humanities, social sciences, and natural sciences as distributed below. Such courses allow students to pursue their own interests while they explore diverse views of a broad range of human cultures, modes of thought, and bodies of knowledge. The courses that fulfill these requirements are truly courses in the disciplines that draw on the unique resources of a research university.

One course in Literature (3 credits)

By studying a range of literary and other texts in this course, students will be introduced to the techniques and methods of textual analysis and will develop critical perspectives on a variety of forms of cultural expression.

One course in the Arts (3 credits)

This course introduces students to modes of analysis appropriate to music, theater, or the visual and plastic arts. It may take the form of a survey, the study of a genre or period, or may focus on a particular artist.

One course in Creative Work (3 credits)

In this course, students are expected to produce some form of creative work, and they will also be trained in the techniques and modes of its production. The course could be situated in theater, studio arts, writing, visual arts (including photography, film), music, and dance; or it may be a course that engages in innovative or original work in relation to written, oral, or visual material, new media, social media, and other contemporary forms of communication and representation.

One course in Philosophical Thinking or Ethics (3 credits)

This course will emphasize close and critical reading of theories about knowledge, reality, humanity, and values. Courses could focus on human nature; scientific reasoning; theories of cognition and consciousness; human/social rights; competing systems of belief; morality; concepts of freedom; theories of justice; social obligations/constraints; or ethics, including applied or professional ethics.

One course in Social Sciences (3 credits)

A course that treats topics considered of significant importance in the social or behavioral sciences (including social psychology). Courses will introduce students to the subject matter and methodology of a particular discipline and will involve them in the modes of investigation, analysis, and judgment characteristically applied by practitioners.

One course in Historical Analysis (3 credits)

In this course, students will develop skills and methods by which to understand significant cultural, social, economic, or political accounts of the past. The course may focus on pivotal moments of change, or important transitions over longer periods of time. Courses could explore developments in science, technology, literature, or art, and the ideas around them, or examine critical historical shifts by analyzing various data or cultural forms.

Three courses in the Natural Sciences (9 credits)

These will be courses that introduce students to scientific principles and concepts rather than offering a simple codification of facts in a discipline or a history of a discipline. The courses may be interdisciplinary, and no more than two courses may have the same primary departmental sponsor.

Global Awareness and Cultural Understanding (9 credits)

Each student must complete three courses as distributed below:

One course in Global Issues (3 credits)

This course will examine significant issues that are global in scale. Courses could address, for example: globalization; the global and cultural impact of climate change/sustainability; the effects of and resistances to colonialism; or worldwide issues related to health, gender, ethnicity, race, technology, labor, law or the economy.

One course in a Specific Geographic Region (3 credits)

This course will be an in depth study and analysis of a particular region or locality outside the United States.

One course in Cross-Cultural Awareness (3 credits)

This course, through cross-cultural perspective, will promote knowledge of and reflection upon the cultures of Asia, the Middle East, Africa, Latin America, the Caribbean, or the indigenous peoples of the world past and present. Students will develop an understanding of cultures, traditions, and societies that differ substantially from those that prevail in North America and Europe.

Overlapping of General Education Courses

- Courses taken for general education requirements can also be applied to major requirements, when applicable.
- Diversity courses are allowed to overlap with other general education requirements.
- Writing ("W") courses are allowed to overlap with other general education requirements except for the Professional Communication requirement.
- Students may overlap the second course in their language sequence, taken at the college level, with the Geographic Region requirement, except for American Sign Language. This does not apply to students who satisfy the Language requirement through high school study, a proficiency examination, or native proficiency.

Specialized Study (the Major) (30-36 credits)

The baccalaureate degree, in addition to providing certain skills and broad exposure to the major bodies of knowledge, also allows the opportunity to specialize in a particular field, providing depth of experience essential for vocational competence or further graduate study. An outline of each major is available on the CGS Web site, www.egs.pitt.edu.

Students admitted to CGS can choose from the following majors. Many majors offer a combination of face-to-face and online courses.

- Administration of justice (this major is no longer accepting new students, effective Fall 2021)
 - Dental hygiene (for licensed dental hygienists)
 - Health services (BA and BS)
 - Humanities (this major is no longer accepting new students, effective Fall 2020)
 - Law, Criminal Justice, and Society
 - Legal studies (this major is no longer accepting new students, effective Fall 2021)
 - Liberal Studies
 - Media and professional communications
 - Natural sciences
 - Public service
 - Social sciences (this major is no longer accepting new students, effective Fall 2020)
- Students who want a major in an arts and sciences field can begin in CGS and transfer to the Dietrich School of Arts and Sciences after completing 12 credits including the mathematics and seminar in composition requirements. Admission is determined by the Dietrich School.

Electives

Any credits not used specifically to satisfy the previous requirements are considered electives. Electives can be taken in a wide variety of subjects to complement, reinforce, or add further breadth to the chosen program of study or to help meet the requirements of a minor or certificate program.

Law, Criminal Justice, and Society, BA

Law, Criminal Justice, and Society

Are you considering law school or graduate study in the social sciences after Pitt? Are you interested in pursuing a career in one of the many criminal justice professions or advocacy organizations? The Law, Criminal Justice, and Society (LCJS) major examines the workings of the criminal justice system in the broader context of society and the legal system. A core curriculum fosters comprehension and critical analysis of the legal system, criminological theory, criminal justice institutions, criminal law, and social inequality. Students also will complete six credits of professional skills and a capstone course on ethics in criminal justice. The LCJS major equips students with the knowledge and skills they need to pursue advanced degrees in law and social science, and to succeed as professionals and advocates in the justice-oriented professions and organizations that serve American society's diverse and dynamic communities. This major is offered jointly between the Dietrich School and the College of General Studies.

Students completing this major will:

- examine the major institutions of the criminal justice system, and situate the workings of these institutions in a broader legal, social, and historical context;
 - develop knowledge and legal reasoning skills in criminal law;
 - examine the law's conflicting role in securing social order and security, on the one hand, and in creating and reinforcing social inequality on the other; and,
 - develop basic professional knowledge and demonstrate ethical reasoning in preparation for being positive and successful contributors to law and justice-oriented career fields as professionals and/or public policy advocates.
- This major requires 36 credits for completion, which are distributed as follows.
- Foundations - 6credits
 - Core areas - 15 credits
 - Electives - 6credits

- Professional skills - 6credits
 - Capstone - 3credits
- Except as noted, all courses are 3-credit courses.

Foundations

Two of the following three courses are required:

- LCJS 0100 - INTRODUCTION TO LAW, CRIMINAL JUSTICE, & SOCIETY Formerly ADMJ 0100
- LCJS 0200 - RACE, CLASS, GENDER, & THE LAW Formerly LEGLST 0200
- LCJS 1580 - THE LEGAL SYSTEM

Core

Select courses according to the guidelines stated. Course selections must comprise a total of at least 15 credits.

Theories of Crime

Choose one of the following courses.

- LCJS 1100 - CRIMINOLOGY Formerly ADMJ 0600
- LCJS 1110 - CRIMINOLOGICAL THEORY Formerly ADMJ 1265
- LCJS 1120 - Crime Prevention

Criminal Law

Select one of the following courses.

- LCJS 1200 - CRIMINAL LAW Formerly ADMJ 1400 (cross-listed with LEGLST 1140)
- LCJS 1210 - CRIMINAL PROCEDURE Formerly ADMJ 1410 (cross-listed with LEGLST 1141)

Power, Inequality, and Social Change

Select two of the following courses.

- LCJS 1300 - LAW AND POLITICS Formerly LEGLST 1210 (cross-listed with PS 1213)
- LCJS 1310 - LAW AND DEVIANCE Formerly ADMJ 1220
- *Or* SOC 0471 - DEVIANCE AND SOCIAL CONTROL
- LCJS 1320 - CIVIL RIGHTS LAW Formerly LEGLST 1340
- *Or* PS 1201 - CONSTITUTION AND CIVIL LIBERTIES
- LCJS 1330 - EMERGING ISSUES IN LEGAL AND SOCIAL POLICY Formerly LEGLST 1355
- LCJS 1340 - LAW AND SOCIAL CHANGE Formerly LEGLST 1155
- LCJS 1550 - GENDER, RACE, CLASS AND CRIMINAL JUSTICE Formerly ADMJ 1242
- LCJS 1590 - SPECIAL TOPICS IN LAW AND CRIMINAL JUSTICE Formerly ADMJ 1450
- AFRCNA 1522 - SEX AND RACISM
- AFRCNA 1535 - DIMENSIONS OF RACISM
- AFRCNA 1537 - RACE AND THE CRIMINAL JUSTICE SYSTEM
- HIST 0671 - AFRICAN AMERICAN HISTORY SINCE 1865

- HIST 1632 - THE HISTORY OF THE CIVIL RIGHTS MOVEMENT
- SOC 0432 - WEALTH AND POWER
- SOC 0434 - POLITICAL SOCIOLOGY
- URBNST 0112 - SOCIAL JUSTICE AND THE CITY

Criminal Justice Institutions

Select one of the following courses.

- LCJS 1400 - THE SYSTEM OF CRIMINAL JUSTICE Formerly ADMJ 0500
- LCJS 1410 - LAW ENFORCEMENT AND POLICING Formerly ADMJ 1200
- LCJS 1420 - CORRECTIONS Formerly ADMJ 1300
- LCJS 1430 - THE JUVENILE JUSTICE PROCESS Formerly ADMJ 1225
- LCJS 1440 - CRIMINAL INVESTIGATION Formerly ADMJ 1100
- URBNST 0140 - CRIME, PUNISHMENT, JUSTICE, REINTEGRATION

Elective courses

Select two courses from list A or one course from each list A and list B. Please keep in mind that course selections must comprise a total of at least 6 credits.

List A

- LCJS 1500 - CRIMINALISTICS Formerly ADMJ 1115
- LCJS 1501 - CRIMINALISTICS LAB Formerly ADMJ 1118
- LCJS 1505 - CRIMINALISTICS 2
- LCJS 1510 - PSYCHOLOGY AND LAW Formerly LEGLST 1230
- LCJS 1520 - CYBERCRIME Formerly ADMJ 1234
- LCJS 1521 - CYBER SECURITY, LAW, AND MONEY LAUNDERING Formerly ADMJ 1238
- LCJS 1530 - ORGANIZED CRIME Formerly ADMJ 1235
- LCJS 1531 - INTERNATIONAL ORGANIZED CRIME Formerly ADMJ 1236
- LCJS 1540 - WHITE COLLAR CRIME Formerly ADMJ 1230
- LCJS 1560 - PROBATION AND PAROLE Formerly ADMJ 1350
- LCJS 1570 - PRINCIPLES OF HOMELAND SECURITY Formerly ADMJ 1425 (cross-listed with PUBSRV 1425)
- LCJS 1571 - TERRORISM Formerly ADMJ 1245
- LCJS 1572 - INTRODUCTION POLICE MANAGEMENT Formerly ADMJ 1205
- LCJS 1581 - INTERNATIONAL LAW Formerly LEGLST 1327
- LCJS 1582 - PUBLIC LAW AND MORAL REASONING Formerly LEGLST 0020
- LCJS 1583 - SEX, LAW AND MARRIAGE Formerly LEGLST 1315
- LCJS 1584 - LEGAL ISSUES IN PUBLIC SERVICE Formerly LEGLST 1152
- LCJS 1586 - CONSUMER LAW Formerly LEGLST 1325
- LCJS 1599 - INDEPENDENT STUDY Formerly ADMJ 1901 and LEGLST 1901
- LCJS 1561 - JUVENILE DELINQUENCY or:
- ADMJ 1210 - JUVENILE DELINQUENCY
- ADMJ 1495 COMPARATIVE JUSTICE STUDY ABROAD (UPitt Bradford)
- Any LCJS course not used to fulfill any other major requirement.
- Any Pitt Prison Education Project (PPEP) course; offerings will vary.

List B

- GEOL 1312 - ENVIRONMENTAL LAW AND POLICY
- ENGLIT 0365 - IMAGINING SOCIAL JUSTICE
- HIST 0600 - UNITED STATES TO 1877
- HIST 0601 - UNITED STATES 1865-PRESENT
- HIST 0663 - 20THC AFRICAN AMERICAN WOMEN'S HISTORY
- HIST 0670 - AFRICAN AMERICAN HISTORY TO 1877
- HIST 1062 - HUMAN RIGHTS IN WORLD HISTORY
- HIST 1640 - AMERICA CHILDHOODS: RACE, GENDER, AND CITIZENSHIP, 1865-PRESENT
- HIST 1669 - HISTORY OF BLACK PITTSBURGH
- PS 1202 - AMERICAN CONSTITUTIONAL LAW
- PS 1261 - AMERICAN PUBLIC POLICY
- PS 1675 - POLITICS OF HUMAN RIGHTS
- PSY 0205 - PSYCHOPATHOLOGY
- PUBSRV 1305 - HEALTH, LAW AND ETHICS
- PUBSRV 1455 - LAW, ETHICS AND PUBLIC POLICY IN THE MASS MEDIA
- SLAV 1225 - BEHIND BARS: CROSS CULTURAL REPRESENTATIONS OF PRISON IN THE 20TH CENTURY
- URBNST 0010 - INTRODUCTION TO URBAN STUDIES
- Any non-LCJS course not used to fulfill any other major requirement.

Professional Skills

Select at least one course from each category. Course selections must comprise a total of at least 6 credits.

Research or Practical Skills

- ENGCOMP 0450 - RESEARCH WRITING
- LCJS 1610 - DATA ANALYSIS IN CRIMINAL JUSTICE
- LCJS 1620 - INTRODUCTION TO LEGAL RESEARCH Formerly LEGLST 1410
- LCJS 1900 - PRESERVICE INTERNSHIP Formerly ADMJ 1900
- PS 0700 - RESEARCH METHODS IN POLITICAL SCIENCE
- PSY 0036 - RESEARCH METHODS LECTURE
- SOC 0230 - SOCIAL RESEARCH METHODS
- URBNST 0030 - INTRODUCTION TO GIS
- URBNST 0130 - APPLIED GIS

Professional or Public-Oriented Writing

- ENGCOMP 0401 - WRITTEN PROFESSIONAL COMMUNICATION: TOPICS IN DIVERSITY
- ENGCOMP 0410 - WRITING IN THE LEGAL PROFESSIONS
- ENGCOMP 0420 - WRITING FOR THE PUBLIC
- ENGCOMP 0521 - WRITING WITH DATA
- ENGCOMP 0560 - WRITING ARGUMENTS
- ENGCOMP 0641 - WRITING FOR CHANGE
- ENGCOMP 1099 - THE LANGUAGE OF POLICY AND POWER: TOPICS IN DIVERSITY
- ENGCOMP 1400 - GRANT WRITING FOR NONPROFITS

- LCJS 1630 - WRITING IN THE CRIMINAL JUSTICE PROFESSIONS

Capstone

- LCJS 1700 - ETHICS IN CRIMINAL JUSTICE (CAPSTONE)

Writing course

Students must complete at least one W-course in the major. LCJS 1700 - ETHICS IN CRIMINAL JUSTICE (CAPSTONE) will fulfill this requirement.

Additional information

Grade Requirements

A minimum GPA of 2.0 in courses for the LCJS major is required for graduation.

Satisfactory/No Credit option

Students may apply up to six credits of coursework taken on an S/NC basis to the LCJS major. Student may apply up to nine credits if three of those credits are earned as part of a Study Abroad course that applies toward the major.

Transfer credits for Police Academy Certification

Students may receive up to 15 transfer credits for completion of Pennsylvania Municipal Police Academy Act 120 or state police cadet training. Certification course work is equivalent to the Core Area requirements for Criminal Law (3 credits) and Criminal Justice Institutions (3 credits); two major electives (6 credits); and LCJS 1600 Pre-Service internship, which fulfills the Research/Practical Skills Course (3 credits) requirement in the Professional Skills area.

Legal Studies, BA

In Spring 2021, the Legal Studies, BA was officially terminated. The last semester students were permitted to declare the existing Legal Studies major was Fall 2021. Students enrolled in the program will have until August 2028 to complete their degree.

The Legal Studies major is an interdisciplinary course of study that combines the theories and methods of several social science disciplines and law. While not designed as a prelaw program, the major seeks to develop an understanding of the nature, content, and operation of American law and legal institutions.

Career Opportunities

Courses in legal studies provide a background for graduate work in administration of justice, business, legal studies, and law as well as work in law-related fields like insurance, social security, and social services. The courses help prepare students for careers in the following settings:

- banking
- children's rights
- civil liberties organizations
- collective bargaining/labor relations
- corporate sales divisions
- credit-related agencies
- judicial administration
- legal research
- human resources
- planning commissions
- privacy protection
- public government aid/legislation
- public welfare
- real estate agencies
- tax consultation firms
- workers' compensation bureaus

Major Requirements

Students must earn a minimum of 120 credits for the Bachelor of Arts degree with a major in legal studies. Of this total, 30 credits make up the major, which is satisfied by taking courses to complete the core requirements, legal studies electives, and outside electives. Below is an outline of these major course requirements. The remaining credits required for the degree are outlined in the General Education Requirements section on this page. Some legal studies courses fulfill the College of General Studies social sciences curriculum requirements. See the current time schedule of classes for specific information.

Core Requirements: 6 credits (two courses)

- LCJS 1580 - THE LEGAL SYSTEM Formerly LEGLST 0080
Choose one of the following:
- LCJS 1300 - LAW AND POLITICS Formerly LEGLST 1210 (cross-listed with PS 1213)
- PS 1213 - LAW AND POLITICS (Political Science)

Legal Studies Electives: 18 credits (choose six courses)

- LCJS 0200 - RACE, CLASS, GENDER, & THE LAW
- LCJS 1200 - CRIMINAL LAW Formerly LEGLST 1140 (cross-listed with ADMJ 1400)
- LCJS 1210 - CRIMINAL PROCEDURE Formerly LEGLST 1141 (cross-listed with ADMJ 1410)
- LCJS 1320 - CIVIL RIGHTS LAW Formerly LEGLST 1340
- LCJS 1330 - EMERGING ISSUES IN LEGAL AND SOCIAL POLICY Formerly LEGLST 1355
- LCJS 1340 - LAW AND SOCIAL CHANGE Formerly LEGLST 1155
- LCJS 1430 - THE JUVENILE JUSTICE PROCESS Formerly ADMJ 1225
- LCJS 1510 - PSYCHOLOGY AND LAW Formerly LEGLST 1230
- LCJS 1581 - INTERNATIONAL LAW Formerly LEGLST 1327
- LCJS 1582 - PUBLIC LAW AND MORAL REASONING Formerly LEGLST 0020
- LCJS 1583 - SEX, LAW AND MARRIAGE Formerly LEGLST 1315
- LCJS 1584 - LEGAL ISSUES IN PUBLIC SERVICE Formerly LEGLST 1152 (cross-listed with PUBSRV 1300)

- LCJS 1586 - CONSUMER LAW Formerly LEGLST 1325
- LCJS 1620 - INTRODUCTION TO LEGAL RESEARCH Formerly LEGLST 1410
- LCJS 1900 - PRESERVICE INTERNSHIP Formerly ADMJ 1900
- LEGLST 1150 - LAWYERS AND LEGAL PROFESSION
- LEGLST 1260 - LAW, LITERATURE, AND CINEMA
- LEGLST 1318 - SEPARATION, DIVORCE AND CUSTODY
- LEGLST 1320 - LAW AND ENVIRONMENT
Or GEOL 1312 - ENVIRONMENTAL LAW AND POLICY
- LEGLST 1901 - INDEPENDENT STUDY

Outside Electives: 6 credits (choose two courses)

The final degree requirement is completion of 6 credits (two courses) from a list of approved electives outside legal studies. The following represents approved elective courses from various disciplines:

Administration of Justice

- LCJS 0100 - INTRODUCTION TO LAW, CRIMINAL JUSTICE, & SOCIETY Formerly ADMJ 0100
- LCJS 1310 - LAW AND DEVIANCE Formerly ADMJ 1220
- LCJS 1400 - THE SYSTEM OF CRIMINAL JUSTICE Formerly ADMJ 0500
- LCJS 1521 - CYBER SECURITY, LAW, AND MONEY LAUNDERING Formerly ADMJ 1238
- LCJS 1590 - SPECIAL TOPICS IN LAW AND CRIMINAL JUSTICE Formerly ADMJ 1450
- ADMJ 1495 - CRIMINAL JUSTICE STUDY ABROAD (UPITT - Bradford)

Communication

- COMMRC 1114 - FREEDOM OF SPEECH AND PRESS

English Composition

- ENGCMP 0410 - WRITING IN THE LEGAL PROFESSIONS

History

- HIST 1062 - HUMAN RIGHTS IN WORLD HISTORY
- HIST 1190 - MEDIEVAL GOVERNMENT AND SOCIETY
- HIST 1191 - ENGLISH ORIGINS OF AMERICAN LAW

Political Science

- PS 1201 - CONSTITUTION AND CIVIL LIBERTIES
- PS 1202 - AMERICAN CONSTITUTIONAL LAW
- PS 1211 - LEGISLATIVE PROCESS
- PS 1261 - AMERICAN PUBLIC POLICY
- PS 1614 - THEORIES OF JUSTICE (Honors)
- PS 1675 - POLITICS OF HUMAN RIGHTS

Psychology

- PSY 0182 - LAW AND SOCIAL PSYCHOLOGY

Public Service

- PUBSRV 1305 - HEALTH, LAW AND ETHICS
- PUBSRV 1455 - LAW, ETHICS AND PUBLIC POLICY IN THE MASS MEDIA

Sociology

- SOC 0471 - DEVIANCE AND SOCIAL CONTROL

Urban Studies

- URBNST 0140 - CRIME, PUNISHMENT, JUSTICE, REINTEGRATION
- URBNST 0112 - SOCIAL JUSTICE AND THE CITY

Pitt Prison Education Project Courses

- Any Pitt Prison Education Project (PEEP) course (codes vary)

Notes

Students interested in a minor, rather than a major, in legal studies should check with their academic advisor.

Requirements are subject to change. Check with an academic advisor before registering.

General Education Requirements

To earn a Bachelor of Arts or a Bachelor of Science degree in the College of General Studies, you must satisfactorily complete a minimum of 120 credits (approximately 40 courses). This total consists of courses that fulfill CGS General Education Requirements as well as requirements for the students' major, minor and/or certificate.

General Education Requirements (GERs) provide you with an opportunity to discover interests you never knew you had, all while earning credits toward graduation. And, no matter what your future holds, be it a career or grad school, GERs prepare you by emphasizing skills employers want (like critical thinking, problem solving, written and oral communication) and giving you the opportunity to become more aware of our increasingly diverse and interconnected world.

The College of General Studies provides a liberal arts and pre-professional education for undergraduate students that is grounded in scholarly excellence. Pitt offers you the knowledge, understanding, analytical tools, and communication skills you need to become perceptive, reflective, and intellectually self-conscious citizens within a diverse and rapidly changing world. GERs are at the core of our education.

Our **General Education Requirements changed for students entering as of Fall 2018 (2191) term**. See the CGS General Education Requirements for Fall 2018 and afterward here or visit the CGS General Education Requirements website.

Writing (9 credits)

Written communication is central to almost all disciplines and professions. Developing written proficiency is a lifelong process, and it is especially important that undergraduate education accelerates and directs that process toward the achievement of writing skills that will provide a base appropriate for professional or graduate education or for professional employment.

Introductory Composition Course (3 credits)

Students are required to take the college-level introductory composition course ENGCOMP 0200 Seminar in Composition (SC). Students are exempted from this course if they earned a 660 on the SAT Evidence-Based Reading and Writing Section and a 5 on the Advanced Placement Exam. Given the importance of establishing a sound foundation for a student's writing, all students are required to pass SC with a grade of C- or better by the time they have completed 24 credits in enrollment. (Students who do not have a 560 on the SAT or a 24 or above on the ACT might also be required to take the skill-development course ENGCOMP 0150 Workshop in Composition before enrolling in SC.)

Note for students transferring from the School of Engineering into CGS: successful completion of ENGR 0012 Intro to Engineering Computing may be used in place of ENGCOMP 0200 Seminar in Composition.

Two Writing Intensive Courses (6 credits if not overlapped with other General Education requirements)

Writing intensive courses (W-Courses) are designed to teach writing within a discipline through writing assignments that are distributed across the entire term. In these courses, students will produce at least 20 - 24 pages of written work. A significant portion of this work should be substantially revised in response to instructor feedback and class discussion. All students must complete two courses that are designated as 'W-Courses', or one W-Course and a second English composition course. Students should satisfy one of these requirements by taking a W-Course in their major if it is available. **Students may not transfer credits in to satisfy this requirement. W-courses can be overlapped with other General Education courses, except for Professional Communication.**

Math/Algebra (3 credits)

Mastering college-level algebra is required for all students. These skills are foundational for student success in other general education courses.

Students are exempt from having to take Algebra with a 620 SAT Math or 27 ACT Math. Students who do not meet these criteria must earn a C- or higher in MATH 0020, MATH 0025, MATH 0031, CS 0004, or CS 0007. Given the importance of establishing a sound foundation in mathematics, all students are required to satisfy the Algebra requirement by the time they have completed 30 credits in enrollment.

Quantitative and Formal Reasoning (3 credits)

All students are required to take and pass with a grade of C- or better at least one course in university-level mathematics (other than trigonometry) for which algebra is a prerequisite, or an approved course in statistics or mathematical or formal logic.

A C- or better is needed in a course that satisfies this requirement. Students who qualify for placement in an upper-level course in mathematics on a proficiency placement test are exempt.

Diversity (3 credits)

Diversity courses focus centrally and intensively on issues of diversity, and do so in a manner that promotes understanding of difference. They provide students with analytical skills with which to understand structural inequities and the knowledge to be able to participate more effectively in our increasingly diverse and multicultural society. The courses may address, though not be limited to, such issues as race, gender, ethnicity, sexuality, religious difference, and/or economic disparity.

All students must complete one course that is designated as a Diversity course but may take this course within their major field of study, if available. Diversity courses may also be courses that fulfill other General Education Requirements. (3 credits if not overlapped with another General Education course)

Language/Communication (6-10 credits)

All students are required to take a sequence of two courses that provide them with advanced study of a second language other than English, or the ability to develop their skills in oral and professional communication. Students choose one of the following options below:

Option 1: A Sequence of Two Courses in a Second Language (6-10 credits)

Students complete with a grade of C- or better two terms of university-level study in a second language other than English. Exemptions will be granted to students who can demonstrate elementary proficiency in a second language through one of the following:

1. Having completed three years of high school study of a second language with a grade of B or better in each course;
2. Passing a special proficiency examination;
3. Transferring credits for two terms or more of approved university-level instruction in a second language with grades of C or better;
4. Having a native language other than English.

Option 2: A Sequence of Two Courses in Oral and Professional Communication (6 credits)

These classes advance the skills of the student to perform effectively in workplace environments or the public by communicating ideas and concepts and/or introduce students to theories that analyze and explain effective communication in these settings. Students must complete one of the following with a grade of C- or better: COMMRC 0520 or COMMRC 0500. Students select a second class from a list of approved courses.

Humanities and Arts, Social Sciences, and Natural Sciences (27 credits)

Each student is required to take nine courses in the humanities, social sciences, and natural sciences as distributed below. Such courses allow students to pursue their own interests while they explore diverse views of a broad range of human cultures, modes of thought, and bodies of knowledge. The courses that fulfill these requirements are truly courses in the disciplines that draw on the unique resources of a research university.

One course in Literature (3 credits)

By studying a range of literary and other texts in this course, students will be introduced to the techniques and methods of textual analysis and will develop critical perspectives on a variety of forms of cultural expression.

One course in the Arts (3 credits)

This course introduces students to modes of analysis appropriate to music, theater, or the visual and plastic arts. It may take the form of a survey, the study of a genre or period, or may focus on a particular artist.

One course in Creative Work (3 credits)

In this course, students are expected to produce some form of creative work, and they will also be trained in the techniques and modes of its production. The course could be situated in theater, studio arts, writing, visual arts (including photography, film), music, and dance; or it may be a course that engages in innovative or original work in relation to written, oral, or visual material, new media, social media, and other contemporary forms of communication and representation.

One course in Philosophical Thinking or Ethics (3 credits)

This course will emphasize close and critical reading of theories about knowledge, reality, humanity, and values. Courses could focus on human nature; scientific reasoning; theories of cognition and consciousness; human/social rights; competing systems of belief; morality; concepts of freedom; theories of justice; social obligations/constraints; or ethics, including applied or professional ethics.

One course in Social Sciences (3 credits)

A course that treats topics considered of significant importance in the social or behavioral sciences (including social psychology). Courses will introduce students to the subject matter and methodology of a particular discipline and will involve them in the modes of investigation, analysis, and judgment characteristically applied by practitioners.

One course in Historical Analysis (3 credits)

In this course, students will develop skills and methods by which to understand significant cultural, social, economic, or political accounts of the past. The course may focus on pivotal moments of change, or important transitions over longer periods of time. Courses could explore developments in science, technology, literature, or art, and the ideas around them, or examine critical historical shifts by analyzing various data or cultural forms.

Three courses in the Natural Sciences (9 credits)

These will be courses that introduce students to scientific principles and concepts rather than offering a simple codification of facts in a discipline or a history of a discipline. The courses may be interdisciplinary, and no more than two courses may have the same primary departmental sponsor.

Global Awareness and Cultural Understanding (9 credits)

Each student must complete three courses as distributed below:

One course in Global Issues (3 credits)

This course will examine significant issues that are global in scale. Courses could address, for example: globalization; the global and cultural impact of climate change/sustainability; the effects of and resistances to colonialism; or worldwide issues related to health, gender, ethnicity, race, technology, labor, law or the economy.

One course in a Specific Geographic Region (3 credits)

This course will be an in depth study and analysis of a particular region or locality outside the United States.

One course in Cross-Cultural Awareness (3 credits)

This course, through cross-cultural perspective, will promote knowledge of and reflection upon the cultures of Asia, the Middle East, Africa, Latin America, the Caribbean, or the indigenous peoples of the world past and present. Students will develop an understanding of cultures, traditions, and societies that differ substantially from those that prevail in North America and Europe.

Overlapping of General Education Courses

- Courses taken for general education requirements can also be applied to major requirements, when applicable.
- Diversity courses are allowed to overlap with other general education requirements.
- Writing ('W') courses are allowed to overlap with other general education requirements except for the Professional Communication requirement.
- Students may overlap the second course in their language sequence, taken at the college level, with the Geographic Region requirement, except for American Sign Language. This does not apply to students who satisfy the Language requirement through high school study, a proficiency examination, or native proficiency.

Specialized Study (the Major) (30-36 credits)

The baccalaureate degree, in addition to providing certain skills and broad exposure to the major bodies of knowledge, also allows the opportunity to specialize in a particular field, providing depth of experience essential for vocational competence or further graduate study. An outline of each major is available on the CGS Web site, www.cgs.pitt.edu.

Students admitted to CGS can choose from the following majors. Many majors offer a combination of face-to-face and online courses.

- Administration of justice (this major is no longer accepting new students, effective Fall 2021)
- Dental hygiene (for licensed dental hygienists)
- Health services (BA and BS)
- Humanities (this major is no longer accepting new students, effective Fall 2020)
- Law, Criminal Justice, and Society
- Legal studies (this major is no longer accepting new students, effective Fall 2021)
- Liberal Studies
- Media and professional communications
- Natural sciences
- Public service
- Social sciences (this major is no longer accepting new students, effective Fall 2020)

Students who want a major in an arts and sciences field can begin in CGS and transfer to the Dietrich School of Arts and Sciences after completing 12 credits including the mathematics and seminar in composition requirements. Admission is determined by the Dietrich School.

Electives

Any credits not used specifically to satisfy the previous requirements are considered electives. Electives can be taken in a wide variety of subjects to complement, reinforce, or add further breadth to the chosen program of study or to help meet the requirements of a minor or certificate program.

Liberal Studies, BA

Designed for the returning adult learner, the Liberal Studies major allows students the flexibility to explore a wide range of subjects across disciplines and to apply their academic studies to professional, career, and educational goals. With its interdisciplinary and integrated approach to learning, this program blends liberal arts strengths with the professional knowledge and skills needed for success in the diverse workplace of the 21st century.

This major is an excellent choice for working professionals looking to earn their first or second undergraduate degree and to advance their careers around their schedule and at their own pace.

Degree Requirements

Students must earn a minimum of 120 credits for the Bachelor of Arts degree with a major in liberal studies. Of this total, students must take a minimum of 36 credits (approximately 12 courses) according to the specifications below. See our General Education program section for the remaining degree requirements.

Multidisciplinary Curriculum

The Liberal Studies major curriculum is comprised of 36 credits, or 12 multidisciplinary courses, unified by a central theme. At least 15 credits (approx. 5 courses) must come from one discipline, which will be your primary academic field of study. The remaining theme-related courses may be selected from one or several disciplines within the humanities, social sciences, or natural sciences areas. Professional credits may also be used in the major with prior approval.

Designing the Liberal Studies Concentration: Tools and Resources

To design your concentration, you will combine courses from two or more disciplines and apply knowledge and modes of thinking to study your chosen topic in depth. You will work with your CGS advisor to prepare a proposal and have it approved by the Undergraduate Studies Dean's Office in advance.

Four-Year Sample Degree Map

Students have a variety of options when designing their Liberal Studies degree plan and major concentration. This degree map provides a sample pathway for completing the program in four years when enrolled full-time in the fall and spring terms.

Sample Themes

You can choose to combine undergraduate courses offered by departments and programs from various disciplines and schools. Here are a few sample concentrations to help get you started thinking critically and creatively about the array of topics that lend themselves well to multidisciplinary exploration.

Planning and Getting Your Proposal Approved

Crafting a strong proposal requires time for planning and research, as well as guidance from your academic advisor and professors. Find tips and instructions for this process and a link to the proposal form [here](#).

Program Notes

- Students must have their proposal approved by an Assistant Dean in the Undergraduate Studies Dean's Office by the first semester of their senior year at CGS (see program residency requirement below).
- At least two disciplines must be represented in the plan of study.
- Up to 12 professional (non-liberal arts) credits can be used in the major.
- Any subsequent changes to the plan of study must be reviewed and approved through the course substitution appeal process.

- Students are encouraged to pursue an internship / study abroad experience as part of the major. Up to 6 internship credits and 9 study abroad credits are accepted.
- A maximum of 6 credits with the S/NC grade may be used in the major.
- This major cannot be pursued as a double major. Students can add a minor or a certificate to complement their studies (CGS course overlap rules apply).
- Liberal Studies students must earn a minimum of 30 college level credits and half of the major requirements at the University of Pittsburgh and have a minimum GPA of 2.0 for graduation. The remaining program credits may include transfer credit and/or advanced standing credits (see CGS transfer credit policy).
- 30 credits for the degree must be completed in upper-level classes (1000-level or equivalent) and at least half of the major requirements must be upper-level.

General Education Requirements

To earn a Bachelor of Arts or a Bachelor of Science degree in the College of General Studies, you must satisfactorily complete a minimum of 120 credits (approximately 40 courses). This total consists of courses that fulfill CGS General Education Requirements as well as requirements for the students' major, minor and/or certificate.

General Education Requirements (GERs) provide you with an opportunity to discover interests you never knew you had, all while earning credits toward graduation. And, no matter what your future holds, be it a career or grad school, GERs prepare you by emphasizing skills employers want (like critical thinking, problem solving, written and oral communication) and giving you the opportunity to become more aware of our increasingly diverse and interconnected world.

The College of General Studies provides a liberal arts and pre-professional education for undergraduate students that is grounded in scholarly excellence. Pitt offers you the knowledge, understanding, analytical tools, and communication skills you need to become perceptive, reflective, and intellectually self-conscious citizens within a diverse and rapidly changing world. GERs are at the core of our education.

Our **General Education Requirements changed for students entering as of Fall 2018 (2191) term**. See the CGS General Education Requirements for Fall 2018 and afterward here or visit the CGS General Education Requirements website.

Writing (9 credits)

Written communication is central to almost all disciplines and professions. Developing written proficiency is a lifelong process, and it is especially important that undergraduate education accelerates and directs that process toward the achievement of writing skills that will provide a base appropriate for professional or graduate education or for professional employment.

Introductory Composition Course (3 credits)

Students are required to take the college-level introductory composition course ENGCOMP 0200 Seminar in Composition (SC). Students are exempted from this course if they earned a 660 on the SAT Evidence-Based Reading and Writing Section and a 5 on the Advanced Placement Exam. Given the importance of establishing a sound foundation for a student's writing, all students are required to pass SC with a grade of C- or better by the time they have completed 24 credits in enrollment. (Students who do not have a 560 on the SAT or a 24 or above on the ACT might also be required to take the skill-development course ENGCOMP 0150 Workshop in Composition before enrolling in SC.)

Note for students transferring from the School of Engineering into CGS: successful completion of ENGR 0012 Intro to Engineering Computing may be used in place of ENGCOMP 0200 Seminar in Composition.

Two Writing Intensive Courses (6 credits if not overlapped with other General Education requirements)

Writing intensive courses (W-Courses) are designed to teach writing within a discipline through writing assignments that are distributed across the entire term. In these courses, students will produce at least 20 - 24 pages of written work. A significant portion of this work should be substantially revised in response to instructor feedback and class discussion. All students must complete two courses that are designated as 'W-Courses', or one W-Course and a second English composition course. Students should satisfy one of these requirements by taking a W-Course in their major if it is available. **Students may not transfer credits in to satisfy this requirement. W-courses can be overlapped with other General Education courses, except for Professional Communication.**

Math/Algebra (3 credits)

Mastering college-level algebra is required for all students. These skills are foundational for student success in other general education courses.

Students are exempt from having to take Algebra with a 620 SAT Math or 27 ACT Math. Students who do not meet these criteria must earn a C- or higher in MATH 0020, MATH 0025, MATH 0031, CS 0004, or CS 0007. Given the importance of establishing a sound foundation in mathematics, all students are required to satisfy the Algebra requirement by the time they have completed 30 credits in enrollment.

Quantitative and Formal Reasoning (3 credits)

All students are required to take and pass with a grade of C- or better at least one course in university-level mathematics (other than trigonometry) for which algebra is a prerequisite, or an approved course in statistics or mathematical or formal logic.

A C- or better is needed in a course that satisfies this requirement. Students who qualify for placement in an upper-level course in mathematics on a proficiency placement test are exempt.

Diversity (3 credits)

Diversity courses focus centrally and intensively on issues of diversity, and do so in a manner that promotes understanding of difference. They provide students with analytical skills with which to understand structural inequities and the knowledge to be able to participate more effectively in our increasingly diverse and multicultural society. The courses may address, though not be limited to, such issues as race, gender, ethnicity, sexuality, religious difference, and/or economic disparity.

All students must complete one course that is designated as a Diversity course but may take this course within their major field of study, if available. Diversity courses may also be courses that fulfill other General Education Requirements. (3 credits if not overlapped with another General Education course)

Language/Communication (6-10 credits)

All students are required to take a sequence of two courses that provide them with advanced study of a second language other than English, or the ability to develop their skills in oral and professional communication. Students choose one of the following options below:

Option 1: A Sequence of Two Courses in a Second Language (6-10 credits)

Students complete with a grade of C- or better two terms of university-level study in a second language other than English. Exemptions will be granted to students who can demonstrate elementary proficiency in a second language through one of the following:

1. Having completed three years of high school study of a second language with a grade of B or better in each course;
2. Passing a special proficiency examination;
3. Transferring credits for two terms or more of approved university-level instruction in a second language with grades of C or better;
4. Having a native language other than English.

Option 2: A Sequence of Two Courses in Oral and Professional Communication (6 credits)

These classes advance the skills of the student to perform effectively in workplace environments or the public by communicating ideas and concepts and/or introduce students to theories that analyze and explain effective communication in these settings. Students must complete one of the following with a grade of C- or better: COMMRC 0520 or COMMRC 0500. Students select a second class from a list of approved courses.

Humanities and Arts, Social Sciences, and Natural Sciences (27 credits)

Each student is required to take nine courses in the humanities, social sciences, and natural sciences as distributed below. Such courses allow students to pursue their own interests while they explore diverse views of a broad range of human cultures, modes of thought, and bodies of knowledge. The courses that fulfill these requirements are truly courses in the disciplines that draw on the unique resources of a research university.

One course in Literature (3 credits)

By studying a range of literary and other texts in this course, students will be introduced to the techniques and methods of textual analysis and will develop critical perspectives on a variety of forms of cultural expression.

One course in the Arts (3 credits)

This course introduces students to modes of analysis appropriate to music, theater, or the visual and plastic arts. It may take the form of a survey, the study of a genre or period, or may focus on a particular artist.

One course in Creative Work (3 credits)

In this course, students are expected to produce some form of creative work, and they will also be trained in the techniques and modes of its production. The course could be situated in theater, studio arts, writing, visual arts (including photography, film), music, and dance; or it may be a course that engages in innovative or original work in relation to written, oral, or visual material, new media, social media, and other contemporary forms of communication and representation.

One course in Philosophical Thinking or Ethics (3 credits)

This course will emphasize close and critical reading of theories about knowledge, reality, humanity, and values. Courses could focus on human nature; scientific reasoning; theories of cognition and consciousness; human/social rights; competing systems of belief; morality; concepts of freedom; theories of justice; social obligations/constraints; or ethics, including applied or professional ethics.

One course in Social Sciences (3 credits)

A course that treats topics considered of significant importance in the social or behavioral sciences (including social psychology). Courses will introduce students to the subject matter and methodology of a particular discipline and will involve them in the modes of investigation, analysis, and judgment characteristically applied by practitioners.

One course in Historical Analysis (3 credits)

In this course, students will develop skills and methods by which to understand significant cultural, social, economic, or political accounts of the past. Students admitted to CGS can choose from the following majors. Many majors offer a combination of face-to-face and online courses.

- Administration of justice (this major is no longer accepting new students, effective Fall 2021)

- Dental hygiene (for licensed dental hygienists)
- Health services (BA and BS)
- Humanities (this major is no longer accepting new students, effective Fall 2020)
- Law, Criminal Justice, and Society
- Legal studies (this major is no longer accepting new students, effective Fall 2021)
- Liberal Studies
- Media and professional communications
- Natural sciences
- Public service
- Social sciences (this major is no longer accepting new students, effective Fall 2020)

Students who want a major in an arts and sciences field can begin in CGS and transfer to the Dietrich School of Arts and Sciences after completing 12 credits including the mathematics and seminar in composition requirements. Admission is determined by the Dietrich School.

Electives

Any credits not used specifically to satisfy the previous requirements are considered electives. Electives can be taken in a wide variety of subjects to complement, reinforce, or add further breadth to the chosen program of study or to help meet the requirements of a minor or certificate program.

Media and Professional Communications, BA

This major provides students with a rigorous education in the theories of mass media process, history, and ethics as well as the opportunity to specialize in one of three professional practice areas: corporate and community relations, writing for the professions, or digital media.

The three tracks are designed to strengthen both the knowledge base and proficiencies of students pursuing careers in communication fields, such as print, television, radio, film, new media, and corporate and organizational communications. This program also will benefit students pursuing careers in a variety of industries in which communication with internal and external audiences is critical. Learn more about our featured internship opportunity with Pitt Panther TV, and other internship opportunities, today.

Major Requirements

Students must earn a minimum of 120 credits for the Bachelor of Arts degree with a major in media and professional communications. Of this total, the major consists of 12 credits of required core courses and 24 credits of specialization courses. The remaining credits for the degree are outlined in the General Education Requirements section on this page.

Note: English composition (ENGCMP) courses and writing-intensive courses (officially designated as W courses in the catalog) that are taken for the major must be passed with a grade of C or higher (grades of C- or lower are not acceptable).

Core Courses (12 credits)

The following four courses are required for all three tracks. Some courses serve as prerequisites to more advanced courses in the MPCOMM major. Please review individual catalog descriptions and plan your schedule accordingly.

- COMMRC 0320 - MASS COMMUNICATION AND SOCIETY
- COMMRC 1121 - HISTORY OF MASS MEDIA

- ENGWRT 0610 - INTRODUCTION TO JOURNALISM AND NONFICTION
- PUBSRV 1455 - LAW, ETHICS AND PUBLIC POLICY IN THE MASS MEDIA

Specializations (24 credits)

Choose one of the specialization tracks that follow.

TRACK 1: Corporate/Community Relations

Required Courses (9 credits)

- BUSERV 1940 - MARKETING FUNDAMENTALS
- COMMRC 1111 - THEORIES OF PERSUASION
- COMMRC 1182 - MEDIA RELATIONS
Note: New course number effective Spring 2023; formerly COMMRC 1732: Special Topics: Public and Media Relations (SEC 77XX)

Note

BUSERV 1940 Marketing Fundamentals may be substituted with BUSMKT 1040 Intro to Marketing.

Electives, choose four (12 credits)

- COMMRC 1102 - ORGANIZATIONAL COMMUNICATION
- COMMRC 1125 - MEDIA THEORY
- COMMRC 1181 - HEALTH COMMUNICATION
Note: formerly COMMRC 1730
- COMMRC 1732 - SPECIAL TOPICS IN MASS COMMUNICATION Communication and New Media Technologies
- ENGCMP 0410 - WRITING IN THE LEGAL PROFESSIONS
- ENGCMP 0420 - WRITING FOR THE PUBLIC
- ENGCMP 0515 - PERSAUSIVE WRITING IN ADVERTISING
- ENGCMP 0520 - INTEGRATING WRITING AND DESIGN
- ENGCMP 0550 - TOPICS IN PUBLIC/PROFESSIONAL WRITING
- ENGCMP 0560 - WRITING ARGUMENTS
- ENGCMP 0600 - INTRODUCTION TO TECHNICAL WRITING
- ENGCMP 0610 - COMPOSING DIGITAL MEDIA
- ENGCMP 0641 - WRITING FOR CHANGE
- ENGCMP 1103 - PUBLIC RELATIONS WRITING
- ENGCMP 1104 - CORPORATE STORYTELLING
- ENGCMP 1112 - PROFESSIONAL USES OF SOCIAL MEDIA
- ENGCMP 1120 - HISTORY AND ETHICS OF ADVERTISING AND PUBLIC RELATIONS
- ENGCMP 1270 - PROJECTS IN BLACK RHETORIC
- ENGCMP 1400 - GRANT WRITING FOR NONPROFITS
- ENGCMP 1401 - WRITING FOR FUNDRAISING AND DEVELOPMENT
- ENGCMP 1420 - WRITING PROPOSALS FOR BUSINESS
- ENGWRT 0550 - FUNDAMENTALS OF NEWS REPORTING
- ENGWRT 0710 - INTRO TO AUDIO STORYTELLING

- ENGWRT 1330 - INTERMEDIATE NONFICTION: SCENE AND POINT-OF-VIEW
- ENGWRT 1403 - TOPICS IN NON-FICTION: ELECTRONIC MEDIA
- FMST 1890 - THE BUSINESS OF BROADCASTING
- PSY 0105 - INTRODUCTION TO SOCIAL PSYCHOLOGY
- PSY 1635 - ORGANIZATIONAL PSYCHOLOGY
- PUBSRV 1200 - PRACTICES OF NON-PROFIT MANAGEMENT
- PUBSRV 1310 - DIVERSITY ISSUES IN PUBLIC SERVICE
- SOC 0490 - MASS MEDIA
- URBNST 0512 - NEIGHBORHOOD PLANNING

Internship, choose one (3 credits)

- CGS 1900 - CHOOSING YOUR PATH: INTERNSHIP SEMINAR
- THEA 1484 - DIRECTED PROJECT BUSINESS MGT

Track 2: Writing for the Professions

Required Courses (6 credits)

- COMMRC 1114 - FREEDOM OF SPEECH AND PRESS
and choose one of the following courses:
- ENGCMP 0400 - WRITTEN PROFESSIONAL COMMUNICATION or
- ENGWRT 1330 - INTERMEDIATE NONFICTION: SCENE AND POINT-OF-VIEW

Note

COMMRC 1114 may be substituted with either COMMRC 1161 Communication Ethics (3cr.) or, if not used as an elective, ENGCMP 1103 Public Relations Writing (3cr.).

Electives, choose five (15 credits)

- COMMRC 1182 - MEDIA RELATIONS
Note: New course number effective Spring 2023; formerly COMMRC 1732: Special Topics: Public and Media Relations (SEC 77XX)
- COMMRC 1181 - HEALTH COMMUNICATION
Note: formerly COMMRC 1730
- COMMRC 1732 - SPECIAL TOPICS IN MASS COMMUNICATION *Communication and New Media Technologies*
- ENGCMP 0410 - WRITING IN THE LEGAL PROFESSIONS
- ENGCMP 0420 - WRITING FOR THE PUBLIC
- ENGCMP 0515 - PERSASIVE WRITING IN ADVERTISING
- ENGCMP 0520 - INTEGRATING WRITING AND DESIGN
- ENGCMP 0550 - TOPICS IN PUBLIC/PROFESSIONAL WRITING
- ENGCMP 0560 - WRITING ARGUMENTS
- ENGCMP 0600 - INTRODUCTION TO TECHNICAL WRITING
- ENGCMP 0610 - COMPOSING DIGITAL MEDIA
- ENGCMP 1103 - PUBLIC RELATIONS WRITING
- ENGCMP 1111 - PROFESSIONAL WRITING IN GLOBAL CONTEXTS

- ENGCMP 1112 - PROFESSIONAL USES OF SOCIAL MEDIA
- ENGCMP 1400 - GRANT WRITING FOR NONPROFITS
- ENGCMP 1401 - WRITING FOR FUNDRAISING AND DEVELOPMENT
- ENGCMP 1420 - WRITING PROPOSALS FOR BUSINESS
- ENGWRT 0550 - FUNDAMENTALS OF NEWS REPORTING
- ENGWRT 1370 - JOURNALISM BOOT CAMP: WRITE NOW
- ENGWRT 1377 - MEDIA LITERACY: WRITING AND READING YOUR WAY THROUGH THE DIGITAL LANDSCAPE
- ENGWRT 1391 - WRITING THE REVIEW
- ENGWRT 1393 - SPORTS WRITING
- ENGWRT 1399 - TOPICS IN NON-FICTION: NEWSPAPER
- ENGWRT 1403 - TOPICS IN NON-FICTION: ELECTRONIC MEDIA
- ENGWRT 1750 - SENIOR SEMINAR IN NONFICTION

Internship, choose one (3 credits)

- CGS 1900 - CHOOSING YOUR PATH: INTERNSHIP SEMINAR
- ENGWRT 1370 - JOURNALISM BOOT CAMP: WRITE NOW

Track 3: Digital Media

Required Courses (9 credits)

- COMMRC 1122 - MEDIA CRITICISM
- FILMST 0001 - FILMMAKING 1: FUNDAMENTALS (cross-listed with FMST 0800)
- ENGFLM 0355 - VISUAL LITERACY or ENGFLM 0401 - IMAGES, ICONS, AND IDEAS

Electives, choose four (12 credits)

- COMMRC 0575 - INTRODUCTION TO RADIO PRODUCTION
- COMMRC 1105 - TELEVISION AND SOCIETY
- COMMRC 1125 - MEDIA THEORY
- COMMRC 1126 - MEDIA AND CONSUMER CULTURE
- CS 0134 - WEB SITE DESIGN AND DEVELOPMENT
- ENGCMP 0425 - DIGITAL HUMANITY (cross-listed with HAA 0425)
- ENGCMP 0520 - INTEGRATING WRITING AND DESIGN
- ENGCMP 0610 - COMPOSING DIGITAL MEDIA
- ENGCMP 1112 - PROFESSIONAL USES OF SOCIAL MEDIA
- ENGCMP 1130 - PROJECTS IN DIGITAL COMPOSITION
- ENGCMP 1201 - DIGITAL NARRATIVE AND INTERACTIVE DESIGN
- ENGFLM 0400 - INTRODUCTION TO FILM
- ENGFLM 1390 - CONTEMPORARY FILM
- ENGFLM 1485 - FILM AND POLITICS
- ENGFLM 1683 - KEEPING IT REAL: DOCUMENTARY FILM AND NONFICTION
- ENGFLM 1695 - HORROR FILM
- ENGLIT 0354 - WORDS AND IMAGES
- ENGLIT 0550 - INTRODUCTION TO POPULAR CULTURE

- ENGWRT 0650 - READINGS IN JOURNALISM
- ENGWRT 0710 - INTRO TO AUDIO STORYTELLING
- ENGWRT 1377 - MEDIA LITERACY: WRITING AND READING YOUR WAY THROUGH THE DIGITAL LANDSCAPE
- FILMST 0120 - PHOTOGRAPHY 1
- FILMST 0121 - ANIMATION 1
- FILMST 0250 - BUSINESS OF PHOTOGRAPHY AND MULTIMEDIA
- FILMST 0400 - POST-PRODUCTION
- FILMST 0430 - AUDIO PRODUCTION
- FILMST 0601 - FILMMAKING 2: SIGHT AND SOUND
- FILMST 0610 - DIGITAL EFFECTS 1
- FILMST 1001 - BROADCASTING
- FILMST 1132 - ELEMENTS OF SCREENWRITING
- FILMST 1600 - FILMMAKING 3: STORY TO SCREEN
- FMST 1890 - THE BUSINESS OF BROADCASTING
- FMST 1898 - TELEVISION NEWS PRACTICUM: PITT TO THE POINT
Note: FMST 1898 may be used in place of CGS 1900 for qualifying students. Consult with a CGS advisor.
- GSWS 1210 - GENDER AND THE DIGITAL
- HAA 0090 - INTRODUCTION TO CONTEMPORARY ART
- HAA 0470 - PHOTOGRAPHY AND ART
- PS 1836 - POLITICS THROUGH FILM
- PSY 1080 - PSYCHOLOGY AND THE MEDIA
- SA 0110 - VISUAL THINKING
- SA 0130 - DRAWING STUDIO 1
- SA 0180 - PHOTO STUDIO 1
- SA 1270 - DIGITAL STUDIO: IMAGING
- SOC 0490 - MASS MEDIA

Internship (3 credits)

- CGS 1900 - CHOOSING YOUR PATH: INTERNSHIP SEMINAR

General Education Requirements

To earn a Bachelor of Arts or a Bachelor of Science degree in the College of General Studies, you must satisfactorily complete a minimum of 120 credits (approximately 40 courses). This total consists of courses that fulfill CGS General Education Requirements as well as requirements for the students' major, minor and/or certificate.

General Education Requirements (GERs) provide you with an opportunity to discover interests you never knew you had, all while earning credits toward graduation. And, no matter what your future holds, be it a career or grad school, GERs prepare you by emphasizing skills employers want (like critical thinking, problem solving, written and oral communication) and giving you the opportunity to become more aware of our increasingly diverse and interconnected world.

The College of General Studies provides a liberal arts and pre-professional education for undergraduate students that is grounded in scholarly excellence. Pitt offers you the knowledge, understanding, analytical tools, and communication skills you need to become perceptive, reflective, and intellectually self-conscious citizens within a diverse and rapidly changing world. GERs are at the core of our education.

Our **General Education Requirements changed for students entering as of Fall 2018 (2191) term**. See the CGS General Education Requirements for Fall 2018 and afterward here or visit the CGS General Education Requirements website.

Writing (9 credits)

Written communication is central to almost all disciplines and professions. Developing written proficiency is a lifelong process, and it is especially important that undergraduate education accelerates and directs that process toward the achievement of writing skills that will provide a base appropriate for professional or graduate education or for professional employment.

Introductory Composition Course (3 credits)

Students are required to take the college-level introductory composition course ENGCMP 0200 Seminar in Composition (SC). Students are exempted from this course if they earned a 660 on the SAT Evidence-Based Reading and Writing Section and a 5 on the Advanced Placement Exam. Given the importance of establishing a sound foundation for a student's writing, all students are required to pass SC with a grade of C- or better by the time they have completed 24 credits in enrollment. (Students who do not have a 560 on the SAT or a 24 or above on the ACT might also be required to take the skill-development course ENGCMP 0150 Workshop in Composition before enrolling in SC.)

Note for students transferring from the School of Engineering into CGS: successful completion of ENGR 0012 Intro to Engineering Computing may be used in place of ENGCMP 0200 Seminar in Composition.

Two Writing Intensive Courses (6 credits if not overlapped with other General Education requirements)

Writing intensive courses (W-Courses) are designed to teach writing within a discipline through writing assignments that are distributed across the entire term. In these courses, students will produce at least 20 - 24 pages of written work. A significant portion of this work should be substantially revised in response to instructor feedback and class discussion. All students must complete two courses that are designated as 'W-Courses', or one W-Course and a second English composition course. Students should satisfy one of these requirements by taking a W-Course in their major if it is available. **Students may not transfer credits in to satisfy this requirement. W-courses can be overlapped with other General Education courses, except for Professional Communication.**

Math/Algebra (3 credits)

Mastering college-level algebra is required for all students. These skills are foundational for student success in other general education courses.

Students are exempt from having to take Algebra with a 620 SAT Math or 27 ACT Math. Students who do not meet these criteria must earn a C- or higher in MATH 0020, MATH 0025, MATH 0031, CS 0004, or CS 0007. Given the importance of establishing a sound foundation in mathematics, all students are required to satisfy the Algebra requirement by the time they have completed 30 credits in enrollment.

Quantitative and Formal Reasoning (3 credits)

All students are required to take and pass with a grade of C- or better at least one course in university-level mathematics (other than trigonometry) for which algebra is a prerequisite, or an approved course in statistics or mathematical or formal logic.

A C- or better is needed in a course that satisfies this requirement. Students who qualify for placement in an upper-level course in mathematics on a proficiency placement test are exempt.

Diversity (3 credits)

Diversity courses focus centrally and intensively on issues of diversity, and do so in a manner that promotes understanding of difference. They provide students with analytical skills with which to understand structural inequities and the knowledge to be able to participate more effectively in our increasingly diverse and multicultural society. The courses may address, though not be limited to, such issues as race, gender, ethnicity, sexuality, religious difference, and/or economic disparity.

All students must complete one course that is designated as a Diversity course but may take this course within their major field of study, if available. Diversity courses may also be courses that fulfill other General Education Requirements. (3 credits if not overlapped with another General Education course)

Language/Communication (6-10 credits)

All students are required to take a sequence of two courses that provide them with advanced study of a second language other than English, or the ability to develop their skills in oral and professional communication. Students choose one of the following options below:

Option 1: A Sequence of Two Courses in a Second Language (6-10 credits)

Students complete with a grade of C- or better two terms of university-level study in a second language other than English. Exemptions will be granted to students who can demonstrate elementary proficiency in a second language through one of the following:

1. Having completed three years of high school study of a second language with a grade of B or better in each course;
2. Passing a special proficiency examination;
3. Transferring credits for two terms or more of approved university-level instruction in a second language with grades of C or better;
4. Having a native language other than English.

Option 2: A Sequence of Two Courses in Oral and Professional Communication (6 credits)

These classes advance the skills of the student to perform effectively in workplace environments or the public by communicating ideas and concepts and/or introduce students to theories that analyze and explain effective communication in these settings. Students must complete one of the following with a grade of C- or better: COMMRC 0520 or COMMRC 0500. Students select a second class from a list of approved courses.

Humanities and Arts, Social Sciences, and Natural Sciences (27 credits)

Each student is required to take nine courses in the humanities, social sciences, and natural sciences as distributed below. Such courses allow students to pursue their own interests while they explore diverse views of a broad range of human cultures, modes of thought, and bodies of knowledge. The courses that fulfill these requirements are truly courses in the disciplines that draw on the unique resources of a research university.

One course in Literature (3 credits)

By studying a range of literary and other texts in this course, students will be introduced to the techniques and methods of textual analysis and will develop critical perspectives on a variety of forms of cultural expression.

One course in the Arts (3 credits)

This course introduces students to modes of analysis appropriate to music, theater, or the visual and plastic arts. It may take the form of a survey, the study of a genre or period, or may focus on a particular artist.

One course in Creative Work (3 credits)

In this course, students are expected to produce some form of creative work, and they will also be trained in the techniques and modes of its production. The course could be situated in theater, studio arts, writing, visual arts (including photography, film), music, and dance; or it may be a course that engages in innovative or original work in relation to written, oral, or visual material, new media, social media, and other contemporary forms of communication and representation.

One course in Philosophical Thinking or Ethics (3 credits)

This course will emphasize close and critical reading of theories about knowledge, reality, humanity, and values. Courses could focus on human nature; scientific reasoning; theories of cognition and consciousness; human/social rights; competing systems of belief; morality; concepts of freedom; theories of justice; social obligations/constraints; or ethics, including applied or professional ethics.

One course in Social Sciences (3 credits)

A course that treats topics considered of significant importance in the social or behavioral sciences (including social psychology). Courses will introduce students to the subject matter and methodology of a particular discipline and will involve them in the modes of investigation, analysis, and judgment characteristically applied by practitioners.

One course in Historical Analysis (3 credits)

In this course, students will develop skills and methods by which to understand significant cultural, social, economic, or political accounts of the past. The course may focus on pivotal moments of change, or important transitions over longer periods of time. Courses could explore developments in science, technology, literature, or art, and the ideas around them, or examine critical historical shifts by analyzing various data or cultural forms.

Three courses in the Natural Sciences (9 credits)

These will be courses that introduce students to scientific principles and concepts rather than offering a simple codification of facts in a discipline or a history of a discipline. The courses may be interdisciplinary, and no more than two courses may have the same primary departmental sponsor.

Global Awareness and Cultural Understanding (9 credits)

Each student must complete three courses as distributed below:

One course in Global Issues (3 credits)

This course will examine significant issues that are global in scale. Courses could address, for example: globalization; the global and cultural impact of climate change/sustainability; the effects of and resistances to colonialism; or worldwide issues related to health, gender, ethnicity, race, technology, labor, law or the economy.

One course in a Specific Geographic Region (3 credits)

This course will be an in depth study and analysis of a particular region or locality outside the United States.

One course in Cross-Cultural Awareness (3 credits)

This course, through cross-cultural perspective, will promote knowledge of and reflection upon the cultures of Asia, the Middle East, Africa, Latin America, the Caribbean, or the indigenous peoples of the world past and present. Students

will develop an understanding of cultures, traditions, and societies that differ substantially from those that prevail in North America and Europe.

Overlapping of General Education Courses

- Courses taken for general education requirements can also be applied to major requirements, when applicable.
- Diversity courses are allowed to overlap with other general education requirements.
- Writing ('W') courses are allowed to overlap with other general education requirements except for the Professional Communication requirement.
- Students may overlap the second course in their language sequence, taken at the college level, with the Geographic Region requirement, except for American Sign Language. This does not apply to students who satisfy the Language requirement through high school study, a proficiency examination, or native proficiency.

Specialized Study (the Major) (30-36 credits)

The baccalaureate degree, in addition to providing certain skills and broad exposure to the major bodies of knowledge, also allows the opportunity to specialize in a particular field, providing depth of experience essential for vocational competence or further graduate study. An outline of each major is available on the CGS Web site, www.cgs.pitt.edu.

Students admitted to CGS can choose from the following majors. Many majors offer a combination of face-to-face and online courses.

- Administration of justice (this major is no longer accepting new students, effective Fall 2021)
- Dental hygiene (for licensed dental hygienists)
- Health services (BA and BS)
- Humanities (this major is no longer accepting new students, effective Fall 2020)
- Law, Criminal Justice, and Society
- Legal studies (this major is no longer accepting new students, effective Fall 2021)
- Liberal Studies
- Media and professional communications
- Natural sciences
- Public service
- Social sciences (this major is no longer accepting new students, effective Fall 2020)

Students who want a major in an arts and sciences field can begin in CGS and transfer to the Dietrich School of Arts and Sciences after completing 12 credits including the mathematics and seminar in composition requirements.

Admission is determined by the Dietrich School.

Electives

Any credits not used specifically to satisfy the previous requirements are considered electives. Electives can be taken in a wide variety of subjects to complement, reinforce, or add further breadth to the chosen program of study or to help meet the requirements of a minor or certificate program.

Natural Sciences, BS

The natural sciences major is a liberal arts major with a focus on courses from multiple natural sciences departments. Students customize this major to meet their interests and personal or career goals, choosing from a variety of courses with a concentration in areas, such as anthropology, biological sciences, chemistry, computer science, geology and planetary science, history and philosophy of science, mathematics, neuroscience, physics, psychology, and statistics.

Also available are a pre-medicine option (for those preparing for medical school or another health professional school); a pre-physician assistant option (for those preparing to apply to Physician Assistant education programs), and two pre-education options (for those preparing for teaching careers).

Natural Sciences Standard (Multi-Disciplinary) Major (36 credits)

Choose a minimum of 36 credits (approximately 11-12 courses, not including labs) from two to four departments below. All courses taken must be related to natural sciences and selected in consultation with your CGS advisor. At least 15 credits (approx. five courses) must be taken from one department, which provides a disciplinary base. The other courses should be selected based on your professional and academic goals and approved by your academic advisor.

- Anthropology (natural sciences-related course)
- Astronomy
- Biological Sciences
- Chemistry
- Computer science (only courses numbered 0401 and above)
- Geology and planetary science
- History and philosophy of science (natural sciences-related course)
- Mathematics (only courses numbered 0220 and above)
- Neuroscience
- Physics
- Psychology
- Statistics (0200 or 1000, and courses numbered above 1000)

Pre-Medicine Option (39 credits)

This natural sciences concentration incorporates the course work needed for admission to most medical and dental programs. Completion of this concentration does not guarantee acceptance into graduate study. Students pursuing this option can take advantage of the resources of the University of Pittsburgh's Interprofessional Center for Health Careers (PIC Health Careers) Night sections of biology, chemistry, and physics courses are available, with seats reserved specifically for CGS students.

Effective for Spring 2022 applicants and beyond: *Students must have a 3.00 GPA to be admitted into the Pre-Medicine track in the Natural Sciences major.*

- BIOSC 0150 - FOUNDATIONS OF BIOLOGY 1
- BIOSC 0050 - FOUNDATIONS OF BIOLOGY LABORATORY 1 (effective for Fall 2019: BIOSC 0057 FOUNDATIONS OF BIOLOGY RESEARCH LABORATORY 1 or BIOSC 0058 - FOUNDATIONS OF BIOLOGY SEA-PHAGES LABORATORY 1)
- BIOSC 0160 - FOUNDATIONS OF BIOLOGY 2
- BIOSC 0067 - FOUNDATIONS OF BIOLOGY RESEARCH LABORATORY 2 or BIOSC 0068
- BIOSC 1000 - BIOCHEMISTRY
- CHEM 0110 - GENERAL CHEMISTRY 1
- CHEM 0120 - GENERAL CHEMISTRY 2
- CHEM 0310 - ORGANIC CHEMISTRY 1
- CHEM 0320 - ORGANIC CHEMISTRY 2
- CHEM 0345 - ORGANIC LABORATORY
- MATH 0220 - ANALYTIC GEOMETRY AND CALCULUS 1 or STAT 1000 - APPLIED STATISTICAL METHODS

- PHYS 0110 - INTRODUCTION TO PHYSICS 1
- PHYS 0111 - INTRODUCTION TO PHYSICS 2
- PHYS 0212 - INTRODUCTION TO LABORATORY PHYSICS
Additional recommended courses for premedicine option:
- *MATH 0220 - ANALYTIC GEOMETRY AND CALCULUS 1 or STAT 1000 - APPLIED STATISTICAL METHODS (choose the course that you did not take as part of your requirements)
- BIOSC 1850 - MICROBIOLOGY
- MATH 0230 - ANALYTIC GEOMETRY AND CALCULUS 2
- NROSCI 1000 - INTRO TO NEUROSCIENCE
- NROSCI 1250 - HUMAN PHYSIOLOGY

Notes

- Requirements can vary from school to school. To ensure meeting eligibility criteria, one year of English (writing intensive) and one half year of Psychology and/or Sociology are also recommended. Consult the websites of the medical schools to which you plan to apply for their specific requirements.
- Please note also that students pursuing the Pre-Medicine track in Natural Sciences *cannot* be awarded a Chemistry minor in the Dietrich School of Arts & Sciences.

Pre-Physician Assistant Option (min. 40 credits)

The Pre-PA curriculum is designed for students who are interested in the Physician Assistant Studies Program at the University of Pittsburgh School of Health & Rehabilitation Sciences (SHRS). The Pre-PA option incorporates the prerequisite course work necessary for the application. Completion of the Pre-PA plan does not guarantee admission. For a full list of admission requirements, visit the School of Health and Rehabilitation Sciences PA program website.

Note: Requirements for other PA programs from schools other than the University of Pittsburgh may differ. Please consult their respective websites for specific admission requirements.

Effective for Spring 2022 applicants and beyond: *Students must have a 3.00 GPA to be admitted into the Pre-PA track in the Natural Sciences major.*

- BIOSC 0150 - FOUNDATIONS OF BIOLOGY 1
- BIOSC 0050 - FOUNDATIONS OF BIOLOGY LABORATORY 1 (effective Fall 2019: BIOSC 0057 FOUNDATIONS OF BIOLOGY RESEARCH LABORATORY 1 or BIOSC 0058 - FOUNDATIONS OF BIOLOGY SEA-PHAGES LABORATORY 1)
- BIOSC 0160 - FOUNDATIONS OF BIOLOGY 2
- BIOSC 0067 - FOUNDATIONS OF BIOLOGY RESEARCH LABORATORY 2 or BIOSC 0068 - FOUNDATIONS OF BIOLOGY SEA-PHAGES LABORATORY 2
- BIOSC 1850 - MICROBIOLOGY
- BIOSC 1855 - INTRODUCTION TO MICROBIOLOGY LABORATORY
- CHEM 0110 - GENERAL CHEMISTRY 1
- CHEM 0120 - GENERAL CHEMISTRY 2
- CHEM 0310 - ORGANIC CHEMISTRY 1 or CHEM 0350 - PRINCIPLES OF ORGANIC CHEMISTRY
- CHEM 0330 - ORGANIC CHEMISTRY LABORATORY 1
or CHEM 0345 - ORGANIC LABORATORY
- NUR 0012 - HUMAN ANATOMY AND PHYSIOLOGY 1
- NUR 0002 - NURSING ANATOMY AND PHYSIOLOGY LABORATORY 1
- NUR 0013 - HUMAN ANATOMY AND PHYSIOLOGY 2

- NUR 0003 - NURSING ANATOMY AND PHYSIOLOGY LABORATORY 2
- PSY 0010 - INTRODUCTION TO PSYCHOLOGY
- PSY Upper-Level Elective Course or PSY 0310 - DEVELOPMENTAL PSYCHOLOGY
- STAT 0200 - BASIC APPLIED STATISTICS *or* STAT 1000 - APPLIED STATISTICAL METHODS
Outside Major: Other Requirements
- REHSCI 1235 - MEDICAL TERMINOLOGY
- NUTR 1007 - INTRO TO HUMAN NUTRITION - Note: replaces HRS 1006 Intro to Human Nutrition, effective Summer 2024

Notes

If you are seeking to apply to the University of Pittsburgh's Physician Assistant program, the school accepts: BIOSC 0041/0042 & BIOSC 1250/1255 *or* HDD 1011/1012 & HHD 1030/1033 in place of NUR 0012/0002 & 0013/0003; NUR 0031/0032 in lieu of BIOSC 1850/1855, and NUR 0088 for the statistics requirement. You will also need a medical terminology course. See additional requirements outside the major.

Earth & Space Science Pre-Education Option (45 credits)

The natural sciences degree offers a 45-credit pre-education option in earth & space science, designed collaboratively with the School of Education. In this pre-ed option, you'll take a core special education course and a variety of geology, physics, astronomy, and math courses that will help you prepare for graduate education. This option is ideal for students interested in the Master of Arts in Teaching (MAT) in Science Education (subject area: Earth & Space Science) at Pitt. *Completion of the prerequisites for the School of Education does not guarantee acceptance to its programs.*

Note: The School of Education recommends at least a 3.0 cumulative undergraduate GPA for all of their teacher certificate programs. Please consult their Admissions page for program-specific requirements.

- ASTRON 0089 - STARS, GALAXIES AND THE COSMOS
- CHEM 0110 - GENERAL CHEMISTRY 1
- CHEM 0120 - GENERAL CHEMISTRY 2
- GEOL 0055 - GEOLOGY LABORATORY
- GEOL 0060 - HISTORY OF THE EARTH
or GEOL 1020 - SEDIMENTOLOGY AND STRATIGRAPHY
- GEOL 0800 - GEOLOGY
- GEOL 0840 - ENVIRONMENTAL SCIENCE
- GEOL 0860 - ENVIRONMENTAL GEOLOGY
- GEOL 0890 - OCEANOGRAPHY
or GEOL 1030 - THE ATMOSPHERE, OCEANS AND CLIMATE
- MATH 0220 - ANALYTIC GEOMETRY AND CALCULUS 1
- PHYS 0110 - INTRODUCTION TO PHYSICS 1
- TLL 1580 - FOUNDATIONS OF SPECIAL EDUC
- Science Electives - Subject topics will vary

General Science Pre-Education Concentration (46 credits)

Created in partnership with the School of Education, our general science pre-education concentration includes the prerequisite coursework needed for admission into the Master of Arts in Teaching (MAT) in Science Education (subject area: General Science) at Pitt. In this pre-ed option, you will take 46 credits consisting of a core

special education course and a variety of chemistry, biology, physics, astronomy, geology, and math courses that will help you prepare for science teacher certification or graduate education. *Completion of the prerequisites for the School of Education does not guarantee acceptance to the program.*

Note: The School of Education recommends at least a 3.0 cumulative undergraduate GPA for all of their teacher certificate programs. Please consult their Admissions page for program-specific requirements.

- ASTRON 0089 - STARS, GALAXIES AND THE COSMOS
- BIOSC 0150 - FOUNDATIONS OF BIOLOGY 1
- BIOSC 0050 - FOUNDATIONS OF BIOLOGY LABORATORY 1
Effective Fall 2019: BIOSC 0057 or BIOSC 0058
- BIOSC 0160 - FOUNDATIONS OF BIOLOGY 2
- BIOSC 0067 - FOUNDATIONS OF BIOLOGY RESEARCH LABORATORY 2
or BIOSC 0068 - FOUNDATIONS OF BIOLOGY SEA-PHAGES LABORATORY 2
- BIOSC 0370 - ECOLOGY
- BIOSC 1000 - BIOCHEMISTRY
or BIOSC 1850 - MICROBIOLOGY
- CHEM 0110 - GENERAL CHEMISTRY 1
- CHEM 0120 - GENERAL CHEMISTRY 2
- CHEM 0310 - ORGANIC CHEMISTRY 1
- GEOL 0800 - GEOLOGY
or GEOL 0860 - ENVIRONMENTAL GEOLOGY or another GEOL equivalent
- MATH 0220 - ANALYTIC GEOMETRY AND CALCULUS 1
- PHYS 0110 - INTRODUCTION TO PHYSICS 1
- PHYS 0111 - INTRODUCTION TO PHYSICS 2
- PHYS 0212 - INTRODUCTION TO LABORATORY PHYSICS
- TLL 1580 - FOUNDATIONS OF SPECIAL EDUC

Notes

Requirements are subject to change. Check with an academic advisor before registering.

An internship program is available through the College of General Studies. Please see your advisor for additional information.

General Education Requirements

To earn a Bachelor of Arts or a Bachelor of Science degree in the College of General Studies, you must satisfactorily complete a minimum of 120 credits (approximately 40 courses). This total consists of courses that fulfill CGS General Education Requirements as well as requirements for the students' major, minor and/or certificate.

General Education Requirements (GERs) provide you with an opportunity to discover interests you never knew you had, all while earning credits toward graduation. And, no matter what your future holds, be it a career or grad school, GERs prepare you by emphasizing skills employers want (like critical thinking, problem solving, written and oral communication) and giving you the opportunity to become more aware of our increasingly diverse and interconnected world.

The College of General Studies provides a liberal arts and pre-professional education for undergraduate students that is grounded in scholarly excellence. Pitt offers you the knowledge, understanding, analytical tools, and communication skills you need to become perceptive, reflective, and intellectually self-conscious citizens within a diverse and rapidly changing world. GERs are at the core of our education.

Our **General Education Requirements changed for students entering as of Fall 2018 (2191) term**. See the CGS General Education Requirements for Fall 2018 and afterward here or visit the CGS General Education Requirements website.

Writing (9 credits)

Written communication is central to almost all disciplines and professions. Developing written proficiency is a lifelong process, and it is especially important that undergraduate education accelerates and directs that process toward the achievement of writing skills that will provide a base appropriate for professional or graduate education or for professional employment.

Introductory Composition Course (3 credits)

Students are required to take the college-level introductory composition course ENGCMP 0200 Seminar in Composition (SC). Students are exempted from this course if they earned a 660 on the SAT Evidence-Based Reading and Writing Section and a 5 on the Advanced Placement Exam. Given the importance of establishing a sound foundation for a student's writing, all students are required to pass SC with a grade of C- or better by the time they have completed 24 credits in enrollment. (Students who do not have a 560 on the SAT or a 24 or above on the ACT might also be required to take the skill-development course ENGCMP 0150 Workshop in Composition before enrolling in SC.)

Note for students transferring from the School of Engineering into CGS: successful completion of ENGR 0012 Intro to Engineering Computing may be used in place of ENGCMP 0200 Seminar in Composition.

Two Writing Intensive Courses (6 credits if not overlapped with other General Education requirements)

Writing intensive courses (W-Courses) are designed to teach writing within a discipline through writing assignments that are distributed across the entire term. In these courses, students will produce at least 20 - 24 pages of written work. A significant portion of this work should be substantially revised in response to instructor feedback and class discussion. All students must complete two courses that are designated as 'W-Courses', or one W-Course and a second English composition course. Students should satisfy one of these requirements by taking a W-Course in their major if it is available. **Students may not transfer credits in to satisfy this requirement. W-courses can be overlapped with other General Education courses, except for Professional Communication.**

Math/Algebra (3 credits)

Mastering college-level algebra is required for all students. These skills are foundational for student success in other general education courses.

Students are exempt from having to take Algebra with a 620 SAT Math or 27 ACT Math. Students who do not meet these criteria must earn a C- or higher in MATH 0020, MATH 0025, MATH 0031, CS 0004, or CS 0007. Given the importance of establishing a sound foundation in mathematics, all students are required to satisfy the Algebra requirement by the time they have completed 30 credits in enrollment.

Quantitative and Formal Reasoning (3 credits)

All students are required to take and pass with a grade of C- or better at least one course in university-level mathematics (other than trigonometry) for which algebra is a prerequisite, or an approved course in statistics or mathematical or formal logic.

A C- or better is needed in a course that satisfies this requirement. Students who qualify for placement in an upper-level course in mathematics on a proficiency placement test are exempt.

Diversity (3 credits)

Diversity courses focus centrally and intensively on issues of diversity, and do so in a manner that promotes understanding of difference. They provide students with analytical skills with which to understand structural inequities and the knowledge to be able to participate more effectively in our increasingly diverse and multicultural society. The courses may address, though not be limited to, such issues as race, gender, ethnicity, sexuality, religious difference, and/or economic disparity.

All students must complete one course that is designated as a Diversity course but may take this course within their major field of study, if available. Diversity courses may also be courses that fulfill other General Education Requirements. (3 credits if not overlapped with another General Education course)

Language/Communication (6-10 credits)

All students are required to take a sequence of two courses that provide them with advanced study of a second language other than English, or the ability to develop their skills in oral and professional communication. Students choose one of the following options below:

Option 1: A Sequence of Two Courses in a Second Language (6-10 credits)

Students complete with a grade of C- or better two terms of university-level study in a second language other than English. Exemptions will be granted to students who can demonstrate elementary proficiency in a second language through one of the following:

1. Having completed three years of high school study of a second language with a grade of B or better in each course;
2. Passing a special proficiency examination;
3. Transferring credits for two terms or more of approved university-level instruction in a second language with grades of C or better;
4. Having a native language other than English.

Option 2: A Sequence of Two Courses in Oral and Professional Communication (6 credits)

These classes advance the skills of the student to perform effectively in workplace environments or the public by communicating ideas and concepts and/or introduce students to theories that analyze and explain effective communication in these settings. Students must complete one of the following with a grade of C- or better: COMMRC 0520 or COMMRC 0500. Students select a second class from a list of approved courses.

Humanities and Arts, Social Sciences, and Natural Sciences (27 credits)

Each student is required to take nine courses in the humanities, social sciences, and natural sciences as distributed below. Such courses allow students to pursue their own interests while they explore diverse views of a broad range of human cultures, modes of thought, and bodies of knowledge. The courses that fulfill these requirements are truly courses in the disciplines that draw on the unique resources of a research university.

One course in Literature (3 credits)

By studying a range of literary and other texts in this course, students will be introduced to the techniques and methods of textual analysis and will develop critical perspectives on a variety of forms of cultural expression.

One course in the Arts (3 credits)

This course introduces students to modes of analysis appropriate to music, theater, or the visual and plastic arts. It may take the form of a survey, the study of a genre or period, or may focus on a particular artist.

One course in Creative Work (3 credits)

In this course, students are expected to produce some form of creative work, and they will also be trained in the techniques and modes of its production. The course could be situated in theater, studio arts, writing, visual arts (including photography, film), music, and dance; or it may be a course that engages in innovative or original work in relation to written, oral, or visual material, new media, social media, and other contemporary forms of communication and representation.

One course in Philosophical Thinking or Ethics (3 credits)

This course will emphasize close and critical reading of theories about knowledge, reality, humanity, and values. Courses could focus on human nature; scientific reasoning; theories of cognition and consciousness; human/social rights; competing systems of belief; morality; concepts of freedom; theories of justice; social obligations/constraints; or ethics, including applied or professional ethics.

One course in Social Sciences (3 credits)

A course that treats topics considered of significant importance in the social or behavioral sciences (including social psychology). Courses will introduce students to the subject matter and methodology of a particular discipline and will involve them in the modes of investigation, analysis, and judgment characteristically applied by practitioners.

One course in Historical Analysis (3 credits)

In this course, students will develop skills and methods by which to understand significant cultural, social, economic, or political accounts of the past. The course may focus on pivotal moments of change, or important transitions over longer periods of time. Courses could explore developments in science, technology, literature, or art, and the ideas around them, or examine critical historical shifts by analyzing various data or cultural forms.

Three courses in the Natural Sciences (9 credits)

These will be courses that introduce students to scientific principles and concepts rather than offering a simple codification of facts in a discipline or a history of a discipline. The courses may be interdisciplinary, and no more than two courses may have the same primary departmental sponsor.

Global Awareness and Cultural Understanding (9 credits)

Each student must complete three courses as distributed below:

One course in Global Issues (3 credits)

This course will examine significant issues that are global in scale. Courses could address, for example: globalization; the global and cultural impact of climate change/sustainability; the effects of and resistances to colonialism; or worldwide issues related to health, gender, ethnicity, race, technology, labor, law or the economy.

One course in a Specific Geographic Region (3 credits)

This course will be an in depth study and analysis of a particular region or locality outside the United States.

One course in Cross-Cultural Awareness (3 credits)

This course, through cross-cultural perspective, will promote knowledge of and reflection upon the cultures of Asia, the Middle East, Africa, Latin America, the Caribbean, or the indigenous peoples of the world past and present. Students

will develop an understanding of cultures, traditions, and societies that differ substantially from those that prevail in North America and Europe.

Overlapping of General Education Courses

- Courses taken for general education requirements can also be applied to major requirements, when applicable.
- Diversity courses are allowed to overlap with other general education requirements.
- Writing ('W') courses are allowed to overlap with other general education requirements except for the Professional Communication requirement.
- Students may overlap the second course in their language sequence, taken at the college level, with the Geographic Region requirement, except for American Sign Language. This does not apply to students who satisfy the Language requirement through high school study, a proficiency examination, or native proficiency.

Specialized Study (the Major) (30-36 credits)

The baccalaureate degree, in addition to providing certain skills and broad exposure to the major bodies of knowledge, also allows the opportunity to specialize in a particular field, providing depth of experience essential for vocational competence or further graduate study. An outline of each major is available on the CGS Web site, www.cgs.pitt.edu.

Students admitted to CGS can choose from the following majors. Many majors offer a combination of face-to-face and online courses.

- Administration of justice (this major is no longer accepting new students, effective Fall 2021)
- Dental hygiene (for licensed dental hygienists)
- Health services (BA and BS)
- Humanities (this major is no longer accepting new students, effective Fall 2020)
- Law, Criminal Justice, and Society
- Legal studies (this major is no longer accepting new students, effective Fall 2021)
- Liberal Studies
- Media and professional communications
- Natural sciences
- Public service
- Social sciences (this major is no longer accepting new students, effective Fall 2020)

Students who want a major in an arts and sciences field can begin in CGS and transfer to the Dietrich School of Arts and Sciences after completing 12 credits including the mathematics and seminar in composition requirements.

Admission is determined by the Dietrich School.

Electives

Any credits not used specifically to satisfy the previous requirements are considered electives. Electives can be taken in a wide variety of subjects to complement, reinforce, or add further breadth to the chosen program of study or to help meet the requirements of a minor or certificate program.

Public Service, BA

The undergraduate major in public service is offered in partnership with the Pitt Graduate School of Public and International Affairs. It is designed to prepare students for a broad range of careers that are focused on the resolution of public problems or the delivery of public services. These careers range from those in the local government and community arena to the metropolitan region and state arena to national and international settings. Potential employers

include local, state, and federal governments; nonprofit and nongovernmental organizations at the local, regional, national, and international level; private firms engaged in working with governments; and private corporations with an active public service culture.

The major serves students who are interested in public issues as concerned and interested citizens and prepares them for a wide range of graduate programs related to public policy and management.

Major Requirements

Students must complete a minimum of 120 credits for the Bachelor of Arts degree with a major in public service. Of this total, students must take:

- 33 credits (11 courses) in public service;
- one (1) course in statistics (STAT 0200 - BASIC APPLIED STATISTICS, STAT 0800 or STAT 1000); and
- six (6) credits (two courses) in a related field such as political science, economics, psychology, sociology, or another field approved by an academic advisor. The remaining credits required for the degree are outlined in the General Education Requirements section on this page.

Core Courses (15 credits)

- PUBSRV 0020 - INTRODUCTION TO PUBLIC SERVICE
- PUBSRV 0030 - PUBLIC POLICY PROCESS
Or: PIA 0101 HOW PUBLIC POLICY WORKS: FOUNDATIONS OF PUBLIC POLICY
- PUBSRV 0040 - PUBLIC SERVICE TECHNOLOGIES
- PUBSRV 0050 - ETHICS AND ACCOUNTABILITY
- PUBSRV 1900 - INTERNSHIP SEMINAR

Concentration Areas (18 credits)

Choose one of the three concentration areas below:

Public Administration Concentration

- PUBSRV 1100 - PRACTICES IN PUBLIC ADMINISTRATION
- PUBSRV 1110 - FINANCIAL MANAGEMENT IN THE PUBLIC SECTOR
- PUBSRV 1120 - HUMAN RESOURCES MANAGEMENT IN THE PUBLIC SECTOR
- PUBSRV 1130 - PLANNING IN THE PUBLIC SECTOR
- PUBSRV - Electives (choose two additional public service courses)

Nonprofit Management Concentration

- PUBSRV 1200 - PRACTICES OF NON-PROFIT MANAGEMENT
- PUBSRV 1210 - FINANCIAL MANAGEMENT OF NON-PROFIT ORGANIZATIONS
- PUBSRV 1220 - HUMAN RESOURCE MANAGEMENT OF NON-PROFIT ORGANIZATIONS
- PUBSRV 1230 - FUNDRAISING FOR NON-PROFIT ORGANIZATIONS
- PUBSRV - Electives (choose two additional public service courses)

Note

The following courses may substitute for each other in the event of course scheduling conflicts or unavailability:
PUBSRV 1110 and PUBSRV 1210 | PUBSRV 1120 and PUBSRV 1220

Self-Designed Concentration

Courses that meet the special program needs of the student may be selected from the courses offered in public service or in a related area or department. A written plan for completing the self-designed concentration must be approved by the College of General Studies Academic Affairs Committee. The proposed plan of studies should be unique and not offered at Pitt in another facet such as another major, certificate or minor.

Public Service Electives

Public administration concentration students may use the 1200-numbered courses as electives; nonprofit management concentration students may use 1100-numbered courses. Courses designated (UHC) are offered in conjunction with the David C. Frederick Honors College.

- PIA 0201 - SKILLS FOR POLICY RESEARCH AND ANALYSIS
- PUBSRV 1300 - LEGAL ISSUES IN PUBLIC SERVICE
- PUBSRV 1305 - HEALTH, LAW AND ETHICS
- PUBSRV 1310 - DIVERSITY ISSUES IN PUBLIC SERVICE
- Or: PIA 1102 - CITY OF WHITE SUPREMACY: RACE, SPACE, AND POLICY IN AMERICAN CITIES
- PUBSRV 1315 - MANAGING PROJECTS AND CONTRACTS
- PUBSRV 1320 - GEOGRAPHIC INFORMATION SYSTEMS IN THE PUBLIC SERVICE
- PUBSRV 1340 - STRATEGIC PLANNING PUBLIC SECTOR
- PUBSRV 1390 - THEORIES OF LEADERSHIP
- PUBSRV 1425 - PRINCIPLES OF HOMELAND SECURITY
- PUBSRV 1430 - TRIAL ADVOCACY 1 (honors)
- PUBSRV 1435 - TRIAL ADVOCACY 2 (honors)
- PUBSRV 1455 - LAW, ETHICS AND PUBLIC POLICY IN THE MASS MEDIA
- PUBSRV 1901 - INDEPENDENT STUDY
- PUBSRV 1910 - INSTITUTE OF POLITICS INTERNSHIP/SEMINAR *PUBSRV 1910 may be used in place of PUBSRV 1900. Check with an academic advisor before registering*

Notes

Five-year accelerated program for Pitt undergraduates

High-achieving University of Pittsburgh juniors (and in some cases, first-term seniors) in the College of General Studies may apply early to the Graduate School of Public and International Affairs (GSPIA). If admitted, they may enroll at GSPIA in what normally would have been their senior year, allowing them to complete both a bachelor's and a master's degree in a total of five years. Special eligibility requirements apply. Pitt undergraduates interested in this program should contact GSPIA at 412-648-7640.

Please note:

This major requires that you complete an internship at a facility external to the University, and this facility may or will require a criminal background check, an Act 33/34 clearance, and perhaps a drug screen to determine whether you are qualified to participate in the internship. Additionally, in order to become licensed or employed, many states will

inquire as to whether the applicant has been convicted of a misdemeanor, a felony, or a felonious or illegal act associated with alcohol and/or substance abuse.

Students interested in a minor, rather than a major, in public service should check with their academic advisor.

Requirements subject to change. Check with an academic advisor before registering.

General Education Requirements

To earn a Bachelor of Arts or a Bachelor of Science degree in the College of General Studies, you must satisfactorily complete a minimum of 120 credits (approximately 40 courses). This total consists of courses that fulfill CGS General Education Requirements as well as requirements for the students' major, minor and/or certificate.

General Education Requirements (GERs) provide you with an opportunity to discover interests you never knew you had, all while earning credits toward graduation. And, no matter what your future holds, be it a career or grad school, GERs prepare you by emphasizing skills employers want (like critical thinking, problem solving, written and oral communication) and giving you the opportunity to become more aware of our increasingly diverse and interconnected world.

The College of General Studies provides a liberal arts and pre-professional education for undergraduate students that is grounded in scholarly excellence. Pitt offers you the knowledge, understanding, analytical tools, and communication skills you need to become perceptive, reflective, and intellectually self-conscious citizens within a diverse and rapidly changing world. GERs are at the core of our education.

Our **General Education Requirements changed for students entering as of Fall 2018 (2191) term**. See the CGS General Education Requirements for Fall 2018 and afterward here or visit the CGS General Education Requirements website.

Writing (9 credits)

Written communication is central to almost all disciplines and professions. Developing written proficiency is a lifelong process, and it is especially important that undergraduate education accelerates and directs that process toward the achievement of writing skills that will provide a base appropriate for professional or graduate education or for professional employment.

Introductory Composition Course (3 credits)

Students are required to take the college-level introductory composition course ENGCOMP 0200 Seminar in Composition (SC). Students are exempted from this course if they earned a 660 on the SAT Evidence-Based Reading and Writing Section and a 5 on the Advanced Placement Exam. Given the importance of establishing a sound foundation for a student's writing, all students are required to pass SC with a grade of C- or better by the time they have completed 24 credits in enrollment. (Students who do not have a 560 on the SAT or a 24 or above on the ACT might also be required to take the skill-development course ENGCOMP 0150 Workshop in Composition before enrolling in SC.)

Note for students transferring from the School of Engineering into CGS: successful completion of ENGR 0012 Intro to Engineering Computing may be used in place of ENGCOMP 0200 Seminar in Composition.

Two Writing Intensive Courses (6 credits if not overlapped with other General Education requirements)

Writing intensive courses (W-Courses) are designed to teach writing within a discipline through writing assignments that are distributed across the entire term. In these courses, students will produce at least 20 - 24 pages of written work. A significant portion of this work should be substantially revised in response to instructor feedback and class discussion. All students must complete two courses that are designated as 'W-Courses', or one W-Course and a second English composition course. Students should satisfy one of these requirements by taking a W-Course in their major if it is available. **Students may not transfer credits in to satisfy this requirement. W-courses can be overlapped with other General Education courses, except for Professional Communication.**

Math/Algebra (3 credits)

Mastering college-level algebra is required for all students. These skills are foundational for student success in other general education courses.

Students are exempt from having to take Algebra with a 620 SAT Math or 27 ACT Math. Students who do not meet these criteria must earn a C- or higher in MATH 0020, MATH 0025, MATH 0031, CS 0004, or CS 0007. Given the importance of establishing a sound foundation in mathematics, all students are required to satisfy the Algebra requirement by the time they have completed 30 credits in enrollment.

Quantitative and Formal Reasoning (3 credits)

All students are required to take and pass with a grade of C- or better at least one course in university-level mathematics (other than trigonometry) for which algebra is a prerequisite, or an approved course in statistics or mathematical or formal logic.

A C- or better is needed in a course that satisfies this requirement. Students who qualify for placement in an upper-level course in mathematics on a proficiency placement test are exempt.

Diversity (3 credits)

Diversity courses focus centrally and intensively on issues of diversity, and do so in a manner that promotes understanding of difference. They provide students with analytical skills with which to understand structural inequities and the knowledge to be able to participate more effectively in our increasingly diverse and multicultural society. The courses may address, though not be limited to, such issues as race, gender, ethnicity, sexuality, religious difference, and/or economic disparity.

All students must complete one course that is designated as a Diversity course but may take this course within their major field of study, if available. Diversity courses may also be courses that fulfill other General Education Requirements. (3 credits if not overlapped with another General Education course)

Language/Communication (6-10 credits)

All students are required to take a sequence of two courses that provide them with advanced study of a second language other than English, or the ability to develop their skills in oral and professional communication. Students choose one of the following options below:

Option 1: A Sequence of Two Courses in a Second Language (6-10 credits)

Students complete with a grade of C- or better two terms of university-level study in a second language other than English. Exemptions will be granted to students who can demonstrate elementary proficiency in a second language through one of the following:

1. Having completed three years of high school study of a second language with a grade of B or better in each course;

2. Passing a special proficiency examination;
3. Transferring credits for two terms or more of approved university-level instruction in a second language with grades of C or better;
4. Having a native language other than English.

Option 2: A Sequence of Two Courses in Oral and Professional Communication (6 credits)

These classes advance the skills of the student to perform effectively in workplace environments or the public by communicating ideas and concepts and/or introduce students to theories that analyze and explain effective communication in these settings. Students must complete one of the following with a grade of C- or better: COMMRC 0520 or COMMRC 0500. Students select a second class from a list of approved courses.

Humanities and Arts, Social Sciences, and Natural Sciences (27 credits)

Each student is required to take nine courses in the humanities, social sciences, and natural sciences as distributed below. Such courses allow students to pursue their own interests while they explore diverse views of a broad range of human cultures, modes of thought, and bodies of knowledge. The courses that fulfill these requirements are truly courses in the disciplines that draw on the unique resources of a research university.

One course in Literature (3 credits)

By studying a range of literary and other texts in this course, students will be introduced to the techniques and methods of textual analysis and will develop critical perspectives on a variety of forms of cultural expression.

One course in the Arts (3 credits)

This course introduces students to modes of analysis appropriate to music, theater, or the visual and plastic arts. It may take the form of a survey, the study of a genre or period, or may focus on a particular artist.

One course in Creative Work (3 credits)

In this course, students are expected to produce some form of creative work, and they will also be trained in the techniques and modes of its production. The course could be situated in theater, studio arts, writing, visual arts (including photography, film), music, and dance; or it may be a course that engages in innovative or original work in relation to written, oral, or visual material, new media, social media, and other contemporary forms of communication and representation.

One course in Philosophical Thinking or Ethics (3 credits)

This course will emphasize close and critical reading of theories about knowledge, reality, humanity, and values. Courses could focus on human nature; scientific reasoning; theories of cognition and consciousness; human/social rights; competing systems of belief; morality; concepts of freedom; theories of justice; social obligations/constraints; or ethics, including applied or professional ethics.

One course in Social Sciences (3 credits)

A course that treats topics considered of significant importance in the social or behavioral sciences (including social psychology). Courses will introduce students to the subject matter and methodology of a particular discipline and will involve them in the modes of investigation, analysis, and judgment characteristically applied by practitioners.

One course in Historical Analysis (3 credits)

In this course, students will develop skills and methods by which to understand significant cultural, social, economic, or political accounts of the past. The course may focus on pivotal moments of change, or important transitions over longer periods of time. Courses could explore developments in science, technology, literature, or art, and the ideas around them, or examine critical historical shifts by analyzing various data or cultural forms.

Three courses in the Natural Sciences (9 credits)

These will be courses that introduce students to scientific principles and concepts rather than offering a simple codification of facts in a discipline or a history of a discipline. The courses may be interdisciplinary, and no more than two courses may have the same primary departmental sponsor.

Global Awareness and Cultural Understanding (9 credits)

Each student must complete three courses as distributed below:

One course in Global Issues (3 credits)

This course will examine significant issues that are global in scale. Courses could address, for example: globalization; the global and cultural impact of climate change/sustainability; the effects of and resistances to colonialism; or worldwide issues related to health, gender, ethnicity, race, technology, labor, law or the economy.

One course in a Specific Geographic Region (3 credits)

This course will be an in depth study and analysis of a particular region or locality outside the United States.

One course in Cross-Cultural Awareness (3 credits)

This course, through cross-cultural perspective, will promote knowledge of and reflection upon the cultures of Asia, the Middle East, Africa, Latin America, the Caribbean, or the indigenous peoples of the world past and present. Students will develop an understanding of cultures, traditions, and societies that differ substantially from those that prevail in North America and Europe.

Overlapping of General Education Courses

- Courses taken for general education requirements can also be applied to major requirements, when applicable.
- Diversity courses are allowed to overlap with other general education requirements.
- Writing ('W') courses are allowed to overlap with other general education requirements except for the Professional Communication requirement.
- Students may overlap the second course in their language sequence, taken at the college level, with the Geographic Region requirement, except for American Sign Language. This does not apply to students who satisfy the Language requirement through high school study, a proficiency examination, or native proficiency.

Specialized Study (the Major) (30-36 credits)

The baccalaureate degree, in addition to providing certain skills and broad exposure to the major bodies of knowledge, also allows the opportunity to specialize in a particular field, providing depth of experience essential for vocational competence or further graduate study. An outline of each major is available on the CGS Web site, www.cgs.pitt.edu.

Students admitted to CGS can choose from the following majors. Many majors offer a combination of face-to-face and online courses.

- Administration of justice (this major is no longer accepting new students, effective Fall 2021)
- Dental hygiene (for licensed dental hygienists)
- Health services (BA and BS)
- Humanities (this major is no longer accepting new students, effective Fall 2020)
- Law, Criminal Justice, and Society
- Legal studies (this major is no longer accepting new students, effective Fall 2021)

- Liberal Studies
- Media and professional communications
- Natural sciences
- Public service
- Social sciences (this major is no longer accepting new students, effective Fall 2020)
Students who want a major in an arts and sciences field can begin in CGS and transfer to the Dietrich School of Arts and Sciences after completing 12 credits including the mathematics and seminar in composition requirements. Admission is determined by the Dietrich School.

Electives

Any credits not used specifically to satisfy the previous requirements are considered electives. Electives can be taken in a wide variety of subjects to complement, reinforce, or add further breadth to the chosen program of study or to help meet the requirements of a minor or certificate program.

Social Sciences, BA

The CGS Social Sciences major was phased out beginning Fall 2020 and is no longer accepting new students. Inactive students will be able to re-enroll in this major no later than Spring 2023. All students enrolled in the program must complete their degrees by Fall 2028.

Social sciences is a liberal arts major with a focus on courses from three social sciences departments. This major can be customized to meet your interests and personal or career goals. You will choose to concentrate in three areas from the list below and have the opportunity to take a variety of courses within those areas of study.

Also available is a pre-education option for those preparing for a teaching career.

Social Sciences Standard Major (36 credits)

Of the minimum total of 120 credits required for the Bachelor of Arts degree with a major in social sciences area, 36 credits (approximately 12 courses) must come in courses that satisfy the major requirements. To satisfy those requirements, students choose social sciences related courses from three of the following departments and programs.

- Africana studies (social sciences-related courses)
- Anthropology (social sciences-related courses)
- Economics
- Gender, Sexuality, and Women's Studies
- History
- Jewish Studies
- Legal Studies
- Political Science
- Psychology (social sciences-related courses)
- Religious Studies (social sciences-related courses)
- Sociology
- Urban Studies

Notes

Students must adhere to the following requirements as they take courses for the social sciences standard major:

- At least five courses must be taken from one department/program listed above and at least three courses from the other two departments/programs.
- At least one half of the major courses must be at the 1000-level.
- All courses selected for the social sciences area major must be approved by an academic advisor.

Pre-Education Option (36 credits)

The College of General Studies and the Pitt School of Education have collaborated on a concentration in the social sciences major that incorporates the prerequisite science course work needed for admission into the certificate program in Social Studies Education. This option may be used by students interested in the Master of Arts in Teaching (MAT) program and Professional Year (PY) Program offered in the School of Education. Completion of the prerequisites for the School of Education does not guarantee acceptance to its programs.

Students must complete a minimum of 120 credits (approximately 40 courses) for a Bachelor of Science degree with a major in social sciences. Of this total, students must take a minimum of 36 credits (approximately 12 courses) according to the specifications. At least 18-credit hours must be at the 1000-level. The remaining credits required for the degree are outlined in the General Education Requirements section on this page.

Area 1: History, Geography, Culture (15-18 credits)

Recommended courses: choose one per category.

U.S. History

- HIST 0600 - UNITED STATES TO 1877
- HIST 0601 - UNITED STATES 1865-PRESENT
- HIST 0670 - AFRICAN AMERICAN HISTORY TO 1877
- HIST 0671 - AFRICAN AMERICAN HISTORY SINCE 1865
- HIST 1610 - UNITED STATES COLONIAL
- HIST 1611 - AMERICAN REVOLUTION 1763-1791
- HIST 1619 - UNITED STATES SINCE 1945

Western European History

- HIST 0100 - WESTERN CIVILIZATION 1
- HIST 0101 - WESTERN CIVILIZATION 2

World History (Non-Western)

- HIST 0700 - WORLD HISTORY

Ancient History

- CLASS 0020 - ROMAN CIVILIZATION
- HIST 0400 - EAST ASIAN CIVILIZATION TO 1800
- HIST 1775 - ORIGINS OF CHRISTIANITY
- HIST 1781 - ROMAN HISTORY
- HIST 1783 - GREEK HISTORY

Geography

- AFRCNA 0385 - CARIBBEAN HISTORY
- HIST 0401 - MODERN EAST ASIAN CIVILIZATION
- HIST 0501 - MODERN LATIN AMERICA
- HIST 1614 - CIVIL WAR HISTORY
- HIST 1164 - SMALL COUNTRIES AND THE EUROPEAN UNION

World Cultures

- ANTH 0780 - INTRODUCTION TO CULTURAL ANTHROPOLOGY
- HIST 0501 - MODERN LATIN AMERICA
- HIST 1423 - MODERN CHINA
- HIST 1433 - MODERN JAPAN
- HIST 1796 - HISTORY OF AFRICA SINCE 1800

Area 2: Civics (3 credits)

Recommended courses.

- HIST 1641 - MODERN AMERICAN POLITICS
- PS 0200 - AMERICAN POLITICS
- PS 1231 - POLITICAL PARTIES AND ELECTIONS
- PS 1234 - ELECTORAL BEHAVIORS AND DEMOCRATIC PROCESS
- PS 1252 - STATE GOVERNMENT
- PS 1378 - CHALLENGES TO DEMOCRACY AND ITS INSTITUTIONS

Area 3: Economics (3 credits)

Recommended courses.

- ECON 0100 - INTRODUCTION TO MICROECONOMIC THEORY
- ECON 0110 - INTRODUCTION TO MACROECONOMIC THEORY
- ECON 0800 - INTRODUCTION TO ECONOMICS

Area 4: Sociology and Social Foundations (3 credits)

Recommended courses.

- EFOP 1001 - SOCIAL FOUNDATIONS OF EDUCATION
- SOC 0005 - SOCIETIES

- SOC 0010 - INTRODUCTION TO SOCIOLOGY
- SOC 1107 - CULTURAL SOCIOLOGY

Area 5: Foundations of Special Education (3 credits)

Required course.

- TLL 1580 - FOUNDATIONS OF SPECIAL EDUC

Upper Level Electives (6 credits)

Recommended courses.

- GSWS 1180 - POLITICS OF GENDER AND FOOD
- LCJS 1584 - LEGAL ISSUES IN PUBLIC SERVICE
- LCJS 1300 - LAW AND POLITICS
- LEGLST 1320 - LAW AND ENVIRONMENT
- PS 1536 - HUMAN SECURITY
- PS 1542 - GLOBAL ENVIRONMENTAL POLITICS
- SOC 1119 - GLOBAL PERSPECTIVES ON POPULAR CULTURE
- SOC 1445 - SOCIETY AND ENVIRONMENT
- SOC 1448 - WORKING WOMEN

Notes

- All courses selected for the social studies pre-education track must be approved by an academic advisor.
- At least half of these courses must be upper-division (1000-level) courses.
- Students are also encouraged to participate in an internship during their degree program and may fulfill some CGS general education and major requirements by completing a study abroad program. Requirements are subject to change. Check with an academic advisor before registering.

An internship program is available through the College of General Studies. Please see your advisor for additional information.

General Education Requirements

To earn a Bachelor of Arts or a Bachelor of Science degree in the College of General Studies, you must satisfactorily complete a minimum of 120 credits (approximately 40 courses). This total consists of courses that fulfill CGS General Education Requirements as well as requirements for the students' major, minor and/or certificate.

General Education Requirements (GERs) provide you with an opportunity to discover interests you never knew you had, all while earning credits toward graduation. And, no matter what your future holds, be it a career or grad school, GERs prepare you by emphasizing skills employers want (like critical thinking, problem solving, written and oral communication) and giving you the opportunity to become more aware of our increasingly diverse and interconnected world.

The College of General Studies provides a liberal arts and pre-professional education for undergraduate students that is grounded in scholarly excellence. Pitt offers you the knowledge, understanding, analytical tools, and communication

skills you need to become perceptive, reflective, and intellectually self-conscious citizens within a diverse and rapidly changing world. GERs are at the core of our education.

Our **General Education Requirements changed for students entering as of Fall 2018 (2191) term**. See the CGS General Education Requirements for Fall 2018 and afterward here or visit the CGS General Education Requirements website.

Writing (9 credits)

Written communication is central to almost all disciplines and professions. Developing written proficiency is a lifelong process, and it is especially important that undergraduate education accelerates and directs that process toward the achievement of writing skills that will provide a base appropriate for professional or graduate education or for professional employment.

Introductory Composition Course (3 credits)

Students are required to take the college-level introductory composition course ENGCOMP 0200 Seminar in Composition (SC). Students are exempted from this course if they earned a 660 on the SAT Evidence-Based Reading and Writing Section and a 5 on the Advanced Placement Exam. Given the importance of establishing a sound foundation for a student's writing, all students are required to pass SC with a grade of C- or better by the time they have completed 24 credits in enrollment. (Students who do not have a 560 on the SAT or a 24 or above on the ACT might also be required to take the skill-development course ENGCOMP 0150 Workshop in Composition before enrolling in SC.)

Note for students transferring from the School of Engineering into CGS: successful completion of ENGR 0012 Intro to Engineering Computing may be used in place of ENGCOMP 0200 Seminar in Composition.

Two Writing Intensive Courses (6 credits if not overlapped with other General Education requirements)

Writing intensive courses (W-Courses) are designed to teach writing within a discipline through writing assignments that are distributed across the entire term. In these courses, students will produce at least 20 - 24 pages of written work. A significant portion of this work should be substantially revised in response to instructor feedback and class discussion. All students must complete two courses that are designated as 'W-Courses', or one W-Course and a second English composition course. Students should satisfy one of these requirements by taking a W-Course in their major if it is available. **Students may not transfer credits in to satisfy this requirement. W-courses can be overlapped with other General Education courses, except for Professional Communication.**

Math/Algebra (3 credits)

Mastering college-level algebra is required for all students. These skills are foundational for student success in other general education courses.

Students are exempt from having to take Algebra with a 620 SAT Math or 27 ACT Math. Students who do not meet these criteria must earn a C- or higher in MATH 0020, MATH 0025, MATH 0031, CS 0004, or CS 0007. Given the importance of establishing a sound foundation in mathematics, all students are required to satisfy the Algebra requirement by the time they have completed 30 credits in enrollment.

Quantitative and Formal Reasoning (3 credits)

All students are required to take and pass with a grade of C- or better at least one course in university-level mathematics (other than trigonometry) for which algebra is a prerequisite, or an approved course in statistics or mathematical or formal logic.

A C- or better is needed in a course that satisfies this requirement. Students who qualify for placement in an upper-level course in mathematics on a proficiency placement test are exempt.

Diversity (3 credits)

Diversity courses focus centrally and intensively on issues of diversity, and do so in a manner that promotes understanding of difference. They provide students with analytical skills with which to understand structural inequities and the knowledge to be able to participate more effectively in our increasingly diverse and multicultural society. The courses may address, though not be limited to, such issues as race, gender, ethnicity, sexuality, religious difference, and/or economic disparity.

All students must complete one course that is designated as a Diversity course but may take this course within their major field of study, if available. Diversity courses may also be courses that fulfill other General Education Requirements. (3 credits if not overlapped with another General Education course)

Language/Communication (6-10 credits)

All students are required to take a sequence of two courses that provide them with advanced study of a second language other than English, or the ability to develop their skills in oral and professional communication. Students choose one of the following options below:

Option 1: A Sequence of Two Courses in a Second Language (6-10 credits)

Students complete with a grade of C- or better two terms of university-level study in a second language other than English. Exemptions will be granted to students who can demonstrate elementary proficiency in a second language through one of the following:

1. Having completed three years of high school study of a second language with a grade of B or better in each course;
2. Passing a special proficiency examination;
3. Transferring credits for two terms or more of approved university-level instruction in a second language with grades of C or better;
4. Having a native language other than English.

Option 2: A Sequence of Two Courses in Oral and Professional Communication (6 credits)

These classes advance the skills of the student to perform effectively in workplace environments or the public by communicating ideas and concepts and/or introduce students to theories that analyze and explain effective communication in these settings. Students must complete one of the following with a grade of C- or better: COMMRC 0520 or COMMRC 0500. Students select a second class from a list of approved courses.

Humanities and Arts, Social Sciences, and Natural Sciences (27 credits)

Each student is required to take nine courses in the humanities, social sciences, and natural sciences as distributed below. Such courses allow students to pursue their own interests while they explore diverse views of a broad range of human cultures, modes of thought, and bodies of knowledge. The courses that fulfill these requirements are truly courses in the disciplines that draw on the unique resources of a research university.

One course in Literature (3 credits)

By studying a range of literary and other texts in this course, students will be introduced to the techniques and methods of textual analysis and will develop critical perspectives on a variety of forms of cultural expression.

One course in the Arts (3 credits)

This course introduces students to modes of analysis appropriate to music, theater, or the visual and plastic arts. It may take the form of a survey, the study of a genre or period, or may focus on a particular artist.

One course in Creative Work (3 credits)

In this course, students are expected to produce some form of creative work, and they will also be trained in the techniques and modes of its production. The course could be situated in theater, studio arts, writing, visual arts (including photography, film), music, and dance; or it may be a course that engages in innovative or original work in relation to written, oral, or visual material, new media, social media, and other contemporary forms of communication and representation.

One course in Philosophical Thinking or Ethics (3 credits)

This course will emphasize close and critical reading of theories about knowledge, reality, humanity, and values. Courses could focus on human nature; scientific reasoning; theories of cognition and consciousness; human/social rights; competing systems of belief; morality; concepts of freedom; theories of justice; social obligations/constraints; or ethics, including applied or professional ethics.

One course in Social Sciences (3 credits)

A course that treats topics considered of significant importance in the social or behavioral sciences (including social psychology). Courses will introduce students to the subject matter and methodology of a particular discipline and will involve them in the modes of investigation, analysis, and judgment characteristically applied by practitioners.

One course in Historical Analysis (3 credits)

In this course, students will develop skills and methods by which to understand significant cultural, social, economic, or political accounts of the past. The course may focus on pivotal moments of change, or important transitions over longer periods of time. Courses could explore developments in science, technology, literature, or art, and the ideas around them, or examine critical historical shifts by analyzing various data or cultural forms.

Three courses in the Natural Sciences (9 credits)

These will be courses that introduce students to scientific principles and concepts rather than offering a simple codification of facts in a discipline or a history of a discipline. The courses may be interdisciplinary, and no more than two courses may have the same primary departmental sponsor.

Global Awareness and Cultural Understanding (9 credits)

Each student must complete three courses as distributed below:

One course in Global Issues (3 credits)

This course will examine significant issues that are global in scale. Courses could address, for example: globalization; the global and cultural impact of climate change/sustainability; the effects of and resistances to colonialism; or worldwide issues related to health, gender, ethnicity, race, technology, labor, law or the economy.

One course in a Specific Geographic Region (3 credits)

This course will be an in depth study and analysis of a particular region or locality outside the United States.

One course in Cross-Cultural Awareness (3 credits)

This course, through cross-cultural perspective, will promote knowledge of and reflection upon the cultures of Asia, the Middle East, Africa, Latin America, the Caribbean, or the indigenous peoples of the world past and present. Students will develop an understanding of cultures, traditions, and societies that differ substantially from those that prevail in North America and Europe.

Overlapping of General Education Courses

- Courses taken for general education requirements can also be applied to major requirements, when applicable.
- Diversity courses are allowed to overlap with other general education requirements.
- Writing ('W') courses are allowed to overlap with other general education requirements except for the Professional Communication requirement.
- Students may overlap the second course in their language sequence, taken at the college level, with the Geographic Region requirement, except for American Sign Language. This does not apply to students who satisfy the Language requirement through high school study, a proficiency examination, or native proficiency.

Specialized Study (the Major) (30-36 credits)

The baccalaureate degree, in addition to providing certain skills and broad exposure to the major bodies of knowledge, also allows the opportunity to specialize in a particular field, providing depth of experience essential for vocational competence or further graduate study. An outline of each major is available on the CGS Web site, www.cgs.pitt.edu.

Students admitted to CGS can choose from the following majors. Many majors offer a combination of face-to-face and online courses.

- Administration of justice (this major is no longer accepting new students, effective Fall 2021)
- Dental hygiene (for licensed dental hygienists)
- Health services (BA and BS)
- Humanities (this major is no longer accepting new students, effective Fall 2020)
- Law, Criminal Justice, and Society
- Legal studies (this major is no longer accepting new students, effective Fall 2021)
- Liberal Studies
- Media and professional communications
- Natural sciences
- Public service
- Social sciences (this major is no longer accepting new students, effective Fall 2020)

Students who want a major in an arts and sciences field can begin in CGS and transfer to the Dietrich School of Arts and Sciences after completing 12 credits including the mathematics and seminar in composition requirements. Admission is determined by the Dietrich School.

Electives

Any credits not used specifically to satisfy the previous requirements are considered electives. Electives can be taken in a wide variety of subjects to complement, reinforce, or add further breadth to the chosen program of study or to help meet the requirements of a minor or certificate program.

Minor

Administration of Justice Minor

In Fall 2022, the Administration of Justice Minor was terminated. Students pursuing the Administration of Justice Minor will have until Summer 2028 to complete the program requirements. If you are not yet a minor but wish to pursue a similar course of study, then the new Law, Criminal Justice, and Society (LCJS) Minor is likely to be a good fit for you.

Current Pitt students interested in a CGS minor, rather than a major, in administration of justice should declare the minor by completing the CGS minor/certificate declaration form online. If you are a CGS student interested in adding this minor, please contact your CGS advisor.

Minor Requirements (15 credits)

Students must complete five courses (15 credits) with at least three courses from the University of Pittsburgh. A 2.0 average is required in the minor. Courses used for a minor cannot overlap with courses used for a major, minor, or a certificate.

Important: Changes to ADMJ Courses

Beginning Spring 2022 (2224), Administration of Justice courses have been renumbered and retitled with LCJS as their subject code. These courses count the same as their former ADMJ or LEGLST equivalent for Administration of Justice majors and minors.

Required Courses

- LCJS 1400 - THE SYSTEM OF CRIMINAL JUSTICE
Formerly: ADMJ 0500 Introduction to Administration of Justice
- LCJS 1200 - CRIMINAL LAW Formerly: ADMJ 1400 Introduction to Criminal Law
- LCJS Electives
See Administration of Justice minor page for current list of electives.

Law, Criminal Justice, and Society (LCJS) Minor

A 15-credit minor in Law, Criminal Justice, and Society (LCJS) provides students from around the University an opportunity to pursue a sustained course of interdisciplinary study focused on the intersection of law, criminal justice, and society. The LCJS minor is structured so that students can emphasize law-oriented courses or those more squarely focused on criminal justice. Whichever pathway an LCJS minor charts, they will complete a foundations course that situates law and criminal justice in a broader social and historical context.

Current Pitt students interested in a CGS minor in Law, Criminal Justice, & Society (LCJS) should declare the minor by completing the CGS minor/certificate declaration form online. If you are a CGS student interested in adding this minor, please contact your CGS advisor.

Minor Requirements

In order to complete the minor, you will take 15 LCJS credits (five courses), as outlined below.

- At least three courses must be from the University of Pittsburgh.
- A 2.0 average GPA is required.

- Courses used for a minor cannot overlap with courses used for a major, minor, or a certificate.
- To be eligible for the LCJS internship, you must have completed all 9 non-elective credits in the LCJS minor. Students may apply up to 3 credits of LCJS 1900 to the LCJS minor.

LCJS Foundations: (3 credits)

Students must complete one of the following courses:

- LCJS 0100 - INTRODUCTION TO LAW, CRIMINAL JUSTICE, & SOCIETY
- LCJS 0200 - RACE, CLASS, GENDER, & THE LAW

Theories of Crime / Criminal Law: (3 credits)

Students must complete one of the following courses:

- LCJS 1100 - CRIMINOLOGY
- LCJS 1110 - CRIMINOLOGICAL THEORY
- LCJS 1120 - Crime Prevention
- LCJS 1200 - CRIMINAL LAW
- LCJS 1210 - CRIMINAL PROCEDURE

Criminal Justice and Legal Institutions: (3 credits)

Students must complete one of the following courses:

- LCJS 1400 - THE SYSTEM OF CRIMINAL JUSTICE
- LCJS 1410 - LAW ENFORCEMENT AND POLICING
- LCJS 1420 - CORRECTIONS
- LCJS 1430 - THE JUVENILE JUSTICE PROCESS
- LCJS 1580 - THE LEGAL SYSTEM

LCJS Electives: (6 credits)

Students must complete two other courses with the subject code LCJS.

Total Credits: 15

Legal Studies Minor

In Fall 2022, the Legal Studies Minor was terminated. Students pursuing the Legal Studies Minor will have until Summer 2028 to complete the program requirements. If you are not yet a minor but wish to pursue a similar course of study, then the new Law, Criminal Justice, and Society (LCJS) Minor is likely to be a good fit for you.

Current Pitt students interested in a CGS minor, rather than a major, in legal studies should declare the minor by completing the CGS minor/certificate declaration form online. If you are a CGS student interested in adding this minor, please contact your CGS advisor.

Minor requirements:

For the minor, students must complete five courses (15 credits) with at least three courses from the University of Pittsburgh. A 2.0 average is required in the minor. Courses used for a minor cannot overlap with courses used for a major, minor, or a certificate.

Important: Changes to LEGLST Courses

Beginning Spring 2022 (2224), Legal Studies and Administration of Justice courses have been renumbered and retitled with LCJS as their subject code. These courses count the same as their former LEGLST or ADMJ equivalent for Legal Studies majors and minors.

Required Courses

- LCJS 1580 - THE LEGAL SYSTEM Formerly: LEGLST 0080 - Introduction to Legal Studies
LCJS Elective Courses

See the Legal Studies minor page for a list of approved electives.

Public Service Minor

Current Pitt students interested in a CGS minor, rather than a major, in public service should declare the minor by completing the CGS minor/certificate declaration form online. If you are a CGS student interested in adding this minor, please contact your CGS advisor.

Minor Requirements

For the minor, students must complete five courses (15 credits) with at least three courses from the University of Pittsburgh. A 2.0 average is required in the minor. Courses used for a minor cannot overlap with courses used for a major, minor, or a certificate.

Required courses:

- PUBSRV 0020 - INTRODUCTION TO PUBLIC SERVICE
- PUBSRV 0030 - PUBLIC POLICY PROCESS
Or: PIA 0101 HOW PUBLIC POLICY WORKS: FOUNDATIONS OF PUBLIC POLICY
- PUBSRV 0050 - ETHICS AND ACCOUNTABILITY
- PUBSRV Elective Courses

See the Public Service minor page for a list of approved electives.

Note:

Requirements are subject to change. Check with an academic advisor before registering.

Advising and Career Services Program and Course Offerings

The mission of the Graduate School of Public and International Affairs (GSPIA) is to prepare students to make substantive contributions to society through careers as managers, advisors, and policy analysts in government and nonprofit organizations in a multitude of geographic locations throughout the world. This mission is accomplished through dedication to quality teaching that builds skills and commitments to the core values, challenges, and rewards of public service. It is supported through basic and applied research on timely issues of public management; international, regional, and urban affairs; and policy making. The school and faculty are committed to making a difference in the world by drawing on diverse skills and knowledge to improve the performance of public and nonprofit organizations that contribute to free and just societies in the United States and abroad. To accomplish these ends, GSPIA teaches, conducts research, and performs public service in the following areas:

- The management and administration of public and nonprofit agencies
 - The growth and sustainable development of urban metropolitan regions throughout the world
 - The economic and social development of newly independent and developing states
 - The emerging dynamics that are shaping today's international political economy
 - Threats to and issues in international security
- The mission of GSPIA stresses the importance of democratic responsibilities and personal integrity in the management of human affairs as well as the professional qualifications required for managing constructive change. Students and faculty alike are required to:

- Demonstrate the highest standards of ethical and professional conduct
- Use critical thinking and problem solving skills in addressing public policy issues
- Consider the international and intersectoral aspects of public affairs
- Develop partnerships with others both internal and external to the University of Pittsburgh

Advising and Career Services

Academic Advising: Each student is assigned a faculty advisor based on, whenever possible, the compatibility of student and faculty academic interests. Faculty advisors assure that students, through proper course selection, can make productive use of the resources of the school and the University during their period of residence. In addition, faculty

advisors are responsible for counseling their advisees about career opportunities in the student's area of study; for counseling advisees who have been placed on probation; and for approving the advisee's school-wide required and elective courses, proposed thesis or dissertation topics, and supervised internships. Advisors and students monitor academic progress and identify areas where corrective action on the part of students may be required. It is essential, therefore, that students consult periodically with their advisors. Unless students subsequently request a change, faculty members originally assigned will continue as advisors throughout the students' program of study. If, however, a change in faculty advisor is requested, students must obtain the signed approval of the new advisors. Based on a student-focused approach, we provide students with an academic advisor who serves as the first point of contact for class registration, financial aid application and preparation for graduation. Additionally, academic advisors support students by providing information necessary to navigate the logistical challenges of graduate school and connect students to resources at the University of Pittsburgh.

Career Services: GSPIA places great emphasis on assisting students in determining the best and most appropriate positions available. In addition to faculty advisors, the school provides resources and guidance for students throughout their course of study as they devise strategies to identify professional opportunities. Among the many services offered through Career Services are individual career advising, internship and job search assistance, and a series of career-related workshops and special events. Extensive reference materials on jobs, fellowships, and internships are made available in a variety of ways, including GSPIA Career Launch, GSPIA's online career management system for students and alumni. Workshops cover such topics as resume preparation, job search strategies, negotiation skills, networking, and using technology in securing employment. Special events include Foreign Service information sessions, mock interviews for the Presidential Management Fellowship Program, an internship fair, and networking events with alumni, foundations, and agency representatives on campus and in Washington, D.C.

Program and Course Offerings

Certificate

Nonprofit Management Certificate

The GSPIA certificate in Nonprofit Management will give students the skills and experience they need to translate knowledge into impact. The certificate program will enable students to connect their area of interest/study with meaningful impact in the nonprofit sector.

The certificate will expose students to the role and power of nonprofits in affecting meaningful social change. Students will study the features and practices of nonprofit organizations, how these organizations are managed and sustained, the strategies social entrepreneurs use to form and fund them, and ways they leverage volunteers' passions, interests, and talents to achieve their missions. Students will have the opportunity to learn core nonprofit management skills and engage with local nonprofit organizations connected to their field of study through service-learning projects and a capstone experience. The credential will offer a blend of lecture-based and experiential learning to meet students' needs and interests for more hands-on training and experience. The certificate will be a total of 18 credits.

Required courses

12 credits

- PIA 1004 - NONPROFIT MANAGEMENT CAPSTONE
- PIA 0202 - PROGRAM DESIGN & EVALUATION
- PIA 0401 - RESOURCE DEVELOPMENT: GRANT WRITING, FUNDRAISING & SOCIAL ENTREPRENEURSHIP
- PIA 0501 - FOUNDATIONS OF THE NONPROFIT SECTOR

Nonprofit Management electives

Take six credits of approved electives.

Total Credits: 18

Minor

Global Policy Minor

The minor will give students an understanding of global policy issues and will help students also develop analytical tools essential for comprehending and addressing complex global problems. Practical application will be emphasized through activities such as crafting policy memos, utilizing data for decision-making, and connecting with practitioners in the field. By scrutinizing international efforts to date and proposing innovative solutions, students will not only deepen their knowledge of global challenges but also acquire practical skills to actively contribute to their resolution. The minor will enable students to understand the cause and structure of a broad set of global challenges, with an eye towards eventually participating in their management or resolution.

Potential career pathways for students graduating with a minor in global policy include diplomatic, foreign policy, and international relations roles, security and intelligence work (for government agencies or private firms), policy analysis and research (for global think tanks, research and advocacy organizations), roles in global education, health, business and environmental initiatives/organizations, to name a few.

Course Curriculum

Required Courses: 3 credits

- PIA 0102 - GLOBAL CHALLENGES, GLOBAL SOLUTIONS: INTRODUCTION TO GLOBAL POLICY

Electives: 12 credits

Students will choose 4 electives. Three of these electives must come from GSPIA or a GSPIA-approved study abroad experience.

Students may fulfill 3 credits toward the electives based on additional relevant course work from other units with approval from the undergraduate program coordinator and lead GSPIA faculty member. This includes language coursework, study abroad, policy-related courses, regionally focused courses, or other skills-based courses.

Globally Focused Electives

Current globally focused elected classes. Additional electives to be developed over time.

- PIA 1103 - INTERNATIONAL BUSINESS & POLITICS
- PIA 1104 - VIOLENT POLITICS & POLICY RESPONSES
- PIA 1106 - THE WAR ON DRUGS
- PIA 1107 - GLOBAL PERSPECTIVES ON LABOR MIGRATION: ECONOMICS, POLITICS & POLICY

Skills Based Electives

The following skills-based electives can also count toward the global policy minor.

- PIA 0201 - SKILLS FOR POLICY RESEARCH AND ANALYSIS
- PIA 0202 - PROGRAM DESIGN & EVALUATION
- PIA 0501 - FOUNDATIONS OF THE NONPROFIT SECTOR
- PIA 1001 - INTERNSHIP SEMINAR
- PIA 1003 - PUBLIC POLICY CAPSTONE

Total Credits: 15

Public Policy Minor

The 15-credit minor in Public Policy equips students with the necessary skills and experience to transform knowledge into tangible impact. This program enhances students' primary degree or major by enabling them to bridge their area of study with meaningful contributions in the public, private, and nonprofit sectors.

Public policy processes and decisions have a profound influence on every facet of society, ranging from the provision of police services and advancements in civil rights to the safety of our water and food supplies, as well as our endeavors in space exploration. Through this minor, students will develop an understanding of how leaders at various levels of government assess and tackle contemporary challenges.

Students who pursue a minor in Public Policy will learn:

- How public policy processes work
 - The roles of elected officials, analysts, agencies, and interest groups
 - How federal, state, and local jurisdictions cooperate and compete to create policy outcomes
 - Effective communication skills to influence public policies
 - How to use data to analyze problems and identify whether policies and programs work
- Students will also have the opportunity to engage with policies and community organizations aligned with their career aspirations.

Course Curriculum

Students in the minor will engage with faculty in GSPIA across disciplines including political science, economics, and urban planning. A GSPIA Minor in Public Policy will address the following key competencies through curriculum and experiential learning. Upon completion of the minor, students will be equipped with the knowledge and skills to:

- Understand public service and the principles of ethical and effective service.
- Understand policy issues at multiple levels of government.

- Outline the roles of elected officials, administrators, nonprofit organizations, citizens, and business firms in making public policy decisions.
- Structure, interpret, and communicate data to inform the policy process, balanced by social values.
- Demonstrate an understanding of policy analysis and program evaluation practices.
- Recognize the role of intergovernmental relations between local, state and federal governments and the importance of cross-jurisdictional or regional efforts to solve complex problems.

Required Courses: 9 credits

- PIA 0101 - HOW PUBLIC POLICY WORKS: FOUNDATIONS OF PUBLIC POLICY
- PIA 0201 - SKILLS FOR POLICY RESEARCH AND ANALYSIS
- PIA 1003 - PUBLIC POLICY CAPSTONE

Electives: 6 credits

Students will take two elective courses (6 credits) to complete the minor. This represents a selection of initial electives. GSPIA faculty will develop and offer additional electives over time. Students may also take, with approval, appropriate graduate-level courses in GSPIA.

- PIA 0202 - PROGRAM DESIGN & EVALUATION
- PIA 1001 - INTERNSHIP SEMINAR
- PIA 1102 - CITY OF WHITE SUPREMACY: RACE, SPACE, AND POLICY IN AMERICAN CITIES
- PIA 1105 - LAW, POLITICS AND POLICY

Total Credits: 15

Kenneth P. Dietrich School of Arts and Sciences

Kenneth P. Dietrich School of Arts and Sciences

The Kenneth P. Dietrich School of Arts and Sciences is the oldest and largest academic unit within the University of Pittsburgh, with more than 11,000 students and over 1,000 faculty from around the world. The Dietrich School offers a competitive liberal arts education within the setting of a comprehensive research university and a dynamic urban setting.

The Dietrich School instructional programs provide a liberal arts curriculum designed to prepare students for the world of work, research, professional schools, and graduate programs. This education helps students cultivate the skills and knowledge that provide a foundation for lifelong learning, and educates students so that they can become perceptive, reflective, and intellectually self-conscious citizens of the world. The main elements of the Dietrich School general education are: an acquaintance with great works of art, literature, and philosophy; an understanding of social institutions and processes; a sense of history and familiarity with the richness and variety of human cultural achievements; an awareness of the main ideas of contemporary natural science and mathematics; and engagement with languages and cultures other than one's own.

Dietrich School Undergraduate Web site

Please visit www.asundergrad.pitt.edu for detailed information on:

- Dietrich School majors, minors, and certificates
- Dietrich School general education requirements
- Academic resources, services, and opportunities
- Additional policies and procedures for current Dietrich School students

Dietrich School Undergraduate Calendar

www.asundergrad.pitt.edu/academic-calendar

Admission through the Office of Admissions and Financial Aid

The following students are admitted to Dietrich School by the Office of Admissions and Financial Aid. Please visit <https://admissions.pitt.edu> for more information.

- First-year students (see Pittsburgh campus First-Year Student Admissions for general admissions information).
- Transfer students who have previously enrolled at a college or university other than the University of Pittsburgh. These include former University of Pittsburgh students who have since earned college credits at another institution and now wish to return to the Dietrich School.
- Continuing education students: Adults who wish to begin or continue to work toward an undergraduate degree by taking a full- or part-time course load should apply as new or transfer students through the Office of Admissions and Financial Aid.
- Students who have previously earned a bachelor's degree from an institution other than the University of Pittsburgh and now wish to earn a second undergraduate degree.
- International students should refer to admission guidelines on the Office of Admissions and Financial Aid Web site.

Transfer Students/Transfer Credits

Previous course work for transfer students is evaluated by the Dietrich School Office of Student Records with respect to general education requirements. Before initial registration, transfer students receive an Undergraduate Degree Requirement Evaluation indicating which requirements they have satisfied and which ones must be completed in order to complete their degree in the Dietrich School.

Courses from other colleges and universities are evaluated according to the following guidelines:

- Courses must be passed with a grade of C or better and must be earned at an institution accredited by the appropriate regional accrediting association. Courses that have reasonable counterparts at the University are eligible for transfer. When requested, students are responsible for supplying descriptions for courses taken elsewhere.
- A maximum of 60 credits can be accepted from accredited community colleges and two-year junior colleges. A maximum of 90 credits can be accepted from accredited four-year institutions. All students must earn their final 30 credits toward a Dietrich School degree and at least half of the credits for their majors, minors, and/or certificates while enrolled as a Dietrich School student.
- The number of transfer credits granted for a given course cannot exceed the number awarded on the transcript of the original school or the number earned for the corresponding course in the Dietrich School. Credits earned on the quarter system will be converted into semester credits. A quarter credit is equal to two-thirds of a semester credit (e.g., five quarter-system credits equal three semester credits, and three quarter-system credits equal two semester credits).
- The Dietrich School accepts credits, but not grades, for transfer. Consequently, any courses that are accepted for transfer will be used as credit toward graduation, but will not be calculated into the student's GPA at the University of Pittsburgh.
- Transfer credits do not apply towards University honors.
Please contact the Dietrich School Office of Student Records at 412-624-6480 for information about transfer credit evaluation. Please note: All transfer credits may be subject to re-evaluation when a student transfers from one school to another within the University of Pittsburgh.

Admission through the Dietrich School of Arts and Sciences

The following students must apply directly to the Dietrich School for admission.

Transfers from Other University of Pittsburgh Schools at the Pittsburgh campus

To transfer to the Dietrich School from another school at the Pittsburgh campus, students should request that the other Pittsburgh campus school send their records to the Dietrich School. The Dietrich School will review the student records and send letters of acceptance to students who are eligible to transfer into the Dietrich School. To qualify, students must have a minimum overall GPA of 2.0 and have completed their basic skills requirements in composition and algebra according to Dietrich School guidelines. In addition, students enrolled in the College of General Studies (CGS) must earn at least 12 credits through CGS before applying for transfer to the Dietrich School.

Upon acceptance into the Dietrich School, students will receive evaluations of their previous course work, acknowledging the courses that have fulfilled Dietrich School skills and general education requirements. To graduate with a degree from the Dietrich School, students are required to earn their last 30 credits while enrolled in the Dietrich School and to earn at least half of the credits for their majors, minors, and certificates while enrolled in the Dietrich School.

Relocation from University of Pittsburgh Regional Campuses

1. For students seeking guaranteed relocation who have earned credits only from one of the regional campuses, the normal requirement is for completion of 45 credits at the specific regional campus, with a minimum GPA of 3.0.
2. For students seeking guaranteed relocation who have earned 30 or more credits at the specific regional campus and a total of 45 credits overall, a minimum GPA of 3.0 in all courses is required.
3. For students seeking relocation who have between 15 and 30 credits at the specific regional campus and a total of 45 credits overall, a minimum GPA of 3.0 is required in all courses, and the normal requirements of the Dietrich School of Arts and Sciences for external transfer students must be met. For these students, relocation is not guaranteed. Students must complete at least 15 credits at the regional campus to transfer to the Pittsburgh campus.
4. All students must complete the Algebra and Composition skills requirements before relocating from a regional campus.

Students Seeking a Second University of Pittsburgh Degree

Students who have earned a bachelor's degree in any University of Pittsburgh school or campus and wish to earn a second undergraduate degree in the Dietrich School should apply directly to the Dietrich School. Applicants should note the following:

- Course work for the second degree will continue to be recorded on the original University of Pittsburgh undergraduate transcript.
- All appropriate course work from the first degree will apply to the second degree.
- Students must earn a minimum of 30 new credits. No coursework repeated from the first degree will count toward the second degree.
- At least half of the credits for the second major toward the second degree must be earned while enrolled in the Dietrich School.
- The cumulative GPA and credit total will be based on all credits from the first degree and all new course work taken that applies to the second degree.

Students Seeking Reinstatement

The following students must apply for reinstatement through the Dietrich School of Arts and Sciences.

- Dietrich School students who have not enrolled for three consecutive terms (one calendar year);
- Dietrich School students who have completed their suspension periods and wish to continue their studies; and
- Students who last attended another school at the Pittsburgh campus but have not enrolled in classes for three consecutive terms (one calendar year), have not attended another institution, and wish to be admitted to the Dietrich School.

Students who are returning after completing their suspension period will be reinstated on probation.

The deadline for reinstatement is August 15 for the fall term, December 15 for the spring term, and one week before the beginning of classes in the summer term or summer session. Students who last attended another University of Pittsburgh school on the Pittsburgh campus or who attended a regional campus must meet the admissions requirements for transfer to the Dietrich School. Students' academic standing upon reinstatement will continue to be that attained at the end of their last term in residence.

Students who are reinstated for a particular term but do not enroll for that term must apply for reinstatement again if they wish to attend for a later term. Students who have been away from the University for two or more years will be subject to the requirements of the school and of their major at the time of their reinstatement, rather than those in place at the time of their last attendance.

Post-baccalaureate Students

Students who have completed an undergraduate degree and wish to take additional undergraduate courses on a non degree-seeking basis may apply directly to the College of General Studies.

Academic Integrity

As members of the University of Pittsburgh community, Dietrich School students are expected to meet their obligation to exhibit honesty and to respect the ethical standards of the University community and of their chosen field of study in carrying out academic assignments. Dietrich School students are therefore expected to familiarize themselves with the published rules and regulations governing academic integrity. For specific information, see the Academic Integrity Code.

The Dietrich School maintains an Academic Integrity Board, consisting of both faculty and students, for adjudication of grievances from faculty about student behavior and from students about faculty behavior.

Grading Policies

Letter Grade Option

The Dietrich School adheres to the following University letter grade system without exception.

A+		Superior
----	--	----------

A	4.00	
A-	3.75	
B+	3.25	
B	3.00	Meritorious
B-	2.75	
C+	2.25	
C	2.00	Adequate
C-	1.75	
D	1.25	
D+	1.00	Minimal
D-	0.75	
F	0.0	Failure

S/NC Grade Option

The Dietrich School offers both a standard letter-grade option and the Satisfactory/No-Credit (S/NC) option for students enrolled in most Dietrich School courses. Under the S/NC option, a student who does satisfactory work (a grade of C or better) in a course receives the grade of S. If the student's work is not satisfactory (a grade of C- or lower), the grade of NC (no credit) is given. Courses for which an S is earned are counted toward graduation but are not computed in the GPA. Courses for which an NC is earned are not counted toward graduation or the GPA, since the NC designates that no credit has been earned.

Students can select the S/NC grade option when enrolling for a course. After the end of the add/drop period, a student must complete a Grade Option/Audit Request form and submit it to the Office of Student Records by the Grade Option deadline noted each term on the Dietrich School undergraduate calendar.

Note: There are some formal limitations to a student's choice of grading systems; he or she should check with an academic advisor before deciding to take a course S/NC.

Audit (N Grade)

To audit a course, a student must register for and pay tuition for the course. A Grade Option/Audit Request form must be submitted for undergraduate courses by the grade option change deadline noted each term on the Dietrich School undergraduate calendar. The instructor for the course must sign the Grade Option/Audit Request form before the form can be processed. Completed forms must be submitted to the Office of Student Records. Students who audit a course are given an N grade, which means that the course is counted neither towards graduation nor the GPA. A student typically chooses to audit a course for personal enrichment.

G Grades

At the discretion of an instructor, a G grade may be awarded when students who have been attending a course and making regular progress are prevented from completing the course due to extenuating personal circumstances. Students who are assigned a G grade are required to complete course requirements no later than one year after the term or session in which the course was taken, or by an earlier deadline established by the instructor. After that year, the grade will automatically change to NG; an NG grade cannot be changed, and the credits will no longer appear as "in progress." The student will be required to re-register for the course if it is needed to fulfill requirements for graduation. The Dietrich School encourages students with G grades to work with their instructors to complete the requirements for the course as soon as possible.

Academic Honors

Outstanding students in the Dietrich School are recognized for their academic achievement in several ways.

Dean's List

After grades are posted for the fall and spring term, Dietrich School students whose academic performance indicate outstanding achievement are recognized on the Dean's List. To be placed on the Dean's List, a student must have earned at least 12 letter grade credits (not including courses taken on the Satisfactory/No-Credit option) with a term GPA of at least 3.50 and no grade lower than a C.

University Honors

Those members of a Dietrich School graduating class who have attained an outstanding scholastic record and have completed at least **60 letter-graded credits** at the University of Pittsburgh are graduated with honors. All coursework completed at the University for a letter grade is calculated in the grade point average. University honors are awarded in the following levels of distinction according to grade point average at graduation:

- Summa Cum Laude: 3.75
- Magna Cum Laude: 3.50
- Cum Laude: 3.25

Departmental Honors

Many departments offer an honors major. Successful completion of the honors major, as well as normal graduation requirements, lead to the awarding of the bachelor's degree with departmental honors. For detailed information, contact the departmental advisor or visit the department's Web site.

Academic Standing

The Dietrich School is committed to the success of its students and has guidelines in place to connect students with the appropriate resources at the earliest sign of academic difficulty. A student's academic standing is comprised of three factors: term GPA, cumulative GPA, and progress toward a degree. Students in the Dietrich School are expected to maintain a cumulative GPA and term GPA of 2.00 or above for each term of enrollment. In addition, full-time students

are expected to successfully complete a minimum of 12 credits during each term of enrollment. Part-time students are expected to successfully complete a minimum of 3 credits during each term of enrollment.

Academic Alert is a marker designed to notify students who show signs, early on and throughout their academic career, of jeopardizing successful progress toward the completion of their undergraduate degree. This may be due to their inability to maintain a satisfactory GPA and/or failing to fulfill the algebra or composition requirement within the first two terms of full-time enrollment. Students who receive two consecutive **Academic Alerts** will be placed on **Academic Probation**.

Students are placed on **Academic Probation** after earning a GPA between a 1.50 and a 1.99 over two consecutive terms or have one semester at or below a 1.49 cumulative GPA. Students may also be placed on Academic Probation if they fail to make progress toward their degree (e.g. failing to earn any academic credits).

Students currently on Academic Probation who earn a term GPA below a 2.00 or fail to make progress toward their degree will be subject to **Academic Suspension**. After being suspended, students are not eligible to re-enroll for one calendar year. Following suspension, students are required to apply for reinstatement at the Dietrich School Undergraduate Dean's Office. Students returning from academic suspension are reinstated on academic probation and are required to develop an academic success plan upon their return. These reinstated students' records are reviewed after each subsequent term of enrollment.

Students who have been reinstated from Academic Suspension must earn at least a 2.00 GPA for each term that they enroll until they have achieved a cumulative GPA of a 2.0 or above. If a student fails to earn a 2.00 term GPA, they are subject to **Academic Dismissal** from the University. Dismissed students are not eligible for reinstatement.

Probation and Eligibility for Financial Aid

The Office of Admissions and Financial Aid (OFA) monitors financial aid eligibility. Students on probation should contact OFA at 412-624-7488 for more information.

Credit Policies

The following section details the Dietrich School's rules regarding allowable credits and courses for students earning a degree in the Dietrich School.

Advanced Placement (AP) Credits

See the AP credit section of the Office of Admissions and Financial Aid Web site.

Summer Courses Taken Elsewhere

Dietrich School students in good academic standing (cumulative GPA of at least 2.00) may attend a summer or special session of another accredited institution in order to supplement their program, provided they receive prior approval from the Dietrich School Office of Student Records. Students must submit a completed summer course approval form (available on the Student Records Web site), as well as the relevant course descriptions to the Office of Student Records. Students may not repeat any course taken at the University of Pittsburgh (passed or failed) at another institution. A maximum of two courses (no more than 8 credits) may be taken in a single period of enrollment elsewhere.

Credit by Examination

In rare circumstances, credit by examination may be offered. Contact the Office of Students Records (studentrecords@as.pitt.edu or 412-624-6480) with questions.

Departmental Credits

No more than 60 credits may be taken in one department, and normally no more than 40 in a single department are considered desirable in a well-balanced program.

Repeating a Course/Duplication of Course Content

If a student repeats a course, they must complete a course repeat form and submit it to the Office of Student Records. Please note the following.

- The original grade remains on the transcript, but is not counted in the calculation of the GPA.
- Any grade earned in the repeated course will be factored into the GPA, even if it is lower than the original grade.
- The repeated course does not increase the number of credits counted toward meeting degree requirements unless an F is replaced by a passing grade.
- W, R, N, or NC grades reported for the repeated course will not be identified as a course repeat, thus the original grade earned will continue to be counted in the GPA. Incomplete (G) grades will not be identified as repeated courses until the course work is completed.
- No sequential course may be repeated for credit after a higher numbered course in that sequence has been passed with a C or higher grade.
- No course can be repeated at any other institution.
- Students may repeat a course no more than two times.

Students may not earn duplicate credit for courses that substantially duplicate the content of courses taken previously. For example, duplicate credit cannot be earned for the following:

- Both a regular version of a course and an honors version of that course.
- Courses that are cross listed with a course the student has already taken.
- Courses taken under a newly assigned course number if already taken under an old course number.
- Certain specific courses that duplicate material.

Students with questions about repeating courses or duplicating course content should consult with their academic advisors.

English Language Institute Courses

LING 0007, LING 0008, and LING 0009 courses count toward the degree but are not counted toward a linguistics major.

Enrollment in Graduate Courses

Undergraduate Dietrich School students who demonstrate exemplary competencies and proficiencies may take advantage of the rich variety of graduate courses offered by the Dietrich School. Credits earned in graduate courses

may count toward the degree. Students should consult with both their academic advisor and instructor of a course before registering.

Independent Study, Undergraduate Research, Internships, and Undergraduate Teaching

Dietrich School students may earn up to 24 credits of independent study, undergraduate research, internships, and undergraduate teaching as part of the 120 credits required for a degree. Ordinarily, no more than six credits may be earned in any term in a single undergraduate research experience or internship. Under certain conditions, students in good standing may register for a block of 15 credits of independent study. These credits are to be earned for work done within one academic term. A student may register for a 15-credit independent study term only once during his or her college career. This needs to be approved by an assistant dean prior to registration.

Learning Agreement forms for independent study, undergraduate research, and internships, as well as specific information about eligibility, procedures, and guidelines, are available from the academic department through which the activity will be conducted.

International Baccalaureate

The Dietrich School recognizes the International Baccalaureate (IB) Higher-Level Examinations and may grant advanced standing and/or credit for various fields for scores on the Higher-Level Examinations, which range from five to seven. Advanced standing is determined individually by subject according to departmental policy. Students should send the results of their IB examinations directly to the Office of Student Records. No credit will be given for Subsidiary-Level Examinations.

Lower-Level or Sequential Courses

Credit cannot be earned for courses taken after more advanced course work in the same field has been successfully passed with a C or higher. For example, credit cannot be earned for an algebra course taken after the successful completion of a calculus course.

Normal Credit Load

A normal credit load is 12 to 18 credits per academic term (e.g. fall and spring). Students should complete a minimum of 15 credits per term in order to graduate within four years.

Any term in excess of 18 credits requires the recommendation of the student's academic advisor and approval from an assistant dean. Call 412-624-6480 to make an appointment with an assistant dean. Students who enroll for more than 18 credits in a term will be charged additional tuition per credit.

Physical Education

Students are not required to take any courses in physical education (PEDC), but they may do so. Up to four credits of courses offered by the School of Education's Department of Health, Physical, and Recreation Education may be counted toward a Dietrich School degree.

Reserve Officer Training Corps (ROTC)

The Dietrich School will grant up to 16 credits (up to four of those credits used in lieu of PEDC coursework) earned in aerospace science (Air Force ROTC), military science (Army ROTC), or naval science (Navy ROTC - through cross registration at Carnegie Mellon University) toward a Dietrich School degree.

Statute of Limitations

All of the credits required for a degree, whether earned in residence or transferred from another institution, must have been earned within 12 years prior to the date on which the degree is awarded. However, when given evidence that the previous courses still provide adequate preparation for courses yet to be taken and still represent a reasonable part of the total academic program, this limitation may be waived. In such cases, the waiver is for a specific period during which the program must be completed.

Online Courses

Students may count a maximum of 24 credits of online coursework completed at Pitt toward their degree. First-year students may not take online courses in their first term. For students who begin in the summer or fall, they may not take online courses until the spring. For students who begin in the spring, they may not take online courses until the summer.

Adding and Dropping Courses

Generally, students enrolled in the Dietrich School are not required to have their academic advisor's approval before adding or dropping a course. However, Student Support Services (SSS) students and student athletes must see their academic advisor before processing an add/drop. Additionally, all first-year students are strongly urged to consult their academic advisor before adding or dropping a course.

Withdrawing from Courses

Withdrawing from one or more courses may impact a student's financial aid status. Withdrawal from a course must be done by the withdrawal deadline, which is posted in the Dietrich School undergraduate calendar and on the Office of the University Registrar's Web site.

Bachelor Degree Requirements

The following sections describe the general requirements for all majors offered by the Dietrich School.

Graduation

Students must apply for graduation by the posted deadline on the Dietrich School undergraduate calendar and/or the Office of Student Records Web site. Students must meet with their academic advisor to ensure all major requirements will be met during their final term at the University. Students must earn at least 120 degree credits with a minimum 2.00 GPA. In addition, students must achieve a 2.00 GPA both in the major and in the minor or certificate. Within the

120 credits, students must fulfill the Dietrich School's curriculum requirements, which include General Education Requirements and requirements for a major, minor, or certificate (see General Education Requirements, and Requirements for Major sections below). Furthermore, students must earn at least half of the credits for their major(s), minor(s), and certificates(s) and the final 30 credits toward the Dietrich School degree while enrolled as a Dietrich School student.

General Education Requirements

The Dietrich School of Arts and Sciences is committed to providing the best possible education for its undergraduate students. This education is best served through a clear and innovative curriculum that provides students with the knowledge, analytical skills, disciplinary understanding, intellectual curiosity, and creative opportunities that will allow them to engage and adapt in an increasingly diverse and rapidly changing world. Diversity and inclusion are part of the core mission of our school and the university and are key matters for our students and society. Of allied importance is the understanding of complex global issues and different cultures.

All students graduating from the Dietrich School must satisfy general education requirements detailed below. Students select from a range of approved courses to meet these requirements.

A. Writing

Written communication is central to almost all disciplines and professions. Developing writing proficiency is a lifelong process, and it is especially important that undergraduate education accelerates and directs that process toward the achievement of writing skills that will provide a base appropriate for professional or graduate education or for professional employment. The school requires that all students complete the following writing courses during their undergraduate career.

1. Composition

Students must complete the composition requirement, ENGCMP 0200 Seminar in Composition or its equivalent, with a minimum grade of C- by the end of their first year of study. Part-time students should complete the requirement within their first 30 credits. Transfer students must complete this requirement within their first 15 credits.

Students may be required to complete ENGCMP 0150 Workshop in Composition (or its equivalent) prior to enrolling in ENGCMP 0200. Students may be exempt from the composition requirement with a score of 5 on the AP English: Language and Composition or AP English: Literature and Composition exam.

2. Two Writing-Intensive Courses

Writing intensive courses (W-Courses) are designed to teach writing within a discipline through writing assignments that are distributed across the entire term. In these courses, students will produce at least 20-24 pages of written work. A significant portion of this work should be substantially revised in response to instructor feedback and class discussion.

All students must complete two courses that are designated as W-Courses. Students must satisfy one element of this requirement within their major field of study. W-Courses may also be courses that fulfill other General Education Requirements.

B. Algebra and Quantitative and Formal Reasoning

1. Algebra

Students must complete the algebra requirement, MATH 0031 College Algebra or its equivalent, with a minimum grade of C- by the end of their first year of study. Part-time students should complete the requirement within their first 30 credits. Transfer students must complete this requirement within their first 15 credits. Students will be exempt from the algebra requirement with a 620 or above Math SAT score or a 27 or above Math ACT score, or with completion of a high school course in Algebra II, Pre-Calculus, or Calculus with a grade of B or higher.

2. Quantitative and Formal Reasoning

All students are required to take and pass with a minimum grade of C- at least one course in university-level mathematics (other than trigonometry) for which algebra is a prerequisite, or an approved course in statistics or mathematical or formal logic in a department of the Dietrich School of Arts and Sciences.

C. Language

A Sequence of Two Courses in a Second Language

All students are required to complete with a minimum grade of C- two terms of university-level study in a second language other than English. Exemptions will be granted to students who can demonstrate elementary proficiency in a second language through one of the following:

1. Having completed three years of high school study of a second language with a grade of B or better in each course;
2. Passing a special proficiency examination;
3. Transferring credits for two terms or more of approved university-level instruction in a second language with grades of C or better;
4. Having a native language other than English.

D. Diversity

Diversity courses focus centrally and intensively on issues of diversity, and do so in a manner that promotes understanding of difference. They provide students with analytical skills with which to understand structural inequities and the knowledge to be able to participate more effectively in our increasingly diverse and multicultural society. The courses may address, though not be limited to, such issues as race, gender, ethnicity, sexuality, religious difference, ability difference, and/or economic disparity.

All students must complete one course that is designated as a Diversity course but may take this course within their major field of study. Diversity courses may also be courses that fulfill other General Education Requirements.

E. Division Requirements in the Humanities and Arts, Social Sciences, Natural Sciences

Each student is required to take nine courses in the humanities, social sciences, and natural sciences distributed as below. Such courses allow students to pursue their own interests while they explore diverse views of a broad range of human cultures, modes of thought, and bodies of knowledge. The courses that fulfill these requirements are truly courses in the disciplines that draw on the unique resources of a research university.

1. A Course in Literature

By studying a range of literary and other texts in this course, students will be introduced to the techniques and methods of textual analysis and will develop critical perspectives on a variety of forms of cultural expression.

2. A Course in the Arts

This course introduces students to modes of analysis appropriate to music, theatre, or the visual and plastic arts. It may take the form of a survey, the study of a genre or period, or may focus on a particular artist.

3. A Course in Creative Work

In this course students are expected to produce some form of creative work, and they will also be trained in the techniques and modes of its production. The course could be situated in theatre, studio arts, writing, visual arts (including photography, film), music, and dance; or it may be a course that engages in innovative or original work in relation to written, oral, or visual material, new media, social media, and other contemporary forms of communication and representation.

4. A Course in Philosophical Thinking or Ethics

This course will emphasize close and critical reading of theories about knowledge, reality, humanity, and values. Courses could focus on human nature; scientific reasoning; theories of cognition and consciousness; human/social rights; competing systems of belief; morality; concepts of freedom; theories of justice; social obligations/constraints; or ethics, including applied or professional ethics.

5. A Social Science Course

A course that treats topics considered of significant importance in the social or behavioral sciences (including social psychology). Courses will introduce students to the subject matter and methodology of a particular discipline and will involve them in the modes of investigation, analysis, and judgment characteristically applied by practitioners.

6. A Course in Historical Analysis

In this course, students will develop skills and methods by which to understand significant cultural, social, economic, or political accounts of the past. The course may focus on pivotal moments of change, or important transitions over longer periods of time. Courses could explore developments in science, technology, literature, or art, and the ideas around them, or examine critical historical shifts by analyzing various data or cultural forms.

7. Three Courses in the Natural Sciences

These will be courses that introduce students to scientific principles and concepts rather than offering a simple codification of facts in a discipline or a history of a discipline. The courses may be interdisciplinary, and no more than two courses may have the same primary departmental sponsor.

F. Global Awareness and Cultural Understanding

Each student must complete three courses in global awareness and cultural understanding distributed as below.

1. A Course in Global Issues

This course will examine significant issues that are global in scale. Courses could address, for example: globalization; the global and cultural impact of climate change/sustainability; the effects of and resistances to colonialism; or worldwide issues related to health, gender, ethnicity, race, technology, labor, law, or the economy.

2. A Course in a Specific Geographic Region

This course will be an in-depth study and analysis of a particular region or locality outside of the United States.

3. A Course in Cross-Cultural Awareness

This course, through cross-cultural perspective, will promote knowledge of and reflection upon the cultures of Asia, the Middle East, Africa, Latin America, the Caribbean, or the indigenous peoples of the world past and present. Students will develop an understanding of cultures, traditions, and societies that differ substantially from those that prevail in North America and Europe.

Overlapping Credit Within the Dietrich School

Up to eight credits may be overlapped between any two majors, two certificates, and/or a major and certificate. Up to eight credits may be overlapped between a major and minor and/or certificate and minor. Up to four credits may be overlapped between two minors.

Allowable credit overlap	Major	Certificate	Minor
Major	8 credits	8 credits	8 credits
Certificate	8 credits	8 credits	8 credits
Minor	8 credits	8 credits	4 credits

The academic advisement report (AAR) will not be able to catch excessive overlap; advisors and students will need to continue to monitor overlapping credits.

Requirements for the Major

All students are required to complete a major of their choice, in addition to general education requirements, in order to graduate from the Dietrich School. The Dietrich School offers over 55 majors in 30 departments. Some departments offer more than one major. Each department specifies the particular courses needed to fulfill its major(s).

Students must complete the major with a 2.00 GPA, and half of the credits earned for the major must be earned at the University of Pittsburgh main campus.

Students declare their major by filling out an Academic Plan Change Form. Students normally declare their major during their fourth term of full-time study.

Note: Transfer students receive an evaluation of their previous course work indicating the equivalent University of Pittsburgh courses for which transfer credits have been awarded. Equivalent Dietrich School courses will meet requirements for the major where appropriate. Students who believe that a previous course not equivalent to a Dietrich School course should meet a requirement for a major may petition the department to review that course.

Minors and Certificates

Minors and certificates are earned in addition to a major. Students must complete minors and certificates with a 2.00 GPA, and half of the credits earned for the minor or certificate must be earned at the University of Pittsburgh main campus. Students may overlap a courses to fulfill requirements between a major, a minor, and/or a certificate in the following manner. Students who complete an approved minor or certificate will have it listed on their transcript, provided that the minor or certificate is indicated on the application for graduation.

Special Academic Opportunities

Dietrich School students may choose to pursue a variety of academic programs leading to multiple majors, majors within more than one department, or majors that either prepare students for or offer advanced admission to graduate or professional programs at the University of Pittsburgh.

Double and Triple Majors

Students can declare a double or triple major, but will usually earn only one degree. If one major leads to the BA degree and another to the BS degree, students must decide when applying for graduation which degree they wish to receive.

Double Degrees

Dietrich School students may choose to simultaneously pursue more than one undergraduate degree, either within the Dietrich School (i.e., both a BA and a BS) or in another undergraduate school of the University. In general, earning two degrees requires a minimum of 150 credits and the completion of the curriculum requirements of both schools.

Combined Degree Options

These intensive programs give Dietrich School students the opportunity to complete their undergraduate degree while beginning their first year of a graduate or professional program. To qualify, students must:

- Complete 96 or more Dietrich School credits,
- Satisfy all of the general education requirements, and
- Be accepted into a graduate or professional school at the University of Pittsburgh.

Preparation for Professional Programs of Study

Students interested in spending their junior and senior years in the University of Pittsburgh's professional schools of Social Work, Health and Rehabilitation Sciences, or Pharmacy normally spend two years in the Dietrich School taking necessary prerequisite courses and electives in preparation for professional study. Although first-year students are

accepted directly into the schools of Engineering, Nursing, Computing and Information, and the College of Business Administration (CBA), it is possible for students who begin in the Dietrich School to transfer into those schools after one or two years.

Preparation for Graduate Professional Studies

Although the Dietrich School does not offer specific majors in pre-law, pre-medicine, pre-dental medicine, or education, it is possible for students in the Dietrich School to complete all the necessary prerequisites for entry into these graduate professional schools while fulfilling their Dietrich School degree requirements.

Accelerated Law Admissions Program (ALAP)

The Accelerated Law Admissions Program (ALAP), open to any student enrolled in the Dietrich School, grants admission to the University of Pittsburgh's School of Law to those students who meet the ALAP's requirements. Students who enter the program complete their undergraduate major in three years, applying for admission to the School of Law during their junior year, and then go on to law school for another three years.

Students interested in the program are encouraged to declare a major early at the end of the first year in order to allow them to complete their undergraduate Dietrich School major(s) by the end of their third year. Also, interested students are encouraged to take summer classes during their second year in order to reduce the credits to be completed in their third year. The requirements for the ALAP are as follows:

- Students must complete 102 credits by the end of their junior year, as well as their general education and major requirements.
 - Students must take three writing-designated courses (rather than two) beyond the freshman writing requirement.
 - Students must take the Law School Admissions Test (LSAT) by the fall of their junior year. This would include the June, October, or December test.
- Acceptance into the program is competitive, and only those students with above-average grades and competitive LSAT scores should apply.

Five-Year Program

- BS in statistics and an MA or MS in applied statistics: This program is intended to give outstanding students interested in statistics the opportunity to progress quickly toward their educational objectives. Contact the Department of Statistics for details.

Study Abroad

Dietrich School students are encouraged to add an international dimension to their undergraduate education through study abroad. Credit may be earned toward the Dietrich School degree through participation in one of several University of Pittsburgh programs or consortia-sponsored programs. Students may study in virtually any part of the world in these programs or others sponsored by most American or international institutions.

Visit the Global Experiences Web site at www.abroad.pitt.edu for more information.

Dietrich School Faculty

Programs and Course Offerings

Certificate

Children's Literature Certificate

Books written for children are among the best-loved and best-remembered of all works of literature. They also provide some of the most important early learning experiences. In recent years, books written for children have attracted increasing interest from scholars and students as well as parents, educators, publishers, and journalists. What kinds of stories do we consider appropriate for children, and why? How have our opinions about this topic changed over time and across different cultures? And how is literacy changing, now that children are exposed not only to books, films, and television, but also to video games and the world wide web?

The interdisciplinary Certificate in Children's Literature offers undergraduates the opportunity to bring together studies across a broad range of subjects as they contemplate these and other questions pertaining to youth literature and culture. Founded in 1981, the program is designed to meet the individual student's interests and strengths and fulfills the Arts and Sciences requirement for a related area. The Children's Literature Certificate provides a useful background for many areas of professional work and study. Many of our students pursue careers in elementary, secondary, and special education, or in information science, child care, or social work. Others students have gone to graduate school in the humanities (English, History, Film Studies) or social sciences (Sociology, Psychology, Anthropology). Recent graduates of our new "Writing Youth Literature" course have gone to internships at Sesame Street Productions and the Harvey Klinger Literary Agency in New York City. For more information on the study of children's literature at the University, see www.childrenslit.pitt.edu.

Course Requirements

The certificate is a planned interdisciplinary sequence of at least 18 credits. The program director must also be consulted about the design of the student's individual course of study. The three required core courses for the certificate are listed below.

Students are encouraged to take all four of the below courses, since either ENGLIT 0562 or ENGLIT 0655 may be taken as a Category 1 elective. Of these two courses, the course not taken as an elective must be taken as a core course.

In addition to the three core courses, students should design their own course of study to complete the remaining credits, in consultation with the program director. Courses must be selected from an approved list of courses, available from the program director.

- ENGLIT 0560 - CHILDREN AND CULTURE
- ENGLIT 0562 - CHILDHOOD'S BOOKS or
- ENGLIT 0655 - REPRESENTING ADOLESCENCE
- ENGLIT 1645 - CRITL APPRCH TO CHILDREN'S LIT *

Note:

* ENGLIT 1645 - CRITL APPRCH TO CHILDREN'S LIT is the capstone course for the Children's Literature program and must be taken last.

Other requirements

- A minimum GPA of 2.0 is required in each course that counts toward the certificate.
- There is no limit to the number of courses that can be taken on the S/NC basis for this certificate.

Nanoscience and Engineering Undergraduate Certificate

Advances in nanoscience and nanotechnology (the ability to predict, create, and design with nanoscale materials and systems) are expected to reveal new physical phenomena and to enable the creation of highly desirable products and devices, in addition to revolutionary changes in industrial practice. Strength in nanoscience and nanotechnology has been identified as the nation's future competitiveness and prosperity, and strategic plans have been developed to accelerate nanoscience research and development, encourage knowledge transfer to spur economic growth, and expand educational programs and workforce training - all in a socially and environmentally responsible and sustainable manner.

Nanoscience and nanotechnology also has had a large and rapidly growing local impact. The Pittsburgh region is home to a number of corporations, including many smaller start-up companies, with major nanotechnology components to their businesses. The continued success of companies such as PPG, Seagate, Bayer, Alcoa, Plextronics, Westinghouse, Bettis, and II-VI will depend on their ability to recruit local engineering talent with the required background in nanoscience and nanotechnology. The continued development of nanotechnology-based entrepreneurial start-ups will depend in large part on a vibrant pool of young engineers and scientists with appropriate educational experience in nanoscience and nanotechnology.

This joint certificate, housed in both the Swanson School of Engineering (SSOE) and the Dietrich School of Arts and Sciences (Dietrich School) enables BS students from both schools to complement their education by completing a fivecourse sequence. The certificate is designed to be combined with coursework in any SSOE degree-granting program, or with chemistry and physics in the Dietrich School.

The course requirements for this certificate follow.

Required courses

This course has prerequisites.

- ENGR 0240 - NANOTECHNOLOGY AND NANO-ENGINEERING
- PHYS 1375 - FOUNDATIONS OF NANOSCIENCE
- PHYS 1903 - DIRECTED RESEARCH

Elective courses

Select two courses from the following list.

- CHEM 1410 - PHYSICAL CHEMISTRY 1 or
- CHEM 1420 - PHYSICAL CHEMISTRY 2

- CHEM 1480 - INTERMEDIATE PHYSICAL CHEMISTRY
- CHEM 1600 - SYNTHESIS & CHARCTRZTN POLYMERS

- CHEM 1620 - ATOMS, MOLECULES AND MATERIALS
- ECE 1247 - SEMICONDUCTOR DEVICE THEORY
- ECE 2295 - SPECIAL TOPICS: ELECTRONICS
- IE 1012 - MANUFACTURE OF STRUCTURAL NANOMATERIALS or
- MEMS 1057 - MICRO/NANO MANUFACTURING
- PHYS 0520 - MODERN PHYSICS MEASUREMENTS
- PHYS 1361 - WAVE MOTION AND OPTICS
- PHYS 1370 - INTRODUCTION TO QUANTUM MECHANICS 1
- PHYS 1371 - INTRODUCTION TO QUANTUM MECHANICS 2
- PHYS 1374 - SOLID STATE PHYSICS

Additional information

Non-Dietrich School course credit

Students may apply up to 18 credits of non-Dietrich School coursework to their undergraduate degrees.

Credit overlap

No more than six credits of coursework may overlap between the requirements for this certificate and a major in Physics and Astronomy or in Chemistry.

Grade Requirements

A minimum GPA of 2.0 is required in each course that counts toward the certificate.

Satisfactory/No Credit Option

No course that counts toward this certificate may be taken on the S/NC basis.

For more information

Contact the departmental advisor for the Physics and Astronomy major, Russell Clark (RUC2@Pitt.edu).

Photonics Certificate

Photonics is one of the fastest growing high-tech industries in the world today. It includes optical communications (e.g., fiber optics, lasers, and infrared links), optical imaging (e.g., spy and weather satellites, night vision, holography, flat screen display, and CCD video cameras), optical data storage (e.g., CDs and CD-ROMs), optical detectors (e.g., supermarket scanners, medical optics, and nondestructive evaluation of materials), lasers (e.g., welding lasers, laser

surgery, laser shows, and laser rangefinders), spectroscopy (e.g., chemical analysis and detection), and quantum optics (e.g., quantum cryptography, quantum computing, and single-photon detection).

Although the photonics industry is growing rapidly, photonics companies have a hard time finding qualified people because the interdisciplinary field crosses physics, physical chemistry, and electrical engineering. The photonics certificate program at the University of Pittsburgh will give this kind of cross-cutting experience and allow students to move directly into the photonics industry. The Certificate in Photonics will also serve as good preparation for graduate school in solid state physics, physical chemistry, or electrical engineering with optoelectronics emphasis.

Students in the certificate program will have opportunities for laboratory research with professors at the University of Pittsburgh and will also receive special job placement referrals.

Requirements

The certificate is designed to fit easily with a physics, chemistry, or electrical engineering major, but students with other majors can also earn the certificate.

To receive the certificate, students must have taken

- MATH 0220 - ANALYTIC GEOMETRY AND CALCULUS 1
- MATH 0230 - ANALYTIC GEOMETRY AND CALCULUS 2
- MATH 0240 - ANALYTIC GEOMETRY AND CALCULUS 3

One of the following pairs

- PHYS 0174 - BASIC PHYSICS, SCIENCE AND ENGINEERING 1 (INTEGRATED) and
- PHYS 0175 - BASIC PHYSICS, SCIENCE AND ENGINEERING 2 (INTEGRATED)
or
- PHYS 0475 - INTRODUCTION TO PHYSICS, SCIENCE AND ENGINEERING 1 and
- PHYS 0476 - INTRODUCTION TO PHYSICS, SCIENCE AND ENGINEERING 2

One of the following pairs

- CHEM 0110 - GENERAL CHEMISTRY 1 and
- CHEM 0120 - GENERAL CHEMISTRY 2
or
- CHEM 0710 - UHC GENERAL CHEMISTRY 1 and
- CHEM 0720 - UHC GENERAL CHEMISTRY 2
or
- CHEM 0960 - GENERAL CHEM FOR ENGINEERS 1 and
- CHEM 0970 - GENERAL CHEM FOR ENGINEERS 2

Required laboratory courses:

One of the following

- PHYS 0219 - BASIC LABORATORY PHYSICS SCIENCE AND ENGINEERING

- CHEM 0250 - INTRODUCTION TO ANALYTICAL CHEMISTRY and
- CHEM 0260 - INTRODUCTION TO ANALYTICAL CHEMISTRY LAB

One of the following

- PHYS 0525 - ANALOG AND DIGITAL ELECTRONICS
- ECE 1212 - ELECTRONIC CIRCUIT DESIGN LAB
- CHEM 1430 - PHYSICAL CHEMISTRY LABORATORY 1 and
- CHEM 1255 - INSTRUMENTAL ANALYSIS LAB

In addition

The following courses are required for the certificate.

- PHYS 1361 - WAVE MOTION AND OPTICS
- ECE 1247 - SEMICONDUCTOR DEVICE THEORY
- ECE 1232 - INTRO LASERS & OPTCL ELECTNC
- Junior Photonics Seminar (two semesters, each 1 credit) (cross listed as PHYS 0177, CHEM 1750 , or ECE 1248)
- Photonics Theory 1 (3 credits) (cross listed as PHYS 1363 , CHEM 1470 /CHEM 1472 , or ECE 1240 /1240)
- Photonics Theory 2 (3 credits) (cross listed as PHYS 1364 , CHEM 1470 /CHEM 1472 , or ECE 1240 /ECE 1241)
- Photonics Laboratory (1 credit) (PHYS 1365 , to be cross listed in EE and CHEM)

One of the following

- CHEM 1410 - PHYSICAL CHEMISTRY 1
- PHYS 1370 - INTRODUCTION TO QUANTUM MECHANICS 1 and
- PHYS 1371 - INTRODUCTION TO QUANTUM MECHANICS 2

Two of the following courses or sequences

- CHEM 1250 - INSTRUMENTAL ANALYSIS
- TELCOM 2222 - Photonic Communications

One of the following

- PHYS 1351 - INTERMEDIATE ELECTRICITY AND MAGNETISM
- ECE 1259 - ELECTROMAGNETICS and
- ECE 1266 - APPLICATIONS OF FIELDS AND WAVES

Note:

For more information, see www.phyast.pitt.edu/~snoke/photonics.

Public and Professional Writing Certificate

Writing plays a crucial role in the lives of people after they leave college, as students go on to work, volunteer, attend professional schools, and advocate for themselves and others. The PPW certificate focuses on writing that serves professional goals and/or the public interest. We invite students from across the University to focus on writing as a way to develop the critical writing, learning, and thinking skills necessary to all sectors of American professional life—private, nonprofit, and government.

Students who know that they will write extensively as professionals in law, medicine, the sciences, social work, public policy, international relations, business, or other fields are good candidates for the PPW certificate, as are students who are interested in advocacy and activism. Students contemplating graduate work should also find the course of study leading to the PPW certificate useful. The courses will allow students to work on significant writing projects in a range of venues. Students who have finished the certificate should have a compelling portfolio of work that they can show to prospective employers.

The certificate requires 18 credits, described below.

Writing course

Select one of the following writing-intensive courses.

- ENGCMP 0400 - WRITTEN PROFESSIONAL COMMUNICATION
- ENGCMP 0410 - WRITING IN THE LEGAL PROFESSIONS
- ENGCMP 0420 - WRITING FOR THE PUBLIC

Elective courses

Select at five courses from the following list. At least two courses must be at the 1000-level. The remaining courses may be at any level from the list.

- ENGCMP 0510 - NARRATIVES OF THE WORKPLACE
- ENGCMP 0515 - PERSUASIVE WRITING IN ADVERTISING
- ENGCMP 0520 - INTEGRATING WRITING AND DESIGN
- ENGCMP 0530 - WRITING FOR THE SCIENCES
- ENGCMP 0535 - WRITING IN THE HEALTH SCIENCE PROFESSIONS
- ENGCMP 0550 - TOPICS IN PUBLIC/PROFESSIONAL WRITING
- ENGCMP 0560 - WRITING ARGUMENTS
- ENGCMP 0600 - INTRODUCTION TO TECHNICAL WRITING
- ENGCMP 0610 - COMPOSING DIGITAL MEDIA
- ENGCMP 0641 - WRITING FOR CHANGE
- ENGCMP 1100 - LANGUAGE OF BUSINESS AND INDUSTRY
- ENGCMP 1101 - LANGUAGE OF SCIENCE AND TECHNOLOGY
- ENGCMP 1102 - LANGUAGE OF MEDICINE
- ENGCMP 1103 - PUBLIC RELATIONS WRITING
- ENGCMP 1104 - CORPORATE STORYTELLING
- ENGCMP 1111 - PROFESSIONAL WRITING IN GLOBAL CONTEXTS
- ENGCMP 1112 - PROFESSIONAL USES OF SOCIAL MEDIA
- ENGCMP 1151 - PROFESSIONAL EDITING IN CONTEXT
- ENGCMP 1250 - ADVANCED TOPICS PUBLIC/PROFESSIONAL WRITING

- ENGCOMP 1400 - GRANT WRITING FOR NONPROFITS
- ENGCOMP 1410 - ADVANCED RESEARCH/DOCUMENTARY WRITING
- ENGCOMP 1430 - USABILITY TESTING IN TECHNICAL WRITING
- ENGCOMP 1900 - INTERNSHIP: PUBLIC/PROFESSIONAL WRITING
- ENGCOMP 1902 - INDEPENDENT STUDY PUBLIC PROFESSIONAL WRITING
- ENGCOMP 1903 - SERVICE-LEARNING SEMINAR IN PUBLIC AND PROFESSIONAL WRITING
- ENGCOMP 1910 - BRIDGE SEMINAR

Additional information

Grade Requirements

A minimum GPA of 2.0 is required in each course that counts toward the certificate.

Satisfactory/No Credit Option

There is no limit to the number of courses that can be taken on the S/NC basis for this certificate.

For more information

Visit the certificate's Web page at www.Composition.Pitt.edu/Undergraduate/Public-And-Professional-Writing for more details. Questions about the certificate can be addressed to the director, Jean Grace (JGrace@pitt.edu).

Undergraduate Certificate in Sustainability

Environmental and sustainability programs study coupled human-natural systems using interdisciplinary approaches and knowledge. Such programs work at the science-engineering, science-policy, and policy management interfaces and aim to prepare sustainability-oriented problem solvers through interdisciplinary research, scholarship, and practice. This certificate addresses the need for education and research to strengthen our understanding of the links between human behavior and natural processes by integrating the behavioral and social sciences, earth sciences, physical sciences, engineering, and information sciences.

Completion of the certificate in the Dietrich School requires 18 credits. The following requirements are for Dietrich School students who pursue this certificate. Be advised that Swanson School of Engineering students may have different requirements.

Required Courses

- ENGR 1905 - CURRENT ISSUES IN SUSTAINABILITY
- ENGR 1907 - SUSTAINABILITY CAPSTONE
- GEOL 1030 - THE ATMOSPHERE, OCEANS AND CLIMATE

Elective Courses

Select three of the following courses. Only one course may be in the student's major department.

- ARC 0110 - APPROACHES TO THE BUILT ENVIRONMENT
- BIOSC 0740 - YELLOWSTONE FIELD COURSE (UHC, off-campus in Wyoming)
- BIOSC 1160 - FOREST ECOLOGY (off-campus at Pymatuning Laboratory of Ecology)
- BIOSC 1220 - ECOLOGICAL FIELD STUDIES (off-campus at Pymatuning Laboratory of Ecology)
- BIOSC 1310 - WETLAND ECOLOGY AND MANAGEMENT (off-campus at Pymatuning Laboratory of Ecology)
- BIOSC 1610 - CONSERVATION BIOLOGY (off-campus at Pymatuning Laboratory of Ecology)
- CEE 1503 - INTRO TO ENVIRONMENTAL ENGRNG
- CS 0090 - SUSTAINABILITY AND COMPUTING
- ECON 0360 - INTRODUCTION TO ENVIRONMENT AND RESOURCE ECONOMICS
- ECON 0530 - INTRODUCTION TO DEVELOPMENT ECONOMICS
- ECON 1360 - ENVIRONMENTAL ECONOMICS
- ENGLIT 0710 - CONTEMPORARY ENVIRONMENTAL LITERATURE
- ENGLIT 1005 - LITERATURE AND THE ENVIRONMENT
- ENGR 1060 - SOCIAL ENTREPRENEURSHIP- ENGINEERING FOR HUMANITY
- GEOL 0860 - ENVIRONMENTAL GEOLOGY
- GEOL 1051 - GROUNDWATER GEOLOGY
- GEOL 1060 - GEOMORPHOLOGY
- GEOL 1333 - SUSTAINABILITY
- GEOL 1445 - GIS, GPS, AND COMPUTER METHODS
- GEOL 1515 - ENVIRONMENTAL GEOCHEMISTRY
- GEOL 1904 - DIRECTED READING
- GSWS 1450 - GENDER AND SUSTAINABILITY
- HIST 1019 - CITIES IN HISTORICAL PERSPECTIVE
- HIST 1695 - ENVIRONMENTAL HISTORY
- MEMS 1065 - THERMAL SYSTEMS DESIGN
- PIA 2231 - CONTEMPORARY US ENERGY POLICY
- PS 1542 - GLOBAL ENVIRONMENTAL POLITICS
- SA 1340 - SCULPTURE STUDIO: PROJECTS
- SOC 1445 - SOCIETY AND ENVIRONMENT
- URBNST 0010 - INTRODUCTION TO URBAN STUDIES
- URBNST 0114 - URBAN SUSTAINABILITY

Additional information and requirements

- A minimum GPA of 2.0 is required in each course that counts toward the certificate.
- No course that counts toward this certificate may be taken on the S/NC basis.

Joint Major

A&S/Business, BA

In Spring 2022 the A&S/Business, BA was terminated. Students who are currently pursuing

the A&S/Business dual major will have until Fall 2027 to complete the program.

A&S/Business Dual Major

The A&S/business dual major is offered jointly by Dietrich School of Arts and Sciences and the College of Business Administration (CBA). To satisfy the requirements, students must combine the business major with any Dietrich School major. The Dietrich School major will be listed first on the transcript as the degree-determining major (BS or BA), and the business major will be listed second. Students will be required to fulfill all Dietrich School curriculum requirements. Students are admitted by a faculty committee that considers the cumulative GPA, specific courses taken and grades earned, SAT scores, and other relevant credentials. Students who have completed at least one full year of course work are eligible to apply to the program. Students interested in the program should seek assistance from their Dietrich School advisors regarding the application process. For more information about the program, see <http://www.business.pitt.edu/cba/academics/>.

Major Requirements

To graduate with an A&S/business dual major, students must complete the following:

Four dual major prerequisites:

- ECON 0100 - INTRODUCTION TO MICROECONOMIC THEORY
- ECON 0110 - INTRODUCTION TO MACROECONOMIC THEORY
- MATH 0120 - BUSINESS CALCULUS or
- MATH 0220 - ANALYTIC GEOMETRY AND CALCULUS 1
- STAT 1100 - STATISTICS AND PROBABILITY FOR BUSINESS MANAGEMENT

Note:

Competency in Microsoft Excel (spreadsheet software) is required.

Twelve required business courses:

- BUSACC 0030 - FINANCIAL ACCOUNTING
- BUSACC 0040 - MANAGERIAL ACCOUNTING
- BUSQOM 0050 - DECISION ANALYTICS
- BUENV 0060 - MANAGERIAL ETHICS AND STAKEHOLDER MANAGEMENT
- BUSECN 1010 - MANAGERIAL ECONOMICS
- BUSORG 1020 - ORGANIZATIONAL BEHAVIOR
- BUSFIN 1030 - INTRODUCTION TO FINANCE
- BUSMKT 1040 - INTRODUCTION TO MARKETING
- BUSHRM 1050 - MANAGING PEOPLE
- BUSQOM 1070 - OPERATIONS MANAGEMENT
- BUSSPP 1080 - STRATEGIC MANAGEMENT

Note:

All of the above listed courses must be completed with an average GPA of 2.00. All courses for the business major must be taken on a letter-grade basis.

A&S/Business, BS

In Spring 2022 the A&S/Business, BS was terminated. Students who are currently pursuing the A&S/Business dual major will have until Fall 2027 to complete the program.

A&S/Business Dual Major

The A&S/business dual major is offered jointly by Dietrich School of Arts and Sciences and the College of Business Administration (CBA). To satisfy the requirements, students must combine the business major with any Dietrich School major. The Dietrich School major will be listed first on the transcript as the degree-determining major (BS or BA), and the business major will be listed second. Students will be required to fulfill all Dietrich School curriculum requirements. Students are admitted by a faculty committee that considers the cumulative GPA, specific courses taken and grades earned, SAT scores, and other relevant credentials. Students who have completed at least one full year of course work are eligible to apply to the program. Students interested in the program should seek assistance from their Dietrich School advisors regarding the application process. For more information about the program, see <http://www.business.pitt.edu/cba/academics/>.

Major Requirements

To graduate with an A&S/business dual major, students must complete the following:

Four dual major prerequisites:

- ECON 0100 - INTRODUCTION TO MICROECONOMIC THEORY
- ECON 0110 - INTRODUCTION TO MACROECONOMIC THEORY
- MATH 0120 - BUSINESS CALCULUS or
- MATH 0220 - ANALYTIC GEOMETRY AND CALCULUS I
- STAT 1100 - STATISTICS AND PROBABILITY FOR BUSINESS MANAGEMENT

Note:

Competency in Microsoft Excel (spreadsheet software) is required.

Twelve required business courses:

- BUSACC 0030 - FINANCIAL ACCOUNTING
- BUSACC 0040 - MANAGERIAL ACCOUNTING
- BUSQOM 0050 - DECISION ANALYTICS
- BUENV 0060 - MANAGERIAL ETHICS AND STAKEHOLDER MANAGEMENT
- BUSECN 1010 - MANAGERIAL ECONOMICS
- BUSORG 1020 - ORGANIZATIONAL BEHAVIOR
- BUSFIN 1030 - INTRODUCTION TO FINANCE
- BUSMKT 1040 - INTRODUCTION TO MARKETING
- BUSHRM 1050 - MANAGING PEOPLE
- BUSQOM 1070 - OPERATIONS MANAGEMENT
- BUSSPP 1080 - STRATEGIC MANAGEMENT

Note:

All of the above listed courses must be completed with an average GPA of 2.00. All courses for the business major must be taken on a letter-grade basis.

Major

Interdisciplinary Studies, BA

The Interdisciplinary Studies major is an alternative to the traditional majors in the Dietrich School of Arts and Sciences. It provides a coherent course of study with the breadth and depth appropriate to a Dietrich School major, while offering a pathway to degree completion.

Interdisciplinary Studies Major

Regulations

1. Each Interdisciplinary Studies major should consist of at least 42 credits of work earned in courses from at least two Dietrich School departments. The major should aim for integrated and cumulative learning. To this end, each major must have the following characteristics:
 1. At least 21 credits must be earned from courses numbered 1000 or above;
 2. Courses must be arranged in at least two clusters or thematic groupings;
 3. Each cluster must contain a minimum of 15 credits;
 4. A writing (W) course approved by an assistant dean must be completed as part of the major.
2. Up to six credits of independent study, directed reading, directed research, undergraduate teaching, and internships may be counted toward the major.
3. A student wishing to pursue an Interdisciplinary Studies major must work with an assistant dean, who will serve as the student's academic advisor. The assistant dean's responsibilities include:
 1. Approving the student's Interdisciplinary Studies major proposal;
 2. Approving changes to the proposal;
 3. Providing academic advising to the student at least once per term.
4. The following additional requirements apply:
 1. Students are eligible to declare the Interdisciplinary Studies major after successful completion of 75 credits;
 2. A minimum 2.0 GPA must be maintained for all Interdisciplinary Studies coursework; Only grades of C- or above may be counted toward the major;
 3. Students may achieve honors in Interdisciplinary Studies by earning a minimum GPA of 3.5 in the courses for the major and a 3.5 cumulative GPA;

4. All regular Dietrich School degree requirements must be satisfied (e.g. minimum 120 credits, General Education Requirements, 2.0 overall GPA, at least half of the credits used to fulfill the major must be completed at the Pittsburgh campus).
5. Students may not double major when pursuing the Interdisciplinary Studies major.
6. Students wishing to earn a Bachelor of Science degree must complete 21 credits of upper-level science coursework (certified by the assistant dean) and MATH 0220 - ANALYTIC GEOMETRY AND CALCULUS 1 or STAT 1000 - APPLIED STATISTICAL METHODS .

Procedures

1. A student wishing to declare an Interdisciplinary Studies major should meet with an assistant dean from the Office of the Associate Dean for Undergraduate Studies, 140 Thackeray Hall. Please call 412-624-6480 to make an appointment.
2. The student should draft a proposal to explain the proposed course of study. The proposal should include:
 1. Learning outcomes and a rationale for the course of study
 2. A list of courses used toward the major
 3. A discussion of the career options that may be pursued utilizing this combination of courses
3. The proposal must be approved by an assistant dean and submitted to the Associate Dean for Undergraduate Studies for final approval.

Interdisciplinary Studies, BS

The Interdisciplinary Studies major is an alternative to the traditional majors in the Dietrich School of Arts and Sciences. It provides a coherent course of study with the breadth and depth appropriate to a Dietrich School major, while offering a pathway to degree completion.

Interdisciplinary Studies Major

Regulations

1. Each Interdisciplinary Studies major should consist of at least 42 credits of work earned in courses from at least two Dietrich School departments. The major should aim for integrated and cumulative learning. To this end, each major must have the following characteristics:
 1. At least 21 credits must be earned from courses numbered 1000 or above;
 2. Courses must be arranged in at least two clusters or thematic groupings;
 3. Each cluster must contain a minimum of 15 credits;
 4. A writing (W) course approved by an assistant dean must be completed as part of the major.
2. Up to six credits of independent study, directed reading, directed research, undergraduate teaching, and internships may be counted toward the major.
3. A student wishing to pursue an Interdisciplinary Studies major must work with an assistant dean, who will serve as the student's academic advisor. The assistant dean's responsibilities include:
 1. Approving the student's Interdisciplinary Studies major proposal;
 2. Approving changes to the proposal;
 3. Providing academic advising to the student at least once per term.
4. The following additional requirements apply:
 1. Students are eligible to declare the Interdisciplinary Studies major after successful completion of 75 credits;
 2. A minimum 2.0 GPA must be maintained for all Interdisciplinary Studies coursework; Only grades of C- or above may be counted toward the major;
 3. Students may achieve honors in Interdisciplinary Studies by earning a minimum GPA of 3.5 in the courses for the major and a 3.5 cumulative GPA;

4. All regular Dietrich School degree requirements must be satisfied (e.g. minimum 120 credits, General Education Requirements, 2.0 overall GPA, at least half of the credits used to fulfill the major must be completed at the Pittsburgh campus).
5. Students may not double major when pursuing the Interdisciplinary Studies major.
6. Students wishing to earn a Bachelor of Science degree must complete 21 credits of upper-level science coursework (certified by the assistant dean) and MATH 0220 - ANALYTIC GEOMETRY AND CALCULUS 1 or STAT 1000 - APPLIED STATISTICAL METHODS .

Procedures

1. A student wishing to declare an Interdisciplinary Studies major should meet with an assistant dean from the Office of the Associate Dean for Undergraduate Studies, 140 Thackeray Hall. Please call 412-624-6480 to make an appointment.
2. The student should draft a proposal to explain the proposed course of study. The proposal should include:
 1. Learning outcomes and a rationale for the course of study
 2. A list of courses used toward the major
 3. A discussion of the career options that may be pursued utilizing this combination of courses
3. The proposal must be approved by an assistant dean and submitted to the Associate Dean for Undergraduate Studies for final approval.

International and Area Studies, BPHIL

The David C. Frederick Honors College and University Center for International Studies (UCIS) have created the Bachelor of Philosophy in International and Area Studies (BPhil IAS), a research-based undergraduate major that will help students meet the demands of today's world. The BPhil IAS degree is awarded jointly by the student's home school and the David C. Frederick Honors College and is the first undergraduate degree in international studies at Pitt.

The goal of the BPhil IAS degree is to enable students to think critically about their global world and to gain "global competence," which involves working effectively in different international settings, an awareness of the major currents of global change and the resulting issues raised, the capacity for effective communication across cultural and linguistic boundaries, and personal adaptability to diverse cultures.

Students seeking the BPhil IAS degree must have a minimum GPA of 3.50/4.00; complete an approved program of study involving coursework, second language, and study abroad; and write and publicly defend their research thesis before a faculty examining board that includes a visiting faculty member from outside the University. The BPhil IAS is not a freestanding major, as it requires the student to combine the BPhil IAS with a major in the student's home school of admission (A&S, CBA, Engineering, etc.); students must combine the BPhil IAS requirements with all curriculum requirements for a degree in their home school of admission.

Students seeking the BPhil in IAS must:

- have a minimum grade point average of 3.50/4.00; and
- complete eight approved courses (24 credits); and
- complete one methods course specific to their second major or to their BPhil thesis research topic; and
- complete one directed study course related to their BPhil thesis research topic; and
- complete three years of college-level language study or equivalent proficiency in a language relevant to their BPhil thesis research topic; and
- write and publicly defend their research thesis (the BPhil thesis) before a faculty examining board that includes a visiting faculty member from outside the University; and
- complete a second major in another academic discipline (note that only two courses from this major can overlap with the approved courses for the IAS major).

Students interested in the BPhil in IAS may complete one of the following tracks in UCIS: Asian Studies, European Union Studies, Global Studies, Latin American Studies, or Russian and East European Studies

International Studies, BA (Co-Major)

The International Studies co-major is available to all Dietrich School undergraduate students and is comprised of five choice categories: Introduction to the International; International State Actors, Globalization, and Critiques of Global Power; Non-State Actors and Transboundary Issues; Global Dialogues; and Practitioner Skills. Students who pursue the International Studies co-major will build knowledge and understanding of the following areas:

- cross-border differences, commonalities, actors, and agency
 - state actors and sovereignty, power, and globalization
 - non-state international actors, transboundary issues, and social movements
 - how individual and collective voices express, connect with, and represent - or not - international issues
 - tools, methods, and training in skills such as language training, policy/grant writing, data/data visualization
- Students pursuing this co-major will be pursuing at least one additional, traditional major.

Introduction to the International

An initial introduction to cross-border differences, commonalities, actors, and agency. Choose one of the following courses; this list is a sample of available offerings.

- AFRCNA 1021 - HISTORY OF THE AFRICAN DIASPORA
- AFRCNA 1201 - GLOBAL DIASPORAS: CONTEMPORARY AFRICAN AND CARIBBEAN MIGRATION
- AFRCNA 1704 - AFRICANA WORLD LITERATURE
- ANTH 0780 - INTRODUCTION TO CULTURAL ANTHROPOLOGY
- ECON 0500 - INTRODUCTION TO INTERNATIONAL ECONOMICS
- FR 0090 - EURO CHIC: THE INVENTION OF FASHION
- FR 0104 - INTERMEDIATE FRENCH 2: FRENCH IN A GLOBAL CONTEXT
- FR 0227 - THE FRENCH ATLANTIC
- GSWs 0510 - FEMINIST THEORY IN HISTORICAL PERSPECTIVE
- GSWs 1150 - TRANSNATIONAL FEMINISMS
- HAA 0010 - INTRODUCTION TO WORLD ART
- HAA 1050 - WORLD ART: CONTACT AND CONFLICT
- HIST 0700 - WORLD HISTORY
- ITAL 0090 - EURO CHIC: THE INVENTION OF FASHION
- ITAL 1087 - FASCISM AND RESISTANCE
- PORT 1458 - CULTURES OF THE PORTUGUESE SPEAKING WORLD
- PS 0500 - INTERNATIONAL RELATIONS
- SLAV 0660 - SCI-FI: EAST AND WEST
- SPAN 0082 - LATIN AMERICA TODAY
- SPAN 1250 - HISPANIC CIVILIZATIONS

International State Actors, Globalization, and Critiques of Global Power

Exposure to the way that state actors and notions of sovereignty set certain expectations for power and realities of international action, and the way that globalization changes those notions and brings increased space for critique of them. Choose at least one of the following courses; this list is a sample of available offerings.

- AFRCNA 0385 - CARIBBEAN HISTORY
- AFRCNA 1030 - INTRODUCTION TO AFRICAN POLITICS
- AFRCNA 1331 - AFRICAN LIBERATION MOVEMENTS
- ENGLIT 0618 - WAR
- FR 0070 - KINGS & QUEENS: FROM VIKINGS TO THE GUILLOTINE
- FR 0220 - LA FRANCE AUJOURD'HUI
- GER 1102 - GRÜEZI, SERVUS, HALLO: THE CONTEMPORARY GERMAN-SPEAKING WORLD
- GER 1104 - GERMANY UNDER THE SPELL OF AMERICA
- GER 1106 - GERMAN CULTURAL HISTORY
- GER 1204 - UNITY IN DIVERSITY: EU-IDENTITY AS FACT AND FICTION
- HAA 0105 - ART AND EMPIRE
- HAA 0520 - ART AND POLITICS IN MODERN LATIN AMERICA
- HIST 0187 - WORLD WAR II-EUROPE
- HIST 1046 - NATIONALISM
- HIST 1733 - RELIGIOUS DIVERSITY
- ITAL 0080 - RENAISSANCE ITALY: HUMANISM, POWER & THE ARTS
- ITAL 0081 - MADE IN ITALY:INGENUITY, SINGULARITY, STYLE
- ITAL 0113 - MODERN AND CONTEMPORARY CULTURE
- ITAL 0117 - ITALIES
- ITAL 1070 - LITERATURE AND POLITICS
- ITAL 1071 - THE ETERNAL CITY: ROME FROM ANTIQUITY TO TODAY
- ITAL 1079 - INTRO TO HOLOCAUST LITERATURE
- JS 1475 - RELIGIOUS DIVERSITY
- PS 1501 - THEORY OF INTERNATIONAL RELATIONS
- PS 1509 - CONFLICT AND WAR THEORY
- PS 1511 - AMERICAN FOREIGN POLICY
- PS 1537 - PEACEMAKING & PEACEKEEPING
- PS 1543 - GLOBALIZATION AND INTERNATIONAL POLITICS
- PS 1614 - THEORIES OF JUSTICE
- RELGST 1450 - ISLAM, LAW, AND POLITICS
- RELGST 1475 - RELIGIOUS DIVERSITY
- SLAV 1225 - BEHIND BARS: CROSS CULTURAL REPRESENTATIONS OF PRISON IN THE 20TH CENTURY
- SOC 0317 - GLOBALIZATION
- SOC 0473 - SOCIOLOGY OF GLOBALIZATION AND HEALTH
- SOC 1415 - RELIGIOUS DIVERSITY
- SPAN 1427 - TRANSATLANTIC HISPANIC LITERATURE AND CULTURE
- SPAN 1441 - READING COLONIAL LATIN AMERICA
- SPAN 1455 - BORDER STUDIES
- SPAN 1470 - THE INCAS: ANDEAN INDIGENOUS PEOPLES AND SPANISH COLONIAL RULE

Non-State Actors and Transboundary Issues

Exposure to groups of non-state international actors, ranging from social movements to influencers, documentarians to authors, nonprofits to international organizations, and any other pathways of international power, including transboundary issues such as crime, pollution, refugees, and economic actions. Choose at least one of the following courses; this list is a sample of available offerings.

- ARC 0116 - GLOBAL ARCHITECTURE 2: MODERN

- ARC 1330 - GLOBAL PRESERVATION
- AFRCNA 0628 - AFRO-LATIN AMERICA
- AFRCNA 1012 - EARLY 20TH CENTURY BLACK SOCIAL MOVEMENT
- AFRCNA 1250 - BLACK EUROPE
- AFRCNA 1330 - SCIENCE AND TECHNOLOGY IN AFRICANA CONTEXT
- AFRCNA 1510 - HEALTH IN THE AFRICAN DIASPORA
- ECON 0110 - INTRODUCTION TO MACROECONOMIC THEORY
- ECON 0530 - INTRODUCTION TO DEVELOPMENT ECONOMICS
- ENGFLM 0540 - WORLD FILM HISTORY
- ENGLIT 0710 - CONTEMPORARY ENVIRONMENTAL LITERATURE
- FR 0006 - SPECIAL TOPICS IN CONVERSATION AND CULTURE
- FR 0012 - FRENCH KISS: LOVE, SEX, FRANCE
- FR 0014 - INTRODUCTION TO FRENCH-SPEAKING CANADA
- FR 0016 - HISTORY OF FRENCH CINEMA
- FR 0017 - PARIS: URBANISM PAST AND PRESENT
- FR 0090 - EURO CHIC: THE INVENTION OF FASHION
- FR 0221 - READING FRENCH: LITERATURE, MEDIA, CULTURE
- FR 0227 - THE FRENCH ATLANTIC
- FR 1025 - THE IDEA OF FRANCE
- FR 1036 - GREEN FRANCE: SITUATED ECOLOGIES
- FR 1052 - SPECIAL TOPICS IN FRENCH CIVILIZATION
- FR 1053 - GLOBAL FRENCH
- FR 1059 - 20TH CENTURY FRENCH CIVILIZATION: SPECIAL TOPIC

- URBNST 0010 - INTRODUCTION TO URBAN STUDIES
- URBNST 0360 - INTERNATIONAL URBANISM SEMINAR
- URBNST 0100 - WORLD URBAN PATTERNS

Global Dialogues

Understand the way that individual and collective voices express and connect with international studies issues, how can be manifested in a variety of ways, and ensure that future participants in the international domain learn early on that listening to voices from all spaces should inform their understandings of policy, life, and/or reality.

This area is one of two areas within the co-major where language training fills the requirement. Language courses beyond the first year of language sequence (e.g. third and fourth semester courses and higher) are places where students are connecting their language learning with the cultural frameworks in which those languages are practiced and dispersed. Students can also utilize Study Abroad, as a central way to understand global voices is to hear them directly by living among them, to meet this requirement.

Choose at least one of the following courses; this list is a sample of available offerings.

- AFRCNA 0242 - AFRICANA URBAN WOMAN
- AFRCNA 1240 - AFRICAN LITERATURE AND SOCIETY
- AFRCNA 1555 - AFRO CARIBBEAN DANCE

- UKRAIN 0030 - INTERMEDIATE UKRAINIAN 1

Practitioner Skills

The students should have some efficacy in learning the tools that participants in international affairs need to have, from writing to language to data skills. These can include policy-writing course, a grant writing course, a writing for the public course, a broader public policy process style course, but also linguistic training and familiarity with data and data visualization.

This area is the second of two areas within the co-major where language training fills the requirement. Language courses beyond the first year of language sequence (e.g. third and fourth semester courses and higher) are places where students are honing advanced ability in a language as an essential practitioner skill for international work. Language courses that are either at or beyond the "Intermediate High" level on the ACTFL scale may count towards the Practitioner Skills level.

Choose at least one of the following courses; this list is a sample of available offerings.

- CHIN 1009 - THIRD-YEAR CHINESE 1
- CHIN 1010 - THIRD-YEAR CHINESE 2

Total Credits: 21

Law, Criminal Justice, and Society, BA

Law, Criminal Justice, and Society

Are you considering law school or graduate study in the social sciences after Pitt? Are you interested in pursuing a career in one of the many criminal justice professions or advocacy organizations? The Law, Criminal Justice, and

Society (LCJS) major examines the workings of the criminal justice system in the broader context of society and the legal system. A core curriculum fosters comprehension and critical analysis of the legal system, criminological theory, criminal justice institutions, criminal law, and social inequality. Students also will complete six credits of professional skills and a capstone course on ethics in criminal justice. The LCJS major equips students with the knowledge and skills they need to pursue advanced degrees in law and social science, and to succeed as professionals and advocates in the justice-oriented professions and organizations that serve American society's diverse and dynamic communities. This major is offered jointly between the Dietrich School and the College of General Studies.

Students completing this major will:

- examine the major institutions of the criminal justice system, and situate the workings of these institutions in a broader legal, social, and historical context;
 - develop knowledge and legal reasoning skills in criminal law;
 - examine the law's conflicting role in securing social order and security, on the one hand, and in creating and reinforcing social inequality on the other; and,
 - develop basic professional knowledge and demonstrate ethical reasoning in preparation for being positive and successful contributors to law and justice-oriented career fields as professionals and/or public policy advocates.
- This major requires 36 credits for completion, which are distributed as follows.

- Foundations - 6credits
 - Core areas - 15 credits
 - Electives - 6credits
 - Professional skills - 6credits
 - Capstone - 3credits
- Except as noted, all courses are 3-credit courses.

Foundations

Two of the following three courses are required:

- LCJS 0100 - INTRODUCTION TO LAW, CRIMINAL JUSTICE, & SOCIETY Formerly ADMJ 0100
- LCJS 0200 - RACE, CLASS, GENDER, & THE LAW Formerly LEGLST 0200
- LCJS 1580 - THE LEGAL SYSTEM

Core

Select courses according to the guidelines stated. Course selections must comprise a total of at least 15 credits.

Theories of Crime

Choose one of the following courses.

- LCJS 1100 - CRIMINOLOGY Formerly ADMJ 0600
- LCJS 1110 - CRIMINOLOGICAL THEORY Formerly ADMJ 1265
- LCJS 1120 - Crime Prevention

Criminal Law

Select one of the following courses.

- LCJS 1200 - CRIMINAL LAW Formerly ADMJ 1400 (cross-listed with LEGLST 1140)
- LCJS 1210 - CRIMINAL PROCEDURE Formerly ADMJ 1410 (cross-listed with LEGLST 1141)

Power, Inequality, and Social Change

Select two of the following courses.

- LCJS 1300 - LAW AND POLITICS Formerly LEGLST 1210 (cross-listed with PS 1213)
- LCJS 1310 - LAW AND DEVIANCE Formerly ADMJ 1220
- *Or* SOC 0471 - DEVIANCE AND SOCIAL CONTROL
- LCJS 1320 - CIVIL RIGHTS LAW Formerly LEGLST 1340
- *Or* PS 1201 - CONSTITUTION AND CIVIL LIBERTIES
- LCJS 1330 - EMERGING ISSUES IN LEGAL AND SOCIAL POLICY Formerly LEGLST 1355
- LCJS 1340 - LAW AND SOCIAL CHANGE Formerly LEGLST 1155
- LCJS 1550 - GENDER, RACE, CLASS AND CRIMINAL JUSTICE Formerly ADMJ 1242
- LCJS 1590 - SPECIAL TOPICS IN LAW AND CRIMINAL JUSTICE Formerly ADMJ 1450
- AFRCNA 1522 - SEX AND RACISM
- AFRCNA 1535 - DIMENSIONS OF RACISM
- AFRCNA 1537 - RACE AND THE CRIMINAL JUSTICE SYSTEM
- HIST 0671 - AFRICAN AMERICAN HISTORY SINCE 1865
- HIST 1632 - THE HISTORY OF THE CIVIL RIGHTS MOVEMENT
- SOC 0432 - WEALTH AND POWER
- SOC 0434 - POLITICAL SOCIOLOGY
- URBNST 0112 - SOCIAL JUSTICE AND THE CITY

Criminal Justice Institutions

Select one of the following courses.

- LCJS 1400 - THE SYSTEM OF CRIMINAL JUSTICE Formerly ADMJ 0500
- LCJS 1410 - LAW ENFORCEMENT AND POLICING Formerly ADMJ 1200
- LCJS 1420 - CORRECTIONS Formerly ADMJ 1300
- LCJS 1430 - THE JUVENILE JUSTICE PROCESS Formerly ADMJ 1225
- LCJS 1440 - CRIMINAL INVESTIGATION Formerly ADMJ 1100
- URBNST 0140 - CRIME, PUNISHMENT, JUSTICE, REINTEGRATION

Elective courses

Select two courses from list A or one course from each list A and list B. Please keep in mind that course selections must comprise a total of at least 6 credits.

List A

- LCJS 1500 - CRIMINALISTICS Formerly ADMJ 1115
- LCJS 1501 - CRIMINALISTICS LAB Formerly ADMJ 1118
- LCJS 1505 - CRIMINALISTICS 2
- LCJS 1510 - PSYCHOLOGY AND LAW Formerly LEGLST 1230
- LCJS 1520 - CYBERCRIME Formerly ADMJ 1234

- LCJS 1521 - CYBER SECURITY, LAW, AND MONEY LAUNDERING Formerly ADMJ 1238
- LCJS 1530 - ORGANIZED CRIME Formerly ADMJ 1235
- LCJS 1531 - INTERNATIONAL ORGANIZED CRIME Formerly ADMJ 1236
- LCJS 1540 - WHITE COLLAR CRIME Formerly ADMJ 1230
- LCJS 1560 - PROBATION AND PAROLE Formerly ADMJ 1350
- LCJS 1570 - PRINCIPLES OF HOMELAND SECURITY Formerly ADMJ 1425 (cross-listed with PUBSRV 1425)
- LCJS 1571 - TERRORISM Formerly ADMJ 1245
- LCJS 1572 - INTRODUCTION POLICE MANAGEMENT Formerly ADMJ 1205
- LCJS 1581 - INTERNATIONAL LAW Formerly LEGLST 1327
- LCJS 1582 - PUBLIC LAW AND MORAL REASONING Formerly LEGLST 0020
- LCJS 1583 - SEX, LAW AND MARRIAGE Formerly LEGLST 1315
- LCJS 1584 - LEGAL ISSUES IN PUBLIC SERVICE Formerly LEGLST 1152
- LCJS 1586 - CONSUMER LAW Formerly LEGLST 1325
- LCJS 1599 - INDEPENDENT STUDY Formerly ADMJ 1901 and LEGLST 1901
- LCJS 1561 - JUVENILE DELINQUENCY or:
- ADMJ 1210 - JUVENILE DELINQUENCY
- ADMJ 1495 COMPARATIVE JUSTICE STUDY ABROAD (UPitt Bradford)
- Any LCJS course not used to fulfill any other major requirement.
- Any Pitt Prison Education Project (PPEP) course; offerings will vary.

List B

- GEOL 1312 - ENVIRONMENTAL LAW AND POLICY
- ENGLIT 0365 - IMAGINING SOCIAL JUSTICE
- HIST 0600 - UNITED STATES TO 1877
- HIST 0601 - UNITED STATES 1865-PRESENT
- HIST 0663 - 20THC AFRICAN AMERICAN WOMEN'S HISTORY
- HIST 0670 - AFRICAN AMERICAN HISTORY TO 1877
- HIST 1062 - HUMAN RIGHTS IN WORLD HISTORY
- HIST 1640 - AMERICA CHILDHOODS: RACE, GENDER, AND CITIZENSHIP, 1865-PRESENT
- HIST 1669 - HISTORY OF BLACK PITTSBURGH
- PS 1202 - AMERICAN CONSTITUTIONAL LAW
- PS 1261 - AMERICAN PUBLIC POLICY
- PS 1675 - POLITICS OF HUMAN RIGHTS
- PSY 0205 - PSYCHOPATHOLOGY
- PUBSRV 1305 - HEALTH, LAW AND ETHICS
- PUBSRV 1455 - LAW, ETHICS AND PUBLIC POLICY IN THE MASS MEDIA
- SLAV 1225 - BEHIND BARS: CROSS CULTURAL REPRESENTATIONS OF PRISON IN THE 20TH CENTURY
- URBNST 0010 - INTRODUCTION TO URBAN STUDIES
- Any non-LCJS course not used to fulfill any other major requirement.

Professional Skills

Select at least one course from each category. Course selections must comprise a total of at least 6 credits.

Research or Practical Skills

- ENGCMP 0450 - RESEARCH WRITING
- LCJS 1610 - DATA ANALYSIS IN CRIMINAL JUSTICE
- LCJS 1620 - INTRODUCTION TO LEGAL RESEARCH Formerly LEGLST 1410
- LCJS 1900 - PRESERVICE INTERNSHIP Formerly ADMJ 1900
- PS 0700 - RESEARCH METHODS IN POLITICAL SCIENCE
- PSY 0036 - RESEARCH METHODS LECTURE
- SOC 0230 - SOCIAL RESEARCH METHODS

Professional or Public-Oriented Writing

- ENGCMP 0401 - WRITTEN PROFESSIONAL COMMUNICATION: TOPICS IN DIVERSITY
- ENGCMP 0410 - WRITING IN THE LEGAL PROFESSIONS
- ENGCMP 0420 - WRITING FOR THE PUBLIC
- ENGCMP 0521 - WRITING WITH DATA
- ENGCMP 0560 - WRITING ARGUMENTS
- ENGCMP 0641 - WRITING FOR CHANGE
- ENGCMP 1099 - THE LANGUAGE OF POLICY AND POWER: TOPICS IN DIVERSITY
- ENGCMP 1400 - GRANT WRITING FOR NONPROFITS
- LCJS 1630 - WRITING IN THE CRIMINAL JUSTICE PROFESSIONS

Capstone

- LCJS 1700 - ETHICS IN CRIMINAL JUSTICE (CAPSTONE)

Writing course

Students must complete at least one W-course in the major. LCJS 1700 - ETHICS IN CRIMINAL JUSTICE (CAPSTONE) will fulfill this requirement.

Additional information

Grade Requirements

A minimum GPA of 2.0 in courses for the LCJS major is required for graduation.

Satisfactory/No Credit option

Students may apply up to six credits of coursework taken on an S/NC basis to the LCJS major. Student may apply up to nine credits if three of those credits are earned as part of a Study Abroad course that applies toward the major.

Transfer credits for Police Academy Certification

Students may receive up to 15 transfer credits for completion of Pennsylvania Municipal Police Academy Act 120 or state police cadet training. Certification course work is equivalent to the Core Area requirements for Criminal Law (3 credits) and Criminal Justice Institutions (3 credits); two major electives (6 credits); and LCJS 1600 Pre-Service internship, which fulfills the Research/Practical Skills Course (3 credits) requirement in the Professional Skills area.

Department of Africana Studies

Africana studies is the study, research, interpretation, and dissemination of knowledge concerning African American, African, and Caribbean affairs and culture. Using the tools of the social sciences and humanities, Africana studies examines the structure, organization, problems, and perspectives of Blacks in Africa and the African Diaspora. Africana studies also stresses analytical interpretations and policy prescriptions for social change in African American communities and in various African and Caribbean nations. The term Africana incorporates the three-tier interdisciplinary thrust of the department: African, African American, and Caribbean social sciences and humanities.

Africana studies prepares social science majors for advanced graduate studies in international affairs, education, social work, social policy studies, and legal and professional training. In the humanities, preparation in the creative arts and literature gears students to practical development in such fields as communication, teaching, theater, and dance. Africana studies occupies a central role in understanding modern American life and African and Caribbean linkages. As an interdisciplinary major, Africana studies offers intellectual paradigms for the multicultural approach to historical, political, and economic reality. It is also critical and corrective of the inadequacies, omissions, and distortions of mainstream American education leading into the 21st century. Africana studies is committed to producing liberally educated women and men with a lifetime dedication to working on African American, African, and Caribbean affairs. For more information on the major and the Department of Africana Studies, see the department's Web site at www.africanastudies.pitt.edu.

Certificate

Afro-Latin American and Afro-Latinx Studies Certificate

The academic requirements of the new program at the undergraduate level have three components: content courses, language study, and a digital project outcomes report. To initiate the certificate, students must complete a certificate registration form from the Department of Africana Studies. Elective courses must include at least 25% content on Afro-Latin America and/or US Afro-Latinxs to be eligible.

Afro-Latin American Studies and Afro-Latinx Studies Content Courses:

Five (15 credits) Afro-Latin American Studies and/or Afro-Latinx Studies Content Courses are required. The two core courses are:

1. AFRCNA 0385 - CARIBBEAN HISTORY
2. AFRCNA 1628 - AFRO-LATINOS IN THE UNITED STATES

The remaining three courses may be from Africana Studies or cross-listed with Africana Studies. No more than one non-Africana/cross-listed class may be included in the certificate. All certificate courses must have at least 25% Afro-Latin American and/or US Afro-Latinx content. A written request for the inclusion of a non-Africana course must include a rationale and plan to focus research/course activities on Afro-Latin America and/or US Afro-Latinx studies. Students must earn a C or better in classes counting towards the certificate. One relevant study abroad or study away (1-4 weeks), independent research course, or internship (summer or semester-long) may also count towards the certificate.

Core Courses

These courses are required for the certificate.

- AFRCNA 0385 - CARIBBEAN HISTORY OR
- AFRCNA 0628 - AFRO-LATIN AMERICA
- AFRCNA 1628 - AFRO-LATINOS IN THE UNITED STATES
- Any upper-level AFRCNA Course

Afro-American Introductory Courses

Students select two electives to complete the certificate. The course may be offered by the Department of Africana Studies, may be a course that is cross-listed to an AFRCNA course, or may be chosen from the list of eligible electives offered by other departments.

Courses offered by other departments will focus on Afro-Latin American and/or Afro-Latinx Studies, making it distinct from existing program offered by Africana Studies.

Students must earn a C or better for classes counting toward the certificate. One relevant study abroad or study away, independent research, or internship may count toward the certificate.

- AFRCNA 0385 - CARIBBEAN HISTORY
- AFRCNA 0628 - AFRO-LATIN AMERICA
- AFRCNA 1004 - AFRICANA WORLD LITERATURE
- AFRCNA 1021 - HISTORY OF THE AFRICAN DIASPORA
- AFRCNA 1026 - AFRICAN PRESENCE IN LATIN AMERICAN LIT/CULTURE
- AFRCNA 1039 - HISTORY OF CARIBBEAN SLAVERY
- AFRCNA 1049 - CONTEMPORARY CARIBBEAN LITERATURE
- AFRCNA 1309 - WOMEN OF AFRICAN AND AFRICAN DIASPORA
- AFRCNA 1425 - CARIBBEAN IDENTITIES
- AFRCNA 1510 - HEALTH IN THE AFRICAN DIASPORA
- AFRCNA 1628 - AFRO-LATINOS IN THE UNITED STATES
- AFRCNA 1728 - TRANSNATIONAL ISSUES IN AFRO-LATIN AMERICAN & AFRO-LATINX STUDIES
- AFRCNA 1900 - INTERNSHIP
- AFRCNA 1901 - INDEPENDENT STUDY

Total Credits: 15

Joint Major

Africana Studies - English, BA

The joint major offers an especially coherent experience in interdisciplinary learning by bringing together Africana Studies and English in two interrelated ways. Students get a rich and rigorous exposure to African and African Diaspora literature written in English through literature produced in the United States, Africa, Canada, Great Britain, and the Caribbean. Additionally, students examine some of the significant relationships between African and African Diaspora works and a range of English-language literary traditions.

The major is designed to expose students to important questions and traditions in literary interpretation and to offer them political, social, and cultural contexts for the literature they will be reading. Like most liberal arts majors, it helps students learn to think analytically and to make and assess arguments, skills that are important in many jobs and courses of graduate study. The major is also useful for prospective teachers who would be interested in developing and teaching curricula that include African Diaspora literature within other English-language traditions. Students who complete the joint major will have fulfilled most of the School of Education's undergraduate requirements for secondary education certification in English.

The Africana Studies-English joint major requires 45 credits distributed as follows: four core courses, four literature courses from the Department of Africana Studies, three literature courses from the Department of English, and four electives, one of which must be a history course in the Department of Africana Studies. No more than two upper-division courses can count toward the major before a student has completed the introductory courses, and three of the required courses in each department excluding the core courses must be taken before a student enrolls in the senior seminar.

Joint Major Requirements

Core courses

All of the following courses.

- AFRCNA 0031 - INTRODUCTION TO AFRICANA STUDIES
- ENGLIT 0500 - INTRODUCTION TO CRITICAL READING
- ENGLIT 1900 - PROJECT SEMINAR
- ENGLIT 1910 - SENIOR SEMINAR

Africana Studies courses

Choose four of the following courses.

- AFRCNA 0150 - AFRICAN AMERICAN LITERATURE
- AFRCNA 0316 - INTRODUCTION AFRICAN AMERICAN THEATER
- AFRCNA 0522 - INTRODUCTION TO AFRICAN LITERATURE
- AFRCNA 1306 - WORLD LITERATURE IN ENGLISH
- AFRCNA 1349 - CONTEMPORARY CARIBBEAN LITERATURE
- AFRCNA 1704 - AFRICANA WORLD LITERATURE

English Literature courses

Choose three of the following courses.

- ENGLIT 1125 - MASTERPIECES OF RENAISSANCE LITERATURE
- ENGLIT 1150 - ENLIGHTENMENT TO REVOLUTION
- ENGLIT 1175 - 19TH CENTURY BRITISH LITERATURE
- ENGLIT 1200 - AMERICAN LITERATURE TO 1860
- ENGLIT 1220 - CIVIL WAR TO WORLD WAR 1 IN AMERICAN LITERATURE
- ENGLIT 1325 - MODERNISM
- ENGLIT 1380 - WORLD LITERATURE IN ENGLISH

Elective courses

Students must choose four elective courses from offerings in the departments of Africana Studies and English. One of these electives must be a history course offered by the Department of Africana Studies. Students might also use electives to pursue more extensive work in particular areas of study, such as African, African-American, British, Caribbean, or U.S. literature.

In light of the interdisciplinary and international character of the joint major, it would be appropriate for students to petition to have a closely related course taught in a foreign language (for example, a course on Francophone-Caribbean literature in the Department of French and Italian Languages and Literatures) count as one of the electives toward the joint major.

Students interested in careers in education should pay particular attention to courses required by various School of Education certification programs.

Major

Africana Studies, BA

Africana Studies is the study, research, interpretation, and dissemination of knowledge concerning African American, African, and Caribbean affairs and culture. Using the tools of the social sciences and humanities, Africana Studies examines the structure, organization, problems, and perspectives of Blacks in Africa and the African Diaspora. Africana Studies also stresses analytical interpretations and policy prescriptions for social change in African American communities and in various African and Caribbean nations. The term Africana incorporates the three-tier interdisciplinary thrust of the department: African, African American, and Caribbean social sciences and humanities.

Africana Studies prepares social science majors for advanced graduate studies in international affairs, education, social work, social policy studies, and legal and professional training. In the humanities, preparation in the creative arts and literature gears students to practical development in such fields as communication, teaching, theater, and dance. Africana Studies occupies a central role in understanding modern American life and African and Caribbean linkages.

As an interdisciplinary major, Africana Studies offers intellectual paradigms for the multicultural approach to historical, political, and economic reality. It is also critical and corrective of the inadequacies, omissions, and distortions of mainstream American education leading into the 21st century. Africana Studies is committed to producing liberally educated women and men with a lifetime dedication to working on African American, African, and Caribbean affairs. For more information on the major and the Department of Africana Studies, see the department's Web site.

Students are urged to meet with the departmental advisor no later than the beginning of the junior year to confirm a plan of study. The Africana studies major requires a total of 30 credits to complete.

Required courses

- AFRCNA 0031 - INTRODUCTION TO AFRICANA STUDIES
- AFRCNA 0127 - INTRODUCTION TO AFRICA
- AFRCNA 0787 - BLACK CONSCIOUSNESS
- AFRCNA 1768 - AFRICANA SENIOR RESEARCH SEMINAR

Elective courses

Students will complete the remaining 18 credits for the major with elective courses, described as follows.

- A minimum of three courses (nine credits) will be taken in upper-level courses.
- Courses cross-listed with the Department of Africana Studies can be used as electives for the major.
- Courses from outside of the Department of Africana Studies that are not cross-listed will have to be approved by the Director of Undergraduate Studies before they can be used as electives for the major.

Lower-level electives

- AFRCNA 0120 - AFRICAN AMERICAN EXPERIENCE SPORTS
- AFRCNA 0150 - AFRICAN AMERICAN LITERATURE
- AFRCNA 0212 - WEST AFRICAN DANCE
- AFRCNA 0242 - AFRICANA URBAN WOMAN
- AFRCNA 0311 - INTRODUCTION TO THE AFRICAN AMERICAN FAMILY
- AFRCNA 0313 - THE BLACK CHURCH
- AFRCNA 0316 - INTRODUCTION AFRICAN AMERICAN THEATER
- AFRCNA 0318 - HISTORY OF AFRICA BEFORE 1800
- AFRCNA 0352 - AFRICAN AMERICAN DANCE
- AFRCNA 0385 - CARIBBEAN HISTORY
- AFRCNA 0400 - COVID-19, RACISM AND PUBLIC HEALTH
- AFRCNA 0434 - PSYCHOLOGICAL EXPERIENCE AFRICAN AMERICAN FEMALE
- AFRCNA 0454 - MAN/WOMAN LITERATURE
- AFRCNA 0508 - SWAHILI LANGUAGE AND CULTURE IMMERSION
- AFRCNA 0517 - INTRODUCTION TO AFRICAN AMERICAN POETRY
- AFRCNA 0522 - INTRODUCTION TO AFRICAN LITERATURE
- AFRCNA 0536 - 20TH CENTURY AFRICAN AMERICAN WOMAN HISTORY
- AFRCNA 0586 - EARLY AFRICAN CIVILIZATIONS

- AFRCNA 0628 - AFRO-LATIN AMERICA
- AFRCNA 0629 - AFRICAN AMERICAN HISTORY 1877
- AFRCNA 0630 - AFRICAN AMERICAN HISTORY SINCE 1865
- AFRCNA 0639 - HISTORY OF JAZZ
- AFRCNA 0805 - BLACK PERFORMANCE AESTHETICS

Upper-level electives

- AFRCNA 1012 - EARLY 20TH CENTURY BLACK SOCIAL MOVEMENT
- AFRCNA 1021 - HISTORY OF THE AFRICAN DIASPORA
- AFRCNA 1024 - WEST AFRICAN CULTURES AND SOCIETY
- AFRCNA 1026 - AFRICAN PRESENCE IN LATIN AMERICAN LIT/CULTURE
- AFRCNA 1030 - INTRODUCTION TO AFRICAN POLITICS
- AFRCNA 1033 - AFRICAN AMERICANS AND MASS MEDIA
- AFRCNA 1039 - HISTORY OF CARIBBEAN SLAVERY
- AFRCNA 1083 - SPECIAL TOPICS
- AFRCNA 1108 - AFRICAN AMERICAN FOLK CULTURE
- AFRCNA 1201 - GLOBAL DIASPORAS: CONTEMPORARY AFRICAN AND CARIBBEAN MIGRATION
- AFRCNA 1240 - AFRICAN LITERATURE AND SOCIETY
- AFRCNA 1245 - STUDIO IN AFRICAN AMERICAN POETRY AND POETICS
- AFRCNA 1250 - BLACK EUROPE
- AFRCNA 1306 - WORLD LITERATURE IN ENGLISH
- AFRCNA 1309 - WOMEN OF AFRICAN AND AFRICAN DIASPORA
- AFRCNA 1310 - CULTURES OF AFRICA
- AFRCNA 1330 - SCIENCE AND TECHNOLOGY IN AFRICANA CONTEXT
- AFRCNA 1331 - AFRICAN LIBERATION MOVEMENTS
- AFRCNA 1334 - MUSIC IN AFRICA
- AFRCNA 1335 - AFRICAN-AMERICAN MUSIC IN THE UNITED STATES
- AFRCNA 1347 - FRANCOPHONE AFRICANA LITERATURE
- AFRCNA 1349 - CONTEMPORARY CARIBBEAN LITERATURE
- AFRCNA 1353 - COMPARATIVE DANCE EXPRESSION
- AFRCNA 1402 - LEARNING PARADIGMS AFRICAN AMERICAN CHILD DEVELOPMENT
- AFRCNA 1415 - RELIGION AND RACE
- AFRCNA 1418 - FROM VODOU TO SANTERIA: RELIGIONS OF THE WEST AFRICAN DIASPORA
- AFRCNA 1420 - POWER AND PERFORMANCE IN AFRICA: FROM HIP-LIFE TO SOUKOUSS
- AFRCNA 1425 - CARIBBEAN IDENTITIES
- AFRCNA 1450 - AFRICANA CULTURAL MEMORY
- AFRCNA 1510 - HEALTH IN THE AFRICAN DIASPORA
- AFRCNA 1522 - SEX AND RACISM
- AFRCNA 1535 - DIMENSIONS OF RACISM
- AFRCNA 1537 - RACE AND THE CRIMINAL JUSTICE SYSTEM
- AFRCNA 1538 - HISTORY OF BLACK PITTSBURGH
- AFRCNA 1555 - AFRO CARIBBEAN DANCE
- AFRCNA 1616 - AFRICAN AMERICAN WOMEN WRITERS
- AFRCNA 1628 - AFRO-LATINOS IN THE UNITED STATES
- AFRCNA 1655 - AFRICAN CINEMAS/SCREEN GRIOTS
- AFRCNA 1656 - HISTORY OF AFRICA SINCE 1800

- AFRCNA 1661 - POLITICAL ECONOMY OF AFRICA
- AFRCNA 1704 - AFRICANA WORLD LITERATURE
- AFRCNA 1710 - AFRICAN AMERICAN HEALTH ISSUES
- AFRCNA 1720 - WEST AFRICA IN THE ERA OF THE SLAVE TRADE
- AFRCNA 1725 - SOCIAL AND HEALTH ISSUES IN EAST AFRICA
- AFRCNA 1760 - AFRICANA THEORY & METHODOLOGY
- AFRCNA 1900 - INTERNSHIP
- AFRCNA 1901 - INDEPENDENT STUDY
- AFRCNA 1902 - DIRECTED READING
- AFRCNA 1903 - DIRECTED RESEARCH
- AFRCNA 1904 - REBELS AND REVOLUTION

Cross-listed electives

- ANTH 1725 - SOCIAL AND HEALTH ISSUES IN EAST AFRICA
- ANTH 1778 - CULTURES OF AFRICA
- ANTH 1789 - AFRICAN AMERICAN FOLK CULTURE
- COMMRC 1115 - AFRICAN AMERICAN RHETORIC
- HIST 0502 - AFRO-LATIN AMERICA
- HIST 0521 - CARIBBEAN HISTORY
- HIST 0663 - 20THC AFRICAN AMERICAN WOMEN'S HISTORY
- HIST 0670 - AFRICAN AMERICAN HISTORY TO 1877
- HIST 0671 - AFRICAN AMERICAN HISTORY SINCE 1865
- HIST 0795 - HISTORY OF AFRICA BEFORE 1800
- HIST 1669 - HISTORY OF BLACK PITTSBURGH
- HIST 1720 - WEST AFRICA IN THE ERA OF THE SLAVE TRADE

- MUSIC 0711 - HISTORY OF JAZZ
- MUSIC 1326 - AFRICAN-AMERICAN MUSIC IN U.S.
- MUSIC 1340 - MUSIC IN AFRICA
- MUSIC 1397 - MUSIC AND RACE
- PS 1352 - INTRODUCTION TO AFRICAN POLITICS
- RELGST 0417 - THE BLACK CHURCH
- RELGST 1415 - RACE AND RELIGION IN AMERICA
- RELGST 1418 - FROM VODOU TO SANTERIA: RELIGIONS OF THE WEST AFRICAN DIASPORA
- SPAN 1707 - AFRICAN PRESEN LAT AMERN LIT/CULT

Additional information

Capstone

AFRCNA 1768 - AFRICANA SENIOR RESEARCH SEMINAR must be taken during the student's last academic year as an undergraduate.

Writing course

Africana Studies majors must complete AFRCNA 1768 - AFRICANA SENIOR RESEARCH SEMINAR.

Honors

In order to qualify for honors in the Africana Studies major, a student will have to achieve a 3.25 overall GPA and a 3.75 department GPA. The student seeking Honors will also be required to submit a faculty supervised research paper, portfolio, or report mentored by a department faculty member and approved by a committee of three faculty members, including the mentor.

Grades

A 2.0 grade point average in all Africana Studies courses is required for graduation.

Satisfactory/No Credit option

The department does not permit courses for the major to be taken on an S/NC basis.

Minor

Africana Studies Minor

The Africana Studies minor requires 15 credits. Students select one of the two tracks.

- African Culture and Society
 - African-American and African Diaspora Culture and Society
- Each track required the core course, two lower-level courses, and two upper-level courses in Africana Studies.

Students may choose their electives for the minor from the following list of courses in Africana Studies. Any courses cross-listed with the Department of Africana Studies can be used as electives for the minor. Any courses from outside of the Department of Africana Studies that are not cross-listed must be approved by the Director of Undergraduate Studies before they can be used as electives for the minor.

Core course

The following course is required for all tracks in the Africana Studies minor. After completing the core course, students pursuing the minor should select two lower-level courses and two upper-level courses described in their chosen track.

- AFRCNA 0031 - INTRODUCTION TO AFRICANA STUDIES

African Culture and Society track

Lower-level electives

Select two of the following lower-level courses.

- AFRONA 0127 - INTRODUCTION TO AFRICA
- AFRONA 0212 - WEST AFRICAN DANCE
- AFRONA 0242 - AFRICANA URBAN WOMAN
- AFRONA 0318 - HISTORY OF AFRICA BEFORE 1800
- AFRONA 0508 - SWAHILI LANGUAGE AND CULTURE IMMERSION
- AFRONA 0522 - INTRODUCTION TO AFRICAN LITERATURE
- AFRONA 0524 - SWAHILI 2
- AFRONA 0536 - 20TH CENTURY AFRICAN AMERICAN WOMAN HISTORY
- AFRONA 0586 - EARLY AFRICAN CIVILIZATIONS
- AFRONA 0787 - BLACK CONSCIOUSNESS
- AFRONA 0805 - BLACK PERFORMANCE AESTHETICS

Upper-level electives

Select two of the following upper-level courses.

- AFRONA 1021 - HISTORY OF THE AFRICAN DIASPORA
- AFRONA 1024 - WEST AFRICAN CULTURES AND SOCIETY
- AFRONA 1030 - INTRODUCTION TO AFRICAN POLITICS
- AFRONA 1039 - HISTORY OF CARIBBEAN SLAVERY
- AFRONA 1083 - SPECIAL TOPICS
- AFRONA 1108 - AFRICAN AMERICAN FOLK CULTURE
- AFRONA 1201 - GLOBAL DIASPORAS: CONTEMPORARY AFRICAN AND CARIBBEAN MIGRATION
- AFRONA 1240 - AFRICAN LITERATURE AND SOCIETY
- AFRONA 1306 - WORLD LITERATURE IN ENGLISH
- AFRONA 1309 - WOMEN OF AFRICAN AND AFRICAN DIASPORA
- AFRONA 1310 - CULTURES OF AFRICA
- AFRONA 1331 - AFRICAN LIBERATION MOVEMENTS
- AFRONA 1334 - MUSIC IN AFRICA
- AFRONA 1347 - FRANCOPHONE AFRICANA LITERATURE
- AFRONA 1418 - FROM VODOU TO SANTERIA: RELIGIONS OF THE WEST AFRICAN DIASPORA
- AFRONA 1420 - POWER AND PERFORMANCE IN AFRICA: FROM HIP-LIFE TO SOUKOUSS
- AFRONA 1510 - HEALTH IN THE AFRICAN DIASPORA
- AFRONA 1655 - AFRICAN CINEMAS/SCREEN GRIOTS
- AFRONA 1656 - HISTORY OF AFRICA SINCE 1800
- AFRONA 1661 - POLITICAL ECONOMY OF AFRICA
- AFRONA 1704 - AFRICANA WORLD LITERATURE
- AFRONA 1720 - WEST AFRICA IN THE ERA OF THE SLAVE TRADE
- AFRONA 1725 - SOCIAL AND HEALTH ISSUES IN EAST AFRICA
- AFRONA 1900 - INTERNSHIP
- AFRONA 1901 - INDEPENDENT STUDY
- AFRONA 1902 - DIRECTED READING
- AFRONA 1903 - DIRECTED RESEARCH
- AFRONA 1904 - REBELS AND REVOLUTION

Cross-listed electives

Lower-level course

- HIST 0795 - HISTORY OF AFRICA BEFORE 1800

Upper-level courses

- ANTH 1725 - SOCIAL AND HEALTH ISSUES IN EAST AFRICA
- ANTH 1778 - CULTURES OF AFRICA
- ANTH 1789 - AFRICAN AMERICAN FOLK CULTURE
- HIST 1720 - WEST AFRICA IN THE ERA OF THE SLAVE TRADE
- HIST 1796 - HISTORY OF AFRICA SINCE 1800
- MUSIC 1340 - MUSIC IN AFRICA
- PS 1352 - INTRODUCTION TO AFRICAN POLITICS

African-American and African Diaspora Culture and Society track

Lower-level electives

Select two of the following lower-level courses.

- AFRCNA 0120 - AFRICAN AMERICAN EXPERIENCE SPORTS
- AFRCNA 0150 - AFRICAN AMERICAN LITERATURE
- AFRCNA 0212 - WEST AFRICAN DANCE
- AFRCNA 0242 - AFRICANA URBAN WOMAN
- AFRCNA 0311 - INTRODUCTION TO THE AFRICAN AMERICAN FAMILY
- AFRCNA 0313 - THE BLACK CHURCH
- AFRCNA 0316 - INTRODUCTION AFRICAN AMERICAN THEATER
- AFRCNA 0352 - AFRICAN AMERICAN DANCE
- AFRCNA 0385 - CARIBBEAN HISTORY
- AFRCNA 0400 - COVID-19, RACISM AND PUBLIC HEALTH
- AFRCNA 0434 - PSYCHOLOGICAL EXPERIENCE AFRICAN AMERICAN FEMALE
- AFRCNA 0454 - MAN/WOMAN LITERATURE
- AFRCNA 0517 - INTRODUCTION TO AFRICAN AMERICAN POETRY
- AFRCNA 0536 - 20TH CENTURY AFRICAN AMERICAN WOMAN HISTORY
- AFRCNA 0628 - AFRO-LATIN AMERICA
- AFRCNA 0629 - AFRICAN AMERICAN HISTORY 1877
- AFRCNA 0630 - AFRICAN AMERICAN HISTORY SINCE 1865
- AFRCNA 0639 - HISTORY OF JAZZ
- AFRCNA 0787 - BLACK CONSCIOUSNESS
- AFRCNA 0805 - BLACK PERFORMANCE AESTHETICS

Upper-level electives

Select two of the following upper-level courses.

- AFRCNA 1012 - EARLY 20TH CENTURY BLACK SOCIAL MOVEMENT
- AFRCNA 1021 - HISTORY OF THE AFRICAN DIASPORA
- AFRCNA 1026 - AFRICAN PRESENCE IN LATIN AMERICAN LIT/CULTURE
- AFRCNA 1033 - AFRICAN AMERICANS AND MASS MEDIA

Department of Anthropology

Anthropology is concerned with how humans and human societies evolve, with the differences and similarities among human cultures, and with the cultural and biological basis for human behavior. Anthropology integrates a wide range of perspectives on human behavior, culture, and society. Students become familiar with the basic concerns of four subgroups of anthropology:

- Archaeology offers courses covering many geographic regions (Latin America, North America, and China), techniques of analysis, and issues in prehistory. Museum collections, internships in cultural resource management, and a summer field school provide opportunities for student involvement in archaeological work.
- Physical anthropology offers classes on evolutionary theory; human genetics; osteoarchaeology; and human and nonhuman primate evolution, anatomy, morphology, and behavior.
- Cultural anthropology offers a wide variety of courses on cultural areas including the Pacific, Latin America, China, Japan, South Asia, Eastern Europe, and the United States. Classes provide cross-cultural studies of topics such as medical anthropology, food, social and political organization, gender roles, kinship, ethnicity and nationalism, folklore, religion, and conflict and violence.
- Anthropological linguistics offers courses on the nature of languages around the world, focusing on the relationship of language to other aspects of culture and society. Among the courses offered are Gypsy Language and Culture and Writing Systems of Ancient Mesoamerica.

For more information on the major and the Department of Anthropology, visit www.anthropology.pitt.edu.

Major

Anthropology, BA

Anthropology is concerned with how humans and human societies evolve culturally and biologically. Anthropology explores the differences and similarities among human cultures and the biocultural processes that influence human biological diversity. It integrates a wide range of perspectives on human behavior, culture, and society. Students will become familiar with the basic concerns of four sub-fields of anthropology: archaeology, biological anthropology, cultural anthropology, and anthropological linguistics.

The anthropology program offers archaeology courses covering many geographic regions (Latin America, Africa, Europe, North America, among others), techniques of analysis, and issues in prehistory. Opportunities for student involvement in archaeological work are provided through museum collections, participation in research with faculty and graduate students, and a periodic summer field school.

Courses in biological anthropology focus on evolutionary theory, human biological diversity, bioarchaeology, forensic anthropology, and human and nonhuman primate evolution.

Cultural anthropology is represented by a wide variety of courses on culture areas including the Pacific, Caribbean, Latin America, China, Japan, South Asia, Eastern Europe and the United States. Classes provide cross-cultural studies

of topics such as medical anthropology, food, social and political organization, sex roles, kinship, ethnicity, folklore, religion, and multispecies relationships.

Linguistic anthropology examines language and other sign systems (semiotics) in context, focusing on the complex relationship between language, society, and culture. Courses in linguistic anthropology include issues surrounding language and power; language and identity; media and society; semiotic anthropology; poetics and storytelling; language and decolonization; language and migration.

The anthropology major requires the completion of 33 credits.

Core courses

Students must complete two of the three primary introductory courses in Anthropology (ANTH 0582, ANTH 0680, and ANTH 0780) with a grade of C or better prior to declaring this major.

- ANTH 0582 - INTRODUCTION TO ARCHEOLOGY
- ANTH 0680 - INTRODUCTION TO BIOLOGICAL ANTHROPOLOGY
- ANTH 0780 - INTRODUCTION TO CULTURAL ANTHROPOLOGY

Methods course

The Department of Anthropology offers a course in each sub-discipline. Students must complete one course as appropriate for their field of study. Students should consult with the major advisor for other courses that meet this requirement.

- ANTH 1534 - ARCHEOLOGICAL DATA ANALYSIS 1
- ANTH 1537 - BASIC LABORATORY ANALYSIS
- ANTH 1556 - ZOOARCHAEOLOGY
- ANTH 1601 - STRUCTURE AND FUNCTION
- ANTH 1602 - HUMAN SKELETAL ANALYSIS
- ANTH 1605 - PRIMATE ANATOMY
- ANTH 1609 - ADVANCED SKELETAL ANALYSIS
- ANTH 1617 - PALEOPATHOLOGY
- ANTH 1763 - FIELD METHODS

Undergraduate Seminar

Students must complete one undergraduate seminar. ANTH 1750 - UNDERGRADUATE SEMINAR is one option; students should consult with the major advisor for other courses that meet this requirement.

Electives

Students must complete a minimum of six elective courses in Anthropology. At least four of the elective courses must be at the 1000-level.

Other requirements

Grade requirements: A minimum GPA of 2.0 in departmental courses is required for graduation.

Satisfactory/No Credit option: No course that counts toward the major can be taken on an S/NC basis.

Writing (W) requirement: Students must complete at least one W course in the major.

Honors major requirements: Students with a minimum overall GPA of 3.50 and a minimum GPA of 3.80 in their Anthropology courses may graduate from the department with honors, pending the submission and acceptance of a paper representing substantial student research. The honors paper may be the expanded version of a paper from a current or previous course, or may result from independent research.

Additional information:

The department strongly recommends a field school course for undergraduate majors.

The Undergraduate Anthropology Club offers workshops, hosts informal discussions, shows films, and organizes field trips for Anthropology majors and those interested in Anthropology.

Membership in the Delta of Pennsylvania chapter of the Lambda Alpha Anthropology National Honors society requires 3.25 GPA overall, 3.50 GPA in Anthropology.

Architectural Studies Program

Learning to think about architecture as both the product of a creative process and as an historical phenomenon are the principal goals of the University of Pittsburgh's bachelor programs in Architectural Studies (BA) and Architecture (BS). The programs endeavor to create a rigorous curriculum and a supportive learning environment, allowing students to build skills and knowledge while developing close working relationships with peers and faculty. Students will gain a broad understanding of the complexity of architecture as a profession and as an academic discipline and will be well-positioned by their senior year to apply to accredited, graduate programs in architecture or historic preservation at universities in the United States and Canada. Students considering careers in architecture and historic preservation are encouraged to declare either major by the end of their freshman year at Pitt.

The programs' curriculum draws primarily on courses offered in the Department of History of Art and Architecture and the Department of Studio Arts. Students are encouraged to explore related interests through course work in other departments, through off-campus study, and through a range of undergraduate teaching and research opportunities available through Pitt's David C. Frederick Honors College and the Dietrich School of Arts and Sciences.

As pre-professional courses of study, the programs offer students the opportunity to explore their professional interests while acquiring a liberal arts education. Such preparation instills an intellectual maturity and a breadth of cultural experience that serve students to their advantage during professional career training. Students should be aware that a degree in architectural studies or in architecture does not constitute professional or technical training.

For more information about the Architectural Studies Program, visit www.arch.pitt.edu.

Certificate

Civil Engineering and Architectural Studies Certificate

Note: This certificate is available only to Architecture (BS) and Architectural Studies (BA) majors.

A certificate in structural engineering for architectural studies majors is available under the auspices of the Swanson School of Engineering's Department of Civil and Environmental Engineering (CEE). It offers a technical, professional component to the major. The certificate includes courses in statics, mechanics of materials, structural analysis, computer methods, and structural design. Students must go to the Department of Civil and Environmental Engineering in 742 Benedum Hall to declare the Civil Engineering Certificate.

Prerequisite Courses

- MATH 0230 - ANALYTIC GEOMETRY AND CALCULUS 2 or MATH 0235 - HONORS 1 - VARIABLE CALCULUS
- PHYS 0175 - BASIC PHYSICS, SCIENCE AND ENGINEERING 2 (INTEGRATED) or PHYS 0476 - INTRODUCTION TO PHYSICS, SCIENCE AND ENGINEERING 2 (Honors)

One of the following courses

- CS 0007 - INTRODUCTION TO COMPUTER PROGRAMMING
- CS 0401 - INTERMEDIATE PROGRAMMING USING JAVA
- CEE 0109 - COMPUTER METH IN CIVIL ENGRG 1

Required Courses

- MATH 0240 - ANALYTIC GEOMETRY AND CALCULUS 3
- MATH 0290 - DIFFERENTIAL EQUATIONS
- ENGR 0131 - STATICS FOR CIVIL AND ENVIRONMENTAL ENGINEERS or ENGR 0135 - STATICS & MECHC OF MATERIALS 1
- ENGR 0141 - MECHANICS OF MATERIALS CIVIL AND ENVIRONMENTAL ENGINEERS or ENGR 0145 - STATICS & MECHC OF MATERIALS 2 (PREQ: ENGR 0131 or ENGR 0135)
- CEE 1105 - MATERIALS OF CONSTRUCTION (CREQ: ENGR 0141 or ENGR 0145)
- CEE 1330 - INTRODUCTION TO STRUCTURAL ANALYSIS (PREQ: ENGR 0141 or ENGR 0145)
- CEE 1335 - DESIGN OF STRUCTURES (PREQ: CEE 1330)

With the required courses complete, students are encouraged to deepen their Engineering Design experience.

The following courses have CEE 1335 as a prerequisite:

- CEE 2106 - NONCONVENTIONAL ENGINEERING MATERIALS
- CEE 2340 - CONCRETE STRUCTURES 2
- CEE 2341 - STEEL STRUCTURES 2
- CEE 2345 - DESIGN OF TIMBER STRUCTURES

Major

Architectural Studies, BA

Design Track

The Design track requires completion of 48 credits with an additional 9 credits in a Studio Arts concentration.

Requirements

The Design track requires completion of 48 credits with an additional 9 credits in a Studio Arts concentration.

Architectural Studies courses

- ARC 0110 - APPROACHES TO THE BUILT ENVIRONMENT
- ARC 0201 - FOUNDATIONS STUDIO 1 *
- ARC 0901 - ARCHITECTURAL STUDIES PROSEMINAR 1
- ARC 0902 - ARCHITECTURAL STUDIES PROSEMINAR
- ARC 1160 - ARCHITECTURE: IMAGE, TEXT, THEORY
- ARC 1201 - ARCHITECTURE DESIGN STUDIO 1
- ARC 1202 - ARCHITECTURE DESIGN STUDIO 2
- ARC 1911 - ARCHITECTURE AND DIGITAL MEDIA 1
- ARC 1912 - ARCHITECTURE AND DIGITAL MEDIA 2

Note

A grade of C or better is required in ARC 0201 to enroll in ARC 1201.

Physics course

- PHYS 0110 - INTRODUCTION TO PHYSICS 1

History of Art and Architecture courses

- ARC 0116 - GLOBAL ARCHITECTURE 2: MODERN
- Two additional HAA courses in architectural history

Required Studio Arts Concentration

- SA 0130 - DRAWING STUDIO 1
- SA 0140 - SCULPTURE STUDIO 1
- SA 1430 - DRAWING STUDIO: PERSPECTIVE

Preservation Track

The Preservation track requires completion of 39 credits with an additional 12 credits in a proscribed related area in either the **History of Urban America** or **Public Service**.

History of Art and Architecture courses

The following courses as indicated.

One of the following courses.

- ARC 1136 - EARLY AMERICAN ARCHITECTURE
- ARC 1137 - AMERICAN ARCHITECTURE SINCE INDUSTRIALIZATION

Architectural Studies courses

All of the following courses.

- ARC 0110 - APPROACHES TO THE BUILT ENVIRONMENT
- ARC 0201 - FOUNDATIONS STUDIO 1
- ARC 0901 - ARCHITECTURAL STUDIES PROSEMINAR 1
- ARC 0902 - ARCHITECTURAL STUDIES PROSEMINAR
- ARC 1911 - ARCHITECTURE AND DIGITAL MEDIA 1
- ARC 1990 - ARCHITECTURAL STUDIES INTERNSHIP

Preservation courses

All of the following courses.

- ARC 1310 - PRESERVATION - TEXTS AND THEORY
- ARC 1320 - DOCUMENTATION AND CONSERVATION STUDIO
- ARC 0300 - INTRODUCTION TO HISTORIC PRESERVATION

Architectural Studies Major other requirements and recommendations

- A GPA of at least 2.00 in all department courses is required for graduation with a major in Architectural Studies. A minimum GPA of 2.75 is required for an internship, and a minimum of 3.0 is required for those seeking a recommendation for graduate school. Students who plan to apply to graduate school should maintain a minimum GPA of 3.25.
- Only the experiential learning courses ARC 1990, HAA 1901, HAA 1904, HAA 1905, and HAA 1909 may be taken on an S/NC basis. None of these courses can be applied toward the architectural history requirement.
- Students must complete at least one writing-intensive course (W-course) in the major. Each track has a W-course in its requirements - ARC 1160 for the Design track, and ARC 1310 for the Preservation track.
- Students who plan to major in Architectural Studies should contact the departmental advisor as early in their college career as possible to discuss the recommended course sequence for each track, course availability, and entry into restricted classes.
- Proficiency in calculus is required for students seeking a career in architecture. It is highly recommended that students successfully complete at least one semester of college-level calculus (MATH 0220) before they graduate.

Architecture, BS

The Architectural Studies Program's website is an invaluable resource for detailed information about current activities and projects, the curriculum in each track, and resources for students seeking to pursue careers in architectural professions. Please visit www.arch.pitt.edu.

Required courses for the major

The Architecture major requires the completion of 74 credits, distributed as follows.

Architectural Studies courses

- ARC 0110 - APPROACHES TO THE BUILT ENVIRONMENT
- ARC 1160 - ARCHITECTURE: IMAGE, TEXT, THEORY
- ARC 1990 - ARCHITECTURAL STUDIES INTERNSHIP
- ARC 1911 - ARCHITECTURE AND DIGITAL MEDIA 1
- ARC 0201 - FOUNDATIONS STUDIO 1
- ARC 1912 - ARCHITECTURE AND DIGITAL MEDIA 2
- ARC 1201 - ARCHITECTURE DESIGN STUDIO 1
- ARC 1202 - ARCHITECTURE DESIGN STUDIO 2
- ARC 1203 - DESIGN STUDIO 3
- ARC 1204 - DESIGN STUDIO 4

History of Art and Architecture courses

- ARC 0116 - GLOBAL ARCHITECTURE 2: MODERN
- Two Additional HAA Courses from the approved list of electives.

Approved elective courses

- ARC 0153 - MEDIEVAL ARCHITECTURE
- HAA 0460 - ART IN PUBLIC: INCLUSION , IDENTITY, AND ACTIVISM
- HAA 0900 - SPECIAL TOPICS-ARCHITECTURAL STUDIES
- ARC 1152 - ROMAN ARCHITECTURE
- HAA 1305 - EARLY RENAISSANCE ARCHITECTURE
- ARC 1156 - HIGH RENAISSANCE ARCHITECTURE
- ARC 1158 - ARCHITECTURE AND ENLIGHTENMENT
- ARC 1161 - MODERNITY, MODERNISM AND HOUSING
- ARC 1118 - ARCHITECTURE SINCE 1945
- ARC 1181 - PITTSBURGH ARCHITECTURE/URBANISM
- ARC 1136 - EARLY AMERICAN ARCHITECTURE
- ARC 1137 - AMERICAN ARCHITECTURE SINCE INDUSTRIALIZATION
- HAA 1630 - CHINA: VILLAGE & URBAN ARCHITECTURAL SPACE
- HAA 1656 - JAPAN: ARCHITECTURE AS PERFORMATIVE SPACE
- ARC 1191 - ARCHITECTURE AND THE CITY IN CENTRAL EUROPE: 19TH AND 20TH CENTURIES
- ARC 0210 - SPECIAL TOPICS-ARCHITECTURE
- ARC 0300 - INTRODUCTION TO HISTORIC PRESERVATION
- ARC 1330 - GLOBAL PRESERVATION

Proseminar courses

- ARC 0901 - ARCHITECTURAL STUDIES PROSEMINAR 1
- ARC 0902 - ARCHITECTURAL STUDIES PROSEMINAR

Studio Arts courses

- SA 0130 - DRAWING STUDIO 1
- SA 0140 - SCULPTURE STUDIO 1

Physics courses

Choose one of the following courses.

- PHYS 0110 - INTRODUCTION TO PHYSICS 1
- PHYS 0174 - BASIC PHYSICS, SCIENCE AND ENGINEERING 1 (INTEGRATED)
- CMU 48-116 Building Physics

Carnegie Mellon University courses in Building Science

Choose two of the following courses offered by Carnegie Mellon University.

- CMU 48-215 Materials & Assembly
- CMU 48-351 Human Factors
- CMU 48-324 Statics & Structures
- CMU 48-315 Environment 1

Note

Proficiency in calculus is required for students seeking a career in architecture. It is highly recommended that students successfully complete at least one semester of college-level calculus (MATH 0220) before they graduate.

Required Related Area

Every preservation track major must select either the History of Urban American or the Public Service Related area.

Grade requirements

A minimum GPA of 2.0 is required in those courses that count toward the major. A minimum GPA of 2.75 is required for the internship and a 3.00 for a recommendation to graduate school (although students wishing to apply to graduate school should maintain a minimum GPA of 3.25.)

Satisfactory/No Credit option

Only the experiential learning courses ARC 1990, HAA 1901, HAA 1904, HAA 1905 and HAA 1909 may be taken on an S/NC basis. None of these courses can be applied toward the architectural history course requirement.

Writing requirement

Students must complete at least one W-course in the major. Each track has a w-course in its requirements - ARC 1160 for the Design track and ARC 1310 for the Preservation track.

Advising

It is imperative that students who intend to pursue the architectural studies major contact the departmental advisor as soon as possible to discuss the recommended course sequence for each track, course availability and entry into restricted classes.

Maria D'Anniballe

mdaw@pitt.edu

To set up an appointment, go to <https://haadepartmentadvising.acuityscheduling.com>

Minor

Architecture-Design Minor

The Architecture-Design minor consists of 18 credits, distributed as follows.

Requirements for the minor

The minor in Architecture - Design provides an option for students majoring in fields such as Civil Engineering, Environmental Studies, History, Studio Arts, Urban Studies and for whom course work in architectural design and history will provide additional breadth in their studies of the built environment. The minor requires that students complete 18 credits, 12 of which are studio-based design courses and six of which will provide historical and theoretical background for thinking about architecture and the built environment.

Foundational course in architecture

- ARC 0110 - APPROACHES TO THE BUILT ENVIRONMENT

Two courses in architectural design

Students must earn a letter grade of C or higher in ARC 0201 ARC 0201 - FOUNDATIONS STUDIO 1 to enroll in ARC 1201 ARC 1201 - ARCHITECTURE DESIGN STUDIO 1.

- ARC 0201 - FOUNDATIONS STUDIO 1
- ARC 1201 - ARCHITECTURE DESIGN STUDIO 1

One course in architectural history

- ARC 0153 - MEDIEVAL ARCHITECTURE
- HAA 0460 - ART IN PUBLIC: INCLUSION , IDENTITY, AND ACTIVISM
- ARC 0116 - GLOBAL ARCHITECTURE 2: MODERN
- HAA 0900 - SPECIAL TOPICS-ARCHITECTURAL STUDIES
- ARC 1152 - ROMAN ARCHITECTURE

- ARC 1154 - CONSTRUCTING THE GOTHIC
- HAA 1305 - EARLY RENAISSANCE ARCHITECTURE
- ARC 1156 - HIGH RENAISSANCE ARCHITECTURE
- ARC 1158 - ARCHITECTURE AND ENLIGHTENMENT
- ARC 1161 - MODERNITY, MODERNISM AND HOUSING
- ARC 1118 - ARCHITECTURE SINCE 1945
- ARC 1181 - PITTSBURGH ARCHITECTURE/URBANISM
- ARC 1136 - EARLY AMERICAN ARCHITECTURE
- ARC 1137 - AMERICAN ARCHITECTURE SINCE INDUSTRIALIZATION
- HAA 1630 - CHINA: VILLAGE & URBAN ARCHITECTURAL SPACE
- HAA 1656 - JAPAN: ARCHITECTURE AS PERFORMATIVE SPACE
- ARC 1191 - ARCHITECTURE AND THE CITY IN CENTRAL EUROPE: 19TH AND 20TH CENTURIES
- ARC 0210 - SPECIAL TOPICS-ARCHITECTURE
- ARC 0300 - INTRODUCTION TO HISTORIC PRESERVATION
- ARC 1330 - GLOBAL PRESERVATION

Two co-requisites

ARC 1911 ARC 1911 - ARCHITECTURE AND DIGITAL MEDIA 1 may be waived for students who have taken a course in AutoCAD in high school or the equivalent course in the Department of Civil Engineering in the Swanson School of Engineering - CEE 0109 CEE 0109 - COMPUTER METH IN CIVIL ENGRG 1.

SA 0130 SA 0130 - DRAWING STUDIO 1 may be waived for students who have taken art courses in high school.

- ARC 1911 - ARCHITECTURE AND DIGITAL MEDIA 1
- SA 0130 - DRAWING STUDIO 1

Historic Preservation Minor

The minor in Historic Preservation is for students who are interested in a specialized focus on the preservation and documentation of historic architecture and the built environment.

Students pursuing the Historic Preservation minor must complete the following coursework, which comprises 18 credits.

Requirements for the minor

- ANTH 1541 - CULTURAL RESOURCE MANAGEMENT
- ARC 0300 - INTRODUCTION TO HISTORIC PRESERVATION
- ARC 1990 - ARCHITECTURAL STUDIES INTERNSHIP

The internship must be conducted with an organization that pertains to the field of historic preservation and be approved by the director of the Architectural Studies program.

Three additional courses

Students pursuing this minor must complete three courses from the following list, for a total of at least nine credits.

- ARC 0110 - APPROACHES TO THE BUILT ENVIRONMENT

- ARC 1181 - PITTSBURGH ARCHITECTURE/URBANISM
- ARC 1136 - EARLY AMERICAN ARCHITECTURE
- ARC 1137 - AMERICAN ARCHITECTURE SINCE INDUSTRIALIZATION
- ARC 0201 - FOUNDATIONS STUDIO 1
- ARC 1320 - DOCUMENTATION AND CONSERVATION STUDIO The Architectural Studies program strongly recommends that students choose this course as one of the three from the list.
- ARC 1310 - PRESERVATION - TEXTS AND THEORY
- ARC 1330 - GLOBAL PRESERVATION

Department of Biological Sciences

Biological Sciences

The biological sciences major is intended for the biology student who wishes to develop an individualized combination of courses at the advanced level. The student is free to plan a curriculum of great breadth or to choose an area of specialization not offered as a major by the department. Most of the undergraduates in our department choose the biological sciences major. This major is suitable for those planning a career in which general familiarity with biological topics is desirable, such as jobs in scientific journalism, biological and pharmaceutical supply industries, biological or medical research, scientific libraries and museums, or in any industry where the products or by-products have potential biological impact. Completing the biological sciences major fulfills the basic science requirements for admission to medical, dental, and other health professional schools and to graduate biology programs.

Bioinformatics

This major is closed for enrollment as of fall 2019. Students enrolled in the program prior to fall 2019 have the option to complete this major or to transfer to the Computational Biology major. Students who choose to complete the Bioinformatics major must do so by the end of summer 2023.

Bioinformatics is the theory, application and development of computing tools to solve problems and create hypotheses in all areas of biological sciences. Biology in the post-genome world has been and continues to be transformed from a largely laboratory-based science to one that integrates experimental and information science. Bioinformatics has contributed to advances in biology by providing tools that handle datasets too large and/or complex for manual analysis. Examples of some of these tools include assembly of DNA sequences of entire genomes, gene finding algorithms, microarray expression analysis, molecular system modeling, and biomarker discovery from mass spectra. Computational tools are central to the organization, analysis, and harvesting of biological data at the level of macromolecules, cells, and systems. Consequently, there is a growing need for trained professionals who understand the languages of biology and computer science. Biologists trained in more traditional programs may not have a working knowledge of statistics and algorithms, whereas computer scientists trained in more traditional programs may not have a working knowledge of the chemistry and biology required in the field.

Computational Biology

Computational biology is a growing field of study in the life sciences. This major, which is administered by the Department of Biological Sciences in the Dietrich School and the Department of Computer Science in the School of Computing and Information, trains students in the computer programming, laboratory techniques, and other skills they will need to succeed in graduate school and in the workforce.

Ecology and Evolution

The field of ecology explores the interactive web of organisms and the environment. Studies in evolution consider the processes by which modern organisms have developed from ancestral ones. The ecology and evolution major is a good choice for students interested in the fundamental questions of the evolutionary origins of organisms and how they survive, or don't survive, in their changing habitats. Within this major, students have the opportunity for in-depth study of the morphological and physiological adaptations of a variety of animals, plants, and microorganisms to a changing world; the ecological relationship of organisms from the individual to the global scale; and the mechanisms that drive evolutionary change.

Employment opportunities in the ecological sciences have increased greatly in recent years. There continues to be a demand for well-trained professionals at all levels (BS, MS, and PhD). Government environmental agencies, commercial consulting and testing firms, waste management industries, research laboratories, and natural history and science museums are just a few of the career opportunities. Graduate departments of ecology, evolution, environmental sciences, genetics, botany, public policy, and public health are actively seeking well-qualified students. The required chemistry, physics, and mathematics courses incorporate the requirements for admission to medical, dental, and other health professional schools. An ecology and evolution major could also serve as a springboard to a career in law.

Microbiology

Microbiology is the study of the biology of microscopic organisms: bacteria, viruses, algae, fungi, and protozoa. The methods used to study and manipulate these minute and mostly unicellular organisms differ from those used in most other biological investigations. Recombinant DNA technology uses microorganisms, particularly bacteria and viruses, to amplify DNA sequences and generate the encoded products. Moving genes from one microorganism to another permits application of microbial skills to solve medical and environmental problems. Many microorganisms are unique among living things in their ability to use gaseous nitrogen from the air or to degrade complex and resistant macromolecules in such materials as wood. By rearranging the genes that control these and other processes, scientists seek to engineer microorganisms that will process wastes, fertilize agricultural land, produce desirable biomolecules, and solve other problems inexpensively and safely.

Microbiologists pursue careers in many fields, including agricultural, environmental, food, and industrial microbiology; public health; resource management; basic research; education; and pharmaceuticals. Jobs in all these fields are available at the BS level as well as the MS and PhD levels. The microbiology major also incorporates the requirements expected for admission to medical, dental, and other health professional schools and to graduate schools in microbiology, molecular biology, biochemistry, and related disciplines.

Molecular Biology

Molecular biology emphasizes the study of molecules that make up an organism and the forces operating among these molecules. Increasingly, molecular biologists can also explore the genetic control of these molecules and thus define the developmental, cellular, and subcellular changes that occur during the dynamic processes of life. Virtually every question, whether in biochemistry, cell biology, developmental biology, or some other biological discipline, applies molecular biology, often as the prime approach, in its solution. Biochemical and molecular developments have revolutionized biological research, fueling the explosive growth in the biotechnology industry and rapid increase of molecular medicine.

The molecular biology major, with its two tracks (biochemistry or cell and developmental biology) provides a strong background for many science careers. Both tracks incorporate the requirements expected for admission to medical, dental, and other health professional schools and to graduate schools in biochemistry, cell and molecular biology, and related disciplines. Positions for molecular biologists at the BS, MS, and PhD levels are available in the biotechnology

industries as well as in universities, medical schools, hospitals, government laboratories, research institutes, and public health institutions.

For more information on the Department of Biological Sciences and the majors it offers, see www.biology.pitt.edu.

Certificate

Life Sciences Research Certificate

In Summer 2023 the Life Sciences Research Certificate was terminated. Students who are currently enrolled will have until Summer 2023 to complete the necessary instruction.

The goals of this certificate program are to enable students to: understand and apply key concepts in designing and performing authentic experimental research; learn and practice good science communication, ethics and responsible conduct in research; develop research practices and critical thinking skills needed for a career in research; and compile evidence of rigorous training in research for applicants to jobs and graduate programs. Students must complete four terms of inquiry-based research in lab or field settings under faculty mentorship, overseen by Research Certificate Oversight Committee, two courses about research methods, three courses focusing on quantitative skills, one course in history and philosophy of science, and written and oral presentations of their research.

Application Requirements

Prerequisites

1. Introductory Biology. Completed **two** terms of introductory biology, with a grade of C [not C-] or above. Transfers or students with AP/IB credit may be exempt from part of this requirement.
2. Completed 2 credits of mentored research in a Certificate-approved faculty laboratory (one term; min. 140 hrs.; BIOSC 1903/BIOSC 1904 or NROSCI 1901/NROSCI 1961 or equivalent) **and** have a letter of support from the faculty sponsor.
3. GPA. If students have a cumulative GPA of 2.75 or lower after completing the initial term of research, the faculty sponsor must comment in their letter of support on whether the student is likely to meet the rigorous demands of the Certificate.

Bio 1: Choose one (each totals 4 cr.)

- BIOSC 0050 - FOUNDATIONS OF BIOLOGY LABORATORY 1 or
- BIOSC 0057 - FOUNDATIONS OF BIOLOGY RESEARCH LABORATORY 1
- and**
- BIOSC 0150 - FOUNDATIONS OF BIOLOGY 1 or
- BIOSC 0715 - UHC FOUNDATIONS OF BIOLOGY 1

Bio 2: Choose one (each totals 4 cr.)

- BIOSC 0060 - FOUNDATIONS OF BIOLOGY LABORATORY 2 or
- BIOSC 0067 - FOUNDATIONS OF BIOLOGY RESEARCH LABORATORY 2
and
- BIOSC 0160 - FOUNDATIONS OF BIOLOGY 2 or
- BIOSC 0716 - UHC FOUNDATIONS OF BIOLOGY 2

Requirements to Complete the Certificate

Mentored Research in Life Sciences

- Components of mentored research projects: Formulation of hypotheses, experimental design, data collection, data interpretation, drawing conclusions supported by the data. Presentation of research findings, understanding the pertinent scientific literature, developing new knowledge, and development of a path towards research independence.
- Research credit requirements: Three additional terms (each term; min. 140 hours.; BIOSC 1903/BIOSC 1904 or NROSCI 1901/NROSCI 1961 or equivalent.) of research for a total of at least 8 credits or credit equivalents. BIOSC 1903/BIOSC 1904 and NROSCI 1901 /NROSCI 1961 must be approved and credits awarded according to departmental procedures. The final 2 terms of research must be with the same faculty mentor. Research equivalents must be approved by the RCOC.
- Pre-planning and Reporting for each Term: Pre-planning and Reporting: In the last week of classes before the next term of research (see B above), students must submit a 1-2 page report and prospectus summarizing accomplishments and aims for the next term. RCOC determines whether the research can count towards the Certificate before the end of the add/drop period. Oversight: Reporting documents must be co-signed by the faculty sponsor (and co-sponsor if any).
- Choice of Research Faculty: Research-active faculty in the Departments of Biological Sciences or Neuroscience may sponsor students for research in their labs. Faculty sponsors in other A&S departments or other University of Pittsburgh schools must be approved by RCOC.
- Optional Off-campus Research Term: One term of off-campus research may be approved (e.g. summer fellowship or study abroad). Submit in advance a 1-page description to RCOC of the project and the research environment plus a letter from the research advisor confirming commitment to the ≥ 140 hours of research activity.

Quantitative Skills Courses - Statistics and Mathematics

Complete three courses from this list (9 credits).

- BIOSC 1545 - THE MATHEMATICS OF BIOLOGY
- MATH 0220 - ANALYTIC GEOMETRY AND CALCULUS 1
- MATH 0230 - ANALYTIC GEOMETRY AND CALCULUS 2
- MATH 0280 - INTRO TO MATRICES & LINEAR ALG
- MATH 0290 - DIFFERENTIAL EQUATIONS
- MATH 1380 - MATH BIOLOGY
- STAT 1000 - APPLIED STATISTICAL METHODS
- STAT 1221 - APPLIED REGRESSION
- STAT 1211 - APPLIED CATEGORICAL DATA ANALYSIS
- STAT 1251 - STATISTICAL QUALITY CONTROL
- STAT 1241 - APPLIED SAMPLING

- STAT 1311 - APPLIED MULTIVARIATE ANALYSIS
- STAT 1321 - APPLIED TIME SERIES

Graduate level options for the certificate:

- BIOST 2041 - INTRODUCTION TO STATISTICAL METHODS 1
- BIOST 2011 - PRINCIPLES OF STATISTICAL REASONING
- BIOST 2012 - BAYESIAN & EMPIRICAL BAYES STAT

History and Philosophy of Science Courses

Complete one course from this list (3 credits).

- HPS 0427 - MYTH AND SCIENCE
- HPS 0437 - DARWINISM AND ITS CRITICS
- HPS 0430 - GALILEO AND CREATION OF MODERN SCIENCE
- HPS 0515 - MAGIC, MEDICINE AND SCIENCE or
- HIST 0089 - MAGIC, MEDICINE AND SCIENCE
- HPS 0611 - PRINCIPLES OF SCIENTIFIC REASONING
- HPS 1620 - PHILOSOPHY OF BIOLOGY
- HPS 1625 - PHILOSOPHY OF MEDICINE
- HPS 1508 - CLASSICS IN HISTORY OF SCIENCE
- HPS 1653 - INTRO TO PHILOSOPHY OF SCIENCE
- HPS 1670 - PHILOSOPHY OF NEUROSCIENCE
- HPS 1800 - SPEC TOPICS HIST & PHIL OF SCI

Research Methods Courses

- Complete two Research Methods courses, one in research communication and one in research mechanics. It is recommended that the research courses be in the student's major department.
- Be enrolled in the Certificate and performing research in a Certificate-approved lab during the same term as enrolled in these courses. Courses may be taken in any order. Substitution of other Research Methods courses must be pre-approved by RCOC.
- BIOSC 1906 - RESEARCH COMMUNICATION: COMMUNICATION IN LIFE SCIENCES RESEARCH
- BIOSC 1907 - RESEARCH DECONSTRUCTION: UNDER THE HOOD OF LIFE SCIENCES RESEARCH
- NROSCI 2014 - SPEAKING OF SCIENCE

Presenting Research

The student must present their research at two scientific meetings or symposia, at least one venue must be outside of major and research Departments. Ex.: Honors College Research Fair, Science20xx, Duquesne Summer Undergraduate Research Symposium, regional or national scientific meeting. Presentation and abstract must be designed and delivered by the student and approved by the research faculty advisor and RCOC. The research abstract and a copy of poster or talk must be submitted to RCOC.

Research paper

The student will submit a manuscript describing the research completed in the final research experience spanning at least two consecutive terms. This will be in the form of a research manuscript. The paper must be submitted to the faculty sponsor and the RCOC by the last week of classes before finals week. The paper must be approved by the faculty sponsor and RCOC. The same final research paper may be considered for satisfying both Departmental Honors and the Research Certificate, provided it fulfills other requirements of the Department.

Portfolio Documentation

Upon registration for the Certificate, students must start (and regularly update) their electronic Portfolio, documenting their progress towards Certificate completion. Each proposal, presentation, research report, and other Certificate-related materials must be collated in the Portfolio. The Portfolio allows students, faculty, and advisors to review progress towards the Certificate, and provides coherent documentation of research proficiency when applying for employment or graduate school admission.

GPA Requirements

The student must remain in good academic standing (minimum cumulative GPA 2.00); if students have a cumulative GPA of 2.75 or lower after completing the initial term of research, the faculty sponsor for that research must comment in writing their letter of support on whether the student is likely to meet the rigorous demands of the Certificate.

Advising

Majors in the Departments of Biological Sciences or Neuroscience will be advised through their departments. Students outside of these majors will be assigned an advisor within one of these majors.

Students conducting research with a faculty member who does not work in the Departments of Biological Sciences or Neuroscience must have their research faculty sponsor complete a Faculty Mentor Application unless they are a CNUP faculty member. Students must submit the faculty mentor application with their application for the certificate.

Joint Major

Computational Biology, BS

Computational Biology Requirements

Computational biology is a growing field of study in the life sciences. This major, which is administered by the Department of Biological Sciences in the Dietrich School and the Department of Computer Science in the School of Computing and Information, trains students in the computer programming, laboratory techniques, and other skills they will need to succeed in graduate school and in the workforce. This major requires completion of 64 credits of coursework, detailed as follows.

Students may declare a major in Computational Biology after completing the following courses or their equivalents with a letter grade of C or higher.

- BIOSC 0150 - FOUNDATIONS OF BIOLOGY 1
- BIOSC 0160 - FOUNDATIONS OF BIOLOGY 2
- CHEM 0110 - GENERAL CHEMISTRY 1
- CHEM 0120 - GENERAL CHEMISTRY 2
- CS 0011 - INTRODUCTION TO COMPUTING FOR SCIENTISTS

Transfer students who have finished these requirements prior to admission to the University of Pittsburgh are asked to complete one term of course work, including at least one BIOSC course that counts toward the major, before declaring within the Dietrich School. Transfer students applying to the School of Computing and Information who have finished these requirements prior to admission to the University of Pittsburgh may be admitted directly into the major - note, transfer application requirements for SCI are outlined in the Catalog under "Admission Requirements and Procedures ."

Biological Sciences courses

All of the following courses are required for the major.

- BIOSC 0150 - FOUNDATIONS OF BIOLOGY 1 or
 - BIOSC 0155 - HONORS FOUNDATIONS OF BIOLOGY 1

 - BIOSC 0160 - FOUNDATIONS OF BIOLOGY 2 or
 - BIOSC 0165 - HONORS FOUNDATIONS OF BIOLOGY 2

 - BIOSC 0350 - GENETICS
 - BIOSC 1000 - BIOCHEMISTRY
- * Students may alternately choose BIOSC 1810 Macromolecular Structure and Function and BIOSC 1820 Metabolic Pathways and Regulation in lieu of BIOSC 1000 . BIOSC 1820 can then serve as an elective course.

Computer Science courses

All of the following courses are required for the major.

- CS 0011 - INTRODUCTION TO COMPUTING FOR SCIENTISTS
- CMPINF 0401 - INTERMEDIATE PROGRAMMING
- CS 0441 - DISCRETE STRUCTURES FOR CS
- CS 0445 - ALGORITHMS AND DATA STRUCTURES 1
- CS 1501 - ALGORITHMS AND DATA STRUCTURES 2
- CS 1656 - INTRODUCTION TO DATA SCIENCE

Computational Biology courses

All of the following courses are required for the major.

- BIOSC 1540 - COMPUTATIONAL BIOLOGY

- BIOSC 1542 - COMPUTATIONAL GENOMICS or
- BIOSC 1544 - SIMULATION AND MODELING

- BIOSC 1630 - COMPUTATIONAL BIOLOGY SEMINAR

Capstone course

Students must choose one of the following capstone courses.

- BIOSC 1640 - COMPUTATIONAL BIOLOGY RESEARCH

- CS 1640 - BIOINFORMATICS SOFTWARE DESIGN

Co-requisite Chemistry courses

All of the following courses are required for the major.

- CHEM 0110 - GENERAL CHEMISTRY 1 or
- CHEM 0710 - UHC GENERAL CHEMISTRY 1
- CHEM 0120 - GENERAL CHEMISTRY 2 or
- CHEM 0720 - UHC GENERAL CHEMISTRY 2
- CHEM 0310 - ORGANIC CHEMISTRY 1 or
- CHEM 0730 - UHC ORGANIC CHEMISTRY 1

Co-requisite Mathematics and Statistics courses

Both of the following courses are required for the major.

- MATH 0220 - ANALYTIC GEOMETRY AND CALCULUS 1
 - STAT 1000 - APPLIED STATISTICAL METHODS
- *Students may alternately choose CS 1503 Mathematical Foundations of Machine Learning, which also requires MATH 0280 Intro to Matrices & Linear ALG or MATH 1180 Linear Algebra 1 as prerequisite. MATH 0280 can then serve as an elective course.

Elective courses

Students must select one course from the following list.

- BIOSC 0351 - GENETICS LABORATORY
 - BIOSC 0370 - ECOLOGY
 - BIOSC 1005 - INTRODUCTION TO BIOCHEMISTRY LAB
 - BIOSC 1130 - EVOLUTION
 - BIOSC 1285 - GENOMICS LABORATORY
 - BIOSC 1320 - POPULATION BIOLOGY
 - BIOSC 1470 - BIOPHYSICAL CHEMISTRY
 - BIOSC 1500 - CELL BIOLOGY
 - BIOSC 1520 - DEVELOPMENTAL BIOLOGY
 - BIOSC 1760 - IMMUNOLOGY
 - BIOSC 1820 - METABOLIC PATHWAYS AND REGULATION
- * This course must be taken in conjunction with BIOSC 1810 MACROMOLECULAR STRUCTURE AND FUNCTION; the pair of courses are taken in lieu of BIOSC 1000 BIOCHEMISTRY.
- BIOSC 1850 - MICROBIOLOGY
 - BIOSC 1940 - MOLECULAR BIOLOGY
 - CHEM 0250 - INTRODUCTION TO ANALYTICAL CHEMISTRY
 - CHEM 0320 - ORGANIC CHEMISTRY 2
 - CHEM 1460 - INTRO MODERN COMPUTATIONAL SCI
 - CHEM 1830 - SYNTHETIC BIOLOGY

- CS 1502 - FORMAL METHODS IN COMPUTER SCIENCE
- CS 1520 - PROGRAMMING LANGUAGE FOR WEB APPLICATIONS
- CS 1555 - DATABASE MANAGEMENT SYSTEMS
- CS 1566 - INTRODUCTION COMPUTER GRAPHICS
- CS 1675 - INTRODUCTION TO MACHINE LEARNING
- MATH 0230 - ANALYTIC GEOMETRY AND CALCULUS 2
- MATH 0280 - INTRO TO MATRICES & LINEAR ALG
- NROSCI 1000 - INTRO TO NEUROSCIENCE
- PHYS 0174 - BASIC PHYSICS, SCIENCE AND ENGINEERING 1 (INTEGRATED)
- STAT 1221 - APPLIED REGRESSION

Additional Requirements

Writing (W) requirement

Dietrich School students must complete at least one W-course in the major. BIOSC 1630 - COMPUTATIONAL BIOLOGY SEMINAR meets this requirement.

Grade requirements

All courses offered by the Departments of Biological Sciences and Computer Science plus the elective course must be completed with a letter grade of C or better.

Co-Requisite courses

Students must complete co-requisite courses in the departments of Mathematics, Statistics, and Chemistry with an overall average of C or better, with the exceptions of CHEM 0110 GENERAL CHEMISTRY 1 and CHEM 0120 GENERAL CHEMISTRY 2. Students must earn letter grades of C or better in each of these classes.

Honors

A Dietrich School student may achieve honors in the Department of Biological Sciences by meeting these requirements:

1. Maintain a minimum GPA of 3.25;
2. Complete a faculty-supported research project; and
3. Complete an Honors Thesis. Details about the required thesis are available at www.biology.pitt.edu/undergraduate/advising-and-support/honors.

A School of Computing and Information student may achieve honors in the Department of Computer Science by meeting these requirements:

1. Maintain a minimum overall GPA of 3.25; and
2. Maintain a major GPA (CS and Biological Science courses) of 3.5; and
3. Complete an additional major elective course with a grade of A.

Satisfactory/No Credit option

Only one core course required for the major (BIOSC/CS courses and the elective) may be taken on an S/NC basis. Co-requisite courses may be taken on an S/NC basis subject to School limitations. Please check with your School for specific information on S/NC grades.

Restrictions

- Independent study and independent research credits do not count toward the major. The Departments of Biological Sciences and Computer Science encourages students to seek out these experiences in order to enhance their education.

Major

Biochemistry, BS

Biochemistry is the study of how molecules in organisms work and interact at a chemical and physical level. Biochemistry can be used to study the underpinnings of processes in a wide range of disciplines, including cell biology, developmental biology, and molecular biology. Biochemical and molecular developments have revolutionized biological research, fueling the explosive growth in the biotechnology industry and rapid increase of molecular medicine.

The Biochemistry Major provides a strong background for many science careers, incorporating the requirements for admission to medical, dental, and other health professional schools and to graduate schools in biochemistry, cell and molecular biology, and related disciplines. Positions for biochemists at the BS, MS, and PhD levels are available in the biotechnology industries as well as in universities, medical schools, hospitals, government laboratories, research institutes, and public health institutions.

Requirements for the Biochemistry Major are described below.

Biological Sciences courses

Majors must complete a minimum of 32 credits of Biological Sciences coursework as described below.

Required courses

- BIOSC 0150 - FOUNDATIONS OF BIOLOGY 1
One of the following lab courses
- BIOSC 0050 - FOUNDATIONS OF BIOLOGY LABORATORY 1
- BIOSC 0057 - FOUNDATIONS OF BIOLOGY RESEARCH LABORATORY 1
- BIOSC 0058 - FOUNDATIONS OF BIOLOGY SEA-PHAGES LABORATORY 1
- BIOSC 0160 - FOUNDATIONS OF BIOLOGY 2
One of the following lab courses
- BIOSC 0060 - FOUNDATIONS OF BIOLOGY LABORATORY 2
- BIOSC 0067 - FOUNDATIONS OF BIOLOGY RESEARCH LABORATORY 2
- BIOSC 0068 - FOUNDATIONS OF BIOLOGY SEA-PHAGES LABORATORY 2
- BIOSC 0350 - GENETICS
The two-semester biochemistry sequence
- BIOSC 1810 - MACROMOLECULAR STRUCTURE AND FUNCTION and
- BIOSC 1820 - METABOLIC PATHWAYS AND REGULATION
- BIOSC 1470 - BIOPHYSICAL CHEMISTRY
or
- CHEM 1410 - PHYSICAL CHEMISTRY 1 and
- CHEM 1420 - PHYSICAL CHEMISTRY 2
- BIOSC 1580 - BIOCHEMISTRY SEMINAR

- BIOSC 1830 - BIOCHEMISTRY LABORATORY
- BIOSC 1940 - MOLECULAR BIOLOGY

Writing-intensive course

Choose one of the following courses.

- BIOSC 1581 - BIOCHEMISTRY SEMINAR WRITING PRACTICUM
- BIOSC 1831 - BIOCHEMISTRY LABORATORY WRITING PRACTICUM

Biochemistry elective courses

Choose two lecture courses and one lab course from the following lists.

Lecture courses

- BIOSC 1120 - BIOSTATISTICS
- BIOSC 1130 - EVOLUTION
- BIOSC 1250 - HUMAN PHYSIOLOGY
- BIOSC 1275 - GENOMICS
- BIOSC 1280 - MICROBIAL GENETICS
- BIOSC 1455 - HUMAN ENDOCRINOLOGY
- BIOSC 1500 - CELL BIOLOGY
- BIOSC 1520 - DEVELOPMENTAL BIOLOGY
- BIOSC 1540 - COMPUTATIONAL BIOLOGY
- BIOSC 1730 - VIROLOGY
- BIOSC 1760 - IMMUNOLOGY
- BIOSC 1850 - MICROBIOLOGY
- BIOSC 1865 - MICROBIAL PHYSIOLOGY
- CHEM 1830 - SYNTHETIC BIOLOGY

Lab courses

- BIOSC 0351 - GENETICS LABORATORY
- BIOSC 0352 - INTRODUCTION TO MOLECULAR GENETICS LABORATORY
- BIOSC 1285 - GENOMICS LABORATORY
- BIOSC 1510 - CELL BIOLOGY LABORATORY
- BIOSC 1530 - DEVELOPMENTAL BIOLOGY LABORATORY
- BIOSC 1855 - INTRODUCTION TO MICROBIOLOGY LABORATORY

Co-requisite courses

- CHEM 0110 - GENERAL CHEMISTRY 1
- CHEM 0120 - GENERAL CHEMISTRY 2
- CHEM 0310 - ORGANIC CHEMISTRY 1
- CHEM 0320 - ORGANIC CHEMISTRY 2

- CHEM 0345 - ORGANIC LABORATORY
- MATH 0220 - ANALYTIC GEOMETRY AND CALCULUS 1
- MATH 0230 - ANALYTIC GEOMETRY AND CALCULUS 2
Either the algebra-based physics courses or the calculus-based physics courses.
- PHYS 0110 - INTRODUCTION TO PHYSICS 1 and
- PHYS 0111 - INTRODUCTION TO PHYSICS 2
or
- PHYS 0174 - BASIC PHYSICS, SCIENCE AND ENGINEERING 1 (INTEGRATED) and
- PHYS 0175 - BASIC PHYSICS, SCIENCE AND ENGINEERING 2 (INTEGRATED)

Grade requirements

- Each required BIOSC course for the major must be completed with a grade of C or better.
- The elective courses for the major must also be completed with a grade of C or better.
- A minimum GPA of 2.0 in all departmental courses taken is required for graduation. If a C- or lower is earned in an elective course for the major but is not repeated, the course will be used to calculate the departmental GPA but will not be counted toward the 32 credits required for the major.
- Students must also earn a minimum GPA of 2.0 in the co-requisite courses. A passing grade of C- or lower in a co-requisite course can be accepted if balanced by a higher grade in another co-requisite course so that the co-requisite GPA is 2.0 or higher. Exceptions: CHEM 0110 and CHEM 0120 have to be C or better to declare the major; PHYS 0110/0174 has to be C or better to enroll in PHYS 0111/0175; MATH 0220 has to be C or better to enroll in MATH 0230.
- Only one BIOSC course may be taken on a Satisfactory/No Credit (S/NC) basis.
David C. Frederick Honors College equivalent courses may be substituted for required or elective courses.

120 Credits

Bioinformatics, BS

In the Fall of 2019, the Bioinformatics, BS was inactive for students to enroll in. Students who were enrolled prior to the Fall 2019 term have the option to remain in the major or transfer to the Computational Biology major. Students who choose to complete the program under Bioinformatics must do so by Summer 2023 term.

Biological Sciences Requirements

Students in all five majors within the Department of Biological Sciences must follow general rules and fulfill certain general requirements in addition to those in their specific major:

- A total of 32 credits in biology must be taken (see specific course requirements for each major below). All biology courses taken for the major must be completed with a C or better. If a C- or lower is earned in a biology elective course

that is not repeated, the course will be used in calculating the overall GPA in the major but will not be counted as part of the 32 credits required for the major.

- Co-requisite courses must be taken in chemistry, physics, and mathematics and/or statistics, as follows.
- CHEM 0110 - GENERAL CHEMISTRY 1 and CHEM 0120 - GENERAL CHEMISTRY 2, including the labs;
- CHEM 0310 - ORGANIC CHEMISTRY 1 , CHEM 0320 - ORGANIC CHEMISTRY 2 , and CHEM 0345 - ORGANIC LABORATORY lectures and labs;
- MATH 0220 - ANALYTIC GEOMETRY AND CALCULUS 1;
- Either MATH 0230 - ANALYTIC GEOMETRY AND CALCULUS 2 or STAT 1000 - APPLIED STATISTICAL METHODS; and
- Either the algebra-based physics courses PHYS 0110 - INTRODUCTION TO PHYSICS 1 and PHYS 0111 - INTRODUCTION TO PHYSICS 2, or the calculus-based physics courses PHYS 0174 - BASIC PHYSICS, SCIENCE AND ENGINEERING 1 (INTEGRATED) and PHYS 0175 - BASIC PHYSICS, SCIENCE AND ENGINEERING 2 (INTEGRATED).
- A minimum GPA of 2.00 must be maintained in all biology courses and in the combined co-requisite courses. The Satisfactory/No Credit (S/NC) option may be used for only one biology course and for any of the co-requisite courses.
- Departmental writing (W) courses may be selected once the major is declared and count towards the 32 biology credits for the major.
- Opportunities for faculty-sponsored directed research and internship experiences are available and strongly encouraged. Academic credit awarded from the departmental W, directed research, and internship courses count as credit toward graduation, but not in determining the 32 biology credits required for the major. Students interested in departmental honors should contact department advisors for information.
- David C. Frederick Honors College equivalents for any of the above courses are accepted. Credit by examination is available only through appropriate AP scores for equivalents to BIOSC 0150 - FOUNDATIONS OF BIOLOGY 1, BIOSC 0057 - FOUNDATIONS OF BIOLOGY RESEARCH LABORATORY 1, BIOSC 0160 - FOUNDATIONS OF BIOLOGY 2, and BIOSC 0067 - FOUNDATIONS OF BIOLOGY RESEARCH LABORATORY 2 lectures and labs. Updated information about the department, major requirements, and course offerings is available on the department's Web site, www.biology.pitt.edu.

Corequisite courses

Corequisite courses must be taken in chemistry, physics, and mathematics and/or statistics, including

- CHEM 0110 - GENERAL CHEMISTRY 1 which includes the lab
- CHEM 0120 - GENERAL CHEMISTRY 2 which includes the lab
- CHEM 0310 - ORGANIC CHEMISTRY 1
- CHEM 0330 - ORGANIC CHEMISTRY LABORATORY 1
- CHEM 0320 - ORGANIC CHEMISTRY 2
- CHEM 0340 - ORGANIC CHEMISTRY LABORATORY 2
- MATH 0220 - ANALYTIC GEOMETRY AND CALCULUS 1

- MATH 0230 - ANALYTIC GEOMETRY AND CALCULUS 2 or
- STAT 1000 - APPLIED STATISTICAL METHODS

- PHYS 0110 - INTRODUCTION TO PHYSICS 1 and
- PHYS 0111 - INTRODUCTION TO PHYSICS 2
- or
- PHYS 0174 - BASIC PHYSICS, SCIENCE AND ENGINEERING 1 (INTEGRATED) and
- PHYS 0175 - BASIC PHYSICS, SCIENCE AND ENGINEERING 2 (INTEGRATED)

Note:

Updated information about the department, major requirements, and course offerings is available on the department's Web site, www.biology.pitt.edu.

Requirements

The undergraduate bioinformatics degree program at the University of Pittsburgh is operated jointly by the departments of biological sciences (www.biology.pitt.edu) and computer science (www.cs.pitt.edu). This program offers training that builds a solid foundation in chemistry, biology, computer science, mathematics, and statistics. The training will enable students to communicate fluently with experts across these disciplines and to have the skills necessary to apply computing tools to address contemporary problems in biology and medicine. It will enhance the professional opportunities for undergraduates to pursue careers in pure or applied research in academia, government, pharmaceutical, medical, or biotechnology sectors.

Advising for Bioinformatics majors is housed in both the Department of Biology and the Department of Computer Science. For information, contact one of the advisors.

Core courses (42 credits)

- BIOSC 0150 - FOUNDATIONS OF BIOLOGY 1
- BIOSC 0160 - FOUNDATIONS OF BIOLOGY 2
- BIOSC 0350 - GENETICS
- BIOSC 1810 - MACROMOLECULAR STRUCTURE AND FUNCTION
- CHEM 0310 - ORGANIC CHEMISTRY 1 *
- CHEM 0320 - ORGANIC CHEMISTRY 2
- MATH 0220 - ANALYTIC GEOMETRY AND CALCULUS 1
- STAT 1000 - APPLIED STATISTICAL METHODS
- STAT 1221 - APPLIED REGRESSION
- CS 0401 - INTERMEDIATE PROGRAMMING USING JAVA **
- CS 0445 - ALGORITHMS AND DATA STRUCTURES 1
- CS 0441 - DISCRETE STRUCTURES FOR CS
- CS 1501 - ALGORITHMS AND DATA STRUCTURES 2

Note:

* CHEM 0110 - GENERAL CHEMISTRY 1 and CHEM 0120 - GENERAL CHEMISTRY 2 are pre-requisites to taking CHEM 0310.

** Students without a background in programming will be encouraged to take CS 0007 - INTRODUCTION TO COMPUTER PROGRAMMING prior to taking CS 0401.

Upper Level Courses (22 credits)

- BIOSC 1540 - COMPUTATIONAL BIOLOGY
- BIOSC 1640 - COMPUTATIONAL BIOLOGY RESEARCH or
- CS 1640 - BIOINFORMATICS SOFTWARE DESIGN
- BIOSC 1901 - INDEPENDENT STUDY (total of four credits)* or
- CS 1950 - DIRECTED RESEARCH: CAPSTONE (total of four credits)*

Electives (12 credits)

Electives (12 credits) to be chosen from an approved list of courses in Statistics, Chemistry, Biological Sciences and/or Computer Science. With the approval of the Bioinformatics Program Committee, the student may take electives in other departments.

Note:

* Undergraduate Research is taken over multiple terms for variable credit. Four credits of undergraduate research are required for the major. Research can begin as early as the sophomore year and must be approved by Kirk Pruhs in the Department of Computer Science, or Paula Grabowski in the Department of Biological Sciences.

Capstone experience

BIOSC 1640 and CS 1640 satisfy the bioinformatics major capstone experience requirement. Capstone request must be made to Kirk Pruhs in the Department of Computer Science.

Additional requirements and restrictions

- Bioinformatics majors who have completed CS 0401 may not enroll in CS 0004 or CS 0007.
- BIOSC 1000 cannot be substituted for BIOSC 1810.
- CHEM 1810 can only be substituted for BIOSC 1810 if it is not possible for the student to schedule BIOSC 1810
- Students must complete at least one W-course in the major
- A grade of C or better is required in each of the core and upper level courses that are to count toward the major.
- This requirement also satisfies the Dietrich School requirement of a minimum GPA of 2.0 in major courses
- Elective courses for the major must be completed with a grade of C or better. If a C-or lower is earned in an elective course for the major and is not repeated, the course will be used to calculate the overall GPA but will not be counted toward the 32 credits required for the major.
- Students must earn a minimum GPA of 2.0 in the required chemistry and mathematics courses.
- No Bioinformatics major courses may be taken on an S/NC basis.

Honors major requirements

Honors in Bioinformatics is granted if, in addition to fulfilling all requirements for the major, the student:

- completes three semesters (3 x 2 credits) or the equivalent (summer counts as a semester equivalent) of undergraduate research together with a written honors thesis presented in the last semester of the senior year;
- maintains a GPA of 3.5 or above in all Bioinformatics major courses; and
- maintains an overall GPA of 3.25 or above.

Approved elective course list

Biological Sciences

- BIOSC 1500 - CELL BIOLOGY
- BIOSC 1545 - THE MATHEMATICS OF BIOLOGY
- BIOSC 1820 - METABOLIC PATHWAYS AND REGULATION

- BIOSC 1830 - BIOCHEMISTRY LABORATORY
- BIOSC 1940 - MOLECULAR BIOLOGY
- BIOSC 1950 - MOLECULAR GENETICS LABORATORY

Computer Science

- CS 1510 - ALGORITHM DESIGN
- CS 1520 - PROGRAMMING LANGUAGE FOR WEB APPLICATIONS
- CS 1555 - DATABASE MANAGEMENT SYSTEMS
- CS 1566 - INTRODUCTION COMPUTER GRAPHICS
- CS 1571 - INTRODUCTION TO ARTIFICIAL INTELLIGENCE
- CS 1645 - INTRODUCTION TO HIGH PERFORMANCE COMPUTING SYSTEMS

Chemistry

- CHEM 0250 - INTRODUCTION TO ANALYTICAL CHEMISTRY
- CHEM 1410 - PHYSICAL CHEMISTRY 1
- CHEM 1420 - PHYSICAL CHEMISTRY 2

Statistics

- STAT 1301 - STATISTICAL PACKAGES
- STAT 1311 - APPLIED MULTIVARIATE ANALYSIS
- STAT 1321 - APPLIED TIME SERIES

Biological Sciences, BS

The Biological Sciences major is intended for the biology student who wants to develop an individualized combination of courses at the advanced level. The student is free to plan a curriculum of great breadth or to choose an area of specialization not offered as a major by the department. Most of the undergraduates in our department choose the Biological Sciences major. This major is suitable for those planning a career in which general familiarity with biological topics is desirable, such as jobs in scientific journalism, biological and pharmaceutical supply industries, biological or medical research, scientific libraries and museums, or in any industry where the products or by-products have potential biological impact. Completing the Biological Sciences major fulfills the basic science requirements for admission to medical, dental, and other health professional schools and to graduate biology programs.

Requirements for the Biological Sciences major are described below.

Biology Course Requirements

Majors must complete a minimum of 32 credits of Biological Sciences coursework.

17 credits of required courses

- BIOSC 0150 - FOUNDATIONS OF BIOLOGY 1
One of the following lab courses.
- BIOSC 0050 - FOUNDATIONS OF BIOLOGY LABORATORY 1

- BIOSC 0057 - FOUNDATIONS OF BIOLOGY RESEARCH LABORATORY 1
- BIOSC 0058 - FOUNDATIONS OF BIOLOGY SEA-PHAGES LABORATORY 1
- BIOSC 0160 - FOUNDATIONS OF BIOLOGY 2
One of the following lab courses.
- BIOSC 0060 - FOUNDATIONS OF BIOLOGY LABORATORY 2
- BIOSC 0067 - FOUNDATIONS OF BIOLOGY RESEARCH LABORATORY 2
- BIOSC 0068 - FOUNDATIONS OF BIOLOGY SEA-PHAGES LABORATORY 2
- BIOSC 0350 - GENETICS
- BIOSC 0370 - ECOLOGY or
- BIOSC 1130 - EVOLUTION
- BIOSC 1000 - BIOCHEMISTRY or both
- BIOSC 1810 - MACROMOLECULAR STRUCTURE AND FUNCTION and
- BIOSC 1820 - METABOLIC PATHWAYS AND REGULATION

Writing Intensive course

Students must pass one writing-intensive (W) course in BIOSC. This course will count as a BIOSC elective as long as the student earned a letter grade of C or better. Students typically complete BIOSC 1010 - COMMUNICATING IN THE BIOLOGICAL SCIENCES.

Elective courses

Majors must complete a minimum of 15 credits of upper-division courses, which must include two lab courses or one lab and one field course. The BIOSC Writing course (above) can count as an elective. Students may begin to take elective courses when they have completed the appropriate prerequisite courses; for example, some upper-division courses have only BIOSC 0160 as a prerequisite whereas others have additional requirements.

If a student elects the combination of BIOSC 1810 - MACROMOLECULAR STRUCTURE AND FUNCTION and BIOSC 1820 - METABOLIC PATHWAYS AND REGULATION as listed above, then BIOSC 1820 counts as an upper-level elective. Students may count only one physiology course toward the major.

Co-requisite courses

- CHEM 0110 - GENERAL CHEMISTRY 1
- CHEM 0120 - GENERAL CHEMISTRY 2
- CHEM 0310 - ORGANIC CHEMISTRY 1
- CHEM 0320 - ORGANIC CHEMISTRY 2
- CHEM 0345 - ORGANIC LABORATORY
- MATH 0220 - ANALYTIC GEOMETRY AND CALCULUS 1

Choose one of the following courses.

- MATH 0230 - ANALYTIC GEOMETRY AND CALCULUS 2
- STAT 1000 - APPLIED STATISTICAL METHODS

Choose one of the following pairs of courses.

- PHYS 0110 - INTRODUCTION TO PHYSICS 1 and
- PHYS 0111 - INTRODUCTION TO PHYSICS 2
- or
- PHYS 0174 - BASIC PHYSICS, SCIENCE AND ENGINEERING 1 (INTEGRATED) and
- PHYS 0175 - BASIC PHYSICS, SCIENCE AND ENGINEERING 2 (INTEGRATED)

Grade Requirements

- Each required BIOSC course for the major must be completed with a grade of C or better.
- The elective courses for the major must also be completed with a grade of C or better.
- A minimum GPA of 2.0 in all departmental courses taken is required for graduation. If a C- or lower is earned in an elective course for the major but is not repeated, the course will be used to calculate the departmental GPA but will not be counted toward the 32 credits required for the major.
- Students must also earn a minimum GPA of 2.0 in the co-requisite courses. A passing grade of C- or lower in a co-requisite course can be accepted if balanced by a higher grade in another co-requisite course so that the co-requisite GPA is 2.0 or higher. Exceptions: CHEM 0110 and CHEM 0120 have to be C or better to declare the major; PHYS 0110 / PHYS 0174 has to be C or better to enroll in PHYS 0111 / PHYS 0175; MATH 0220 has to be C or better to enroll in MATH 0230.
- Only one BIOSC course may be taken on a Satisfactory/No Credit (S/NC) basis.
David C. Frederick Honors College equivalent courses may be substituted for required or elective courses.

Ecology and Evolution, BS

The field of ecology explores the interactive web of organisms and the environment. Studies in evolution consider the processes by which modern organisms have developed from ancestral ones. The Ecology and Evolution major is a good choice for students interested in the fundamental questions of the evolutionary origins of organisms and how they survive, or don't survive, in their changing habitats. Within this major, students have the opportunity for in-depth study of the morphological and physiological adaptations of a variety of animals, plants, and microorganisms to a changing world, the ecological relationships of organisms from the individual to the global scale, and the mechanisms that drive evolutionary change.

Employment opportunities in Ecology and Evolutionary Biology have increased greatly in recent years. There continues to be a demand for well-trained professionals at all levels (BS, MS, and PhD). Government environmental agencies, commercial consulting and testing firms, waste management industries, research laboratories, and natural history and science museums are just a few of the career opportunities. Graduate departments of ecology, evolution, environmental sciences, genetics, botany, education, law, public policy, and public health are actively seeking well-qualified students.

Requirements for the Ecology and Evolution major are described below.

Biological Sciences courses

Majors must complete 32 credits of Biological Sciences coursework as described below.

- BIOSC 0150 - FOUNDATIONS OF BIOLOGY 1
One of the following lab courses
- BIOSC 0050 - FOUNDATIONS OF BIOLOGY LABORATORY 1
- BIOSC 0057 - FOUNDATIONS OF BIOLOGY RESEARCH LABORATORY 1
- BIOSC 0058 - FOUNDATIONS OF BIOLOGY SEA-PHAGES LABORATORY 1
- BIOSC 0160 - FOUNDATIONS OF BIOLOGY 2

One of the following laboratory courses.

- BIOSC 0060 - FOUNDATIONS OF BIOLOGY LABORATORY 2
 - BIOSC 0067 - FOUNDATIONS OF BIOLOGY RESEARCH LABORATORY 2
 - BIOSC 0068 - FOUNDATIONS OF BIOLOGY SEA-PHAGES LABORATORY 2
 - BIOSC 0350 - GENETICS
- or
- BIOSC 0370 - ECOLOGY
 - BIOSC 0390 - ECOLOGY LABORATORY
 - BIOSC 1120 - BIostatISTICS
 - BIOSC 1130 - EVOLUTION
 - BIOSC 1131 - EVOLUTION LABORATORY
 - BIOSC 1550 - ECOLOGY AND EVOLUTION SEMINAR

Writing-intensive Course

Choose one of the following courses.

- BIOSC 0391 - ECOLOGY LABORATORY WRITING PRACTICUM
- BIOSC 1551 - ECOLOGY AND EVOLUTION SEMINAR WRITING PRACTICUM

Elective courses

Majors must complete nine credits of elective courses, including at least one field course, from the following lists.

Field course electives

Students must choose at least one field course offered at the Pymatuning Laboratory of Ecology (PLE) (3 credits) or the Oakland campus (BIOSC 1221 - 1 credit) or an equivalent course approved by the Director of Undergraduate Studies. If the field course is less than 3 credits, additional credits must be added from the approved electives list to reach 9 credits total. PLE course offerings change annually; check the course schedule to see which courses are offered.

- BIOSC 1140 - BEHAVIORAL ECOLOGY
- BIOSC 1160 - FOREST ECOLOGY
- BIOSC 1170 - FRESHWATER ECOLOGY
- BIOSC 1180 - ECOLOGY OF AMPHIBIANS AND REPTILES
- BIOSC 1190 - AQUATIC ENTOMOLOGY
- BIOSC 1220 - ECOLOGICAL FIELD STUDIES
- BIOSC 1221 - URBAN ECOLOGICAL FIELD LAB
- BIOSC 1230 - ORNITHOLOGY
- BIOSC 1270 - ECOLOGY OF FISH
- BIOSC 1310 - WETLAND ECOLOGY AND MANAGEMENT
- BIOSC 1330 - FIELD BOTANY
- BIOSC 1340 - FIELD ENTOMOLOGY
- BIOSC 1360 - ECOLOGY OF FUNGI
- BIOSC 1390 - FIELD TECHNIQUES IN ECOLOGY AND CONSERVATION
- BIOSC 1400 - DISEASE ECOLOGY
- BIOSC 1420 - WILDLIFE ECOLOGY AND MANAGEMENT
- BIOSC 1610 - CONSERVATION BIOLOGY

Lecture course electives

- BIOSC 1000 - BIOCHEMISTRY
- BIOSC 1200 - VERTEBRATE MORPHOLOGY
- BIOSC 1275 - GENOMICS
- BIOSC 1320 - POPULATION BIOLOGY
- BIOSC 1350 - PLANT BIOLOGY
- BIOSC 1375 - TROPICAL BIOLOGY
- BIOSC 1435 - ENVIRONMENTAL PHYSIOLOGY OF ANIMALS
- BIOSC 1440 - ANIMAL BEHAVIOR
- BIOSC 1520 - DEVELOPMENTAL BIOLOGY
- BIOSC 1850 - MICROBIOLOGY

Co-requisite courses

Students choose one track for co-requisite courses:

Track 1: Chemophysical

- CHEM 0110 - GENERAL CHEMISTRY 1
 - CHEM 0120 - GENERAL CHEMISTRY 2
 - CHEM 0310 - ORGANIC CHEMISTRY 1
 - CHEM 0320 - ORGANIC CHEMISTRY 2
 - CHEM 0345 - ORGANIC LABORATORY
 - MATH 0220 - ANALYTIC GEOMETRY AND CALCULUS 1
 - STAT 1000 - APPLIED STATISTICAL METHODS
- Either the algebra-based physics courses or the calculus-based physics courses.
- Algebra-based courses:
 - PHYS 0110 - INTRODUCTION TO PHYSICS 1
 - PHYS 0111 - INTRODUCTION TO PHYSICS 2
 - Physics-based courses:
 - PHYS 0174 - BASIC PHYSICS, SCIENCE AND ENGINEERING 1 (INTEGRATED)
 - PHYS 0175 - BASIC PHYSICS, SCIENCE AND ENGINEERING 2 (INTEGRATED)

Track 2: Quantitative

- CHEM 0110 - GENERAL CHEMISTRY 1
- CHEM 0120 - GENERAL CHEMISTRY 2
- MATH 0220 - ANALYTIC GEOMETRY AND CALCULUS 1
- MATH 0230 - ANALYTIC GEOMETRY AND CALCULUS 2
- STAT 1000 - APPLIED STATISTICAL METHODS
- STAT 1221 - APPLIED REGRESSION
- STAT 1261 - PRINCIPLES OF DATA SCIENCE
- STAT 1301 - STATISTICAL PACKAGES

Track 3: Environmental

- CHEM 0110 - GENERAL CHEMISTRY 1
- CHEM 0120 - GENERAL CHEMISTRY 2
- GEOL 0055 - GEOLOGY LABORATORY
- GEOL 0820 - NATURAL DISASTERS
- GEOL 0840 - ENVIRONMENTAL SCIENCE
- GEOL 1030 - THE ATMOSPHERE, OCEANS AND CLIMATE
- GEOL 1445 - GIS, GPS, AND COMPUTER METHODS
- GEOL 1515 - ENVIRONMENTAL GEOCHEMISTRY
- MATH 0220 - ANALYTIC GEOMETRY AND CALCULUS 1
- STAT 1000 - APPLIED STATISTICAL METHODS

Grade requirements

- Each required BIOSC course for the major must be completed with a grade of C or better.
- The elective courses for the major must also be completed with a grade of C or better.
- A minimum GPA of 2.0 in all departmental courses taken is required for graduation. If a C- or lower is earned in an elective course for the major but is not repeated, the course will be used to calculate the departmental GPA but will not be counted toward the 32 credits required for the major.
- Students must also earn a minimum GPA of 2.0 in the co-requisite courses. A passing grade of C- or lower in a co-requisite course can be accepted if balanced by a higher grade in another co-requisite course so that the co-requisite GPA is 2.0 or higher. Exceptions: CHEM 0110 and CHEM 0120 have to be C or better to declare the major; PHYS 0110/0174 has to be C or better to enroll in PHYS 0111/0175; MATH 0220 has to be C or better to enroll in MATH 0230; STAT 1000 has to be B- or better to enroll in STAT 1221.
- Only one BIOSC course may be taken on a Satisfactory/No Credit (S/NC) basis.
David C. Frederick Honors College equivalent courses may be substituted for required or elective courses.

Microbiology, BS

Microbiology is the study of microscopic organisms, including viruses, bacteria, archaea, fungi, and protists. Microorganisms are important for both the good that they do (nutrient cycling, production of antibiotics, bioremediation, food production) and the bad (food poisoning, infectious diseases, epidemics). Our program provides intensive training in modern microbiology, including cutting-edge research in genomics and genetic engineering.

Microbiologists pursue careers in many fields, including agricultural, environmental, food, and industrial microbiology; public health; resource management; basic research; education; and pharmaceuticals. Jobs in all of these fields are available at the BS level as well as the MS and PhD levels. The microbiology major also incorporates the requirements expected for admission to medical, dental, and other health professional schools, and to graduate schools in microbiology, molecular biology, biochemistry, and related disciplines.

Requirements for the Microbiology Major are described below.

Biological Sciences courses

Majors must complete a minimum of 32 credits of Biological Sciences coursework as described below.

Required courses

- BIOSC 0150 - FOUNDATIONS OF BIOLOGY 1

- BIOSC 0050 - FOUNDATIONS OF BIOLOGY LABORATORY 1
- BIOSC 0057 - FOUNDATIONS OF BIOLOGY RESEARCH LABORATORY 1
- BIOSC 0058 - FOUNDATIONS OF BIOLOGY SEA-PHAGES LABORATORY 1
- BIOSC 0160 - FOUNDATIONS OF BIOLOGY 2

- BIOSC 0060 - FOUNDATIONS OF BIOLOGY LABORATORY 2
- BIOSC 0067 - FOUNDATIONS OF BIOLOGY RESEARCH LABORATORY 2
- BIOSC 0068 - FOUNDATIONS OF BIOLOGY SEA-PHAGES LABORATORY 2
- BIOSC 0350 - GENETICS
- BIOSC 1000 - BIOCHEMISTRY
- or
- BIOSC 1810 - MACROMOLECULAR STRUCTURE AND FUNCTION and
- BIOSC 1820 - METABOLIC PATHWAYS AND REGULATION

- BIOSC 1280 - MICROBIAL GENETICS
- BIOSC 1570 - MICROBIOLOGY SEMINAR
- BIOSC 1850 - MICROBIOLOGY
- BIOSC 1860 - MICROBIOLOGY LABORATORY
- BIOSC 1865 - MICROBIAL PHYSIOLOGY

Writing-intensive course

Choose one of the following courses.

- BIOSC 1571 - MICROBIOLOGY SEMINAR WRITING PRACTICUM
- BIOSC 1741 - VIROLOGY LABORATORY WRITING PRACTICUM
- BIOSC 1861 - MICROBIOLOGY LABORATORY WRITING PRACTICUM

Microbiology elective courses

Choose six to seven credits of courses from the following lists. At least one of the selected courses must be a lab or field course.

Lecture courses

- BIOSC 0370 - ECOLOGY
- BIOSC 1120 - BIostatISTICS
- BIOSC 1130 - EVOLUTION
- BIOSC 1275 - GENOMICS
- BIOSC 1500 - CELL BIOLOGY
- BIOSC 1540 - COMPUTATIONAL BIOLOGY
- BIOSC 1730 - VIROLOGY
- BIOSC 1760 - IMMUNOLOGY
- BIOSC 1820 - METABOLIC PATHWAYS AND REGULATION
This course must be taken in conjunction with BIOSC 1810 - MACROMOLECULAR STRUCTURE AND FUNCTION ; the pair of courses are taken in lieu of BIOSC 1000 - BIOCHEMISTRY
- BIOSC 1940 - MOLECULAR BIOLOGY

- BIOSC 1998 - BENEFICIAL MICROBES, SYMBIOSIS, AND THE MICROBIOME
- BIOSC 1999 - MEDICAL MICROBIOLOGY
- CHEM 1830 - SYNTHETIC BIOLOGY

Lab courses

- BIOSC 0352 - INTRODUCTION TO MOLECULAR GENETICS LABORATORY
- BIOSC 0390 - ECOLOGY LABORATORY
- BIOSC 1005 - INTRODUCTION TO BIOCHEMISTRY LAB
- BIOSC 1285 - GENOMICS LABORATORY
- BIOSC 1290 - EXPERIMENTAL GENETIC ENGINEERING LABORATORY
- BIOSC 1510 - CELL BIOLOGY LABORATORY
- BIOSC 1740 - VIROLOGY LABORATORY

Field courses

- BIOSC 1360 - ECOLOGY OF FUNGI
- BIOSC 1400 - DISEASE ECOLOGY

Co-requisite courses

- CHEM 0110 - GENERAL CHEMISTRY 1
- CHEM 0120 - GENERAL CHEMISTRY 2
- CHEM 0310 - ORGANIC CHEMISTRY 1
- CHEM 0320 - ORGANIC CHEMISTRY 2
- CHEM 0345 - ORGANIC LABORATORY
- MATH 0220 - ANALYTIC GEOMETRY AND CALCULUS 1
Choose one of the following courses.
- MATH 0230 - ANALYTIC GEOMETRY AND CALCULUS 2
or
- STAT 1000 - APPLIED STATISTICAL METHODS
Choose one of the following pairs of courses.
- PHYS 0110 - INTRODUCTION TO PHYSICS 1 and
- PHYS 0111 - INTRODUCTION TO PHYSICS 2
or
- PHYS 0174 - BASIC PHYSICS, SCIENCE AND ENGINEERING 1 (INTEGRATED) and
- PHYS 0175 - BASIC PHYSICS, SCIENCE AND ENGINEERING 2 (INTEGRATED)

Grade requirements

- Each required BIOSC course for the major must be completed with a grade of C or better.
- The elective courses for the major must also be completed with a grade of C or better.
- A minimum GPA of 2.0 in all departmental courses taken is required for graduation. If a C- or lower is earned in an elective course for the major but is not repeated, the course will be used to calculate the departmental GPA but will not be counted toward the 32 credits required for the major.
- Students must also earn a minimum GPA of 2.0 in the co-requisite courses. A passing grade of C- or lower in a co-requisite course can be accepted if balanced by a higher grade in another co-requisite course so that the co-requisite

GPA is 2.0 or higher. Exceptions: CHEM 0110 and CHEM 0120 have to be C or better to declare the major; PHYS 0110/0174 has to be C or better to enroll in PHYS 0111/0175; MATH 0220 has to be C or better to enroll in MATH 0230.

- Only one BIOSC course may be taken on a Satisfactory/No Credit (S/NC) basis.
David C. Frederick Honors College equivalent courses may be substituted for required or elective courses.

Molecular Biology, BS

Molecular biology emphasizes the study of molecules that make up an organism and the forces operating among these molecules. Increasingly, molecular biologists can explore the genetic control of these molecules and thus define the developmental, cellular, and sub-cellular changes that occur during the dynamic processes of life. Virtually every question, whether in biochemistry, cell biology, developmental biology, or some other biological discipline, applies molecular biology, often as the prime approach, in its solution.

Molecular developments have revolutionized biological research, fueling the explosive growth in the biotechnology industry and the rapid increase of molecular medicine. The degree incorporates the requirements expected for admission to medical, dental, and other health professional schools, and to graduate schools in cell and molecular biology, and related disciplines. Positions for molecular biologists at the BS, MS, and PhD levels are available in the biotechnology industries as well as in universities, medical schools, hospitals, government laboratories, research institutes, and public health institutions

Requirements for the Molecular Biology major are described below.

Biological Sciences courses

Majors must complete a minimum of 32 credits of Biological Sciences coursework as described below.

Required courses

- BIOSC 0150 - FOUNDATIONS OF BIOLOGY 1
One of the following lab courses
- BIOSC 0050 - FOUNDATIONS OF BIOLOGY LABORATORY 1
- BIOSC 0057 - FOUNDATIONS OF BIOLOGY RESEARCH LABORATORY 1
- BIOSC 0058 - FOUNDATIONS OF BIOLOGY SEA-PHAGES LABORATORY 1
- BIOSC 0160 - FOUNDATIONS OF BIOLOGY 2
One of the following lab courses
- BIOSC 0060 - FOUNDATIONS OF BIOLOGY LABORATORY 2
- BIOSC 0067 - FOUNDATIONS OF BIOLOGY RESEARCH LABORATORY 2
- BIOSC 0068 - FOUNDATIONS OF BIOLOGY SEA-PHAGES LABORATORY 2
- BIOSC 0350 - GENETICS
- BIOSC 1000 - BIOCHEMISTRY
*
- BIOSC 1810 - MACROMOLECULAR STRUCTURE AND FUNCTION
and
- BIOSC 1820 - METABOLIC PATHWAYS AND REGULATION
- BIOSC 1275 - GENOMICS
- BIOSC 1562 - MOLECULAR BIOLOGY SEMINAR
- BIOSC 1940 - MOLECULAR BIOLOGY
- BIOSC 1945 - ADVANCED MOLECULAR BIOLOGY

- BIOSC 1950 - MOLECULAR GENETICS LABORATORY

*Note: Students may alternately choose BIOSC 1810 (Macromolecular Structure and Function) and BIOSC 1820 (Metabolic Pathways) in lieu of BIOSC 1000. In this case, students take four elective credits rather than seven as specified in **elective courses**.

Writing-intensive course

Choose one of the following courses.

- BIOSC 1563 - MOLECULAR BIOLOGY AND GENOMICS SEMINAR WRITING PRACTICUM
- BIOSC 1951 - MOLECULAR GENETICS LABORATORY WRITING PRACTICUM

Molecular Biology elective courses

Choose two lecture courses and one lab course from the following lists.

Lecture courses

- BIOSC 1120 - BIostatISTICS
- BIOSC 1130 - EVOLUTION
- BIOSC 1250 - HUMAN PHYSIOLOGY
- BIOSC 1280 - MICROBIAL GENETICS
- BIOSC 1455 - HUMAN ENDOCRINOLOGY
- BIOSC 1470 - BIOPHYSICAL CHEMISTRY
- BIOSC 1500 - CELL BIOLOGY
- BIOSC 1520 - DEVELOPMENTAL BIOLOGY
- BIOSC 1540 - COMPUTATIONAL BIOLOGY
- BIOSC 1542 - COMPUTATIONAL GENOMICS
- BIOSC 1730 - VIROLOGY
- BIOSC 1760 - IMMUNOLOGY
- BIOSC 1820 - METABOLIC PATHWAYS AND REGULATION
This course must be taken in conjunction with BIOSC 1810 - MACROMOLECULAR STRUCTURE AND FUNCTION; the pair of courses are taken in lieu of BIOSC 1000 - BIOCHEMISTRY
- BIOSC 1850 - MICROBIOLOGY
- BIOSC 1865 - MICROBIAL PHYSIOLOGY
- CHEM 1830 - SYNTHETIC BIOLOGY

Lab courses

- BIOSC 0351 - GENETICS LABORATORY
- BIOSC 1005 - INTRODUCTION TO BIOCHEMISTRY LAB
- BIOSC 1285 - GENOMICS LABORATORY
- BIOSC 1510 - CELL BIOLOGY LABORATORY
- BIOSC 1530 - DEVELOPMENTAL BIOLOGY LABORATORY
- BIOSC 1855 - INTRODUCTION TO MICROBIOLOGY LABORATORY

Co-requisite courses

- CHEM 0110 - GENERAL CHEMISTRY 1
- CHEM 0120 - GENERAL CHEMISTRY 2
- CHEM 0310 - ORGANIC CHEMISTRY 1
- CHEM 0320 - ORGANIC CHEMISTRY 2
- CHEM 0345 - ORGANIC LABORATORY
- MATH 0220 - ANALYTIC GEOMETRY AND CALCULUS 1
- STAT 1000 - APPLIED STATISTICAL METHODS
Either the algebra-based physics courses or the calculus-based physics courses
- PHYS 0110 - INTRODUCTION TO PHYSICS 1 and
- PHYS 0111 - INTRODUCTION TO PHYSICS 2
or
- PHYS 0174 - BASIC PHYSICS, SCIENCE AND ENGINEERING 1 (INTEGRATED) and
- PHYS 0175 - BASIC PHYSICS, SCIENCE AND ENGINEERING 2 (INTEGRATED)

Grade requirements

- Each required BIOSC course for the major must be completed with a grade of C or better.
- The elective courses for the major must also be completed with a grade of C or better.
- A minimum GPA of 2.0 in all departmental courses taken is required for graduation. If a C- or lower is earned in an elective course for the major but is not repeated, the course will be used to calculate the departmental GPA but will not be counted toward the 32 credits required for the major.
- Students must also earn a minimum GPA of 2.0 in the co-requisite courses. A passing grade of C- or lower in a co-requisite course can be accepted if balanced by a higher grade in another co-requisite course so that the co-requisite GPA is 2.0 or higher. Exceptions: CHEM 0110 and CHEM 0120 have to be C or better to declare the major; PHYS 0110/0174 has to be C or better to enroll in PHYS 0111/0175; MATH 0220 has to be C or better to enroll in MATH 0230.
- Only one BIOSC course may be taken on a Satisfactory/No Credit (S/NC) basis.
David C. Frederick Honors College equivalent courses may be substituted for required or elective courses.

Department of Chemistry

Chemistry, as a central science, is involved in natural processes occurring in living things, the earth, the oceans, and the atmosphere. The chemical industry provides materials to feed, clothe, and house mankind; drugs to combat disease; and processes to provide energy. Chemistry plays a role in high technology fields such as molecular biology, microelectronics, drug design, and ceramics.

The American Chemical Society (ACS)-certified chemistry degree includes core chemistry courses and electives. Special options are available for students with specific interests in combining chemistry with other subjects, such as bioscience, business, communication, computer science, education, and polymer science. These options allow students to take additional courses that provide an in-depth introduction to the subject of choice and are directly relevant to individual career goals.

The Bachelor of Science degree in chemistry prepares students for a career in business or industry or for advanced study in chemistry. Combined with core biology courses, the chemistry major is frequently selected as the preferred major for admission to the graduate health professions, including medical and dental school. In combination with an education option, the chemistry major prepares students for a certification program leading to a career in secondary science teaching. Chemists at all levels of training have a wide variety of industrial and corporate career opportunities in agricultural chemistry, food chemistry, environmental science, petrochemicals, pharmaceuticals, semiconductors and electronics, and fine chemicals, as well as in basic research. Many opportunities are available for chemistry majors with skills in business (sales, technical marketing, management), communications (technical writing, journalism), and

computer science (programming, database management, information science). For more information on the ACS-certified degree and degree options as well as the Department of Chemistry, see www.chem.pitt.edu.

Major

Chemistry, BS

Major Requirements

The requirements for the ACS-certified major in chemistry are as follows.

Required Chemistry courses

- CHEM 0110 - GENERAL CHEMISTRY 1 and
- CHEM 0120 - GENERAL CHEMISTRY 2
- or
- CHEM 0710 - UHC GENERAL CHEMISTRY 1 and
- CHEM 0720 - UHC GENERAL CHEMISTRY 2

- CHEM 0250 - INTRODUCTION TO ANALYTICAL CHEMISTRY
- CHEM 0260 - INTRODUCTION TO ANALYTICAL CHEMISTRY LAB

- CHEM 0310 - ORGANIC CHEMISTRY 1 and
- CHEM 0320 - ORGANIC CHEMISTRY 2
- or
- CHEM 0730 - UHC ORGANIC CHEMISTRY 1 and
- CHEM 0740 - UHC ORGANIC CHEMISTRY 2

- CHEM 0345 - ORGANIC LABORATORY
- CHEM 1130 - INORGANIC CHEMISTRY
- CHEM 1140 - ADVANCED INORGANIC LABORATORY
- CHEM 1250 - INSTRUMENTAL ANALYSIS
- CHEM 1255 - INSTRUMENTAL ANALYSIS LAB
- CHEM 1410 - PHYSICAL CHEMISTRY 1
- CHEM 1420 - PHYSICAL CHEMISTRY 2
- CHEM 1430 - PHYSICAL CHEMISTRY LABORATORY 1
- CHEM 1440 - PHYSICAL CHEMISTRY LABORATORY 2

Other required Natural Science courses

- MATH 0220 - ANALYTIC GEOMETRY AND CALCULUS 1
- MATH 0230 - ANALYTIC GEOMETRY AND CALCULUS 2

- CHEM 1000 - MATHEMATICS FOR CHEMISTRY or
- MATH 0240 - ANALYTIC GEOMETRY AND CALCULUS 3

- PHYS 0174 - BASIC PHYSICS, SCIENCE AND ENGINEERING 1 (INTEGRATED)

- PHYS 0175 - BASIC PHYSICS, SCIENCE AND ENGINEERING 2 (INTEGRATED)
- PHYS 0219 - BASIC LABORATORY PHYSICS SCIENCE AND ENGINEERING

Electives

At least two credits must be completed in the following list of approved chemistry or science courses.

For American Chemical Society (ACS) certification, students must complete their electives in a biochemistry course - BIOSC 1000 - BIOCHEMISTRY or BIOSC 1810 - MACROMOLECULAR STRUCTURE AND FUNCTION.

Approved elective courses

- BIOSC 0350 - GENETICS
- BIOSC 0370 - ECOLOGY
- BIOSC 1000 - BIOCHEMISTRY
- BIOSC 1500 - CELL BIOLOGY
- BIOSC 1810 - MACROMOLECULAR STRUCTURE AND FUNCTION
- BIOSC 1820 - METABOLIC PATHWAYS AND REGULATION
- BIOSC 1830 - BIOCHEMISTRY LABORATORY
- BIOSC 1850 - MICROBIOLOGY
- BIOSC 1940 - MOLECULAR BIOLOGY
- CHEM 1310 - SYNTHETIC ORGANIC CHEMISTRY
- CHEM 1380 - TECHNIQUES OF ORGANIC RESEARCH
- CHEM 1460 - INTRO MODERN COMPUTATIONAL SCI
- CHEM 1600 - SYNTHESIS & CHARACTERIZATION OF POLYMERS
- CHEM 1605 - SYNTHESIS & CHARACTERIZATION OF POLYMERS LAB
- CHEM 1620 - ATOMS, MOLECULES AND MATERIALS
- CHEM 1700 - UNDERGRADUATE RESEARCH SEMINAR
- CHEM 1710 - UNDERGRADUATE RESEARCH
- CHEM 1720 - UNDERGRADUATE TEACHING EXPERIENCE
- CHEM 1810 - CHEMICAL BIOLOGY
- Any CHEM course at the 2000-level or higher except CHEM 2700.
- CS 0401 - INTERMEDIATE PROGRAMMING USING JAVA
- CS 0441 - DISCRETE STRUCTURES FOR CS
- CS 0445 - ALGORITHMS AND DATA STRUCTURES 1
- GEOL 1001 - MINERALOGY
- STAT 1000 - APPLIED STATISTICAL METHODS

GPA requirement

The chemistry major must earn a 2.00 GPA in all departmental courses. Chemistry majors may use the S/NC option in all required physics and mathematics courses and in CHEM 0110 - GENERAL CHEMISTRY 1 and CHEM 0120 - GENERAL CHEMISTRY 2.

Satisfactory/No Credit option

CHEM 0110, CHEM 0120, and all required Mathematics and Physics courses can be taken on an S/NC basis.

Writing Intensive course

Students must complete at least one W-course in the major.

Notes

To graduate with departmental honors, the student must have an overall GPA of at least 3.00, have a GPA of at least 3.25 in required chemistry courses, earn 2 credits in CHEM 1710 - UNDERGRADUATE RESEARCH, and earn 1 credit in CHEM 1711 - UNDGR RESEARCH WRITING PRACTICUM.

The chemistry department offers options in bioscience, business, communications, photonics, education, and material science. Each chemistry option allows for a waiver of CHEM 1440 - PHYSICAL CHEMISTRY LABORATORY 2, CHEM 1140 - ADVANCED INORGANIC LABORATORY, and the 2-credit science elective required for the ACS-certified degree. Specific information on the options program is available from the department.

Minor

Chemistry Minor

Requirements

Due to the integral role that chemistry plays in many other majors (including life sciences, physical sciences, and engineering), students wishing to receive formal recognition of their work in chemistry may choose to pursue the official minor as outlined below:

18-19 Credits

- CHEM 0110 - GENERAL CHEMISTRY 1
- CHEM 0120 - GENERAL CHEMISTRY 2
- or
- CHEM 0710 - UHC GENERAL CHEMISTRY 1
- CHEM 0720 - UHC GENERAL CHEMISTRY 2
- or
- CHEM 0760 - UHC GENERAL CHEMISTRY FOR ENGINEERS 1
- CHEM 0960 - GENERAL CHEM FOR ENGINEERS 1
- CHEM 0970 - GENERAL CHEM FOR ENGINEERS 2

Three of the following LECTURE courses:

- CHEM 0250 - INTRODUCTION TO ANALYTICAL CHEMISTRY
- CHEM 0310 - ORGANIC CHEMISTRY 1
- CHEM 0320 - ORGANIC CHEMISTRY 2
- CHEM 1130 - INORGANIC CHEMISTRY
- CHEM 1250 - INSTRUMENTAL ANALYSIS
- CHEM 1410 - PHYSICAL CHEMISTRY 1
- CHEM 1420 - PHYSICAL CHEMISTRY 2

- BIOSC 1000 - BIOCHEMISTRY or
- BIOSC 1810 - MACROMOLECULAR STRUCTURE AND FUNCTION

Two credits of the following LABORATORY courses:

- CHEM 0260 - INTRODUCTION TO ANALYTICAL CHEMISTRY LAB
- CHEM 0345 - ORGANIC LABORATORY
- CHEM 1140 - ADVANCED INORGANIC LABORATORY
- CHEM 1255 - INSTRUMENTAL ANALYSIS LAB
- CHEM 1430 - PHYSICAL CHEMISTRY LABORATORY 1
- CHEM 1440 - PHYSICAL CHEMISTRY LABORATORY 2

Department of Classics

Classics is an interdisciplinary program devoted to the study of the ancient Greek and Roman civilizations. Students may focus on the classics language track or the classical civilization track. Besides the sequences in the Greek, Latin, and Sanskrit languages, the department offers courses in Greek and Roman literature (including comparative literature), mythology, linguistics, history, culture, and philosophy.

The classics language track requires study of texts in the original languages, while the classical civilization track makes use of these same texts in English translations. Both classics tracks qualify graduates for appropriate careers in teaching, but can also be used as preparation for nonclassical academic and professional disciplines such as business, law, and medicine. The study of classics provides a background for the study of Romance and other languages, assists in the proper use of English, and underlies any understanding of Western civilization. For more information on the major and the Department of Classics, see <http://www.classics.pitt.edu/>.

Major

Classics, BA

Classics is an interdisciplinary program devoted to the study of the ancient Greek and Roman civilizations. Students may focus on the classics language track or the classical civilization track. Besides the sequences in the Greek, Latin, and Sanskrit languages, the department offers courses in Greek and Roman archaeology, art, history, linguistics, literature (including comparative literature), mythology, philosophy, and social history.

The Classics Language track requires study of texts in the original languages while the Classics Civilization track makes use of these same texts in English translations. Both classics tracks qualify graduates for appropriate careers in teaching and library work but can also be used as preparation for non-classical academic and professional disciplines such as business, law, and medicine. The study of classics underlies any understanding of Western civilization. The field includes important literary and philosophical figures such as Homer, Plato, and Vergil. It also provides a background for the study of romance and other languages and assists in the proper use of English.

The Classics major requires the completion of a minimum of 30 credits in one of the following tracks, distributed as described.

Greek Language track

Required courses

All of the following courses are required.

- GREEK 0011 - BEGINNING ANCIENT GREEK 1
- GREEK 0021 - BEGINNING ANCIENT GREEK 2
- GREEK 0210 - INTERMEDIATE GREEK: PROSE
- GREEK 0220 - INTERMEDIATE GREEK: VERSE
- GREEK 1700 - GREEK PROSE COMPOSITION

Greek literature courses

Choose two of the following courses.

- GREEK 1300 - GREEK AUTHORS 1
- GREEK 1302 - GREEK AUTHORS 2
- GREEK 1420 - ADVANCED READINGS IN GREEK PHILOSOPHY
- GREEK 1902 - DIRECTED STUDY FOR UNDERGRADS

Latin languages courses

Choose two of the following courses.

- LATIN 0011 - BEGINNING LATIN 1
- LATIN 0021 - BEGINNING LATIN 2
- LATIN 0210 - INTERMEDIATE LATIN: PROSE
- LATIN 0220 - INTERMEDIATE LATIN: VERSE

Latin Language track

Required courses

All of the following courses are required.

- LATIN 0011 - BEGINNING LATIN 1
- LATIN 0021 - BEGINNING LATIN 2
- LATIN 0210 - INTERMEDIATE LATIN: PROSE
- LATIN 0220 - INTERMEDIATE LATIN: VERSE

Latin literature courses

Choose two of the following courses.

- LATIN 1300 - LATIN AUTHORS 1
- LATIN 1302 - LATIN AUTHORS 2
- LATIN 1400 - ADVANCED READINGS IN LATIN EPIC
- LATIN 1902 - DIRECTED STUDY FOR UNDERGRADS

Greek language courses

Choose two of the following courses.

- GREEK 0011 - BEGINNING ANCIENT GREEK 1
- GREEK 0021 - BEGINNING ANCIENT GREEK 2
- GREEK 0210 - INTERMEDIATE GREEK: PROSE
- GREEK 0220 - INTERMEDIATE GREEK: VERSE

Classical Civilization track

Required courses

- CLASS 0010 - GREEK CIVILIZATION
- CLASS 0020 - ROMAN CIVILIZATION

Two of the following courses

- GREEK 0011 - BEGINNING ANCIENT GREEK 1
- GREEK 0021 - BEGINNING ANCIENT GREEK 2
- GREEK 0210 - INTERMEDIATE GREEK: PROSE
- GREEK 0220 - INTERMEDIATE GREEK: VERSE
- LATIN 0011 - BEGINNING LATIN 1
- LATIN 0021 - BEGINNING LATIN 2
- LATIN 0210 - INTERMEDIATE LATIN: PROSE
- LATIN 0220 - INTERMEDIATE LATIN: VERSE

Courses in the area of concentration

Students must complete three CLASS courses in the area of concentration they have chosen. These courses should be selected in consultation with the major advisor.

Electives

Students must complete one elective course in three of the following areas.

- Ancient Archeology
- Art
- Culture
- History
- Language
- Literature
- Philosophy
- Science

Additional information

Grade requirements

A minimum GPA of 2.0 in courses that count toward the major is required for graduation.

Satisfactory/No Credit option

- Greek Language or Latin Language track: two courses that count toward the major can be taken on an S/NC basis.
- Civilization track: two courses that count toward the major can be taken on an S/NC basis.

Writing (W) requirement

Students must complete at least one writing-intensive (W) course in the major.

Honors major requirements

To earn an honors major in Classics, the student must fulfill all requirements for the major, and:

1. attain a GPA of 3.50 or above in departmental courses by the end of their junior year; and
2. write an honors essay in conjunction with a senior level course deemed acceptable by the department.

Minor

Ancient Greek Minor

Students pursuing this minor must complete at least 15 credits of coursework as follows.

Language courses

Students must complete following courses.

- GREEK 0011 - BEGINNING ANCIENT GREEK 1
- GREEK 0021 - BEGINNING ANCIENT GREEK 2
- GREEK 0210 - INTERMEDIATE GREEK: PROSE
- GREEK 0220 - INTERMEDIATE GREEK: VERSE

Advanced course

After completing the intermediate course sequence, students must select one of the following courses.

- GREEK 1300 - GREEK AUTHORS 1
- GREEK 1301 - GREEK AUTHORS 1-WRITING PRACTICUM
- GREEK 1302 - GREEK AUTHORS 2
- GREEK 1303 - GREEK AUTHORS 2-WRITING PRACTICUM
- GREEK 1400 - ADVANCED READINGS IN GREEK EPIC

- GREEK 1402 - ADVANCED READINGS IN GREEK TRAGEDY
- GREEK 1416 - ADVANCED READINGS IN GREEK HISTORIANS
- GREEK 1418 - ADVANCED READINGS IN GREEK ORATORY
- GREEK 1420 - ADVANCED READINGS IN GREEK PHILOSOPHY
- GREEK 1700 - GREEK PROSE COMPOSITION

Classical Civilization Minor

Students must complete at least 15 credits of coursework as follows.

Survey course in Greek civilization or history

One of the following courses.

- CLASS 0010 - GREEK CIVILIZATION
- CLASS 1210 - GREEK HISTORY
- HIST 1783 - GREEK HISTORY

Survey course in Roman civilization or history

One of the following courses.

- CLASS 0020 - ROMAN CIVILIZATION
- CLASS 1220 - ROMAN HISTORY
- HIST 1781 - ROMAN HISTORY

Literary or textual course

Any Classics, Greek, or Latin course with a literary or textual basis.

Electives

Any two courses in Classics, Greek, or Latin.

Latin Minor

Students pursuing this minor must complete at least 15 credits of coursework as follows.

Language courses

Students must complete the following courses.

- LATIN 0011 - BEGINNING LATIN 1
- LATIN 0021 - BEGINNING LATIN 2
- LATIN 0210 - INTERMEDIATE LATIN: PROSE
- LATIN 0220 - INTERMEDIATE LATIN: VERSE

Advanced course

After completing the intermediate course sequence, students must select one of the following courses.

- LATIN 1300 - LATIN AUTHORS 1
- LATIN 1301 - LATIN AUTHORS 1: WRITING PRACTICUM
- LATIN 1302 - LATIN AUTHORS 2
- LATIN 1303 - LATIN AUTHORS 2: WRITING PRACTICUM
- LATIN 1400 - ADVANCED READINGS IN LATIN EPIC
- LATIN 1402 - ADV READINGS IN LATIN DRAMA
- LATIN 1406 - ADVANCED READINGS IN LATIN LYRIC
- LATIN 1410 - ADVANCED READINGS IN LATIN SATIRE
- LATIN 1412 - ADVANCED READINGS IN LATIN ELEGY
- LATIN 1416 - ADVANCED READINGS IN LATIN HISTORIANS
- LATIN 1418 - ADVANCED READINGS IN LATIN ORATORY
- LATIN 1420 - ADVANCED READINGS IN LATIN PHILOSOPHY
- LATIN 1422 - ADVANCED READINGS IN LATIN EPISTOLOGRAPHY
- LATIN 1430 - SPECIAL TOPICS IN LATIN LITERATURE
- LATIN 1700 - LATIN PROSE COMPOSITION

Mediterranean Art and Archaeology Minor

The minor in Mediterranean Art and Archaeology offers an attractive preparation for undergraduates who are interested in graduate and professional schools in Classics and Classical Studies, Mediterranean Archaeology, Art and Architectural History, Museum Studies, Cultural Heritage Management, and Antiquities Law. Additionally, it prepares them for careers in archaeological fieldwork, museums, international policymaking, and nonprofit and non-governmental organizations engaged in the preservation and management of world historic sites. The Mediterranean Art and Archaeology minor requires 15 credits for completion, detailed as follows.

Core course

- CLASS 0600 - INTRODUCTION TO MEDITERRANEAN ARCHAEOLOGY

Civilization and History Courses

Students must choose at least one of the following courses.

- CLASS 0010 - GREEK CIVILIZATION
- CLASS 0020 - ROMAN CIVILIZATION
- CLASS 1210 - GREEK HISTORY
- CLASS 1220 - ROMAN HISTORY

Art and Architecture courses

Students must choose at least two of the following courses.

- CLASS 0500 - ANCIENT ART or

- HAA 0150 - ANCIENT ART
- CLASS 1510 - GREEK ART or
- HAA 1110 - GREEK ART
- CLASS 1520 - ROMAN ART or
- HAA 1130 - ROMAN ART
- CLASS 1524 - ROMAN ARCHITECTURE or
- ARC 1152 - ROMAN ARCHITECTURE
- CLASS 1610 - GREEK ARCHAEOLOGY
- HAA 0105 - ART AND EMPIRE
- HAA 0965 - THE CITY OF ROME AND ITS ARCHITECTURE: FROM AENEAS TO ZAHA HADID

Elective courses

Students must choose at least one of the following courses.

- ANTH 0534 - PREHISTORIC FOUNDATIONS OF EUROPEAN CIVILIZATION
- ANTH 0538 - THE ARCHEOLOGIST LOOKS AT DEATH
- ANTH 0630 - FORENSIC ANTHROPOLOGY: AN INTRODUCTION
- ANTH 1535 - BASIC ARCHEOLOGICAL FIELD TRAINING
- ARC 1183 - DIGITAL ROMAN AFRICA: VISUALIZING ARCHITECTURE AND URBANISM IN ROMAN NORTH AFRICA
- CLASS 0032 - ATHLETICS OF THE ANCIENT WORLD
- CLASS 0400 - ANCIENT EMPIRES
- CLASS 0618 - DEATH IN THE ANCIENT WORLD
- CLASS 0650 - ARCHAEOLOGY OF THE BODY
- CLASS 1630 - MARGINALITY IN THE ANCIENT GREEK WORLD
- CLASS 1650 - WARFARE: ANCIENT MEDITERRANEAN
- CLASS 1900 - INTERSHIP IN CLASSICS
- HAA 0018 - DEATH IN THE ANCIENT WORLD
- HAA 0160 - ANCIENT EMPIRES
- HAA 0165 - GODS AND KINGS: ART IN ANCIENT MESOPOTAMIA
- HAA 1105 - JERUSALEM: HISTORY AND IMAGINATION
- HIST 1746 - ATHLETICS OF THE ANCIENT WORLD
- RELGST 1100 - ISRAEL IN THE BIBLICAL AGE
- RELGST 1160 - JERUSALEM: HISTORY AND IMAGINATION
- RELGST 1170 - ARCHAEOLOGY OF ISRAEL-PALESTINE

Department of Communication

The study of communication is one of the oldest but still most contemporary of disciplines. The field examines important questions about society, communication, and persuasion in a way that combines the best of the ancient liberal arts tradition with the critical attention to the newest media technologies. In courses such as persuasion, argument, interpersonal communication, political rhetoric, rhetoric of science, nonverbal communication, history of media, media

criticism, and television and society, our faculty offer diverse views on the roles of communication, media, and rhetoric in our lives.

A degree in communication is not vocational in design, although many of the Department of Communication's graduates hold important positions in industry, education, the media, government, law, and various other professions. An understanding of communication as a human activity, as defined above, makes the department's graduates attractive candidates when seeking employment or obtaining admission to graduate programs. For more information on the major or the Department of Communication, see www.comm.pitt.edu.

Major

Communication, BA

Major Requirements

The Communication: Rhetoric and Communication major requires the completion of 33 credits, detailed as follows. Courses that count toward the major must be completed with a letter grade of C or better.

Required courses

Communications majors must take all three of the following courses. These courses meet prerequisites for upper-level courses.

- COMMRC 0300 - COMMUNICATION AND SOCIETY
- COMMRC 0310 - RHETORIC & SOCIETY
- COMMRC 0320 - MASS COMMUNICATION AND SOCIETY

Two skills courses

Students must take two skills courses from the following list. One of the courses must be COMMRC 0520 - PUBLIC SPEAKING.

- COMMRC 0500 - ARGUMENT
- COMMRC 0510 - DEBATE
- COMMRC 0520 - PUBLIC SPEAKING (Required)
- COMMRC 0530 - INTERPERSONAL COMMUNICATION
- COMMRC 0540 - DISCUSSION
- COMMRC 0550 - SPEECH COMPOSITION
- COMMRC 0575 - INTRODUCTION TO RADIO PRODUCTION

Six upper-level courses

These courses focus on specific topics or contexts of communication. Students in these courses will conduct substantive research and do significant writing; therefore, the completion of the composition requirement is a prerequisite.

- COMMRC 1101 - EVIDENCE
- COMMRC 1102 - ORGANIZATIONAL COMMUNICATION

- COMMRC 1103 - RHETORIC AND CULTURE
- COMMRC 1104 - POLITICAL COMMUNICATION
- COMMRC 1105 - TELEVISION AND SOCIETY
- COMMRC 1106 - SMALL GROUP COMMUNICATION
- COMMRC 1109 - NONVERBAL COMMUNICATION
- COMMRC 1110 - THEORIES OF INTERPERSONAL COMMUNICATION
- COMMRC 1111 - THEORIES OF PERSUASION
- COMMRC 1112 - THEORIES OF RHETORIC
- COMMRC 1114 - FREEDOM OF SPEECH AND PRESS
- COMMRC 1115 - AFRICAN AMERICAN RHETORIC
- COMMRC 1116 - RHETORIC OF THE AMERICAN COUNTERCULTURE
- COMMRC 1117 - PROPAGANDA AND MISINFORMATION IN THE 21ST CENTURY
- COMMRC 1119 - PRESIDENTIAL RHETORIC 2
- COMMRC 1120 - RHETORIC OF COLD WAR
- COMMRC 1121 - HISTORY OF MASS MEDIA
- COMMRC 1122 - MEDIA CRITICISM
- COMMRC 1123 - RHETORICAL CRITICISM
- COMMRC 1125 - MEDIA THEORY
- COMMRC 1126 - MEDIA AND CONSUMER CULTURE
- COMMRC 1143 - KNOWLEDGE, POWER, AND DESIRE
- COMMRC 1147 - THE RHETORIC OF SCIENCE
- COMMRC 1148 - RHETORIC AND HUMAN RIGHTS
- COMMRC 1730 - SPECIAL TOPICS IN COMMUNICATION
- COMMRC 1731 - SPECIAL TOPICS IN RHETORIC
- COMMRC 1732 - SPECIAL TOPICS IN MASS COMMUNICATION
- LING 1000 - INTRODUCTION TO LINGUISTICS
- LING 1263 - CROSS-CULTURAL COMMUNICATION
- CSD 1020 - NATURE OF LANGUAGE * This course is offered by the School of Health and Rehabilitation Science

Notes

The Department of Communication offers three special project courses, which are not required.

- COMMRC 1710 - SENIOR THESIS IN COMMUNICATION requires a GPA of 3.00 for enrollment and can be counted toward the major.
- COMMRC 1900 - COMMUNICATION INTERNSHIP requires a GPA of 2.75; this course cannot be counted toward the major.
- COMMRC 1901 - INDEPENDENT STUDY requires a GPA of 3.00; this course cannot be counted toward the major. Students who plan to do graduate work in communication are advised to do additional work in a second language.

Department of East Asian Languages and Literatures

The Department of East Asian Languages and Literatures offers courses in the language, literature, film, linguistics, and culture of China, Japan, and Korea. An undergraduate major is available in either Chinese or Japanese. There is a multiyear sequence of courses in the modern standard languages of China, Japan, and Korea, plus a wide variety of offerings (ranging from introductory to specialized) designed to illuminate various facets of these Asian civilizations. Students whose interests range broadly across the civilization of East Asia may alternatively develop an

interdisciplinary studies major or take advantage of the Asian Studies Certificate program. The departmental curriculum is composed of three main categories:

- courses designed to develop competence in the four skills (speaking, listening, reading, writing) of the Chinese, Japanese, or Korean language, plus courses for advanced study in Chinese and Japanese;
 - courses taught in English and focused on the mainstream of Chinese, Japanese, and Korean culture as reflected in literature, drama, and film; and
 - courses for the advanced study of literature and linguistic analysis.
- For more information on the Chinese and Japanese majors, courses in Korean language, or on the Department of East Asian Languages and Literatures, visit the Web site www.deall.pitt.edu/.

Major

Chinese, BA

The Department of East Asian Languages and Literatures offers courses in the language, literature, film, linguistics, and culture of China and Japan; the department offers majors in Chinese and Japanese as well as minors in Japanese, Chinese, and Korean. They offer courses in the modern standard language of China, Japan, and Korea, and a wide variety of offerings ranging from introductory level to specialized, designed to illuminate various facets of these Asian civilizations. Students whose interests range broadly across the civilization of East Asia may want to consider the interdisciplinary studies option or take advantage of the Asian Studies Certificate Program.

Chinese and Japanese major requirements

Chinese or Japanese majors may take first-year language courses on an Satisfactory/No Credit (S/NC) basis. Second-year language courses must be taken on a letter grade basis. In the third and fourth years, majors have the option of taking two additional courses S/NC, one of which may be an advanced language course.

Course Requirements

The Chinese major requires 46 credits for completion.

Language

All of the following first, second, and third year language courses are required.

- CHIN 0002 - FIRST YEAR CHINESE 2
- CHIN 0003 - SECOND YEAR CHINESE 1
- CHIN 0004 - SECOND YEAR CHINESE 2
- CHIN 1009 - THIRD-YEAR CHINESE 1
- CHIN 1010 - THIRD-YEAR CHINESE 2

Advanced language courses

Choose one of the following advanced language courses.

- CHIN 1033 - SPECIAL TOPICS: ADVANCED CHINESE ACROSS GENRES
- CHIN 1040 - LITERARY CHINESE 1 CLASSICAL

- CHIN 1050 - FOURTH YEAR CHINESE 1

Literature, linguistics, culture, and film

Choose one of the following traditional period courses

- CHIN 1047 - CHINESE AND WESTERN POETRY
- CHIN 1083 - MASTERPIECES OF CHINESE LITERATURE: PREMODERN
- CHIN 1090 - GREAT MINDS OF CHINA

Choose one of the following modern period courses

- CHIN 0085 - REVOLUTION, INVOLUTION, AND IDENTITY IN MODERN CHINESE CULTURE
- CHIN 0177 - SAVORING THE LANGUAGE IN CHINESE FOOD CULTURE
- CHIN 1025 - ASPECTS OF THE CHINESE LANGUAGE
- CHIN 1059 - ADAPTED FOR THE SCREEN: CHINESE LITERATURE AND FILM
- CHIN 1084 - MASTERPIECES OF CHINESE LITERATURE: MODERN
- CHIN 1088 - NEW CHINESE CINEMA

Choose two of the following courses

- CHIN 0007 - INTRODUCTION TO CHINESE CIVILIZATION AND CULTURE
- CHIN 0081 - EAST ASIA IN THE WORLD *
- CHIN 0085 - REVOLUTION, INVOLUTION, AND IDENTITY IN MODERN CHINESE CULTURE *
- CHIN 0177 - SAVORING THE LANGUAGE IN CHINESE FOOD CULTURE
- CHIN 1025 - ASPECTS OF THE CHINESE LANGUAGE
- CHIN 1027 - CHINESE AS A SECOND LANGUAGE AND BILINGUALISM
- CHIN 1047 - CHINESE AND WESTERN POETRY *
- CHIN 1059 - ADAPTED FOR THE SCREEN: CHINESE LITERATURE AND FILM *
- CHIN 1083 - MASTERPIECES OF CHINESE LITERATURE: PREMODERN *
- CHIN 1084 - MASTERPIECES OF CHINESE LITERATURE: MODERN *
- CHIN 1086 - LOVE IN CHIN AND WESTERN LITERATURE
- CHIN 1088 - NEW CHINESE CINEMA *
- CHIN 1089 - THE WORLD OF CHINA
- CHIN 1090 - GREAT MINDS OF CHINA *
- CHIN 1700 - CHINESE TRANSLATION THEORY AND PRACTICE

Writing-intensive course

Students must complete the 1-credit CHIN 1908 - DIRECTED WRITING FOR MAJORS in conjunction with a course from the **Literature, linguistics, culture, and film** requirement. Eligible courses are indicated with an asterisk (*).

Senior Project

CHIN 1999 - SENIOR PROJECT should be completed in the student's final academic term.

Non-departmental course requirements

Choose two courses with at least 50% China-related content and offered by a department other than East Asian Languages and Literatures. A sample list of courses follows.

- ECON 1630 - ECONOMIC DEVELOPMENT OF CHINA
- HAA 1640 - 20TH CENTURY CHINESE ART
- HIST 1420 - ANCIENT CHINA
- HIST 1422 - LATE IMPERIAL CHINA
- HIST 1423 - MODERN CHINA
- PHIL 0275 - INTRODUCTION TO CHINESE PHILOSOPHY
- PS 1332 - GOVERNMENT AND POLITICS IN CONTEMPORARY CHINA
- RELGST 1560 - RELIGION AND HEALING IN CHINA

Japanese, BA

The Department of East Asian Languages and Literatures offers courses in the language, literature, film, linguistics, and culture of China and Japan; the department offers both a major and a minor in Japanese. A full sequence of courses in the modern standard language of Japan and a variety of offerings, ranging from introductory to specialized, illuminate various facets of Japanese civilization. Students whose interests range broadly across the civilization of East Asia may want to take advantage of the Asian Studies certificate program. The departmental curriculum for the Japanese major is composed of three main categories as follows.

- Courses designed to develop competence in the four skills of the Japanese language, plus courses for advanced study.
- Courses taught in English and focused on the mainstream of Japanese culture as reflected in literature, drama, and film.
- Courses for the advanced study of literature and linguistic analysis.

Requirements

The Japanese major requires completion of 44 credits as follows.

Language

- JPNSE 0003 - SECOND YEAR JAPANESE 1
+
- JPNSE 0004 - SECOND YEAR JAPANESE 2
+
- JPNSE 1020 - THIRD YEAR JAPANESE 1
- JPNSE 1021 - THIRD YEAR JAPANESE 2
+Note: JPNSE 1062 may replace both JPNSE 0003 and JPNSE 0004.

Advanced courses

- JPNSE 1040 - INTRODUCTION TO CLASSICAL JAPANESE 1
- JPNSE 1050 - FOURTH YEAR JAPANESE 1

Culture, Literature, and Linguistics

Complete the following course.

- JPNSE 0083 - INTRODUCTION TO JAPANESE LITERATURE
*

Choose one of the following courses.

- JPNSE 1023 - ASPECTS OF THE JAPANESE LANGUAGE
- JPNSE 1035 - PRAGMATICS OF JAPANESE
*

Choose two of the following elective courses.

- JPNSE 0007 - JAPANESE CULTURE AND CIVILIZATION
- JPNSE 0081 - EAST ASIA IN THE WORLD
- JPNSE 0085 - JAPANESE TALES OF THE SUPERNATURAL
*
- JPNSE 1023 - ASPECTS OF THE JAPANESE LANGUAGE
- JPNSE 1030 - JAPANESE LANGUAGE TEACHING AND LEARNING
*
- JPNSE 1035 - PRAGMATICS OF JAPANESE
*
- JPNSE 1056 - JAPANESE LITERATURE AND THE WEST
*
- JPNSE 1057 - JAPANESE CULTURE AND SOCIETY THROUGH CINEMA
*
- JPNSE 1058 - WESTERNS AND SAMURAI FILMS
*
- JPNSE 1065 - DETECTIVE AND MYSTERY FICTION IN JAPAN
- JPNSE 1070 - WORLD OF JAPAN
*
- JPNSE 1071 - THE WORLD OF JAPAN
*
- JPNSE 1080 - GHOSTS, MASKS AND ACTORS
*
- JPNSE 1081 - FORMS OF JAPANESE THEATRE
*
- JPNSE 1085 - INTRODUCTION TO EAST ASIAN CINEMA
*
- JPNSE 1700 - INTRODUCTION TO THEORY AND PRACTICE OF TRANSLATION

Related Field

Complete three Japan-related courses offered by other departments (not EALL) in the Dietrich School of Arts and Sciences.

Two courses at least 50% Japan-related

Complete two Japan-related courses with at least 50% Japan-related content offered by other departments (not EALL) in the Dietrich School of Arts and Sciences.

- ANTH 1784 - JAPANESE SOCIETY
- FMST 1230 - GLOBAL ANIME
- HAA 0640 - ART OF JAPAN

Capstone

- JPNSE 1999 - CAPSTONE PROJECT

Writing course

Japanese majors must complete JPNSE 1908 - DIRECTED WRITING FOR MAJORS in conjunction with one of the courses marked with an asterisk (*) in the culture, literature, and linguistics section.

Minor

Chinese Heritage Minor

The Chinese Minor Heritage option is for heritage learners and those whose oral and aural abilities exceed their reading and writing skills. Students who minor in Chinese under the Heritage option will complete CHIN 0005, a language course specifically for heritage students; one additional language course at the second year second semester level or higher; and two EALL courses in Chinese literature, linguistics, culture, or film.

Language Courses

Students must complete CHIN 0005 and one additional Chinese language course at the second year second semester level or higher.

CHIN 0005

- CHIN 0005 - CHINESE FOR HERITAGE SPEAKERS

One intermediate or advanced language course

- CHIN 0003 - SECOND YEAR CHINESE 1
- CHIN 0004 - SECOND YEAR CHINESE 2
- CHIN 1009 - THIRD-YEAR CHINESE 1
- CHIN 1010 - THIRD-YEAR CHINESE 2
- CHIN 1050 - FOURTH YEAR CHINESE 1

Courses in literature, linguistics, culture, or film

Students must take two courses from EALL in literature, linguistics, culture, or film.

- CHIN 0007 - INTRODUCTION TO CHINESE CIVILIZATION AND CULTURE

- CHIN 0081 - EAST ASIA IN THE WORLD
- CHIN 0085 - REVOLUTION, INVOLUTION, AND IDENTITY IN MODERN CHINESE CULTURE
- CHIN 1025 - ASPECTS OF THE CHINESE LANGUAGE
- CHIN 1027 - CHINESE AS A SECOND LANGUAGE AND BILINGUALISM
- CHIN 1040 - LITERARY CHINESE 1 CLASSICAL
- CHIN 1047 - CHINESE AND WESTERN POETRY
- CHIN 1059 - ADAPTED FOR THE SCREEN: CHINESE LITERATURE AND FILM
- CHIN 1083 - MASTERPIECES OF CHINESE LITERATURE: PREMODERN
- CHIN 1084 - MASTERPIECES OF CHINESE LITERATURE: MODERN
- CHIN 1085 - INTRODUCTION TO EAST ASIAN CINEMA
- CHIN 1086 - LOVE IN CHIN AND WESTERN LITERATURE
- CHIN 1087 - INTRODUCTION TO CHINESE NARRATIVE
- CHIN 1088 - NEW CHINESE CINEMA
- CHIN 1089 - THE WORLD OF CHINA
- CHIN 1090 - GREAT MINDS OF CHINA
- CHIN 1700 - CHINESE TRANSLATION THEORY AND PRACTICE

Chinese Minor

Chinese minor requirements have been simplified, so that fulfilling Chinese minor requirements entails completing (a) one CHIN language course, (b) one CHIN culture course, and (c) three other CHIN courses.

Chinese language course

Students must complete one of the following courses.

- CHIN 0001 - FIRST YEAR CHINESE 1
- CHIN 0002 - FIRST YEAR CHINESE 2
- CHIN 0003 - SECOND YEAR CHINESE 1
- CHIN 0004 - SECOND YEAR CHINESE 2
- CHIN 1009 - THIRD-YEAR CHINESE 1
- CHIN 1010 - THIRD-YEAR CHINESE 2
- CHIN 1033 - SPECIAL TOPICS: ADVANCED CHINESE ACROSS GENRES
- CHIN 1040 - LITERARY CHINESE 1 CLASSICAL
- CHIN 1050 - FOURTH YEAR CHINESE 1

Chinese culture course

Students must complete one of the following courses.

- CHIN 0007 - INTRODUCTION TO CHINESE CIVILIZATION AND CULTURE
- CHIN 0081 - EAST ASIA IN THE WORLD
- CHIN 0085 - REVOLUTION, INVOLUTION, AND IDENTITY IN MODERN CHINESE CULTURE
- CHIN 1025 - ASPECTS OF THE CHINESE LANGUAGE
- CHIN 1027 - CHINESE AS A SECOND LANGUAGE AND BILINGUALISM
- CHIN 1047 - CHINESE AND WESTERN POETRY
- CHIN 1059 - ADAPTED FOR THE SCREEN: CHINESE LITERATURE AND FILM

- CHIN 1083 - MASTERPIECES OF CHINESE LITERATURE: PREMODERN
- CHIN 1084 - MASTERPIECES OF CHINESE LITERATURE: MODERN
- CHIN 1085 - INTRODUCTION TO EAST ASIAN CINEMA
- CHIN 1088 - NEW CHINESE CINEMA
- CHIN 1089 - THE WORLD OF CHINA
- CHIN 1090 - GREAT MINDS OF CHINA
- CHIN 1086 - LOVE IN CHIN AND WESTERN LITERATURE

Chinese language and culture courses

Students must complete three of the following courses.

- CHIN 0001 - FIRST YEAR CHINESE 1
- CHIN 0002 - FIRST YEAR CHINESE 2
- CHIN 0003 - SECOND YEAR CHINESE 1
- CHIN 0004 - SECOND YEAR CHINESE 2
- CHIN 0007 - INTRODUCTION TO CHINESE CIVILIZATION AND CULTURE
- CHIN 0081 - EAST ASIA IN THE WORLD
- CHIN 0085 - REVOLUTION, INVOLUTION, AND IDENTITY IN MODERN CHINESE CULTURE
- CHIN 1009 - THIRD-YEAR CHINESE 1
- CHIN 1010 - THIRD-YEAR CHINESE 2
- CHIN 1025 - ASPECTS OF THE CHINESE LANGUAGE
- CHIN 1027 - CHINESE AS A SECOND LANGUAGE AND BILINGUALISM
- CHIN 1033 - SPECIAL TOPICS: ADVANCED CHINESE ACROSS GENRES
- CHIN 1040 - LITERARY CHINESE 1 CLASSICAL
- CHIN 1047 - CHINESE AND WESTERN POETRY
- CHIN 1050 - FOURTH YEAR CHINESE 1
- CHIN 1059 - ADAPTED FOR THE SCREEN: CHINESE LITERATURE AND FILM
- CHIN 1083 - MASTERPIECES OF CHINESE LITERATURE: PREMODERN
- CHIN 1084 - MASTERPIECES OF CHINESE LITERATURE: MODERN
- CHIN 1085 - INTRODUCTION TO EAST ASIAN CINEMA
- CHIN 1086 - LOVE IN CHIN AND WESTERN LITERATURE
- CHIN 1088 - NEW CHINESE CINEMA
- CHIN 1089 - THE WORLD OF CHINA
- CHIN 1090 - GREAT MINDS OF CHINA

Japanese Minor

Japanese minor requirements have been simplified, so that fulfilling Japanese minor requirements entails completing (a) one JPNSE language course, (b) one JPNSE culture course, and (c) three other JPNSE courses.

Japanese language course

Students must complete one of the following courses

- JPNSE 0001 - FIRST YEAR JAPANESE 1
- JPNSE 0002 - FIRST YEAR JAPANESE 2

- JPNSE 0003 - SECOND YEAR JAPANESE 1
- JPNSE 0004 - SECOND YEAR JAPANESE 2
- JPNSE 1020 - THIRD YEAR JAPANESE 1
- JPNSE 1021 - THIRD YEAR JAPANESE 2
- JPNSE 1040 - INTRODUCTION TO CLASSICAL JAPANESE 1
- JPNSE 1050 - FOURTH YEAR JAPANESE 1
- JPNSE 1061 - INTENSIVE JAPANESE 1
- JPNSE 1062 - INTENSIVE JAPANESE 2
- JPNSE 1066 - INTENSIVE JAPANESE 3

Japanese culture course

Students must complete one of the following courses.

- JPNSE 0007 - JAPANESE CULTURE AND CIVILIZATION
- JPNSE 0081 - EAST ASIA IN THE WORLD
- JPNSE 0083 - INTRODUCTION TO JAPANESE LITERATURE
- JPNSE 0085 - JAPANESE TALES OF THE SUPERNATURAL
- JPNSE 1023 - ASPECTS OF THE JAPANESE LANGUAGE
- JPNSE 1035 - PRAGMATICS OF JAPANESE
- JPNSE 1056 - JAPANESE LITERATURE AND THE WEST
- JPNSE 1057 - JAPANESE CULTURE AND SOCIETY THROUGH CINEMA
- JPNSE 1058 - WESTERNS AND SAMURAI FILMS

- JPNSE 1081 - FORMS OF JAPANESE THEATRE
- JPNSE 1085 - INTRODUCTION TO EAST ASIAN CINEMA
- JPNSE 1700 - INTRODUCTION TO THEORY AND PRACTICE OF TRANSLATION

Total Credits: 15-23

Korean Minor

Korean minor requirements for Option 1 have been modified, so that fulfilling Korean minor requirements entails completing (a) one KOREAN language course, (b) one KOREAN culture course, and (c) three other KOREAN courses.

Korean option

This option is intended for students who have little or no previous experience with the Korean language and requires 15 to 19 credits to complete.

Students must take:

- one KOREAN language course
- one KOREAN culture course
- three other KOREAN courses

Korean language course

Students must complete one of the following courses.

- KOREAN 0001 - FIRST YEAR KOREAN 1
- KOREAN 0002 - FIRST YEAR KOREAN 2
- KOREAN 0003 - SECOND YEAR KOREAN 1
- KOREAN 0004 - SECOND YEAR KOREAN 2
- KOREAN 0005 - THIRD YEAR KOREAN 1
- KOREAN 0006 - THIRD YEAR KOREAN 2

- KOREAN 1050 - FOURTH YEAR KOREAN 1
- KOREAN 1051 - FOURTH YEAR KOREAN 2
- KOREAN 1052 - SPECIAL TOPICS IN ADVANCED KOREAN
- KOREAN 1053 - ADVANCED WRITING THROUGH READING

Korean culture course

Students must complete one of the following courses.

- KOREAN 0007 - INTRODUCTION TO KOREAN CULTURE AND CIVILIZATION
- KOREAN 0023 - KOREAN LANGUAGE: THEN AND NOW
- KOREAN 0070 - WORLD OF KOREA: PAST AND PRESENT
- KOREAN 0075 - INTRODUCTION TO KOREA THROUGH FILMS
- KOREAN 0084 - INTRODUCTION TO MODERN KOREAN LITERATURE
- KOREAN 1023 - ASPECTS OF THE KOREAN LANGUAGE
- KOREAN 1060 - LANGUAGE AND SOCIETY IN KOREA
- KOREAN 1080 - CONTEMPORARY KOREAN CULTURE

Korean language and culture courses

Students must complete three of the following courses.

- KOREAN 0001 - FIRST YEAR KOREAN 1
- KOREAN 0002 - FIRST YEAR KOREAN 2
- KOREAN 0003 - SECOND YEAR KOREAN 1
- KOREAN 0004 - SECOND YEAR KOREAN 2
- KOREAN 0005 - THIRD YEAR KOREAN 1
- KOREAN 0006 - THIRD YEAR KOREAN 2
- KOREAN 0007 - INTRODUCTION TO KOREAN CULTURE AND CIVILIZATION
- KOREAN 0023 - KOREAN LANGUAGE: THEN AND NOW
- KOREAN 0070 - WORLD OF KOREA: PAST AND PRESENT
- KOREAN 0075 - INTRODUCTION TO KOREA THROUGH FILMS
- KOREAN 0084 - INTRODUCTION TO MODERN KOREAN LITERATURE
- KOREAN 1023 - ASPECTS OF THE KOREAN LANGUAGE
- KOREAN 1050 - FOURTH YEAR KOREAN 1
- KOREAN 1051 - FOURTH YEAR KOREAN 2
- KOREAN 1052 - SPECIAL TOPICS IN ADVANCED KOREAN
- KOREAN 1053 - ADVANCED WRITING THROUGH READING
- KOREAN 1060 - LANGUAGE AND SOCIETY IN KOREA
- KOREAN 1080 - CONTEMPORARY KOREAN CULTURE

Korean for Heritage Learners option

This option is designed for heritage learners and requires 12 to 14 credits to complete.

Students must take:

- two second-, third-, or fourth-year language courses from the Language course list, totaling six to eight credits; and

- two courses from the Culture, Film, Linguistics, or Literature course list.

Two four-credit Korean language courses from the following list.

- KOREAN 0003 - SECOND YEAR KOREAN 1
- KOREAN 0004 - SECOND YEAR KOREAN 2
- KOREAN 0005 - THIRD YEAR KOREAN 1
- KOREAN 0006 - THIRD YEAR KOREAN 2
- KOREAN 1050 - FOURTH YEAR KOREAN 1
- KOREAN 1051 - FOURTH YEAR KOREAN 2

Two three-credit course from the following list

- KOREAN 0007 - INTRODUCTION TO KOREAN CULTURE AND CIVILIZATION
- KOREAN 0070 - WORLD OF KOREA: PAST AND PRESENT
- KOREAN 0075 - INTRODUCTION TO KOREA THROUGH FILMS
- KOREAN 0084 - INTRODUCTION TO MODERN KOREAN LITERATURE
- KOREAN 1023 - ASPECTS OF THE KOREAN LANGUAGE
- KOREAN 1060 - LANGUAGE AND SOCIETY IN KOREA

Additional Information

Grade Requirements

A minimum GPA of 2.0 is required for the minor.

Satisfactory/No Credit Option

There is no limit to the number of courses that can be taken on the Satisfactory/No Credit (S/NC) basis for this certificate.

Total Credits: 15-19

Department of Economics

A major in economics can be designed to serve a variety of purposes in the general liberal arts and can provide a background for postgraduate study in a number of professional schools. In addition, economics is frequently taken as a dual major with business at the undergraduate level. Among the graduate-level options which can be pursued by economics majors are law, business, professional-level training in economics, public administration, professional health management, hospital administration, urban affairs, and transportation studies. Because the range of interests among economics majors is quite broad, students are encouraged to work out a plan of studies fitting their individual needs with a departmental advisor. For more information on the major, the minor, and the Department of Economics, see www.econ.pitt.edu.

Joint Major

Economics-Statistics, BS

The economics-statistics joint major is intended for students who are interested in economics and enjoy modeling and analyzing data. Although the number of such students is not large, there are usually a few each year who express an interest in pursuing both economics and statistics in a depth suitable for a major. More often than not, these students are prime candidates for graduate school, and want to keep their options open as to which field to enter later. Short of completing two bachelor's degrees, their only option now is to major in one subject and minor in the other. If they later decide to attend graduate school in their minor subject, they are likely to be less competitive for admission to the best departments than if they had majored in that subject.

A joint major provides a useful compromise to keep their options open. Additionally, a joint major in economics and statistics can be an excellent training ground for the more quantitative areas of business (such as forecasting, investment management, actuarial planning, and accounting), health management, and public health, without losing the breadth provided by a liberal arts program. Graduates of the joint major who are interested in these areas will have the requisite skills for further training or for immediate entrance into the job market. The curriculum for the joint major consists of eight economics courses and eight statistics courses, along with a statistics writing practicum and three mathematics courses, for a total of 62 credits.

Course Requirements

Economics courses

- ECON 0100 - INTRODUCTION TO MICROECONOMIC THEORY
- ECON 0110 - INTRODUCTION TO MACROECONOMIC THEORY
- ECON 1100 - INTERMEDIATE MICROECONOMICS
- ECON 1110 - INTERMEDIATE MACROECONOMICS
- ECON 1150 - APPLIED ECONOMETRICS 1
- ECON 1200 - GAME THEORY
- One Economics elective course
- Two ECON 1000-level courses

Note

Courses in the ECON 0800 series do not count as ECON elective courses.

The Department of Economics recommends that students take the 1-credit ECON 0900 - PROFESSIONAL DEVELOPMENT FOR ECONOMISTS.

Statistics courses

- STAT 1000 - APPLIED STATISTICAL METHODS
- STAT 1151 - INTRODUCTION TO PROBABILITY
- STAT 1152 - INTRODUCTION TO MATHEMATICAL STATISTICS
- STAT 1221 - APPLIED REGRESSION
- STAT 1223 - APPLIED REGRESSION WRITING COMPONENT

- Four elective STAT courses, chosen from the 1200 level or above: one of these electives must be from the 1600 level or above, excluding internships and directed study courses.

Note

Students who plan to study statistics at the graduate level are encouraged to take STAT 1631 - INTERMEDIATE PROBABILITY and STAT 1632 - INTERMEDIATE MATHEMATICAL STATISTICAL.

Mathematics courses

- MATH 0220 - ANALYTIC GEOMETRY AND CALCULUS 1
- MATH 0240 - ANALYTIC GEOMETRY AND CALCULUS 3

One of the following

- MATH 0230 - ANALYTIC GEOMETRY AND CALCULUS 2 or
- MATH 0235 - HONORS 1 - VARIABLE CALCULUS

Note

Students are strongly encouraged to take a course in linear algebra, such as MATH 0280 - INTRO TO MATRICES & LINEAR ALG or MATH 1180 - LINEAR ALGEBRA 1 or MATH 1185 - HONORS LINEAR ALGEBRA

Additional Requirements

Grade requirements: A grade of C or better is required in each course that counts toward the major. A minimum GPA of 2.0 in departmental courses is required for graduation.

Satisfactory/No Credit option: No course required for the major may be taken on an S/NC basis.

Writing (W) requirement: Students must complete at least one W-course in the major. STAT 1223 fulfills this requirement.

Honors major requirements: Honors in the Economics-Statistics joint major is granted if the student maintains a GPA of 3.5 or above in all required courses and completes STAT 1631 - INTERMEDIATE PROBABILITY and STAT 1632 - INTERMEDIATE MATHEMATICAL STATISTICAL.

Major

Economics, BA

Economics Major Requirements

Majors may earn either a Bachelor of Science or a Bachelor of Arts in economics. The general rules and requirements as they apply to both degrees are as follows:

- A minimum overall 2.00 GPA is required in all economics courses for graduation with an economics major.

- A minimum grade of C is required in ECON 0100 - INTRODUCTION TO MICROECONOMIC THEORY, ECON 0110 - INTRODUCTION TO MACROECONOMIC THEORY, ECON 1100 - INTERMEDIATE MICROECONOMICS, ECON 1110 - INTERMEDIATE MACROECONOMICS, MATH 0120 and MATH 0220.
- No ECON course that counts toward the major may be taken on an S/NC basis.
- Students must complete at least one writing-intensive (W) course in the major.
- Credit by exam is usually not accepted, but students should check with the departmental advisor about the possibility.
- Majors may choose to complete a double major. Frequently chosen double majors include economics with computer science, history, and philosophy. Less frequently chosen are the sciences (notably biology), which could lead to graduate-level options in public health fields. Interested students have the option of completing a joint major with the mathematics department that will prepare students for a quantitatively oriented job in industry or for entering graduate school in applied mathematics, statistics, economics, business, or a related field (see mathematics major). A structured program leading to a joint Dietrich School /business major is available for students interested in combining economics with business (see Nondepartmental Dietrich School Majors for details).
- ECON 0800 - INTRODUCTION TO ECONOMICS is designed for non-majors and therefore do not count toward the major.
- Internship credits do not count toward the major. Students are encouraged to do internships.
- Only three credits of ECON 1901 through ECON 1903 may be applied toward the credits required for the major.
- Honors in economics is granted if, in addition to fulfilling all requirements for the economics major, the student meets the following criteria:
 - Maintenance of a GPA of 3.5 in all economics courses
 - Maintenance of an overall GPA of 3.5 or better
 - Completion of at least 3 credits in the economics proseminar series (ECON 1700-ECON 1730)

Requirements

Students seeking a BA in economics must earn at least 27 credits in economics courses including the following:

- ECON 0100 - INTRODUCTION TO MICROECONOMIC THEORY
- ECON 0110 - INTRODUCTION TO MACROECONOMIC THEORY
- ECON 1100 - INTERMEDIATE MICROECONOMICS
- ECON 1110 - INTERMEDIATE MACROECONOMICS
- Two Economics elective courses*
- Two ECON 1000-level elective courses which require ECON 1100 or ECON 1110 as prerequisites
- One ECON 1000-level elective course
- ECON 0900 - PROFESSIONAL DEVELOPMENT FOR ECONOMISTS

ECON 0800

* ECON 0800 does not count as an ECON elective course.

Students seeking the BA must also take the following corequisite courses

One of the following

- MATH 0125 - CALCULUS FOR BUSINESS 1 and
- MATH 0126 - CALCULUS FOR BUSINESS 2
- MATH 0120 - BUSINESS CALCULUS

- MATH 0220 - ANALYTIC GEOMETRY AND CALCULUS 1

One of the following

- STAT 0200 - BASIC APPLIED STATISTICS
- STAT 1000 - APPLIED STATISTICAL METHODS
- STAT 1100 - STATISTICS AND PROBABILITY FOR BUSINESS MANAGEMENT *

Note:

* STAT 1000 or STAT 1100 is required for students pursuing the Economics/Business Dual major. Students pursuing this major are exempted from taking BUSECN 1010 since its equivalent is ECON 1100.

Economics, BS

Economics Major Requirements

Majors may earn either a Bachelor of Science or a Bachelor of Arts in economics. The general rules and requirements as they apply to both degrees are as follows:

- A minimum overall 2.00 GPA is required in all economics courses for graduation with an economics major.
- A minimum grade of C is required in ECON 0100 - INTRODUCTION TO MICROECONOMIC THEORY, ECON 0110 - INTRODUCTION TO MACROECONOMIC THEORY, ECON 1100 - INTERMEDIATE MICROECONOMICS, ECON 1110 - INTERMEDIATE MACROECONOMICS, MATH 0120 and MATH 0220.
- No ECON course that counts toward the major may be taken on an S/NC basis.
- Students must complete at least one writing-intensive (W) course in the major.
- Credit by exam is usually not accepted, but students should check with the departmental advisor about the possibility.
- Majors may choose to complete a double major. Frequently chosen double majors include economics with computer science, history, and philosophy. Less frequently chosen are the sciences (notably biology), which could lead to graduate-level options in public health fields. Interested students have the option of completing a joint major with the mathematics department that will prepare students for a quantitatively oriented job in industry or for entering graduate school in applied mathematics, statistics, economics, business, or a related field (see mathematics major). A structured program leading to a joint Dietrich School /business major is available for students interested in combining economics with business (see Nondepartmental Dietrich School Majors for details).
- ECON 0800 - INTRODUCTION TO ECONOMICS is designed for non-majors and therefore do not count toward the major.
- Internship credits do not count toward the major. Students are encouraged to do internships.
- Only three credits of ECON 1901 through ECON 1903 may be applied toward the credits required for the major.
- Honors in economics is granted if, in addition to fulfilling all requirements for the economics major, the student meets the following criteria:
 - Maintenance of a GPA of 3.5 in all economics courses
 - Maintenance of an overall GPA of 3.5 or better
 - Completion of at least 3 credits in the economics proseminar series (ECON 1700-ECON 1730)

Requirements

Students seeking a BS in economics must earn at least 24 credits in economics courses including the following:

- ECON 0100 - INTRODUCTION TO MICROECONOMIC THEORY
- ECON 1100 - INTERMEDIATE MICROECONOMICS
- ECON 0110 - INTRODUCTION TO MACROECONOMIC THEORY
- ECON 1110 - INTERMEDIATE MACROECONOMICS
- Two economics elective courses
- Two ECON 1000-level courses that require ECON 1100 or ECON 1110 or their equivalents as prerequisites
- ECON 0900 - PROFESSIONAL DEVELOPMENT FOR ECONOMISTS

One of the following

- ECON 1150 - APPLIED ECONOMETRICS 1

Note:

*ECON 0800 does not count as an ECON elective course

Students seeking the BS must also take the following corequisite courses:

- MATH 0220 - ANALYTIC GEOMETRY AND CALCULUS 1

One of the following Mathematics Courses

- MATH 0230 - ANALYTIC GEOMETRY AND CALCULUS 2 OR
- MATH 0235 - HONORS 1 - VARIABLE CALCULUS

One of the following Statistics courses

- STAT 1000 - APPLIED STATISTICAL METHODS OR
- STAT 1100 - STATISTICS AND PROBABILITY FOR BUSINESS MANAGEMENT

Minor

Economics Minor

Requirements

The set of courses required for the minor in economics provides an introduction to the core theory in economics and explores some of the issues that economists study. The four core theory courses are taught each term, along with a broad range of applied economics courses. The required courses (totaling 15 credits) are as follows:

- ECON 0100 - INTRODUCTION TO MICROECONOMIC THEORY
- ECON 0110 - INTRODUCTION TO MACROECONOMIC THEORY
- Three additional ECON courses

Note:

Any student following the existing requirements for the economics minor will automatically complete the new requirements as the previous list of possible courses for course (3) would be options for elective courses under the new requirements.

Courses in the 0800 series do not count toward the 15 credits required for the minor in economics. ECON 1906 INTERNSHIP & ECON 1907 UNDERGRADUATE TEACHING ASSISTANT do not count towards the minor and ECON 1901 - 1903 (Independent or directed study) requires department consent to be counted towards the minor. Other than these restrictions, the two additional courses mentioned above may be any of the courses offered by the department.

Department of English

The Department of English at the University of Pittsburgh offers two different major programs, English literature and English writing. Both majors are responsive to many of the traditional goals of a liberal arts education: they seek to develop a broad critical and historical understanding of influential cultural traditions and to foster a range of reading and writing strategies as well as skills of critical analysis. The majors prepare students fairly directly for careers in teaching or writing. But the skills and knowledge the majors impart are useful in numerous business and professional settings. For example, an English major is highly regarded as a pre-professional major for further training in law, medicine, or business. The director of academic affairs for the Association of American Medical Colleges has said (1986) that English majors have a higher rate of acceptance at medical schools than students who have majored in the biological and physical sciences.

Certificate

Health Humanities Certificate

The Certificate in Health Humanities is designed for students interested in examining the sociocultural context and historical foundations of medicine and healthcare. The certificate will focus students on understanding sociocultural and philosophical dimensions of health, disease, and disability; and train them in using diverse methods of the arts, humanities, and social sciences to explore questions animating medicine and healthcare. The certificate includes 3 required interdisciplinary courses (9 credits) and 3 electives (9 credits) which students will choose in consultation with the Certificate in Health Humanities Advisor from a curated pool of courses that address humane aspects of health and medicine.

Course Curriculum

Students must complete a total of 18 credits to fulfill the requirements of the Certificate in Health Humanities. There are three required core courses (three credits each); students can select three electives (3 credits each) to successfully complete the certificate.

Required Core Courses

The following three courses are required for the Certificate in Health Humanities.

Providing the cultural-historical and methodological foundations for the Certificate are two core courses:

- ENGLIT 0541 - LITERATURE AND MEDICINE
- SOC 0477 - MEDICAL SOCIOLOGY

Providing students an opportunity to integrate a range of interdisciplinary approaches within their own student projects is the Certificate's capstone course.

- ENGLIT 1015 - UNRULY BODIES

Elective Course Options

Students will choose two electives from a list of lower-level courses and one elective from a list of upper-level courses to form a thematically clustered, individually tailored course of study. Students may substitute upper-level courses in place of lower-level courses. Among the three electives, at least two will be drawn from the humanities and/or social sciences.

The following are examples of possible themes and applicable courses.

Suffering and the End of Life

- PHIL 0360 - INTRODUCTION TO BIOMEDICAL ETHICS
- RELGST 1725 - DEATH AND HEALTHCARE PROFESSIONS
- PSY 1230 - PSYCHOLOGY OF DEATH AND DYING

Sexuality and Health

- GSWS 0550 - SEX AND SEXUALITIES OR
- PSY 0184 - PSYCHOLOGY OF GENDER

- ANTH 0768 - ANTHROPOLOGY OF GENDER AND SEXUALITY

- GSWS 1130 - GENDERED BODIES OR
- HIST 1026 - STATES AND SEX IN THE AMERICAS

Social Science Methods and Medicine

- STAT 0800 - STATISTICS IN THE MODERN WORLD
- ANTH 1761 - PATIENTS AND HEALERS: MEDICAL ANTHROPOLOGY 1
- AFRCNA 1710 - AFRICAN AMERICAN HEALTH ISSUES

Diverse Perspectives on Meaning-Making in the Face of Mortality

- PHIL 0010 - CONCEPTS OF HUMAN NATURE
- RELGST 1558 - BUDDHISM AND PSYCHOLOGY
- RELGST 1725 - DEATH AND HEALTHCARE PROFESSIONS

Communicating Science and Medicine

- ENGLIT 0612 - LITERATURE AND SCIENCE
- NROSCI 1014 - SPEAKING OF SCIENCE
- ENGVRT 1390 - READINGS IN CONTEMPORARY NON-FICTION

Representing the Body

- FMST 0790 - TECHNOLOGIES OF THE BODY OR
- ENGFLM 0585 - TECHNOLOGIES OF THE BODY

- SA 0130 - DRAWING STUDIO 1
- GSWS 1170 - QUEER THEORY

Full List of Elective Options

Lists of lower- and upper-level electives, identified from among regularly offered courses of the Dietrich School, are provided below. Each semester, the Certificate in Health Humanities Advisor will review the DSAS course offerings and publish lists of lower- and upper-level electives relevant to the Certificate in Health Humanities.

Lower-Level Electives

- ANTH 0717 - MAGIC, WITCHCRAFT AND THE SUPERNATURAL BODY
- CLASS 0650 - ARCHAEOLOGY OF THE BODY
- ECON 0220 - INTRO TO HEALTH ECONOMICS
- ENGFLM 0585 - TECHNOLOGIES OF THE BODY OR
- FMST 0790 - TECHNOLOGIES OF THE BODY
- ENGLIT 0612 - LITERATURE AND SCIENCE
- ENGLIT 0630 - SEXUALITY AND REPRESENTATION
- ENGWR 0610 - INTRODUCTION TO JOURNALISM AND NONFICTION
- FR 0088 - AILING BODIES: NARRATIVES OF HEALTH AND ILLNESS
- GSWS 0100 - INTRODUCTION TO GENDER, SEXUALITY, AND WOMEN'S STUDIES
- GSWS 0500 - INTRODUCTION TO FEMINIST THEORY
- HAA 0018 - DEATH IN THE ANCIENT WORLD OR
- CLASS 0618 - DEATH IN THE ANCIENT WORLD
- HPS 0427 - MYTH AND SCIENCE
- HPS 0515 - MAGIC, MEDICINE AND SCIENCE
- HPS 0612 - MIND AND MEDICINE
- HPS 0613 - MORALITY AND MEDICINE
- NROSCI 0080 - BRAIN AND BEHAVIOR
- NROSCI 0081 - DRUGS AND BEHAVIOR
- PHIL 0360 - INTRODUCTION TO BIOMEDICAL ETHICS
- PSY 0505 - INTRODUCTION TO BIOPSYCHOLOGY
- SOC 0007 - SOCIAL PROBLEMS
- SOC 0436 - SOCIAL ASPECTS OF SEXUALITY
- SOC 0444 - URBAN SOCIOLOGY
- SOC 0471 - DEVIANCE AND SOCIAL CONTROL
- SOC 0473 - SOCIOLOGY OF GLOBALIZATION AND HEALTH
- SOC 0477 - MEDICAL SOCIOLOGY
- STAT 0800 - STATISTICS IN THE MODERN WORLD

Upper-Level Electives

- AFRCNA 1510 - HEALTH IN THE AFRICAN DIASPORA
- AFRCNA 1710 - AFRICAN AMERICAN HEALTH ISSUES
- AFRCNA 1903 - DIRECTED RESEARCH
- ANTH 1761 - PATIENTS AND HEALERS: MEDICAL ANTHROPOLOGY 1
- ANTH 1725 - SOCIAL AND HEALTH ISSUES IN EAST AFRICA
- ANTH 1793 - ASIAN MEDICAL SYSTEMS
- BIOETH 2001 - ETHICS AND AGING
- BIOETH 2658 - PHILOSOPHY OF MEDICINE
- BIOETH 2664 - BIOETHICS
- COMMRC 1101 - EVIDENCE
- COMMRC 1123 - RHETORICAL CRITICISM
- COMMRC 1143 - KNOWLEDGE, POWER, AND DESIRE
- ENGCOMP 1102 - LANGUAGE OF MEDICINE
- ENGCOMP 1250 - ADVANCED TOPICS PUBLIC/PROFESSIONAL WRITING
- ENGLIT 1180 - HUMANS, ANIMALS, MACHINES IN VICTORIAN LITERATURE
- ENGFLM 1671 - MAKING THE DOCUMENTARY
- ENGWRT 1330 - INTERMEDIATE NONFICTION: SCENE AND POINT-OF-VIEW
- ENGWRT 1390 - READINGS IN CONTEMPORARY NON-FICTION
- GSWS 1141 - SPECIAL TOPICS IN GENDER, SEXUALITY, AND WOMEN'S STUDIES
- HIST 1026 - STATES AND SEX IN THE AMERICAS
- HIST 1090 - HISTORY OF MEDICINE AND HEALTH CARE OR
- SOC 1488 - HISTORY MEDICINE AND HEALTH CARE
- HIST 1091 - GLOBAL HEALTH HISTORY: HISTORICAL PERSPECTIVE
- HIST 1197 - BLACK DEATH: PLAGUE AND HISTORY
- HIST 1425 - HISTORY OF MEDICINE IN CHINA
- HIST 1725 - DISEASE AND HEALTH IN MODERN AFRICA
- PHIL 1360 - BIOMEDICAL ETHICS
- PSY 1110 - PSYCHOLOGICAL ASPECTS OF HUMAN SEXUALITY
- PSY 1205 - ABNORMAL PSYCHOLOGY
- PSY 1230 - PSYCHOLOGY OF DEATH AND DYING
- PSY 1357 - PSYCHOLOGY OF AGING
- PSY 1470 - COGNITION AND THE BRAIN
- PSY 1215 - HEALTH PSYCHOLOGY
- RELGST 1151 - DEATH IN THE MEDITERRANEAN WORLD OR
- CLASS 1090 - TOPICS IN CLASSICAL CULTURE OR
- HIST 1714 - DEATH IN MEDITERRANEAN WORLD
- RELGST 1554 - DEATH AND BEYOND IN BUDDHIST CULTURES OR
- HIST 1484 - DEATH AND BEYOND IN BUDDHIST CULTURES
- RELGST 1558 - BUDDHISM AND PSYCHOLOGY
- RELGST 1725 - DEATH AND HEALTHCARE PROFESSIONS OR
- HPS 1623 - DEATH AND HEALTHCARE PROFESSIONS
- SOC 1324 - SOCIAL PROBLEMS AND MORAL CRUSADES
- SOC 1445 - SOCIETY AND ENVIRONMENT
- SOC 1450 - HEALTH AND ILLNESS
- SPAN 1323 - MEDICAL SPANISH

Grade Requirements

Grade Requirements

A minimum GPA of 2.0 is required in each course that counts toward the certificate.

Satisfactory/No Credit Option

There is no limit to the number of courses that can be taken on the S/NC basis for this certificate.

Students interested in the certificate should contact one of the advisors in the Department of English.

Public Communication of Science and Technology Certificate

Writing plays a crucial role in the lives of people after they leave college as they work, volunteer, attend professional schools, and advocate for themselves and others. The Public Communication of Science and Technology (PCST) Certificate is designed for science- and technology-oriented students in any major who understand the value of being able to communicate their research outside their own narrow field, who know that they will need to convince others to support their research, and who anticipate that they will need to communicate the implications of their research to the public. It will also serve students who want to pursue a career as a writer in science and technical fields.

Students will use the knowledge and abilities taught in this certificate in a variety of fields: to convey the significance of research to the public, grantors, institutions, and colleagues; to educate as part of the mission for public service institutions, such as museums and science centers; to craft messages to enhance patient education and care in medical contexts; to educate policy makers on the most effective solutions to problems; to communicate theory and studies in scientific and technological contexts; as editors and writers for journals that publish research findings; as journalists working science beats; and as artists working with themes, images, materials, and ideas from scientific research.

The certificate program requires 18 credits, described as follows.

Core Course

- ENGCMP 0430 - PUBLIC COMMUNICATION OF SCIENCE AND TECHNOLOGY

Using Information Technology

Select one of the following courses.

- ENGCMP 0520 - INTEGRATING WRITING AND DESIGN
- ENGCMP 0610 - COMPOSING DIGITAL MEDIA
- ENGCMP 1130 - PROJECTS IN DIGITAL COMPOSITION

Elective Courses for the Certificate

Select three of the following courses.

- ENGCMP 0401 - WRITTEN PROFESSIONAL COMMUNICATION: TOPICS IN DIVERSITY
- ENGCMP 0412 - ENGINEERING COMMUNICATION IN A PROFESSIONAL CONTEXT
- ENGCMP 0432 - WRITING FOR ENVIRONMENTAL ADVOCACY

- ENGCOMP 0450 - RESEARCH WRITING
- ENGCOMP 0521 - WRITING WITH DATA
- ENGCOMP 0530 - WRITING FOR THE SCIENCES
- ENGCOMP 0535 - WRITING IN THE HEALTH SCIENCE PROFESSIONS
- ENGCOMP 0600 - INTRODUCTION TO TECHNICAL WRITING
- ENGCOMP 1101 - LANGUAGE OF SCIENCE AND TECHNOLOGY
- ENGCOMP 1102 - LANGUAGE OF MEDICINE
- ENGCOMP 1402 - GRANT WRITING FOR RESEARCH
- ENGCOMP 1430 - USABILITY TESTING IN TECHNICAL WRITING
- ENGCOMP 1900 - INTERNSHIP: PUBLIC/PROFESSIONAL WRITING

- ENGFLM 0585 - TECHNOLOGIES OF THE BODY or
- FMST 0790 - TECHNOLOGIES OF THE BODY

- ENGLIT 0512 - NARRATIVE AND TECHNOLOGY
- ENGLIT 0541 - LITERATURE AND MEDICINE
- ENGLIT 0612 - LITERATURE AND SCIENCE
- ENGLIT 0710 - CONTEMPORARY ENVIRONMENTAL LITERATURE
- ENGLIT 1005 - LITERATURE AND THE ENVIRONMENT
- GSWS 0400 - GENDER AND SCIENCE

Students who have declared a major in the Department of Geology and Environmental Science may use either or both of the following course as elective options.

- GEOL 1313 - COM ENVIRONMENTAL PROFESSIONALS
- GEOL 1315 - COMMUNICATION IN GEOSCIENCES/WRIT REQUIREMENT

Capstone Course

Select one of the following courses.

- ENGCOMP 1910 - BRIDGE SEMINAR
- ENGCOMP - PCST Capstone

Additional information

Grade Requirements

Students are expected to achieve a minimum grade of C, or a Satisfactory (S) grade if taken on a Satisfactory/No Credit (S/NC) grade option, in each course required for this certificate.

Satisfactory/No Credit Option

There is no limit to the number of courses that can be taken on the S/NC basis for this certificate.

For more information

Visit the certificate's Web page at www.WritingInstitute.Pitt.edu/PCST for more details. Questions about the certificate can be addressed to Amy Flick.

Joint Major

Digital Narrative and Interactive Design, BA/BS

The Digital Narrative and Interactive Design major (DNID) is managed jointly by the Dietrich School of Arts and Sciences and the School of Computing and Information. This program offers training that builds a solid foundation in English (Writing, Composition, Film and Media Studies, and Literature), Computer Science, and Information Science.

Digital Narrative and Interactive Design

The Digital Narrative and Interactive Design major (DNID) harnesses the narrative, world-building, and media studies strengths of the English department and the coding, software development, and human computer interface strengths of the School of Computing and Information. It draws upon existing initiatives in game design at SCI and game studies, critical making, and media production within the English department. Students will learn how to build interactive narrative systems such as games, interactive literature, virtual reality environments and other interactive media experiences in a variety of fields. They will learn to creatively combine design with narrative, code with story. This uniquely positions majors in today's workforce: game and interactive media design is booming in nearly every field and sector. What these positions require, and what is currently in short supply, are individuals capable of both understanding the intricacies of narrative and implementing that knowledge in the form of computational media (coded interactive systems).

Core and Upper Level Courses

Gateway course

Choose one of the following courses.

- ENGLIT 0512 - NARRATIVE AND TECHNOLOGY
- ENGCMP 0425 - DIGITAL HUMANITY
- HAA 0425 - DIGITAL HUMANITY

Composition courses

Choose one of the following courses.

- ENGCMP 1201 - DIGITAL NARRATIVE AND INTERACTIVE DESIGN
- ENGLIT 1201 - DIGITAL NARRATIVE AND INTERACTIVE DESIGN
- CMPINF 1201 - DIGITAL NARRATIVE AND INTERACTIVE DESIGN

Programming Basics courses

Choose one of the following courses.

- CS 0010 - INTRODUCTION TO COMPUTING FOR SYSTEMS ENGINEERS
- CS 0011 - INTRODUCTION TO COMPUTING FOR SCIENTISTS

- CS 0012 - INTRODUCTION TO COMPUTING FOR THE HUMANITIES
- INFSCI 0510 - DATA ANALYSIS

Intermediate Programming course

- CMPINF 0401 - INTERMEDIATE PROGRAMMING

Interaction and Narrative course

Choose one of the following courses. Students who take ENGLIT 0512 for their Gateway course may not use it to fulfill this requirement.

- ENGLIT 0512 - NARRATIVE AND TECHNOLOGY
- ENGLIT 0702 - INTRODUCTION TO GAME STUDIES
- ENGLIT 1001 - INTERACTIVE LITERATURE
- ENGLIT 1002 - GAME, STORY, PLAY

Media Literacy course

Choose one of the following courses.

- ENGFLM 0355 - VISUAL LITERACY
- ENGFLM 0401 - IMAGES, ICONS, AND IDEAS
- ENGFLM 0570 - INTRODUCTION TO NEW MEDIA
- ENGFLM 1680 - ANIMATION STUDIES
- FMST 0100 - VISUAL LITERACY
- FMST 0505 - INTRODUCTION TO NEW MEDIA
- FMST 1510 - ANIMATION STUDIES

Data Literacy course

Choose one of the following courses.

- CS 0445 - ALGORITHMS AND DATA STRUCTURES 1
- INFSCI 1500 - DATABASE MANAGEMENT CONCEPTS AND APPLICATIONS

Elective courses

Students must complete two elective courses from the **School of Computing and Information** and two elective courses from the **Dietrich School of Arts and Sciences**. Courses offering a depth of knowledge in pre-identified areas of interest are clustered together to provide a guide for students; Students are not required to follow nor declare a specific track.

Online Media track

School of Computing and Information courses

Choose two of the following courses.

- CS 0590 - SOCIAL IMPLICATIONS OF COMPUTING TECHNOLOGY
- CS 1520 - PROGRAMMING LANGUAGE FOR WEB APPLICATIONS
- INFSCI 0410 - HUMAN-CENTERED SYSTEMS
- INFSCI 1400 - ANALYSIS OF INFORMATION SYSTEMS
- INFSCI 1420 - USER-CENTERED DESIGN
- INFSCI 1550 - GEOSPATIAL INFORMATION SYSTEMS (GIS)

Dietrich School of Arts and Sciences courses

Choose two of the following courses.

- ENGCMP 0520 - INTEGRATING WRITING AND DESIGN
 - ENGCMP 0610 - COMPOSING DIGITAL MEDIA
 - ENGCMP 1112 - PROFESSIONAL USES OF SOCIAL MEDIA
 - ENGCMP 1130 - PROJECTS IN DIGITAL COMPOSITION
 - ENGCMP 1207 - WRITING MACHINES or CMPINF 1207
 - ENGCMP 1430 - USABILITY TESTING IN TECHNICAL WRITING
 - ENGFLM 0570 - INTRODUCTION TO NEW MEDIA * or
 - FMST 0505 - INTRODUCTION TO NEW MEDIA *
- * These courses may only be taken for the Online Media track if they were not used to meet the Media Literacy requirement.
- ENGFLM 0812 - MEDIA/ECOLOGY or
 - ENGLIT 0812 - MEDIA/ECOLOGY or
 - FMST 0762 - MEDIA/ECOLOGY
- ENGLIT 1001 - INTERACTIVE LITERATURE
 - ENGLIT 1412 - SECRET PITTSBURGH
 - ENGWRT 0710 - INTRO TO AUDIO STORYTELLING
 - ENGWRT 1377 - MEDIA LITERACY: WRITING AND READING YOUR WAY THROUGH THE DIGITAL LANDSCAPE
 - ENGWRT 1501 - TOPICS IN CREATIVE WRITING
 - GSWS 1210 - GENDER AND THE DIGITAL

Game Design track

School of Computing and Information courses

Choose two of the following courses.

- CS 1566 - INTRODUCTION COMPUTER GRAPHICS
- CS 1666 - PRINCIPLES OF COMPUTER GAME DESIGN AND IMPLEMENTATION
- CS 1674 - INTRODUCTION TO COMPUTER VISION
- INFSCI 0410 - HUMAN-CENTERED SYSTEMS
- INFSCI 1014 - GRAPHICS
- INFSCI 1450 - GAME DESIGN
- INFSCI 1470 - IMMERSIVE MEDIA TECHNOLOGIES

Dietrich School of Arts and Sciences courses

Choose two of the following courses.

- ENGCMP 1130 - PROJECTS IN DIGITAL COMPOSITION
- ENGFLM 0570 - INTRODUCTION TO NEW MEDIA or
- FMST 0505 - INTRODUCTION TO NEW MEDIA
- ENGFLM 0585 - TECHNOLOGIES OF THE BODY or
- FMST 0790 - TECHNOLOGIES OF THE BODY
- ENGFLM 0812 - MEDIA/ECOLOGY or
- ENGLIT 0812 - MEDIA/ECOLOGY or
- FMST 0762 - MEDIA/ECOLOGY
- FMST 1412 - CINEMA AND VIDEO GAMES
- ENGLIT 0702 - INTRODUCTION TO GAME STUDIES
- ENGLIT 1001 - INTERACTIVE LITERATURE
- ENGLIT 1002 - GAME, STORY, PLAY
- ENGLIT 1355 - VIRTUAL REALITY
- ENGWRT 0520 - INTRODUCTION TO FICTION WRITING
- ENGFLM 1760 - CINEMA AND VIDEO GAMES

Critical Making track

School of Computing and Information courses

Choose two of the following courses.

- CS 1520 - PROGRAMMING LANGUAGE FOR WEB APPLICATIONS
- CS 1567 - PROGRAMMING SYSTEM DESIGN ON A MOBILE ROBOT PLATFORM
- CS 1571 - INTRODUCTION TO ARTIFICIAL INTELLIGENCE
- INFSCI 0410 - HUMAN-CENTERED SYSTEMS
- INFSCI 1059 - WEB PROGRAMMING

Dietrich School of Arts and Sciences courses

Choose two of the following courses.

- ENGCMP 0520 - INTEGRATING WRITING AND DESIGN
- ENGCMP 0610 - COMPOSING DIGITAL MEDIA
- ENGCMP 0712 - CRITICAL MAKING or
- ENGLIT 0712 - CRITICAL MAKING or
- ENGFLM 0712 - CRITICAL MAKING or
- FMST 0760 - CRITICAL MAKING
- ENGCMP 1200 - ADVANCED TOPICS IN COMPOSITION

- ENGCMP 1207 - WRITING MACHINES or CMPINF 1207
- ENGCMP 1430 - USABILITY TESTING IN TECHNICAL WRITING
- ENGFLM 0585 - TECHNOLOGIES OF THE BODY or
- FMST 0790 - TECHNOLOGIES OF THE BODY
- ENGFLM 0812 - MEDIA/ECOLOGY or
- ENGLIT 0812 - MEDIA/ECOLOGY or
- FMST 0762 - MEDIA/ECOLOGY
- ENGFLM 1475 - GUILLERMO DEL TORO
- ENGLIT 0521 - SCAN CULTURE: SURVEILLANCE AND THE DIGITAL
- ENGLIT 1355 - VIRTUAL REALITY
- ENGWRT 0710 - INTRO TO AUDIO STORYTELLING
- ENGWRT 1501 - TOPICS IN CREATIVE WRITING

Capstone sequence

The Capstone sequence allows students to design and implement a signature project to complete the major. Students start with the design project (Project 1) and complete the sequence with the implementation project (Project 2) in consultation with their advisors. Students seeking Independent Study or Directed Study options for the capstone sequence should work with their advisors to ensure that the work done in these courses will complete the sequence.

Project 1

Choose one of the following courses.

- ENGCMP 1910 - BRIDGE SEMINAR
- ENGLIT 1900 - PROJECT SEMINAR
- ENGLIT 1901 - INDEPENDENT STUDY (by special arrangement only)
- ENGLIT 1922 - DNID CAPSTONE IN ENGLISH

Project 2

- CMPINF 1981 - PROJECT STUDIO
- CS 1902 - DIRECTED STUDY (by special arrangement only)
- INFSCI 1730 - INDEPENDENT STUDY (by special arrangement only)
- INFSCI 1740 - TEAM-BASED CAPSTONE PROJECT

Additional Information

Writing (W) requirement

Dietrich School students must complete at least one W-course in the major. ENGCMP 0610 fulfills this requirement.

Grade requirements

Students must maintain at least a 2.0 GPA in all courses that apply toward the major.

Satisfactory/No Credit option

There is no limit to the number of English (ENGCOMP, ENGFLM, ENGLIT, ENGWRT, FMST) courses that can be taken on the S/NC basis for this major. No School of Computing and Information courses (CMPINF, CS, INFSCI) courses may be taken on an S/NC basis.

Advising

Digital Narrative and Interactive Design is a joint undergraduate degree between the Dietrich School of Arts and Sciences and the School of Computing and Information. Students enrolled in each school are advised by advisors within that school.

Major

English Literature, BA

The English literature major is designed to develop a critical understanding of literary and cultural traditions in English that is at once informed, skeptical, and appreciative. Some of the distinctive features of the literature curriculum at the University of Pittsburgh are the recurrent concerns from the introductory to the most advanced undergraduate courses with the following: questions of how and why we read and write and participate in cultural activities; the contexts in which a range of literary texts and films are produced, understood, evaluated, and used; and the changing role of art and culture in the contemporary world. The major offers students opportunities to study canonical works of British and American literature from medieval times to the present; often, these texts will be studied in conjunction with historical or philosophical works, with other national literatures in English, and/or with films or works of popular culture. In many courses, students' own writing will be an important object of study.

Major Requirements

The English literature major requires the completion of 36 credits distributed as follows.

- ENGLIT 0505 - HOW TO DO THINGS WITH LITERATURE 1
- ENGLIT 0506 - LITERARY FIELD STUDIES

Two period courses chosen from a listing of approved courses

www.englishlit.pitt.edu/undergraduate/major-requirements

Advanced courses

- ENGLIT 1900 - PROJECT SEMINAR
- ENGLIT 1910 - SENIOR SEMINAR

Six elective courses

- At least four of these courses should fall within the designated area of concentration selected by the student. Students may apply for special approval with the director of the Literature program to count an elective not previously listed in a given area of concentration.
- At least three of these courses must be from the 1000-level or above.
- Students may take up to two courses from other programs in the Department of English (Composition, Film, Writing) designated within their area of concentration. Students may apply for special approval with the director of the Literature program to count an additional elective from another English program.
- At least one of these courses should also fulfill a breadth of study requirement. Students should ask instructors or advisors whether a particular course or section fulfills this requirement.
- Independent study, directed study, teaching assistantships, and internships may count toward any concentration depending upon the nature of the student's work.

Additional information and requirements

- There is no limit on the number of courses English majors may take on an S/NC basis, either inside or outside the department.
- English majors automatically fulfill Dietrich School requirements for W courses.
- Students who contemplate graduate study in English should remember that many schools do require second language competence, sometimes in more than one language.
- The English department confers honors on those graduates who maintain a 3.25 overall GPA with a GPA of 3.50 or better in English departmental courses. The GPA is based on all English department courses, not just those that fulfill major requirements.

English Writing, BA

The University of Pittsburgh's Writing Program is the oldest and one of the largest in the United States, offering tracks in fiction, poetry, nonfiction, and journalism. There is a wide variety of classes, and the maximum size is 22. The Writing Program has a full-time faculty of widely published writers, several visiting writers each year, and a number of part-time faculty who are senior reporters or editors at Pittsburgh newspapers and magazines. Graduates of the writing program include editors at major daily newspapers and publishing houses and winners of the Pulitzer Prize and other major awards.

Visit the Department of English Academic Programs page for more information on its majors.

Major Requirements

A minimum of 33 credits is required: 21 credits in English writing courses and 12 in English literature courses.

Majors must choose one of three tracks: fiction, nonfiction, or poetry. In most cases, students will take other writing courses as well. Each track consists of three levels of courses. The introductory courses (0500s) offer a broad introduction to the skills required of writers in a particular area and generally should be taken no later than the first term of the junior year. The intermediate courses (1000s for fiction, 1200s for poetry, 1300s for nonfiction) refine and develop those skills. The senior seminars (1700s) provide a capstone experience for the student writer. Students should check prerequisites carefully before registration.

English Writing prerequisite

Students must complete one of the following prerequisite courses before declaring the major.

- ENGCMP 0200 - SEMINAR IN COMPOSITION
- ENGCMP 0203 - SEMINAR IN COMPOSITION: GENDER STUDIES
- ENGCMP 0205 - SEMINAR IN COMPOSITION: FILM
- ENGCMP 0207 - SEMINAR IN COMPOSITION: EDUCATION
- ENGCMP 0208 - SEMINAR IN COMPOSITION: SERVICE-LEARNING
- ENGCMP 0210 - SEMINAR IN COMPOSITION: ENGINEERING
- ENGCMP 0212 - SEMINAR IN COMPOSITION: TOPICS IN DIVERSITY
- ENGCMP 0213 - SEMINAR IN COMPOSITION: DISABILITY STUDIES
- FP 0003 - FIRST-YEAR SEMINAR
- FP 0006 - FIRST-YEAR SEMINAR

Fiction track

Writing courses

- ENGWRT 0520 - INTRODUCTION TO FICTION WRITING
- ENGWRT 1010 - INTERMEDIATE FICTION
- ENGWRT 1094 - READINGS IN CONTEMPORARY FICTION
- ENGWRT 1710 - SENIOR SEMINAR IN FICTION
- Three additional ENGWRT elective courses

Literature courses

- ENGLIT 0325 - THE SHORT STORY
- Two ENGLIT electives from the list below
- One additional ENGLIT elective at the 1000-level from the list below

Nonfiction track

Writing courses

- ENGWRT 0610 - INTRODUCTION TO JOURNALISM AND NONFICTION
- ENGWRT 1330 - INTERMEDIATE NONFICTION: SCENE AND POINT-OF-VIEW
- ENGWRT 1390 - READINGS IN CONTEMPORARY NON-FICTION
- ENGWRT 1750 - SENIOR SEMINAR IN NONFICTION
- Three additional ENGWRT elective courses

Literature courses

- ENGLIT 0500-level or above elective
- ENGLIT 1000-level elective

Poetry track

Writing courses

- ENGWRT 0530 - INTRODUCTION TO POETRY WRITING
- ENGWRT 1210 - POETRY WORKSHOP
- ENGWRT 1290 - READINGS IN CONTEMPORARY POETRY
- ENGWRT 1730 - SENIOR SEMINAR IN POETRY
- Three additional ENGWRT elective courses

Literature courses

- ENGLIT 0315 - READING POETRY
- Two ENGLIT electives from the list below
- One additional ENGLIT elective at the 1000-level from the list below

English Writing elective courses

Elective courses may be taken in another track if the student wishes.

English Literature approved courses

- ENGLIT 0500 - INTRODUCTION TO CRITICAL READING
- ENGLIT 0505 - HOW TO DO THINGS WITH LITERATURE 1
- ENGLIT 0560 - CHILDREN AND CULTURE
- ENGLIT 0562 - CHILDHOOD'S BOOKS
- ENGLIT 0570 - AMERICAN LITERATURE
- ENGLIT 0573 - LITERATURE OF THE AMERICAS
- ENGLIT 0580 - INTRODUCTION TO SHAKESPEARE
- ENGLIT 0590 - FORMATIVE MASTERPIECES
- ENGLIT 0597 - BIBLE AS LITERATURE
- ENGLIT 0610 - WOMEN AND LITERATURE
- ENGLIT 0616 - EXILES, NOMADS, AND MIGRANTS
- ENGLIT 0625 - DETECTIVE FICTION
- ENGLIT 0626 - SCIENCE FICTION
- ENGLIT 0628 - WORKING CLASS LITERATURE
- ENGLIT 0629 - THE WILD WEST
- ENGLIT 0630 - SEXUALITY AND REPRESENTATION
- ENGLIT 0636 - THE GOTHIC IMAGINATION
- ENGLIT 0640 - ALLEGORY
- ENGLIT 0642 - COMEDY
- ENGLIT 0643 - SATIRE
- ENGLIT 0644 - MYTH AND FOLKTALE
- ENGLIT 0645 - FANTASY
- ENGLIT 0655 - REPRESENTING ADOLESCENCE
- ENGLIT 1020 - HISTORY OF LITERARY CRITICISM
- ENGLIT 1028 - LITERATURE AND PSYCHOANALYSIS
- ENGLIT 1100 - MEDIEVAL IMAGINATION
- ENGLIT 1115 - CHAUCER
- ENGLIT 1125 - MASTERPIECES OF RENAISSANCE LITERATURE

- ENGLIT 1135 - LITERATURE, MEDIA, AND SCIENCE IN THE AGE OF SHAKESPEARE
- ENGLIT 1126 - ADVANCED SHAKESPEARE
- ENGLIT 1127 - SHAKESPEARE ON FILM
- ENGLIT 1128 - SHAKESPEARE'S SEXUALITIES
- ENGLIT 1150 - ENLIGHTENMENT TO REVOLUTION
- ENGLIT 1170 - ROMANTIC NATURE
- ENGLIT 1175 - 19TH CENTURY BRITISH LITERATURE
- ENGLIT 1180 - HUMANS, ANIMALS, MACHINES IN VICTORIAN LITERATURE
- ENGLIT 1181 - VICTORIAN NOVEL
- ENGLIT 1200 - AMERICAN LITERATURE TO 1860
- ENGLIT 1220 - CIVIL WAR TO WORLD WAR 1 IN AMERICAN LITERATURE
- ENGLIT 1272 - THE ROARING 20'S: FROM FARMERS TO FACTORY WORKERS, FROM FLAPPERS TO FINANCIERS
- ENGLIT 1325 - MODERNISM
- ENGLIT 1360 - TOPICS IN 20TH CENTURY LIT
- ENGLIT 1380 - WORLD LITERATURE IN ENGLISH
- ENGLIT 1645 - CRITL APPRCH TO CHILDREN'S LIT
- ENGLIT 1704 - WOMEN NOVELISTS
- ENGLIT 1756 - BALLADS AND BLUES
- ENGLIT 1738 - IRISH LITERATURE

English Writing additional information and requirements

- A minimum grade of C or better (not C-) is required in a 0500-level writing course to advance to the first 1000-level course in that track. Students who earn less than a C in their first 1000-level course may not advance to other courses in that track. Moreover, students must earn a C or better (not C-) grade in their senior seminar or internship course.
- Students are encouraged to take additional writing and literature courses beyond the required minimum. Courses in film studies, women's studies, business, and technical writing are particularly useful for English writing majors.
- Completion of at least one composition course is required for enrollment in a writing program course.
- ENGWRT 0400 - INTRODUCTION TO CREATIVE WRITING and ENGWRT 0411 - INTRODUCTION TO CREATIVE NONFICTION are optional introductory courses and may be taken during the second year by students who have recently declared a major in writing, are seriously considering writing as a major, or are taking their first 0500-level course. ENGWRT 0400 can only count as an elective towards the Writing degree if taken before ENGWRT 0520 or ENGWRT 0530. Likewise, ENGWRT 0411 may be taken as an elective before ENGWRT 1330 - INTERMEDIATE NONFICTION: SCENE AND POINT-OF-VIEW.
- There is no limit on the number of courses English majors may take on an S/NC basis, either inside or outside the department.
- English writing majors automatically fulfill Dietrich School requirements for W courses. Students pursuing a second major are required to complete an additional W course for that major.
- Students who contemplate graduate study in English should remember that many schools do require second language competence, sometimes in more than one language.
The English department confers honors on those graduates who maintain a 3.25 overall GPA with a GPA of 3.50 or better in English department courses. The GPA is based on all English department courses, not just those that fulfill major requirements.

Public and Professional Writing, BA

The Public and Professional Writing (PPW) major in the Department of English allows students to undertake rigorous intellectual work that will deepen their engagement with writing as a form of social action and professional exchange that has consequences in the world. Students in the major can expect to address critical questions in public and professional writing; learn how to use the forms and genres of particular professions or fields; learn how to compose effectively on behalf of an organization or campaign; learn how to create engaging documents and carry out inquiry projects for a particular audience; compose using appropriate modalities and technology; compose with awareness of textual forms and conventions; conduct responsible and ethical research; explore the history and politics of writing in specific contexts; engage with public debates over language, globalization, education, and writing; and compose as a creative and disciplined form of critical inquiry. PPW majors can expect to find jobs in the nonprofit sector, government, or the commercial sector.

Required courses for the major

The Public and Professional Writing BA requires the completion of 33 credits, distributed as follows.

Students may choose to follow clusters of courses that will lead to in-depth study in specific areas or for specific career paths: Writing to Support Scientific Research, Preparing for Law School, Writing for Nonprofits, Writing for Business, Teaching and Composition Studies, Advertising and PR Writing, Composing Digital Media, Editing and Publishing, Preparing for Graduate School, Public Engagement, and others. See the list of possible clusters that apply to this major.

Prerequisites

The Seminar in Composition requirement must be completed prior to enrollment in any ENGCOMP courses at or above the 0400-level. A Seminar in Composition course can be selected from the following list.

- ENGCOMP 0200 - SEMINAR IN COMPOSITION
- ENGCOMP 0203 - SEMINAR IN COMPOSITION: GENDER STUDIES
- ENGCOMP 0205 - SEMINAR IN COMPOSITION: FILM
- ENGCOMP 0207 - SEMINAR IN COMPOSITION: EDUCATION
- ENGCOMP 0208 - SEMINAR IN COMPOSITION: SERVICE-LEARNING
- ENGCOMP 0210 - SEMINAR IN COMPOSITION: ENGINEERING
- FP 0003 - FIRST-YEAR SEMINAR
- FP 0006 - FIRST-YEAR SEMINAR

Core courses

- ENGCOMP 0420 - WRITING FOR THE PUBLIC
- ENGCOMP 0560 - WRITING ARGUMENTS
- ENGCOMP 1551 - HISTORY AND POLITICS OF THE ENGLISH LANGUAGE

- ENGCOMP 1900 - INTERNSHIP: PUBLIC/PROFESSIONAL WRITING or
- ENGCOMP 1901 - UTA IN TEACHING AND TUTORING WRITING *

- ENGCOMP 1910 - BRIDGE SEMINAR

Three 1000-level courses

Students must complete three ENGCOMP courses at the 1000-level or above.

Three elective courses

Students must complete three courses at the 0400-level or above.

Grade requirements:

A minimum grade of C or better is required in any 0400- or 0500-level ENGCOMP course to advance to the first 1000-level course.

Satisfactory/No Credit option:

There is no limit to the number of courses that may be taken on the S/NC basis for this major.

Writing (W) requirement:

Most ENGCOMP courses satisfy the W requirement. Students pursuing a second major are required to complete an additional W-course for the major in that department.

ENGCOMP courses that fulfill requirements for the major

- ENGCOMP 0400 - WRITTEN PROFESSIONAL COMMUNICATION
- ENGCOMP 0410 - WRITING IN THE LEGAL PROFESSIONS
- ENGCOMP 0420 - WRITING FOR THE PUBLIC
- ENGCOMP 0425 - DIGITAL HUMANITY
- ENGCOMP 0440 - CRITICAL WRITING
- ENGCOMP 0450 - RESEARCH WRITING
- ENGCOMP 0500 - TOPICS IN COMPOSITION
- ENGCOMP 0510 - NARRATIVES OF THE WORKPLACE
- ENGCOMP 0515 - PERSUASIVE WRITING IN ADVERTISING
- ENGCOMP 0520 - INTEGRATING WRITING AND DESIGN
- ENGCOMP 0530 - WRITING FOR THE SCIENCES

- ENGCOMP 0535 - WRITING IN THE HEALTH SCIENCE PROFESSIONS
- ENGCOMP 0550 - TOPICS IN PUBLIC/PROFESSIONAL WRITING
- ENGCOMP 0560 - WRITING ARGUMENTS
- ENGCOMP 0600 - INTRODUCTION TO TECHNICAL WRITING
- ENGCOMP 0610 - COMPOSING DIGITAL MEDIA
- ENGCOMP 0620 - THEORIES OF WRITING AND TEACHING
- ENGCOMP 0641 - WRITING FOR CHANGE
- ENGCOMP 1100 - LANGUAGE OF BUSINESS AND INDUSTRY
- ENGCOMP 1101 - LANGUAGE OF SCIENCE AND TECHNOLOGY
- ENGCOMP 1102 - LANGUAGE OF MEDICINE
- ENGCOMP 1103 - PUBLIC RELATIONS WRITING
- ENGCOMP 1104 - CORPORATE STORYTELLING
- ENGCOMP 1111 - PROFESSIONAL WRITING IN GLOBAL CONTEXTS
- ENGCOMP 1112 - PROFESSIONAL USES OF SOCIAL MEDIA
- ENGCOMP 1151 - PROFESSIONAL EDITING IN CONTEXT
- ENGCOMP 1200 - ADVANCED TOPICS IN COMPOSITION
- ENGCOMP 1210 - TUTORING PEER WRITERS
- ENGCOMP 1220 - THE ART OF THE ESSAY
- ENGCOMP 1250 - ADVANCED TOPICS PUBLIC/PROFESSIONAL WRITING
- ENGCOMP 1400 - GRANT WRITING FOR NONPROFITS
- ENGCOMP 1410 - ADVANCED RESEARCH/DOCUMENTARY WRITING
- ENGCOMP 1510 - WRITING WITH STYLE
- ENGCOMP 1551 - HISTORY AND POLITICS OF THE ENGLISH LANGUAGE
- ENGCOMP 1552 - LANGUAGE, LITERACY, LEARNING
- ENGCOMP 1900 - INTERNSHIP: PUBLIC/PROFESSIONAL WRITING
- ENGCOMP 1901 - UTA IN TEACHING AND TUTORING WRITING
- ENGCOMP 1902 - INDEPENDENT STUDY PUBLIC PROFESSIONAL WRITING
- ENGCOMP 1903 - SERVICE-LEARNING SEMINAR IN PUBLIC AND PROFESSIONAL WRITING
- ENGCOMP 1910 - BRIDGE SEMINAR

Minor

Creative Writing Minor

As one of the oldest writing programs in the United States, the Writing Program at the University of Pittsburgh has an excellent record of not only producing talented creative writers but also developing the writing skills of undergraduates who go on to work in a variety of professions, including journalism, education, law, and publishing. The minor in Creative Writing fulfills a need that is different from the Certificate in Professional Writing, with its particular focus on writing in business, non-profit, and legal environments, and the Writing Major, which requires a more substantial commitment of time and study.

Before declaring the minor in Creative Writing, students must complete an English Composition course (ENGCOMP 0200, ENGCOMP 0203, ENGCOMP 0205, ENGCOMP 0207, or ENGCOMP 0208) to develop the skills necessary for effectively reading and writing at the college level. Students must take ENGWRIT 0400 - INTRODUCTION TO CREATIVE WRITING.

This minor requires students to complete 18 credits of coursework as follows.

One of the following groups of courses.

Fiction

- ENGWR 0520 - INTRODUCTION TO FICTION WRITING
- ENGWR 1010 - INTERMEDIATE FICTION
- ENGWR 1094 - READINGS IN CONTEMPORARY FICTION

Poetry

- ENGWR 0530 - INTRODUCTION TO POETRY WRITING
- ENGWR 1210 - POETRY WORKSHOP
- ENGWR 1290 - READINGS IN CONTEMPORARY POETRY

Nonfiction

- ENGWR 0610 - INTRODUCTION TO JOURNALISM AND NONFICTION
- ENGWR 1330 - INTERMEDIATE NONFICTION: SCENE AND POINT-OF-VIEW
- ENGWR 1390 - READINGS IN CONTEMPORARY NON-FICTION

Two of the following courses.

- ENGWR 0520 - INTRODUCTION TO FICTION WRITING
- ENGWR 0530 - INTRODUCTION TO POETRY WRITING
- ENGWR 0610 - INTRODUCTION TO JOURNALISM AND NONFICTION
- ENGWR 1090 - MASTERING POINT OF VIEW
- ENGWR 1091 - AUTOBIOGRAPHY AND CREATIVE IMPULSE
- ENGWR 1092 - WRITER'S JOURNALS
- ENGWR 1293 - TOPICS IN POETRY
- ENGWR 1399 - TOPICS IN NON-FICTION: NEWSPAPER
- ENGWR 1403 - TOPICS IN NON-FICTION: ELECTRONIC MEDIA
- ENGWR 1650 - PLAYWRITING 1

English Literature Minor

An undergraduate minor in English literature would help students in a variety of majors to represent significant expertise they have accrued in this field on their transcripts. The structure of the minor will also help direct students with a significant interest in English literature to sequences and sets of courses that are designed to develop their interest; they can take a mini-curriculum rather than just a smattering of electives. A minor in English literature is a desirable supplement to many degrees across the Dietrich School because it provides insights into cultural traditions and practices, develops students' abilities to write analytic arguments, and promotes critical thinking.

The minor consists of 18 credits and comprises the following courses.

- ENGLIT 0505 - HOW TO DO THINGS WITH LITERATURE 1

- ENGLIT 0506 - LITERARY FIELD STUDIES
- Two elective courses at the 0500-level or above
- Two elective courses at the 1000-level or above
- ENGLIT 1900 - PROJECT SEMINAR is recommended but not required.

Film and Media Studies Program

While film studies is not a department, it is an interdisciplinary program and an administrative unit offering both a major and a minor in film studies. Film is one of the major cultural forms of the 20th century, and its study has become an important part of a modern humanities education. At the University of Pittsburgh, the Film and Media Studies Program provides a series of interdisciplinary courses concerning the history, aesthetics, theory, and production of cinema. The program provides courses in critical studies, film, photography, and video production. A major in Film and Media Studies helps students to understand and appreciate the cinematic medium and to be aware of its impact as a cultural and artistic force. It is also appropriate for students who wish to pursue careers in film teaching, film journalism, film museum curatorial work, film library and archival work, and film and television production. As part of the Film and Media Studies Program, internships are made available to students in many of these fields. In the past, students have done internships at the Carnegie Museum of Art, the Pittsburgh Film Office, Pittsburgh Filmmakers, and various television stations.

Various options are available to students interested in Film and Media Studies. For those students who wish to make film studies the primary focus of their undergraduate program, it is possible to pursue an interdisciplinary major in Film and Media Studies. For those students who wish to major in another area but desire a focus in film studies, a minor in Film and Media Studies is available. In addition, many students choose to take elective courses in film studies as part of their undergraduate curriculum.

For more information on the film studies major, see www.filmstudies.pitt.edu/.

Certificate

Television and Broadcast Arts Certificate

The Television and Broadcast Arts Certificate will allow students to professionalize and credential themselves in a visible way by developing broad competencies in broadcast along with an understanding of critical issues in broadcast/television. In addition, students may cluster their courses in a variety of ways to allow critical and practical development in specific areas, whether in front of, behind or in support of the camera.

Students will complete the course of study to attain competency in key broadcast areas as well as the application of critical concepts to their broadcast practices in the area in which they have self-selected to concentrate. Students will have an opportunity to display their work in the spring term and participate in professional workshops, including interactive sessions with industry professionals. These materials will constitute part of an online resumé or reel highlighting a students' experiences, skills, and interests while developing professional credentials.

The certificate program requires 18 credits, described as follows. At least nine of the credits must be taken at the 1000-level or above.

Required courses

All of the following courses are required for the certificate.

- COMMRC 0320 - MASS COMMUNICATION AND SOCIETY

- ENGFLM 1752 - TELEVISION ANALYSIS or
- FMST 1508 - TELEVISION ANALYSIS
- FMST 1885 - BROADCASTING

Electives

Select three courses from the following list. No more than two elective courses may be from the same department.

- COMMRC 0520 - PUBLIC SPEAKING
- COMMRC 0575 - INTRODUCTION TO RADIO PRODUCTION
- COMMRC 1105 - TELEVISION AND SOCIETY
- COMMRC 1121 - HISTORY OF MASS MEDIA
- COMMRC 1122 - MEDIA CRITICISM
- COMMRC 1126 - MEDIA AND CONSUMER CULTURE
- ENGCOMP 0420 - WRITING FOR THE PUBLIC
- ENGCOMP 1401 - WRITING FOR FUNDRAISING AND DEVELOPMENT
- ENGFLM 0355 - VISUAL LITERACY /FMST 0100 - VISUAL LITERACY
OR
- ENGFLM 0401 - IMAGES, ICONS, AND IDEAS /FMST 0130 - IMAGES, ICONS, AND IDEAS
- ENGFLM 0585 - TECHNOLOGIES OF THE BODY /FMST 0790 - TECHNOLOGIES OF THE BODY
- ENGFLM 1683 - KEEPING IT REAL: DOCUMENTARY FILM AND NONFICTION /FMST 1540 - DOCUMENTARY FILM
- ENGVRT 0610 - INTRODUCTION TO JOURNALISM AND NONFICTION
- ENGVRT 0710 - INTRO TO AUDIO STORYTELLING
- ENGVRT 1330 - INTERMEDIATE NONFICTION: SCENE AND POINT-OF-VIEW
- ENGVRT 1360 - THE ART OF THE INTERVIEW
- ENGVRT 1393 - SPORTS WRITING
- ENGVRT 1490 - LISTENING TO NARRATIVE AUDIO
- ENGVRT 1750 - SENIOR SEMINAR IN NONFICTION
- FMST 0800 - FILMMAKING 1: FUNDAMENTALS
- FMST 0835 - ELEMENTS OF AUDIO PRODUCTION
- FMST 1740 - MAKING THE DOCUMENTARY
- FMST 1855 - DIRECTING MOTION PICTURES
- FMST 1870 - ACTING FOR THE CAMERA
- FMST 1875 - SOUND FOR MOTION PICTURES
- FMST 1886 - BROADCASTING 2
- FMST 1890 - THE BUSINESS OF BROADCASTING
- FMST 1893 - HUMAN INTEREST STORIES FOR BROADCAST

Additional information

Grade Requirements

A minimum letter grade of C is required in each course that counts toward the certificate.

Satisfactory/No Credit Option

There is no limit to the number of courses that may be taken on the S/NC basis for this certificate.

Major

Film and Media Studies, BA

The study of film and media is an important part of a contemporary humanities education. At the University of Pittsburgh, the Film and Media Studies Program offers interdisciplinary courses concerning the history, aesthetics, and theory of cinema and time-based media and courses in film and video production.

A major in film and media studies helps students to understand and appreciate the cinematic medium and to be aware of its impact as a cultural and artistic force. It is appropriate for those students who wish to pursue careers in film teaching, film exhibition, film journalism, film museum curatorial work, film library and archive work, and film and television production. As part of the Film and Media Studies Program, internships are available to students in many of these fields at locations including local television stations, Pitt Studios, Pittsburgh-based film festivals, casting agencies, and museums. Critical Studies and Film and Media Production tracks alike provide liberal arts educations with professional outcomes.

Critical Studies track requirements

Critical Studies courses

- ENGFLM 0530 - FILM ANALYSIS
- ENGFLM 0540 - WORLD FILM HISTORY
- ENGFLM 1920 - ADVANCED SEMINAR IN FILM STUDIES

Production course

Students must take one of the following production courses.

- FMST 0800 - FILMMAKING 1: FUNDAMENTALS
- ENGCOMP 0610 - COMPOSING DIGITAL MEDIA
- SA 0180 - PHOTO STUDIO 1

National Cinemas or Filmmakers courses

Two courses must be chosen from the above category as listed on the back of this sheet.

Themes/Genres/Theory courses

Two courses must be chosen from the above category as listed on the back of this sheet.

Elective courses

Four courses must be chosen from the three categories listed on the back of this sheet.

Important Course notes

No more than five production courses may be counted toward the major, although additional production courses can be taken as electives toward graduation.

One three-credit internship can be counted in the production category toward the major.

Production track requirements

Foundational course

- FMST 0800 - FILMMAKING 1: FUNDAMENTALS

Screenwriting course

- FMST 1860 - ELEMENTS OF SCREENWRITING

Production course

Select one of the following courses.

- FMST 0845 - FILMMAKING 2: SIGHT AND SOUND
- SA 1380 - DIGITAL STUDIO: VIDEO

Capstone course

- FMST 1921 - FILM AND MEDIA STUDIES PRODUCTION CAPSTONE

Technical elective course; choose two courses

- ENGWR 0560 - SCREENWRITING AND NARRATIVE / FMST 0700 - SCREENWRITING AND NARRATIVE
- FMST 0780 - INTRODUCTION TO AUDIO STORYTELLING
- FMST 0826 - POST-PRODUCTION
- FMST 0827 - ADVANCED EDITING
- FMST 0835 - ELEMENTS OF AUDIO PRODUCTION
- FMST 0850 - DIGITAL EFFECTS 1
- FMST 0855 - TOPICS IN PRODUCTION
- FMST 1197 - MOVING IMAGE EDITING

- FMST 1777 - DIGITAL STUDIO: ANIMATION or

- SA 1385 - DIGITAL STUDIO: ANIMATION
- FMST 1817 - LIGHTING FOR MOTION PICTURES
- FMST 1846 - FILMMAKING 3: STORY TO SCREEN
- FMST 1847 - CREW PRODUCTION PRACTICUM
- FMST 1852 - DIRECTING ACTORS
- FMST 1855 - DIRECTING MOTION PICTURES
- FMST 1862 - INTERMEDIATE SCREENWRITING
- FMST 1865 - WRITING THE ORIGINAL SERIES
- FMST 1875 - SOUND FOR MOTION PICTURES
- FMST 1880 - DIGITAL CINEMATOGRAPHY
- FMST 1886 - BROADCASTING 2
- FMST 1898 - TELEVISION NEWS PRACTICUM: PITT TO THE POINT
- FMST 1899 - THE FRONT BENCH

Topical elective courses; choose two courses

- ENGFLM 0585 - TECHNOLOGIES OF THE BODY /FMST 0790 - TECHNOLOGIES OF THE BODY
- ENGFLM 0712 - CRITICAL MAKING / FMST 0760 - CRITICAL MAKING
- ENGFLM 1671 - MAKING THE DOCUMENTARY / FMST 1740 - MAKING THE DOCUMENTARY
- ENGFLM 1672 - VISITING FILMMAKER: PRODUCTION AND CRITICISM /FMST 1720 - VISITING FILMMAKER: PRODUCTION AND CRITICISM
- ENGFLM 1684 - MOCKUMENTARY: PRODUCTION AND CRITICISM / FMST 1715 - MOCKUMENTARY: PRODUCTION AND CRITICISM
- ENGFLM 1752 - TELEVISION ANALYSIS / FMST 1508 - TELEVISION ANALYSIS
- ENGFLM 1930 - INTERNSHIP IN FILM / FMST 1900 - INTERNSHIP IN FILM AND MEDIA STUDIES
- FMST 1750 - CREATIVE PRODUCTION WORKSHOP
- ENGWRIT 0560 - SCREENWRITING AND NARRATIVE / FMST 0700 - SCREENWRITING AND NARRATIVE
- FMST 0833 - PRODUCING: FILM, TELEVISION AND OTHER MEDIA
- FMST 1196 - DIGITAL MEDIA PRACTICE
- FMST 1546 - EXPERIMENTAL CINEMA
- FMST 1549 - INDUSTRIES AND FESTIVALS: FILM AND MEDIA
- FMST 1765 - VIRTUAL REALITY
- FMST 1781 - LISTENING TO NARRATIVE AUDIO
- FMST 1883 - EXPERIMENTAL CAMERA
- FMST 1885 - BROADCASTING
- FMST 1890 - THE BUSINESS OF BROADCASTING
- FMST 1893 - HUMAN INTEREST STORIES FOR BROADCAST

Critical Studies courses

One course from each of the following pairs of courses.

- ENGFLM 0530 - FILM ANALYSIS or
- FMST 0150 - FILM ANALYSIS
- ENGFLM 0540 - WORLD FILM HISTORY or

- FMST 0170 - WORLD FILM HISTORY

Two category courses

Students must take two courses from either the **National Cinemas or Film** or the **Themes, Genres, or Theory** category listed below.

National Cinemas or Film courses

- CHIN 1059 - ADAPTED FOR THE SCREEN: CHINESE LITERATURE AND FILM
- CHIN 1084 - MASTERPIECES OF CHINESE LITERATURE: MODERN
- CHIN 1085 - INTRODUCTION TO EAST ASIAN CINEMA
- CHIN 1088 - NEW CHINESE CINEMA
- CHIN 1089 - THE WORLD OF CHINA
- ENGFLM 1190 - BRITISH FILM
- ENGFLM 1192 - IRISH FILM
- ENGFLM 1226 - EASTERN EUROPEAN COMMUNISM AT THE MOVIES
- ENGFLM 1290 - AMERICAN FILM 1
- ENGFLM 1291 - AMERICAN FILM 2
- ENGFLM 1390 - CONTEMPORARY FILM
- ENGFLM 1410 - BOLLYWOOD AND INDIAN CINEMA
- ENGFLM 1420 - TRANSNATIONAL EAST ASIAN CINEMAS
- ENGFLM 1470 - FILM DIRECTORS
- ENGFLM 1471 - ORSON WELLES
- ENGFLM 1472 - HITCHCOCK'S FILMS
- ENGFLM 1473 - SPIKE LEE
- ENGFLM 1476 - THE FILMS OF STANLEY KUBRICK
- ENGFLM 1670 - GLOBAL ANIME
- FMST 0301 - HISTORY OF ITALIAN CINEMA
- FMST 0303 - ITALIAN CINEMA ICONS
- FMST 1331 - JEWS AND THE AMERICAN CINEMA
- HAA 1806 - AMERICAN INDEPENDENT FILM
- HIST 1226 - EASTERN EUROPEAN COMMUNISM AT THE MOVIES
- ITAL 0086 - ITALIAN CINEMA
- ITAL 0088 - ITALIAN AMERICA ON SCREEN
- ITAL 1089 - SPECIAL TOPICS
- JPNSE 1057 - JAPANESE CULTURE AND SOCIETY THROUGH CINEMA
- POLISH 0870 - CONTEMPORARY POLISH CINEMA: LITERATURE ON FILM
- RUSS 0870 - RUSSIAN FILM: EISENSTEIN AND COMPANY
- RUSS 0871 - RUSSIAN FILM STALIN TO PUTIN
- SLOVAK 0890 - SLOVAK, CZECH, AND CENTRAL EUROPEAN FILM
- SPAN 1404 - LATIN AMERICAN TOPICS
- SPAN 1407 - U.S. LATINO FILM
- SPAN 1603 - PENINSULAR TOPICS

Themes, Genres, or Theory

- ENGFLM 0400 - INTRODUCTION TO FILM or
- ENGFLM 0401 - IMAGES, ICONS, AND IDEAS
- ENGFLM 0520 - FILM THEORY
- ENGFLM 0532 - INTRODUCTION TO FILM GENRES
- ENGFLM 0540 - WORLD FILM HISTORY
- ENGFLM 0570 - INTRODUCTION TO NEW MEDIA
- ENGFLM 0812 - MEDIA/ECOLOGY
- ENGFLM 1391 - TOPICS IN CONTEMPORARY CINEMA
- ENGFLM 1479 - CHILDREN AND MEDIA
- ENGFLM 1480 - TOPICS IN FILM
- ENGFLM 1481 - TEEN FILM
- ENGFLM 1482 - THE STAR SYSTEM AND THE MOVIES
- ENGFLM 1483 - FILM SOUND
- ENGFLM 1485 - FILM AND POLITICS
- ENGFLM 1487 - FILM CENSORSHIP AND AMERICAN CULTURE
- ENGFLM 1489 - CULT FILM
- ENGFLM 1610 - TOPICS IN GENRE
- ENGFLM 1613 - TOPICS IN FILM GENRE AND THEME
- ENGFLM 1615 - THE WAR FILM
- ENGFLM 1680 - ANIMATION STUDIES
- ENGFLM 1681 - FILM COMEDY
- ENGFLM 1683 - KEEPING IT REAL: DOCUMENTARY FILM AND NONFICTION
- ENGFLM 1685 - FILM MUSICAL
- ENGFLM 1688 - FILM WESTERN
- ENGFLM 1695 - HORROR FILM
- ENGFLM 1696 - FILM NOIR
- ENGFLM 1699 - SCIENCE FICTION FILM
- ENGFLM 1703 - GENDER AND FILM
- ENGFLM 1752 - TELEVISION ANALYSIS
- ENGFLM 1760 - CINEMA AND VIDEO GAMES
- ENGFLM 1790 - FILM AND LITERATURE
- ENGFLM 1920 - ADVANCED SEMINAR IN FILM STUDIES
- FMST 1417 - Queer Cinemas
- FMST 1549 - INDUSTRIES AND FESTIVALS: FILM AND MEDIA

- FMST 1921 - FILM AND MEDIA STUDIES PRODUCTION CAPSTONE

- SA 0180 - PHOTO STUDIO 1

Additional Rules and Requirements

ENGFLM 0530 and ENGFLM 0540

The Film and Media Studies program recommends that students complete ENGFLM 0530 - FILM ANALYSIS and ENGFLM 0540 - WORLD FILM HISTORY or their equivalents prior to taking any 1000-level film courses.

Production courses

No more than five production courses may be counted toward the Critical Studies track in the major. Additional production courses may be taken to meet the minimum credit requirement for graduation.

Grade requirements

A minimum GPA of 2.0 in departmental courses is required for graduation.

Satisfactory/No Credit option

No more than three courses that count toward the major can be taken on an S/NC basis.

Internship

Only one 3-credit film internship can be counted toward the major.

Writing requirement

Students must complete at least one W-course in the major.

Minor

Film and Media Studies Minor

In the spring of 2018, the Film Studies minor was renamed to Film and Media Studies minor. Students who were enrolled prior to the Spring 2018 term have the option to stay Film Studies minor or change to the Film and Media Studies minor. They will have until the end of the Fall 2017 term to choose to complete the program under the current name. Students who choose to complete their program under the current name must do so by Summer 2020 term. There are no program requirement changes.

Required Courses

Two Critical Studies Courses

- ENGFLM 0530 - FILM ANALYSIS
- ENGFLM 0540 - WORLD FILM HISTORY

Four Elective Courses

Elective courses must be taken from at least two of the three categories:

- National Cinemas or Film
- Themes, Genres, or Theory
- Production

No more than two courses can be taken from the **Production** category.

National Cinemas or Film courses

- CHIN 1059 - ADAPTED FOR THE SCREEN: CHINESE LITERATURE AND FILM
- CHIN 1084 - MASTERPIECES OF CHINESE LITERATURE: MODERN
- CHIN 1085 - INTRODUCTION TO EAST ASIAN CINEMA

- SA 0180 - PHOTO STUDIO 1

Note:

Only one elective course for the minor can be taken on an S/NC basis. Half of the courses for the minor must be taken at Pitt. Students pursuing the minor must meet with the film studies advisors to check their progress. Courses taken at other schools must be approved.

Department of French and Italian

A major in French and/or Italian gives students at the University of Pittsburgh the opportunity to study a second language in detail and to acquire an education in a literary and cultural tradition central to the humanities. Studying French and/or Italian language and literature prepares students for graduate study in law and international affairs; advanced work in the humanities; and careers in business, governmental service, and teaching. The University is committed to international study, and students are encouraged to take advantage of the numerous opportunities to study abroad. Students can also combine a major in French and/or Italian with a second major in a field such as political science, history, biology, or economics. Students who choose to study the grammar, linguistics, rhetoric, literature, and film of Italy and/or the Francophone world will acquire an invaluable technical resource and an in-depth knowledge of a diverse and foundational intellectual tradition. Students may also minor in French and/or Italian. For more information on the Department of French and Italian Languages and Literatures, see our Web site at www.frenchanditalian.pitt.edu.

Certificate

Medieval and Renaissance Studies Certificate

In spite of change through the centuries and variations of a regional and national character, the millennium preceding the deaths of Shakespeare and Cervantes in 1616 is marked by a coherence sufficient to justify considering it as a cultural entity, worthy of study for its humanistic qualities and for its importance in preparing the modern world. Some of the principal aims of the Medieval and Renaissance Studies Program are:

- to identify and explore aspects of medieval and Renaissance cultures that are an important part of our own cultural heritage;
 - to promote an understanding of our medieval and Renaissance ancestors through the investigation of the ways they faced the issues of their day, asked questions of their institutions, and were conscious of themselves and the world around them;
 - to help students understand historical relativity by showing them how different periods and individuals have understood the Middle Ages and Renaissance in very different ways; and
 - to provide the basis for an open-minded attitude toward any culture that is different from our own.
- In consultation with a program advisor (who may be a member of the Executive Committee, one of the departmental representatives, or another faculty member specializing in the area), the candidate will define an area of interest and

organize a program of courses in relation to it. In designing a certificate program, students are urged to keep in mind the aims of the program as described above. For more information, see <http://www.medren.pitt.edu/>.

Requirements

The certificate requires 15 credits. At least nine credits will be earned in 1000-level courses.

- One of the five courses must be focused on the medieval period; see the list of qualifying courses at www.medren.pitt.edu/undergraduate-certificates/overview.php
 - One of the five courses must be focused on the Renaissance period; see the list of qualifying courses at www.medren.pitt.edu/undergraduate-certificates/overview.php
- The student must take at least two courses from each category. Courses should not be chosen at random but should follow a pattern of interrelated studies worked out with a Program Advisor from one of the cooperating Departments or with the Director of Medieval and Renaissance Studies. The categories are:

- language and literature, the visual arts, and music; and
- social, intellectual, economic, and ideological history (including philosophy, religious studies, the history of science and the study of institutions).

A strong recommendation, beyond these requirements, is that certificate candidates acquire a reading knowledge of a modern European language as early as possible. In addition, Latin is suggested for those who plan to do graduate work in the field.

Major

French, BA

A major in French gives students the opportunity to study in detail a foreign language and to acquire an education in a literary and cultural tradition central to the humanities. Studying French language and literature prepares students for graduate study in law and international affairs, advanced work in the humanities, and careers in business, government service, and teaching. Students are encouraged to take advantage of the numerous opportunities to study abroad. They can combine a major in French with a second major in a field such as political science, history, biology, or economics. Students who choose to study the grammar, linguistics, rhetoric, literature, and film of the Francophone world will acquire an invaluable technical resource and an in-depth knowledge of a diverse and foundational intellectual tradition.

Requirements

Majors in French must have completed two years of college work or the equivalent before beginning core courses. The French major consists of at least 31 credits above the intermediate level. Elementary French language courses (FR 0101 and FR 0102) do not count toward the major. Required credits follow.

- FR 0220 - LA FRANCE AUJOURD'HUI
- FR 0221 - READING FRENCH: LITERATURE, MEDIA, CULTURE
- FR 0227 - THE FRENCH ATLANTIC
- FR 0255 - SPEAKING FRENCH: ATELIER D'EXPRESSION ORALE
- FR 0256 - WRITING FRENCH: ATELIER D'EXPRESSION ECRITE
- FR 0258 - ADVANCED FRENCH CONVERSATION

Note

Majors are expected to take one credit of FR 0258 - ADVANCED FRENCH CONVERSATION, but they may take two additional credits of the course as a nonmajor elective.

Additional requirements

In addition to the basic requirements, the following criteria must be met by French majors:

- Once the basic requirements are met, students will, in consultation with their advisor, design a program that corresponds to their needs, but they must take an additional 15 credits at the 1000 level. Twelve credits must be in courses taught in French. Intermediate language courses (FR 0003 and FR 0004) may be used to fulfill this requirement.
- French majors may take one course above 0004, in addition to 0058, on an S/NC option.
- Although study abroad is not a requirement for the major in French, students are strongly encouraged to consider participating in a study-abroad program in a French-speaking country during their undergraduate career.
- Students must complete at least one W course within the major.
The Dietrich School requires 12 credits in a related area to be chosen in consultation with the program advisor. This requirement can also be met by completing an official minor in another area.

French and Italian Major Requirements

The following requirements apply to French, Italian, and Italian Studies majors:

- Students are required to maintain at least a 2.00 GPA in major courses.
- Reading competency in at least one other language is recommended for students interested in graduate school.
- To earn departmental honors, students must major in French, Italian, or Italian Studies; demonstrate superior performance in departmental courses; and be enrolled in 1000-level French/Italian courses no later than the first term of the junior year. Selection of honors candidates takes place only in the second term of the junior year. During the senior year, two appropriate sequential courses are chosen in consultation with the major advisor, and a research paper must be completed. The paper must be defended before a faculty committee. Honors will be determined by the quality of the paper and the defense, as well as the cumulative grades in all departmental courses counting toward the major.

Italian Studies, BA

French and Italian Major Requirements

The following requirements apply to French, Italian, and Italian Studies majors:

- Students are required to maintain at least a 2.00 GPA in major courses.
- Reading competency in at least one other language is recommended for students interested in graduate school.
- To earn departmental honors, students must major in French, Italian, or Italian Studies; demonstrate superior performance in departmental courses; and be enrolled in 1000-level French/Italian courses no later than the first term of the junior year. Selection of honors candidates takes place only in the second term of the junior year. During the senior year, two appropriate sequential courses are chosen in consultation with the major advisor, and a research paper must be completed. The paper must be defended before a faculty committee. Honors will be determined by the quality of the paper and the defense, as well as the cumulative grades in all departmental courses counting toward the major.

Requirements

The Italian Studies major promotes the cross-discipline exploration of a variety of areas relating to Italian and Italian American culture: language, literature, theatre, cinema, art and architecture, music, history, social and immigration history, politics and political theory. Students can combine a major in Italian Studies with a second major in a field such as political science, history, anthropology, history of art and architecture, music, English, business, linguistics or another foreign language.

After one term of college instruction in the Italian language (ITAL 0101 - ITALIAN LANGUAGE AND CULTURE 1 or equivalent as determined by placement testing), students may enroll in ITAL 0102 - ITALIAN LANGUAGE AND CULTURE 2 for credit toward the major.

This major requires 36 credits for completion. ITAL 0101 does not count toward the major.

Core courses

- ITAL 0081 - MADE IN ITALY:INGENUITY, SINGULARITY, STYLE
- ITAL 0102 - ITALIAN LANGUAGE AND CULTURE 2
- ITAL 0103 - ITALIAN LANGUAGE AND CULTURE 3
- ITAL 0115 - MULTIMEDIA ITALY

Note

Because ITAL 0081 is taught in English and has no prerequisites, the department recommends that students interested in majoring in Italian take this course as early in their studies as possible.

Additional Requirements

Students must complete five courses in addition to the core courses listed above. At least three of these additional courses must be at the 1000-level, and at least two of these courses must be offered by the Italian program. The remaining courses can be selected from a list of approved offerings in other departments, chosen in consultation with the major advisor. Italian Studies majors are encouraged to continue their study of the Italian language to the greatest extent possible.

At least one of the 1000-level courses must be a writing-intensive course taught in Italian. The following courses meet this requirement.

- ITAL 1032 - INTRODUCTION TO ITALIAN LINGUISTICS
- ITAL 1041 - ITALIAN THEATRICAL WORKSHOP
- ITAL 1065 - SONGS OF THE ITALIAN SELF: ITALIAN LYRIC POETRY
- ITAL 1080 - LETTERATURA DI VIAGGIO: MOBILITIES IN ITALIAN LITERATURE
- ITAL 1083 - MODERN ITALIAN LITERATURE

Capstone course

Students must complete a 1-credit capstone course. The details of the capstone experience should be determined in consultation with the major advisor.

Italian, BA

French and Italian Major Requirements

The following requirements apply to French, Italian, and Italian Studies majors:

- Students are required to maintain at least a 2.00 GPA in major courses.
- Reading competency in at least one other language is recommended for students interested in graduate school.
- To earn departmental honors, students must major in French, Italian, or Italian Studies; demonstrate superior performance in departmental courses; and be enrolled in 1000-level French/Italian courses no later than the first term of the junior year. Selection of honors candidates takes place only in the second term of the junior year. During the senior year, two appropriate sequential courses are chosen in consultation with the major advisor, and a research paper must be completed. The paper must be defended before a faculty committee. Honors will be determined by the quality of the paper and the defense, as well as the cumulative grades in all departmental courses counting toward the major.

Requirements

After one term of college instruction in the Italian language (ITAL 0101 - ITALIAN LANGUAGE AND CULTURE 1 or equivalent, as determined by placement test results), students may enroll in ITAL 0102 - ITALIAN LANGUAGE AND CULTURE 2 for credit toward the Italian major.

This major requires 36 credits for completion. ITAL 0101 does not count toward the major.

- ITAL 0081 - MADE IN ITALY:INGENUITY, SINGULARITY, STYLE
- ITAL 0102 - ITALIAN LANGUAGE AND CULTURE 2
- ITAL 0103 - ITALIAN LANGUAGE AND CULTURE 3
- ITAL 0115 - MULTIMEDIA ITALY

Note

Because ITAL 0081 is taught in English and has no prerequisites, the department recommends that students interested in majoring in Italian take this course as early in their studies as possible.

Additional Requirements

Students must complete five courses in addition to the core courses listed above. At least three of these additional courses must be at the 1000-level and be taught in Italian.

1. Courses in the ITAL 1030 to ITAL 1068 range are taught in Italian regularly.
2. Some lower-level courses and upper-level courses in the ITAL 1070 to ITAL 1092 range are taught in English regularly.
3. At least one of the 1000-level courses must be a writing-intensive course taught in Italian. The following courses meet this requirement.
 - ITAL 1032 - INTRODUCTION TO ITALIAN LINGUISTICS
 - ITAL 1041 - ITALIAN THEATRICAL WORKSHOP
 - ITAL 1065 - SONGS OF THE ITALIAN SELF: ITALIAN LYRIC POETRY
 - ITAL 1080 - LETTERATURA DI VIAGGIO: MOBILITIES IN ITALIAN LITERATURE
 - ITAL 1083 - MODERN ITALIAN LITERATURE

Capstone course

Students must complete a 1-credit capstone course. The details of the capstone experience should be determined in consultation with the major advisor.

Minor

French Minor

Students pursuing this minor must choose either the French Language and Literature track or the French Studies track.

French and Italian minor requirements

The Department of French and Italian Languages and Literatures offers three tracks within its minor offerings: French Language and Literature; French Studies; and Italian. Students must apply for any official minor they will complete or have completed by the time they apply for graduation.

Students pursuing a minor offered by the Department of French and Italian Languages and Literatures may not take any courses on the Satisfactory/No Credit (S/NC) basis.

French Language and Literature track

Students can complete the French Language and Literature track by completing five courses chosen from the following list. Only one of the courses may be taught in English. Students whose programs will include two or more courses taught in English should follow the French Studies minor requirements.

In addition to the listed courses, students may also take courses on literary, cultural, or linguistic topics taught in French. These courses include FR 1001 through FR 1076.

- FR 0006 - SPECIAL TOPICS IN CONVERSATION AND CULTURE
- FR 0012 - FRENCH KISS: LOVE, SEX, FRANCE
- FR 0014 - INTRODUCTION TO FRENCH-SPEAKING CANADA
- FR 0016 - HISTORY OF FRENCH CINEMA
- FR 0080 - MODERN FRENCH NOVEL
- FR 0103 - INTERMEDIATE FRENCH 1
- FR 0104 - INTERMEDIATE FRENCH 2: FRENCH IN A GLOBAL CONTEXT
- FR 0220 - LA FRANCE AUJOURD'HUI
- FR 0221 - READING FRENCH: LITERATURE, MEDIA, CULTURE
- FR 0227 - THE FRENCH ATLANTIC
- FR 0255 - SPEAKING FRENCH: ATELIER D'EXPRESSION ORALE
- FR 0256 - WRITING FRENCH: ATELIER D'EXPRESSION ECRITE
- FR 1085 - WOMEN'S VOICES IN FRENCH LITERATURE
- FR 1088 - SPECIAL TOPICS

French Studies track

Students can complete the French Studies track in the French minor with five courses chosen from the following list.

In addition to the listed courses, students may also take courses on literary, cultural, or linguistic topics taught in English or French. These courses include FR 1001 through FR 1090.

- FR 0006 - SPECIAL TOPICS IN CONVERSATION AND CULTURE
- FR 0012 - FRENCH KISS: LOVE, SEX, FRANCE

- FR 0014 - INTRODUCTION TO FRENCH-SPEAKING CANADA
- FR 0103 - INTERMEDIATE FRENCH 1
- FR 0104 - INTERMEDIATE FRENCH 2: FRENCH IN A GLOBAL CONTEXT
- FR 0220 - LA FRANCE AUJOURD'HUI
- FR 0221 - READING FRENCH: LITERATURE, MEDIA, CULTURE
- FR 0227 - THE FRENCH ATLANTIC
- FR 0255 - SPEAKING FRENCH: ATELIER D'EXPRESSION ORALE

Italian Minor

Students may take any combination of five Italian (ITAL) courses to complete this minor. Each course must be at least three credits and must be taught on the Pittsburgh campus or through a Pitt in Italy program. Students minoring in Italian are encouraged to study the target language to the greatest extent allowed by their majors.

French and Italian minor requirements

The Department of French and Italian Languages and Literatures offers three tracks within its minor offerings: French Language and Literature; French Studies; and Italian. Students must apply for any official minor they will complete or have completed by the time they apply for graduation.

Students pursuing a minor offered by the Department of French and Italian Languages and Literatures may not take any courses on the Satisfactory/No Credit (S/NC) basis.

Gender, Sexuality, and Women's Studies Program

The Gender, Sexuality, and Women's Studies program at the University of Pittsburgh is an interdisciplinary academic program that is committed to promoting feminist and LGBTQIA activism, pedagogy, and scholarship that engage with the larger local, national, and global communities. Program offerings provide opportunities for students and faculty to explore the historical development, cultural variations, and changing representations of gender and sexuality as they organize identities, interactions, and institutions and intersect in complex ways with sex, race, class, ethnicity, ability, age, religion, and nation.

Bachelor Degree in Gender, Sexuality, and Women's Studies

The goals of this major are: to educate undergraduate students in the analysis and understanding of gender as a knowledge base and critical lens through which to read critically; to write and conduct research in disciplinary and interdisciplinary contexts; to begin to connect academic work with broader community interests; and to prepare students for graduate school and professional lives. The interdisciplinary nature of this major makes it ideal for students who wish to add breadth and depth to their studies in other disciplines.

Certificate in Gender, Sexuality, and Women's Studies

Students who pursue this certificate are those who plan careers in medicine, the creative arts, social work, education, counseling, law, therapy, academia, and business find that this program's courses enhance their professional activities. Still others report that the confidence and insight that they acquire in such courses enriches their lives regardless of

their particular career goals. For more information, please visit the Gender, Sexuality, and Women's Studies Program in 401 Cathedral of Learning or online at www.gsws.pitt.edu.

Certificate

Gender, Sexuality, and Women's Studies Certificate (Suspended)

This program is no longer active and accepting student applications, effective Fall 2016. Students currently enrolled in the certificate will either transfer to the new minor or complete the certificate by the end of Spring 2023.

The Gender, Sexuality, and Women's Studies program is an interdisciplinary academic program focusing on gender, sexuality, and women. Gender, Sexuality, and Women's Studies (GSWS) courses and cross-listed courses in various departments across the university provide opportunities for all students to broaden their understandings of the changing role of gender in the United States and globally. Students who want to explore the intersection of gender with race, class, ethnicity, nation, religion, ability, age, sex and sexuality will find courses of interest, as will students who want to know more about the role of women in history, in literature and the arts, in media and science. Students who plan careers in medicine, the creative arts, social work, education, counseling, law, therapy, academia, and business find that this program's courses enhance their professional activities. Still others report that the confidence and insight that they acquire in such courses enriches their lives regardless of their particular career goals. For more information, please visit the Gender, Sexuality, and Women's Studies Program in 401 Cathedral of Learning or online at www.gsws.pitt.edu.

Requirements

Please consult the Gender, Sexuality and Women's Studies Undergraduate Advisor to plan your program of study.

A minimum of 18-credits, completed with an overall GPA of 2.00 is required, as follows:

- GSWS 0100 - INTRODUCTION TO GENDER, SEXUALITY, AND WOMEN'S STUDIES
- One of the following, though students are encouraged to take both courses
- GSWS 0500 - INTRODUCTION TO FEMINIST THEORY
- GSWS 0550 - SEX AND SEXUALITIES
- Three elective courses from at least two different academic departments. GSWS may count as one of these programs. Courses must be approved for GSWS credit; consult the Course Descriptions Web site, www.courses.as.pitt.edu, for current listings
- At least one 1000-level course with a GSWS subject; a cross-listed course **will not** fulfill this requirement.

Major

Gender, Sexuality, and Women's Studies, BA

Major Requirements

The goals of this major are: to educate undergraduate students in the analysis and understanding of gender as a knowledge base and critical lens through which to read critically; to write and conduct research in disciplinary and interdisciplinary contexts; to begin to connect academic work with broader community interests; and to prepare students for graduate school and professional lives. The interdisciplinary nature of this major makes it ideal for students who wish to add breadth and depth to their studies in other disciplines. This major requires 30 credits, distributed as follows.

Core courses

- GSWS 0100 - INTRODUCTION TO GENDER, SEXUALITY, AND WOMEN'S STUDIES
- GSWS 0500 - INTRODUCTION TO FEMINIST THEORY
- GSWS 0550 - SEX AND SEXUALITIES

Two elective courses

choose one from each of the following groups

Group A

- GSWS 0200 - SEX, RACE, AND POPULAR CULTURE

Group B

- AFRCNA 0454 - MAN/WOMAN LITERATURE
- ANTH 0768 - ANTHROPOLOGY OF GENDER AND SEXUALITY
- ENGCMP 0203 - SEMINAR IN COMPOSITION: GENDER STUDIES
- ENGLIT 0610 - WOMEN AND LITERATURE
- ENGLIT 0630 - SEXUALITY AND REPRESENTATION
- FR 0012 - FRENCH KISS: LOVE, SEX, FRANCE
- GSWS 1140 - SPECIAL TOPICS
- Pitt in China, Pitt in London, etc.
- GSWS 1900 - INTERNSHIP (junior or senior only)
- PSY 0184 - PSYCHOLOGY OF GENDER
- SOC 0436 - SOCIAL ASPECTS OF SEXUALITY
- SOC 0446 - SOCIOLOGY OF GENDER
- Any course officially cross-listed with GSWS (check course offerings each semester for options)

Four upper-level courses

choose two from each group

Group A

- GSWS 1140 - SPECIAL TOPICS
- GSWS 1150 - TRANSNATIONAL FEMINISMS
- GSWS 1170 - QUEER THEORY
- GSWS 1180 - POLITICS OF GENDER AND FOOD
- GSWS 1190 - MASCULINITIES
- GSWS 1450 - GENDER AND SUSTAINABILITY

Group B

- LCJS 1550 - GENDER, RACE, CLASS AND CRIMINAL JUSTICE
- AFRCNA 1309 - WOMEN OF AFRICAN AND AFRICAN DIASPORA
- ANTH 1738 - GENDER PERSPECTIVES IN ANTHROPOLOGY
- COMMRC 1148 - RHETORIC AND HUMAN RIGHTS
- COMMRC 1160 - VISUAL RHETORIC
- ENGFLM 1703 - GENDER AND FILM
- ENGLIT 1704 - WOMEN NOVELISTS
- FR 1085 - WOMEN'S VOICES IN FRENCH LITERATURE
- HIST 1560 - WOMEN IN LATIN AMERICAN HISTORY
- LCJS 1583 - SEX, LAW AND MARRIAGE
- MUSIC 1398 - WOMEN & MUSIC CROSS-CULTL PERSP
- PS 1622 - "OUTSIDER POLITICS" : ANARCHIST, PUNK, QUEER, AND FEMINIST THEORY
- PSY 1110 - PSYCHOLOGICAL ASPECTS OF HUMAN SEXUALITY
- SOC 1413 - MARRIAGE
- SOC 1448 - WORKING WOMEN
- Any 1000-level course officially cross-listed with GSWS (check course offerings each semester for options)

Capstone

- GSWS 1910 - CAPSTONE

Grade requirements

A minimum GPA of 2.0 is required in those courses that count toward the major. Students must also have a minimum GPA of 2.0 in all GSWS courses. Students may have no more than six credits overlap with another major or certificate.

Writing (W) requirement

Students must complete at least one writing-intensive (W) course with the GSWS subject designation. Check the Course Descriptions Web site (www.courses.as.pitt.edu) each term for writing-intensive course options.

Minor

Gender, Sexuality, and Women's Studies Minor

The Gender, Sexuality, and Women's Studies program at the University of Pittsburgh is committed to promoting feminist and LGBTQIA activism, pedagogy, and scholarship that engage with the larger local, national, and global

communities. Program offerings provide opportunities for students to explore the historical development, cultural variations, and changing representations of gender and sexuality as they organize identities, interactions, and institutions and intersect in complex ways with sex, race, class, ethnicity, ability, age, religion, and nation.

The goals of this major are: to educate undergraduate students in the analysis and understanding of gender as a knowledge base and critical lens through which to read critically; to write and conduct research in disciplinary and interdisciplinary contexts; to begin to connect academic work with broader community interests; and to prepare students for graduate school and professional lives. The interdisciplinary nature of this major makes it ideal for students who wish to add breadth and depth to their studies in other disciplines.

Core courses

- GSWS 0100 - INTRODUCTION TO GENDER, SEXUALITY, AND WOMEN'S STUDIES
- GSWS 0500 - INTRODUCTION TO FEMINIST THEORY
- GSWS 0550 - SEX AND SEXUALITIES

Two elective courses from the following list

- AFRCNA 0454 - MAN/WOMAN LITERATURE
- ANTH 0768 - ANTHROPOLOGY OF GENDER AND SEXUALITY
- COMMRC 1148 - RHETORIC AND HUMAN RIGHTS
- COMMRC 1160 - VISUAL RHETORIC
- ENGCMP 0203 - SEMINAR IN COMPOSITION: GENDER STUDIES
- ENGFLM 1703 - GENDER AND FILM
- ENGLIT 0610 - WOMEN AND LITERATURE
- ENGLIT 0630 - SEXUALITY AND REPRESENTATION
- ENGLIT 1704 - WOMEN NOVELISTS
- FR 0012 - FRENCH KISS: LOVE, SEX, FRANCE
- FR 1085 - WOMEN'S VOICES IN FRENCH LITERATURE
- GSWS 0200 - SEX, RACE, AND POPULAR CULTURE
- GSWS 0300 - SPECIAL TOPICS
- GSWS 1140 - SPECIAL TOPICS *
- GSWS 1900 - INTERNSHIP
- MUSIC 1398 - WOMEN & MUSIC CROSS-CULTL PERSP
- PS 1622 - "OUTSIDER POLITICS" : ANARCHIST, PUNK, QUEER, AND FEMINIST THEORY
- PSY 0184 - PSYCHOLOGY OF GENDER
- PSY 1110 - PSYCHOLOGICAL ASPECTS OF HUMAN SEXUALITY
- SOC 0436 - SOCIAL ASPECTS OF SEXUALITY
- SOC 0446 - SOCIOLOGY OF GENDER
- SOC 1413 - MARRIAGE
- SOC 1448 - WORKING WOMEN

* This course cannot count toward both the elective and upper-level course requirement.

One upper-level course from the following list

- GSWS 1140 - SPECIAL TOPICS *
- GSWS 1150 - TRANSNATIONAL FEMINISMS

- GSWS 1170 - QUEER THEORY
- GSWS 1180 - POLITICS OF GENDER AND FOOD
- GSWS 1190 - MASCULINITIES
- GSWS 1210 - GENDER AND THE DIGITAL
- GSWS 1300 - WANDERLUST: SEX & GENDER IN GLOBAL TOURISM
- GSWS 1450 - GENDER AND SUSTAINABILITY
- GSWS 1910 - CAPSTONE

Note:

Students must apply for any official minor they will complete or have completed at the time they apply for graduation. They should declare their minor as soon as possible with the Office of the Associate Dean for Undergraduate Studies, Dietrich School of Arts and Sciences, 140 Thackeray Hall.

LGBTQ and Critical Sexuality Studies Minor

The minor in LGBTQ and Critical Sexuality Studies builds students' knowledge of theory and an understanding of sexuality and its history, tracing the movement of sexual regulation through different domains (religious, legal, medical, social, and political). This minor requires 18 credits of coursework for completion, detailed as follows.

Core courses

Both of the following courses are required for the major.

- GSWS 0230 - INTRODUCTION TO LGBTQ STUDIES
- GSWS 0550 - SEX AND SEXUALITIES

Upper level courses

Students must choose one of the following courses. They may take the remaining two as electives, with the addition elective credits chosen from the elective course list.

- GSWS 1140 - SPECIAL TOPICS
- GSWS 1170 - QUEER THEORY
- GSWS 1280 - TRANSNATIONAL SEXUAL POLITICS

Elective courses

Students must choose three of the following courses.

- ANTH 0768 - ANTHROPOLOGY OF GENDER AND SEXUALITY
- COMMRC 1143 - KNOWLEDGE, POWER, AND DESIRE
- ENGLIT 0630 - SEXUALITY AND REPRESENTATION
- ENGLIT 0670 - QUEER AND TRANSGENDER LITERATURE
- FR 0012 - FRENCH KISS: LOVE, SEX, FRANCE
- GSWS 0600 - GLOBAL LGBTQ LITERATURE
- GSWS 1610 - QUEER AND FEMINIST MEDIA ART

- GSWS 1910 - CAPSTONE
- GSWS 1140 - SPECIAL TOPICS
- GSWS 1170 - QUEER THEORY
- GSWS 1280 - TRANSNATIONAL SEXUAL POLITICS
- HIST 1026 - STATES AND SEX IN THE AMERICAS
- HIST 1692 - LGBTQ IN THE USA, 1900-PRESENT
- MUSIC 1396 - MUSIC IN SOCIETY
- PSY 1110 - PSYCHOLOGICAL ASPECTS OF HUMAN SEXUALITY
- RELGST 1405 - RELIGION AND SEXUALITY
- SOC 0436 - SOCIAL ASPECTS OF SEXUALITY
- SOC 1416 - SEX GENDER SEXUALITY AND THE BRAIN SCIENCES
- SPAN 1423 - SEXUAL DIVERSITY IN LATIN AMERICAN LITERATURE AND CULTURE

Department of Geology and Environmental Science

The Department of Geology and Planetary Science studies the Earth and how it works. The earth is a fascinating natural system that supports many interactions between the solid earth, oceans, atmosphere, life, and various solar system objects. The primary goal of our geology and environmental geology majors (both BS programs) is a scientific understanding of these natural systems and their significant and sometimes surprising variations over geologic time. In addition, these students often seek a solid scientific grounding in earth resources and environmental problems. Our popular environmental studies major (a BA program) focuses on the economic, political, and legal issues that conspire to either cause or prevent the solution of environmental problems. Our programs are popular with people who love nature, who want to understand how the earth works, and who want to understand the many dimensions of modern environmental issues. For more information on our programs, please visit www.geology.pitt.edu.

Certificate

Geographic Information Science and Cartography

The Geology and Planetary Science Department offers a Certificate in Geographic Information Systems (GIS). GIS is a computer-based system that accommodates virtually any type of information about features that are referenced by geographical location. For example, a GIS database may include both location and attribute data, providing a spatial visualization capability for analyzing descriptive characteristics about geographical features, both natural and manmade. One of the most important benefits of GIS analysis is the ability to spatially interrelate multiple types of information stemming from a range of sources. Such computational manipulation of geographic data has become increasingly important in many areas of science, government, and industry. Students who demonstrate experience with computers in general, and GIS/image processing in particular, are at a distinct advantage when looking for jobs in geology, environmental science, city and regional planning, and engineering. This certificate is designed to provide students with the knowledge and skills needed for immediate success in GIS-related jobs.

Requirements

The program is open to any University of Pittsburgh student, including post-baccalaureate students (professionals seeking to expand their job-related computer skills). Approximately four terms (two academic years) will be required to complete this certificate program. It is therefore suggested that undergraduates begin no later than their junior year. A grade of C or better is required in all courses for successful completion of the certificate. GIS topics covered include the nature of geographic data, map projections, raster images, the basic elements of a GIS database, sources of data, and training in the Arc/Info software package. Students also have the option of focusing on remote sensing theory and

applications. Remote sensing (RS) topics include image analysis and processing; field validation of satellite and airborne datasets; GPS training; and the use of software packages such as ENVI, Erdas Imagine, ERMapper, and Trimble's Pathfinder Office.

Required core courses

- GEOL 1445 - GIS, GPS, AND COMPUTER METHODS or
- GEOL 2449 - GIS, GPS, AND COMPUTER METHODS

- GEOL 1460 - INTRODUCTION TO REMOTE SENSING

Note

Two elective courses may be chosen that have special relevance to the student's major or employment goals. Appropriate courses will be available from many different departments. Courses not on the following list may be selected contingent on approval by the certificate advisor.

Suggested elective courses

- GEOL 0820 - NATURAL DISASTERS
- GEOL 1030 - THE ATMOSPHERE, OCEANS AND CLIMATE
- GEOL 1060 - GEOMORPHOLOGY
- GEOL 1446 - ADVANCED GEOGRAPHICAL INFORMATION SYSTEM
- GEOL 1960 - FIELD CAMP
- GEOL 2460 - APPLIED REMOTE SENSING AND GPS TECHNIQUES
- GEOL 2640 Advanced Geohazards and Risk Management
- BIOSC 1390 - FIELD TECHNIQUES IN ECOLOGY AND CONSERVATION
- INFSCI 1022 - DATABASE MANAGEMENT SYSTEMS

Independent Study

Students should work with faculty in their primary area of interest to define and develop the capstone project. It must use GIS and/or RS as a major tool and result in a published report, map, or media that describes the results of the research.

- GEOL 1901 - INDEPENDENT STUDY

Additional information and requirements

- A minimum grade of C is required in each course required for this certificate.
- No course that counts toward the certificate can be taken on an S/NC basis unless the student receives special permission from the certificate advisor.

Major

Environmental Science, BS

Environmental science is a multidisciplinary field that focuses on documenting the impacts that people have on our environment, on reducing the harmful effects of these impacts, and on restoring aspects of the environment to benefit both nature and people. Our program focuses on air, water, and the Earth's solid surface, and it includes an emphasis on their interactions with life.

The environmental science degree is a multidisciplinary program that combines physics, chemistry, math, biology, and geology to give you the skills and know-how needed to understand environmental impacts. Careers range from the assessment, remediation, and protection of air and water resources to the restoration of disturbed landscapes to helping to ensure that major industries comply with environmental regulations. In addition, the environmental science program provides fine intellectual training in the tradition of a liberal arts education, which means that you will be exceptionally well-qualified to compete for the diverse jobs on offer at Pitt's career fairs.

The Environmental Science major requires completion of at least 63 credits, as follows.

Core courses required for the major

Core courses

The following two courses should be taken in the same academic term.

- GEOL 0055 - GEOLOGY LABORATORY
- GEOL 0840 - ENVIRONMENTAL SCIENCE

All of the following courses

- GEOL 1015 - GEOLOGY COLLOQUIUM
- GEOL 1030 - THE ATMOSPHERE, OCEANS AND CLIMATE
- GEOL 1445 - GIS, GPS, AND COMPUTER METHODS
- GEOL 1641 - ECOSYSTEM ECOLOGY

One of the following Geochemistry courses

- GEOL 1515 - ENVIRONMENTAL GEOCHEMISTRY
- GEOL 1516 - ENVIRONMENTAL GEOCHEMISTRY WITH LAB

One of the following Water/Hydrology courses

- GEOL 1050 - SURFACE WATER HYDROLOGY
- GEOL 1051 - GROUNDWATER GEOLOGY

One of the following Geomorphology courses

- GEOL 1060 - GEOMORPHOLOGY
- GEOL 1062 - GEOMORPHOLOGY: DYNAMIC EVOLUTION OF EARTH'S SURFACE

One of the following capstone courses

- GEOL 1900 - INTERNSHIP
- GEOL 1903 - UNDERGRADUATE RESEARCH
- GEOL 1910 - UNDERGRADUATE THESIS
- GEOL 1960 - FIELD CAMP

Co-requirements for the major

All of the following courses

- CHEM 0110 - GENERAL CHEMISTRY 1
- MATH 0220 - ANALYTIC GEOMETRY AND CALCULUS 1
- PHYS 0174 - BASIC PHYSICS, SCIENCE AND ENGINEERING 1 (INTEGRATED)

Three of the following courses

- BIOSC 0150 - FOUNDATIONS OF BIOLOGY 1
And one of these associated lab courses:
- BIOSC 0050 - FOUNDATIONS OF BIOLOGY LABORATORY 1
- BIOSC 0057 - FOUNDATIONS OF BIOLOGY RESEARCH LABORATORY 1
- BIOSC 0058 - FOUNDATIONS OF BIOLOGY SEA-PHAGES LABORATORY 1
- BIOSC 0160 - FOUNDATIONS OF BIOLOGY 2
And one of these associated lab courses:
- BIOSC 0060 - FOUNDATIONS OF BIOLOGY LABORATORY 2
- BIOSC 0067 - FOUNDATIONS OF BIOLOGY RESEARCH LABORATORY 2
- BIOSC 0068 - FOUNDATIONS OF BIOLOGY SEA-PHAGES LABORATORY 2
- CHEM 0120 - GENERAL CHEMISTRY 2
- MATH 0230 - ANALYTIC GEOMETRY AND CALCULUS 2
- PHYS 0175 - BASIC PHYSICS, SCIENCE AND ENGINEERING 2 (INTEGRATED)
- STAT 1000 - APPLIED STATISTICAL METHODS

Geology electives

Students must complete nine credits of GEOL at the 1000 level or above. A list of eligible courses follows. Courses indicated by an asterisk (*) are recommended for Environmental Science majors.

- GEOL 0060 - HISTORY OF THE EARTH *
- GEOL 1001 - MINERALOGY *
- GEOL 1003 - IGNEOUS & METAMORPHIC PETROLOGY
- GEOL 1020 - SEDIMENTOLOGY AND STRATIGRAPHY
- GEOL 1045 - STATISTICS FOR EARTH SCIENCE
- GEOL 1050 - SURFACE WATER HYDROLOGY *
- GEOL 1051 - GROUNDWATER GEOLOGY *
- GEOL 1052 - PALEOCLIMATOLOGY *
- GEOL 1055 - ENVIRONMENTAL ETHICS
- GEOL 1100 - STRUCTURAL GEOLOGY
- GEOL 1240 - VERTEBRATE PALEONTOLOGY *
- GEOL 1310 Communication in the Geosciences (W)

- GEOL 1312 - ENVIRONMENTAL LAW AND POLICY
- GEOL 1313 - COM ENVIRONMENTAL PROFESSIONALS
- GEOL 1331 - HEALTH AND SAFETY (HAZWOPER)
- GEOL 1333 - SUSTAINABILITY
- GEOL 1336 - ENVIRONMENTAL ISSUES: AIR QUALITY (W)
- GEOL 1338 - ENVIRONMENTAL ISSUES: WATER QUALITY (W)
- GEOL 1340 - ENVIRONMENTAL ISSUES: MINING AND GAS DRILLING ISSUES (W)
- GEOL 1342 - ENVIRONMENTAL ISSUES
- GEOL 1410 - EXPLORATION GEOPHYSICS
- GEOL 1446 - ADVANCED GEOGRAPHICAL INFORMATION SYSTEM *
- GEOL 1460 - INTRODUCTION TO REMOTE SENSING *
- GEOL 1510 - AQUATIC AND SEDIMENTARY GEOCHEMI *
- GEOL 1701 - GEOLOGY OF THE PLANETS
- GEOL 1900 - INTERNSHIP
- GEOL 1901 - INDEPENDENT STUDY
- GEOL 1903 - UNDERGRADUATE RESEARCH
- GEOL 1XXX Other upper-level class in GEOL, approved by the major advisor
- GEOL 2XXX Graduate level GEOL class, instructor permission required

Geology additional requirements

Grades: Students must maintain a minimum GPA of 2.0 in departmental courses to graduate with a BS degree in Environmental Science

Satisfactory/No Credit: No GEOL course that counts toward the major can be taken on an S/NC basis. No more than two of the non-geological science courses that count toward the major may be taken on an S/NC basis.

Writing requirement: Students must complete at least one writing-intensive (W) course in the major.

Environmental Studies, BA

Rapid growth in human population and development has led to complex environmental problems on local and global scales. The way in which we address these issues will have a profound effect on our society and planet in the coming century. Enlightened solutions require a strong component of scientific knowledge and an awareness of the relevant societal issues. A major in environmental studies will equip students with an understanding of earth systems and the environment, including the role of geologic processes on human activity and the impact of humans on the biosphere, atmosphere, hydrosphere, and global climate. Courses in the natural and social sciences supplement a traditional liberal arts curriculum to provide a comprehensive, interdisciplinary background in the scientific, economic, political, and social aspects of human interaction with the environment.

The environmental studies major provides a strong background for students who seek careers in fields such as resource development and management, environmental policy and regulation, risk assessment, land use planning, public policy, and education. Potential employers include local, state, or federal government organizations; consulting firms; or companies that are affected by environmental issues or regulations. Graduates of the Environmental Studies Program can also pursue postgraduate study in fields such as business, law, medicine, public policy, education, international relations, urban and regional planning, environmental management, and public health.

Major Requirements

The major consists of core courses, co-requirements, and electives. The core courses provide a fundamental understanding of environmental processes, issues, and policy and culminate in an environmental science field course and an interdisciplinary capstone course on science and public policy. The co-requirements provide the necessary background for advanced study. Majors are encouraged to undertake an independent research project, internship, or senior thesis.

Core Geology courses

- GEOL 0055 - GEOLOGY LABORATORY
- GEOL 0840 - ENVIRONMENTAL SCIENCE
- GEOL 1030 - THE ATMOSPHERE, OCEANS AND CLIMATE
- GEOL 1313 - COM ENVIRONMENTAL PROFESSIONALS (writing course)
- GEOL 1333 - SUSTAINABILITY
- GEOL 1445 - GIS, GPS, AND COMPUTER METHODS

Legal Studies course

One of the following courses.

- GEOL 1312 - ENVIRONMENTAL LAW AND POLICY
- LEGLST 1320 - LAW AND ENVIRONMENT

One of the following Economics courses

- ECON 0100 - INTRODUCTION TO MICROECONOMIC THEORY
- ECON 0110 - INTRODUCTION TO MACROECONOMIC THEORY
- ECON 0800 - INTRODUCTION TO ECONOMICS

One of the following Reasoning courses

- HPS 0611 - PRINCIPLES OF SCIENTIFIC REASONING
or
EOH 2180 Introduction to Risk Sciences **and** EOH 2181 Risk Assessment Practicum

One of the following Public Policy courses

- GEOL 1055 - ENVIRONMENTAL ETHICS
- GEOL 1056 - UHC ENVIRONMENTAL ETHICS, SCIENCE AND PUBLIC POLICY

Environmental field coursework

At least two credits in the following courses.

- GEOL 1930 - YELLOWSTONE FIELD CLASS
- GEOL 1950 - WYOMING FIELD STUDIES IN ECOLOGY AND PALEONTOLOGY
- BIOSC 1140 - BEHAVIORAL ECOLOGY
- BIOSC 1170 - FRESHWATER ECOLOGY

- BIOSC 1180 - ECOLOGY OF AMPHIBIANS AND REPTILES
- BIOSC 1190 - AQUATIC ENTOMOLOGY
- BIOSC 1230 - ORNITHOLOGY
- BIOSC 1330 - FIELD BOTANY
- BIOSC 1390 - FIELD TECHNIQUES IN ECOLOGY AND CONSERVATION
- BIOSC 1400 - DISEASE ECOLOGY
- BIOSC 1420 - WILDLIFE ECOLOGY AND MANAGEMENT
- BIOSC 1610 - CONSERVATION BIOLOGY

Field course note

This requirement can be satisfied by taking any BIOSC course offered at the Pymatuning Ecology Laboratory or an approved environmental science field course offered through an outside institution. In either case, the substituted course must have a credit value of not less than two credits.

Environmental Internship course

- GEOL 1900 - INTERNSHIP

Co-requirements

- CHEM 0110 - GENERAL CHEMISTRY 1

One of the following Mathematics courses

- MATH 0125 - CALCULUS FOR BUSINESS 1 and
- MATH 0126 - CALCULUS FOR BUSINESS 2
- MATH 0120 - BUSINESS CALCULUS
- MATH 0220 - ANALYTIC GEOMETRY AND CALCULUS 1
- PUBSRV 1110 - FINANCIAL MANAGEMENT IN THE PUBLIC SECTOR
- PUBSRV 1210 - FINANCIAL MANAGEMENT OF NON-PROFIT ORGANIZATIONS

One of the following Statistics courses

- STAT 0200 - BASIC APPLIED STATISTICS
- STAT 1000 - APPLIED STATISTICAL METHODS
- STAT 1100 - STATISTICS AND PROBABILITY FOR BUSINESS MANAGEMENT

Twelve credits of electives in Social Science and Humanities

Students must complete 12 credits in social science and/or humanities courses from the following lists.

Anthropology courses

- ANTH 0582 - INTRODUCTION TO ARCHEOLOGY

- ANTH 0601 - PHYSICAL ANTHROPOLOGY: OVERVIEW
- ANTH 0680 - INTRODUCTION TO BIOLOGICAL ANTHROPOLOGY
- ANTH 0681 - INTRODUCTION TO HUMAN EVOLUTION
- ANTH 0780 - INTRODUCTION TO CULTURAL ANTHROPOLOGY
- ANTH 1524 - CHINESE ARCHAEOLOGY
- ANTH 1528 - SOUTH AMERICAN ARCHAEOLOGY
- ANTH 1541 - CULTURAL RESOURCE MANAGEMENT
- ANTH 1762 - HUMAN ECOLOGY
- ANTH 1763 - FIELD METHODS

Communication courses

- COMMRC 1149 - ENVIRONMENTAL RHETORIC

Economics courses

- ECON 0360 - INTRODUCTION TO ENVIRONMENT AND RESOURCE ECONOMICS
- ECON 0500 - INTRODUCTION TO INTERNATIONAL ECONOMICS
- ECON 0530 - INTRODUCTION TO DEVELOPMENT ECONOMICS
- ECON 1360 - ENVIRONMENTAL ECONOMICS

English Literature courses

- ENGLIT 0710 - CONTEMPORARY ENVIRONMENTAL LITERATURE
- ENGLIT 0812 - MEDIA/ECOLOGY
- ENGLIT 1005 - LITERATURE AND THE ENVIRONMENT

History courses

- HIST 0700 - WORLD HISTORY
- HIST 1668 - HISTORY OF PITTSBURGH
- HIST 1669 - HISTORY OF BLACK PITTSBURGH
- HIST 1695 - ENVIRONMENTAL HISTORY

History and Philosophy of Science courses

- HPS 0608 - PHILOSOPHY AND SCIENCE
- HPS 0610 - CAUSAL REASONING
- HPS 0620 - SCIENCE AND RELIGION
- HPS 0621 - PROBLEM SOLVING: HOW SCIENCE WORKS
- HPS 1653 - INTRO TO PHILOSOPHY OF SCIENCE

History of Art and Architecture courses

- ARC 0110 - APPROACHES TO THE BUILT ENVIRONMENT

Political Science courses

- PS 1232 - POLITICAL ATTITUDE & PUBLIC OPINION
- PS 1235 - MEDIA AND POLITICS
- PS 1261 - AMERICAN PUBLIC POLICY
- PS 1374 - POLITICS OF GLOBAL INEQUALITY
- PS 1538 - THE POLITICS OF OIL AND NATURAL RESOURCES
- PS 1542 - GLOBAL ENVIRONMENTAL POLITICS
- PS 1543 - GLOBALIZATION AND INTERNATIONAL POLITICS

Religious Studies courses

- RELGST 1518 - RELIGION AND ECOLOGY
- RELGST 1519 - RELIGION, NATURE AND ENVIRONMENT
- RELGST 0770 - SCIENCE AND RELIGION

Sociology courses

- SOC 0230 - SOCIAL RESEARCH METHODS
- SOC 0312 - SCIENCE IN SOCIETY
- SOC 1440 - EXPERIENCING GLOBALIZATION
- SOC 1445 - SOCIETY AND ENVIRONMENT

Urban Studies courses

- URBNST 0010 - INTRODUCTION TO URBAN STUDIES
- URBNST 0030 - INTRODUCTION TO GIS
- URBNST 0130 - APPLIED GIS
- URBNST 0050 - INTRODUCTION TO URBAN RESEARCH
- URBNST 0114 - URBAN SUSTAINABILITY
- URBNST 0360 - INTERNATIONAL URBANISM SEMINAR

Business Administration courses

- BUSENV 1701 - ETHICAL LEADERSHIP FUNDAMENTALS
- BUSENV 1765 - LEADERSHIP IN THE SOCIAL ENVIRONMENT

Public and International Affairs courses

- PIA 2115 - ENVIRONMENTAL ECONOMICS
- PIA 2140 - FINANCIAL PRACTICES FOR ECONOMICS AND ENVIRONMENTAL SUSTAINABILITY
- PIA 2164 - NATURAL RESOURCES GOVERNANCE AND MANAGEMENT
- PIA 2388 - INTERNATIONAL LAW AND POLICY
- PIA 2502 - GLOBAL ENVIRONMENTAL POLICY
- PIA 2510 - ECONOMICS OF DEVELOPMENT
- PIA 2520 - FOOD SECURITY: AGRICULTURE & RURAL DEVELOPMENT

- PIA 2522 - GLOBAL ENERGY
- PIA 2715 - GIS FOR PUBLIC POLICY

Public Service courses

- PUBSRV 1230 - FUNDRAISING FOR NON-PROFIT ORGANIZATIONS
- PUBSRV 1300 - LEGAL ISSUES IN PUBLIC SERVICE
- PUBSRV 1310 - DIVERSITY ISSUES IN PUBLIC SERVICE
- PUBSRV 1320 - GEOGRAPHIC INFORMATION SYSTEMS IN THE PUBLIC SERVICE
- PUBSRV 1455 - LAW, ETHICS AND PUBLIC POLICY IN THE MASS MEDIA

Twelve credits of electives in the Natural Sciences and Engineering

Students must complete 12 credits in natural science and/or engineering courses from the following lists.

Students are encouraged to take BIOSC 0150 and BIOSC 0160 because they are prerequisites for the Pymatuning field courses. Students are further encouraged to take the GEOL 1300-level electives.

Biological Sciences courses

- BIOSC 0050 - FOUNDATIONS OF BIOLOGY LABORATORY 1 or
- BIOSC 0057 - FOUNDATIONS OF BIOLOGY RESEARCH LABORATORY 1
- BIOSC 0150 - FOUNDATIONS OF BIOLOGY 1
- BIOSC 0067 - FOUNDATIONS OF BIOLOGY RESEARCH LABORATORY 2
- BIOSC 0160 - FOUNDATIONS OF BIOLOGY 2
- BIOSC 0350 - GENETICS
- BIOSC 0370 - ECOLOGY
- BIOSC 0390 - ECOLOGY LABORATORY

Chemistry courses

- CHEM 0120 - GENERAL CHEMISTRY 2
- CHEM 0250 - INTRODUCTION TO ANALYTICAL CHEMISTRY
- CHEM 0310 - ORGANIC CHEMISTRY 1
- CHEM 0350 - PRINCIPLES OF ORGANIC CHEMISTRY

Computer Science courses

- CS 0090 - SUSTAINABILITY AND COMPUTING
- CS 0134 - WEB SITE DESIGN AND DEVELOPMENT
- CS 0334 - INTERMEDIATE WEB SITE DESIGN AND DEVELOPMENT
- CS 0590 - SOCIAL IMPLICATIONS OF COMPUTING TECHNOLOGY

Geology and Environmental Science courses

The Department of Geology and Environmental Science strongly encourages students to take listed GEOL courses in the 1300 series and GEOL 1641.

- GEOL 0060 - HISTORY OF THE EARTH
- GEOL 1001 - MINERALOGY
- GEOL 1015 - GEOLOGY COLLOQUIUM
- GEOL 1020 - SEDIMENTOLOGY AND STRATIGRAPHY
- GEOL 1051 - GROUNDWATER GEOLOGY
- GEOL 1052 - PALEOCLIMATOLOGY
- GEOL 1060 - GEOMORPHOLOGY
- GEOL 1100 - STRUCTURAL GEOLOGY
- GEOL 1330 - SUSTAINABILITY FLASH LAB
- GEOL 1331 - HEALTH AND SAFETY (HAZWOPER)
- GEOL 1332 - ENVIRONMENTAL ADVOCACY AND ACTION
- GEOL 1335 - ENVIRONMENTAL ISSUES: AIR QUALITY
- GEOL 1336 - ENVIRONMENTAL ISSUES: AIR QUALITY (W)
- GEOL 1337 - ENVIRONMENTAL ISSUES: WATER QUALITY
- GEOL 1338 - ENVIRONMENTAL ISSUES: WATER QUALITY (W)
- GEOL 1339 - ENVIRONMENTAL ISSUES: MINING AND GAS DRILLING ISSUES
- GEOL 1340 - ENVIRONMENTAL ISSUES: MINING AND GAS DRILLING ISSUES (W)
- GEOL 1341 - ENVIRONMENTAL ISSUES: PARKS AND FORESTS
- GEOL 1342 - ENVIRONMENTAL ISSUES
- GEOL 1410 - EXPLORATION GEOPHYSICS
- GEOL 1446 - ADVANCED GEOGRAPHICAL INFORMATION SYSTEM
- GEOL 1460 - INTRODUCTION TO REMOTE SENSING
- GEOL 1510 - AQUATIC AND SEDIMENTARY GEOCHEMISTRY
- GEOL 1515 - ENVIRONMENTAL GEOCHEMISTRY
- GEOL 1641 - ECOSYSTEM ECOLOGY
- GEOL 1701 - GEOLOGY OF THE PLANETS

Physics courses

- PHYS 0087 - PHYSICS AND SOCIETY
- PHYS 0089 - PHYSICS AND SCIENCE FICTION
- PHYS 0091 - CONCEPTUAL PHYSICS
- PHYS 0110 - INTRODUCTION TO PHYSICS 1
- PHYS 0174 - BASIC PHYSICS, SCIENCE AND ENGINEERING 1 (INTEGRATED)

Civil and Environmental Engineering courses

- CEE 1210 - ENGR AND SUSTAINABLE DEVELOPMENT
- CEE 1503 - INTRO TO ENVIRONMENTAL ENGRNG
- CEE 1513 - ENVIRONMENTAL ENGRNG PROCESSES
- CEE 1514 - ENVIRONMENTAL IMPACT ASSESSMENT

Other requirements

Grade requirements: A minimum GPA of 2.0 is required in those courses that count toward the major. All core courses, co-requirements, and electives must be passed with a grade of C- or better.

Satisfactory/No Credit option: There is no limit on the number of courses in the major that can be taken on an S/NC basis.

Writing (W) requirement: GEOL 1313 satisfies this requirement for Environmental Studies majors.

Geology, BS

The Geology major requires completion of 67 credits of coursework, distributed as follows.

Major Course Requirements

One of the following

- GEOL 0800 - GEOLOGY
- GEOL 0820 - NATURAL DISASTERS
- GEOL 0860 - ENVIRONMENTAL GEOLOGY

All of the following courses

- GEOL 0055 - GEOLOGY LABORATORY
- GEOL 0060 - HISTORY OF THE EARTH
- GEOL 1001 - MINERALOGY
- GEOL 1003 - IGNEOUS & METAMORPHIC PETROLOGY
- GEOL 1015 - GEOLOGY COLLOQUIUM
- GEOL 1020 - SEDIMENTOLOGY AND STRATIGRAPHY
- GEOL 1100 - STRUCTURAL GEOLOGY
- GEOL 1960 - FIELD CAMP

Geology elective courses

Students must complete three courses (nine credits) of GEOL courses at the 1000 level or above.

Corequirements

- CHEM 0110 - GENERAL CHEMISTRY 1
- CHEM 0120 - GENERAL CHEMISTRY 2
- MATH 0220 - ANALYTIC GEOMETRY AND CALCULUS 1

- MATH 0230 - ANALYTIC GEOMETRY AND CALCULUS 2 or
- MATH 0235 - HONORS 1 - VARIABLE CALCULUS

- PHYS 0174 - BASIC PHYSICS, SCIENCE AND ENGINEERING 1 (INTEGRATED)
- PHYS 0175 - BASIC PHYSICS, SCIENCE AND ENGINEERING 2 (INTEGRATED)

One of the following

- GEOL 1045 - STATISTICS FOR EARTH SCIENCE
- MATH 0240 - ANALYTIC GEOMETRY AND CALCULUS 3
- STAT 1000 - APPLIED STATISTICAL METHODS

Geology additional requirements

Grades: Students must maintain a minimum GPA of 2.0 in departmental courses to graduate with a BS degree in Environmental Science

Satisfactory/No Credit: No GEOL course that counts toward the major can be taken on an S/NC basis. No more than two of the non-geological science courses that count toward the major may be taken on an S/NC basis.

Writing requirement: Students must complete at least one writing-intensive (W) course in the major.

Minor

Geology Minor

An understanding of geology is essential to fields as diverse as archeology, ecology and evolution, environmental science, and civil engineering. It is also of great interest to anyone who loves the natural world. The geology minor is designed to provide a grounding in the fundamentals plus flexibility to pursue individual interests.

Choose one of the following three introductory core classes:

- GEOL 0800 - GEOLOGY
- GEOL 0802 - GEOLOGY OF THE NATIONAL PARKS
- GEOL 0820 - NATURAL DISASTERS

Two additional core classes:

These plus the introductory core class should provide enough depth and breadth to help you select the electives that will be of greatest interest to you.

- GEOL 0055 - GEOLOGY LABORATORY
- GEOL 0060 - HISTORY OF THE EARTH

Electives:

Take at least 9 credits of upper-level or graduate GEOL classes. Check out www.geology.pitt.edu/undergraduate for advice on which electives to take to meet specific goals.

- GEOL 1001 - MINERALOGY
- GEOL 1003 - IGNEOUS & METAMORPHIC PETROLOGY
- GEOL 1020 - SEDIMENTOLOGY AND STRATIGRAPHY
- GEOL 1050 - SURFACE WATER HYDROLOGY
- GEOL 1051 - GROUNDWATER GEOLOGY
- GEOL 1052 - PALEOCLIMATOLOGY

- GEOL 1060 - GEOMORPHOLOGY
- GEOL 1062 - GEOMORPHOLOGY: DYNAMIC EVOLUTION OF EARTH'S SURFACE
- GEOL 1100 - STRUCTURAL GEOLOGY
- GEOL 1240 - VERTEBRATE PALEONTOLOGY
- GEOL 1410 - EXPLORATION GEOPHYSICS
- GEOL 1413 - GEOPHYSICAL WELL LOGGING
- GEOL 1510 - AQUATIC AND SEDIMENTARY GEOCHEMI
- GEOL 1701 - GEOLOGY OF THE PLANETS
- GEOL 1960 - FIELD CAMP

Department of German

The study of second language and culture is a cornerstone of education in today's international world. It teaches intercultural competence by increasing students' understanding of their own backgrounds and their sensitivity for other traditions and values. Knowledge of a second language and culture brings obvious competitive advantages in careers with an international dimension. As a liberal arts discipline, the study of language improves analytic-conceptual and communication skills necessary for all professional careers. Enhanced with appropriate additional course work, a major in German serves as a foundation for professional training in such subjects as business, law, politics, and medicine, as well as the media and communication industry. Students with a BA in German compete well in nontechnical fields for jobs requiring a bachelor's degree. For more information on the major, the minor, the certificate, and the Department of Germanic Languages and Literatures, see www.german.pitt.edu.

Certificate

German Language Certificate

The German Language certificate demonstrates proficiency in German above the level of the German minor. It prepares students for international careers, internationally recognized proficiency exams (Zertifikat Deutsch als - Fremdsprache and Zertifikat Deutsch für den Beruf), and internship programs in German-speaking countries.

The certificate offers two tracks - one in the liberal arts and one for professional purposes. In both tracks, students must earn 18 credits in German beyond GER 0002 - ELEMENTARY GERMAN 2. Nine credits may be transferred from study abroad programs in German-speaking countries to count toward the 18 total credits.

The courses that apply to the certificate should be taken in sequence as listed.

German for the Liberal Arts

Students in this track should take the following courses in the order indicated below.

- GER 0004 - INTERMEDIATE GERMAN 2 with a minimum grade of B- before taking any course in the GER 1000-level experience

Two 1000-level courses

Students pursuing this track will take two 1000-level courses in the Department of German. Students may take GER 1001 - GERMAN WRITING or GER 1003 - PROFESSIONAL GERMAN as one of these courses, but they may not take both courses to count toward the certificate.

One 1100-level course

Students pursuing this track will take any 1100-level course in the Department of German.

One 1200- to 1400-level course

Students pursuing this track will take one course at the 1200-level to 1400-level in the Department of German.

German for Professional Purposes

Required courses

- GER 0004 - INTERMEDIATE GERMAN 2
- GER 1003 - PROFESSIONAL GERMAN
- GER 1004 - THE GERMAN BUSINESS (ECO)SYSTEM

Two 1000-level or 1100-level courses

Students pursuing this track must complete two additional courses at the 1000-level or 1100-level in the Department of German. GER 1001, GER 1003, GER 1004, and GER 1103 do not fulfill this requirement.

German Certificate note

Nine credits may be transferred from study abroad programs in German-speaking countries in accordance with the credit transfer policy of the University of Pittsburgh. These credits have to be pre-approved by the director of undergraduate studies.

A minimum GPA of 2.0 is required in each course that counts toward the certificate. No course that counts toward the certificate can be taken on an S/NC basis unless the student received special permission from the Director of Undergraduate Studies.

For more information, visit www.german.pitt.edu/undergraduate/certificate.php

Major

German, BA

The German Language and Cultural Studies, BA program was approved to be renamed in Summer 2023 to German, BA.

The German Major helps students achieve defined levels of proficiency in German language and culture and provides them with the traditional hallmarks of a humanistic education (analytical and critical thinking skills, self-reflection, openness to other cultures, communication skills, etc.) as well as the skills necessary to compete in today's global world.

Requirements

The German major requires completion of 33 credits (11 courses) distributed as follows. If necessary to fulfill credit requirements, higher-level language courses can be substituted for intermediate-level language courses.

Required Intermediate German language courses

Intermediate German two-course sequence (6 credits)

- GER 0201 - INTERMEDIATE GERMAN 1
- GER 0202 - INTERMEDIATE GERMAN 2

Required writing-intensive course

Students must complete one of the following writing-intensive courses (3 credits)

- GER 1001 - GERMAN WRITING
- GER 1003 - PROFESSIONAL GERMAN

1000-level course

Students must complete one course at the 1000-level, meaning between GER 1000 and GER 1099 (other than the writing course). (3 credits)

- GER 1000 - READING LITERARY TEXTS
- GER 1004 - THE GERMAN BUSINESS (ECO)SYSTEM
- GER 1005 - GERMAN MEDIA FROM TV TO YOUTUBE
- GER 1051 - INTRODUCTION TO LITERARY ANALYSIS

1100-level course

Students must complete one course at the 1100-level, meaning between GER 1100 and GER 1199. (3 credits)

- GER 1101 - GERMAN MEDIA 2
- GER 1102 - GRÜEZI, SERVUS, HALLO: THE CONTEMPORARY GERMAN-SPEAKING WORLD
- GER 1104 - GERMANY UNDER THE SPELL OF AMERICA
- GER 1105 - LITERARY ANALYSIS
- GER 1106 - GERMAN CULTURAL HISTORY
- GER 1108 - GREEN GERMANY

1200- to 1400-level course

Students must complete one seminar in German at the 1200- to 1400-level, meaning between GER 1200 and GER 1499. (3 credits)

- GER 1204 - UNITY IN DIVERSITY: EU-IDENTITY AS FACT AND FICTION
- GER 1220 - LITERATURE AND CULTURE 1750-1830
- GER 1228 - LITERATURE AND CULTURE 1830-1890
- GER 1252 - CURRENT LITERATURE AND CULTURE
- GER 1324 - SPECIAL TOPICS IN GERMAN PROSE
- GER 1350 - GERMAN DRAMA
- GER 1380 - TOPICS IN GERMAN CINEMA
- GER 1390 - MINORITIES IN POST-WAR GERMANY
- GER 1409 - EUROPEAN INTELLECTUAL HIST 2 1870-1940
- GER 1410 - KAFKA AND THE MODERN WORLD
- GER 1490 - SPECIAL TOPICS

Additional course on the 1100-1499 level

Students must complete one additional course at the GER 1100 - GER 1499 level (3 credits)

- GER 1101 - GERMAN MEDIA 2
- GER 1102 - GRÜEZI, SERVUS, HALLO: THE CONTEMPORARY GERMAN-SPEAKING WORLD
- GER 1104 - GERMANY UNDER THE SPELL OF AMERICA
- GER 1105 - LITERARY ANALYSIS
- GER 1106 - GERMAN CULTURAL HISTORY
- GER 1108 - GREEN GERMANY
- GER 1204 - UNITY IN DIVERSITY: EU-IDENTITY AS FACT AND FICTION
- GER 1220 - LITERATURE AND CULTURE 1750-1830
- GER 1228 - LITERATURE AND CULTURE 1830-1890
- GER 1252 - CURRENT LITERATURE AND CULTURE
- GER 1324 - SPECIAL TOPICS IN GERMAN PROSE
- GER 1350 - GERMAN DRAMA
- GER 1380 - TOPICS IN GERMAN CINEMA
- GER 1390 - MINORITIES IN POST-WAR GERMANY
- GER 1409 - EUROPEAN INTELLECTUAL HIST 2 1870-1940
- GER 1410 - KAFKA AND THE MODERN WORLD
- GER 1490 - SPECIAL TOPICS

3 German Culture Courses in German or English

Students must complete three culture courses at the 1100-1599-level, taught in German or English. [These may include up to two courses with at least 30% German content in other departments.] (9 credits)

- GER 1101 - GERMAN MEDIA 2
- GER 1102 - GRÜEZI, SERVUS, HALLO: THE CONTEMPORARY GERMAN-SPEAKING WORLD
- GER 1104 - GERMANY UNDER THE SPELL OF AMERICA
- GER 1105 - LITERARY ANALYSIS
- GER 1106 - GERMAN CULTURAL HISTORY
- GER 1108 - GREEN GERMANY

- GER 1204 - UNITY IN DIVERSITY: EU-IDENTITY AS FACT AND FICTION
- GER 1220 - LITERATURE AND CULTURE 1750-1830
- GER 1228 - LITERATURE AND CULTURE 1830-1890
- GER 1252 - CURRENT LITERATURE AND CULTURE
- GER 1324 - SPECIAL TOPICS IN GERMAN PROSE
- GER 1350 - GERMAN DRAMA
- GER 1380 - TOPICS IN GERMAN CINEMA
- GER 1390 - MINORITIES IN POST-WAR GERMANY
- GER 1409 - EUROPEAN INTELLECTUAL HIST 2 1870-1940
- GER 1410 - KAFKA AND THE MODERN WORLD
- GER 1490 - SPECIAL TOPICS
- GER 1500 - GERMANIC MYTHS, LEGENDS AND SAGAS
- GER 1502 - INDO-EUROPEAN FOLKTALES
- GER 1504 - EUROPEAN IDENTITY BETWEEN HISTORY AND EUROPEAN UNION CULTURAL POLICY
- GER 1506 - THEORIES & PRACTICES OF WORK IN GLOBAL PERSPECTIVE
- GER 1510 - KAFKA AND THE MODERN WORLD
- GER 1512 - GERMAN LITERATURE AND EUROPEAN PHILOSOPHY: GOETHE'S FAUST
- GER 1522 - GERMANY TODAY
- GER 1524 - GERMAN CONTRIBUTIONS WORLD LITERATURE
- GER 1526 - DRAMA OF IDEAS
- GER 1528 - VIENNA
- GER 1529 - BERLIN: A DIVIDED CITY
- GER 1530 - SEX, ROBOTS, REVOLUTION: CULTURE OF THE WEIMAR REPUBLIC
- GER 1535 - OUTSIDERS IN GERMAN LITERATURE
- GER 1540 - NIETZSCHE AND THE NIETZSCHEANS
- GER 1542 - MARX AND MARXISM
- GER 1544 - FREUD AND FREUDIANS
- GER 1545 - NAZI CULTURE
- GER 1546 - HOLOCAUST LITERATURE AND FILM
- GER 1548 - NEW GERMAN CINEMA

Capstone course

Students should take the capstone seminar in the fall term of their senior year.

- GER 1399 - SENIOR CAPSTONE SEMINAR

Additional requirements

Grade requirements: A 2.00 GPA is required in is required in each course that counts toward the major.

Satisfactory/No Credit option: No course that counts toward the major can be taken on an S/NC basis unless the student receives special permission from the major advisor.

Writing requirement: GER 1001 - GERMAN WRITING and GER 1003 GER 1003 - PROFESSIONAL GERMAN fulfill the requirement for a writing course in the major.

Honors requirements: To earn departmental honors in German, students must demonstrate superior performance in departmental courses by:

- earning an average GPA of at least 3.5 in their major courses;
 - demonstrating a high level of proficiency in speaking and writing German; and
 - completing a three-credit senior honors project (in addition to the credits required for the major), which has been accepted by the departmental faculty. Senior honors projects may include:
 - a semester-long, independent research project, as an extension of the senior thesis written during the capstone seminar;
 - taking an exam on a comprehensive reading list derived by the student in consultation with the faculty; or
 - enrolling in a graduate seminar and completing a graduate paper.
- Students are encouraged to study and reside in a German-speaking country as a component of the German major. Numerous possibilities exist for such study, and financial aid is often available.

Total Major Credits: 33

Interdisciplinary German Studies, BA

The Interdisciplinary German Studies, BA program was approved for termination in Summer 2023. Students enrolled in the program will have until Fall 2025 to complete program requirements.

The study of foreign language and culture is a cornerstone of education in today's world. It teaches intercultural competence by increasing students' understanding of their own background and their sensitivity for other traditions and values. Knowledge of foreign language and culture brings obvious competitive advantages in careers with an international dimension. As a liberal arts discipline, it improves analytic-conceptual and communication skills necessary for professional careers. Enhanced with appropriate course work, a major in German serves as a foundation for professional training in such subjects as business, law, politics, and medicine, as well as the media and communication industry. Students with a bachelor's degree in German will compete well in non-technical fields for jobs requiring an undergraduate degree.

Required language courses

Students must take a minimum of four language courses and finish Intermediate German 2 as described. Equivalency of other courses will be determined by the department.

- GER 0101 - BEGINNING GERMAN 1
 - GER 0102 - BEGINNING GERMAN 2
- And one of the following groups of language courses.
- GER 0103 - BEGINNING GERMAN 3
 - GER 0201 - INTERMEDIATE GERMAN 1
 - GER 0202 - INTERMEDIATE GERMAN 2
- GER 0203 - INTENSIVE INTERMEDIATE GERMAN 1
 - GER 0204 - INTENSIVE INTERMEDIATE GERMAN 2

Required writing-intensive course

Select one of the following writing-intensive courses.

- GER 1001 - GERMAN WRITING
- GER 1003 - PROFESSIONAL GERMAN

1000-level course

Students must complete one course at the 1000-level in the Department of German.

Literary analysis course

- GER 1105 - LITERARY ANALYSIS

1100- to 1400-level courses

Students must complete three courses at the 1100- to 1400-level in the Department of German.

1500-level courses

Students must complete four courses at the 1500-level in the Department of German. Courses with significant German Studies content offered by other departments may also satisfy this requirement. Check with the undergraduate advisor for information on non-departmental courses that qualify.

Capstone course

- GER 1990 - SENIOR THESIS

Other requirements

Grade requirements: A minimum GPA of 2.0 is required in each course that counts toward the major.

Satisfactory/No Credit option: No course that counts toward the major can be taken on an S/NC basis unless the student receives special permission from the major advisor.

Writing (W) requirement: Students must complete at least one W-course in the major. GER 1001 and GER 1003 fulfill this requirement.

Honors major requirements: To earn departmental honors in German, students must demonstrate superior performance in departmental courses by:

- earning at least a 3.5 GPA average in their major courses;
- demonstrating a high level of proficiency in speaking and writing German; and
- completing a three-credit senior honors project (in addition to 31 credits of the major) that has been accepted by the departmental faculty. Senior honors projects may include:
 - a semester-long, independent research project, as an extension of the senior thesis written during the capstone project; or
 - taking an exam on a comprehensive reading list derived by the student in consultation with the faculty; or
 - enrolling in a graduate seminar and completing a graduate paper.

Minor

German Minor

The German minor requires 15 credits of coursework to complete. Students interested in the minor may tailor their course selection according to their interest in German language, literature, and film studies, but must complete at least two 3-credit courses taught in German.

Required Courses

Students pursuing this minor will take two courses that instruct them in the vocabulary and proper use of the German language. These courses will be taught in German.

Additionally, students will take three courses that focus on German language and culture. Courses in this group may be taught in German or in English.

- GER 0101 - BEGINNING GERMAN 1
- GER 0102 - BEGINNING GERMAN 2
- GER 0103 - BEGINNING GERMAN 3
- GER 0201 - INTERMEDIATE GERMAN 1
- GER 0202 - INTERMEDIATE GERMAN 2
- GER 0203 - INTENSIVE INTERMEDIATE GERMAN 1

Department of Hispanic Languages and Literatures

The study of a second language, literature, and culture like Spanish traditionally has been one of the central components of an undergraduate education in the humanities. Today there is an added practical dimension to this. With economic and cultural globalization, our links as a nation with Spain and Latin America, including Brazil, have become much closer. At the same time, Spanish is not only a second language for us; it has become much like French in Canada, a de facto second language in the United States, which now has a Spanish-speaking population of more than 30 million. As a result, there is a growing demand for persons trained in Spanish (and also Portuguese) in many fields, especially education, where there is a shortage of new teachers of Spanish language and culture.

The undergraduate **major in Spanish** at the University of Pittsburgh offers a balanced combination of courses designed to strengthen oral and written language skills, and courses that introduce students to the study of Spanish and Latin American literatures and cultures. Majors also have the opportunity to enroll in the **minor in Portuguese Language and Luso-Brazilian cultures**, thereby opening channels of communication with millions of people around the world, including Brazil, Latin America's largest and most heavily populated country. Students with a more general interest in Latin American languages and cultures can choose to minor in Hispanic Languages and Literatures.

In all cases, we encourage students to include at least a semester of study abroad in a Spanish- or Portuguese-speaking country and we offer study-abroad programs. Students interested in going on to graduate school should strongly consider the honors major; those who want to teach Spanish can obtain teacher certification through the School of Education. The department also offers courses taught in English for non-majors interested in Hispanic, Latin American, Luso-Brazilian, or U.S. Latino cultures. Students can also take advantage of the **non-curricular** activities organized by the department, which include conversation clubs and films series.

Departmental Honors requirements

Especially for students interested in graduate work, the department offers honors in the major, which requires:

- a 3.5 average in departmental courses and 3.0 overall
 - a senior thesis of 25-30 pages, written under the supervision of a faculty member close to the field of the thesis
 - at least a semester of study abroad is strongly recommended but not required
- Students should declare their intention to pursue the honors major no later than at the beginning of their senior year. The thesis will be evaluated by the advisor and two other faculty members in the department. Students may take an independent study with their supervisor that will fulfill the requirement of one upper level course. For further information, consult with the director of undergraduate studies

Teacher Certification

Students who plan to teach Spanish after completing the major should consult with their advisor or the director of undergraduate studies in the department, as well as with the advisors for Pennsylvania Teaching Certification and Masters of Arts in Teaching Programs in the School of Education (Maggie Sikors, mjs 169@pitt.edu, 5504 Posvar Hall, 412-648-7413).

Study Abroad Options for Majors in the Hispanic Languages and Literatures Department

Students are strongly encouraged to add an international dimension to their undergraduate education through studying abroad. By participating in a study abroad program, students earn credits toward their degree. The department offer four programs that are matched directly with major and minor requirements. Information on some of the programs follow.

Study abroad is strongly encouraged. The department offers four programs that are matched directly with major and minor requirements. Information on some of the programs follows.

- Study abroad in Alcalá de Henares, Spain (30 minutes from Madrid) runs every odd-numbered year; for more information, send an e-mail to alcala@pitt.edu.
- Study abroad in Santiago de Chile runs every even-numbered years; for more information, send an e-mail to chile@pitt.edu.
- Study abroad in Porto Alegre, Brazil runs every year; for more information, send an e-mail to brazilsa@pitt.edu.
- Study abroad in Havana, Cuba runs every year; for more information, contact the Study Abroad Office (www.abroad.pitt.edu) via e-mail abroad@pitt.edu or by phone at 412-648-7419.

Major

Spanish, BA

The undergraduate program in Hispanic Languages and Literatures at the University of Pittsburgh is designed to be flexible and diverse in order to meet the needs of students with varying interests and career goals. The major offers a balanced combination of courses designed to strengthen oral and written Spanish language skills and courses that introduce students to the study of Spanish and Latin American literatures and cultures. Majors also have the opportunity to enroll in the minor in Portuguese Language and Luso-Brazilian Culture, thereby opening channels of

communication with millions of people around the world, including Brazil, Latin America's largest and most heavily populated country. Students with an interest in Latin American languages and cultures can choose to minor in Spanish. In all cases, we encourage students to include at least one semester of study abroad in a Spanish- or Portuguese-speaking country. Students interested in going to graduate school should consider the honors major; those who want to teach Spanish can obtain a teacher certification through the School of Education. The department offers courses taught in English for non-majors interested in Hispanic, Latin American, Luso-Brazilian, or U.S. Latino cultures. Finally, students can take advantage of the non-curricular activities organized by the department, which include conversation clubs and films series.

Major requirements

Prerequisites

Before declaring the major, students must complete four Spanish language courses in order to gain the indispensable skills to effectively read, write and discuss in a second language. Students with any previous knowledge of Spanish must take a placement test. Please note that *a grade of B+ or higher in SPAN 0104 is required to declare the major*. The Spanish major requires students to complete 38 credits of coursework as detailed below.

Required Courses

Basic Level

- SPAN 0120 - CONVERSATION
- Either SPAN 0125 - GRAMMAR AND COMPOSITION or
- SPAN 0126 - SPANISH ADVANCED GRAMMAR AND COMPOSITION FOR HERITAGE SPEAKERS
- Either PORT 0101 - ELEMENTARY PORTUGUESE 1 or
- PORT 1010 - PORTUGUESE FOR SPANISH SPEAKERS 1

Mid Level

All of the following courses are required. SPAN 1055 meets the writing requirement. PORT 0101 cannot be used to meet requirements for the Spanish major and the Portuguese and Luso-Brazilian minor.

- Either SPAN 1055 - INTRODUCTION HISPANIC LITERATURE 1 or
- SPAN 1056 - READING, WRITING, & HEALTH IN SPANISH
- SPAN 1250 - HISPANIC CIVILIZATIONS
- Either SPAN 1260 - OVERVIEW OF SPANISH LITERATURE or
- SPAN 1280 - OVERVIEW OF LATIN AMERICAN LIT
- SPAN 1300-level course
- One additional SPAN course at the 1200-level or 1300-level

Upper Level

- SPAN 1806 - CAPSTONE SEMINAR

Three electives

Students must complete three upper-level elective courses from the 1400, 1600, and/or 1700 series. These courses address topics such as colonial literatures and cultures; the Latin American novel; U.S.-Latino literature and film; the African presence in Hispanic literature and culture; Queer Mexico; the Incas.

PORT 0102 - ELEMENTARY PORTUGUESE 2 may be used to meet this requirement only if the student is pursuing the Portuguese and Luso-Brazilian minor.

Additional information and requirements

- **W requirement:** Spanish majors must complete one writing-intensive (W) course in the major. The following courses satisfy this requirement.
 - SPAN 1055 - INTRODUCTION HISPANIC LITERATURE 1
 - SPAN 1056 - READING, WRITING, & HEALTH IN SPANISH
- **Grade requirements:** Students must maintain an average GPA of 2.0 or above in all department courses. No courses with a grade of C- or lower will count toward the major.
- **Satisfactory/No-Credit option:** Majors may take one required course on an S/NC basis.
- **Language of instruction:** Spanish majors can take up to one course offered by the department that is taught in English. In order to have it count toward minor requirements, written assignments must be submitted in Spanish.
- **Study Abroad:** At least one term of study abroad is recommended.
- **Credits in residence:** To complete the Spanish major, students are required to take at least half of the credits required for the major while in residence in the Dietrich School.
- **Placement into language courses:** For the Spanish placement test, please contact the Spanish Language Coordinator, Dolores Lima, dlima@pitt.edu. For the Portuguese placement test, please contact the Portuguese Language Coordinator, Ana Paula Carvalho, apcst11@pitt.edu.
- **Credit by examination:** Students may receive credit by examination for some Spanish language courses. Similar credits may be earned in Portuguese.

Double majors, dual degrees and CLAS certificates

Students who have declared an additional major or pursue a dual degree need to take only three of the four upper-level courses. The same rule applies to students taking the CLAS Field Trip to Latin America. Only one course reduction applies if a student meets more than one of these criteria.

Minor

Hispanic Language and Culture Minor

The Hispanic Language and Culture minor will prepare students for graduate studies, professional studies, and work, it will prepare students to take Hispanic linguistics and advanced cultural and social courses that apply to the region. It requires fewer literary courses than the traditional Spanish minor while helping students to sharpen their communication skills and cultural understanding.

This minor requires 18 credits for completion. At least half of the credits for the minor, including no fewer than one upper-level course, must be taken on the Pittsburgh campus.

Core courses

- SPAN 0120 - CONVERSATION

- Either SPAN 0125 - GRAMMAR AND COMPOSITION or
- SPAN 0126 - SPANISH ADVANCED GRAMMAR AND COMPOSITION FOR HERITAGE SPEAKERS
- SPAN 1250 - HISPANIC CIVILIZATIONS
- SPAN 1312 - OVERVIEW OF SPANISH LINGUISTICS

Upper-level required course

One course from the following list.

- SPAN 1056 - READING, WRITING, & HEALTH IN SPANISH
- Any 1300-level SPAN course

Upper level elective course

Students must complete one additional upper-level course from the 1400-, 1600-, or 1700-series. The department prefers that students choose courses identified as having a focus on culture or cultural studies rather than a literary emphasis.

Additional requirements and information

Language of Instruction

Students pursuing the Hispanic Language and Culture minor can take up to one course offered by the department that is taught in English. In order to have it count toward minor requirements, however, written assignments must be submitted in Spanish.

Credits in Residence

To complete the Hispanic Language and Culture minor, students are required to take in residence at the University of Pittsburgh a minimum of nine credits of the 18 required for the minor. One upper level elective must be included in these nine credits.

Grade Requirements

Students must maintain an average grade of C or higher in all department courses. No course with a grade below C will count toward minor requirements.

Satisfactory/No Credit Grade Option

No course that counts toward this minor may be taken on the Satisfactory/No Credit (S/NC) grade basis.

Portuguese and Luso-Brazilian Culture Minor

Students interested in studying the Portuguese language and the cultures of Brazil and other Portuguese-speaking countries can enroll in the minor in Portuguese Language and Luso-Brazilian cultures. This course of study opens channels of communication with millions of people around the world, including Brazil, Latin America's largest and most heavily populated country. The department encourages students to include at least one semester of study abroad in a Portuguese-speaking country. The department offers courses taught in English for students interested in Hispanic, Latin American, Luso-Brazilian, or U.S. Latino cultures.

Students must complete at least 15 credits of coursework, described as follows, to complete the minor.

Required courses

- Either PORT 0101 - ELEMENTARY PORTUGUESE 1 or
- PORT 1010 - PORTUGUESE FOR SPANISH SPEAKERS 1
- PORT 0102 - ELEMENTARY PORTUGUESE 2
- PORT 0103 - INTERMEDIATE PORTUGUESE 3
- PORT 0104 - INTERMEDIATE PORTUGUESE 4
- PORT 0120 - CONVERSATION
- PORT 0125 - GRAMMAR AND COMPOSITION
- PORT 1052 - LUSO-BRAZILIAN LITERATURE
- PORT 1053 - LUSO-BRAZILIAN TOPICS
- PORT 1061 - SURVEY OF BRAZILIAN LITERATURE
- PORT 1458 - CULTURES OF THE PORTUGUESE SPEAKING WORLD

Additional Requirements

Declaring the minor

Students must apply for any official minor they will complete or have completed at the time they apply for graduation. Students must complete at least half of the credits toward these minors while enrolled in the Dietrich School of Arts and Sciences at the University of Pittsburgh.

Grade requirements

Students must maintain a minimum GPA of 2.0 or higher in departmental courses. No course with a grade below C will count toward the major requirements.

Placement

If a student places out of a required course for the minor, the student will need to take the equivalent number of credits in additional mid- or upper-level Spanish courses in order to meet minimum credit requirements.

Additional Information

Study Abroad

The department offers programs in Buenos Aires, Argentina; Alcalá de Henares, Spain; Havana, Cuba; and Lisbon, Portugal. For more information please visit the Study Abroad Office website at <http://www.abroad.pitt.edu/> or by phone 412-624-7413.

Spanish writing center

This center provides free, individual help to students enrolled in language, grammar and literature courses. Students may also stop by to practice their conversational skills. The Spanish Writing Center, located in CL 1302-B, is staffed by TAs and/or TFs from the department. The center will be open from September to May; schedules are announced at the beginning of each fall and spring term.

Spanish and Portuguese clubs

These two clubs will offer activities throughout the academic year. Check the department's Web site for details about Mesas de conversación, Movie Nights, and Brazil Nuts events.

Spanish Minor

Before declaring the Spanish minor, students must complete four Spanish language courses in order to gain indispensable skills to effectively read, write, and discuss in a foreign language. Students with previous Spanish experience are encouraged to take a placement exam. Students must earn a grade of B+ or higher in SPAN 0004 to declare this minor.

Prerequisite courses

- SPAN 0004 - INTERMEDIATE SPANISH 4

Required courses

- SPAN 0120 - CONVERSATION
- Either SPAN 0125 - GRAMMAR AND COMPOSITION or
- SPAN 0126 - SPANISH ADVANCED GRAMMAR AND COMPOSITION FOR HERITAGE SPEAKERS
- SPAN 1250 - HISPANIC CIVILIZATIONS
And one of the following courses.
- SPAN 1055 - INTRODUCTION HISPANIC LITERATURE 1
- SPAN 1056 - READING, WRITING, & HEALTH IN SPANISH
- SPAN 1260 - OVERVIEW OF SPANISH LITERATURE
- SPAN 1280 - OVERVIEW OF LATIN AMERICAN LIT

Two of the following courses

- Any SPAN 1400-level course
- Any SPAN 1600-level course
- Any SPAN 1700-level course

Department of History

Historians use methods, techniques, and ideas from a wide range of humanistic and social scientific fields to teach students how materials from many fields are integrated to describe or explain a particular historical time period or topic. History is an open-ended discipline, and the department welcomes students, as well as ideas and techniques, from other subjects. History also gives a student many options for a future career. Many history majors have become lawyers, journalists, civil servants, and business executives. The future of a history major is not limited to college or school teaching, although these are also available career choices. Expanding opportunities are to be found in public and private agencies, in businesses, archives, historical societies, museums, and government offices. History courses may help students to develop a balanced program that will further their career and intellectual goals. Courses in economics and history could lead to an understanding of economic development and aid a business or civil service career; a combination of language, literature, and history would give a student background that could lead to a career in foreign service or teaching; a mixture of communication and writing with history might prepare one for a career in journalism.

In short, students in practically any field can investigate questions that are intellectually exciting and personally helpful by taking history courses related to their programs and ambitions. For more information on the major, the minor, or the Department of History, visit <http://www.history.pitt.edu/>.

Certificate

Sport Studies Certificate

The Sport Studies Certificate offers Pitt students the opportunity to engage, learn, and think critically about sport as part of the human experience from multidisciplinary approaches. Students will learn how sport shapes economies, politics, world history, health, science and social life. In a city that often tells its story to the world through sport, and at a university that has been center stage in the nation's sporting history, many students seek to forge careers in sport. This certificate will enhance their understanding of sport-its evolution, complexities, and potential-so that their eyes are wide open if sport is part of their future. Some students will work on the business side of sport or in its collegiate, scholastic, and amateur infrastructure, or as lawyers, journalists, producers, physical therapists, medical clinicians, athletic department staff, and researchers. Others will enter the burgeoning arena of sport for development and peace or take this knowledge back to their communities. Still more are fascinated by sport and study its history, literature, economics, kinesiology, and the like for the sake of that knowledge. This certificate will better prepare students for working in a sport-related field, help them stand out in seeking such employment, and deepen their understanding of something that matters to them.

The certificate program requires at least 18 credits, described as follows.

Gateway Course

Select one course from the following list. These courses offer an expansive, multi-disciplinary overview of sport.

- ANTH 0710 - SPECIAL TOPICS IN CULTURAL ANTHROPOLOGY
- HIST 1082 - WOMEN, GENDER AND SPORT
- HIST 1083 - HISTORY OF SPORTS

Foundational Course

Select one course from the following list.

- ANTH 0780 - INTRODUCTION TO CULTURAL ANTHROPOLOGY
- GSWS 0100 - INTRODUCTION TO GENDER, SEXUALITY, AND WOMEN'S STUDIES
- HIST 0601 - UNITED STATES 1865-PRESENT
- HIST 1645 - AMERICAN ECONOMIC HISTORY
- HIST 1661 - GENDER AND SEXUALITY IN THE US SINCE 1865
- HIST 1685 - U.S. POPULAR CULTURE
- SOC 0005 - SOCIETIES
- SOC 0460 - RACE AND ETHNICITY

Elective Sport-Related Courses

Select four courses from the following list. After one Gateway course is taken, other Gateway courses can be taken to meet the Elective requirement. After the Foundational course is taken, other Foundational courses may not be counted toward the elective requirement.

Gateway courses are indicated by an asterisk (*).

- AFRCNA 0120 - AFRICAN AMERICAN EXPERIENCE SPORTS
- ANTH 0711 - THE INTRODUCTION TO THE ANTHROPOLOGY OF SPORT *
- ANTH 1744 - ANTHROPOLOGY OF THE OLYMPICS
- ANTH 1746 - THE OLYMPICS & IDENTITY - RACE, GENDER, ETHNICITY & THE NATION STATE

- CLASS 0032 - ATHLETICS OF THE ANCIENT WORLD or
- HIST 1746 - ATHLETICS OF THE ANCIENT WORLD

- ECON 0460 - SPORTS ECONOMICS

- ENGFLM 0585 - TECHNOLOGIES OF THE BODY or
- FMST 0790 - TECHNOLOGIES OF THE BODY

- ENGWRT 1393 - SPORTS WRITING
- FMST 1885 - BROADCASTING
- GSWS 0200 - SEX, RACE, AND POPULAR CULTURE
- GSWS 1130 - GENDERED BODIES
- HIST 1082 - WOMEN, GENDER AND SPORT *
- HIST 1083 - HISTORY OF SPORTS *
- HIST 1095 - SPORT AND GLOBAL CAPITALISM
- PHIL 1319 - ETHICS AND SPORT
- PS 1220 - SPORTS AND AMERICAN POLITICS
- RELGST 1428 - RELIGION AND SPORTS
- SOC 0465 - SOCIOLOGY OF SPORTS

Additional information

Internship credit

One three-credit internship may take the place of one elective course, pending approval by certificate oversight committee.

Grade Requirements

A minimum GPA of 2.0 is required for all courses that count toward the certificate.

Satisfactory/No Credit Option

Any number of courses that count toward this certificate may be taken on the S/NC basis.

For more information

If you have questions about the certificate or would like more information, email SportStudies@Pitt.edu.

Major

History, BA

We are all products of history. Imagine waking up one morning without any memory. How would you function in society? Even more importantly, how would society function if everyone's memory vanished? Students of history recover and analyze the past, preserving memory and learning from it. In doing so, they gain an appreciation of how crucial historical perspective is to being a well-informed, engaged citizen of both the United States and the world -- because historical literacy also entails the ability to understand people different from ourselves, an essential skill as all corners of the globe become increasingly connected.

Customary professional opportunities for History majors include teaching and law, and many History majors have gone on to graduate school in History and other fields. But the future for those who have studied the past can be almost anything. History majors succeed in many fields because they learn analytical and critical thinking skills and become adept in both oral and written communication. Careers of recent graduates bear this out. Our majors have gone on to jobs in business management, finance, tourism, government, medicine, and non-profits as well as taking advantage of opportunities in public history, archival work, historical societies, and museums.

Major Requirements

The History major requires completion of 36 credits, 18 of which must be at the 1000-level, distributed as follows.

Pre-1800 history course

Complete one course in pre-1800 history. A partial list of eligible courses follows.

- HIST 0089 - MAGIC, MEDICINE AND SCIENCE
- HIST 0100 - WESTERN CIVILIZATION 1
- HIST 0400 - EAST ASIAN CIVILIZATION TO 1800
- HIST 0500 - COLONIAL LATIN AMERICA
- HIST 0751 - ANCIENT WORLDS
- HIST 0755 - RELIGION IN ASIA
- HIST 0756 - INTRODUCTION TO ISLAMIC CIVILIZATION
- HIST 0788 - WOMEN AND MEN IN ANCIENT MEDITERRANEAN SOCIETY
- HIST 0795 - HISTORY OF AFRICA BEFORE 1800
- HIST 1110 - MEDIEVAL HISTORY 1
- HIST 1111 - MEDIEVAL HISTORY 2
- HIST 1115 - THE WEST AND THE WORLD
- HIST 1121 - TUDOR ENGLAND
- HIST 1190 - MEDIEVAL GOVERNMENT AND SOCIETY
- HIST 1191 - ENGLISH ORIGINS OF AMERICAN LAW
- HIST 1420 - ANCIENT CHINA
- HIST 1422 - LATE IMPERIAL CHINA

- HIST 1475 - EAST ASIAN BUDDHISM
- HIST 1476 - RELIGION AND HEALING IN CHINA
- HIST 1477 - RELIGION IN JAPAN
- HIST 1610 - UNITED STATES COLONIAL
- HIST 1611 - AMERICAN REVOLUTION 1763-1791
- HIST 1740 - BUDDHIST MEDITATIVE TRADITIONS
- HIST 1757 - RELIGION IN INDIA
- HIST 1765 - ISRAEL IN THE BIBLICAL AGE
- HIST 1775 - ORIGINS OF CHRISTIANITY
- HIST 1776 - VARIETIES OF EARLY CHRISTIANITY
- HIST 1781 - ROMAN HISTORY
- HIST 1783 - GREEK HISTORY

U.S. History survey course

Choose one of the following courses.

- HIST 0600 - UNITED STATES TO 1877
- HIST 0601 - UNITED STATES 1865-PRESENT
- HIST 0670 - AFRICAN AMERICAN HISTORY TO 1877
- HIST 0671 - AFRICAN AMERICAN HISTORY SINCE 1865

Global Understanding

Complete one course each in four of the following six categories.

- Africa
- Asia
- Europe
- Latin America
- Middle East
- World/Comparative

Concentration

Three additional courses are to be selected by the student with the help of a faculty member or the undergraduate advisor to form a chronological, geographic, or thematic concentration, which should normally be decided upon by the junior year.

Skills

Each student must take the following sequence of two courses.

HIST 1001 - INTRODUCTORY SEMINAR

HIST 1000 - CAPSTONE SEMINAR

HIST 1001 must be taken before enrolling in HIST 1000.

- HIST 1001 - INTRODUCTORY SEMINAR
- HIST 1000 - CAPSTONE SEMINAR

Elective History course

Complete any course offered by the Department of History.

Notes

The following rules and requirements apply for history majors.

- Students must earn at least a 2.00 overall GPA in history courses.
 - Majors may take a total of nine credits for the major on an S/NC basis. HIST 1000 - CAPSTONE SEMINAR or HIST 1001 - INTRODUCTORY SEMINAR may not be taken S/NC.
 - History majors are strongly encouraged to add an international dimension to their undergraduate education by studying abroad.
 - Students interested in graduate study in history should be aware that all graduate departments of history require proficiency in at least one second language and that many require competence in two languages for a PhD.
 - The honors program consists of the regular major plus six extra credits. Honors students must take the following courses.
 - Honors in history consists of fulfilling all requirements for the major, plus an additional six credits for a total of 42 credits.
 - HIST 1902 - WRITING: HISTORY HONORS SEMINAR (instead of HIST 1000; this course is offered only in the fall term)
 - HIST 1901 - INDEPENDENT STUDY
 - HIST 1903 - HONORS THESIS/MAJORS; students in this course write a paper of 25 to 50 pages
- Students may apply for the honors program in their sophomore year and upon completion of at least 12 credits in history. To apply, students must have a minimum 3.5 GPA in history courses, an overall GPA of at least 3.35, and submit a writing sample for approval by the Undergraduate Committee. The minimum letter grade requirement for honors students is B.

Internships for History Credit

History majors may do an internship for 3 credits (HIST 1900) in a local museum in either the fall or spring semesters. Contact the history academic advisor for information.

Study Abroad

Each year the department offers a scholarship for study abroad. Applications for the A. J. Schneider Award are due by February each year. Contact the history undergraduate advisor for more information.

Minor

History Minor

We are all products of history. Imagine waking up one morning without any memory. How would you function in society? Even more importantly, how would society function if everyone's memory vanished? Students of history

recover and analyze the past, preserving memory and learning from it. - HIST 1111 - MEDIEVAL HISTORY 2
- HIST 1115 - THE WEST AND THE WORLD
- HIST 1121 - TUDOR ENGLAND
- HIST 1190 - MEDIEVAL GOVERNMENT AND SOCIETY
- HIST 1191 - ENGLISH ORIGINS OF AMERICAN LAW
- HIST 1420 - ANCIENT CHINA
- HIST 1422 - LATE IMPERIAL CHINA
- HIST 1475 - EAST ASIAN BUDDHISM
- HIST 1476 - RELIGION AND HEALING IN CHINA
- HIST 1477 - RELIGION IN JAPAN
- HIST 1610 - UNITED STATES COLONIAL
- HIST 1611 - AMERICAN REVOLUTION 1763-1791
- HIST 1740 - BUDDHIST MEDITATIVE TRADITIONS
- HIST 1757 - RELIGION IN INDIA
- HIST 1765 - ISRAEL IN THE BIBLICAL AGE
- HIST 1775 - ORIGINS OF CHRISTIANITY
- HIST 1776 - VARIETIES OF EARLY CHRISTIANITY

- HIST 1781 - ROMAN HISTORY
- HIST 1783 - GREEK HISTORY

U.S. History survey course

Choose one of the following courses.

- HIST 0600 - UNITED STATES TO 1877
- HIST 0601 - UNITED STATES 1865-PRESENT
- HIST 0670 - AFRICAN AMERICAN HISTORY TO 1877
- HIST 0671 - AFRICAN AMERICAN HISTORY SINCE 1865

Global Understanding

Complete one course each in four of the following six categories.

- Africa
- Asia
- Europe
- Latin America
- Middle East
- World/Comparative

Concentration

Three additional courses are to be selected by the student with the help of a faculty member or the undergraduate advisor to form a chronological, geographic, or thematic concentration, which should normally be decided upon by the junior year.

Skills

Each student must take the following sequence of two courses.

- HIST 1001 - INTRODUCTORY SEMINAR
 - HIST 1000 - CAPSTONE SEMINAR
- HIST 1001 must be taken before enrolling in HIST 1000

Elective History course

Complete any course offered by the Department of History.

Notes

The following rules and requirements apply for history majors.

Students must earn at least a 2.00 overall GPA in history courses.

Majors may take a total of nine credits for the major on an S/NC basis. HIST 1000 - CAPSTONE SEMINAR or HIST 1001 - INTRODUCTORY SEMINAR may not be taken S/NC.

History majors are strongly encouraged to add an international dimension to their undergraduate education by studying abroad.

Students interested in graduate study in history should be aware that all graduate departments of history require proficiency in at least one second language and that many require competence in two languages for a PhD.

The honors program consists of the regular major plus six extra credits. Honors students must take the following courses.

Honors in history consists of fulfilling all requirements for the major, plus an additional six credits for a total of 42 credits.

HIST 1902 - WRITING: HISTORY HONORS SEMINAR (instead of HIST 1000 ; this course is offered only in the fall term)

HIST 1901 - INDEPENDENT STUDY

HIST 1903 - HONORS THESIS/MAJORS; students in this course write a paper of 25 to 50 pages

Students may apply for the honors program in their sophomore year and upon completion of at least 12 credits in history. To apply, students must have a minimum 3.5 GPA in history courses, an overall GPA of at least 3.35, and submit a writing sample for approval by the Undergraduate Committee. The minimum letter grade requirement for honors students is B.

Internships for History Credit

History majors may do an internship for 3 credits (HIST 1900) in a local museum in either the fall or spring semesters. Contact the history academic advisor for information.

Study Abroad

Each year the department offers a scholarship for study abroad. Applications for the A. J. Schneider Award are due by February each year. Contact the history undergraduate advisor for more information.

Department of History of Art and Architecture

Art, like science or language, is an intrinsically human way of organizing our experience of the world. Because it appeals to a fundamental sense of order, art can speak to us with immediacy even without knowledge of the purposes for which it was created and the particular principles or order adhered to by the artists of a given culture. Still deeper understanding may follow, however, from an awareness of these purposes and principles, and courses in art history are concerned with the study of art and architecture as cultural documents of the values and ideals of various cultures. Art history offers an opportunity to consider objects and environments that have been created in response to some of humanity's loftiest and most basic aims. The requirement that these visual expressions be analyzed and evaluated in the medium of words makes art history a rewarding area of humanistic study. The major in the history of art and architecture offered by the HAA department helps prepare individuals for careers calling for skills in writing, where description and analysis play important roles, as well as for careers more immediately related to art, such as those of critic, teacher, librarian, art administrator, or museum or gallery staff member.

The architectural studies major, also administered by the HAA department, offers a curriculum devoted to the study of human-made environments. The major components include history of architecture, studio arts, and a core curriculum that includes a survey of the history of architecture, the history of architecture theory, a professional internship, and a portfolio. The degree is suitable for a wide variety of careers and professions including the design and construction of the built environment, such as landscape architecture, interior design, restoration, historic preservation, real estate development, and contracting. These interests can be categorized in two groups:

- The preprofessional studies category prepares students for graduate professional training in any of the environmental design fields (architecture, interior design, landscape design, urban planning, and preservation). Students are able to explore a professional interest while acquiring a liberal arts education.
- The nonprofessional studies category is for students not interested in becoming professional architects. This program offers a rigorous curriculum that assists students in exploring their interest in environmental arts and criticism and provides an understanding of the environment's integral relationship with society and culture. Students of both categories should be fully aware that this degree in architectural studies does not in itself constitute professional or technical training. Students seeking recommendations to graduate professional programs in architecture must complete a number of natural science courses in addition to those focused on architecture and design. Proficiency in calculus is required for students seeking a career in architecture. The department strongly recommends that students successfully complete at least one term of college level calculus (MATH 0220 or equivalent) before graduation.

For more information on these majors and the History of Art Architecture department, see www.haa.pitt.edu.

Architectural Studies Major

This major offers students two options - the Design track and the Preservation Track.

Certificate

Digital Studies and Methods Certificate

The DSAM undergraduate certificate is designed to guide students through the process of gaining their own, deeply engaged, understanding of the ways in which digital technologies affect their lives on a daily basis. It also offers an approach to learning how to take these tools up--mindfully and intentionally--into the students' broader academic and career-focused practices. This certificate requires completion of 18 credits.

Gateway courses

Gateway courses comprise three to six credits toward this certificate. Three credits are applied if taken in a single course; six credits are applied if the courses are paired in an Academic Community.

The following two courses are included in the (De)Coding Representation Academic Community and comprise six credits toward the certificate.

- SA 0110 - VISUAL THINKING
- CMPINF 0010 - BIG IDEAS IN COMPUTING AND INFORMATION

- CS 0008 - INTRODUCTION TO COMPUTER PROGRAMMING WITH PYTHON
- ENGCMP 0425 - DIGITAL HUMANITY
- HAA 0425 - DIGITAL HUMANITY
- SA 0170 - DIGITAL STUDIO: CREATIVE CODING

Elective courses

Students will complete nine to 12 credits in elective courses selected from the following list. Courses from the Gateway list may also be applied as electives if not used for the Gateway requirement.

- ARC 1183 - DIGITAL ROMAN AFRICA: VISUALIZING ARCHITECTURE AND URBANISM IN ROMAN NORTH AFRICA
- CMPINF 0010 - BIG IDEAS IN COMPUTING AND INFORMATION
- CS 0008 - INTRODUCTION TO COMPUTER PROGRAMMING WITH PYTHON
- INFSCI 1022 - DATABASE MANAGEMENT SYSTEMS
- INFSCI 1044 - HUMAN FACTORS IN SYSTEM DESIGN
- INFSCI 1052 - USER CENTERED DESIGN
- INFSCI 1060 - GAME DESIGN
- ENGCMP 0425 - DIGITAL HUMANITY
- ENGCMP 0610 - COMPOSING DIGITAL MEDIA
- ENGCMP 0712 - CRITICAL MAKING
- ENGFLM 0570 - INTRODUCTION TO NEW MEDIA
- ENGFLM 0712 - CRITICAL MAKING
- ENGLIT 0512 - NARRATIVE AND TECHNOLOGY
- ENGLIT 0702 - INTRODUCTION TO GAME STUDIES
- ENGLIT 1002 - GAME, STORY, PLAY
- ENGLIT 1355 - VIRTUAL REALITY
- ENGWRT 0710 - INTRO TO AUDIO STORYTELLING
- ENGWRT 1451 - MULTIMEDIA ESSAY
- HAA 0425 - DIGITAL HUMANITY
- MUSIC 1441 - ELECTRONIC AND COMPUTER MUSIC 1
- MUSIC 1442 - ELECTRONIC MUSIC STUDIO
- MUSIC 1443 - PROGRAMMING ENVIRONMENTS IN MUSIC - AN INTRODUCTION TO MAX/MSP
- MUSIC 1450 - MUSIC PRODUCTION AND RECORDING
- SA 0110 - VISUAL THINKING
- SA 0170 - DIGITAL STUDIO: CREATIVE CODING
- SA 1270 - DIGITAL STUDIO: IMAGING
- THEA 1231 - STAGE LIGHTING 2
- THEA 1391 - SPECIAL TOPICS: THEATRE DESIGN

Springboard course

Students will complete three credits in an interdisciplinary springboard course.

Major

History of Art and Architecture, BA

The HAA major requires the completion of 29 credits. An intensive major option that requires 38 credits also exists; this option is highly recommended for students whose only major is HAA and/or who seek to embark on arts-related careers.

Core Courses

- HAA 0010 - INTRODUCTION TO WORLD ART
- HAA 0101 - FOUNDATIONS OF ART HISTORY
- HAA 0102 - PROSEMINAR FOR UNDERGRADUATE MAJORS

Students must take this 1-credit course twice. Those who are pursuing a second major should consult with the departmental advisor if completing this course twice might impede their academic progress.

One of the following courses

- HAA 1010 - APPROACHES TO ART HISTORY
- ARC 1160 - ARCHITECTURE: IMAGE, TEXT, THEORY

Nine additional courses, as follows

Beyond the core curriculum, students must take an additional six courses according to the following requirements. Student pursuing the intensive track must take an additional nine courses according to the following requirements.

Breadth Requirements

Students must take at least one class from each of the following areas.

- Ancient art across the globe
- Asian art
- European art before 1750
- Modern or Contemporary art

Additionally, students must complete at least two courses at the 1000-level that address Comparative or World art. Students pursuing the intensive option should take four courses at the 1000-level in these categories.

Studio Arts

Students may elect to take one of the following courses toward completion of their HAA major.

- SA 0110 - VISUAL THINKING
- SA 0120 - PAINTING STUDIO 1
- SA 0130 - DRAWING STUDIO 1
- SA 0140 - SCULPTURE STUDIO 1
- SA 0180 - PHOTO STUDIO 1

Honors requirements

Honors in the history of art and architecture is granted if the student satisfies all requirements for the intensive major, and:

- maintains a GPA of 3.5 or above in HAA courses;
- maintains an overall GPA of 3.25 or above;
- completes HAA 1950 - SENIOR THESIS with a minimum grade of A-, and;

- completes HAA 1951 - HONORS RESEARCH SEMINAR.
HAA 1950 can be applied toward the 1000-level requirement for the major.

Other requirements

Grade requirements: A minimum GPA of 2.0 in departmental courses is required for graduation.

Satisfactory/No Credit option: No course required for the major can be taken on an S/NC basis except HAA 1901, HAA 1903, HAA 1904, HAA 1905, and HAA 1909. These experiential learning courses **do not** count toward the 1000-level requirements.

Writing (W) requirement: Students must complete at least one W-course in the major. HAA 1010 is the W course for the HAA major.

Museum Studies, BA

Students in the Museum Studies program study the collection, preservation, archiving, and exhibition of historic objects, documents, and specimens from material culture, considering not only how museums and historic sites generate knowledge but also how they might partner with diverse communities in the future to enrich our understanding of what it means to be human and how we occupy the world, and thus foster inclusivity and equity.

A major in Museum Studies helps students gain an informed understanding of institutional histories and contexts, critical and theoretical approaches and ethical considerations. In addition by incorporating hands-on, active, and collaborative learning and internship-based experiences, the program is oriented toward professional development and practice. Finally the capstone experience is designed to provide students with the agency to determine what role they wish to play in their professional future. Students in the program develop an annual exhibition, receive close mentoring from faculty and peer cohorts, participate in collaborative research, and have the opportunity to either design their own extensive independent project or engage in a substantive project with a local museum, collection, archive, or historic site.

The Museum Studies major is ideal for students who wish to pursue careers in museums or other cultural institutions, libraries, historic sites, state and federal heritage sites, non-profit organizations, or community-based programs. A minor option is also available and requires 15 to 16 credits of coursework for completion.

The Museum Studies major requires the completion of 30 credits, distributed as follows.

Foundational Courses

All of the following courses are required.

- HAA 0010 - INTRODUCTION TO WORLD ART
- HAA 0101 - FOUNDATIONS OF ART HISTORY
- HAA 0125 - MUSEUMS: SOCIETY AND INCLUSION?

Skill Development

Students take two 1-credit workshops that are designed to interweave with the content-based curriculum that is the primary focus of the breadth courses.

Advanced Courses

Students will choose one course from the Museum History list and one course from the Museum Practice list.

Museum History

- HAA 1025 - HISTORY AND ETHICS OF COLLECTING
- HAA 1026 - EXHIBITIONS: FROM WORLD'S FAIRS TO GLOBAL BIENNIALS
- HAA 1027 - HERITAGE SITES
- HAA 1030 - SPECIAL TOPICS- MUSEUM HISTORIES

Museum Practice

- HAA 1019 - CURATORIAL DEVELOPMENT
- HAA 1021 - INSIDE THE MUSEUM
- HAA 1022 - EXHIBITION PRESENTATION
- HAA 1031 - SPECIAL TOPICS: MUSEUM PRACTICES
- HAA 1905 - MUSEUMS STUDIES INTERNSHIP *
This course has a pre- or co-requisite of HAA 0106 - MUSEUM STUDIES INTERNSHIP PREP WORKSHOP, which adds one credit to the major for students who pursue the internship option.

Capstone

Students will have the opportunity to complete an intensive independent project in lieu of participating in an internship experience.

Additional Information

Grade requirements

A minimum GPA of 2.0 in departmental courses is required for graduation.

Satisfactory/No Credit option

No course required for the major can be taken on an S/NC basis except HAA 1901, HAA 1903, HAA 1904, HAA 1905, and HAA 1909. These experiential learning courses do not count toward the 1000-level requirements.

Writing requirement

Students must complete at least one W-course in the major. HAA 1010 is the W course for the HAA major.

Honors major requirements

Honors in museum studies is granted if the student satisfies all requirements for the intensive major, and:

- maintains a GPA of 3.5 or above in required courses;

- maintains an overall GPA of 3.25 or above;
- completes HAA 1950 - SENIOR THESIS with a minimum grade of A-, and;
- Completes HAA 1951 - HONORS RESEARCH SEMINAR.
- HAA 1950 can be applied toward the 1000-level requirement for the major.

Minor

Museum Studies Minor

This minor is grounded in the department's historic strengths - to offer students a critically informed understanding of how cultural artifacts have been, are, and can be collected and curated. At its core, the goal of the Museum Studies Minor is to introduce students to the approaches, history, and theories of museum and collection practices.

Students pursuing the Museum Studies minor must complete the following coursework, which comprises 15 credits.

Two Foundation Courses

- HAA 0125 - MUSEUMS: SOCIETY AND INCLUSION?
- Any 'Art and its Publics' Course

Two Core Courses

Museum Histories

Select one of the following courses.

- HAA 1025 - HISTORY AND ETHICS OF COLLECTING
- HAA 1026 - EXHIBITIONS: FROM WORLD'S FAIRS TO GLOBAL BIENNIALS
- HAA 1027 - HERITAGE SITES
- HAA 1030 - SPECIAL TOPICS- MUSEUM HISTORIES

Museum Practices

Select one of the following courses.

- HAA 1019 - CURATORIAL DEVELOPMENT
- HAA 1021 - INSIDE THE MUSEUM
- HAA 1022 - EXHIBITION PRESENTATION
- HAA 1031 - SPECIAL TOPICS: MUSEUM PRACTICES
- HAA 1905 - MUSEUMS STUDIES INTERNSHIP *

Note

* HAA 1905 has a prerequisite of HAA 0106 - MUSEUM STUDIES INTERNSHIP PREP WORKSHOP, which will add one additional credit to the minor for students who pursue the internship option. The Academic Curator of the Department of History of Art and Architecture will work with Museum Studies minors to place them into appropriate internship positions.

Elective Course

Students take one additional course from the 'Art and Its Publics' list, a course from the 'Competency Course' list, or any of the above courses not previously applied to the minor.

Department of History and Philosophy of Science

Certificate

Conceptual Foundations of Medicine Certificate

This certificate requires completion of at least 18 credits. Students enrolled in the program are expected to achieve at least a letter grade of C in each required course. Those interested in pursuing this certificate must apply to the program as early as possible. Applications are available on the certificate's Web page, www.hps.pitt.edu/undergraduate/certificate.php.

Core courses

- HPS 0612 - MIND AND MEDICINE
- HPS 0613 - MORALITY AND MEDICINE

Biological Sciences courses

A two-term, college level course sequence in biology, such as BIOSC 0150 BIOSC 0150 - FOUNDATIONS OF BIOLOGY 1 and BIOSC 0160 BIOSC 0160 - FOUNDATIONS OF BIOLOGY 2 are required for this certificate.

Additional coursework

Two additional approved courses in two different departments dealing with social and conceptual issues in the biomedical sciences are required for this certificate. A list of such approved courses is available in the Department of History of Philosophy and Science prior to each term. Courses are approved on a term-by-term basis.

Other requirements

Grade Requirements: Students are expected to achieve a minimum grade of C in each course required for this certificate. A minimum overall GPA of 2.25 is required in courses required for this certificate.

Satisfactory/No Credit Option: No course that fulfills a requirement for this certificate may be taken on an S/NC basis.

Major

History and Philosophy of Science, BA

The study of the history and philosophy of science affords a broad appreciation of science, its nature and fundamentals, its origins and its place in modern politics, culture, and society. In the history of science, traditional historical methods are used to develop an understanding of how the sciences originated, how they were practiced, how they developed, and how they are related to their intellectual and social contexts. In philosophy of science, the sciences themselves are brought under philosophical scrutiny. We investigate the nature of science in general; what distinguishes scientific activity; how theories explain; how they are confirmed; whether they should be read literally; and the moral dilemmas raised by the sciences. We also investigate the fundamental content of individual sciences, and how it bears on the ancient philosophical questions: what is the nature of space, time, and matter; what is life; and what is thought. History and philosophy of science is distinctive in integrating history, philosophy, and science, with investigations in each that are often closely interwoven.

The Department of History and Philosophy of Science (HPS) at Pitt is a world leader in its field. Historians and philosophers of science worldwide come to Pitt for study and research. The undergraduate courses reflect the conviction that science and technology pervade every aspect of our lives, and have played a central role in cultural, religious, and philosophical development of our society.

A major in HPS is an excellent choice for students who wish to combine course work in the sciences with work in more humanistically inclined disciplines. Because HPS majors are expected to complete 15 hours of science credits, a double major in HPS and one of the sciences is especially attractive.

Required courses for the History and Philosophy of Science major

This major requires the completion of 12 courses distributed as follows.

One of the following Logic courses

- HPS 0611 - PRINCIPLES OF SCIENTIFIC REASONING
- PHIL 0500 - INTRODUCTION TO LOGIC

Both of the following

- HPS 1653 - INTRO TO PHILOSOPHY OF SCIENCE *
 - HPS 1702 - JR/SR SEMINAR FOR HPS MAJORS
- * The Logic requirement must be completed before taking HPS 1653.

HPS electives

Students must complete four HPS elective courses, one of which must be at the 1000-level. At least one course must be a history of science course.

Natural and/or Social Science electives

Students are required to complete at least four courses in the natural sciences, social sciences, or a combination of both. Majors must pursue at least one science course at an advanced (non-introductory) level. Students are strongly encouraged to choose these courses in consultation with the major advisor.

Grade requirements

A minimum GPA of 2.0 in courses that count toward the major is required for graduation.

Satisfactory/No Credit option

No course that counts toward the major can be taken on an S/NC basis.

Writing (W) requirement

Students must complete HPS 1703 - WRITING WORKSHOP FOR HPS MAJORS for HPS Majors in conjunction with HPS 1702 - JR/SR SEMINAR FOR HPS MAJORS.

Declaring the major

Before students officially declare the History and Philosophy of Science major, they must have completed two HPS courses with a grade of B- or better and have permission from the major advisor.

Advising

Paolo Palmieri
CL 1017

PAP7@Pitt.edu

Jewish Studies Program

The Jewish Studies Program, an interdisciplinary program in the School of Arts and Sciences, offers courses and academic programs devoted to the exploration of Jewish history, culture, religion, thought, and literary and artistic expression. Faculty is drawn from the departments of Religious Studies, Anthropology, English, French and Italian Languages and Literatures, German, History, and Political Science.

Certificate

Jewish Studies Certificate

The Jewish Studies Certificate is open to all students interested in the Hebrew language and the history and culture of the Jewish people and their contributions to Western civilization. In the historical courses, emphasis is on the interaction of the Jewish people with their neighbors, as well as the development of distinctive cultural and religious values. Information is also available on opportunities for intensive study in Israel. The Jewish Studies certificate offers undergraduates the opportunity to supplement work in their chosen majors with an interdisciplinary course of study.

Requirements

The certificate requires 16 to 20 credits, dependent upon initial Hebrew language placement. The credits are distributed as follows.

Required Hebrew courses

Students must complete at least one course (three credits) in Hebrew language at Hebrew 2 or above. JS 0013 - ELEMENTARY HEBREW 1 does not count toward the certificate, but it is a requirement for enrolling in JS 0014 - ELEMENTARY HEBREW 2.

- JS 0014 - ELEMENTARY HEBREW 2
- JS 0025 - INTERMEDIATE HEBREW 3
- JS 0026 - INTERMEDIATE HEBREW 4

Jewish Studies courses

Students must complete at least three Jewish Studies courses. One of these courses can be a Hebrew language course. A non-JS course that has significant Jewish Studies content can count for one of the three courses with approval from the Director of Undergraduate Studies.

Capstone course

At least one course (three credits) in a capstone project, additional advanced coursework, or experiential learning through one of the following courses.

- JS 1900 - INTERNSHIP
- JS 1903 - DIRECTED RESEARCH-UNDERGRADUATE
- JS 1904 - UNDERGRADUATE RESEARCH ASSISTANTSHIP
- JS 1905 - UNDERGRADUATE TEACHING ASSISTANT
- Advanced work in Hebrew in JS 0037 - ADVANCED HEBREW 5 or beyond.
- Submission of a capstone research paper on a Jewish Studies topic written for a major or another certificate.

Portfolio Essay and Independent Study

One credit of JS 1901 - INDEPENDENT STUDY taken in the final semester of work for certificate (can be concurrent with capstone) in which student develops reflective essay and portfolio of work in Jewish Studies under direction of certificate advisor.

- JS 1901 - INDEPENDENT STUDY

Grade Requirements

Grade Requirements

A minimum GPA of 2.0 is required in each course that counts toward the certificate.

Satisfactory/No Credit Option

No courses that count toward the certificate may be taken on the Satisfactory/No Credit (S/NC) basis except for JS 1900, JS 1904, and JS 1905.

Other Requirements and Restrictions

At least nine credits must be taken at Pitt. Placement in Hebrew to count toward the certificate is based on a written test and an oral interview.

Department of Linguistics

Linguistics is concerned with the study of language as a core property of human cognition and interaction. It is a broad field that straddles the humanities, social sciences, and natural sciences. Major areas of study in linguistics include the following fields:

- Applied linguistics: second-language learning theory, literacy, bilingual education
- Computational linguistics: natural language generation, knowledge representation and artificial intelligence, recognition of systems
- Theoretical linguistics: development of psychologically plausible models of language sound systems, word structure, sentence and discourse structure, meaning
- Historical and comparative linguistics: study of language history, both language change and relationships among languages
- Descriptive-anthropological linguistics: documentation and analysis of languages, especially little-known languages through field work
- Psycholinguistics: research on such topics as sentence processing, problems in reading, how children acquire their first language (childhood language acquisition)
- Sociolinguistics: study of language use and socially controlled variation in form, conversation and narrative discourse, social trends reflected in language use, political aspects of language use

Careers in linguistics include teaching English as a second language and other languages including American Sign Language; computational linguistic research in industry and public agencies; field research on endangered languages and cultures; research and teaching at the university level; careers in publishing and advertising; speech pathology and rehabilitation; translation and interpreting; law; and governmental consulting on language policies. Most careers in linguistics require graduate training.

Many, but certainly not all, people come to linguistics through a love of languages. However, love of languages itself is not sufficient to ensure success and happiness as a linguistics major. The student must also enjoy analytical thought, as linguists employ analytical tools in the study of human languages. Students considering a major in linguistics should take the introductory linguistics course (LING 1950 - INTRODUCTION TO LINGUISTICS) at their earliest opportunity to help gauge if the major is right for them. The linguistics major gives students a solid foundation in the central areas of linguistic theory and analysis. The structure of human language (its sounds, word structures, and syntax) is the focus of the linguistics courses required for the major. In addition, the major's language requirement is designed to make sure students acquire a perspective on linguistic structures besides those of their native language and at least some exposure to one language that is structurally very unlike English. For more information on the major or the Department of Linguistics, see www.linguistics.pitt.edu.

Certificate

American Sign Language Certificate

The Department of Linguistics offers an undergraduate Certificate in American Sign Language (ASL). This certificate program should lead students to: a high degree of proficiency in ASL; an understanding of the structure of ASL as a visual/gestural language; and an understanding of important issues in deaf culture and education.

This certificate program could conveniently accompany various undergraduate majors including, but not limited to, linguistics, communication science, and various undergraduate disciplines that serve as the basis for graduate-level degrees and certificates in the University of Pittsburgh School of Education. The program draws on the academic

strengths and resources of the Department of Linguistics in the Faculty of Arts and Sciences and the Department of Instruction and Learning in the School of Education.

Currently, there is a limit of 20 students per academic year who can enroll in the ASL certificate program. For this reason, each applicant will be required to go through an evaluation process. Applications are accepted early during the spring term of each academic year, and students will be notified of their acceptance or non-acceptance into the program before registering for fall classes. Please contact the Less-Commonly-Taught Languages Center, CL G-47, for application packets or more information (lctl@pitt.edu, 412-624-5512).

Requirements

Prerequisites

Students must pass the prerequisite courses with a letter grade of B or higher.

- ASL 0101 - AMERICAN SIGN LANGUAGE 1
- ASL 0102 - AMERICAN SIGN LANGUAGE 2

Required courses (18 credits)

Category 1

- ASL 0103 - AMERICAN SIGN LANGUAGE 3
- ASL 0104 - AMERICAN SIGN LANGUAGE 4

Category 2

- ASL 1615 - DEAF CULTURE

Category 3

Students must complete one of the following courses.

- LING 1000 - INTRODUCTION TO LINGUISTICS
- CSD 1020 - NATURE OF LANGUAGE

Category 4

Students must complete one of the following courses.

- ASL 1705 - STRUCTURE OF SIGN LANGUAGES
- ASL 1715 - STRUCTURE OF ASL AND ENGLISH

Category 5

Students must complete one of the following courses.

- ASL 1635 - ANALYSES OF ASL LITERATURE

- ASL 1725 - SOCIOLINGUISTICS OF SIGN LANGUAGE
- ASL 1800 - INTRODUCTION TO ASL-ENGLISH INTERPRETING
- ASL 1909 - TOPICS IN SIGN LANGUAGE STUDIES

Other requirements

Grade Requirements: A minimum GPA of 2.0 is required in each course that counts toward the certificate.

Satisfactory/No Credit Option: There is no limit to the number of courses that can be taken on the S/NC basis for this certificate. The two prerequisite courses must be taken for a letter grade.

Arabic Language and Linguistics Certificate

The Department of Linguistics offers an undergraduate certificate in Arabic Language and Linguistics. This certificate program should lead students to:

- an intermediate to advanced proficiency in Modern Standard Arabic (formal Arabic) and at least one Arabic dialect;
- an understanding of the linguistic structure of Arabic;
- an understanding of important issues in Arabic literature and culture; and
- exposure to authentic Arabic reading and listening materials, and discussion of general topics of interest in the Arab world in Arabic.

The certificate program could conveniently accompany several undergraduate majors including, but not limited to, linguistics, political science, communication science, and various undergraduate disciplines that serve as the basis for graduate-level degrees and certificates in the schools of education, law, and others.

Students who are interested in the Arabic Language and Linguistics Certificate can apply for the program after they complete the prerequisites for the certificate which is the completion of two semesters of the language with an average B grade or higher. However, students could also apply for the certificate any time before their graduation if they complete the requirements by then. Contact the Arabic coordinator, Amani Attia (ama66@pitt.edu) for advice on course planning, and to submit the application packet, which consists of three forms to be filled out by candidates. This certificate requires 32-34 credits for completion.

Prerequisite dialect courses

Students must complete two semesters of Modern Standard Arabic in one dialect - Egyptian or Levantine, with a letter grade of B or higher to declare the certificate. In addition to the prerequisite courses, the certificate requires 22-23 credits of course work as described.

Choose one of the following pairs of courses.

Egyptian

- ARABIC 0101 - MODERN STANDARD ARABIC 1/EGYPTIAN 1
- ARABIC 0102 - MODERN STANDARD ARABIC 2/EGYPTIAN 2

Levantine

- ARABIC 0121 - MODERN STANDARD ARABIC 1/LEVANTINE 1

- ARABIC 0122 - MODERN STANDARD ARABIC 2/LEVANTINE 2

Required Courses:

Two additional courses in the same dialect

In some cases, students could change from one dialect track to the other, based on study abroad needs, schedule conflicts, or other factors. The student must show a certain level of proficiency in the target dialect. Contact Arabic coordinator (ama66@pitt.edu) for advice on this issue.

Egyptian

- ARABIC 0103 - MODERN STANDARD ARABIC 3/EGYPTIAN 3
- ARABIC 0104 - MODERN STANDARD ARABIC 4/EGYPTIAN 4

Levantine

- ARABIC 0123 - MODERN STANDARD ARABIC 3/LEVANTINE 3
- ARABIC 0124 - MODERN STANDARD ARABIC 4/LEVANTINE 4

Introductory linguistics courses

- ARABIC 1705 - INTRODUCTION TO ARABIC LINGUISTICS
- LING 1000 - INTRODUCTION TO LINGUISTICS

Arabic culture course

Students must complete one of the following courses.

- ARABIC 1615 - ARABIC LIFE AND THOUGHT
- ARABIC 1635 - INTRODUCTION TO MODERN ARABIC LITERATURE

Arabic related elective

Students must complete one of the following courses. Dialect courses must follow previous coursework.

- ARABIC 0105 - MODERN STANDARD ARABIC 5/EGYPTIAN 5
- ARABIC 0106 - MODERN STANDARD ARABIC 6/EGYPTIAN 6
- ARABIC 0125 - MODERN STANDARD ARABIC 5/LEVANTINE 5
- ARABIC 0126 - MODERN STANDARD ARABIC 6/LEVANTINE 6
- ARABIC 1615 - ARABIC LIFE AND THOUGHT
- ARABIC 1635 - INTRODUCTION TO MODERN ARABIC LITERATURE
- ARABIC 1909 - SPECIAL TOPICS IN ARABIC
- ECON 0640 - ECONOMIC DEVELOPMENT OF THE MIDDLE EAST AND NORTH AFRICA (MENA) REGION
- HIST 0756 - INTRODUCTION TO ISLAMIC CIVILIZATION or
- RELGST 0455 - INTRODUCTION TO ISLAMIC CIVILIZATION

- PS 1351 - GOVERNMENT AND POLITICS OF THE MIDDLE EAST

Major

Arabic Major

****On 09-03-2024, the following information was updated in the published catalog in an effort to provide accurate information.****

The Arabic major requires a total of 47 credits, including pre-requirements.

Pre-requisites: 4 semesters of the Modern Standard Arabic and a dialect, Egyptian or Levantine (18 credits). Students can test out of pre-requisite courses if they already have knowledge of the language (e.g., via courses at another University).

Modern Standard Arabic Egyptian 1 (ARABIC 0101) **or** Modern Standard Arabic Levantine 1 (ARABIC 0121) **5 credits**

Modern Standard Arabic Egyptian 2 (ARABIC 0102) **or** Modern Standard Arabic Levantine 2 (ARABIC 0122) **5 credits**

Modern Standard Arabic Egyptian 3 (ARABIC 0103) **or** Modern Standard Arabic Levantine 3 (ARABIC 0123) **4 credits**

Modern Standard Arabic Egyptian 4 (ARABIC 0104) **or** Modern Standard Arabic Levantine 4 (ARABIC 0124) **4 credits**

Complete the following four language courses based on the track chosen (Egyptian or Levantine).

Complete two courses from either Egyptian or Levantine.

ARABIC 0105 - MODERN STANDARD ARABIC 5/EGYPTIAN 5 **or** ARABIC 0125 - MODERN STANDARD ARABIC 5/LEVANTINE 5

ARABIC 0106 - MODERN STANDARD ARABIC 6/EGYPTIAN 6 **or** ARABIC 0126 - MODERN STANDARD ARABIC 6/LEVANTINE 6

Complete Readings in Arabic.

ARABIC 1115 - READINGS IN ARABIC

Complete Special Topics in Arabic.

ARABIC 1909 - SPECIAL TOPICS IN ARABIC

Complete two Core courses.

Complete one culture course.

ARABIC 1615 - ARABIC LIFE AND THOUGHT

Complete one Literature/Linguistics course.

ARABIC 1635 - INTRODUCTION TO MODERN ARABIC LITERATURE

ARABIC 1705 - INTRODUCTION TO ARABIC LINGUISTICS

Complete a Capstone course which also satisfies the Writing requirement.

ARABIC 1620 - ARAB CINEMA

Complete two elective courses.

(these courses cannot be used for more than one requirement)

ARABIC 1635 - INTRODUCTION TO MODERN ARABIC LITERATURE

ARABIC 1645 - GLOBAL ISSUES IN LITERATURE

ARABIC 1705 - INTRODUCTION TO ARABIC LINGUISTICS

AFRCNA 0127 - INTRODUCTION TO AFRICA

ANTH 1737 - SPECIAL TOPICS IN CULTURAL ANTHROPOLOGY

HAA 1103 - RELIGIONS OF ANCIENT EGYPT

HIST 0712 - A GLOBAL HISTORY OF TERRORISM

HIST 0756 - INTRODUCTION TO ISLAMIC CIVILIZATION

HIST 0400 - EAST ASIAN CIVILIZATION TO 1800

HIST 0755 - RELIGION IN ASIA

HIST 0475 - RELIGION AND CULTURE IN EAST ASIA

HIST 0756 - INTRODUCTION TO ISLAMIC CIVILIZATION

HIST 0753 - RISE OF ISLAM: 500-1200 CE

HIST 1794 - ISLAM, LAW, AND POLITICS

HIST 1766 - MODERN ISRAEL AND PALESTINE

JS 1475 - RELIGIOUS DIVERSITY

MUSIC 1356 - MUSIC IN THE MIDDLE EAST

PIA 2424 - POLITICS, DEVELOPMENT AND CONFLICT IN THE MIDDLE EAST

PS 1371 - ISLAM, LAW, AND POLITICS

PS 1351 - GOVERNMENT AND POLITICS OF THE MIDDLE EAST

PS 1351 - GOVERNMENT AND POLITICS OF THE MIDDLE EAST

RELGST 1456 - ISLAM IN ASIA

RELGST 0505 - RELIGION IN ASIA

RELGST 1458 - WOMEN AND ISLAM IN ASIA

RELGST 0710 - SOCIOLOGY OF RELIGION

RELGST 1256 - MODERN ISRAEL AND PALESTINE

RELGST 1170 - ARCHAEOLOGY OF ISRAEL-PALESTINE

RELGST 1450 - ISLAM, LAW, AND POLITICS

RELGST 0105 - RELIGIONS OF THE WEST

RELGST 0455 - INTRODUCTION TO ISLAMIC CIVILIZATION

RELGST 1148 - RELIGIONS OF ANCIENT EGYPT

RELGST 1455 - ISLAM IN EUROPE

RELGST 1475 - RELIGIOUS DIVERSITY

GSWS 1150 - TRANSNATIONAL FEMINISMS

Arabic major additional information and requirements

- Each required course for the Arabic major must be completed with a grade of C or better.
- Please contact the Arabic advisor if:
 - you had taken Arabic related courses in Study abroad or in other school that could count towards the major.
 - there are other courses in Pitt that could count as an elective and are not listed.
 - you have prior knowledge of Arabic and could test out of language classes.
- No more than six credits can be taken on the Satisfactory/No Credit S/NC grade basis and used towards the Arabic major.

Linguistics, BA

The Department of Linguistics is known internationally for its strength in the areas of second language acquisition, applied linguistics, TESOL, and American Indian languages. Like many linguistics programs in the United States, the department is centrally concerned with core areas of linguistic theory. It also emphasizes the importance of the applied and descriptive endeavors. The areas of expertise of the faculty are theoretical and descriptive linguistics, Hispanic linguistics, sociolinguistics, psycholinguistics, and second language acquisition. The department prides itself on its collegial atmosphere and close cooperation between faculty and students.

A major in linguistics gives students a solid foundation in the central areas of linguistic theory and analysis. The structure of human language (its sounds, word structures, and syntax) is the focus of the linguistics courses required for the major. Additionally, the major's language requirement ensures that students acquire a perspective on linguistic structures outside of their native language, and that they receive some exposure to at least one language that is structurally unlike English. Students considering a major in linguistics should take LING 1000 - INTRODUCTION TO LINGUISTICS at their earliest opportunity to gauge if the major is right for them.

In addition to formal instruction provided by the department, students are encouraged to take courses in related departments such as anthropology and psychology. Students who wish to combine their work in linguistics with training in a specific cultural area may simultaneously earn a certificate in Asian, Latin American, Russian and East European, West European, or European Union Studies through the University Center for International Studies (UCIS). The department is also home to the English Language Institute, the Robert Henderson Language Media Center, and the Less-Commonly-Taught Languages Center.

Careers in linguistics include teaching English as a second language and teaching other languages including American Sign Language; computational linguistics research in industry and public agencies; field research on endangered languages and cultures; research and teaching at the university level; careers in publishing and advertising; speech pathology and rehabilitation; translation and interpreting; law; and governmental consulting on language policies. Most careers in linguistics require graduate training.

The major in Linguistics requires 30 credits of coursework, distributed as follows.

Core courses

Complete all of the following courses.

- LING 1000 - INTRODUCTION TO LINGUISTICS
- LING 1578 - PHONETICS AND PHONEMICS or LING 1878 - ACCELERATED PHONETICS AND PHONEMICS
- LING 1579 - PHONOLOGY or LING 1879 - ACCELERATED PHONOLOGY
- LING 1773 - MORPHOLOGY or LING 1873 - ACCELERATED MORPHOLOGY
- LING 1777 - SYNTACTIC THEORY or LING 1877 - ACCELERATED SYNTACTIC THEORY

Language, Linguistics, or Semantics

Complete one of the following courses.

- LING 1267 - ASPECTS OF SOCIOLINGUISTICS
- LING 1330 - INTRODUCTION TO COMPUTATIONAL LINGUISTICS
- LING 1580 - LANGUAGE AND THE MIND
- LING 1682 - INTRODUCTION TO SEMANTIC THEORY
- LING 1738 - LINGUISTIC STRUCTURES OF ENGLISH
- LING 1860 - INTRO TO HISTORICAL LINGUISTICS

Methods

Complete one of the following courses.

- LING 1269 - LINGUISTIC VARIATION AND CHANGE
- LING 1340 - DATA SCIENCE FOR LINGUISTS
- LING 1441 - FIELD METHODS IN LINGUISTICS
- LING 1810 - STATISTICS FOR RESEARCH IN LINGUISTICS
- LING 1820 - LINGUISTICS IN THE LAB
- LING 1844 - RESEARCH METHODS

Capstone course

Complete one of the following courses.

- LING 1900 - LINGUISTICS CONSULTING/INTERNSHIP: CONNECTING LINGUISTICS TO THE COMMUNITY AND INDUSTRY
- LING 1903 - DIRECTED RESEARCH
- LING 1930 - APPLICATIONS OF LINGUISTICS

Elective courses

Students are required to complete two LING 1000-level elective courses.

Language courses

Students are required to complete one semester of language study that is not Romance (including Latin), Germanic, Balto-Slavic, or Greek. This requirement is in addition to the two terms of language study required of students who are not exempt from the second language requirement for the Dietrich School of Arts and Sciences.

Other requirements and conditions

Grade requirements: A minimum GPA of 2.0 in departmental courses and LING 1000 is required for graduation.

Satisfactory/No Credit option: No more than two LING courses that count toward the major can be taken on an S/NC basis.

Writing (W) requirement: Students must complete at least one W-course in the major.

Minor

Arabic Minor

****On 09/05/2024 the following information was updated in the published catalog in an effort to provide accurate information.****

The 24-credit Arabic minor consists of four language courses, one culture course or one linguistics course, and one elective course. A fifth semester of the Arabic language would satisfy the elective requirement. The Arabic minor can easily be completed with regular Arabic program language offerings. Also offered are English-medium content courses to satisfy the minor elective requirement. Some of the elective options are offered through the Less-Commonly-Taught-Languages Center and the Department of Linguistics, and the rest are offered through other departments across the Dietrich School.

Complete the following four language courses.

(Choose from Egyptian or Levantine)

- ARABIC 0101 - MODERN STANDARD ARABIC 1/EGYPTIAN 1
or
- ARABIC 0121 - MODERN STANDARD ARABIC 1/LEVANTINE 1
- ARABIC 0102 - MODERN STANDARD ARABIC 2/EGYPTIAN 2

or

- ARABIC 0122 - MODERN STANDARD ARABIC 2/LEVANTINE 2
- ARABIC 0103 - MODERN STANDARD ARABIC 3/EGYPTIAN 3
- **or**
- ARABIC 0123 - MODERN STANDARD ARABIC 3/LEVANTINE 3
- ARABIC 0104 - MODERN STANDARD ARABIC 4/EGYPTIAN 4
- **or**
- ARABIC 0124 - MODERN STANDARD ARABIC 4/LEVANTINE 4

Complete one culture or linguistics course.

- ARABIC 1615 - ARABIC LIFE AND THOUGHT
- ARABIC 1620 - ARAB CINEMA
- ARABIC 1635 - INTRODUCTION TO MODERN ARABIC LITERATURE
- ARABIC 1645 - GLOBAL ISSUES IN LITERATURE
- ARABIC 1705 - INTRODUCTION TO ARABIC LINGUISTICS

Complete one elective course.

(A fifth semester of the Arabic language would also satisfy this requirement).

(these courses cannot be used for more than one requirement)

- ARABIC 0105 - MODERN STANDARD ARABIC 5/EGYPTIAN 5
- **or**
- ARABIC 0125 - MODERN STANDARD ARABIC 5/LEVANTINE 5
- ARABIC 1615 - ARABIC LIFE AND THOUGHT
- ARABIC 1620 - ARAB CINEMA
- ARABIC 1635 - INTRODUCTION TO MODERN ARABIC LITERATURE
- ARABIC 1645 - GLOBAL ISSUES IN LITERATURE
- ARABIC 1705 - INTRODUCTION TO ARABIC LINGUISTICS
- AFRCNA 0127 - INTRODUCTION TO AFRICA
- ANTH 1737 - SPECIAL TOPICS IN CULTURAL ANTHROPOLOGY
- HAA 1103 - RELIGIONS OF ANCIENT EGYPT
- HIST 0712 - A GLOBAL HISTORY OF TERRORISM
- HIST 0400 - EAST ASIAN CIVILIZATION TO 1800
- HIST 0755 - RELIGION IN ASIA
- HIST 0475 - RELIGION AND CULTURE IN EAST ASIA
- HIST 0756 - INTRODUCTION TO ISLAMIC CIVILIZATION
- HIST 0753 - RISE OF ISLAM: 500-1200 CE
- HIST 1794 - ISLAM, LAW, AND POLITICS
- HIST 1766 - MODERN ISRAEL AND PALESTINE
- JS 1475 - RELIGIOUS DIVERSITY
- MUSIC 1356 - MUSIC IN THE MIDDLE EAST
- PIA 2424 - POLITICS, DEVELOPMENT AND CONFLICT IN THE MIDDLE EAST

- PS 1371 - ISLAM, LAW, AND POLITICS
- PS 1351 - GOVERNMENT AND POLITICS OF THE MIDDLE EAST
- RELGST 1456 - ISLAM IN ASIA
- RELGST 0505 - RELIGION IN ASIA
- RELGST 1458 - WOMEN AND ISLAM IN ASIA
- RELGST 0710 - SOCIOLOGY OF RELIGION
- RELGST 1256 - MODERN ISRAEL AND PALESTINE
- RELGST 1170 - ARCHAEOLOGY OF ISRAEL-PALESTINE
- RELGST 1450 - ISLAM, LAW, AND POLITICS
- RELGST 0105 - RELIGIONS OF THE WEST
- RELGST 0455 - INTRODUCTION TO ISLAMIC CIVILIZATION
- RELGST 1148 - RELIGIONS OF ANCIENT EGYPT
- RELGST 1455 - ISLAM IN EUROPE
- RELGST 1475 - RELIGIOUS DIVERSITY
- GSWS 1150 - TRANSNATIONAL FEMINISMS

Arabic minor additional information

- Please contact the Arabic advisor if:
 - you had taken Arabic related courses in Study abroad or in other school that could count towards the minor.
 - there are other courses in Pitt that could count as an elective and are not listed.
 - you have prior knowledge of Arabic and could test out of language classes.

Hindi Minor

This minor requires 17 credits of coursework to complete.

Language courses

- HINDI 0101 - HINDI 1
- HINDI 0102 - HINDI 2
- HINDI 0103 - HINDI 3
- HINDI 0104 - HINDI 4

Electives

Choose one course from the following list. Other courses that focus at least 25% effort on Hindi or South Asia may fulfill this requirement with approval from the Less-Commonly-Taught Languages Center.

- HINDI 0105 Hindi 5
- HINDI 0106 Hindi 6
- HINDI 1909 - SPECIAL TOPICS IN HINDI
- LING 1263 - CROSS-CULTURAL COMMUNICATION
- LING 1951 - LANGUAGES OF THE WORLD

- ANTH 0730 - HIMALAYAN GEOGRAPHY
- ANTH 1764 - CULTURES AND SOCIETIES OF INDIA
- ANTH 1801 - HIMALAYAN BIODIVERSITY
- ENGFLM 1410 - BOLLYWOOD AND INDIAN CINEMA
- HIST 0755 - RELIGION IN ASIA
- HIST 1707 - GENDER IN GLOBAL HISTORY
- HIST 1757 - RELIGION IN INDIA
- HIST 1758 - HINDU MYTHOLOGY
- RELGST 0505 - RELIGION IN ASIA
- RELGST 1500 - RELIGION IN INDIA
- RELGST 1510 - HINDU MYTHOLOGY

Hungarian Minor

The Hungarian minor requires 17 credits for completion, described as follows.

Students taking Hungarian learn to speak, listen, read and write in the language, just as students in other language courses do. In addition, students of Hungarian stand out as individuals with a rare skill, which may put them at an advantage for future job opportunities. Students pursuing this minor may also be interested in the Russian and Eastern Europe or the European Union Studies certificates offered by the University Center for International Studies.

Required courses

Students must complete the following language courses.

Elective course

Students must complete one of the following courses. Optionally, a student may seek approval from the Less-Commonly-Taught Languages Center to substitute a course in another department that has at least a 25% on Hungary or Hungarian culture.

- LING 1263 - CROSS-CULTURAL COMMUNICATION
- LING 1951 - LANGUAGES OF THE WORLD
- ENGLIT 0380 - SLOVAK TRANSATLANTIC CULTURES
- ENGFLM 1226 - EASTERN EUROPEAN COMMUNISM AT THE MOVIES
- HIST 0200 - BETWEEN KAFKA AND HITLER: HOW CENTRAL EUROPE SHAPED THE MODERN WORLD
- HIST 1226 - EASTERN EUROPEAN COMMUNISM AT THE MOVIES
- MUSIC 1360 - ROMANI / GYPSY MUSIC
- PS 1521 - EASTERN EUROPE IN WORLD POLITICS
- SLAV 1865 - THE YEAR COMMUNISM CRUMBLED
- SLOVAK 0380 - SLOVAK TRANSATLANTIC CULTURES

Irish Minor

This minor requires 17 credits of coursework to complete.

Language courses

Electives

Choose one course from the following list. Other courses that focus at least 25% effort on Irish or Ireland may fulfill this requirement with approval from the Less-Commonly-Taught Languages Center.

- IRISH 0105 - IRISH (GAEILGE) 5
- IRISH 0106 - IRISH (GAEILGE) 6
- IRISH 1615 - IRISH CULTURE AND TRADITIONS
- IRISH 1909 - SPECIAL TOPICS IN IRISH
- LING 1263 - CROSS-CULTURAL COMMUNICATION
- LING 1951 - LANGUAGES OF THE WORLD
- ENGLM 1192 - IRISH FILM
- ENGLIT 0815 - IRISH LITERATURE
- HIST 0150 - HISTORY OF MODERN IRELAND
- HIST 1016 - THE IRISH IN AMERICA
- HIST 1124 - NORTHERN IRELAND: THE TROUBLES - 1969-1994

Linguistics Minor

An undergraduate minor in linguistics would be particularly useful for students majoring in English, foreign languages, philosophy, anthropology, psychology, sociology, communications, speech science, neuroscience, computer science, and information science, as well as for students with an interest in teaching English as a second language, going to law school, or otherwise choosing a profession in which language plays a crucial part.

Academic Requirements

The minor consists of 15 credits and comprises the following courses:

- LING 1000 - INTRODUCTION TO LINGUISTICS
 - LING 1578 - PHONETICS AND PHONEMICS
 - LING 1777 - SYNTACTIC THEORY
 - Two electives, chosen from the linguistics courses at the 1000 level (e.g. Syntax, Phonetics, Phonology, Morphology, Historical Linguistics, Aspects of Sociolinguistics, Introduction to Applied Linguistics, and more)
- Please note that courses that already counted toward other certificates (ASL, Arabic) or minors may not double count. For example, if you took LING 1520 Introduction to Arabic Linguistics for your Arabic certificate, it cannot be applied toward your Ling Minor.

Modern Greek Minor

This minor requires 17 credits of coursework to complete.

Language courses

- GREEKM 0101 - GREEK (MODERN) 1
- GREEKM 0102 - GREEK (MODERN) 2
- GREEKM 0103 - GREEK (MODERN) 3
- GREEKM 0104 - GREEK (MODERN) 4

Electives

Choose one course from the following list. Other courses that focus at least 25% effort on Modern Greek, Greece, or Cyprus may fulfill this requirement with approval from the Less-Commonly-Taught Languages Center.

- GREEKM 0105 - GREEK (MODERN) 5
- GREEKM 0106 - GREEK (MODERN) 6
- GREEKM 1615 - THE GREEKS: JOURNEY THROUGH CULTURE
- GREEKM 1909 - SPECIAL TOPICS IN MODERN GREEK
- LING 1263 - CROSS-CULTURAL COMMUNICATION
- LING 1951 - LANGUAGES OF THE WORLD
- CLASS 0010 - GREEK CIVILIZATION
- CLASS 0030 - MYTHOLOGY IN THE ANCIENT WORLD
- CLASS 0032 - ATHLETICS OF THE ANCIENT WORLD
- CLASS 1130 - CLASSICAL MYTHOLOGY AND LITERATURE
- CLASS 1210 - GREEK HISTORY
- CLASS 1510 - GREEK ART
- CLASS 1630 - MARGINALITY IN THE ANCIENT GREEK WORLD
- ECON 1680 - ECONOMICS OF THE EUROPEAN UNION
- HAA 1110 - GREEK ART
- HIST 1164 - SMALL COUNTRIES AND THE EUROPEAN UNION
- HIST 1783 - GREEK HISTORY
- RELGST 0083 - MYTHOLOGY IN THE ANCIENT WORLD
- RELGST 1135 - ORTHODOX CHRISTIANITY

Persian/Farsi Minor

This minor requires 17 credits of coursework to complete.

Language courses

- PERS 0101 - PERSIAN (FARSI) 1
- PERS 0102 - PERSIAN (FARSI) 2
- PERS 0103 - PERSIAN (FARSI) 3
- PERS 0104 - PERSIAN (FARSI) 4

Electives

Choose one course from the following list. Other courses that focus at least 25% effort on Persian, Farsi, or Iran may fulfill this requirement with approval from the Less-Commonly-Taught Languages Center.

- PERS 0105 - PERSIAN (FARSI) 5
- PERS 0106 - PERSIAN (FARSI) 6
- PERS 0107 - PERSIAN (FARSI) 7
- PERS 0108 - PERSIAN (FARSI) 8
- PERS 1905 - UNDERGRADUATE TEACHING ASSISTANT IN PERSIAN (FARSI)
- LING 1263 - CROSS-CULTURAL COMMUNICATION

- LING 1951 - LANGUAGES OF THE WORLD
- HIST 0752 - EMPIRES OF THE STEPPE: EURASIA FROM THE MONGOLS TO THE SOVIET UNION
- HIST 0756 - INTRODUCTION TO ISLAMIC CIVILIZATION
- RELGST 0455 - INTRODUCTION TO ISLAMIC CIVILIZATION

Quechua Minor

This minor requires 17 credits of coursework to complete.

Language courses

- QUECH 0101 - QUECHUA 1
- QUECH 0102 - QUECHUA 2
- QUECH 0103 - QUECHUA 3
- QUECH 0104 - QUECHUA 4

Electives

Choose one course from the following list. Other courses that focus at least 25% effort on Quechua or the Andes may fulfill this requirement with approval from the Less-Commonly-Taught Languages Center.

- QUECH 0105 Quechua 5
- QUECH 0106 Quechua 6
- QUECH 1909 - SPECIAL TOPICS IN QUECHUA
- LING 1263 - CROSS-CULTURAL COMMUNICATION
- LING 1951 - LANGUAGES OF THE WORLD
- ANTH 1528 - SOUTH AMERICAN ARCHAEOLOGY
- ANTH 1543 - ANCIENT STATES IN THE NEW WORLD
- HIST 0500 - COLONIAL LATIN AMERICA
- HIST 0501 - MODERN LATIN AMERICA
- HIST 1511 - VIOLENCE & MEMORY IN LATIN AMERICA

Swahili Minor

This minor requires 17 credits of coursework to complete.

Language courses

- SWAHIL 0102 - SWAHILI 2
- SWAHIL 0103 - SWAHILI 3
- SWAHIL 0104 - SWAHILI 4

Electives

Choose one course from the following list. Other courses that focus at least 25% effort on Swahili or East Africa may fulfill this requirement with approval from the Less-Commonly-Taught Languages Center.

- SWAHIL 0105 - SWAHILI 5
- SWAHIL 0106 - SWAHILI 6
- SWAHIL 0107 - SWAHILI 7
- SWAHIL 0108 - SWAHILI 8
- SWAHIL 0111 - INTRODUCTION TO SWAHILI LANGUAGE ABROAD
- SWAHIL 1615 Swahili Coastal Culture: Gateway to Africa
- SWAHIL 1909 - SPECIAL TOPICS IN SWAHILI
- LING 1263 - CROSS-CULTURAL COMMUNICATION
- LING 1951 - LANGUAGES OF THE WORLD
- AFRCNA 0127 - INTRODUCTION TO AFRICA
- AFRCNA 1725 - SOCIAL AND HEALTH ISSUES IN EAST AFRICA
- ANTH 1725 - SOCIAL AND HEALTH ISSUES IN EAST AFRICA
- HIST 1727 East African History 1500-Present

Swedish Minor

This minor requires 17 credits of coursework to complete.

Language courses

- SWE 0101 - SWEDISH 1
- SWE 0102 - SWEDISH 2
- SWE 0103 - SWEDISH 3
- SWE 0104 - SWEDISH 4

Electives

Choose one course from the following list. Other courses that focus at least 25% effort on Swedish or Sweden may fulfill this requirement with approval from the Less-Commonly-Taught Languages Center.

- SWE 0105 - SWEDISH 5
- SWE 0106 - SWEDISH 6
- SWE 1615 - SWEDEN - FROM VIKINGS TO NOW
- SWE 1909 - SPECIAL TOPICS IN SWEDISH
- LING 1263 - CROSS-CULTURAL COMMUNICATION
- LING 1951 - LANGUAGES OF THE WORLD
- HIST 0139 - VIKING AGE SCANDINAVIA
- HIST 0201 - THE BALTIC SEA: FROM THE VIKINGS TO POST-SOVIET RE-UNION

Turkish Minor

This minor requires 17 credits of coursework to complete.

Language courses

- TURKSH 0101 - TURKISH 1
- TURKSH 0102 - TURKISH 2
- TURKSH 0103 - TURKISH 3
- TURKSH 0104 - TURKISH 4

Electives

Choose one course from the following list. Other courses that focus at least 25% effort on Turkish or Turkey may fulfill this requirement with approval from the Less-Commonly-Taught Languages Center.

- TURKSH 0105 - TURKISH 5
- TURKSH 0106 - TURKISH 6
- TURKSH 0107 - TURKISH 7
- TURKSH 0108 - TURKISH 8
- TURKSH 1615 - TURKISH CULTURE AND SOCIETY
- TURKSH 1909 - SPECIAL TOPICS IN TURKISH
- LING 1263 - CROSS-CULTURAL COMMUNICATION
- LING 1951 - LANGUAGES OF THE WORLD
- HIST 0752 - EMPIRES OF THE STEPPE: EURASIA FROM THE MONGOLS TO THE SOVIET UNION
- HIST 0756 - INTRODUCTION TO ISLAMIC CIVILIZATION
- HIST 1175 - XENOPHOBIA IN MODERN EUROPE
- HIST 1753 - THE OTTOMAN EMPIRE (1300-1923)
- RELGST 0455 - INTRODUCTION TO ISLAMIC CIVILIZATION
- PS 1348 - XENOPHOBIA IN MODERN EUROPE

Vietnamese Minor

This minor requires 17 credits of coursework to complete.

Language courses

- VIET 0101 - VIETNAMESE 1
- VIET 0102 - VIETNAMESE 2
- VIET 0103 - VIETNAMESE 3
- VIET 0104 - VIETNAMESE 4

Electives

Choose one course from the following list. Other courses that focus at least 25% effort on Vietnamese or Vietnam may fulfill this requirement with approval from the Less-Commonly-Taught Languages Center.

- VIET 0105 Vietnamese 5
- VIET 0106 Vietnamese 6
- VIET 1909 - SPECIAL TOPICS IN VIETNAMESE

- LING 1263 - CROSS-CULTURAL COMMUNICATION
- LING 1951 - LANGUAGES OF THE WORLD
- HIST 0403 - HISTORY OF MODERN SOUTHEAST ASIA: COLONIAL ERA TO PRESENT

Department of Mathematics

The Department of Mathematics offers course work leading to a Bachelor of Science degree in mathematics as well as various courses for non-majors. Students concentrating in mathematics may pursue majors in mathematics, applied mathematics, actuarial mathematics, or mathematical biology, or they may pursue a joint major in mathematics and economics. Each of the department's majors has its own philosophy and its own formal requirements, so students should consult with a major advisor. For more information on these majors and the Department of Mathematics, see www.mathematics.pitt.edu.

Joint Major

Mathematics - Economics, BS

This major was designed for students who may be interested in the quantitative aspects of economic analysis and mathematics. Graduates will be well prepared to pursue a career in business or industry (such as forecasting, analysis, or research). However, many students completing this degree will choose to enter graduate school in economics, business, applied mathematics, or a related field. The curriculum for the joint major consists of nine economics courses, including the core theory courses and some quantitative field courses, seven mathematics courses, and two courses in statistics.

Required courses for the Mathematics - Economics joint major

The mathematics - economics joint major requires the completion of 59 credits, or as few as 52 with UHC (University Honors Course) options, distributed as follows.

Mathematics courses

- MATH 0220 - ANALYTIC GEOMETRY AND CALCULUS 1
- MATH 0230 - ANALYTIC GEOMETRY AND CALCULUS 2
Note: Qualified students may substitute MATH 0235 Honors 1-Variable Calculus (UHC) for MATH 0220 and MATH 0230
- MATH 0240 - ANALYTIC GEOMETRY AND CALCULUS 3
- MATH 0413 - INTRO THEORETICAL MATHEMATICS
- MATH 0420 - INTRO THEORY 1-VARIABLE CALCULUS
Note: Qualified students may substitute MATH 0450 Introduction to Analysis (UHC) for MATH 0413 and MATH 0420
- MATH 0500 - PROFESSIONAL DEVELOPMENT or ECON 0900 - PROFESSIONAL DEVELOPMENT FOR ECONOMISTS
- MATH 1270 - ORDINARY DIFFERENTIAL EQUATIONS 1 or MATH 1275 Honors Ordinary Differential Equations 1

One of the following

One of the following courses.

- MATH 1180 - LINEAR ALGEBRA 1
- MATH 1185 - HONORS LINEAR ALGEBRA

Statistics courses

Both of the following courses

- STAT 1151 - INTRODUCTION TO PROBABILITY
- STAT 1152 - INTRODUCTION TO MATHEMATICAL STATISTICS

Economics courses

- ECON 0100 - INTRODUCTION TO MICROECONOMIC THEORY
- ECON 0110 - INTRODUCTION TO MACROECONOMIC THEORY
- ECON 1100 - INTERMEDIATE MICROECONOMICS
- ECON 1110 - INTERMEDIATE MACROECONOMICS
- ECON 1150 - APPLIED ECONOMETRICS 1
- ECON 1200 - GAME THEORY
- One ECON non-0800 series elective course
- Two ECON 1000-level courses that require either ECON 1100 or ECON 1110 as a prerequisite

Recommended courses

Students are encouraged to take at least one field course in mathematics from the following list.

- MATH 1280 - ORDINARY DIFFERENTIAL EQUATIONS 2
- MATH 1470 - PARTIAL DIFFERENTIAL EQUATIONS 1
- MATH 1530 - ADVANCED CALCULUS 1
- MATH 1540 - ADVANCED CALCULUS 2
- MATH 1550 - VECTOR ANALYSIS AND APPLICATIONS
- MATH 1700 - INTRODUCTION TO TOPOLOGY
- or
- STAT 1221 - APPLIED REGRESSION
- STAT 1311 - APPLIED MULTIVARIATE ANALYSIS
- STAT 1321 - APPLIED TIME SERIES
- STAT 1631 - INTERMEDIATE PROBABILITY
- STAT 1632 - INTERMEDIATE MATHEMATICAL STATISTICS

Honors major requirements

To qualify for departmental honors in the mathematics and economics joint major, students must meet the following requirements:

- Completes all required economics courses taking ECON 1180 Mathematical Economics and a pro-seminar (ECON 1700 - 1730) for the two ECON 1000-level electives; and
- Maintains a minimum GPA of 3.0 in the mathematics courses, a GPA of 3.5 in the economics courses, and an overall GPA of 3.5.
- MATH 0235 - HONORS 1 - VARIABLE CALCULUS

- MATH 0240 - ANALYTIC GEOMETRY AND CALCULUS 3
- MATH 0450 - INTRODUCTION TO ANALYSIS
- MATH 1185 - HONORS LINEAR ALGEBRA
- MATH 1530 - ADVANCED CALCULUS 1
- STAT 1151 - INTRODUCTION TO PROBABILITY
- STAT 1152 - INTRODUCTION TO MATHEMATICAL STATISTICS

Major

Actuarial Mathematics, BS

Students wishing to pursue a major in Actuarial Mathematics must complete both MATH 0220 and MATH 0230 or their equivalents with a letter grade of C or better before declaring actuarial mathematics as their major. Students will be required to take 63 credits, of which 46 will be in Mathematics and Statistics. Specific requirements are:

Prerequisites

Complete both of the following courses.

- MATH 0220 - ANALYTIC GEOMETRY AND CALCULUS 1
- MATH 0230 - ANALYTIC GEOMETRY AND CALCULUS 2

Basic Calculus

- MATH 0240 - ANALYTIC GEOMETRY AND CALCULUS 3

Analysis

Choose one of the following courses.

- MATH 0413 - INTRO THEORETICAL MATHEMATICS
- MATH 0450 - INTRODUCTION TO ANALYSIS

Linear algebra

Choose one of the following courses.

- MATH 1180 - LINEAR ALGEBRA 1
- MATH 1185 - HONORS LINEAR ALGEBRA

Differential Equations

Choose one of the following courses.

- MATH 1270 - ORDINARY DIFFERENTIAL EQUATIONS 1
- MATH 1275 - HONORS ORDINARY DIFFERENTIAL EQUATIONS 1

Actuarial Mathematics

Complete all of the following courses.

- MATH 0470 - ACTUARIAL MATHEMATICS 1
- MATH 1119 - APPLIED PROBABILITY FOR ACTUARIAL MATHEMATICS
- MATH 1121 - ACTUARIAL MATHEMATICS 2
- MATH 1122 - ACTUARIAL MATHEMATICS 3
- MATH 1123 - ACTUARIAL MATHEMATICS 4
- MATH 1124 - ACTUARIAL MATHEMATICS 5
- MATH 1126 - PREDICTIVE ANALYTICS 1

Numerical Methods

Choose one of the following courses.

- MATH 1070 - NUMERICAL MATHEMATICAL ANALYSIS
- MATH 1080 - NUMERICAL MATH: LINEAR ALGEBRA
- MATH 1127 - PREDICTIVE ANALYTICS 2

Applied Mathematics

Choose two of the following courses.

- MATH 1280 - ORDINARY DIFFERENTIAL EQUATIONS 2
- MATH 1360 - MODELING IN APPLIED MATH 1
- MATH 1470 - PARTIAL DIFFERENTIAL EQUATIONS 1
- MATH 1530 - ADVANCED CALCULUS 1
- MATH 1540 - ADVANCED CALCULUS 2
- MATH 1550 - VECTOR ANALYSIS AND APPLICATIONS

Economics

- ECON 1100 - INTERMEDIATE MICROECONOMICS
- ECON 1110 - INTERMEDIATE MACROECONOMICS

Computer Programming

Choose one of the following courses.

- CS 0004 - INTRODUCTION TO COMPUTER PROGRAMMING-BASIC
- CS 0007 - INTRODUCTION TO COMPUTER PROGRAMMING
- CS 0008 - INTRODUCTION TO COMPUTER PROGRAMMING WITH PYTHON
- CS 0401 - INTERMEDIATE PROGRAMMING USING JAVA
- STAT 1301 - STATISTICAL PACKAGES
- BUSBIS 1060 - INTRODUCTION TO INFORMATION SYSTEMS
- ENGR 0012 - INTRO TO ENGINEERING COMPUTING

Statistics

- STAT 1152 - INTRODUCTION TO MATHEMATICAL STATISTICS

Analysis course

Choose one of the following courses.

- ECON 1150 - APPLIED ECONOMETRICS 1
- STAT 1221 - APPLIED REGRESSION

Time Sequence course

Choose one of the following courses.

- STAT 1321 - APPLIED TIME SERIES
- STAT 1731 - STOCHASTIC PROCESSES
- STAT 1741 - APPLIED PROBABILITY THEORY

Finance

Choose one of the following courses.

- BUSFIN 1311 - CORPORATE FINANCE
- ECON 1440 - ECONOMICS OF CORPORATION FINANCE

Additional Requirements

Declaring the major

Before declaring this major, students must complete MATH 0230 - ANALYTIC GEOMETRY AND CALCULUS 2 or MATH 0235 - HONORS 1 - VARIABLE CALCULUS, or their equivalents, with a letter grade of C or better. Additionally, Students must complete MATH 0470 - ACTUARIAL MATHEMATICS 1 with a letter grade of B or better to declare this major.

Grade requirements

A letter grade of C or higher is necessary in all courses required for the major.

Satisfactory/No Credit option

Only MATH 0500 may be taken on the Satisfactory/No Credit (S/NC) basis. All other courses must be taken on a letter grade basis.

Writing (W) requirement

Students must complete at least one writing-intensive course (W-course) in the major.

Applied Mathematics, BS

Mathematics has been described as the Queen of the Sciences. Mathematics is the language of quantitative information and structure. Quantitative information is acquired, classified and processed according to mathematical models of physical phenomena with mathematical tools. There is a wide range of applications even of the most pure of mathematical disciplines. Cryptography is based on algebra, signal processing is based on Fourier analysis, and important applications have arisen from topology to physics. Our department offers unique research opportunities for undergraduates in mathematical biology, scientific computing, and finance mathematics as well as algebra, geometry, and analysis.

The Department of Mathematics offers an ample selection of courses leading to a Bachelor of Science degree in mathematics, applied mathematics, and actuarial mathematics as well as various courses for non-majors. We also offer the possibility of joint majors in mathematics-economics and data science (see separate sheets for joint majors). Each of the department's majors has its own philosophy and its own formal requirements. For additional information, visit the Department of Mathematics Web site.

Calculus

- MATH 0220 - ANALYTIC GEOMETRY AND CALCULUS 1
- MATH 0230 - ANALYTIC GEOMETRY AND CALCULUS 2
Note: Qualified students may substitute MATH 0235 Honors 1-Variable Calculus (UHC) for MATH 0220 and MATH 0230
- MATH 0240 - ANALYTIC GEOMETRY AND CALCULUS 3

Professional Development

- MATH 0500 - PROFESSIONAL DEVELOPMENT

Introductory theoretical course

- MATH 0413 - INTRO THEORETICAL MATHEMATICS
- MATH 0420 - INTRO THEORY 1-VARIABLE CALCULUS
Note: Qualified students may substitute MATH 0450 Introduction to Analysis (UHC) for MATH 0413 and MATH 0420

Upper-level required courses

- MATH 1180 - LINEAR ALGEBRA 1 or
- MATH 1185 - HONORS LINEAR ALGEBRA
- MATH 1270 - ORDINARY DIFFERENTIAL EQUATIONS 1 or
- MATH 1275 - HONORS ORDINARY DIFFERENTIAL EQUATIONS 1

One of the following numerical math courses

- MATH 1070 - NUMERICAL MATHEMATICAL ANALYSIS
- MATH 1080 - NUMERICAL MATH: LINEAR ALGEBRA
- MATH 1101 - AN INTRODUCTION TO OPTIMIZATION
- MATH 1127 - PREDICTIVE ANALYTICS 2

One of the following applied analysis courses

- MATH 1550 - VECTOR ANALYSIS AND APPLICATIONS
- MATH 1560 - COMPLEX VARIABLES & APPLICATIONS
- MATH 1570 - INTRODUCTION TO FOURIER ANALYSIS

One of the following differential equations courses or an additional Numerical Math or Applied Analysis course:

- MATH 1280 - ORDINARY DIFFERENTIAL EQUATIONS 2
- MATH 1470 - PARTIAL DIFFERENTIAL EQUATIONS 1

One of the following courses

- MATH 1103 - MATHEMATICAL PROBLEMS IN BUSINESS, INDUSTRY, AND GOVERNMENT
- MATH 1360 - MODELING IN APPLIED MATH 1
- MATH 1370 - INTRODUCTION TO COMPUTATIONAL NEUROSCIENCE
- MATH 1380 - MATH BIOLOGY

Physics courses

- PHYS 0174 - BASIC PHYSICS, SCIENCE AND ENGINEERING 1 (INTEGRATED)
- PHYS 0175 - BASIC PHYSICS, SCIENCE AND ENGINEERING 2 (INTEGRATED)

One Computer Science course

- CS 0007 - INTRODUCTION TO COMPUTER PROGRAMMING
- CS 0008 - INTRODUCTION TO COMPUTER PROGRAMMING WITH PYTHON
- CS 0010 - INTRODUCTION TO COMPUTING FOR SYSTEMS ENGINEERS
- CS 0011 - INTRODUCTION TO COMPUTING FOR SCIENTISTS
- CS 0012 - INTRODUCTION TO COMPUTING FOR THE HUMANITIES
- CS 0401 - INTERMEDIATE PROGRAMMING USING JAVA

One Statistics course

- MATH 1119 - APPLIED PROBABILITY FOR ACTUARIAL MATHEMATICS
- MATH 1510 - MATHEMATICAL THEORY OF PROBABILITY

- STAT 1000 - APPLIED STATISTICAL METHODS
- STAT 1100 - STATISTICS AND PROBABILITY FOR BUSINESS MANAGEMENT
- STAT 1151 - INTRODUCTION TO PROBABILITY

Recommended courses

- Students interested in graduate study are strongly advised to take MATH 1530 - ADVANCED CALCULUS 1 and MATH 1540 - ADVANCED CALCULUS 2. These two courses may be substituted for the Applied Analysis and the Differential Equations courses, respectively.
- Students interested in pursuing secondary education certification should take the following courses in addition to the courses required for the major.
 - MATH 1290 MATH 1290 - TOPICS IN GEOMETRY
 - These courses are required for secondary education certification in Pennsylvania and by the School of Education for admission to the MAT program in Mathematics Secondary Education.
- A grade of C or higher is necessary in all courses required for the major. A minimum GPA of 2.0 in departmental courses is required for graduation.
- Students must complete at least one writing-intensive course (W-course) in the major.
- No course that counts toward the major may be taken on the S/NC basis.
- Eligible courses are list on the right side of this sheet and should be chosen in consultation with the major advisor.
- Students must complete minimum of 12 credits of related coursework within the major; subjects include chemistry, computer science, economics, physics, statistics, and certain areas of engineering. These courses should be chosen in consultation with the major advisor.
- Honors in Applied Mathematics is granted if the student:
 - Completes all requirements for the major
 - Completes the following courses with a letter grade of B or higher:
 - MATH 1470 MATH 1470 - PARTIAL DIFFERENTIAL EQUATIONS 1
 - MATH 1530 MATH 1530 - ADVANCED CALCULUS 1
 - MATH 1540 MATH 1540 - ADVANCED CALCULUS 2
 - A 2000-level course in lieu of a 1000-level elective
 - Completes an honors thesis under the direction of a member of the Department of Mathematics faculty, or completes a 2000-level course in lieu of the honors thesis.
- The statistics requirement is waived for students seeking honors in Applied Mathematics.

Required courses for Applied Mathematics major

The Applied Mathematics major requires the completion of 38 credits in mathematics, or as few as 31 with UHC (University Honors Course) options, plus 8 in Physics, at least 3 in Statistics, and 3 in Computer Science. They are distributed as follows.

Mathematical Biology, BS

Mathematics has assumed a significant role in the study of biological systems, in the development of biotechnology, and in advances in medicine. The construction and analysis of mathematical models of biological systems allows for the precise formulation of theoretical ideas, the testing of assumptions that may not be easily accessible experimentally, and the generation of novel predictions that can guide future research. The University of Pittsburgh is known for its excellence in biomedical research, and the Department of Mathematics at Pitt includes prominent faculty with strong records of teaching and research in mathematical biology.

The major in Mathematical Biology will help students develop an expertise in thinking mathematically about biological systems. Students will acquire fundamental skills in mathematical analysis and simulation, specialized experience in mathematical modeling in biology and neuroscience, and knowledge of particular areas of biology. These tools will prepare students to participate in undergraduate research and to go on to use quantitative methods in biotechnology, medicine, and other fields.

Required courses for the Mathematical Biology major

The Mathematical Biology major will require the completion of 44 credits in mathematics, or as few as 37 with UHC (University Honors Course) options, plus 12 in Biology or Neuroscience and 3 in Mathematics or Statistics .

Three Calculus courses (12 credits)

- MATH 0220 - ANALYTIC GEOMETRY AND CALCULUS 1
 - MATH 0230 - ANALYTIC GEOMETRY AND CALCULUS 2
- Note: Qualified students may substitute MATH 0235 Honors 1-Variable Calculus (UHC) for MATH 0220 and MATH 0230
- MATH 0240 - ANALYTIC GEOMETRY AND CALCULUS 3

Two Introductory theoretical courses (7 credits)

- MATH 0413 - INTRO THEORETICAL MATHEMATICS
 - MATH 0420 - INTRO THEORY 1-VARIABLE CALCULUS
- Qualified students may substitute MATH 0450 - INTRODUCTION TO ANALYSIS for MATH 0413 and MATH 0420.

Professional Development

- MATH 0500 - PROFESSIONAL DEVELOPMENT

Two upper-level required courses (6 credits)

Choose one of the following courses.

- MATH 1180 - LINEAR ALGEBRA 1
- or
- MATH 1185 - HONORS LINEAR ALGEBRA
- MATH 1270 - ORDINARY DIFFERENTIAL EQUATIONS 1
- or
- MATH 1275 - HONORS ORDINARY DIFFERENTIAL EQUATIONS 1

Two mathematical biology courses (6 credits)

- MATH 1370 - INTRODUCTION TO COMPUTATIONAL NEUROSCIENCE

- MATH 1380 - MATH BIOLOGY

Two numerical mathematics courses (6 credits)

- MATH 1070 - NUMERICAL MATHEMATICAL ANALYSIS
- MATH 1080 - NUMERICAL MATH: LINEAR ALGEBRA

Two applied analysis courses from the following list (6 credits)

- MATH 1280 - ORDINARY DIFFERENTIAL EQUATIONS 2
- MATH 1470 - PARTIAL DIFFERENTIAL EQUATIONS 1
- MATH 1530 - ADVANCED CALCULUS 1
- MATH 1550 - VECTOR ANALYSIS AND APPLICATIONS
- MATH 1560 - COMPLEX VARIABLES & APPLICATIONS

Introductory biology courses

Both of the following courses are required.

- BIOSC 0150 - FOUNDATIONS OF BIOLOGY 1
- BIOSC 0160 - FOUNDATIONS OF BIOLOGY 2

Biology or Neuroscience courses

Choose two of the following courses. At least one of the chosen courses must be at the 1000 level.

- BIOSC 0350 - GENETICS
- BIOSC 0370 - ECOLOGY
- BIOSC 1000 - BIOCHEMISTRY
- BIOSC 1070 - HUMAN PHYSIOLOGY-UHC or
- BIOSC 1250 - HUMAN PHYSIOLOGY
- BIOSC 1130 - EVOLUTION
- BIOSC 1320 - POPULATION BIOLOGY
- BIOSC 1470 - BIOPHYSICAL CHEMISTRY
- BIOSC 1500 - CELL BIOLOGY
- BIOSC 1520 - DEVELOPMENTAL BIOLOGY
- BIOSC 1540 - COMPUTATIONAL BIOLOGY
- BIOSC 1760 - IMMUNOLOGY
- NROSCI 1000 - INTRO TO NEUROSCIENCE or
- NROSCI 1003 - UHC INTRODUCTION TO NEUROSCIENCE
- NROSCI 1011 - FUNCTIONAL NEUROANATOMY
- NROSCI 1012 - NEUROPHYSIOLOGY
- NROSCI 1017 - SYNAPTIC TRANSMISSION

- NROSCI 1034 - NEURAL BASIS OF COGNITION

Probability or Statistics course

Choose one of the following courses.

- MATH 1510 - MATHEMATICAL THEORY OF PROBABILITY
- STAT 1000 - APPLIED STATISTICAL METHODS
- STAT 1100 - STATISTICS AND PROBABILITY FOR BUSINESS MANAGEMENT

Other Requirements and Recommendations

Students pursuing the Mathematical Biology major are encouraged to take CHEM 0110 - GENERAL CHEMISTRY 1 and CHEM 0120 - GENERAL CHEMISTRY 2, as these courses will satisfy the Dietrich School of Arts and Sciences breadth requirement in natural science and will expand their biology and neuroscience course options. Several of the BIOSC courses that fulfill requirements for this major have prerequisites, but some do not have prerequisites. PHYS 0174 - BASIC PHYSICS, SCIENCE AND ENGINEERING 1 (INTEGRATED) and PHYS 0175 - BASIC PHYSICS, SCIENCE AND ENGINEERING 2 (INTEGRATED) also carry a high degree of relevance for Mathematical Biology majors.

- Mathematical Biology students who plan to continue in graduate studies are advised to take advanced calculus, MATH 1530 - ADVANCED CALCULUS 1 and MATH 1540 - ADVANCED CALCULUS 2. MATH 1370 - INTRODUCTION TO COMPUTATIONAL NEUROSCIENCE and MATH 1380 - MATH BIOLOGY introduce students to techniques for independent research; students in these courses are encouraged to pursue research opportunities in Mathematical Biology that are available locally and nationally.
- A grade of C or higher is necessary in all courses required for the major. A minimum GPA of 2.0 in departmental courses is required for graduation.
- No course that counts toward the major may be taken on the S/NC basis.
- Students must complete at least one writing-intensive course (W-course) in the major. Either MATH 0413 or MATH 0450 will satisfy this requirement.
- Students seeking honors in Mathematical Biology will earn departmental honors if they meet the following requirements.
 - Fulfill all requirements for the major.
 - Complete the following courses with a letter grade of A- or better.
 - MATH 1370 - INTRODUCTION TO COMPUTATIONAL NEUROSCIENCE
 - MATH 1380 - MATH BIOLOGY
 - Complete the following courses with a letter grade of B or higher.
 - MATH 1530 - ADVANCED CALCULUS 1
 - One 2000-level mathematics course in lieu of an upper level elective
 - Complete one of the following conditions.
 - An honors thesis under the direction of a faculty member in the Department of Mathematics; for students seeking a BPhil from the David C. Frederick Honors College, this requirement could be satisfied by the Honors College thesis
 - A 2000-level mathematics course with a letter grade of B or higher, in addition to the course use for the third item, above.
 - Although not required, the department strongly recommends that honors degree candidates take the intermediate honors courses MATH 1185 and MATH 0450 during their freshman or sophomore year.

Mathematics, BS

Mathematics has been described as the queen of the sciences. Mathematics is the language of quantitative information and structure. Quantitative information is acquired, classified, and processed according to mathematical models of physical phenomena with mathematical tools. There is a wide range of applications even of the most pure of mathematical disciplines. Cryptography is based on algebra, signal processing is based on Fourier analysis, and important applications from topology to physics exist as well. In our department, we offer unique research opportunities for undergraduates in mathematical biology, scientific computing, and financial mathematics as well as algebra, geometry, and analysis.

The Department of Mathematics offers bachelor degree programs in mathematics, applied mathematics, actuarial mathematics, and mathematical biology. We also offer a joint major in mathematics-economics and data science. Each of the department's majors has its own philosophy and its own formal requirements. For additional information, visit the Department of Mathematics Web site.

Required courses for the Mathematics major

The mathematics major requires the completion of 41 credits in mathematics or as few as 34 with UHC (University Honors Course) options, plus 4 in Physics and 3 in Computer Science. They are distributed as follows.

Calculus courses

- MATH 0220 - ANALYTIC GEOMETRY AND CALCULUS 1
- MATH 0230 - ANALYTIC GEOMETRY AND CALCULUS 2
Note: Qualified students may substitute MATH 0235 Honors 1-Variable Calculus (UHC) for MATH 0220 and MATH 0230
- MATH 0240 - ANALYTIC GEOMETRY AND CALCULUS 3

Introductory theoretical courses

- MATH 0413 - INTRO THEORETICAL MATHEMATICS
- MATH 0420 - INTRO THEORY 1-VARIABLE CALCULUS
Note: Qualified students may substitute MATH 0450 Introduction to Analysis (UHC) for MATH 0413 and MATH 0420
- MATH 0430 - INTRO ABSTRACT ALGEBRAIC SYSTEMS

Professional Development

- MATH 0500 - PROFESSIONAL DEVELOPMENT

Upper-level required courses

Required course

- MATH 1270 - ORDINARY DIFFERENTIAL EQUATIONS 1 or MATH 1275 - HONORS ORDINARY DIFFERENTIAL EQUATIONS 1 (UHC)

One of the following courses

- MATH 1180 - LINEAR ALGEBRA 1
- MATH 1185 - HONORS LINEAR ALGEBRA

One of the following courses

- MATH 1020 - APPLIED ELEMENTARY NUMBER THEORY
- MATH 1025 - INTRODUCTION TO MATHEMATICAL CRYPTOGRAPHY
- MATH 1050 - COMBINATORIAL MATHEMATICS
- MATH 1250 - ABSTRACT ALGEBRA
- MATH 1310 - GRAPH THEORY

Upper-level elective courses

Three of the following courses

- MATH 1020 - APPLIED ELEMENTARY NUMBER THEORY
- MATH 1025 - INTRODUCTION TO MATHEMATICAL CRYPTOGRAPHY
- MATH 1050 - COMBINATORIAL MATHEMATICS
- MATH 1070 - NUMERICAL MATHEMATICAL ANALYSIS
- MATH 1080 - NUMERICAL MATH: LINEAR ALGEBRA
- MATH 1101 - AN INTRODUCTION TO OPTIMIZATION
- MATH 1230 - THE BIG IDEAS OF MATHEMATICS
- MATH 1250 - ABSTRACT ALGEBRA
- MATH 1280 - ORDINARY DIFFERENTIAL EQUATIONS 2
- MATH 1290 - TOPICS IN GEOMETRY
- MATH 1310 - GRAPH THEORY
- MATH 1350 - INTRODUCTION TO DIFFERENTIAL GEOMETRY
- MATH 1360 - MODELING IN APPLIED MATH 1
- MATH 1370 - INTRODUCTION TO COMPUTATIONAL NEUROSCIENCE
- MATH 1380 - MATH BIOLOGY
- MATH 1410 - INTRODUCTION FOUNDATIONS OF MATHEMATICS
- MATH 1470 - PARTIAL DIFFERENTIAL EQUATIONS 1
- MATH 1510 - MATHEMATICAL THEORY OF PROBABILITY
- MATH 1530 - ADVANCED CALCULUS 1
- MATH 1540 - ADVANCED CALCULUS 2
- MATH 1550 - VECTOR ANALYSIS AND APPLICATIONS
- MATH 1560 - COMPLEX VARIABLES & APPLICATIONS
- MATH 1570 - INTRODUCTION TO FOURIER ANALYSIS
- MATH 1700 - INTRODUCTION TO TOPOLOGY
- MATH 1800 - ADVANCED TOPICS IN MATHEMATICS
- MATH 2XXX, 3XXX 3-credit graduate level course
- STAT 1631 - INTERMEDIATE PROBABILITY or MATH 1126 - PREDICTIVE ANALYTICS 1
- STAT 1632 - INTERMEDIATE MATHEMATICAL STATISTICAL

Physics course

- PHYS 0174 - BASIC PHYSICS, SCIENCE AND ENGINEERING 1 (INTEGRATED)

Programming course

Choose one

- CS 0007 - INTRODUCTION TO COMPUTER PROGRAMMING
- CS 0008 - INTRODUCTION TO COMPUTER PROGRAMMING WITH PYTHON
- CS 0010 - INTRODUCTION TO COMPUTING FOR SYSTEMS ENGINEERS
- CS 0011 - INTRODUCTION TO COMPUTING FOR SCIENTISTS
- CS 0012 - INTRODUCTION TO COMPUTING FOR THE HUMANITIES
- CS 0401 - INTERMEDIATE PROGRAMMING USING JAVA

Other Requirements and Recommendations

- Majors must complete 40 credits (see below for curriculum details on each major) with a grade of C or higher in each course for the major and at least a 2.00 GPA overall in mathematics courses. The S/NC grade option is not permitted.
- MATH 0413 - INTRO THEORETICAL MATHEMATICS meets the departmental W requirement.
- Credit by examination is usually available only through the placement testing offered for incoming students.
- Students considering graduate work in mathematics should be aware that many programs require a reading knowledge of one or two second languages from among French, German, and Russian.
- To graduate with honors in mathematics or applied mathematics, students must meet the following requirements in addition to the other requirements for the major.
 - Completion of all mathematics requirements
 - Completion of each of the following courses with a grade of B or better:
 - MATH 1250 - ABSTRACT ALGEBRA
 - MATH 1530 - ADVANCED CALCULUS 1
 - MATH 1540 - ADVANCED CALCULUS 2
 - A graduate level mathematics course
 - Completion of an honors thesis under the direction of a member of the mathematics faculty or completion of a second graduate level mathematics course in lieu of the honors thesis
- Students interested in graduate study in mathematics are advised to take MATH 1530 and MATH 1540. Those interested in pursuing secondary education certification in mathematics.

The statistics requirement is waived for mathematics majors graduating with honors. Although not required, it is recommended that honors candidates take the intermediate honors courses MATH 0450 - INTRODUCTION TO ANALYSIS and MATH 1185 - HONORS LINEAR ALGEBRA during their freshman and sophomore years.

Minor

Mathematics Minor

Prerequisites

- MATH 0220 - ANALYTIC GEOMETRY AND CALCULUS 1
- MATH 0230 - ANALYTIC GEOMETRY AND CALCULUS 2

- MATH 0240 - ANALYTIC GEOMETRY AND CALCULUS 3

Lower-level Mathematics courses

Students must complete at least three courses (nine credits) of coursework at or above MATH 0250 - MATRIX THEORY & DIFFT EQUATIONS .

Upper-level Mathematics courses

Students must complete at least two courses (six credits) of MATH courses at the 1000-level.

Additional information and requirements

- Students may not count MATH 0400 - FINITE MATHEMATICS toward the minor.
- Students may not count both MATH 0280 - INTRO TO MATRICES & LINEAR ALG and MATH 1180 - LINEAR ALGEBRA 1 toward the minor.
- Students may not count both MATH 0290 - DIFFERENTIAL EQUATIONS and MATH 1270 - ORDINARY DIFFERENTL EQUATIONS 1 toward the minor.
- A letter grade of C or higher is required in each course for completion of this minor.
- Students may not take any course for the minor on the S/NC basis.

Department of Music

The Department of Music makes music through composition, improvisation, and performance and explores music's meaning in the structure of individual works, the relations between them, and their place in the cultures that produce them. One of the most exciting things about music is that it brings together different types of thought and action. The most sensory and practical things and the most theoretical and abstract ones cannot be separated in the musician's world. Thus, music enjoys a special place in the endeavor to understand ourselves. The program for majors is designed to introduce students to all the above ideas and activities, and students throughout the University are invited to join in any of them. In support of this multifaceted program, the department has assembled a diverse faculty, including experts in composition, performance, theory, history, jazz, and ethnomusicology and is committed to the principle of conducting its activities within an atmosphere that encourages communication and cooperation within that diversity. The department also welcomes double majors from all colleges within the University. For more information on the major, the minor, and the Department of Music, see <http://www.music.pitt.edu/>.

Note: *Students considering declaring a music major or minor should take the Music Theory Placement test, available at the Dietrich School of Arts and Sciences Advising Center. A sufficient score will exempt them from the required MUSIC 0100 - FUNDAMENTALS OF WESTERN MUSIC class. This exam takes about 60 minutes to complete.*

Major

Music, BA

*****On July 10th, 2023 the following Music, BA program description information was updated in the published catalog. In an effort to provide accurate information the update was made on July 10th, 2023.*****

The Department of Music offers an innovative undergraduate program that confers a bachelor's degree and a minor in music. The Department's dynamic faculty offers strong support for undergraduate research and creative expression.

Undergraduates also engage with the Department's renowned graduate programs and are encouraged to actively participate in all aspects of the Department's research and performance culture.

Undergraduates choose a course of study from among five tracks: Composition, Global & Popular Music, Jazz, Music & Cultural History, and Performance. The tracks offer students a broad foundation in music scholarship while tailoring specific elements of music study to the student's individual talents and interests.

To declare this major, students must complete MUSIC 0100 - FUNDAMENTALS OF WESTERN MUSIC with a letter grade of B- or better or achieve a sufficient score to on the Music placement exam to receive credit for this course.

Prerequisite theory course

(Must be completed prior to declaring the Music Major)

MUSIC 0100 - Fundamentals of Western Music - 3 credits

- Students must earn a letter grade of B- or better in this course in order to declare a Music Major or Minor
- Students may elect to take the Music Theory placement exam in lieu of enrolling in MUSIC 0100. A passing grade of 85% is required in order for the placement exam to meet this requirement.
- MUSIC 0100 - FUNDAMENTALS OF WESTERN MUSIC

BA Requirements

Required courses for all tracks

The following courses are required for all tracks in the Music major. Additional requirements specific to each track are listed later in the program description.

- MUSIC 0222 - HISTORY OF WESTERN MUSIC TO 1750
- MUSIC 0224 - HISTORY OF WEST MUSIC SINCE 1750 (for Global and Popular Music Track Only)
- MUSIC 0411 - THEORY 1
- MUSIC 0412 - MUSICIANSHIP 1
- MUSIC 0416 - MUSICIANSHIP 2
- MUSIC 1310 - GLOBAL AND POPULAR MUSIC
- MUSIC 1903 - SPECIAL TOPICS-DIRECTED RESEARCH
- MUSIC 1904 - SENIOR SEMINAR
- Three Music performance courses, at 1 credit each. MUSIC performance courses include private lessons (0500-level) and/or ensembles (600-level). One semester of participation in a World Music Ensemble must be included.

Choose one of the following courses

- MUSIC 0711 - HISTORY OF JAZZ
- MUSIC 1326 - AFRICAN-AMERICAN MUSIC IN U.S.

Composition Track (42 credits)

This track is intended for students interested primarily in creating music of any genre, acoustic or electroacoustic. A solid background in music history, music theory (including tonal harmony and 20th-21st century techniques) and musicianship is essential for composers, as is competence on an instrument or voice. Students will have the opportunity to hear their music read or performed by guest performers and ensembles as well as groups such as the University Orchestra. Students will develop their individual musical voices through close mentorship by faculty and will create a final portfolio of their compositional work.

Theory courses

All of the following courses are required for the Composition track.

- MUSIC 0224 - HISTORY OF WEST MUSIC SINCE 1750
- MUSIC 0415 - THEORY 2
- MUSIC 0417 - THEORY 3
- MUSIC 0419 - THEORY 4
- One MUSIC elective from the 1200, 1300 or 1400 level

Composition courses

Choose two of the following composition courses.

- MUSIC 1421 - COMPOSITION 1
- MUSIC 1422 - COMPOSITION 2
- MUSIC 1431 - INSTRUMENTATION & ORCHESTRATION
- MUSIC 1442 - ELECTRONIC MUSIC STUDIO
- MUSIC 1443: PROGRAMMING ENVIRONMENTS MUSIC MAX/M SP
- MUSIC 1444: ELECTRONIC BEATS & SONGWRITING
- MUSIC 1450: MUSIC PRODUCTION AND RECORDING

Jazz Track (42 credits)

The Jazz Track provides opportunities for each student to develop their individual interests and strengths in jazz performance, composition, and scholarship. Core courses in jazz, ethnomusicology and popular music, as well as Western music history, theory, and musicianship, complement courses in composition, arranging, and improvisation. Jazz is a spontaneous performance art and an ideal collaborative vehicle for exploration across musical genres. The Jazz Track reflects this exploratory ideal by emphasizing innovation and creativity in both performance and scholarship.

Choose one of the following courses

Of these two courses, students must take the one that was not taken as a core course.

- MUSIC 0711 - HISTORY OF JAZZ
- MUSIC 1326 - AFRICAN-AMERICAN MUSIC IN U.S.

Required Jazz focused courses

All of the following courses are required for the Jazz track.

- MUSIC 1450 - MUSIC PRODUCTION AND RECORDING
- MUSIC 1741 - JAZZ IMPROVISATION 1
- MUSIC 1742 - JAZZ IMPROVISATION 2
- Six MUSIC performance courses, at 1 credit each, to include at least one term of participation in MUSIC 0640 - JAZZ ENSEMBLE or MUSIC 0673 - SMALL JAZZ ENSEMBLES

Choose one of the following courses

- MUSIC 1731 - JAZZ COMPOSITION AND ARRANGING 1
- MUSIC 1732 - JAZZ COMPOSITION AND ARRANGING 2

Global and Popular Music Track (42 credits)

The Global and Popular Music track offers theoretical and methodological training in the study of global and popular music and engages students with cutting-edge ethnographic research. Analyzing global and popular musics within a broader context of postcolonial, technological, and transnational development, the track engages the ever-changing balance between traditional and modern ideas of music in systems of learning, performance techniques, and ways of writing and recording much.

- MUSIC 0415 - THEORY 2
- ANTH 0780 - INTRODUCTION TO CULTURAL ANTHROPOLOGY
- One upper-level popular music course
- Three upper-level ethno music courses
- One elective MUSIC course at 1200- to 1400 - level

Music and Cultural History Track (42 credits)

The Music & Cultural History track provides students with a background in the history, culture, and practice of music in the Western imagination. From Mozart's Symphony No. 21 to K-pop band 2NE1, this concentration emphasizes diversity and depth of experience in historical developments and styles, giving students a wide-ranging liberal arts education grounded in Western history, critical thinking, and music literacy. Students will be challenged to develop rigorous writing and aural skills that prepare them to become critics and curators of music in Western culture.

Music History courses

- MUSIC 0224 - HISTORY OF WEST MUSIC SINCE 1750
- MUSIC 0415 - THEORY 2
- Two MUSIC courses at the 1200-level
- Two MUSIC courses at the 1200- to 1400-level

Choose one of the following courses

Of these two courses, students must take the one that was not taken as a core course.

- MUSIC 0711 - HISTORY OF JAZZ
- MUSIC 1326 - AFRICAN-AMERICAN MUSIC IN U.S.

Performance Track

This track is intended for students who want to explore and improve their skills as performers in a wide range of genres. It provides a solid background in skills-based musicianship, music theory, history, and the study of other traditions, which are part of the fabric of current music-making in the 21st century. This curriculum also provides a concentration on traditional applied study of an instrument and valuable experiences in concert settings with master teachers and coaches.

All of the following courses

- MUSIC 0224 - HISTORY OF WEST MUSIC SINCE 1750
- MUSIC 0415 - THEORY 2
- MUSIC 0417 - THEORY 3
- MUSIC 0419 - THEORY 4

Choose one of the following courses

Of these two courses, students must take the one that was not taken as a core course.

- MUSIC 0711 - HISTORY OF JAZZ
- MUSIC 1326 - AFRICAN-AMERICAN MUSIC IN U.S.

One composition course

- MUSIC 1421 - COMPOSITION 1
- MUSIC 1422 - COMPOSITION 2
- MUSIC 1431 - INSTRUMENTATION & ORCHESTRATION
- MUSIC 1442 - ELECTRONIC MUSIC STUDIO
- MUSIC 1443: PROGRAMMING ENVIRONMENTS MUSIC MAX/M SP
- MUSIC 1444: ELECTRONIC BEATS & SONGWRITING
- MUSIC 1450 MUSIC PRODUCTION AND RECORDING

Six performance courses

Six MUSIC performance courses, at 1 credit each

One of the following composition courses

- MUSIC 1421 - COMPOSITION 1
- MUSIC 1422 - COMPOSITION 2
- MUSIC 1431 - INSTRUMENTATION & ORCHESTRATION
- MUSIC 1441 - ELECTRONIC AND COMPUTER MUSIC 1
- MUSIC 1442 - ELECTRONIC MUSIC STUDIO

Other requirements

- Students may test out of MUSIC 0100 MUSIC 0100 - FUNDAMENTALS OF WESTERN MUSIC by passing the Music Theory placement exam, which is administered online. A passing grade of 85% is required in order to meet this requirement.
- A minimum GPA of 2.0 in departmental courses is required for graduation.
- No course that counts toward the major can be taken on an S/NC basis.
- Students must complete at least one W-course in the major.
- All students interested in taking private lessons must reach out to the Department of Music Academic Administrator or directly to the course instructor for more information. Music majors have first priority in scheduling private lessons, which cost an additional \$445 per term.
- To graduate with departmental honors, a student must earn a minimum 3.25 GPA overall, a minimum 3.50 GPA in the music courses with no grade lower than a B+.

Minor

Music Minor

The Music Minor is intended for students who are interested in supplementing their prior experiences in music. The curriculum includes core courses shared with all tracks of the Music Major, which provide structured study of skills-based musicianship, music theory, history, the study of other traditions, and performance studies. Required courses, totaling 20 credits, are as follows.

Prerequisite course

(Must be completed prior to declaring the Music minor)

MUSIC 0100 - Fundamentals of Western Music - 3 credits

- Students must earn a letter grade of B- or better in this course in order to declare a Music Major or Minor
- Students may elect to take the Music Theory placement exam in lieu of enrolling in MUSIC 0100. A passing grade of 85% is required in order for the placement exam to meet this requirement.

- MUSIC 0100 - FUNDAMENTALS OF WESTERN MUSIC

Required courses (20 credits)

- MUSIC 0222 - HISTORY OF WESTERN MUSIC TO 1750
or
- MUSIC 0224 - HISTORY OF WEST MUSIC SINCE 1750
- MUSIC 0411 - THEORY 1
- MUSIC 0412 - MUSICIANSHIP 1
- MUSIC 0416 - MUSICIANSHIP 2
- MUSIC 0711 - HISTORY OF JAZZ
or
- MUSIC 1326 - AFRICAN-AMERICAN MUSIC IN U.S.
- MUSIC 1310 - GLOBAL AND POPULAR MUSIC
One course from the 1200- to 1400-level
Three performance courses, at 1 credit each

Note

NB: Performance courses are either private lessons (0500-level) and/or ensembles (0600-level) and must include at least one world music ensemble, selected from the following:

- MUSIC 0660: African Drumming Ensemble
- MUSIC 0661: Pitt AfroPop Ensemble
- MUSIC 0690: University Gamelan
- MUSIC 0616: Bluegrass Ensemble _____
- 3 MUSIC ____: One Elective course from 1200, 1300, 1400 or 1700 level

Department of Neuroscience

Neuroscience is the study of the biology and function of the central nervous system, with a special focus on the brain. The field has emerged during the past two decades as part of the explosive growth of research and interest in the neural sciences. An autonomous major in neuroscience was developed at the University of Pittsburgh in 1983, and it is among the largest undergraduate programs in neuroscience in the country, with nearly 300 students as majors.

The Bachelor of Science degree in neuroscience prepares students for the following:

- Advanced study in health-related fields, such as medicine, dentistry, pharmacy, public health, physical therapy, physician assistant, and exercise physiology;
- Graduate training in neuroscience and related fields in the biological sciences, and for a future career in a university, research institute, pharmaceutical company, or hospital;
- Research assistant positions in pharmaceutical, hospital, and university settings; and
- Public and private high school teaching following the completion of the teacher certification program in the School of Education.

The neuroscience major is designed to provide a broad and challenging sequence of courses in biological sciences, chemistry, mathematics, and physics, in addition to introductory and advanced courses in neuroscience. Students also may receive credit for original research projects they conduct in collaboration with faculty members. The relatively small size of the upper-level courses, the excellence of teaching, and the opportunity for research have been found to be especially attractive features of the major. A minor in neuroscience is also available. For more information on the major, the minor, and the Department of Neuroscience, see www.neuroscience.pitt.edu.

Major

Neuroscience, BS

Major requirements

Neuroscience majors must complete a minimum of 59 credits, detailed as follows.

Required courses

- NROSCI 1000 - INTRO TO NEUROSCIENCE or
- NROSCI 1003 - UHC INTRODUCTION TO NEUROSCIENCE

- NROSCI 1011 - FUNCTIONAL NEUROANATOMY or
- NROSCI 1013 - FUNCTIONAL NEUROANATOMY (UHC)
- NROSCI 1012 - NEUROPHYSIOLOGY
- NROSCI 1017 - SYNAPTIC TRANSMISSION
- NROSCI 1049 - RESEARCH TOPICS IN NEUROSCIENCE

Advanced elective courses

Choose two courses from the following list.

- NROSCI 1014 - SPEAKING OF SCIENCE
- NROSCI 1028 - SIGNALING PATHWAYS IN SYNAPTIC PLASTICITY
- NROSCI 1030 - PSYCHTRC DISORDERS AND BRAIN FUNCTION
- NROSCI 1032 - FUNCTIONAL ORGANIZATION OF THE HUMAN NERVOUS SYSTEM
- NROSCI 1033 - NEURAL BASIS OF VISION
- NROSCI 1034 - NEURAL BASIS OF COGNITION
- NROSCI 1036 - NEUROBIOLOGY OF AGING
- NROSCI 1038 - RESEARCH IN BEHAVIORAL NEUROSCIENCE
- NROSCI 1039 - PROCESSING IN NEURAL CIRCUITS
- NROSCI 1040 - BIOLOGICAL BASIS OF LEARNING AND MEMORY
- NROSCI 1041 - DEVELOPMENTAL NEUROSCIENCE
- NROSCI 1042 - NEUROCHEMICAL BASIS OF BEHAVIOR
- NROSCI 1043 - NEURAL PLASTICITY
- NROSCI 1112 - FUNCTIONAL NEUROANATOMY HONORS PRACTICUM
- NROSCI 1200 - NEUROPHARMACOLOGY OF ADDICTION

Writing-intensive course

Choose one of the following writing-intensive courses.

- NROSCI 1800 - NEUROSCIENCE/WRITING PRACTICUM
- NROSCI 1801 - NEUROSCIENCE/WRITING PRACTICUM
- NROSCI 1962 - THESIS RESEARCH/WRITING

Capstone course

Choose one of the following courses.

- NROSCI 1027 - NEUROSCIENCE PROSEMINAR
- NROSCI 1901 - INDEPENDENT STUDY
- NROSCI 1962 - THESIS RESEARCH/WRITING

Note

Course descriptions and current syllabi can be found by clicking on the Teaching Faculty link on the right of the Neuroscience Undergraduate home page at www.neuroscience.pitt.edu/programs/undergraduate.

Co-requisite courses

It is recommended that students complete introductory biology, chemistry, and physics courses during freshman and sophomore years. Premed students should also take PHYS 0212 - INTRODUCTION TO LABORATORY PHYSICS or PHYS 0219 - BASIC LABORATORY PHYSICS SCIENCE AND ENGINEERING and a statistics course to meet medical school requirements.

Students must complete BIOSC 0150, BIOSC 0160, CHEM 0110, and CHEM 0120 with a letter grade of C or better to declare the major.

- BIOSC 0150 - FOUNDATIONS OF BIOLOGY 1
- BIOSC 0160 - FOUNDATIONS OF BIOLOGY 2
- BIOSC 1000 - BIOCHEMISTRY

- BIOSC 1250 - HUMAN PHYSIOLOGY or
- NROSCI 1250 - HUMAN PHYSIOLOGY

- CHEM 0110 - GENERAL CHEMISTRY 1
- CHEM 0120 - GENERAL CHEMISTRY 2
- CHEM 0310 - ORGANIC CHEMISTRY 1
- CHEM 0320 - ORGANIC CHEMISTRY 2
- CHEM 0345 - ORGANIC LABORATORY
- MATH 0220 - ANALYTIC GEOMETRY AND CALCULUS 1
- PHYS 0110 - INTRODUCTION TO PHYSICS 1
- PHYS 0111 - INTRODUCTION TO PHYSICS 2

Required laboratory courses

Choose one course from each of the following two groups.

- BIOSC 0050 - FOUNDATIONS OF BIOLOGY LABORATORY 1
- BIOSC 0057 - FOUNDATIONS OF BIOLOGY RESEARCH LABORATORY 1
- BIOSC 0058 - FOUNDATIONS OF BIOLOGY SEA-PHAGES LABORATORY 1

- BIOSC 0060 - FOUNDATIONS OF BIOLOGY LABORATORY 2
- BIOSC 0067 - FOUNDATIONS OF BIOLOGY RESEARCH LABORATORY 2
- BIOSC 0068 - FOUNDATIONS OF BIOLOGY SEA-PHAGES LABORATORY 2

Grade requirements for the major

- Students majoring in neuroscience must take all required courses for a letter grade.
- NROSCI 1000 - INTRO TO NEUROSCIENCE or NROSCI 1003 - UHC INTRODUCTION TO NEUROSCIENCE must be passed with a B- or better. Grades in the remaining core courses and two advanced electives are averaged. All of these courses must be passed, and the average GPA must be 2.00 or better.
- In the co-requisites, a passing grade below C may be accepted only if it is balanced with higher grades, so that the total GPA in co-requisite courses is 2.0 or better. This requirement applies collectively to corequisite courses taught in the Department of Neuroscience (e.g., NROSCI 1070 - HUMAN PHYSIOLOGY-FHC) and those taught in other departments.

- Majors must have a grade of B- in NROSCI 1000 - INTRO TO NEUROSCIENCE or NROSCI 1003 - UHC INTRODUCTION TO NEUROSCIENCE as a prerequisite to taking any other departmental core or advanced elective courses.
- The co-requisite courses in biology and chemistry satisfy the related area requirement for this major.

Department Honors and Undergraduate Research

- To qualify for departmental honors, students need to maintain a minimum overall GPA of 3.25 as well as a GPA of 3.25 in the neuroscience major. In addition, students must complete a substantial amount of experimental neuroscience research on an approved research project and give a public presentation of the work. The full faculty of the department approves departmental honors after consideration of all eligible students.
- The Department of Neuroscience encourages interested undergraduate majors to gain research experience within an active neuroscience laboratory. The department is a world-class research department committed to high quality research and sharing the excitement of scientific exploration with trainees. Majors are encouraged to take advantage of the opportunity to do meaningful neuroscience research while still undergraduates. It is not unusual for majors to report their research at scientific meetings and to be published. While research experience itself has strong benefits, it is also useful for interacting more closely with professors and enhancing preparation for graduate or medical school. Most undergraduates who enroll in research for credit are interested in completing an independent project that results in an undergraduate thesis.

Minor

Neuroscience Minor

Minor Requirements

A minimum of 14 credits is required for a neuroscience minor. The minor includes the following:

- NROSCI 1000 - INTRO TO NEUROSCIENCE or NROSCI 1003 - UHC INTRODUCTION TO NEUROSCIENCE with a grade of C or better
- Three core courses:
 - NROSCI 1011 - FUNCTIONAL NEUROANATOMY
 - NROSCI 1012 - NEUROPHYSIOLOGY
 - NROSCI 1017 - SYNAPTIC TRANSMISSION
- As an alternative to the three core courses, students may take two of the core courses and at least one advanced elective from the following list.
 - NROSCI 1030 - PSYCHTRC DISORDERS AND BRAIN FUNCTION
 - NROSCI 1032 - FUNCTIONAL ORGANIZATION OF THE HUMAN NERVOUS SYSTEM
 - NROSCI 1034 - NEURAL BASIS OF COGNITION
 - NROSCI 1035 - CONTROL OF MOVEMENT
 - NROSCI 1036 - NEUROBIOLOGY OF AGING
 - NROSCI 1040 - BIOLOGICAL BASIS OF LEARNING AND MEMORY
 - NROSCI 1041 - DEVELOPMENTAL NEUROSCIENCE
 - NROSCI 1042 - NEUROCHEMICAL BASIS OF BEHAVIOR

Department of Philosophy

The University of Pittsburgh has one of the best philosophy departments in the country, one with a long tradition of fine teaching. A major in philosophy provides excellent preparation for such professions as law, medicine, and business. The conceptual sophistication imparted by training in philosophy is invaluable in virtually any field of learning or any serious profession. For example, students who are majoring in biology, psychology, history, or computer science would do well to pick up a second major in philosophy, something the Department of Philosophy encourages by offering a standard major track along with its more time-consuming intensive major track. A minor in philosophy is also available. While the department encourages students to major in philosophy, either alone or as a second major, only rarely does it encourage students to pursue philosophy in graduate school as preparation for a scholarly career. Students who do especially well in either the standard or intensive major program are graduated with honors in philosophy. Because of the national reputation of the philosophy department, a major in philosophy or honors in philosophy should materially help University of Pittsburgh graduates get into good graduate schools or professional schools. For more information on the program and the Department of Philosophy, see www.philosophy.pitt.edu.

Major

Philosophy, BA

Students pursuing the Philosophy major should choose either the Standard track or the Intensive track. The requirements for each of these tracks is described below.

Standard track

Required courses

Select one course from each of the four following groups. At least one of these four courses must be taken at the 1000-level.

Ancient Philosophy

- PHIL 0200 - HISTORY OF ANCIENT PHILOSOPHY
- PHIL 0202 - HISTORY ANCIENT PHILOSOPHY/WRITING PRACTICUM
- PHIL 1020 - PLATO
- PHIL 1040 - ARISTOTLE
- PHIL 1070 - TOPICS IN ANCIENT PHILOSOPHY

Modern Philosophy

- PHIL 0210 - HISTORY OF MODERN PHILOSOPHY
- PHIL 0212 - HISTORY OF MODERN PHILOSOPHY/WRITING PRACTICUM
- PHIL 1110 - RATIONALISM
- PHIL 1140 - EMPIRICISM
- PHIL 1170 - KANT

Ethics

- PHIL 0300 - INTRODUCTION TO ETHICS
- PHIL 0302 - INTRODUCTION TO ETHICS/WRITING PRACTICUM

- PHIL 0320 - SOCIAL PHILOSOPHY
- PHIL 0322 - SOCIAL PHILOSOPHY/WRITING PRACTICUM
- PHIL 0330 - POLITICAL PHILOSOPHY
- PHIL 0332 - POLITICAL PHILOSOPHY/WRITING PRACTICUM
- PHIL 0380 - WOMEN AND PHILOSOPHY
- Any PHIL course at the 1300-level

Logic

- PHIL 0500 - INTRODUCTION TO LOGIC
- PHIL 1500 - SYMBOLIC LOGIC

Elective courses

Select four 1000-level electives beyond any chosen in the previous groups.

Intensive track

Philosophy courses

Select one course from each of the following three groups. At least one of these three courses must be taken at the 1000-level.

Ancient Philosophy

- PHIL 0200 - HISTORY OF ANCIENT PHILOSOPHY
- PHIL 0202 - HISTORY ANCIENT PHILOSOPHY/WRITING PRACTICUM
- PHIL 1020 - PLATO
- PHIL 1040 - ARISTOTLE
- PHIL 1070 - TOPICS IN ANCIENT PHILOSOPHY

Modern Philosophy

- PHIL 0210 - HISTORY OF MODERN PHILOSOPHY
- PHIL 0212 - HISTORY OF MODERN PHILOSOPHY/WRITING PRACTICUM
- PHIL 1110 - RATIONALISM
- PHIL 1140 - EMPIRICISM
- PHIL 1170 - KANT

Logic

- PHIL 0500 - INTRODUCTION TO LOGIC
- PHIL 1500 - SYMBOLIC LOGIC

Elective courses

Group 1

Select five 1000-level courses from the following list. Courses taken to fulfill the Philosophy course requirement cannot be counted toward this elective course requirement.

- History of Philosophy: PHIL 1020 - PLATO through PHIL 1183 - MARX
- Value Theory: PHIL 1300 - ETHICAL THEORY through PHIL 1390 - PHILOSOPHY OF LAW
- Metaphysics and Epistemology: PHIL 1420 - PHILOSOPHY OF LANGUAGE through PHIL 1490 - TOPICS IN SYSTEMATIC PHILOSOPHY
- Logic and Philosophy of Science: PHIL 1500 - SYMBOLIC LOGIC through PHIL 1690 - TOPICS IN PHILOSOPHY OF SCIENCE
- Any 1000-level PHIL course except PHIL 1904 or PHIL 1941

Group 2

Select four courses from the following list. Courses taken to fulfill the Philosophy course requirement cannot be counted toward this elective course requirement.

- PHIL 1940 - HONORS THESIS/MAJORS
- PHIL 1941 - HONORS THESIS 2/MAJORS
- Any PHIL course not taken to fulfill a previous requirement

Other requirements

Other requirements for the intensive Philosophy major:

- **Grade requirements:** Students must earn at least a C in each course that is to count toward the major.
- **Writing (W) requirement:** Students must complete at least one W-course in the major.
- **Satisfactory/No Credit option:** There is no limit to the number of courses that can be taken on an S/NC basis.
- **Honors major requirements:** Students who complete the standard major, intensive major, or joint major will graduate with honors in philosophy if they have earned a grade of A- or better in at least six 1000-level PHIL courses, exclusive of PHIL 1902 and PHIL 1903.
- **Joint majors with philosophy:** Joint majors are not double majors but are multidisciplinary majors offered by two or more departments. The Department of Philosophy offers a joint major in Politics and Philosophy with the Department of Political Science, which is administered by the Department of Political Science. Consult the Department of Political Science for additional information.

Minor

Philosophy Minor

Minor Requirements

The philosophy minor requires six 3-credit courses (18 credits total) to be distributed as follows:

- PHIL 0500 - INTRODUCTION TO LOGIC or
- One 1500 level course (Logic group)

- PHIL 0200 - HISTORY OF ANCIENT PHILOSOPHY or
- PHIL 1020 - PLATO
- PHIL 0210 - HISTORY OF MODERN PHILOSOPHY or
- PHIL 1110 - RATIONALISM or
- PHIL 1140 - EMPIRICISM
- Any course in the 1300s Value Theory, Social and Political Philosophy
- Two additional 1000-level courses must be completed.

Any course in moral, social, or political philosophy

PHIL 0300 - INTRODUCTION TO ETHICS is preferred, but any of the following is acceptable:

- PHIL 0320 - SOCIAL PHILOSOPHY
- PHIL 0330 - POLITICAL PHILOSOPHY
- PHIL 0350 - PHILOSOPHY AND PUBLIC ISSUES
- PHIL 0360 - INTRODUCTION TO BIOMEDICAL ETHICS

Note:

At least one of the above four courses (numbers one-four) must be taken at the 1000 level.

Department of Physics and Astronomy

The Department of Physics and Astronomy offers three major degree options: a BS in physics, a BS in physics and astronomy, and a BA in astronomy. The BS degrees are intended for students who wish to prepare for graduate school in a scientific or technical discipline or who are interested in professional careers in which a background in physics or astronomy is appropriate. The BA degree are designed primarily for students who wish to develop a general scientific background appropriate for many careers including health-related professions or MBA programs. The Certificate in Photonics may be added by students in the bachelor of science physics program.

Students planning to pursue a degree within the department are urged to consult a departmental advisor at any time during the freshman year and should obtain a copy of the department's brochure for undergraduates in 100 Allen Hall.

*The department offers the physics minor, best suited for students from other schools. The department wishes to emphasize that its 0080s courses, in both physics and astronomy, use little mathematics and are especially designed for liberal arts students.

Certificate

Quantum Computing and Quantum Information Certificate

Program Requirements

The BS joint Quantum Computing and Quantum Information Certificate (QCQIC) program will consist of a 15 credit requirement (not including any pre-requisites) that must be combined with a BS degree in any discipline in DSAS, SSOE and SCI.

Five Courses

1 Foundations of Quantum Computing and Quantum Information, the only course required of all students.

2-3 Elective courses that have at least 50% quantum related content in them selected from an approved list (at least 6 credits but up to 9 credits, see below, could include individual research or capstone courses with PQI faculty members under the courses listed for individual research or capstone courses in various departments and credits for these courses may be spread over multiple terms)

3-6 credits of other non-quantum electives from an approved list (see below); The undergraduate joint Quantum Computing and Quantum Information Certificate (QCQIC) program targets the following competency gaps:

- Fundamental understanding of the basics of quantum computing and quantum information
- Knowledge of processes used to create useful applications of the fundamental quantum principles in quantum computing, quantum communication and quantum sensing
- Quantum science and technology as an interdisciplinary science and engineering enterprise the quantum behavior of materials, systems, and devices

Required Course

- PHYS 1470 - FOUNDATIONS OF QUANTUM COMPUTING AND QUANTUM INFORMATION

Quantum Related Electives

- HPS 1612 - PHIL OF 20TH CENTURY PHYSICS
- CHEM 1410 - PHYSICAL CHEMISTRY 1 OR
- CHEM 1480 - INTERMEDIATE PHYSICAL CHEMISTRY
- CHEM 1620 - ATOMS, MOLECULES AND MATERIALS
- CHEM 2120 - DESCRIPTIVE INORGANIC AND ORGANOMETALLIC CHEMISTRY
- PHYS 0330 - PHYSICS AND QUANTUM COMPUTING SEMINAR
- PHYS 0477 - INTRODUCTION TO THERMAL PHYSICS, RELATIVITY AND QUANTUM MECHANICS
- PHYS 0520 - MODERN PHYSICS MEASUREMENTS
- PHYS 1370 - INTRODUCTION TO QUANTUM MECHANICS 1
- PHYS 1371 - INTRODUCTION TO QUANTUM MECHANICS 2
- PHYS 1374 - SOLID STATE PHYSICS
- ECE 1232 - INTRO LASERS & OPTCL ELECTNC
- ECE 1247 - SEMICONDUCTOR DEVICE THEORY
- ECE 1272 - SIMULATION AND DESIGN OF SILICON PHOTONICS
- MEMS 1058 - ELECTROMAGNETIC PROPERTIES OF MATERIALS
- ENGR 1066 - INTRODUCTION TO SOLAR CELLS AND NANOTECHNOLOGY
- CS 1613 - QUANTUM COMPUTATION
- CHEM 1710 - UNDERGRADUATE RESEARCH
- PHYS 1903 - DIRECTED RESEARCH
- ECE 1893 - ECE UNDERGRADUATE RESEARCH PROJECT
- CS 1950 - DIRECTED RESEARCH: CAPSTONE
- CS 1951 - DIRECTED RESEARCH
- INFSCI 1710 - DIRECTED RESEARCH

Quantum Adjacent Electives

- HPS 1653 - INTRO TO PHILOSOPHY OF SCIENCE
- CHEM 1000 - MATHEMATICS FOR CHEMISTRY
- CHEM 1420 - PHYSICAL CHEMISTRY 2
- ENGCMP 0530 - WRITING FOR THE SCIENCES
- PHYS 1341 - THERMODYNAMICS AND STATISTICAL MECHANICS
- PHYS 1351 - INTERMEDIATE ELECTRICITY AND MAGNETISM
- PHYS 1361 - WAVE MOTION AND OPTICS
- ECE 0201 - DIGITAL CIRCUITS AND SYSTEMS
- ECE 0301 - ECE PROBLEM SOLVING WITH C++
- ECE 1250 - NANOTECHNOLOGY & NANO-ENGINEERING
- IE 1081 - OPERATIONS RESEARCH
- IE 1082 - PROBLSTC METH IN OPERATNS RES
- ENGR 1453 - DATA SCIENCE: STATISTICAL LEARNING, MODELING & PREDICTION
- INFSCI 1520 - INFORMATION VISUALIZATION
- INFSCI 1530 - DATA MINING
- INFSCI 1470 - IMMERSIVE MEDIA TECHNOLOGIES
- INFSCI 1630 - COMMUNICATION NETWORKS
- INFSCI 1640 - WIRELESS NETWORKS
- INFSCI 0310 - COMPUTATION IN INFORMATION SCIENCE
- INFSCI 1600 - SECURITY AND PRIVACY
- INFSCI 0610 - NETWORKS AND INFORMATION
- CMPINF 0401 - INTERMEDIATE PROGRAMMING
- CS 0441 - DISCRETE STRUCTURES FOR CS
- CS 0445 - ALGORITHMS AND DATA STRUCTURES 1
- CS 1501 - ALGORITHMS AND DATA STRUCTURES 2
- CS 1502 - FORMAL METHODS IN COMPUTER SCIENCE
- CS 1510 - ALGORITHM DESIGN
- CS 1656 - INTRODUCTION TO DATA SCIENCE
- CS 1675 - INTRODUCTION TO MACHINE LEARNING
- CS 1678 - INTRODUCTION TO DEEP LEARNING

Additional elective courses for the QCQIC will be added to the program as they are developed and become available in the DSAS, SSOE and SCI (new courses must be approved by the Advisory Committee). Some courses that apply towards the certificate also count as electives in the degree tracks of Chemistry and Physics and Astronomy but no more than 9 credits can be earned through those courses.

Total Credits: 15

Joint Major

Physics and Quantum Computing, BS

Given the robust academic efforts to build quantum machines, as well as the growing industrial efforts in quantum information (Google, IBM, Microsoft, Amazon, Northrup Grumman, Intel, Honeywell, plus numerous smaller companies and startups) there is a real need for students who are trained to live with one foot on either side of the present divide. Put another way, we can build systems with one to a few elements, and we know important problems we could solve with a quantum computer containing thousands or millions of qubits, but how do we get from one to the

other? It is clear that students who can address this issue will find good opportunities to apply their skills in both academia and industry.

The Physics and Quantum Computing, BS major will train the students who will bridge this gap as they flesh out a nascent quantum computing industry. For the student who wishes to pursue graduate school (which is currently the level at which most industrial labs are hiring) where hybrid programs do not currently exist, the major is designed with an optional CS or physics 'Focus' add-on of three top-level classes to fill in classes required for entry into the respective graduate programs.

At a more practical level, for those students who seek gainful employment with only their undergraduate degrees, the mixing of physics' focus on investigation and problem solving with true fluency in computer science will provide a very strong toolbox for their future endeavors. Compared to a traditional physics major, our graduates would have computer skills to make them a less training-intensive hire; compared to a traditional CS major our graduates would have facility with physics concepts and problem solving techniques, both classical and quantum.

As currently designed the major requires 73 credits. The optional CS or Physics 'Focus' would boost the credit total to 82.

Program Requirements

Mathematics (18 credits)

- MATH 0220 - ANALYTIC GEOMETRY AND CALCULUS 1
- MATH 0230 - ANALYTIC GEOMETRY AND CALCULUS 2
- MATH 0240 - ANALYTIC GEOMETRY AND CALCULUS 3
- MATH 0280 - INTRO TO MATRICES & LINEAR ALG OR MATH 1180 OR MATH 1185
- MATH 0290 - DIFFERENTIAL EQUATIONS OR MATH 1270

Introductory Physics Courses (9 credits)

- PHYS 0174 - BASIC PHYSICS, SCIENCE AND ENGINEERING 1 (INTEGRATED)
- PHYS 0175 - BASIC PHYSICS, SCIENCE AND ENGINEERING 2 (INTEGRATED)
OR
- PHYS 0475 - INTRODUCTION TO PHYSICS, SCIENCE AND ENGINEERING 1
- PHYS 0476 - INTRODUCTION TO PHYSICS, SCIENCE AND ENGINEERING 2

AND

- PHYS 0330 - PHYSICS AND QUANTUM COMPUTING SEMINAR

Introductory and Intermediate Computer Science (13 credits)

- CMPINF 0401 - INTERMEDIATE PROGRAMMING
- CS 0441 - DISCRETE STRUCTURES FOR CS
- CS 0445 - ALGORITHMS AND DATA STRUCTURES 1
- CS 0447 - COMPUTER ORGANIZATION AND ASSEMBLY LANGUAGE

Intermediate and Advanced Physics Courses (16 credits)

- PHYS 0477 - INTRODUCTION TO THERMAL PHYSICS, RELATIVITY AND QUANTUM MECHANICS

- PHYS 1331 - MECHANICS
- PHYS 1341 - THERMODYNAMICS AND STATISTICAL MECHANICS
- PHYS 1351 - INTERMEDIATE ELECTRICITY AND MAGNETISM
- PHYS 1370 - INTRODUCTION TO QUANTUM MECHANICS 1

Advanced Computer Science (9 credits)

- CS 1501 - ALGORITHMS AND DATA STRUCTURES 2
- CS 1502 - FORMAL METHODS IN COMPUTER SCIENCE
- CS 1613 - QUANTUM COMPUTATION

Physics Laboratory Courses (at least 5 credits)

Five credits must be chosen from the following:

- PHYS 0219 - BASIC LABORATORY PHYSICS SCIENCE AND ENGINEERING OR PHYS 0520 - MODERN PHYSICS MEASUREMENTS
- PHYS 0525 - ANALOG AND DIGITAL ELECTRONICS
- PHYS 1361 - WAVE MOTION AND OPTICS
- PHYS 1426 - MODERN PHYSICS LABORATORY
- PHYS 1415 - QUANTUM PHYSICS AT THE NANOSCALE

Capstone Research or Project or Internship (3 credits)

All majors must complete a capstone experience prior to graduation. It is the intention that this mirror the format of the CS capstone project (physics lacks an equivalent, though directed research is common among physics undergraduates). The requirement can be satisfied by one semester of directed research with a physics or CS faculty member, or a CS Capstone Project (CS 1980, CS 1981). Alternately, students may instead undertake an internship (for CS this requires registration in CS 1900). There are growing opportunities for QC-specific undergraduate fellowships that may be of interest to majors, see for example: <https://www.ibm.com/careers/internships> and the various programs linked there.

OPTIONAL Focus in Computer Science or Physics (9 credits)

This group of courses is designed to prepare interested students for graduate studies in CS or Physics, and can also allow for the addition of specialized special topic or elective courses to the major given adequate enrollment and departmental resources. Currently the courses for the focus options are:

- PHYS 1371 - INTRODUCTION TO QUANTUM MECHANICS 2
 - PHYS 1372 - ELECTROMAGNETIC THEORY
 - PHYS 1373 - MATHEMATICAL METHODS IN PHYSICS
- OR

Three CS courses (9 cr. total) at 1500 level or above.

Total Credits: 73 or 82

Major

Astronomy, BA

The University of Pittsburgh's internationally recognized Department of Physics and Astronomy has been an important leader at the frontier of science and, with 500 PhD alumni, has launched many distinguished careers. Now, at the onset of the 21st Century, the department is maintaining its traditions of excellence and innovation while leading the field in breakthroughs that promise an ever-deeper understanding of the universe. From sub-nuclear particles to the unimaginably large, from the birth of the universe to the edge of technology - and at the intersection of quantum and classical physics - our faculty and students explore the fundamental laws of nature. Students may expect to pursue research that influences many fields, including biology, mathematics, medicine, chemistry, engineering, and computer science.

The BA in astronomy requires the completion of 39 credits in physics and astronomy and six credits in communication and history and philosophy of science, distributed as follows.

Introductory Physics courses

Select one of the following pairs of courses.

- PHYS 0174 - BASIC PHYSICS, SCIENCE AND ENGINEERING 1 (INTEGRATED)
- PHYS 0175 - BASIC PHYSICS, SCIENCE AND ENGINEERING 2 (INTEGRATED)

- PHYS 0475 - INTRODUCTION TO PHYSICS, SCIENCE AND ENGINEERING 1
- PHYS 0476 - INTRODUCTION TO PHYSICS, SCIENCE AND ENGINEERING 2

Introductory Astronomy course

The following course is required.

- ASTRON 0113 - INTRODUCTION TO ASTROPHYSICS

Intermediate and Advanced Physics courses

All of the following courses are required.

- PHYS 0477 - INTRODUCTION TO THERMAL PHYSICS, RELATIVITY AND QUANTUM MECHANICS
- PHYS 0481 - PRINCIPLES OF MODERN PHYSICS 2
- PHYS 1310 - UNDERGRADUATE SEMINAR
- PHYS 1331 - MECHANICS

Laboratory courses

Both of the following courses are required.

- PHYS 0219 - BASIC LABORATORY PHYSICS SCIENCE AND ENGINEERING or
- PHYS 0520 - MODERN PHYSICS MEASUREMENTS

- ASTRON 1263 - TECHNIQUES OF ASTRONOMY

Intermediate and Advanced Astronomy courses

Select at least two courses from the following list, for a total of at least six credits.

- ASTRON 1120 - STARS; STELLAR STRUCTURE AND EVOLUTION
- ASTRON 1121 - GALAXIES AND COSMOLOGY
- ASTRON 1122 - THE SOLAR SYSTEM AND EXTRASOLAR PLANETS

Mathematics courses

All of the following courses are required.

- MATH 0220 - ANALYTIC GEOMETRY AND CALCULUS 1
- MATH 0230 - ANALYTIC GEOMETRY AND CALCULUS 2
- MATH 0240 - ANALYTIC GEOMETRY AND CALCULUS 3

- MATH 0290 - DIFFERENTIAL EQUATIONS or
- MATH 1270 - ORDINARY DIFFERENTIAL EQUATIONS 1

Science electives

Select at least two of the following courses, for a total of at least six credits.

- Some courses on this list have pre-requisites. Be sure to check the course enrollment requirements.
- If GEOL 1701 - GEOLOGY OF THE PLANETS is used to meet the Science Elective requirement, it cannot also be used to meet the Intermediate and Advanced Astronomy requirement.
- BIOENG 1070 - INTRODUCTORY CELL BIOLOGY 1
- BIOENG 1071 - INTRODUCTION TO CELL BIOLOGY 2
- BIOSC 0150 - FOUNDATIONS OF BIOLOGY 1
- BIOSC 0160 - FOUNDATIONS OF BIOLOGY 2
- CHEM 0110 - GENERAL CHEMISTRY 1
- CHEM 0710 - UHC GENERAL CHEMISTRY 1
- CHEM 0120 - GENERAL CHEMISTRY 2
- CHEM 0720 - UHC GENERAL CHEMISTRY 2
- CHEM 0310 - ORGANIC CHEMISTRY 1
- CHEM 0730 - UHC ORGANIC CHEMISTRY 1
- CHEM 0320 - ORGANIC CHEMISTRY 2
- CHEM 0740 - UHC ORGANIC CHEMISTRY 2
- CHEM 1410 - PHYSICAL CHEMISTRY 1
- CHEM 1420 - PHYSICAL CHEMISTRY 2
- CS 0401 - INTERMEDIATE PROGRAMMING USING JAVA
- CS 0445 - ALGORITHMS AND DATA STRUCTURES 1
- GEOL 1410 - EXPLORATION GEOPHYSICS
- GEOL 1701 - GEOLOGY OF THE PLANETS
- MATH 0280 - INTRO TO MATRICES & LINEAR ALG
- MATH 1180 - LINEAR ALGEBRA 1
- MATH 1185 - HONORS LINEAR ALGEBRA
- MATH 1470 - PARTIAL DIFFERENTIAL EQUATIONS 1

- MATH 1550 - VECTOR ANALYSIS AND APPLICATIONS
- MATH 1560 - COMPLEX VARIABLES & APPLICATIONS
- PHYS 1321 - COMPUTATIONAL METHODS IN PHYSICS
- PHYS 1341 - THERMODYNAMICS AND STATISTICAL MECHANICS
- PHYS 1351 - INTERMEDIATE ELECTRICITY AND MAGNETISM
- PHYS 1370 - INTRODUCTION TO QUANTUM MECHANICS 1
- PHYS 1378 - INTRODUCTION TO NUCLEAR AND PARTICLE PHYSICS
- STAT 1151 - INTRODUCTION TO PROBABILITY
- STAT 1152 - INTRODUCTION TO MATHEMATICAL STATISTICS

History and Philosophy of Science or science policy and management courses

Select at least one of the following courses, for a total of at least three credits.

- PHYS 0087 - PHYSICS AND SOCIETY
- BUSERV 1915 - INTRODUCTION TO MANAGEMENT
- PUBSRV 1315 - MANAGING PROJECTS AND CONTRACTS
- Any course in the Department of History and Philosophy of Science

Writing and Communication courses

Select at least one of the following courses, for a total of at least three credits.

- COMMRC 0320 - MASS COMMUNICATION AND SOCIETY
- COMMRC 0520 - PUBLIC SPEAKING
- COMMRC 1105 - TELEVISION AND SOCIETY
- ENGCOMP 0400 - WRITTEN PROFESSIONAL COMMUNICATION
- ENGCOMP 1101 - LANGUAGE OF SCIENCE AND TECHNOLOGY
- ENGCOMP 1400 - GRANT WRITING FOR NONPROFITS
- ENGWRT 1330 - INTERMEDIATE NONFICTION: SCENE AND POINT-OF-VIEW
- LING 1000 - INTRODUCTION TO LINGUISTICS

Science Communication concentration

This concentration replaces the three-credit writing or communication course with a three-credit writing course and 12 credits of communication courses. Students pursuing this concentration may replace the six credits of science electives with the communication course requirements.

Required writing course

The following course is the required writing-intensive (W) course for this concentration in the major.

- ENGCOMP 0400 - WRITTEN PROFESSIONAL COMMUNICATION

Communication courses

Select at least four of the following courses, for a total of at least 12 credits.

- COMMRC 0320 - MASS COMMUNICATION AND SOCIETY
- COMMRC 0520 - PUBLIC SPEAKING
- COMMRC 1105 - TELEVISION AND SOCIETY
- ENGCMP 1101 - LANGUAGE OF SCIENCE AND TECHNOLOGY
- ENGCMP 1400 - GRANT WRITING FOR NONPROFITS
- ENGWR 0610 - INTRODUCTION TO JOURNALISM AND NONFICTION
- ENGWR 1330 - INTERMEDIATE NONFICTION: SCENE AND POINT-OF-VIEW
- LING 1000 - INTRODUCTION TO LINGUISTICS

Science Breadth concentration

This concentration provides broader exposure to other sciences in comparison to the standard Astronomy BA, while going into greater depth in physics and astronomy than a more generic Natural Sciences major. With proper selection of courses, this concentration provides the necessary requirements to apply for admission to medical school while roughly matching the credit requirements of the Astronomy BA.

Reduced Physics requirement

The following course is the required Physics course for this concentration in the major. It may also be used to fulfill a requirement in the Physics minor.

- PHYS 0481 - PRINCIPLES OF MODERN PHYSICS 2

Reduced writing requirement

The three-credit writing or communication requirement is waived for students pursuing this concentration.

Added science requirements

Select two of the three following groups of courses, for a total of at least 16 credits.

- BIOSC 0057 - FOUNDATIONS OF BIOLOGY RESEARCH LABORATORY 1
 - BIOSC 0067 - FOUNDATIONS OF BIOLOGY RESEARCH LABORATORY 2
- And one of the following pairs of courses
- BIOSC 0150 - FOUNDATIONS OF BIOLOGY 1
 - BIOSC 0160 - FOUNDATIONS OF BIOLOGY 2
- or
- BIOENG 1070 - INTRODUCTORY CELL BIOLOGY 1
 - BIOENG 1071 - INTRODUCTION TO CELL BIOLOGY 2
-
- CHEM 0110 - GENERAL CHEMISTRY 1 or
 - CHEM 0710 - UHC GENERAL CHEMISTRY 1
- and
- CHEM 0120 - GENERAL CHEMISTRY 2 or
 - CHEM 0720 - UHC GENERAL CHEMISTRY 2

- GEOL 0890 - OCEANOGRAPHY

Added science electives

Select one of the three following groups, for a total of at least six credits.

- CHEM 0310 - ORGANIC CHEMISTRY 1 or
 - CHEM 0730 - UHC ORGANIC CHEMISTRY 1
 - CHEM 0320 - ORGANIC CHEMISTRY 2 or
 - CHEM 0740 - UHC ORGANIC CHEMISTRY 2
 - CHEM 0330 - ORGANIC CHEMISTRY LABORATORY 1
 - CHEM 0340 - ORGANIC CHEMISTRY LABORATORY 2
-
- CS 0445 - ALGORITHMS AND DATA STRUCTURES 1
 - CS 0401 - INTERMEDIATE PROGRAMMING USING JAVA

Two advanced courses in Biological Sciences (BIOSC), Bioengineering (BIOENG), Chemistry (CHEM), Computer Science (CS), or Geology (GEOL).

Additional information

Grade requirements

A minimum GPA of 2.0 in departmental courses is required for graduation.

Satisfactory/No Credit option

No PHYS or ASTRON courses beyond the introductory level may be taken on an S/NC basis.

Writing (W) requirement

Students must complete at least one writing-intensive (W) course in the major.

Honors major requirements

Honors in astronomy is granted if in addition to fulfilling all requirements for the major, the student maintains a GPA of 3.2 or higher in the major, a cumulative GPA of 3.0 or higher, completes ASTRON 1903 or PHYS 1903 Directed Research, submits a paper detailing the research within the department, and presents the research in a public forum (i.e. at the University's Science Symposium, the undergraduate poster fair hosted by the David C. Frederick Honors College).

Physics and Astronomy, BS

Physics and Astronomy Major Requirements

The BS in physics and astronomy requires the completion of 50 credits in physics and astronomy distributed as follows.

Introductory Physics courses:

(select one group)

- PHYS 0174 - BASIC PHYSICS, SCIENCE AND ENGINEERING 1 (INTEGRATED) and
- PHYS 0175 - BASIC PHYSICS, SCIENCE AND ENGINEERING 2 (INTEGRATED)

- PHYS 0475 - INTRODUCTION TO PHYSICS, SCIENCE AND ENGINEERING 1 and
- PHYS 0476 - INTRODUCTION TO PHYSICS, SCIENCE AND ENGINEERING 2

Introductory Astronomy course

- ASTRON 0113 - INTRODUCTION TO ASTROPHYSICS

Intermediate and advanced Physics courses

- PHYS 0477 - INTRODUCTION TO THERMAL PHYSICS, RELATIVITY AND QUANTUM MECHANICS
- PHYS 1310 - UNDERGRADUATE SEMINAR
- PHYS 1321 - COMPUTATIONAL METHODS IN PHYSICS
- PHYS 1331 - MECHANICS
- PHYS 1341 - THERMODYNAMICS AND STATISTICAL MECHANICS
- PHYS 1351 - INTERMEDIATE ELECTRICITY AND MAGNETISM
- PHYS 1370 - INTRODUCTION TO QUANTUM MECHANICS 1

Laboratory courses

Choose at least seven credits

Required courses

- PHYS 0219 - BASIC LABORATORY PHYSICS SCIENCE AND ENGINEERING or
- PHYS 0520 - MODERN PHYSICS MEASUREMENTS

- ASTRON 1263 - TECHNIQUES OF ASTRONOMY

Additional courses

- PHYS 0525 - ANALOG AND DIGITAL ELECTRONICS
- PHYS 1361 - WAVE MOTION AND OPTICS
- PHYS 1426 - MODERN PHYSICS LABORATORY

Intermediate and advanced Astronomy courses

- ASTRON 1120 - STARS; STELLAR STRUCTURE AND EVOLUTION

- ASTRON 1121 - GALAXIES AND COSMOLOGY
- ASTRON 1122 - THE SOLAR SYSTEM AND EXTRASOLAR PLANETS *

Note:

* GEOL 1701 - GEOLOGY OF THE PLANETS may be substituted for this course.

Science elective

Choose at least three credits *

- CHEM 0110 - GENERAL CHEMISTRY 1 or
- CHEM 0710 - UHC GENERAL CHEMISTRY 1

- CHEM 0120 - GENERAL CHEMISTRY 2 or
- CHEM 0720 - UHC GENERAL CHEMISTRY 2

- CHEM 1410 - PHYSICAL CHEMISTRY 1
- CS 0401 - INTERMEDIATE PROGRAMMING USING JAVA
- CS 0445 - ALGORITHMS AND DATA STRUCTURES 1
- GEOL 1410 - EXPLORATION GEOPHYSICS
- GEOL 1701 - GEOLOGY OF THE PLANETS **
- MATH 1470 - PARTIAL DIFFERENTIAL EQUATIONS 1
- MATH 1550 - VECTOR ANALYSIS AND APPLICATIONS
- MATH 1560 - COMPLEX VARIABLES & APPLICATIONS
- PHYS 0481 - PRINCIPLES OF MODERN PHYSICS 2
- PHYS 1371 - INTRODUCTION TO QUANTUM MECHANICS 2
- PHYS 1372 - ELECTROMAGNETIC THEORY
- PHYS 1373 - MATHEMATICAL METHODS IN PHYSICS
- PHYS 1378 - INTRODUCTION TO NUCLEAR AND PARTICLE PHYSICS
- STAT 1151 - INTRODUCTION TO PROBABILITY
- STAT 1152 - INTRODUCTION TO MATHEMATICAL STATISTICS

Note:

* Some of these courses have prerequisites

** If this course is taken as a science elective, it cannot be used to satisfy the requirement for the nine credits of intermediate and advanced courses.

Prerequisite Mathematics courses

- MATH 0220 - ANALYTIC GEOMETRY AND CALCULUS 1
- MATH 0230 - ANALYTIC GEOMETRY AND CALCULUS 2
- MATH 0240 - ANALYTIC GEOMETRY AND CALCULUS 3

- MATH 0280 - INTRO TO MATRICES & LINEAR ALG or
- MATH 1180 - LINEAR ALGEBRA 1 or

- MATH 1185 - HONORS LINEAR ALGEBRA
- MATH 0290 - DIFFERENTIAL EQUATIONS or
- MATH 1270 - ORDINARY DIFFERENTIAL EQUATIONS I

Honors major requirements

Honors in physics and astronomy is granted if in addition to fulfilling all requirements for the major, the student meets the following requirements.

- Maintains a GPA of 3.2 or higher in the major
- Maintains a cumulative GPA of 3.0 or higher
- Completes ASTRON 1903 - DIRECTED RESEARCH or PHYS 1903 - DIRECTED RESEARCH
- Submits a paper detailing the research within the department and presents the research in a public forum (i.e. at the University's Science Symposium or the Undergraduate Poster Fair hosted by the David C. Frederick Honors College).

Education concentration

This concentration removed nine credits from the standard Physics and Astronomy major requirements if one of the courses listed below is taken as a science elective.

Additional education related courses

- PSYED 1001 - INTRO EDUCATIONAL PSYCHOLOGY
- TLL 1580 - FOUNDATIONS OF SPECIAL EDUC

Physics courses removed

- PHYS 1321 - COMPUTATIONAL METHODS IN PHYSICS
- PHYS 1341 - THERMODYNAMICS AND STATISTICAL MECHANICS
- PHYS 1370 - INTRODUCTION TO QUANTUM MECHANICS I

Required laboratory courses

Choose at least eight credits

- PHYS 0219 - BASIC LABORATORY PHYSICS SCIENCE AND ENGINEERING or
- PHYS 0520 - MODERN PHYSICS MEASUREMENTS
- PHYS 1361 - WAVE MOTION AND OPTICS
- ASTRON 1263 - TECHNIQUES OF ASTRONOMY

Required selection of science electives

- CHEM 0110 - GENERAL CHEMISTRY 1
- CHEM 0120 - GENERAL CHEMISTRY 2
- PHYS 0481 - PRINCIPLES OF MODERN PHYSICS 2

Graduate School Preparation concentration

This concentration adds six credits to the standard Physics and Astronomy major requirements if one of the courses listed below is taken as a science elective.

Additional intermediate and advanced Physics courses

- PHYS 1371 - INTRODUCTION TO QUANTUM MECHANICS 2
- PHYS 1372 - ELECTROMAGNETIC THEORY
- PHYS 1373 - MATHEMATICAL METHODS IN PHYSICS

Physics, BS

Physics Major Requirements

- A minimum GPA of 2.0 in departmental courses is required for graduation. Honors majors must attain a minimum GPA of 3.2 in physics courses, a cumulative GPA of 3.09 or higher, completes PHYS 1903 Directed Research, submits a paper detailing the research within the department and presents the research in a public forum (i.e. at the University's Science Symposium or the Undergraduate Poster Fair hosted by UHC).
- No PHYS courses beyond the introductory level may be taken on an S/NC basis.
- Students must complete at least one W-course in the major; students should consult with their department advisor about this requirement.

Physics major, BS

The physics major requires the completion of 47 credits in physics distributed as follows.

Note:

While not required, the introductory level honors courses, PHYS 0475, PHYS 0476, and PHYS 0520 are appropriate particularly for students seeking degrees in physics.

Introductory Physics courses:

(select one group)

- PHYS 0174 - BASIC PHYSICS, SCIENCE AND ENGINEERING 1 (INTEGRATED) and
- PHYS 0175 - BASIC PHYSICS, SCIENCE AND ENGINEERING 2 (INTEGRATED)

- PHYS 0475 - INTRODUCTION TO PHYSICS, SCIENCE AND ENGINEERING 1 and
- PHYS 0476 - INTRODUCTION TO PHYSICS, SCIENCE AND ENGINEERING 2

Intermediate and advanced Physics courses

- PHYS 0477 - INTRODUCTION TO THERMAL PHYSICS, RELATIVITY AND QUANTUM MECHANICS
- PHYS 1310 - UNDERGRADUATE SEMINAR

- PHYS 1321 - COMPUTATIONAL METHODS IN PHYSICS
- PHYS 1331 - MECHANICS
- PHYS 1341 - THERMODYNAMICS AND STATISTICAL MECHANICS
- PHYS 1351 - INTERMEDIATE ELECTRICITY AND MAGNETISM
- PHYS 1370 - INTRODUCTION TO QUANTUM MECHANICS 1

Laboratory courses

Choose at least 10 credits

- PHYS 0219 - BASIC LABORATORY PHYSICS SCIENCE AND ENGINEERING or
- PHYS 0520 - MODERN PHYSICS MEASUREMENTS
- PHYS 0525 - ANALOG AND DIGITAL ELECTRONICS
- PHYS 1361 - WAVE MOTION AND OPTICS
- PHYS 1426 - MODERN PHYSICS LABORATORY
- ASTRON 1263 - TECHNIQUES OF ASTRONOMY

Science electives

Choose at least nine credits from groups A and B. At least three credits must come from a course in group B.

Group A

- BIOSC 0150 - FOUNDATIONS OF BIOLOGY 1
- BIOSC 0160 - FOUNDATIONS OF BIOLOGY 2
- BIOENG 1070 - INTRODUCTORY CELL BIOLOGY 1
- BIOENG 1071 - INTRODUCTION TO CELL BIOLOGY 2
- CHEM 0110 - GENERAL CHEMISTRY 1 or
- CHEM 0710 - UHC GENERAL CHEMISTRY 1
- CHEM 0120 - GENERAL CHEMISTRY 2 or
- CHEM 0720 - UHC GENERAL CHEMISTRY 2
- CHEM 0310 - ORGANIC CHEMISTRY 1 or
- CHEM 0730 - UHC ORGANIC CHEMISTRY 1
- CHEM 0320 - ORGANIC CHEMISTRY 2 or
- CHEM 0740 - UHC ORGANIC CHEMISTRY 2
- CS 0401 - INTERMEDIATE PROGRAMMING USING JAVA
- CS 0445 - ALGORITHMS AND DATA STRUCTURES 1
- ENGR 0240 - NANOTECHNOLOGY AND NANO-ENGINEERING
- STAT 1151 - INTRODUCTION TO PROBABILITY
- STAT 1152 - INTRODUCTION TO MATHEMATICAL STATISTICS

Group B

- ASTRON 1120 - STARS; STELLAR STRUCTURE AND EVOLUTION
- ASTRON 1121 - GALAXIES AND COSMOLOGY
- CHEM 1410 - PHYSICAL CHEMISTRY 1
- CHEM 1420 - PHYSICAL CHEMISTRY 2
- CHEM 1620 - ATOMS, MOLECULES AND MATERIALS
- ECE 1232 - INTRO LASERS & OPTCL ELECTNC
- ECE 1247 - SEMICONDUCTOR DEVICE THEORY
- GEOL 1410 - EXPLORATION GEOPHYSICS
- MATH 1470 - PARTIAL DIFFERENTIAL EQUATIONS 1
- MATH 1550 - VECTOR ANALYSIS AND APPLICATIONS
- MATH 1560 - COMPLEX VARIABLES & APPLICATIONS
- PHYS 0481 - PRINCIPLES OF MODERN PHYSICS 2
- PHYS 1374 - SOLID STATE PHYSICS
- PHYS 1375 - FOUNDATIONS OF NANOSCIENCE
- PHYS 1376 - INTRODUCTION TO BIOLOGICAL PHYSICS
- PHYS 1378 - INTRODUCTION TO NUCLEAR AND PARTICLE PHYSICS

Prerequisite Mathematics courses

- MATH 0220 - ANALYTIC GEOMETRY AND CALCULUS 1
- MATH 0230 - ANALYTIC GEOMETRY AND CALCULUS 2
- MATH 0240 - ANALYTIC GEOMETRY AND CALCULUS 3
- MATH 0280 - INTRO TO MATRICES & LINEAR ALG or
- MATH 1180 - LINEAR ALGEBRA 1 or
- MATH 1185 - HONORS LINEAR ALGEBRA
- MATH 0290 - DIFFERENTIAL EQUATIONS or
- MATH 1270 - ORDINARY DIFFERENTIAL EQUATIONS 1 or
- MATH 1275 - HONORS ORDINARY DIFFERENTIAL EQUATIONS 1

Departmental honors requirements

Honors in physics is granted if in addition to fulfilling all requirements for the major, the student maintains a GPA of 3.2 or higher in courses required for the major, maintains a cumulative GPA of 3.0 or higher, completes MATH 1903 Directed Research, submits a paper detailing the research within the department, and presents the research in a public forum (i.e. at the University's Science Symposium, or the Undergraduate Poster Fair hosted by UHC).

Education concentration

This concentration removes up to 10 credits of physics courses from the standard Physics major requirements. This concentration requires seven credits of lab courses instead of the standard 10 credits.

Additional education-related courses

- PSYED 1001 - INTRO EDUCATIONAL PSYCHOLOGY
- TLL 1580 - FOUNDATIONS OF SPECIAL EDUC

Courses that emphasize the broader impact of science

Select at least three credits.

- PHYS 0087 - PHYSICS AND SOCIETY
Any course offered by the Department of History and Philosophy of Science

Required Science electives

Select one of the pairs from Group A, and take the indicated course in Group B.

Group A

- CHEM 0110 - GENERAL CHEMISTRY 1
- CHEM 0120 - GENERAL CHEMISTRY 2

- CHEM 0710 - UHC GENERAL CHEMISTRY 1
- CHEM 0720 - UHC GENERAL CHEMISTRY 2

Group B

- PHYS 0481 - PRINCIPLES OF MODERN PHYSICS 2

Physics courses removed

The following physics courses are not required for this concentration.

- PHYS 1321 - COMPUTATIONAL METHODS IN PHYSICS
- PHYS 1341 - THERMODYNAMICS AND STATISTICAL MECHANICS
- PHYS 1370 - INTRODUCTION TO QUANTUM MECHANICS 1

Graduate School Preparation concentration

This concentration adds at least six credits of Physics courses to the standard Physics major requirements. This concentration requires seven credits of lab courses instead of the standard 10 credits.

Additional intermediate and advanced Physics courses

- PHYS 1371 - INTRODUCTION TO QUANTUM MECHANICS 2
- PHYS 1372 - ELECTROMAGNETIC THEORY
- PHYS 1373 - MATHEMATICAL METHODS IN PHYSICS

Minor

Physics Minor

First level Physics course

Select one of the following courses.

- PHYS 0174 - BASIC PHYSICS, SCIENCE AND ENGINEERING 1 (INTEGRATED)
- PHYS 0475 - INTRODUCTION TO PHYSICS, SCIENCE AND ENGINEERING 1

Second level Physics course

Select one of the following courses.

- PHYS 0175 - BASIC PHYSICS, SCIENCE AND ENGINEERING 2 (INTEGRATED)
- PHYS 0476 - INTRODUCTION TO PHYSICS, SCIENCE AND ENGINEERING 2

Physics lab course

Select one of the following courses.

- PHYS 0219 - BASIC LABORATORY PHYSICS SCIENCE AND ENGINEERING
- PHYS 0520 - MODERN PHYSICS MEASUREMENTS

Principles of Physics course

Select one of the following courses.

- PHYS 0477 - INTRODUCTION TO THERMAL PHYSICS, RELATIVITY AND QUANTUM MECHANICS

Additional Physics course

Select one of the following courses.

- PHYS 0481 - PRINCIPLES OF MODERN PHYSICS 2
- PHYS 1374 - SOLID STATE PHYSICS
- PHYS 1375 - FOUNDATIONS OF NANOSCIENCE
- PHYS 1376 - INTRODUCTION TO BIOLOGICAL PHYSICS
- PHYS 1378 - INTRODUCTION TO NUCLEAR AND PARTICLE PHYSICS

Department of Political Science

A major in political science is designed to help students understand the complexity of political developments in the United States and throughout the world. The major also provides students with a broad education that will help them to prepare for a wide variety of careers in various levels of government service, law, education, journalism, business, and the nonprofit sector. Those interested in government service careers may wish to complement their study of political science with courses in public service offered through the College of General Studies and the Graduate School of Public and International Affairs.

The political science department offers many courses that meet the international/foreign cultures requirements of the core curriculum of the Dietrich School of Arts and Sciences, as well as requirements for the wide range of certificate programs sponsored by the University Center for International Studies (African Studies, Asian Studies, European

Union Studies, Global Studies, Latin American Studies, Russian and East European Studies, West European Studies, Global Service Center).

Joint Major

Computational Social Science, BS

Computational Social Science

The Computational Social Science (CSS) major educates students to build, compute, and improve theoretically-informed models of social processes, bridging domain and technical expertise. This major will prepare students to understand, engage with, and innovatively solve evolving, complex multi-scale challenges such as climate change, transnational political violence, cybersecurity and privacy, social polarization, and inequality, among others. This major will enhance the student's strength in both social science theory, broadly construed, as well as computing, informatics, and networked systems. Students will gain an understanding of modern computational tools and resources and social, political, and economic concepts from core social science classes.

Eligibility for the Major

Students may declare a major in Computational Social Science after completing the following course with a letter grade of C or higher.

- MATH 0220 - ANALYTIC GEOMETRY AND CALCULUS 1
Additionally, students are encouraged to be enrolled in or have completed INFSCI 0702 / PS 0702 with a grade of "C" or better when declaring the major.

Computational Social Science Major Requirements

The major will comprise of the following requirements for a total of 52-53 credits. All courses should be completed with a grade of "C" or better.

Pre-Requisite Mathematics Class

- MATH 0220 - ANALYTIC GEOMETRY AND CALCULUS 1

Foundations of Computational Social Science

The foundational courses introduce students to enduring puzzles in social science research, emerging themes of computational social science, and the approaches that social scientists and information & network scientists use to solve problems. This section consists of eight required courses that will provide foundations of subject matter knowledge and the basic computational tools that are relevant to social scientific theories and empirics.

One Introduction to CSS Class

- PS 0702 - INTRODUCTION TO COMPUTATIONAL SOCIAL SCIENCE
OR
- INFSCI 0702 - INTRODUCTION TO COMPUTATIONAL SOCIAL SCIENCE

One Introduction to Social Science Class

Choose one class from this list:

- PS 0200 - AMERICAN POLITICS
- PS 0500 - INTERNATIONAL RELATIONS
- PS 0300 - COMPARATIVE POLITICS

Four Classes Introducing Computational Approaches and Basic Tools

Two required courses:

- CMPINF 0401 - INTERMEDIATE PROGRAMMING * or INFSCI 0201 - INTERMEDIATE PROGRAMMING WITH PYTHON
- INFSCI 0510 - DATA ANALYSIS (pre-req - INFSCI 0310)

And then, select two of the following courses:

- INFSCI 0410 - HUMAN-CENTERED SYSTEMS
- INFSCI 0610 - NETWORKS AND INFORMATION
- INFSCI 1500 - DATABASE MANAGEMENT CONCEPTS AND APPLICATIONS

* Students should have some programming experience (usually acquired in high school) before taking CMPINF 0401. Any high school course that includes the writing of several Python, C++, or Java programs would be sufficient. It is also possible to take one of CS 0010, CS 0011, or CS 0012 as preparation. Preparatory classes of this nature do not count toward the student's major requirements.

One Social Science Research Design Class

- PS 0700 - RESEARCH METHODS IN POLITICAL SCIENCE

One Modeling Social Interactions and Motivations Class

Select one of the following courses.

- PS 1250 - GAMES, POLITICS, AND STRATEGY
- PS 1514 - POLITICAL STRATEGY INTERNATIONAL RELATIONS

Ethics and Computational Social Science

This section of the major will expose students to critical debates on the ethics of governance, computing, and technological change. Issues covered will include tradeoffs between privacy/security and censorship/freedom, as well as topics related to surveillance, propaganda, cyber-security, and regulation. The goal is to expose students to both the moral and social consequences of technology at a conceptual level, and the specific technical implementations that cause potential social problems (e.g., packet-sniffing) and could potentially expand the space for solutions (e.g., differential privacy).

Select two courses from the following:

- CMPINF 1205 - COMPARATIVE DIGITAL PRIVACIES
- CS 0590 - SOCIAL IMPLICATIONS OF COMPUTING TECHNOLOGY

- INFSCI 1600 - SECURITY AND PRIVACY
- PS 1693 - POLITICAL THEORY & THE FUTURE-ANALYSIS
- INFSCI 1049 - INTRODUCTION TO INFORMATION SECURITY
- PS 1675 - POLITICS OF HUMAN RIGHTS

Intermediate Techniques Applied to Social Science Content

The third set of requirements will empower students to use computational tools to explore enduring social science puzzles and theories at scale. These paths are not meant to be formal areas of concentration, but options to gain competence in more focused areas. For example, some students might be interested in applying data mining techniques to problems in campaigns in American politics. Other students might want to focus on cyber-security and international relations. The computational techniques, domains, and analytics course sets are organized to broaden interest in the major. Together, these courses allow our students to have an evolved understanding of how computing and digital tools can be used in government, businesses, and NGOs.

Two Computational Skills Classes

These classes specifically focus on relevant computational skills, including data mining, the web, visualizations, social computing, and advanced security and privacy. Other upper-level INFSCI courses (1100+) may be used with approval of the advisor.

Select two of the following courses to satisfy this subset:

- INFSCI 1440 - SOCIAL COMPUTING
- INFSCI 1520 - INFORMATION VISUALIZATION
- INFSCI 1530 - DATA MINING
- INFSCI 1550 - GEOSPATIAL INFORMATION SYSTEMS (GIS)
- INFSCI 1570 - NETWORK AND WEB DATA TECHNOLOGIES
- INFSCI 1620 - ADVANCED SECURITY AND PRIVACY

Two Domain Specialization Classes

Students will delve deeper into their domain specialization with two classes. One class should pair with the theme chosen for the student's Introductory Social Science Class (under Foundations of CSS). Students then choose another substantive class that can be outside the previous theme. Select two domain specializations classes from the themes below. Although only a few classes are listed for each theme, more are options available to students. Students should refer to the major's academic advisement (degree progress) report for a complete list of course options.

American Politics: A subset of courses within the 1200-range are approved domain specialization courses to pair with **PS 0200**.

- PS 1201 - CONSTITUTION AND CIVIL LIBERTIES
- PS 1202 - AMERICAN CONSTITUTIONAL LAW
- PS 1203 - JUDICIAL POLITICS
- PS 1204 - WOMEN IN POLITICS
- PS 1211 - LEGISLATIVE PROCESS
- PS 1213 - LAW AND POLITICS
- PS 1232 - POLITICAL ATTITUDE & PUBLIC OPINION

Comparative Politics: A subset of courses offered within the 1300-range are approved domain specialization courses to pair with **PS 0300**.

- PS 1302 - POLITICAL DEVELOPMENT
- PS 1303 - PEACE MOVEMENTS AND EDUCATION
- PS 1311 - WESTERN EUROPEAN GOVERNMENT AND POLITICS
- PS 1316 - ASIAN POLITICS
- PS 1317 - POLITICS OF THE EUROPEAN UNION
- PS 1322 - LATIN AMERICAN POLITICAL DEVELOPMENT
- PS 1327 - POLITICS OF REVOLUTION

International Relations: A subset of courses offered within the 1500-range are approved domain specialization courses to pair with **PS 0500**.

- PS 1501 - THEORY OF INTERNATIONAL RELATIONS
- PS 1502 - INTERNATIONAL LAW AND PROBLEMS OF WORLD ORDER
- PS 1503 - INTERNATIONAL ORGANIZATION
- PS 1504 - NATIONALISM
- PS 1511 - AMERICAN FOREIGN POLICY
- PS 1512 - THE POLITICS OF MIGRATION
- PS 1513 - FOREIGN POLICIES--CHANGING WORLD

One Integrated Analytics Content Class

The final section in this requirement will marry a deep analytical component, such as predictive analytics, causal inference, game theory, data visualization, and other topics with complicated social problems such as inequality, trade, climate change, political violence, or polarization. The class will focus on integrating computational tools into the measurement of core social science concepts, including democracy, human rights, happiness, and peace. There will be a focus on using text and images as data.

Select one of the following courses:

- PS 1291 - WOMEN IN POLITICS - ANALYSIS
- PS 1292 - RACE, GENDER, AND POLITICS - ANALYSIS
- PS 1293 - LEGISLATIVE PROCESS - ANALYSIS
- PS 1294 - POLITICAL ATTITUDE - ANALYSIS
- PS 1295 - POLITICAL PSYCHOLOGY - ANALYSIS
- PS 1299 - ANALYSIS OF AMERICAN POLITICS
- PS 1391 - AUTHORITARIAN STATECRAFT AND THE ARTS OF RESISTANCE - ANALYSIS
- PS 1392 - EUROPEAN POLITICS-ANALYSIS IN COMPARATIVE POLITICS
- PS 1395 - LATIN AMERICAN POLITICS-ANALYSIS
- PS 1399 - ANALYSIS OF COMPARATIVE POLITICS
- PS 1591 - ANALYSIS OF CIVIL WARS
- PS 1592 - POLITICS OF GLOBAL ECONOMIC RELATIONS - ANALYSIS
- PS 1599 - ANALYSIS OF INTERNATIONAL RELATIONS
- PS 1702 - VISUALIZING AND UNDERSTANDING SOCIAL DATA

Application Development Capstone

The major culminates in the production of a research project that uses computational tools to create either a) an online, interactive data visualization, b) a replicable research report that uses unstructured data or c) a module/library. In all cases, the project will engage with or help to resolve an important social problem. This project can be created through independent or directed research, or in one of the classes listed below. All students will present their projects as digital posters to faculty, alumni, and potential employers from around the Pittsburgh area at an end-of-the-year event.

Select one of the following courses:

- INFSCI 1700 - DATA-DRIVEN COMMUNICATION
- INFSCI 1710 - DIRECTED RESEARCH
- INFSCI 1720 - INTERNSHIP
- INFSCI 1730 - INDEPENDENT STUDY
- INFSCI 1740 - TEAM-BASED CAPSTONE PROJECT
- PS 1782 - APPLICATION IN COMPUTATIONAL SOCIAL SCIENCE
- PS 1900 - INTERNSHIP
- PS 1901 - INDEPENDENT STUDY
- PS 1903 - DIRECTED RESEARCH

Additional information

Grade requirements

All courses for the major must be taken as the letter grade option and completed with a C or better.

Approved courses

If a course is approved for multiple requirements, it cannot satisfy more than one.

Satisfactory/No Credit option

No course that counts toward the major can be taken on an S/NC basis without the approval of the advisor.

Writing requirement

Students enrolled in the Dietrich School of Arts and Sciences must complete at least one writing-intensive (W) course in the major. Students in the School of Computing and Information must comply with GER rules.

Double majoring

There will be specific provisions for double majors on the A&S side, but it is expected that students can double major this with another social science major or any major in SCI.

Declaration

Students can declare the major in the Spring of their first year. Students are required to complete MATH 0220 prior to declaring and are strongly encouraged to be enrolled in PS 0702 during or before their declaration term.

Honors

To earn honors designation within the major upon graduation, a 3.7 GPA is required across all major classes and a 3.5 Cumulative GPA overall.

Major

Political Science, BA

Political Science Major Requirements

The major requires the completion of 33 credits.

The political science department offers a large number of courses in four substantive fields: American Politics, Comparative Politics, International Relations, and Political Theory. Core courses provide a survey of each field and with the methods employed in the contemporary study of politics. The field courses, at 1000-level, provide students with advanced coursework in each of these areas of specialization. The combination of core and field courses provides students with a comprehensive overview of political science as a discipline while permitting students to concentrate in a particular field or fields.

Core Courses

Students take all five of the core courses, which provide first and second year students with a survey of each of these fields and with the methods employed in the contemporary study of politics.

- PS 0200 American Political Process: An introduction to the institutions and political processes in the United States. The course surveys the presidency, Congress, and the judicial system as well as political behavior, public opinion, political attitudes, and the party system.
- PS 0300 Comparative Politics: An introduction to political systems outside the United States. The course surveys a variety of theoretical approaches to the comparison of political systems and an examination of the political processes, institutions, and current political developments in a variety of political systems in all of the major regions of the world.
- PS 0500 World Politics: An introduction to the study of foreign policy, covering the international political environment in which nation-states and other actors operate, as well as the specific policies adopted by particular states.
- PS 0600 Political Theory and Analysis: An introduction to the history of Western political ideas, including the thought of Plato, Aristotle, Machiavelli, Locke, Mill, and Marx.
- PS 0700 Research Methods in Political Science: An introduction to the methods used in political science research, covering the logic of social scientific inquiry, the basics of research design, and the quantitative and qualitative methods that are commonly used by political scientists to investigate important questions about the political world.

Field Courses

At the 1000 level, students must take a total of six courses (18 credits), distributed across a major field (three courses), a minor field (two courses) and one course in an elective field. In the major field, one of the courses must be a capstone seminar.

In each of the four substantive undergraduate fields of political science, a wide variety of advanced (1000-level) courses is offered on a regular basis. Some courses are offered annually, while others are offered less frequently. For details on course offerings and content, see the Undergraduate Course Descriptions.

American Politics

- PS 1201 - CONSTITUTION AND CIVIL LIBERTIES
- PS 1202 - AMERICAN CONSTITUTIONAL LAW
- PS 1203 - JUDICIAL POLITICS
- PS 1204 - WOMEN IN POLITICS
- PS 1211 - LEGISLATIVE PROCESS
- PS 1212 - AMERICAN PRESIDENCY
- PS 1213 - LAW AND POLITICS
- PS 1230 - INTEREST GROUP POLITICS
- PS 1231 - POLITICAL PARTIES AND ELECTIONS
- PS 1233 - POLITICAL PSYCHOLOGY
- PS 1234 - ELECTORAL BEHAVIORS AND DEMOCRATIC PROCESS
- PS 1235 - MEDIA AND POLITICS
- PS 1240 - THE POLITICS OF DIVERSITY
- PS 1250 - GAMES, POLITICS, AND STRATEGY
- PS 1252 - STATE GOVERNMENT
- PS 1261 - AMERICAN PUBLIC POLICY
- PS 1275 - RELIGION AND AMERICAN POLITICS
- PS 1281 - CAPSTONE SEMINAR IN AMERICAN POLITICS

Comparative Politics

- PS 1302 - POLITICAL DEVELOPMENT
- PS 1311 - WESTERN EUROPEAN GOVERNMENT AND POLITICS
- PS 1317 - POLITICS OF THE EUROPEAN UNION
- PS 1321 - LATIN AMERICAN POLITICS
- PS 1324 - US-LATIN AMERICAN RELATIONS
- PS 1328 - AUTHORITARIAN STATECRAFT AND THE ARTS OF RESISTANCE
- PS 1330 - EUROPEAN UNION SEMINAR
- PS 1332 - GOVERNMENT AND POLITICS IN CONTEMPORARY CHINA
- PS 1333 - GOVERNMENT AND POLITICS OF JAPAN
- PS 1336 - BUSINESS AND POLITICAL ECONOMY IN MODERN CHINA
- PS 1341 - GOVERNMENT AND POLITICS USSR/RUSSIAN FEDERATION
- PS 1348 - XENOPHOBIA IN MODERN EUROPE
- PS 1351 - GOVERNMENT AND POLITICS OF THE MIDDLE EAST
- PS 1352 - INTRODUCTION TO AFRICAN POLITICS
- PS 1357 - THE POLITICS OF FOOD, LAND, AND SUSTAINABILITY
- PS 1361 - COMPARATIVE POLITICAL PARTY SYSTEMS
- PS 1381 - CAPSTONE SEMINAR IN COMPARATIVE POLITICS

International Relations

- PS 1501 - THEORY OF INTERNATIONAL RELATIONS
- PS 1503 - INTERNATIONAL ORGANIZATION
- PS 1504 - NATIONALISM
- PS 1509 - CONFLICT AND WAR THEORY
- PS 1510 - COLDWAR:SOVIET UNION AND WEST 1917-91
- PS 1511 - AMERICAN FOREIGN POLICY
- PS 1536 - HUMAN SECURITY
- PS 1537 - PEACEMAKING & PEACEKEEPING
- PS 1538 - THE POLITICS OF OIL AND NATURAL RESOURCES
- PS 1542 - GLOBAL ENVIRONMENTAL POLITICS
- PS 1543 - GLOBALIZATION AND INTERNATIONAL POLITICS
- PS 1581 - CAPSTONE SEMINAR IN INTERNATIONAL RELATIONS

Political Theory and Analysis

- PS 1601 - ANCIENT AND MEDIEVAL POLITICAL THOUGHT
- PS 1602 - STATES OF NATURE: EARLY MODERN POLITICAL THOUGHT IN CONTEXT
- PS 1603 - MODERN AND CONTEMPORARY POLITICAL THOUGHT
- PS 1607 - AMERICAN POLITICAL THOUGHT
- PS 1612 - MARXISM
- PS 1614 - THEORIES OF JUSTICE
- PS 1619 - DEMOCRATIC THEORY
- PS 1622 - "OUTSIDER POLITICS" : ANARCHIST, PUNK, QUEER, AND FEMINIST THEORY
- PS 1675 - POLITICS OF HUMAN RIGHTS
- PS 1681 - CAPSTONE SEMINAR IN POLITICAL THEORY

Additional Offerings

- PS 1702 - VISUALIZING AND UNDERSTANDING SOCIAL DATA
- PS 1900 - INTERNSHIP
- PS 1901 - INDEPENDENT STUDY
- PS 1902 - DIRECTED READING
- PS 1903 - DIRECTED RESEARCH
- PS 1910 - INSTITUTE OF POLITICS INTERNSHIP/SEMINAR

Capstone seminar

The University of Pittsburgh requires students to complete one writing-intensive course in their major. The Capstone Seminar, which is taken in the major field, fulfills the university-wide requirement of an intensive writing course (W-course) in the major and allows students to undertake advanced work under the direction of faculty in a smaller seminar setting.

Departmental honors requirements

Departmental honors are conferred upon students who maintain an overall GPA of 3.5 and achieve a GPA of 3.7 or better in political science.

Grade requirements

A minimum GPA of 2.0 in departmental courses is required for graduation. In addition, a student must earn a grade of at least C- for a course to satisfy a PS requirement.

Satisfactory/No Credit option

No course to be counted toward the major can be taken on an S/NC basis.

Political Science, BPHIL

Political Science Major Requirements

The major requires the completion of 33 credits.

The political science department offers a large number of courses in four substantive fields: American Politics, Comparative Politics, International Relations, and Political Theory. Core courses provide a survey of each field and with the methods employed in the contemporary study of politics. The field courses, at 1000-level, provide students with advanced coursework in each of these areas of specialization. The combination of core and field courses provides students with a comprehensive overview of political science as a discipline while permitting students to concentrate in a particular field or fields.

Political Science BS and BPhil

Outstanding and motivated students seeking an even more challenging academic experience, especially those who are considering graduate school, should consult with an advisor about the option of a BS or BPhil in Political Science. The BS degree requires the departmental minor field to be Methods and Models in Political Science (PS 1702 and PS 1710), as well as 12 credits of additional coursework in cognate fields and an original paper of high quality. The BPhil degree, which is offered through the David C. Frederick Honors College (FHC), requires a plan of cognate fieldwork and a thesis approved by the department and FHC. For more information on the BPhil, see <https://www.frederickhonors.pitt.edu/research/bachelor-philosophy-bphil-degree>.

Second Language

None required beyond the requirements of Arts and Sciences. Study of a second language is highly recommended for students with an interest in politics outside of the United States and for all those considering graduate work in comparative politics or a career in government agencies concerned with international affairs.

Statistics

Not required for majors, but highly recommended for all those interested in graduate education in political science, business, or public policy.

Independent Study

Students who have completed the field course may explore a particular subject in greater depth in a tutorial with the appropriate faculty member. Permission of the instructor is required.

Political Science, BS

Political Science Major Requirements

The major requires the completion of 33 credits.

The political science department offers a large number of courses in four substantive fields: American Politics, Comparative Politics, International Relations, and Political Theory. Core courses provide a survey of each field and with the methods employed in the contemporary study of politics. The field courses, at 1000-level, provide students with advanced coursework in each of these areas of specialization. Statistics

Not required for majors, but highly recommended for all those interested in graduate education in political science, business, or public policy.

Independent Study

Students who have completed the field course may explore a particular subject in greater depth in a tutorial with the appropriate faculty member. Permission of the instructor is required.

Minor

Political Science Minor

A minor in political science is composed of one core course and four field courses in one of the four fields of political science.

Internships

A wide range of internships related to the study of politics at the local, national, and international levels are available in both the public and private sectors in Pittsburgh, Washington D.C., and other major cities. Students must work closely with a faculty advisor to assure full academic credit.

Study Abroad

Majors in political science receive full academic credit for participation in all study abroad programs. The University of Pittsburgh is a participant in a wide range of programs of international study.

Honors Society

Students who have achieved a GPA of 3.0 in political science are encouraged to join Pi Sigma Alpha, the national honors society in political science. This society sponsors many extracurricular activities linked to the study of politics.

Advising

Questions about courses, departmental requirements, and extracurricular opportunities should be addressed to the undergraduate advisors.

Department of Psychology

The psychology major is part of the liberal arts program in the Dietrich School. As such, it provides students with the skills needed to succeed in a job and in graduate school, to think critically and communicate effectively about human behavior and related topics. The Department of Psychology also functions from the perspective that psychology is a natural science. The emphasis it places on research is evident in the foundation courses required to declare the psychology major (e.g., statistics, research methods), as well as in the focus on the scientific methods throughout the content of all other psychology courses. To complement their arts and sciences training, the department also encourages students to participate in directed research and/or supervised field placement opportunities. For more information on the psychology department and its programs, please visit www.psychology.pitt.edu

Psychology majors can participate in one of two major options:

Major

Psychology, BS

The psychology major is part of the liberal arts program in the Dietrich School. As such, it provides students with the skills needed to succeed in a job and in graduate school, to think critically and communicate effectively about human behavior and related topics. The Department of Psychology also functions from the perspective that psychology is a natural science. The emphasis it places on research is evident in the foundation courses required to declare the psychology major (e.g., statistics, research methods), as well as in the focus on the scientific methods throughout the content of all other psychology courses. To complement their arts and sciences training, the department also encourages students to participate in directed research and/or supervised field placement opportunities. For more information on the psychology department and its programs, please visit the Department of Psychology Web site.

Psychology majors can participate in one of two major options: General major in Psychology, and Honors in Psychology. Students who declare the Psychology major are automatically enrolled in the general major track. This

track provides students with a broad background in psychology and a firm understanding of the scientific method. The majority of students remain in this track.

In addition to Dietrich School skills and General Education Requirements, psychology majors must complete 33 to 34 credits in psychology, four credits in statistics, and nine to 10 credits of co-requirements as described below. The honors track offers students a challenging and unique opportunity: to conduct their own, independent research study under the guidance of a faculty member. Additional course and GPA requirements apply. Students interested in pursuing the honors track should speak with an advisor in the Psychology Advising Office.

The following requirements apply to students who declare the Psychology major in spring 2020 term or later. Students who declared the major before spring 2020 should consult with the Psychology Advising Office.

One course in Statistics

The required course in statistics should be taken as early as possible; the contents of the course is relevant to many required psychology courses. The statistics course must be taken before a student can enroll in PSY 0036 - RESEARCH METHODS LECTURE and PSY 0037 - RESEARCH METHODS LAB.

Choose one of the following courses.

- STAT 0200 - BASIC APPLIED STATISTICS
- STAT 1000 - APPLIED STATISTICAL METHODS
- STAT 1100 - STATISTICS AND PROBABILITY FOR BUSINESS MANAGEMENT

Foundation courses

Three courses are required to declare the major; students must earn a C or better in all three foundation courses if they wish to graduate with a psychology major.

- PSY 0010 - INTRODUCTION TO PSYCHOLOGY
- PSY 0036 - RESEARCH METHODS LECTURE
- PSY 0037 - RESEARCH METHODS LAB

Core courses

Choose four courses from the following list.

- PSY 0105 - INTRODUCTION TO SOCIAL PSYCHOLOGY
- PSY 0205 - PSYCHOPATHOLOGY
- PSY 0310 - DEVELOPMENTAL PSYCHOLOGY
- PSY 0422 - COGNITIVE PSYCHOLOGY
- PSY 0505 - INTRODUCTION TO BIOPSYCHOLOGY or
- NROSCI 1000 - INTRO TO NEUROSCIENCE

Upper level

Choose two 1000-level courses, not to include the following courses

- PSY 1900 - SUPERVISED FIELD PLACEMENT
- PSY 1902 - DIRECTED INDIVIDUAL READING
- PSY 1903 - DIRECTED INDIVIDUAL RESEARCH S/NC
- PSY 1950 - PSYCHOLOGY SENIOR SEMINAR
- PSY 1970 - UNDERGRADUATE TEACHING ASSISTANT EXPERIENCE
- PSY 1973 - HONORS DIRECTED RESEARCH
- PSY 1975 - HONORS THESIS/MAJORS

Electives

Choose a course from any of the following levels.

- PSY 0100-level
- PSY 0300-level
- PSY 0400-level
- PSY 0500-level
- PSY 1000-level

The elective course cannot include any course used to fulfill a core requirement, any 1000-level requirement, or lab methods requirement. Experiential learning courses - PSY 1900, PSY 1902, and PSY 1903 may be used to fulfill this requirement. PSY 1950, PSY 1970, PSY 1973, and PSY 1975 may not be used to fulfill this requirement.

Laboratory

Choose one of the following courses.

- PSY 0405 - LEARNING AND MOTIVATION
- PSY 0423 - COGNITIVE PSYCHOLOGY LAB
- PSY 1059 - TOPICS IN ADVANCED LABORATORY METHODS
- PSY 1112 - PSYCHOLOGICAL ASPECTS OF HUMAN SEXUALITY LAB
- PSY 1213 - PSYCHOPATHOLOGY ADVANCED LAB
- PSY 1305 - DEVELOPMENTAL PSYCHOLOGY LAB
- PSY 1471 - HUMAN BRAIN CONNECTIVITY LAB: BASIC RESEARCH AND CLINICAL APPLICATIONS
- PSY 1975 - HONORS THESIS/MAJORS

Co-requirements

The Department of Psychology requires that students further develop their scientific skills through certain approved courses in math, biological sciences, and social sciences. A list of these approved courses is available in the Psychology Advising Office. The co-requirements may be used to fulfill Dietrich School General Education Requirements, where appropriate, or can be taken as separate courses.

Psychology majors must also follow these rules and requirements:

- Students who wish to declare a major in psychology must first complete PSY 0010 and the statistics course with a letter grade of C or better. After completing these courses, students must be enrolled in PSY 0036 and PSY 0037.
- New majors must complete an online orientation prior to scheduling an appointment with their assigned psychology advisors. Students will receive an e-mail with instructions and dates approximately the fourth week of each fall and spring term.
- Psychology majors must maintain at least a 2.0 GPA in their departmental courses.

- All psychology and statistics courses used to fulfill requirements for the major must be taken for a letter grade.
- Majors must take one of the writing-intensive courses (W-courses) offered within the department. PSY 0037 is offered every term and is a W-course. Other W-courses offered in the department are PSY 1112 and PSY 1305.

Department of Religious Studies

Religion is one of the creative expressions of the human spirit. As such, it has shaped and, in turn, been shaped by virtually all historical traditions as well as by many other forms of human activity such as the arts, literature, political thinking, and social behavior. Therefore, the academic study of religion should be carried out through diverse scholarly methodologies, and it should treat experiences in a variety of cultural contexts in different periods. Students who wish to understand the manner in which religion, in its broadest terms, has contributed to the shaping of the human experience are encouraged to pursue a course of study that will expand their methodological skills as well as give them a firm command of a particular cultural or historical context. Courses in the study of religion tend to emphasize the human search for meaning and value in history; the manner in which particular religious traditions, practices, thoughts, and orientations have evolved over time; and the degree to which religious views have interacted creatively with other systems of thought and other meaningful expressions of human activity. In addition to courses in the Department of Religious Studies, other departments, such as anthropology, classics, history, philosophy, and sociology, offer related courses. For more information on the Department of Religious Studies and its programs, visit www.religiousstudies.pitt.edu.

Major

Religious Studies, BA

Major Requirements

Students pursuing a major in Religious Studies are required to complete 30 credits, detailed as follows.

Introductory courses

- RELGST 0105 - RELIGIONS OF THE WEST
- RELGST 0505 - RELIGION IN ASIA

Survey course

Select one of the following courses.

- RELGST 0405 - WITCHES TO WALDEN POND
- RELGST 0083 - MYTHOLOGY IN THE ANCIENT WORLD
- RELGST 0283 - US AND THE HOLOCAUST
- RELGST 0415 - RELIGION IN MODERN AMERICA
- RELGST 0454 - RISE OF ISLAM: 500-1200 CE
- RELGST 0455 - INTRODUCTION TO ISLAMIC CIVILIZATION
- RELGST 0500 - WHAT IS RELIGION?
- RELGST 0710 - SOCIOLOGY OF RELIGION
- RELGST 0715 - PHILOSOPHY OF RELIGION
- RELGST 1120 - ORIGINS OF CHRISTIANITY

- RELGST 1130 - VARIETIES OF EARLY CHRISTIANITY
- RELGST 1135 - ORTHODOX CHRISTIANITY
- RELGST 1144 - CLASSICAL MYTHOLOGY AND LITERATURE
- RELGST 1210 - JEWS AND JUDAISM IN THE ANCIENT WORLD
- RELGST 1220 - JEWS AND JUDAISM IN THE MEDIEVAL WORLD
- RELGST 1250 - JEWS AND JUDAISM IN THE MODERN WORLD
- RELGST 1320 - MEDIEVAL HISTORY 1
- RELGST 1500 - RELIGION IN INDIA
- RELGST 1550 - EAST ASIAN BUDDHISM
- RELGST 1570 - RELIGION IN JAPAN
- RELGST 1710 - PERSPECTIVES ON RELIGION

Thematic courses

Select three courses in one thematic cluster listed below.

Religion, Medicine, and the Body

- RELGST 1143 - DEATH IN THE NAME OF GOD
- RELGST 1151 - DEATH IN THE MEDITERRANEAN WORLD
- RELGST 1171 - HEALTH AND ILLNESS IN ISRAELI SOCIETY
- RELGST 1402 - HEALTH AND RELIGION
- RELGST 1405 - RELIGION AND SEXUALITY
- RELGST 1511 - YOGA: OF LOINCLOTHS AND LULULEMON
- RELGST 1521 - ASIAN RELIGION PERSPECTIVES ON BIOETHICS
- RELGST 1545 - MYSTICISM IN ASIA
- RELGST 1554 - DEATH AND BEYOND IN BUDDHIST CULTURES
- RELGST 1558 - BUDDHISM AND PSYCHOLOGY
- RELGST 1560 - RELIGION AND HEALING IN CHINA
- RELGST 1722 - HEALING, SHAMANISM, AND SPIRITUAL POSSESSION
- RELGST 1725 - DEATH AND HEALTHCARE PROFESSIONS
- RELGST 1726 - HEALING AND HUMANITY

Spirituality and Rationality

- RELGST 0090 - MYTH IN THE ANCIENT NEAR EAST
- RELGST 0760 - RELIGION AND RATIONALITY
- RELGST 0770 - SCIENCE AND RELIGION
- RELGST 0780 - QUANTUM KARMA: SCIENCE IN HINDU AND BUDDHIST TRADITIONS
- RELGST 1102 - THE HISTORY OF GOD
- RELGST 1142 - THE CONSTRUCTION OF EVIL IN WESTERN RELIGIOUS TRADITIONS
- RELGST 1145 - GRECO-ROMAN RELIGIONS
- RELGST 1280 - MODERN AND CONTEMPORARY JEWISH THOUGHT
- RELGST 1540 - SAINTS EAST AND WEST
- RELGST 1545 - MYSTICISM IN ASIA
- RELGST 1552 - BUDDHIST MEDITATIVE TRADITIONS
- RELGST 1610 - MYTH, SYMBOL AND RITUAL

- RELGST 1645 - THE HISTORICAL JESUS
- RELGST 1762 - THE GUIDE OF THE PERPLEXED

Religion, Culture, and Creative Expression

- RELGST 0435 - RELIGION, FILM AND LITERATURE
- RELGST 0525 - RELIGION AND CULTURE IN EAST ASIA
- RELGST 1100 - ISRAEL IN THE BIBLICAL AGE
- RELGST 1148 - RELIGIONS OF ANCIENT EGYPT
- RELGST 1160 - JERUSALEM: HISTORY AND IMAGINATION
- RELGST 1170 - ARCHAEOLOGY OF ISRAEL-PALESTINE
- RELGST 1300 - RELIGION, THE BOOK, AND BEYOND
- RELGST 1425 - POPULAR RELIGION IN AMERICA
- RELGST 1428 - RELIGION AND SPORTS
- RELGST 1452 - HYMNS & HIPHOP: SOUNDS OF ISLAM
- RELGST 1510 - HINDU MYTHOLOGY
- RELGST 1520 - BUDDHISM ALONG THE SILK ROAD
- RELGST 1572 - POPULAR RELIGION IN CHANGING JAPAN
- RELGST 1802 - RELIGYINZ: RELIGION IN PITTSBURGH

Religion, Identity, and Global Problems

- RELGST 1240 - JEWS AND THE CITY
- RELGST 1241 - GENDER AND JEWISH HISTORY
- RELGST 1252 - HOLOCAUST HISTORY AND MEMORY
- RELGST 1282 - CONTEMPORARY JEWISH LIFE
- RELGST 1370 - GLOBAL CHRISTIANITY
- RELGST 1372 - CATHOLICISM IN THE NEW WORLD
- RELGST 1380 - RELIGION RIGHT NOW: MEDIA AND RELIGIOUS NEWS IN CONTEMPORARY AMERICA
- RELGST 1417 - PHILOSOPHY OF RACE AND RELIGION
- RELGST 1418 - FROM VODOU TO SANTERIA: RELIGIONS OF THE WEST AFRICAN DIASPORA
- RELGST 1420 - RELIGION AND RACE
- RELGST 1438 - RELIGION AND POLITICS
- RELGST 1445 - MUSLIM POLITICS IN REAL TIME
- RELGST 1449 - ISLAM & CONFLICT IN GLOBAL CONTEXTS
- RELGST 1450 - ISLAM, LAW, AND POLITICS
- RELGST 1455 - ISLAM IN EUROPE
- RELGST 1458 - WOMEN AND ISLAM IN ASIA
- RELGST 1475 - RELIGIOUS DIVERSITY
- RELGST 1519 - RELIGION, NATURE AND ENVIRONMENT
- RELGST 1520 - BUDDHISM ALONG THE SILK ROAD
- RELGST 1600 - ASIAN-AMERICAN RELIGIONS
- RELGST 1620 - WOMEN IN RELIGION
- RELGST 1642 - CHRISTIAN-MUSLIM RELATIONS
- RELGST 1644 - CHRISTIAN MUSLIMS JEWS IN THE MIDDLE AGES: CONNECTION & CONFLICT
- RELGST 1652 - ANTISEMITISM, RACE AND GENDER
- RELGST 1680 - HISTORY AND MEMORY IN THE JEWISH TRADITION

- RELGST 1681 - INVENTING ISRAEL: ZIONISM, ANTI-ZIONISM, AND POST-ZIONISM

Electives: three courses

Students must take at least one 1000-level RELGST course of their choice from the above list. The other two courses may include an internship, an undergraduate teaching assistantship, or a directed study course. Students must complete a minimum of nine credits in elective courses.

Capstone course

The capstone seminar has a prerequisite of any six RELGST courses.

- RELGST 1903 - DIRECTED RESEARCH-UNDERGRADUATE

Distribution requirement

The courses students take to fulfill their major requirements must include at least one course that focuses on Religion in Aisa (denoted above by *), one course that focuses on ancient or classical religion in the Middle East and/or Europe (denoted above by +), and one course that focuses on modern or contemporary religion in the Middle East, Europe, or the Americas (denoted above by #).

Religion in Asia

- RELGST 0525 - RELIGION AND CULTURE IN EAST ASIA
- RELGST 1500 - RELIGION IN INDIA
- RELGST 1510 - HINDU MYTHOLOGY
- RELGST 1520 - BUDDHISM ALONG THE SILK ROAD
- RELGST 1540 - SAINTS EAST AND WEST
- RELGST 1545 - MYSTICISM IN ASIA
- RELGST 1550 - EAST ASIAN BUDDHISM
- RELGST 1552 - BUDDHIST MEDITATIVE TRADITIONS
- RELGST 1554 - DEATH AND BEYOND IN BUDDHIST CULTURES
- RELGST 1558 - BUDDHISM AND PSYCHOLOGY
- RELGST 1560 - RELIGION AND HEALING IN CHINA
- RELGST 1570 - RELIGION IN JAPAN
- RELGST 1572 - POPULAR RELIGION IN CHANGING JAPAN

Ancient or Classical Religion in the Middle East and/or Europe

- RELGST 0090 - MYTH IN THE ANCIENT NEAR EAST
- RELGST 1100 - ISRAEL IN THE BIBLICAL AGE
- RELGST 1120 - ORIGINS OF CHRISTIANITY
- RELGST 1130 - VARIETIES OF EARLY CHRISTIANITY
- RELGST 1135 - ORTHODOX CHRISTIANITY
- RELGST 1142 - THE CONSTRUCTION OF EVIL IN WESTERN RELIGIOUS TRADITIONS
- RELGST 1143 - DEATH IN THE NAME OF GOD
- RELGST 1145 - GRECO-ROMAN RELIGIONS

- RELGST 1148 - RELIGIONS OF ANCIENT EGYPT
- RELGST 1151 - DEATH IN THE MEDITERRANEAN WORLD
- RELGST 1160 - JERUSALEM: HISTORY AND IMAGINATION
- RELGST 1210 - JEWS AND JUDAISM IN THE ANCIENT WORLD
- RELGST 1220 - JEWS AND JUDAISM IN THE MEDIEVAL WORLD
- RELGST 1540 - SAINTS EAST AND WEST
- RELGST 1545 - MYSTICISM IN ASIA
- RELGST 1642 - CHRISTIAN-MUSLIM RELATIONS
- RELGST 1644 - CHRISTIAN MUSLIMS JEWS IN THE MIDDLE AGES: CONNECTION & CONFLICT
- RELGST 1645 - THE HISTORICAL JESUS
- RELGST 1680 - HISTORY AND MEMORY IN THE JEWISH TRADITION
- RELGST 1762 - THE GUIDE OF THE PERPLEXED

Modern or Contemporary Religion in the Middle East, Europe, or the Americas

- RELGST 0405 - WITCHES TO WALDEN POND
- RELGST 0415 - RELIGION IN MODERN AMERICA
- RELGST 0435 - RELIGION, FILM AND LITERATURE
- RELGST 0455 - INTRODUCTION TO ISLAMIC CIVILIZATION
- RELGST 0715 - PHILOSOPHY OF RELIGION
- RELGST 1240 - JEWS AND THE CITY
- RELGST 1241 - GENDER AND JEWISH HISTORY
- RELGST 1250 - JEWS AND JUDAISM IN THE MODERN WORLD
- RELGST 1252 - HOLOCAUST HISTORY AND MEMORY
- RELGST 1256 - MODERN ISRAEL AND PALESTINE
- RELGST 1372 - CATHOLICISM IN THE NEW WORLD
- RELGST 1405 - RELIGION AND SEXUALITY
- RELGST 1415 - RACE AND RELIGION IN AMERICA
- RELGST 1425 - POPULAR RELIGION IN AMERICA
- RELGST 1438 - RELIGION AND POLITICS
- RELGST 1450 - ISLAM, LAW, AND POLITICS
- RELGST 1452 - HYMNS & HIPHOP: SOUNDS OF ISLAM
- RELGST 1518 - RELIGION AND ECOLOGY
- RELGST 1681 - INVENTING ISRAEL: ZIONISM, ANTI-ZIONISM, AND POST-ZIONISM
- RELGST 1725 - DEATH AND HEALTHCARE PROFESSIONS
- RELGST 0760 - RELIGION AND RATIONALITY

Other requirements

Grade requirements: All courses counted toward the major must be taken for a letter grade and completed with a C grade or above. At least five courses and the capstone seminar must be completed on the Oakland campus. Students transferring from other colleges or universities need to consult with the director of undergraduate studies about transferring courses and credits to be applied to the major.

Satisfactory/No Credit option: No more than six credits that count toward the major can be taken on an S/NC basis.

Writing (W) requirement: The capstone seminar fulfills the W-course requirement for this major.

Honors major requirements: Department honors require a GPA of 3.25 or higher in the major and a B+ or above in the capstone seminar.

Minor

Religious Studies Minor

Students pursuing a minor in Religious Studies are required to take complete 15 credits of coursework as follows.

Introductory courses

Students must take two courses from the following list.

- RELGST 0090 - MYTH IN THE ANCIENT NEAR EAST
- RELGST 0105 - RELIGIONS OF THE WEST
- RELGST 0405 - WITCHES TO WALDEN POND
- RELGST 0415 - RELIGION IN MODERN AMERICA
- RELGST 0435 - RELIGION, FILM AND LITERATURE
- RELGST 0455 - INTRODUCTION TO ISLAMIC CIVILIZATION
- RELGST 0505 - RELIGION IN ASIA
- RELGST 0525 - RELIGION AND CULTURE IN EAST ASIA
- RELGST 0715 - PHILOSOPHY OF RELIGION

Religion in the East

Students must take one course from the following list.

- RELGST 1500 - RELIGION IN INDIA
- RELGST 1510 - HINDU MYTHOLOGY
- RELGST 1520 - BUDDHISM ALONG THE SILK ROAD
- RELGST 1540 - SAINTS EAST AND WEST
- RELGST 1545 - MYSTICISM IN ASIA
- RELGST 1550 - EAST ASIAN BUDDHISM
- RELGST 1552 - BUDDHIST MEDITATIVE TRADITIONS
- RELGST 1554 - DEATH AND BEYOND IN BUDDHIST CULTURES
- RELGST 1558 - BUDDHISM AND PSYCHOLOGY
- RELGST 1560 - RELIGION AND HEALING IN CHINA
- RELGST 1570 - RELIGION IN JAPAN
- RELGST 1572 - POPULAR RELIGION IN CHANGING JAPAN

Religion in the West

Students must take one of the following courses.

- RELGST 1100 - ISRAEL IN THE BIBLICAL AGE
- RELGST 1120 - ORIGINS OF CHRISTIANITY
- RELGST 1130 - VARIETIES OF EARLY CHRISTIANITY

- RELGST 1135 - ORTHODOX CHRISTIANITY
- RELGST 1142 - THE CONSTRUCTION OF EVIL IN WESTERN RELIGIOUS TRADITIONS
- RELGST 1143 - DEATH IN THE NAME OF GOD
- RELGST 1145 - GRECO-ROMAN RELIGIONS
- RELGST 1151 - DEATH IN THE MEDITERRANEAN WORLD
- RELGST 1160 - JERUSALEM: HISTORY AND IMAGINATION
- RELGST 1210 - JEWS AND JUDAISM IN THE ANCIENT WORLD
- RELGST 1220 - JEWS AND JUDAISM IN THE MEDIEVAL WORLD
- RELGST 1240 - JEWS AND THE CITY
- RELGST 1241 - GENDER AND JEWISH HISTORY
- RELGST 1250 - JEWS AND JUDAISM IN THE MODERN WORLD
- RELGST 1252 - HOLOCAUST HISTORY AND MEMORY
- RELGST 1372 - CATHOLICISM IN THE NEW WORLD
- RELGST 1405 - RELIGION AND SEXUALITY
- RELGST 1425 - POPULAR RELIGION IN AMERICA
- RELGST 1438 - RELIGION AND POLITICS
- RELGST 1450 - ISLAM, LAW, AND POLITICS
- RELGST 1452 - HYMNS & HIPHOP: SOUNDS OF ISLAM
- RELGST 1540 - SAINTS EAST AND WEST
- RELGST 1545 - MYSTICISM IN ASIA
- RELGST 1610 - MYTH, SYMBOL AND RITUAL
- RELGST 1642 - CHRISTIAN-MUSLIM RELATIONS
- RELGST 1644 - CHRISTIAN MUSLIMS JEWS IN THE MIDDLE AGES: CONNECTION & CONFLICT
- RELGST 1645 - THE HISTORICAL JESUS
- RELGST 1681 - INVENTING ISRAEL: ZIONISM, ANTI-ZIONISM, AND POST-ZIONISM
- RELGST 1725 - DEATH AND HEALTHCARE PROFESSIONS
- RELGST 0760 - RELIGION AND RATIONALITY

Upper level elective

Students must take one RELGST course at the 1000-level.

Department of Slavic Languages and Literatures

The Department of Slavic Languages and Literatures offers majors in Russian and Slavic Studies. These majors provide students with the opportunity to study the languages, literatures, and cultures of Russia and of the Slavic-speaking Eastern European countries, including Poland, Ukraine, Slovakia, Serbia, and Croatia.

Students in the Department of Slavic Languages and Literature include those whose primary interest is languages and/or literature, those who wish to enhance their career opportunities in a special way, those who have an interest in the politics and culture of Russia and the Slavic speaking Eastern European countries, and those who have a desire to explore their ethnic heritage. Many majors continue their studies in graduate or professional school and then go on to careers in business, government, teaching, law, medicine, social work, other health-related professions as well as the CIA, FBI and various NGOs and public policy institutions. Knowledge of a Slavic language has been valuable in working in local Western Pennsylvania institutions, politics, business, health-related professions, and the media because of the large population of those ethnicities in this region. Students are advised to begin language study early in order to gain as complete a command of the language as possible. For more information on the Department of Slavic Languages and Literatures and its programs, see www.slavic.pitt.edu.

During the fall and spring terms, the department offers language courses in Russian, Polish, Slovak and Ukrainian, with Serbian and Croatian available through the Language Acquisition Institute. Any student with prior experience in Russian or Ukrainian (including heritage speakers and those who studied a language in high school or abroad) are required to consult with the instructor before being admitted to any language courses in the department. Placement tests are offered to test suitability.

Summer term intensive courses in Russian, Polish, Slovak, Serbian, Croatian, Bulgarian, Macedonian, Ukrainian as well as Romanian and Hungarian are offered through the Slavic Department's Summer Language Institute [SLI]. Summer language courses are intensive and cover an entire year of study. First through fourth year level courses may be offered. These courses afford students the opportunity to make rapid progress through the language in order to qualify for advanced courses and for various study abroad opportunities. Summer study in the SLI now offers the opportunity to study for the first half of the course in Pittsburgh and the second part in the target country, with excursions to major cities and monuments. Scholarships are available for the SLI programs.

Deserving of special mention is the department's program in Slovak language, literature and culture-the only such program in the United States, and one that additionally offers the opportunity for several students each year to study abroad in Slovakia.

Major

Russian, BA

Major Requirements

The Russian major requires at least 33 distributed as follows.

Prerequisite courses

These courses do not count toward the 33 credits required for the major.

- RUSS 0101 - ELEMENTARY RUSSIAN 1
- RUSS 0102 - ELEMENTARY RUSSIAN 2
- RUSS 0103 - INTERMEDIATE RUSSIAN 1
- RUSS 0104 - INTERMEDIATE RUSSIAN 2

Language courses

- RUSS 0400 - ADVANCED RUSSIAN 1
- RUSS 0410 - ADVANCED RUSSIAN 2
- RUSS 1420 - FOURTH-YEAR RUSSIAN 1
- RUSS 1430 - FOURTH-YEAR RUSSIAN 2

Literature and culture courses

- RUSS 0800 - ADULTERY, MURDER, OMNISCIENCE: INTRODUCTION TO 19TH C RUSSIAN LITERATURE
- RUSS 0810 - UTOPIA, SOCIALISM, DISSENT: INTRODUCTION TO MODERN RUSSIAN LITERATURE
- RUSS 0850 - APPROPRIATING THE PAST: THE EARLY HISTORY AND CULTURES OF THE EASTERN SLAVS, 988-1825

- RUSS 0860 - MODERN RUSSIAN CULTURE
- One 1000-level Russian elective course

Note:

Additional courses at the 1000 level in Russian literature are strongly recommended. Prospective majors are encouraged to take RUSS 0800 - ADULTERY, MURDER, OMNISCIENCE: INTRODUCTION TO 19TH C RUSSIAN LITERATURE and RUSS 0810 - UTOPIA, SOCIALISM, DISSENT: INTRODUCTION TO MODERN RUSSIAN LITERATURE as early as possible as an introduction to Russian literature.

The following rules and requirements apply to Russian majors.

- Advanced placement assessment and credit by examination may be arranged through consent of the instructor and the department chair.
- RUSS 0800 - ADULTERY, MURDER, OMNISCIENCE: INTRODUCTION TO 19TH C RUSSIAN LITERATURE and RUSS 0810 - UTOPIA, SOCIALISM, DISSENT: INTRODUCTION TO MODERN RUSSIAN LITERATURE are offered regularly as W courses and will satisfy the departmental W-course requirement.
- A grade of C or better is required in each course that counts toward the major. A grade of B- or better in language courses is required to advance to the next level. A minimum GPA of 2.0 in departmental courses is required for graduation.
- No course that counts toward the major may be taken on an S/NC basis.

Honors in the major

Honors in Russian is granted if, in addition to fulfilling all requirements for the major, the student meets the following conditions.

- Maintain a GPA of 3.75 or higher in RUSS courses.
- Maintain an overall GPA of 3.25 or higher.
- Complete at least one additional RUSS 1000-level course.
- Complete a 20-page paper involving Russian primary-source research and a two-page summary in Russian, under the supervision of an appointed faculty committee.
- Consulted with the undergraduate advisor in their junior year.

Study abroad

Students are encouraged to participate in an approved study-abroad program for a semester or the summer term. The department will adjust the course requirements in individual cases to accommodate this participation without delaying the student's graduation. Majors often apply for Nationality Rooms Program Scholarships for summer study abroad. The Summer Language Institute (SLI) offers generous scholarships as well. The following represents a partial list of study abroad opportunities available to students.

- **Summer study in Moscow:** The Department of Slavic Languages and Literatures currently sponsors a ten-credit summer-study program as part of the SLI in Pittsburgh (5 weeks) and Moscow (5 weeks) at the Moscow State University. Students may study first through fourth year Russian, covering one full year language study in ten weeks. Similar programs exist for study in Poland and Bulgaria. The Slavic department can be reached at 412-624-5096 or via e-mail at slavic@pitt.edu.
- **The University of Pittsburgh** is affiliated with a number of organizations holding both summer and semester, or year-long study in Russia. The Study Abroad Office, located in 802 William Pitt Union, can be reached at 412-647-7413.

- **The Center for Russian, East European, and Eurasian Studies (REEES)** regularly organizes summer study abroad programs in languages and social sciences in locations from the Czech Republic to Slovakia. REEES makes scholarships available for many of these programs. Trevor Erlacher, the REES undergraduate advisor, can be reached at 412-648-7403 or TFE3@Pitt.edu.
- **The Nationality Rooms Program** offers a wide variety of competitive scholarships for summer study abroad in many parts of the world, including Central and Eastern Europe. Applications are due in January. The NRP, located in 1209 CL, can be reached at 412-624-6510.
For more information, see www.slavic.pitt.edu.

Minor

Bosnian, Croatian, Montenegrin, and Serbian Minor

Students may complete this 15-credit minor during the regular academic year or through summer study of the Bosnia-Croatian-Serbian language. *SLAV 1850 may not be used to fulfill a requirement for more than one academic program.*

Option 1: Academic year

- BCMS 0030 - INTERMEDIATE BOSNIAN/CROATIAN/MONTENEGRIN/SERBIAN 3
- BCMS 0040 - INTERMEDIATE BOSNIAN/CROATIAN/MONTENEGRIN/SERBIAN 4
- BCMS 0400 - ADVANCED BOSNIAN/CROATIAN/MONTENEGRIN/SERBIAN 5
- BCMS 0410 - ADVANCED BOSNIAN/CROATIAN/MONTENEGRIN/SERBIAN 6
- SLAV 1850 - UNDERSTANDING THE BALKANS: INTRODUCTION TO BALKAN CULTURE AND LITERATURE

Option 2: Summer study

Choose one course from each of the following pairs:

- BCMS 0220 - INTERMEDIATE INTENSIVE SERBIAN
- BCMS 0223 - INTERMEDIATE INTENSIVE BOSNIAN/CROATIAN/MONTENEGRIN/SERBIAN PITT-MONTENEGRO
- BCMS 0230 - ADVANCED INTENSIVE BOSNIAN/CROATIAN/MONTENEGRIN/SERBIAN
- BCMS 0231 - ADVANCED INTENSIVE BOSNIAN/CROATIAN/MONTENEGRIN/SERBIAN PITT-MONTENEGRO

Polish Minor

Students may complete this 15-credit minor during the regular academic year or through summer study of the Bosnia-Croatian-Serbian language. *SLAV 1865 may not be used to fulfill a requirement for more than one academic program.*

Option 1: Academic year

- POLISH 0030 - INTERMEDIATE POLISH 3
- POLISH 0040 - INTERMEDIATE POLISH 4

- POLISH 0400 - ADVANCED POLISH THROUGH FILM
- POLISH 0410 - ADVANCED POLISH 2
- POLISH 0325 - THE SHORT STORY or
- POLISH 0870 - CONTEMPORARY POLISH CINEMA:LITERATURE ON FILM or
- POLISH 1260 - SURVEY OF POLISH LITERATURE AND CULTURE
- SLAV 1865 - THE YEAR COMMUNISM CRUMBLED

Option 2: Summer study

Choose one course from each of the following pairs:

- POLISH 0220 - INTENSIVE INTERMEDIATE POLISH
- POLISH 0221 - INTERMEDIATE INTENSIVE POLISH PITT/POLAND
- POLISH 0230 - ADVANCED INTENSIVE POLISH
- POLISH 0233 - ADVANCED POLISH IN POLAND

Slovak Studies Minor

Slovak Studies minor

An undergraduate minor in Slovak studies motivates students to continue with their language and culture studies in a meaningful way. This program would be particularly useful for students majoring in anthropology, political science, and history, many of whom focus their work on Slovakia or Central Europe and see Slovak language and culture as a gateway to the study of the area. Several of the graduates with considerable work in Slovak at Pitt have been offered jobs at the Pentagon, international nonprofit and nongovernmental organizations (NGOs), Radio Free Europe, and the U.S. Department of State.

Students who are interested in the minor may tailor their course selections according to the focus of their interest in the Slovak language or in Slovak culture.

Culture option

The Slovak Culture option requires 15 credits of coursework, distributed as follows.

Required courses

Both of the following courses are required for the Culture option.

- SLOVAK 0010 - ELEMENTARY SLOVAK 1
- SLOVAK 0020 - ELEMENTARY SLOVAK 2

Elective courses

Select three of the following courses.

- SLOVAK 0030 - INTERMEDIATE SLOVAK 3
- SLOVAK 0380 - SLOVAK TRANSATLANTIC CULTURES
- SLOVAK 0890 - SLOVAK, CZECH, AND CENTRAL EUROPEAN FILM
- SLAV 1865 - THE YEAR COMMUNISM CRUMBLED

Language option

The Slovak Language option requires 15 credits of coursework in the Slovak language, distributed as follows.

Slovak language courses

All of the following courses are required.

- SLOVAK 0010 - ELEMENTARY SLOVAK 1
- SLOVAK 0020 - ELEMENTARY SLOVAK 2
- SLOVAK 0030 - INTERMEDIATE SLOVAK 3
- SLOVAK 0040 - INTERMEDIATE SLOVAK 4
- SLOVAK 0400 - ADVANCED SLOVAK 5

Department of Sociology

This is an exciting time of dramatic social change, both nationally and internationally. Global processes are integrating the world and creating the "global village." At the same time, old hostilities based on ethnic solidarity are re-emerging and tearing the social fabric of various parts of the world. The U.S. economy is undergoing structural change, which, in turn, is altering the occupational structure; the United States is becoming more multicultural, and the meanings of "community" are shifting. In these changes there are huge benefits for some and heavy costs for others. "Social problems" (e.g., health care availability, poverty, crime, or threats to the environment) are not marginal to societies but integral to them.

Sociologists try to understand these phenomena. For some, this means informing public policy; for others, the social world is simply one of the most interesting things to study. Sociologists study social organization. For some, this means examining societies-how they are structured, how they work, and how they change. Other sociologists study how small social groups work and how they change. This includes the social networks that people form as part of their social life. Issues of race, class, and gender affect the opportunities and constraints faced by different groups in society. Sociologists study how people belong to families, groups, and organizations-how people develop identities and how their social organizations become real. Sociologists also focus on broad patterns of social organization socialization, education, welfare, health care, etc. In short, the social world is endlessly fascinating.

For more information on the sociology major, the sociology minor, and the Department of Sociology, see www.sociology.pitt.edu.

Major

Sociology, BA

Major Requirements

A total of 27 credits in sociology and four credits in statistics, distributed as follows, are required for completion of the major.

Introductory course

Choose one of the following courses.

- SOC 0002 - SOCIOLOGY OF EVERYDAY LIFE
- SOC 0005 - SOCIETIES
- SOC 0010 - INTRODUCTION TO SOCIOLOGY

Theory and Research courses

Complete both of the following courses.

- SOC 0230 - SOCIAL RESEARCH METHODS
- SOC 0150 - SOCIAL THEORY

Statistics course

Choose one of the following courses.

- STAT 0200 - BASIC APPLIED STATISTICS
- STAT 1000 - APPLIED STATISTICAL METHODS

Research Practicum

Students must complete the introductory, theory and research, and statistics courses before enrolling in the required research practicum.

- SOC 1500 - CAPSTONE RESEARCH PRACTICUM FOR MAJORS

Elective courses

Students are required to complete a minimum of 15 elective credits in SOC, six of which must be at the 1000 level. Internships and directed research do not count toward the six 1000-level elective credits.

Additional information

Grade requirements: A minimum GPA of 2.0 or higher in departmental courses is required for graduation.

Satisfactory/No Credit option: No more than six credits in SOC can be taken on an S/NC basis. After declaring the major, SOC 0150 and SOC 0230 may not be taken on an S/NC basis.

Writing (W) requirement: Students must complete at least one W-course in the major.

Honors major requirement: Honors in sociology is granted if in addition to fulfilling all requirements for the major, the student:

- maintained a GPA of 3.5 or above in SOC courses;
 - maintained an overall GPA of 3.25 or above;
 - completed SOC 0150 and SOC 0230 prior to completing a three-credit SOC 1002 honors seminar; and
 - completed a three-credit SOC honors thesis, written under the direction of a faculty mentor.
- The honors seminar, which is offered every fall term, and the honors thesis, which is offered every spring term, may replace six of the 15 required elective credits. Students pursuing the honors major are required to complete the same number of credits that are required for the standard major. For additional details, students are encouraged to consult with the undergraduate advisor.

Thematic cluster certificate: For sociology majors wishing to pursue specific themes within the discipline, the Department of Sociology currently offers five thematic clusters. Upon graduation, students who have completed three approved courses in one of these clusters will be awarded a certificate of achievement by the Department of Sociology.

- Global and Area Studies
- Social Movements / Inequality
- Race, Gender, and Sexuality
- The Helping Professions
- Health, Environment, and Technology

Internships: The Department of Sociology at the University of Pittsburgh is strongly committed to the career development of its students and sponsors a wide variety of strategic internships. Numerous local internship opportunities exist, involving childhood counseling and education, hospitals and healthcare, psychological and substance abuse counseling, criminal justice, business, law, and politics.

Courses for special programs

The Department of Sociology offers courses that are particularly suitable for the following special programs.

Pre-Law

- SOC 0471 - DEVIANCE AND SOCIAL CONTROL
- SOC 0472 - INTRODUCTION TO CRIMINOLOGY
- SOC 0474 - SOCIETY AND THE LAW

Pre-Social Work

- SOC 0424 - SMALL GROUPS
- SOC 0438 - SOCIOLOGY OF THE FAMILY
- SOC 0460 - RACE AND ETHNICITY
- SOC 0471 - DEVIANCE AND SOCIAL CONTROL
- SOC 0477 - MEDICAL SOCIOLOGY
- SOC 1413 - MARRIAGE
- SOC 1450 - HEALTH AND ILLNESS

Pre-Medical

- SOC 0312 - SCIENCE IN SOCIETY
- SOC 0475 - SOCIOLOGY OF AGING
- SOC 0477 - MEDICAL SOCIOLOGY
- SOC 1370 - GENDER AND HEALTH WORLDWIDE
- SOC 1450 - HEALTH AND ILLNESS

- SOC 1467 - TOPICS MENTAL HEALTH AND ILLNESS
- SOC 1488 - HISTORY MEDICINE AND HEALTH CARE

Gender, Sexuality, and Women's Studies

- SOC 0436 - SOCIAL ASPECTS OF SEXUALITY
- SOC 0446 - SOCIOLOGY OF GENDER
- SOC 1333 - COMPARATIVE PERSPECTIVES ON WOMEN
- SOC 1365 - RACE, CLASS, AND GENDER
- SOC 1448 - WORKING WOMEN

Minor

Sociology Minor

Minor Requirements

A minor in sociology requires the following distribution of courses for a total of 15 credits:

- SOC 0150 - SOCIAL THEORY
- SOC 0230 - SOCIAL RESEARCH METHODS
- An elective in sociology
- One elective upper-level sociology course (1000-2000)

One of the Following Courses

- SOC 0002 - SOCIOLOGY OF EVERYDAY LIFE
- SOC 0005 - SOCIETIES
- SOC 0010 - INTRODUCTION TO SOCIOLOGY

Department of Statistics

The field of statistics is concerned with ways of understanding variability in measurements. It is the science and art of making informed decisions in the face of uncertainty. Statistical reasoning is fundamental to research in many scientific fields. For example, probabilistic models of learning are used in education and psychology, and time series and regression models guide research in engineering, chemistry, economics, biology, and medicine. Recent high-profile court cases have shown the importance of the use of probability and statistics in law, especially in the fields of forensic medicine and DNA fingerprinting. Statisticians have also been instrumental in developing methods by which observations are obtained in many disciplines. Examples include randomized clinical trials in medicine and complex sampling surveys in social and political science. Probability and statistics are basic to the actuarial sciences. When lists are compiled of the most important scientific theories and discoveries of the last century, a substantial number of these developments are seen to be inherently statistical in nature.

The Department of Statistics offers course work leading to a Bachelor of Science degree in statistics, a minor in applied statistics, and a combined five-year bachelor and master's degree in statistics. The department also offers a wide array of introductory service courses for general undergraduate audiences that deal with statistical methods in applications (and which require only high school mathematics). A joint major in economics and statistics is also available. Interested students should consult the requirements listed under Economics. Students considering majoring in statistics

should consult with a department advisor early in their studies, preferably during their freshman year. For more information on the major, other programs, and the Department of Statistics, visit www.stat.pitt.edu.

Joint Major

Statistics, BS/MA

Requirements for a Combined Five-Year Bachelor's and Master's Degree in Statistics

Admission to the program requires the approval of both the undergraduate and graduate directors. The minimum requirements for admission are:

1. Two letters of recommendation,
2. minimum high school GPA of 3.25 or top 10 percent of class, and
3. an SAT score of at least 1270 with a math score of at least 650.

Requirements for a Combined BS and MA in Statistics

1. Introductory Mathematics Courses:

- MATH 0220 - ANALYTIC GEOMETRY AND CALCULUS 1
- MATH 0230 - ANALYTIC GEOMETRY AND CALCULUS 2
- MATH 0240 - ANALYTIC GEOMETRY AND CALCULUS 3

- MATH 0280 - INTRO TO MATRICES & LINEAR ALG or
- MATH 1180 - LINEAR ALGEBRA 1

2.

- STAT 1000 - APPLIED STATISTICAL METHODS
- STAT 1221 - APPLIED REGRESSION
- STAT 1223 - APPLIED REGRESSION WRITING COMPONENT where STAT 1223 is a W (writing) course

3. Three Introductory Applied Statistics Courses from the Following List:

- STAT 1201 - APPLIED NONPARAMETRIC STATISTICS
- STAT 1211 - APPLIED CATEGORICAL DATA ANALYSIS
- STAT 1251 - STATISTICAL QUALITY CONTROL
- STAT 1241 - APPLIED SAMPLING
- STAT 1251 - STATISTICAL QUALITY CONTROL
- STAT 1291 - TOPICS APPLIED STATISTICS 1
- STAT 1292 - TOPICS IN APPLIED STATISTICS 2
- STAT 1293 - TOPICS IN APPLIED STATISTICS 3

- STAT 1294 - TOPICS IN APPLIED STATISTICS 4

4. One Intermediate Applied Statistics Course from the Following List:

- STAT 1301 - STATISTICAL PACKAGES
- STAT 1311 - APPLIED MULTIVARIATE ANALYSIS
- STAT 1321 - APPLIED TIME SERIES

5.

- STAT 1151 - INTRODUCTION TO PROBABILITY
- STAT 1152 - INTRODUCTION TO MATHEMATICAL STATISTICS

6.

- STAT 1631 - INTERMEDIATE PROBABILITY
- STAT 1632 - INTERMEDIATE MATHEMATICAL STATISTICAL

7.

- STAT 2131 - APPLIED STATISTICAL METHODS 1
- STAT 2132 - APPLIED STATISTICAL METHODS 2

8.

- STAT 2381 - SUPERVISED STATISTICAL CONSULTING

9. Electives in Statistics:

Three additional courses, at least two of which must be graduate-level courses. STAT 2711 and 2712 are excluded, and courses at the 3000 level must be approved by the student's advisor

10.

One graduate-level course from outside of the department, chosen in consultation with the graduate advisor

11.

Master's pass on Preliminary Examination

Requirements for a Combined BS and MS in Statistics

Requirements one through 11 as above, except that requirement nine is reduced to one undergraduate or graduate course. In addition, the student must write and successfully defend a master's thesis.

- Grade requirement: Students in the program must earn at least a B grade in each required course as well as maintain a 3.25 GPA.

Typical Schedule

First Year:

- MATH 0220 - ANALYTIC GEOMETRY AND CALCULUS 1
- STAT 1000 - APPLIED STATISTICAL METHODS
- MATH 0230 - ANALYTIC GEOMETRY AND CALCULUS 2
- STAT 1221 - APPLIED REGRESSION
- STAT 1223 - APPLIED REGRESSION WRITING COMPONENT

Second Year:

- MATH 0240 - ANALYTIC GEOMETRY AND CALCULUS 3
- STAT 1200-level course
- MATH 0280 - INTRO TO MATRICES & LINEAR ALG
- STAT 1200-level course

Third Year:

- STAT 1151 - INTRODUCTION TO PROBABILITY
- STAT 1200-level course
- STAT 1152 - INTRODUCTION TO MATHEMATICAL STATISTICS
- STAT 1300-level course

Fourth Year:

- STAT 1631 - INTERMEDIATE PROBABILITY
- STAT 2131 - APPLIED STATISTICAL METHODS 1
- STAT 1632 - INTERMEDIATE MATHEMATICAL STATISTICAL
- STAT 2000-level course
- STAT 2132 - APPLIED STATISTICAL METHODS 2

Fifth Year:

- Take Comprehensive Exam
- STAT 2381 - SUPERVISED STATISTICAL CONSULTING
- Two STAT electives or master's thesis
- One outside graduate-level course

Comparison of Programs

Separately, the Bachelor of Science in statistics requires 50 credits, and the Master of science in applied statistics requires 33 credits, of which 21 must be graduate level. The combined program requires 69 credits, of which 18 must be graduate level.

Major

Data Science, BS

Data Science

The rapidly expanding collection of massive amounts of data is leading to transformations across broad segments of industry, science, and society. These changes have sparked great demand for individuals with skills in managing and analyzing complex data sets. Such skills are interdisciplinary, involving ideas typically associated with computing, information processing, mathematics, and statistics as well as the development of new methodologies spanning these fields. The undergraduate Data Science major establishes a framework to train University of Pittsburgh students to participate fully in this data revolution.

This major will allow students to gain skill sets that span key areas of statistics, computer science and mathematics, with foundational training providing literacy in four areas (data, algorithmic, mathematical, and statistical) that every student needs to master data science; the development of expertise that connects theory to the solution of real-world problems; and specialization towards more specific career focuses. Completing this major will prepare students to work as a data science professional or to pursue graduate study in a direction involving data in a significant way.

Program Requirements

The Data Science major requires the completion of 61 credits distributed as follows.

Foundational Courses

All of the following courses are required, except as noted.

- CMPINF 0401 - INTERMEDIATE PROGRAMMING
- CS 0445 - ALGORITHMS AND DATA STRUCTURES 1
- MATH 0220 - ANALYTIC GEOMETRY AND CALCULUS 1
- MATH 0230 - ANALYTIC GEOMETRY AND CALCULUS 2

- MATH 0280 - INTRO TO MATRICES & LINEAR ALG or
- MATH 1180 - LINEAR ALGEBRA 1

- MATH 0480 - APPLIED DISCRETE MATHEMATICS or
- CS 0441 - DISCRETE STRUCTURES FOR CS

- STAT 1060 - DATA SCIENCE FOUNDATIONS or
- CMPINF 1061 - FOUNDATIONS OF DATA SCIENCE

- STAT 1151 - INTRODUCTION TO PROBABILITY or
- STAT 1631 - INTERMEDIATE PROBABILITY

- STAT 1152 - INTRODUCTION TO MATHEMATICAL STATISTICS or

- STAT 1632 - INTERMEDIATE MATHEMATICAL STATISTICAL

Expertise Courses

All of the following courses are required, except as noted.

- CS 0590 - SOCIAL IMPLICATIONS OF COMPUTING TECHNOLOGY
- CS 1501 - ALGORITHMS AND DATA STRUCTURES 2
- CS 1656 - INTRODUCTION TO DATA SCIENCE
- MATH 1101 - AN INTRODUCTION TO OPTIMIZATION
- STAT 1261 - PRINCIPLES OF DATA SCIENCE
- STAT 1361 - STATISTICAL LEARNING AND DATA SCIENCE or
- CS 1675 - INTRODUCTION TO MACHINE LEARNING

Specialization

Students will have the opportunity to pursue an area of specialization through the selection of elective courses in one of the targeted directions - Data Analytics, Modeling, or Computer Systems. Students should select three courses from the same category for optimum focus. However, students may choose courses from across the categories to suit their interests.

Data Analytics

Students pursuing a data analytics specialization will enhance their ability to make sound inferences and decisions using the science and art of learning from data: specifically, the design, collection, analysis, and interpretation of data in an uncertain world, and the communication of findings.

- CS 1671 - HUMAN LANGUAGE TECHNOLOGIES
- CS 1674 - INTRODUCTION TO COMPUTER VISION
- INFSCI 1068 - GEOSPATIAL INFORMATION SYSTEMS (GIS)
- INFSCI 1520 - INFORMATION VISUALIZATION
- INFSCI 1530 - DATA MINING
- INFSCI 1560 - INFORMATION STORAGE AND RETRIEVAL
- MATH 1080 - NUMERICAL MATH: LINEAR ALGEBRA
- STAT 1201 - APPLIED NONPARAMETRIC STATISTICS
- STAT 1211 - APPLIED CATEGORICAL DATA ANALYSIS
- STAT 1231 - APPLIED EXPERIMENTAL DESIGN
- STAT 1221 - APPLIED REGRESSION
- STAT 1311 - APPLIED MULTIVARIATE ANALYSIS
- STAT 1321 - APPLIED TIME SERIES

Modeling

Students pursuing a modeling specialization will enhance their ability to develop and harness theoretical tools to characterize structure within data and to represent and analyze processes that may underlie this structure.

- CS 1538 - INTRODUCTION TO SIMULATION
- MATH 1025 - INTRODUCTION TO MATHEMATICAL CRYPTOGRAPHY

- MATH 1070 - NUMERICAL MATHEMATICAL ANALYSIS
- MATH 1080 - NUMERICAL MATH: LINEAR ALGEBRA
- MATH 1310 - GRAPH THEORY
- MATH 1360 - MODELING IN APPLIED MATH I
- MATH 1510 - MATHEMATICAL THEORY OF PROBABILITY
- STAT 1211 - APPLIED CATEGORICAL DATA ANALYSIS
- STAT 1221 - APPLIED REGRESSION
- STAT 1321 - APPLIED TIME SERIES
- STAT 1731 - STOCHASTIC PROCESSES
- STAT 1741 - APPLIED PROBABILITY THEORY

Computer Systems

Students pursuing this specialization will gain depth of knowledge in the development, deployment, and analysis of the complex computer and information systems necessary for tackling large-scale data science problems

- CS 0449 - INTRODUCTION TO SYSTEMS SOFTWARE
- CS 1550 - INTRODUCTION TO OPERATING SYSTEMS
- CS 1555 - DATABASE MANAGEMENT SYSTEMS or
- INFSCI 1022 - DATABASE MANAGEMENT SYSTEMS
- CS 1635 - INTERFACE DESIGN METHODOLOGY or
- INFSCI 2415 - INFORMATION VISUALIZATION
- CS 1645 - INTRODUCTION TO HIGH PERFORMANCE COMPUTING SYSTEMS
- CS 2450 - PARALLEL COMPUTING
- INFSCI 2125 - NETWORK SCIENCE & ANALYSIS

Capstone

Select a capstone course, relevant to the chosen specialization, from the following list.

- INFSCI 1740 - TEAM-BASED CAPSTONE PROJECT
- MATH 1103 - MATHEMATICAL PROBLEMS IN BUSINESS, INDUSTRY, AND GOVERNMENT
- STAT 1961 - STATISTICAL DATA SCIENCE IN ACTION
- Any faculty-guided research project, subject to approval by the Data Science program director(s).

Grade Requirements

Students must earn at least a C grade in each course required for the major.

Writing requirement

The writing requirement for Dietrich School students will be fulfilled by enrollment in the writing-intensive course CS 0590 - SOCIAL IMPLICATIONS OF COMPUTING TECHNOLOGY.

Sample Plans of Study

Below are two sample plans of study for students in the Data Science Major. Note that there are many paths through the Data Science major and any student's path may differ from those shown below.

The first plan is typical of students desiring an introductory programming course.

Year	Fall	Spring
Year 1	CS 0007 (3) MATH 0220 (4)+ STAT 1060 (4)* Gen Eds/Elective	CMPINF 0401 (4)+ MATH 0230 (4) CS 0441 (3)+ or MATH 0480 (3) Gen Eds/Electives
Year 2	CS 0445 (3)+ STAT 1151 (3)*^ Gen Eds/Electives	CS 1501 (3)+ MATH 0280/1180 (3)+ STAT 1152 (3)* Gen Eds/Electives
Year 3	CS 1656 (3)+ MATH 1101 (3)* STAT 1261 (3)* Gen Eds/Electives	CS 0590 (3)^ CS 1675 (3)+ or STAT 1361 (3) Specialization (3) Gen Eds/Electives
Year 4	Specialization (3) Gen Eds/Electives	Specialization (3) Capstone (3) Gen Eds/Electives

*Class only offered in term listed. All other classes are offered in both Fall & Spring terms

^Also counts towards SCI General Education Requirements

+Also counts towards Computer Science major requirements.

The second plan is typical for students who enter the University having completed an introductory programming course.

Year	Fall	Spring
Year 1	CMPINF 0401 (4)+ MATH 0220 (4)+	CS 0445 (3)+ MATH 0230 (4)

	STAT 1060 (4)* Gen Eds/Electives	CS 0441 (3)+ or MATH 0480 (3) Gen Eds/Electives
Year 2	CS 1501 (3)+ MATH 0280/1180 (3)+ STAT 1151 (3)*^ Gen Eds/Electives	CS 0590 (3)^ STAT 1152 (3)* Specialization (3) Gen Eds/Electives
Year 3	CS 1656 (3)+ MATH 1101 (3)* STAT 1261 (3)* Gen Eds/Electives	CS 1675 (3)+ or STAT 1361 (3) Specialization (3) Gen Eds/Electives
Year 4	Specialization (3) Gen Eds/Electives	Capstone (3) Gen Eds/Electives

*Class only offered in term listed. All other classes are offered in both Fall & Spring terms

^Also counts towards SCI General Education Requirements

+Also counts towards Computer Science major requirements.

Statistics, BS

Requirements for a BS in Statistics

The statistics major requires a minimum of 50 credits, including the following required courses:

Required Course

- STAT 1000 - APPLIED STATISTICAL METHODS *

Note:

* With approval of the major advisor, students may substitute STAT 1000 under the following conditions.

- Complete STAT 0200 with a grade of B- or better; or
- Receive advanced placement for STAT 0200; or
- Complete STAT 1100 if the student is a Statistics-Business dual major.

All of the Following Courses

- STAT 1221 - APPLIED REGRESSION
- STAT 1223 - APPLIED REGRESSION WRITING COMPONENT
- STAT 1151 - INTRODUCTION TO PROBABILITY
- STAT 1152 - INTRODUCTION TO MATHEMATICAL STATISTICS

Two of the Following Introductory Applied Statistics Courses

- STAT 1201 - APPLIED NONPARAMETRIC STATISTICS
- STAT 1211 - APPLIED CATEGORICAL DATA ANALYSIS
- STAT 1251 - STATISTICAL QUALITY CONTROL
- STAT 1241 - APPLIED SAMPLING
- STAT 1251 - STATISTICAL QUALITY CONTROL

One Intermediate Applied Statistics Course from the Following List:

- STAT 1301 - STATISTICAL PACKAGES
- STAT 1311 - APPLIED MULTIVARIATE ANALYSIS
- STAT 1321 - APPLIED TIME SERIES

Both of the Following Courses

- STAT 1631 - INTERMEDIATE PROBABILITY
- STAT 1632 - INTERMEDIATE MATHEMATICAL STATISTICAL

One Statistics Course from the Following List

- STAT 1651 - INTRODUCTION TO BAYESIAN STATISTICS
- STAT 1661 - LINEAR REGRESSION
- STAT 1731 - STOCHASTIC PROCESSES
- STAT 1741 - APPLIED PROBABILITY THEORY

Mathematics Courses:

Choose one group.

Group 1

- MATH 0220 - ANALYTIC GEOMETRY AND CALCULUS 1
- MATH 0230 - ANALYTIC GEOMETRY AND CALCULUS 2
- MATH 0240 - ANALYTIC GEOMETRY AND CALCULUS 3

Group 2

- MATH 0220 - ANALYTIC GEOMETRY AND CALCULUS 1
- MATH 0235 - HONORS 1 - VARIABLE CALCULUS

- MATH 0240 - ANALYTIC GEOMETRY AND CALCULUS 3

One of the Following Courses

- MATH 0280 - INTRO TO MATRICES & LINEAR ALG
- MATH 1180 - LINEAR ALGEBRA 1
- MATH 1185 - HONORS LINEAR ALGEBRA

Elective Courses

Because professional statisticians collaborate with other scientists, students are encouraged to take elective courses from the behavioral, natural, physical, and social sciences.

Additional Requirements

- **Grade requirements:** Students must earn at least a C grade in each course required for the major.
- **Satisfactory/No Credit:** Students may not take required courses on the S/NC option.
- **Writing requirement:** Courses in technical writing and public speaking are recommended.
- **Graduate study recommendations:** Students planning to continue their studies in a graduate program are strongly encouraged to take MATH 0413 - INTRO THEORETICAL MATHEMATICS, MATH 0420 - INTRO THEORY 1-VARIABLE CALCULUS, MATH 1180 - LINEAR ALGEBRA 1, and as many additional mathematics courses in advanced calculus, numerical analysis, and computer sciences as possible.
- **Departmental honors:** In order to qualify for departmental honors at graduation, students must:
 - have a GPA of at least 3.50 in all mathematics and statistics courses taken;
 - have a GPA of at least 3.70 in all 1000-level courses taken within the department; and
 - complete all other requirements for the statistics major.

Minor

Applied Statistics Minor

Requirements for a Minor in Applied Statistics

Professionals in many fields use statistical procedures regularly. Decisions based on numerical information or data, if the data are collected and analyzed properly, are typically better decisions. The minor in applied statistics was designed to give students additional statistical tools and a better understanding of statistical reasoning.

The minor in applied statistics requires 16 credits, consisting of the following courses

- STAT 1000 - APPLIED STATISTICAL METHODS
- STAT 1221 - APPLIED REGRESSION
- Three additional STAT courses at the 1200-level or higher

Note

- Acceptable substitutes for STAT 1000 - APPLIED STATISTICAL METHODS include STAT 1100 - STATISTICS AND PROBABILITY FOR BUSINESS MANAGEMENT, ENGR 0020 - PROBABILITY AND STATISTICS FOR ENGINEERS 1, and STAT 0200 - BASIC APPLIED STATISTICS.
- STAT 1223 - APPLIED REGRESSION WRITING COMPONENT does not count toward the minor.

Department of Studio Arts

The practice of art is among the oldest and most fundamental forms of human expression. The Department of Studio Arts provides the opportunity for students to explore the visual arts through foundation courses and through upper-level courses in painting, sculpture, drawing, printmaking, and graphic design. Studio activities are designed to intensify students' visual perception of the formal and expressive means of art, to develop understanding of a variety of technical processes, and to encourage insight into the significance of making art today. Course offerings of the department address the following goals:

- Provide a degree program for art majors who desire a liberal education and want to prepare for graduate art school or pursue a career in an art-related field;
- Provide a related area in studio arts for majors in other departments by taking the four foundation courses or by completing 12 credits in a specified studio area;
- Facilitate development of art-making skills and concepts through the foundation courses for all undergraduate students, while satisfying the Dietrich School creative expression requirement; and
- Provide a 15-credit minor in studio arts.

The Department of Studio Arts sponsors an annual student exhibition and a biannual faculty exhibition in the University of Pittsburgh Art Gallery. The University's Frick Fine Arts Library is one of the finest available. Also in close proximity is The Carnegie, with its museum and library providing access for research and study. For more information on the major, the minor, and the Department of Studio Arts, see <http://www.studioarts.pitt.edu/>.

Major

Studio Arts, BA

Major Requirements

The studio arts major requires the completion of 52 credits - 46 credits in studio arts, and six credits in art history, distributed as described.

Foundation Courses

- SA 0110 - VISUAL THINKING
- SA 0120 - PAINTING STUDIO 1
- SA 0130 - DRAWING STUDIO 1
- SA 0140 - SCULPTURE STUDIO 1
- SA 0180 - PHOTO STUDIO 1

Upper-Level Required Courses

- SA 1220 - PAINTING STUDIO 2
- SA 1230 - DRAWING STUDIO 2

- SA 1240 - SCULPTURE STUDIO 2
- SA 1260 - PRINT STUDIO: INTAGLIO
- SA 1270 - DIGITAL STUDIO: IMAGING
- SA 1370 - PREPARATION AND PRACTICE IN THE VISUAL ARTS
- SA 1600 - SENIOR SEMINAR
- SA 1604 - SENIOR EXHIBITION

Upper-Level Elective Courses

Students must take three courses from the following list, for a total of nine credits.

Directed study, internships, and undergraduate teaching assistantships are by permission only. Students must have completed at least 30 credits in Studio Arts courses. Students may apply up to three credits of internship or undergraduate teaching assistantship toward their major requirements.

- SA 1320 - PAINTING STUDIO: PROJECTS
- SA 1330 - DRAWING STUDIO: PROJECTS
- SA 1340 - SCULPTURE STUDIO: PROJECTS
- SA 1345 - SCULPTURE STUDIO: INSTALLATION
- SA 1365 - PRINT STUDIO: SCREENPRINT
- SA 1380 - DIGITAL STUDIO: VIDEO
- SA 1430 - DRAWING STUDIO: PERSPECTIVE
- SA 1450 - PAINTING STUDIO: FIGURE
- SA 1504 - DIRECTED STUDY: STUDIO
- SA 1900 - INTERNSHIP
- SA 1904 - UNDERGRADUATE TEACHING ASSISTANTSHIP
- HONORS 1542 - HONORS FIELD STUDIES IN WYOMING - STUDIO ARTS

History of Art and Architecture Required Courses

- HAA 0010 - INTRODUCTION TO WORLD ART

History of Art and Architecture Additional Courses

Students must take one of the two following HAA courses.

- HAA 0030 - INTRODUCTION TO MODERN ART
- HAA 0090 - INTRODUCTION TO CONTEMPORARY ART

Writing course requirement

Students must complete SA 1370 - PREPARATION AND PRACTICE IN THE VISUAL ARTS to satisfy this requirement.

Additional Requirements

- **Grade requirement:** Students must attain at least a 2.00 GPA in the major.

- **Satisfactory/No Credit option:** No department course that counts toward the major may be taken on the S/NC basis. Credit by exam is generally not available.
- **Departmental honors:** Students who earn a 3.50 GPA in the major and an overall 3.25 GPA receive departmental honors.
- **Senior art exhibition:** Seniors are expected to exhibit their work in the Annual Student Exhibition at the University of Pittsburgh Art Gallery.
- **Additional opportunities**
 - In addition to required courses, focus in a particular medium is possible through directed study. Internships are also available in art-related fields.
 - Majors may take special workshops and courses when offered, but only if they have fulfilled the prerequisites, or by departmental permission. The department recommends that a student take no more than two studio arts courses in one term.

Courses for Non-Studio Arts Majors

All level-one core courses are open to non-art majors. Non-art majors may take level-two courses but must complete the prerequisites for the specific courses. Non majors may take special workshops and advanced courses when offered, but only if they have fulfilled the prerequisites, or by departmental permission.

Minor

Studio Arts Minor

Core requirements

The following requirements and restrictions apply to both options in the Studio Arts minor.

- All courses that count toward the minor must be taken for a letter grade.
- Only six of the 15 credits required for the minor may be transfer credits.
- The number of upper-level course sections offered per term is limited, as is the frequency of 1300-level and 1400-level courses. Course enrollment is based on availability as well as the completion of prerequisites.
- The Department of Studio Arts recommends that students complete SA 0110 - VISUAL THINKING and SA 0130 - DRAWING STUDIO 1 before enrolling in SA 0120 - PAINTING STUDIO 1 .
- Any Studio Arts course (except for SA 1604 - SENIOR EXHIBITION, SA 1600 - SENIOR SEMINAR and SA 1370 - PREPARATION AND PRACTICE IN THE VISUAL ARTS) can be used for minor credits.

Option 1

This option requires completion of 15 credits of coursework. Students must complete any five Studio Arts courses.

Option 2

This option requires completion of 15 credits of coursework. Students must complete any four Studio Arts courses, and a History of Art and Architecture course on any topic and at any level.

Total Credits: 15

Department of Theatre Arts

The Department of Theatre Arts offers training in both the practical and academic aspects of theatre. Undergraduates may specialize in acting, directing, design and technical theatre, theatre history and criticism, or any combination of these.

While the department is not a professional school, the presence of strong graduate programs creates the atmosphere of professional training. Instead of the protected environment of a conservatory, undergraduate theatre training at Pitt takes place within the context of the liberal-arts experience at a large, urban university.

The department recommends that students declare this major as early as possible. For more information, please contact the Director of Undergraduate Studies, Gianni Downs at downs@pitt.edu.

Major

Theatre Arts, BA

The Theatre Arts major blends hands on experience in production with foundational training and advanced study. A core liberal arts base of coursework serves intermediate and advanced study in the classroom, rehearsal room, studio, and theatre. Students can pursue advanced coursework in one or more of three emphasis areas (performance/directing; design/tech/management; history/literature/criticism) through departmental and college electives. Faculty advised independent projects, directed studies, and research complement coursework. All majors are mentored by leading professionals who are also passionate teachers. Theatre Arts majors work alongside faculty, graduate students, teaching artists, and professional guests on and off stage.

The department provides experiences in many areas of theatrical production, training, and study. Theatre Arts boasts a robust production season of three to four main stage shows directed by faculty or guest directors and a one-act series directed by graduate or advanced undergraduate students. The department regularly hosts guest artists for additional workshops, lectures, and talks. Auditions for all productions are open to majors and non-majors alike.

Theatre Arts majors regularly secure internships, apprenticeships, and employment in theatre production upon graduation. Theatre Arts majors have successfully completed graduate-level training programs in performance, design, and history. Still other graduates find their Theatre Arts BA excellent preparation for law school, medical school, or other fields of employment that prioritize communication, collaboration, project management, and creativity.

The theatre arts major requires the completion of 42 credits distributed as follows.

Introductory course

- THEA 0810 - INTRODUCTION TO DRAMATIC ART

Performance courses

Choose three of the following courses.

- THEA 0804 - THEATRE AND COLLABORATION
- THEA 0830 - INTRODUCTION TO PERFORMANCE
- THEA 1100 - VOICE AND MOVEMENT 1
- THEA 1101 - VOICE AND MOVEMENT 2
- THEA 1102 - ACTING 1
- THEA 1103 - ACTING 2
- THEA 1104 - ACTING 3

- THEA 1110 - DIRECTING 1
- THEA 1111 - DIRECTING 2
- THEA 1229 - STAGE MANAGEMENT 1
- THEA 1338 - MUSICAL THEATRE PERFORMANCE
- THEA 1339 - MUSICAL THEATRE PERFORMANCE 2
- THEA 1392 - SPECIAL TOPICS IN PERFORMANCE

Design/Tech/Management courses

- THEA 0842 - INTRODUCTION TO STAGECRAFT
- THEA 0880 - THEATRICAL PRODUCTION
Students will take this course three times: once as Construction; and twice as Run Crew.
- THEA 1240 - COSTUME PRODUCTION AND TECHNOLOGY

Choose one of the following courses

- THEA 0840 - INTRODUCTION TO THEATRE DESIGN
- THEA 1230 - STAGE LIGHTING 1
- THEA 1233 - SOUND DESIGN 1
- THEA 1235 - SCENE DESIGN 1
- THEA 1246 - COSTUME DESIGN 1
- THEA 1407 - INTRO MUSICAL THEATRE DESIGN

History/Literature/Criticism

Choose two of the following courses

- THEA 1341 - WORLD THEATRE: 500 BCE TO 1640
- THEA 1342 - WORLD THEATRE: 1640-1890
- THEA 1343 - WORLD THEATRE: 1890-PRESENT

The following writing-intensive course is required.

- THEA 1903 - SEMINAR IN THEATRE ARTS

Choose one elective from the History/Literature/Criticism category

- THEA 0505 - ENJOY PERFORMANCES
- THEA 0825 - CONTEMPORARY GLOBAL STAGES
- THEA 1341 - WORLD THEATRE: 500 BCE TO 1640
- THEA 1342 - WORLD THEATRE: 1640-1890
- THEA 1343 - WORLD THEATRE: 1890-PRESENT
- THEA 1349 - DISABILITY AND PERFORMANCE
- THEA 1365 - PLAYWRITING 1 (writing-intensive)
- THEA 1366 - PLAYWRITING 2 (writing-intensive)

- THEA 1390 - NEW PLAY PRACTICUM
- THEA 1408 - IMMIGRANTS AND THE MUSICAL
- THEA 1409 - QUEER BROADWAY

Elective courses (6 credits)

Students must take two additional courses selected from offerings in Performance, Design / Technical / Management, or History / Literature / Criticism categories. Courses cannot count for both the required courses and the 6 credits of the theatre electives. Directed study (THEA 1480 - THEA 1499) and independent study (THEA 1900) courses cannot be used to satisfy this requirement.

Additional Requirements

- **Declaring the major:** Students are encouraged to declare this major early and register with the departmental advisor.
- **Grade requirement:** A minimum cumulative average of a C (2.0) or better in all departmental courses and any individual class required of the major must be at least a C- (1.75) or better.
- **Satisfactory/No Credit option:** Students must check with the program advisor to determine the appropriateness of using the Satisfactory/No Credit (S/NC) grade option in departmental courses. No more than two courses in the major may be taken on an S/NC basis.

For more information on the major and the Department of Theatre Arts, visit their Web site.

Minor

Theatre Arts Minor

Minor Requirements

Required Courses for the Minor

- THEA 0880 - THEATRICAL PRODUCTION : Run Crew

Choose two of the following courses

These courses cannot count for both the required course and the nine credits of theatre electives.

- THEA 0505 - ENJOY PERFORMANCES
- THEA 0804 - THEATRE AND COLLABORATION
- THEA 0810 - INTRODUCTION TO DRAMATIC ART

Choose three courses from any remaining theatre courses listed.

- THEA 0505 - ENJOY PERFORMANCES
- THEA 0804 - THEATRE AND COLLABORATION

- THEA 0810 - INTRODUCTION TO DRAMATIC ART
- THEA 0825 - CONTEMPORARY GLOBAL STAGES
- THEA 0830 - INTRODUCTION TO PERFORMANCE
- THEA 0840 - INTRODUCTION TO THEATRE DESIGN
- THEA 0842 - INTRODUCTION TO STAGECRAFT
- THEA 0880 - THEATRICAL PRODUCTION
- THEA 1100 - VOICE AND MOVEMENT 1
- THEA 1101 - VOICE AND MOVEMENT 2
- THEA 1102 - ACTING 1
- THEA 1103 - ACTING 2
- THEA 1104 - ACTING 3
- THEA 1110 - DIRECTING 1
- THEA 1111 - DIRECTING 2
- THEA 1227 - SCENE PAINTING
- THEA 1229 - STAGE MANAGEMENT 1
- THEA 1230 - STAGE LIGHTING 1
- THEA 1235 - SCENE DESIGN 1
- THEA 1240 - COSTUME PRODUCTION AND TECHNOLOGY
- THEA 1245 - STAGE MAKEUP
- THEA 1246 - COSTUME DESIGN 1
- THEA 1338 - MUSICAL THEATRE PERFORMANCE
- THEA 1341 - WORLD THEATRE: 500 BCE TO 1640
- THEA 1342 - WORLD THEATRE: 1640-1890
- THEA 1343 - WORLD THEATRE: 1890-PRESENT
- THEA 1365 - PLAYWRITING 1
- THEA 1366 - PLAYWRITING 2
- THEA 1390 - NEW PLAY PRACTICUM
- THEA 1391 - SPECIAL TOPICS: THEATRE DESIGN
- THEA 1392 - SPECIAL TOPICS IN PERFORMANCE
- THEA 1480 - DIRECTED PROJECT SCENERY/PROPS
- THEA 1481 - DIRECTED PROJECT COSTUME/MAKEUP
- THEA 1482 - DIRECTED PROJECT LIGHTING/SOUND
- THEA 1483 - DIRECTED PROJECT DIRECTING/PERF
- THEA 1484 - DIRECTED PROJECT BUSINESS MGT
- THEA 1485 - DIRECTED PROJECT STAGE MANAGEMENT
- THEA 1500 - MODERN ACTING
- THEA 1501 - SHAKESPEARE ACTING
- THEA 1903 - SEMINAR IN THEATRE ARTS

Urban Studies Program

While urban studies is not a department, it is an administrative unit offering a major in urban studies for students who have an interest in unraveling the complexities of the urban world. The major is interdisciplinary, meaning that students learn about cities as historical, social, cultural, economic, and political phenomena. The major is "real world" in the sense that students apply what they learn to the world beyond the classroom. Finally, the major is career oriented in that, after graduation, students attempt to find roles for themselves in the urban environment. To accomplish all of these goals, the urban studies curriculum integrates "knowing" with "doing." The major combines courses offered by the

program with courses offered through other social science departments. For more information, see www.urbanstudies.pitt.edu.

Distinction

Civic Learning Distinction

The primary goals of the Civic Learning Distinction are to provide students with a mechanism to gain recognition and credit for their outside-the-classroom work and to broaden the number of Pitt undergraduate students participating in civic learning and community engagement activities on and beyond campus.

Courses

Relevant courses will introduce students to the core principles of civic learning and engagement, and provide them with the skills needed for ethical, impactful, and engaged work. Students need to complete 3 courses for the distinction.

Civic Learning Distinction course requirements:

- Six (6) academic credits from Civic Learning courses. 1) Introduction to Urban Studies (URBNST 0010); 2) any other Civic Learning course.
- Three (3) academic credits from a Civic Learning + Engagement course.

High-Impact Activities (Minimum of Three Activities)

These activities should enrich the student's academic pursuits and provide opportunities to apply their knowledge and skills to pressing civic challenges. Please confirm your High Impact Activities with the PittServes Civic and Community Advising Program Manager. Each of the three activities must come from a different category. Activity categories include:

- Completion of the OCC Civic and Social Engagement goal area.
- Leadership role in a student organization that reflects a civic learning outcome (other community groups will be considered with approval by the Manager of Advising).
- A civic-learning related internship or fellowship.
- A civic-learning research project or other significant research experience (i.e. B.Phil).
- A civic-learning related study abroad or alternative break experience.
- Participation in the Civic Learning-Living Community.

Reflection Essay

Students should reflect on and share how the above courses and activities collectively contributed to their overall personal and professional development in a 1,500-to-2,000-word reflective essay. Students should provide examples of how these experiences enabled them to apply academic knowledge and skills to important issues that affect the civic life of a community.

Tracking

Students interested in completing the Civic Learning Distinction will complete an online application form. Student progress will be tracked through an e-Portfolio that students design to showcase their Civic Learning work. A committee including the PittServes Civic and Community Advising Program Manager and Urban Studies faculty will review and approve completed e-Portfolios once per semester.

Major

Urban Planning & Geographic Analysis, BS

The **BS in Urban Planning and Geographic Analysis**, offered through the University of Pittsburgh's Urban Studies Program but drawing on the existing courses and faculty expertise of Dietrich School and College of General Studies programs, provides an interdisciplinary curriculum with key connections to a wide range of disciplines. The major offers students the opportunity to study the theoretical and technical foundations of urban planning and geographical analysis and is designed for students seeking credentials and specialization in urban planning, or who wish to use geographical analysis as part of their future careers. The degree is designed to provide an educational pathway that is distinct from the **BA in Urban Studies**, yet there are sufficient complementarities for a student wishing to double-major in both degrees. The structure of the UPGA degree is designed to prepare students for graduate study in planning or geography, or for careers directly after graduation that rely on baccalaureate-level training in the conceptual and methodological foundations of these fields.

The structure of the UPGA degree is designed to prepare students for further graduate study in planning or geography with degree requirements that follow the guidelines set for undergraduate planning degrees by the Planning Accreditation Board. There is no intention to pursue accreditation for the new major since the strength of the proposed degree is the unification of planning and geographical analysis tools within the same degree. The new degree follows PAB curriculum and instruction guideline to ensure that our graduates are well-positioned for entry into graduate schools of planning.

The curriculum provides for a course of study that trains students in essential concepts and skills in several areas:

1. General Knowledge in Urban Planning & Geographic Analysis
 1. Purpose & History of Urban Planning & Geographic Analysis
 2. Human Settlements & History of Planning
 3. Understanding The Future
 4. Global Dimensions of Planning
 5. Key Issues: Sustainability, Housing Affordability, & Social Equity
2. Skills in Urban Planning & Geographic Analysis
 1. Research
 2. Written, Oral, & Graphic Communication
 3. Quantitative & Qualitative Methods
 4. Principles of Public Administration & Planning
 5. Data Visualization
 6. Raster & Vector Geographic Information Science
3. Values and Ethics
 1. Professional Ethics and Responsibility
 2. Equity, Diversity, and Social Justice
 3. Governance and Participation
 4. Sustainability and Environmental Quality
 5. Growth and Development
 6. Health and Built Environment

[1] See Planning Accreditation Standards and Criteria, accessed at <https://www.planningaccreditationboard.org/index.php?id=30>

Core Sequence (15 credits)

15 credits (5 courses) that introduce students to the practice of urban planning and geographic analysis through interdisciplinary perspectives.

- ARC 0110 - APPROACHES TO THE BUILT ENVIRONMENT
- PUBSRV 1130 - PLANNING IN THE PUBLIC SECTOR
- URBNST 0030 - INTRODUCTION TO GIS
- URBNST 0114 - URBAN SUSTAINABILITY
- URBNST 0300 - REMAKING CITIES THROUGH POLICY AND PRACTICE

Conceptual Approaches to Planning & Geographic Analysis (12 credits)

12 credits from this sequence must include at least 1 Urban Studies (URBNST) class from this list, and at least 2 classes from different departments. These courses emphasize the conceptual approaches to planning and geographic analysis. A B- average across these courses must be obtained before enrolling in the Urban Planning and Geographic Analysis (URBNST 1000) capstone.

- ARC 1181 - PITTSBURGH ARCHITECTURE/URBANISM
- ENGCMP 0565 - WRITING PLACES
- HIST 1135 - BERLIN: HISTORY OF A EUROPEAN METROPOLIS
- HIST 1157 - HISTORY OF MAPS AND SPATIAL REPRESENTATION
- HIST 1669 - HISTORY OF BLACK PITTSBURGH
- PS 1252 - STATE GOVERNMENT
- PS 1261 - AMERICAN PUBLIC POLICY
- URBNST 0010 - INTRODUCTION TO URBAN STUDIES
- URBNST 0112 - SOCIAL JUSTICE AND THE CITY
- URBNST 0320 - RENT, BUY OR SQUAT: HOUSING AND PROPERTY IN US CITIES

Methodological Approaches to Planning & Geographic Analysis (9 credits)

9 credits from this sequence must include at least 1 Urban Studies (URBNST) class from this list, and at least 2 classes from different departments. These courses emphasize the methodological approaches to planning and geographic analysis.

- ARC 0300 - INTRODUCTION TO HISTORIC PRESERVATION
- ENGCMP 0420 - WRITING FOR THE PUBLIC
- ENGCMP 0520 - INTEGRATING WRITING AND DESIGN
- ENGCMP 1400 - GRANT WRITING FOR NONPROFITS
- ENGCMP 1420 - WRITING PROPOSALS FOR BUSINESS
- PS 1702 - VISUALIZING AND UNDERSTANDING SOCIAL DATA
- PUBSRV 0030 - PUBLIC POLICY PROCESS
- PUBSRV 1100 - PRACTICES IN PUBLIC ADMINISTRATION
- STAT 1000 - APPLIED STATISTICAL METHODS
- URBNST 0130 - APPLIED GIS
- URBNST 0160 - DATA VISUALIZATION
- URBNST 0340 - URBAN MOBILITY AND TRANSPORTATION ANALYSIS

Capstone Project (3 credits)

The senior capstone may only be taken after completing the Core, Conceptual, & Methodological sequences of the major. This writing-intensive capstone experience involves a community-engaged project that draws upon the students' knowledge of urban planning and geographic analysis.

- URBNST 1000

Total Credits: 120

Urban Studies, BA

The Urban Studies Program offers a major for students who have an interest in unraveling the complexities of the urban world. The major is interdisciplinary, meaning that students learn about cities as historical, social, cultural, economic, and political phenomena. The major is real world, meaning that students take this learning with them and apply it to the world beyond the classroom. Finally, the major is career-oriented, meaning that students attempt to find a role for themselves in the urban environment. To accomplish all of these goals, the Urban Studies Program has designed a curriculum which integrates knowing with doing. The urban studies major combines courses offered by the program itself with courses offered through other social science departments. Students are encouraged to take URBNST 0010 Introduction to Urban Studies as early as possible, ideally in the fall or spring of the freshman year, and to develop a broad background in the social sciences among lower-level social science courses.

The Urban Studies major requires the completion of 36 credits distributed as follows.

Major Requirements

Core courses

All of the following courses; these courses should be completed early in the student's academic program

- URBNST 0010 Introduction to Urban Studies
- URBNST 0030 Introduction to GIS
- URBNST 0050 Introduction to Urban Research
- URBNST 0070 Urban Social Theory

Intermediate Electives

Students must take at least four courses according to the following guidelines.

Urban Studies courses

At least two of the following Urban Studies courses.

- URBNST 0100 World Urban Patterns
- URBNST 0108 Urban Economic Geography
- URBNST 0112 Social Justice and the City
- URBNST 0114 Urban Sustainability
- URBNST 0120 Urban Geography

- URBNST 0130 Applied GIS
- URBNST 0140 Crime and Punishment
- URBNST 0150 GIS & Community Data
- URBNST 0160 Data Visualization

Other electives

At least one of the following courses

- URBNST 0200 Internship
- URBNST 0400 'Global City' Study Abroad Courses
- URBNST 0413 Sustainable Cities 1
- URBNST 0415 Sustainable Cities 2
- URBNST 0600 Independent Research
- URBNST 0810 Field Analysis of Global Urbanism
- URBNST 0820 Advanced International Field Placement
- ARC 0110 Approaches to the Built Environment
- COMMRC 1103 Rhetoric and Culture
- ECON 0230 Introduction to Public Economics
- ENGLIT 0628 Working Class Literature
- FR 0017 Paris: Urbanism Past and Present
- HIST 1019 Cities in Historical Perspective
- PUBSRV 0030 Public Policy Process
- SOC 0444 Urban Sociology

Advanced Electives

Advanced elective courses

Students must take three courses according to the following guidelines.

Urban Studies courses

Advanced Urban Studies courses; choose two courses

- URBNST 0300 Remaking Cities
- URBNST 0320 US Housing & Property
- URBNST 0340 Urban Ethnography
- URBNST 0360 International Urbanism
- URBNST 0380 Field Research Seminar
- URBNST 0710 Urban Culture: Special Topics
- URBNST 0750 Urban Methods: Special Topics
- URBNST 0770 Urban Theory: Special Topics

Other electives

Advanced courses from another discipline; choose one course.

- ANTH 1530 Origins of Cities
- ARC 0300 Intro to Historic Preservation
- ARC 1180 World Cities
- ARC 1181 Pittsburgh Arch. & Urbanism
- HIST 1135 Berlin: History of a European Metropolis
- JS 1160 Jerusalem: History and Imagination
- PS 1251 Urban Government and Politics
- PUBSRV 1100 Practices in Public Administration
- SOC 1286 Race and the City
- SOCWRK 1000 Introduction to Social Work
- SOC 1476 Urban Policy and Planning

Capstone course

- URBNST 0900 Urban Studies Research Seminar

Additional Requirements

Grade requirements: A minimum GPA of 2.0 in departmental and concentration courses is required for graduation.

Satisfactory/No Credit option: There is no limit to the number of courses in the major that can be taken on an S/NC basis.

Writing requirement: Students must complete one W-course in the major. URBNST 0900 Urban Studies Research Seminar fulfills this requirement.

Study abroad: It would be desirable for students to add an international dimension to their undergraduate education through their participation in a study abroad program.

Urban Students Association: The Urban Students Association (U.S.A.) is an official student organization formed by students in the Urban Studies Program. Through U.S.A., students have been actively involved in issues related to the major throughout the Pittsburgh region. U.S.A. has invited guest speakers to appear on campus, organized field trips, and participated in numerous community projects.

School of Computing and Information Faculty

Name	Title	Department	Highest Degree	Awarding Institution
(Wonsun) Daniel Ahn	Teaching Assistant Professor	Computer Science	PhD	University of Illinois at Urbana-Champaign
Amy Babay	Assistant Professor	Informatics and Networked Systems	PhD	Johns Hopkins University
Dmitriy Babichenko	Clinical Associate Professor	Informatics and Networked Systems	PhD	University of Pittsburgh
Marina Barsky	Teaching Assistant Professor	Computer Science	PhD	University of Victoria
Mary K. Biagini	Associate Professor, Department Chair	Information Culture and Data Stewardship	PhD	University of Pittsburgh

Nadine von Frankenberg und Ludwigs	Teaching Assistant Professor	Computer Science	Professional Doctorate	Technische Universitat Munchen
Erin Walker	Associate Professor	Computer Science	PhD	Carnegie Mellon University
Martin Weiss	Professor	Informatics and Networked Systems	PhD	Carnegie Mellon University
Lingfei Wu	Assistant Professor	Informatics and Networked Systems/Information Culture and Data Stewardship	PhD	City University of Hong Kong
Michael Yoder	Teaching Assistant Professor	School of Computing and Information	PhD	University of Pittsburgh
Vladimir Zadorozhny	Professor	Informatics and Networked Systems	PhD	Russian Academy of Sciences, Moscow
Youtao Zhang	Professor	Computer Science	PhD	University of Arizona
Pengfei Zhou	Assistant Professor	Informatics and Networked Systems	PhD	Nanyang Technological University

School of Dental Medicine

School of Dental Medicine

The University of Pittsburgh Dental Hygiene Program provides a comprehensive education in both the basic sciences and clinical dental hygiene over the course of a two-year (six consecutive terms) Associate of Science Degree in Dental Hygiene. The University of Pittsburgh Dental Hygiene Program differs from other programs by providing a broader range of experiences in specialty clinics within the School of Dental Medicine, as well as clinical rotations at the University of Pittsburgh Medical Center. The major areas of focus are teaching, research, patient treatment, and community service. Dental hygiene services are rendered to a varied patient population, including pediatric, geriatric, physically and mentally challenged, and immunocompromised individuals. In addition to clinical practice, graduates are prepared for careers in areas such as education, research, and dental public health.

Students who complete the Dental Hygiene Program Associate of Science Degree in Dental Hygiene have the option of completing a Bachelor of Science degree offered through the College of General Studies. The degree completion option includes three areas of study focusing on a student's specific career goals. These areas include dental hygiene education, research, and health management. Graduates can work as licensed dental hygienists while completing their requirements for the bachelor's degree. Classes are tailored to the student's interests and can be arranged around work schedules. The program provides a firm foundation for those desiring to pursue graduate studies. (See the College of General Studies listing for more information on the Bachelor of Science degree completion option.)

Admission Requirements and Deadlines: Associate of Science Degree in Dental Hygiene

(See Dental Hygiene Program listing under the Application for Admission section at the front of this bulletin for requirements and deadlines.)

Academic Standards: Professional/Ethical Conduct Statement for Students

Students will be evaluated on all aspects of professional behavior and ethical conduct. The evaluation will encompass criteria such as the student's interpersonal interaction with faculty, supervisors, staff, patients, and peers, as well as how the student completes all clinical and didactic assignments within scheduled deadlines and in keeping with both the quality and standards established by the Dental Hygiene Program, School of Dental Medicine faculty, and the

University of Pittsburgh faculty. Additionally, student compliance with all established policies and procedures will be evaluated when considering student promotion and board eligibility.

Grading

Each dental hygiene course instructor will clearly state his/her policy regarding grades and evaluation at the beginning of the course. A course syllabus will be distributed to all students at the first class meeting. All required courses are graded according to the University's letter grade system (see Grading and Records section of this bulletin). Elective courses beyond the required number may be taken with the permission of the program director. Student advising begins with the faculty responsible for the course. It is the student's responsibility to seek assistance from the faculty in any course in which the student has a grade lower than a C.

Bachelor of Science Degree Completion Program

Students who complete this program also have the option and are encouraged to complete a Bachelor of Science in dental hygiene as offered by the College of General Studies (see College of General Studies listing for information on BS degree completion option and additional dental hygiene courses which must be taken for the BS).

School of Dental Medicine/Dental Hygiene Program Faculty

Full-Time Faculty

Kayla Addink, *Instructor*, RDH, MS, West Liberty University

Paulette Dietz, *Instructor*, RDH, BS, University of Pittsburgh

Program and Course Offerings

Dental Hygiene Program

Major

Associate of Science Degree in Dental Hygiene

Associate of Science Degree in Dental Hygiene Requirements

For a complete list of the required courses, please refer to the program curriculum. Upon successful completion of the course requirements, the student is eligible to take the Dental Hygiene National Board and the Commission on Dental Competency Assessment Examinations and apply for state licensure.

Program Curriculum

First Term

- DENHYG 1110 - BIOLOGICAL SCIENCES 1
- DENHYG 1112 - INTRODUCTION TO DENTAL HYGIENE
- DENHYG 1113 - INTRODUCTION TO DENTISTRY
- DENHYG 1114 - DENTAL ANATOMY
- DENHYG 1116 - DENTAL HYGIENE PRECLINIC

Credits: 17

Second Term

- DENHYG 1241 - PRINCIPLES OF MICROBIOLOGY
- NUR 0032 - MICROBIOLOGY LABORATORY
- DENHYG 1242 - BIOLOGICAL SCIENCES 2
- DENHYG 1247 - DENTAL HYGIENE SEMINAR 1
- DENHYG 1248 - DENTAL MATERIALS
- DENHYG 1249 - DENTAL HYGIENE CLINIC 1

Credits: 14

Third Term

- DENHYG 1370 - INTRODUCTION TO CLINICAL PERIODONTICS
- DENHYG 1373 - BIOLOGICAL SCIENCES 3
- DENHYG 1375 - ANESTHESIA FOR DENTAL HYGIENIST
- DENHYG 1377 - DENTAL HYGIENE SEMINAR 2
- DENHYG 1378 - HEALTH PROMOTIONS THROUGH THE LIFE SPAN
- DENHYG 1379 - DENTAL HYGIENE CLINIC 2

Credits: 16

Fourth Term

- DENHYG 1411 - DENTAL PHARMACOLOGY
- DENHYG 1412 - PUBLIC HEALTH DENTISTRY
- DENHYG 1417 - DENTAL HYGIENE SEMINAR 3
- DENHYG 1419 - DENTAL HYGIENE CLINIC 3
- DENHYG 1420 - ETHICS HEALTH CARE PROFESSIONAL
- DENHYG 1423 - GENERAL AND ORAL PATHOLOGY

Credits: 17

Fifth Term

- DENHYG 1544 - INTRODUCTION TO RESEARCH ANALYSIS
- DENHYG 1545 - DENTAL HEALTH EDUCATION, METHODS AND PRACTICUM
- DENHYG 1547 - DENTAL HYGIENE SEMINAR 4
- DENHYG 1549 - DENTAL HYGIENE CLINIC 4

Credits: 13

Sixth Term

- DENHYG 1689 - ADVANCED CLINICAL DENTAL HYGIENE PRACTICE
- ADVANCED DENTAL HYGIENE PRACTICUM - 0 Cr. (Taken within DENHYG 1689)

Credits: 2

Total: 79

Department of Diagnostic Services

Department of Oral and Craniofacial Sciences

Department of Periodontics and Preventive Dentistry

School of Education

School of Education

Mission/Vision

We ignite learning. We strive for well-being for all. We teach. We commit to student, family, and community success. We commit to educational equity. We advocate. We work for justice. We cultivate relationships. We forge engaged partnerships. We collaborate. We learn with and from communities. We innovate and agitate. We pursue and produce knowledge. We research. We disrupt and transform inequitable educational structures. We approach learning as intertwined with health, wellness, and human development. We address how national, global, social, and technological change impacts learning. We shape practice and policy. We teach with and for dignity. We think. We dream. We lead with integrity. We are the School of Education at the University of Pittsburgh.

General Information

The School of Education is organized into three academic departments and offers the following undergraduate programs:

Department of Educational Foundations, Organization, and Policy

Department of Health and Human Development

- Majors:
 - Applied Developmental Psychology, BS
 - Exercise Science, BS

- Minors:
 - Applied Fitness Minor
 - Aquatics Minor
 - Dance Minor
 - Exercise Science Minor

Department of Teaching, Learning, and Leading

- Majors:
 - Teacher Education, BS (Areas of Concentration in English, Math, Science, Social Studies, World Heritage Language, and PreK-12 Special Education)
 - Combined Applied Studies in Education, BS
- Minor:
 - Secondary Education Minor

Academic Integrity

Students have the responsibility to be honest and to conduct themselves in an ethical manner while pursuing academic studies. Students have the right to be treated by faculty in a fair and conscientious manner in accordance with the ethical standards generally recognized within the academic community (as well as those recognized within the profession). Should a student be accused of a breach of academic integrity or have questions regarding faculty responsibilities, procedural safeguards including provisions of due process have been designed to protect student rights. See School of Education Academic Integrity Guidelines for more information.

Academic Regulations

Please see the University of Pittsburgh Academic Regulations for information on university-wide policies.

Academic Standing

All students enrolled in undergraduate programs in the School of Education are required to maintain a grade point average (GPA) of at least 2.50. The cumulative GPA is based on all course work taken at the University of Pittsburgh. A student is automatically placed on academic probation when the cumulative GPA, exclusive of transfer credits, falls below 2.50.

Students enrolled in undergraduate programs leading to state certification are required to maintain a cumulative GPA of 3.00 to remain in the program. A student is automatically placed on academic warning if the cumulative GPA, exclusive of transfer credits, falls below 3.0. No student on academic warning is permitted to participate in student teaching, a teaching internship, or an advanced teaching practicum. Although the credits allowed for acceptable work completed elsewhere by transfer count toward the total number of credits required for teacher education study, the grades earned in such courses are not included in GPA computations.

Only letter grades with GPA values will be used to compute and determine academic probation status. While on probation students are limited to registering only for courses in which a letter grade is given. To be removed from probation status, a student must achieve a minimum of a 3.00 GPA in 9 credits or more. Students who earn a cumulative grade point average above 2.50 are removed from academic probation. A student can only be placed on academic probation status once during their program of study. Students placed on academic probation status will receive notification in the form of an email from the School of Education, and they will be recommended to seek guidance from their academic advisor.

An enrollment hold may be placed on students on academic warning or probation.

A student who does not meet the GPA or credit requirements are subject dismissal from the School of Education. A request for continuation must include a recommendation made by the Department Chair (or designated faculty member) and the academic advisor, with the recommendation approved by the Dean of the school.

Admissions

The School of Education does not admit students to its undergraduate programs at the freshman level. Therefore, students must first be admitted to another school at the University of Pittsburgh or to another institution.

Admission requirements vary by major in the School of Education - please find specific requirements on each program's catalog page.

If an applicant to a School of Education undergraduate program is transferring from another institution, the applicant should contact the Office of Admissions and Financial Aid, Alumni Hall, for a Transfer Application. (See Transfer Student Admissions section of this catalog for more information.)

Full admission status is granted to those who have met all admission criteria and have been admitted either as full-time or part-time students for study toward the baccalaureate degree.

Conditional status may be granted to those who are in the process of completing prerequisite requirements. These students must complete all requirements successfully prior to matriculation.

Non-Degree status is granted to those who enroll in the School of Education to take courses for credit without reference to a degree.

To be admitted into a Minor program in the School of Education a student must do the following:

- Have a declared major at the University of Pittsburgh
- Maintain a minimum of 2.0 cumulative GPA
- Complete an application for the selected academic minor

Readmission

A student who has not registered for at least one credit during a 12-month period will be automatically converted to inactive status and must file an application for readmission to the University before being permitted to register again.

Readmission is not automatic and students may not be reinstated with the academic status assigned prior to becoming inactive. Students who were suspended or dismissed will have their academic standing assessed upon reinstatement.

Advising

Each student in the School of Education is assigned an academic advisor to help guide them through from admission to graduation. Our advisors take great pride in a person's growth and development as a student. Advisors collaborate with students to develop a plan for student success by providing assistance with choosing classes, tracking progress towards graduation, and being a reliable source of information about university and school resources. By connecting students to campus and community resources, advisors aim to empower students to reach their potential, serve their local communities, and ultimately have impact in the world.

Students are expected to meet with their advisor at least once per semester to ensure progress towards graduation.

All course work scheduled must be approved by the academic advisor, who assists in the preparation of a student's plan of studies and who regularly meets with the student to review the student's academic progress.

Students have the following responsibilities in relation to academic advising:

- Students are expected to be proactive in learning the components of the curriculum, including all course requirements and milestones, and to seek out resources beyond their academic advisor to understand and make decisions about the curriculum.
- Students are expected to take responsibility for their personal, academic, and career decisions.

- Students are expected to utilize the student support services of the University to enhance their educational experience.
- Students are expected to perform the following in order to select courses and make informed decisions regarding degree progress:
 - Refer to the academic calendar to meet necessary deadlines, including add/drop and withdrawal deadlines, and final exam schedules;
 - Navigate all aspects of PeopleSoft, the student registration system.
- Students are expected to read their University e-mail on a regular basis, which is the official means of communication for the University.
- Students are expected to come to each advising appointment prepared to discuss academic progress, personal and career goals, interests, concerns, and, at times, the specifics of course work for upcoming semesters.
- Students are expected to meet all deadlines for applying for graduation and external certifications.

Classroom Recording

To ensure the free and open discussion of ideas, students may not record classroom lectures, discussion and/or activities without the advance written permission of the instructor or an approved accommodation, and any such recording properly approved in advance can be used solely for the student's own private use.

This also applies to recordings made using social media applications. Students may not share recordings with anyone who is not a member of the class and may only use recordings in the context of the course unless the consent of the instructor and any student who is identifiable in the recording is obtained.

Commonwealth Teacher Education Certification Regulations

The following section details regulations pertaining to the school's teacher education certification programs.

Instructional I and II Certification

The **Instructional I**, or provisional, certificate is issued by the Pennsylvania Department of Education (PDE) to applicants who:

- possess a baccalaureate degree with a 3.0 grade point average;
 - have successfully completed a PDE-approved teacher certification program;
 - pass all required PRAXIS, PECT, basic skills, and/or PAPA Examinations;
 - successful completion of PDE Form 430 for initial certification; and
 - recommendation for certification by the college or university offering the PDE-approved teacher certification program.
- An Instructional I certificate is valid for six years.

The **Instructional II**, or permanent, certificate is issued by PDE to applicants who have completed all of the following:

- A PDE-approved induction program for beginning teachers.
- Three years of satisfactory teaching in the field specified on an Instructional I certificate, attested to by the chief school administrator of the approved public or non-public school in Pennsylvania in which the most recent service of the applicant was performed.

- Twenty-four credit hours of post-baccalaureate study or in-service courses approved by PDE. (Some credits earned beyond the baccalaureate degree in teacher education study at the University of Pittsburgh may be used to satisfy this requirement.)

Dean's List

After the Fall and Spring terms, students whose grades in the previous grading period indicate outstanding achievement are recognized in the Dean's List.

School of Education students with a term GPA of at least 3.50 and no grade lower than a C, no U grades, and no NC grades are placed on the Dean's List.

Degree Requirements

Please see the specific program pages for information on minimum GPA, credit hours, and other requirements for graduation.

Enrollment in Graduate Courses

University of Pittsburgh undergraduate students with sufficient preparation are permitted to enroll in certain graduate courses at the University following procedures determined by each school. The graduate credits earned may be counted toward the undergraduate degree if approved by the student's school. These may not be counted as credits toward a graduate degree except as noted below.

Undergraduate students who need 30 or fewer credits to complete requirements for the baccalaureate degree and who intend to continue study toward an advanced degree may be permitted during their final term to register for graduate courses that will later apply toward a graduate degree. The student must obtain written permission from the school of proposed graduate study that the courses may count when and if the student is admitted into the graduate degree program. The student is limited to taking no more than the allowable number of transfer credits for the particular School of Education graduate degree program.

Enrollment needs to be approved by the undergraduate advisor and graduate program coordinator. This privilege should not be granted if the proposed total program exceeds a normal full-time load. Although these credits will appear on the undergraduate transcript, they will not count toward fulfilling undergraduate degree requirements. They will be posted as advanced standing credits on the graduate transcript.

Global Experience

School of Education students are encouraged to engage in global experiences. Students may pursue as many experiences as allowed by the Global Experiences Office. However, the maximum total of credits that may be applied to an undergraduate degree is bound by program or School limits of S/NC credits. Any credits earned during study abroad programs with the satisfactory/no credit (S/NC) grading option or appearing on the Pitt transcript as such will calculate into the S/NC credit limits.

Completion of any global experience fulfills the "Global Awareness and Cross-Cultural Understanding" requirement within the Polymathic Context section of the general education requirements. This is in addition to fulfillment of other requirements (general education or major) as pre-approved by the student's advisor, Department, and/or the Dean's Office.

Before students undertake a global experience, they must coordinate with and apply to a program through the Global Experiences Office. If admitted, students are required to engage in additional conversations with their advisor and the SOE Student Records office in order to complete the course approval, enrollment, and credit transcription processes. Procedural details and links to forms are available on SOE Student Resources site.

Graduation

Graduation is not an automatic process. All students must apply to graduate by the deadline found on the Office of the University Registrar and the School of Education - Graduation websites. Students typically apply for graduation in the semester prior to their final semester.

One term before their anticipated graduation semester, before the add/drop period ends, students must verify the accuracy of their declared majors, minors, specializations, and/or certificates. They should make necessary updates prior to completing a graduation application. This should be handled during a meeting with the student's advisor.

Before the start of their anticipated graduation term, students should communicate with their advisor to review their degree progress and determine potential graduation roadblocks.

In the student's final term, students should complete the Office of the Provost's exit survey.

Honors College

Only a few colleges in the nation offer a prestigious Bachelor of Philosophy (BPhil), which is a model borrowed from Oxford and Cambridge in the UK. The BPhil is a higher distinction that replaces the standard BS degree. The BPhil can be earned in any major and is jointly awarded by the University of Pittsburgh Honors College and the School of Education.

Completion of a BPhil is a rigorous process that requires a research component and a final thesis beyond that of the student's regular course of study. For details regarding the requirements, process, and personalized mentoring for the BPhil degree, visit the David C. Frederick Honors College website.

S/NC Grade Policy

The School of Education offers both a standard letter-grade option and the Satisfactory/No-Credit (S/NC) option for students enrolled in most School of Education courses. Under the S/NC option, a student who does satisfactory work (a grade of C or better) in a course receives the grade of S. If the student's work is not satisfactory (a grade of C- or lower), the grade of NC (no credit) is given. Courses for which an S is earned are counted toward graduation but are not computed in the GPA. Courses for which an NC is earned are not counted toward graduation or the GPA, since the NC designates that no credit has been earned.

Students can select the S/NC grade option when enrolling for a course. After the end of the add/drop period, a student must complete a Grade Option/Audit Request form and submit it to the Office of Student Records by the Grade Option deadline noted each term on the Dietrich School undergraduate calendar.

Note: There are some formal limitations to a student's choice of grading systems; students should check with an academic advisor before deciding to take a course S/NC. *In the School of Education, no more than 6 credit hours in the major offered for a letter grade can be designated S/NC. Courses offered only with the H/S/U grade option do not count toward this limit.*

Transfer Credits

Courses from other colleges and universities are evaluated according to the following guidelines:

1. Courses must be passed with a grade of C or better and must be earned at an institution accredited by the appropriate regional accrediting association. Courses that have reasonable counterparts at the University are eligible for transfer. When requested, students are responsible for supplying descriptions for courses taken elsewhere.
2. A maximum of 60 credits can be accepted from accredited community colleges and two-year junior colleges. A maximum of 90 credits can be accepted from accredited four-year institutions. Unless prior permission is obtained in writing from the program coordinator, all students must earn their final 30 credits at the University of Pittsburgh toward a School of Education degree. At least half of the credits for their majors and/or minors in the School of Education must be earned while enrolled as an University of Pittsburgh student.
3. The number of transfer credits granted for a given course cannot exceed the number awarded on the transcript of the original school. Credits earned on the quarter system will be converted into semester credits. A quarter credit is equal to two-thirds of a semester credit (e.g., five quarter-system credits equal three semester credits, and three quarter-system credits equal two semester credits).
4. The University of Pittsburgh accepts credits, but not grades, for transfer. Consequently, any courses that are accepted for transfer will be used as credit toward graduation, but will not be calculated into the student's GPA at the University of Pittsburgh.
5. Transfer credits do not apply towards University honors. Credits are only transferrable if they meet specific degree requirements.
6. Current School of Education undergraduate students who wish to enroll at another institution with the intention of transferring credits to the University of Pittsburgh must receive prior approval from their advisor. Current students should send official transcripts to the School of Education once final grades have been posted at the other institution. See general Academic Regulations for more information.

Note: All credits and previously approved exemptions to academic requirements will be re-evaluated by SOE. In some instances, this may mean that not all transfer credits or previously approved exemptions or waivers will be accepted or applied toward a student's SOE career. All credits will be subject to the transfer credit policies listed in this Catalog.

Major

Combined Applied Studies in Education, BS

The Combined Applied Studies in Education (CASE) program is designed for students interested in becoming teachers in early elementary (Grades PreK-4) and/or special education (Grades PreK-12). This 4+1 program allows student to

gain a bachelor's and master's degree, as well as eligibility for teacher certification in two areas, all within 5 years. Students first work on their Bachelor of Science (BS) in CASE and then move directly onto the Master of Education (MEd) in Early Childhood and Special Education program. Upon graduation from the M.Ed. program, students are prepared for both Pennsylvania PK-4 General Education and PK-12 Special Education certification.

Foundational Courses

These courses are foundational education credits and can be taken before admittance into the major officially. HHD 1002 and TLL 1041 are required. Students are required to take either EFOP 1001 or TLL 1581.

- EFOP 1001 - SOCIAL FOUNDATIONS OF EDUCATION
- HHD 1002 - DEVELOPMENT: CONCEPTION THROUGH EARLY CHILDHOOD
- TLL 1041 - INTRO TO EARLY CHILDHOOD ED
- TLL 1581 - CRITICAL HISTORIES OF EDUCATION

Major Courses - Non-Methods Coursework

These are courses for the major, but they are not considered methods courses.

- HHD 1003 - DEVELOPMENT: MIDDLE CHILDHOOD THROUGH ADOLESCENCE
- TLL 1042 - LANGUAGE AND LITERATURE FOR THE YOUNG CHILD
- TLL 1257 - TEACHING ENGLISH LANGUAGE LEARNERS
- TLL 1580 - FOUNDATIONS OF SPECIAL EDUC
- TLL 1582 - CULTURES, KNOWLEDGE TRADITIONS, AND SOCIAL SYSTEMS OF SCHOOLING I
- TLL 1907 - COLLABORATIVE PARTNERSHIPS WITH FAMILIES AND THE COMMUNITIES

Major Courses - Methods Coursework

These are courses that should only be taken by students in a teacher education program. The Department of Education in PA only allows teacher education majors to take methods coursework.

- TLL 1049 - SEMINAR RELATED TO PRE-STUDENT TEACHING PRE-K
- TLL 1208 - READING/WRITING METHODS 1: PRE-KINDERGARTEN - GRADE 1
- TLL 1209 - READING/WRITING METHODS 2: GRADES 2-4
- TLL 1268 - SOCIAL STUDIES METHODS PRE-K - 4
- TLL 1433 - MATH METHODS FOR PREK-GRADE 4 STUDENTS
- TLL 1434 - SCIENCE METHODS FOR PREK- GRADE 4 STUDENTS
- TLL 1597 - PRE-STUDENT TEACHING
- TLL 1598 - STUDENT TEACHING

Teacher Education, BS

The Bachelor of Science (BS) in Teacher Education prepares undergraduate students to earn their Pennsylvania teaching certification. The curriculum is fully aligned with the Pennsylvania Department of Education certification standards for Instructional 1 certification. Students will choose one of the content areas listed below to specialize in and that will determine their specific degree requirements.

Grades 7-12: English, Mathematics, Science, or Social Studies Education

Grades PreK-12: Special Education, World & Heritage Language Education

Eligibility for Major:

Students must complete the School of Education Undergraduate Admissions application. To be considered for admission to the Teacher Education BS program, students must have a cumulative GPA of 3.0, completed 48 credit hours, and fulfilled (or currently taking) the pre-requisite courses listed below with a grade of C or higher.

- TLL 1580 - FOUNDATIONS OF SPECIAL EDUC
- TLL 1581 - CRITICAL HISTORIES OF EDUCATION
- TLL 1582 - CULTURES, KNOWLEDGE TRADITIONS, AND SOCIAL SYSTEMS OF SCHOOLING I **or** EFOP 1001 - SOCIAL FOUNDATIONS OF EDUCATION
- HHD 1003 - DEVELOPMENT: MIDDLE CHILDHOOD THROUGH ADOLESCENCE **or** PSY 0310 - DEVELOPMENTAL PSYCHOLOGY **or** PSY 1355 - ADOLESCENCE
- HHD 1002 - DEVELOPMENT: CONCEPTION THROUGH EARLY CHILDHOOD is an additional option for students focusing in Special Education or World & Heritage Language

Course Requirements (Summary):

- General Education courses from Dietrich School of Arts and Sciences
- PA Department of Education Requirements (these can count towards general education requirements)
- 6 credit hours in college-level mathematics
- 6 credit hours in college-level English composition and literature
- Major coursework in inclusive and culturally responsive teaching
- Major coursework in pedagogy
- Student teaching coursework
- Content Area Coursework
- See links below for major and content area coursework for each specific area

GPA and Grade requirements:

All students enrolled in the teacher education major are required to maintain a grade point average (GPA) of at least 3.0. Although the credits allowed for acceptable work completed elsewhere by transfer count toward the total number of credits required for teacher education study, the grades earned in such courses are not included in GPA computations.

A student is automatically placed on academic warning if the cumulative GPA, exclusive of transfer credits, falls below 3.000. No student on academic warning is permitted to participate in student teaching, a teaching internship, or an advanced teaching practicum.

Students must earn a minimum of a C in all teacher education coursework and content area coursework.

Graduation Requirements:

Students must complete all required coursework, earn at least 120 credit hours, and meet the required GPA of 3.000 in order to meet graduation requirements

Required Courses:

The following required courses relate to the following content areas: English, Mathematics, Science, Social Studies, and World & Heritage Language. Students pursuing the Special Education content area should look at that specific section for all required courses.

Inclusive & Culturally Responsive Teaching - 12 credits

- TLL 1257 - TEACHING ENGLISH LANGUAGE LEARNERS
- TLL 1502 - SUPPORTING STUDENTS WITH DISABILITIES IN INCLUSIVE CLASSROOMS
- TLL 1520 - SUPPORTING LITERACIES IN INCLUSIVE CLASSROOMS
- TLL 1595 - CULTURES, KNOWLEDGE TRADITIONS, AND SOCIAL SYSTEMS OF SCHOOLING 2

Pedagogy - 3 credits

- TLL 1584 - CRITICAL PEDAGOGIES AND PRAXES

Student Teaching - 12 credits

- TLL 1596 - PRE-STUDENT TEACHING SEMINAR
- TLL 1597 - PRE-STUDENT TEACHING
- TLL 1598 - STUDENT TEACHING
- TLL 1599 - STUDENT TEACHING SEMINAR

Content Area Options:

1. English Education (grades 7-12)
2. Mathematics Education (grades 7-12)
3. Science Education (grades 7-12)
4. Social Studies Education (grades 7-12)
5. Special Education (grades PreK-12)
6. World & Heritage Language Education (PreK-12)

English Education Content Area

Major Coursework - Pedagogy:

- TLL 1585 - TEACHING AND LEARNING IN SECONDARY ENGLISH 1
- TLL 1586 - TEACHING AND LEARNING IN SECONDARY ENGLISH 2

Content Area Specific Courses:

- 12 credits of ENGLIT coursework
- 3 credits of ENGCMP (0400-level or higher) coursework
- 3 credits of ENGFLM coursework
- 3 credits of ENGWRT coursework

Mathematics Education Content Area

Major Coursework - Pedagogy:

- TLL 1587 - TEACHING AND LEARNING IN SECONDARY MATH 1
- TLL 1588 - TEACHING AND LEARNING IN SECONDARY MATH 2

Content Area Specific Courses:

- MATH 0220 Analytic Geometry and Calculus 1
- MATH 0230 Analytic Geometry and Calculus 2
- MATH 0240 Analytic Geometry and Calculus 3
- MATH 0413 Intro to Theoretical Mathematics

- MATH 0280 Intro to Matrices and Linear Algebra or MATH 1180 Linear Algebra 1
- MATH 0430 Intro to Abstract Algebraic Systems
- MATH 1119 Applied Probability for Actuarial Mathematics or STAT 1151 Intro to Probability or STAT 1000 Applied Statistical Methods

Science Education Content Area

- Biology Track
 - Chemistry Track
 - General Science Track
 - Physics Track
- Major Coursework - Pedagogy (for all tracks):
- TLL 1589 TLL 1589 - TEACHING AND LEARNING IN SECONDARY SCIENCE 1
 - TLL 1590 TLL 1590 - TEACHING AND LEARNING IN SECONDARY SCIENCE 2

Science Education Content Area - Biology Track

Content Area Specific Courses:

Biology:

Social Studies Education Content Area

Major Coursework - Pedagogy:

- TLL 1591 - TEACHING AND LEARNING IN SECONDARY SOCIAL STUDIES 1
- TLL 1592 - TEACHING AND LEARNING IN SECONDARY SOCIAL STUDIES 2

Content Area Specific Courses:

- HIST 0600 United States to 1877 **or** HIST 0670 African American History to 1877

- HIST 0601 United States 1865 to Present **or** HIST 0671 African American History Since 1865
- CIVICS - 3 CREDITS Take one of the following courses:
 - HIST 0612 - Origins of American Capitalism
 - PS 0200 - American Political Process
 - PS 0200 - American Politics
 - PS 0500 - International Relations
 - PS 0500 - World Politics
 - PS 1202 - American Constitutional Law
 - PS 1292 - Race, Gender, and Politics

ECONOMICS - 3 CREDITS

Take one of the following courses:

- ECON 0100 - Intro to Microeconomic Theory
- ECON 0110 - Intro to Macroeconomic Theory
- ECON 0120 - Introductory Economic Theory
- HIST 0612 Origins of American Capitalism (recommended)
- HIST 1145 Intellectual Foundations of Capitalism
- HIST 1645 American Economic History

12 credits of Social Studies electives from list below (no more than 1 course from each category) :

World History :

- HIST 0700 World History
- HIST 0100/0101
- HIST 0600/0601
- HIST 0670/0671

Western European History:

- HIST 0100 Western Civilization 1
- HIST 0101 Western Civilization 2
- HIST 0139 Viking Age Scandinavia

- Any SPAN 1600-1899

Minor

Secondary Education Minor

The undergraduate minor in Secondary Teacher Education is a 15-credit program focused on secondary education (grades 7-12). Students will receive an introduction to teaching, special education, and issues in secondary education and will have the opportunity to take electives to further bolster their study.

This secondary education minor allows students who plan to enter a graduate program in secondary teacher education to make progress on prerequisite education courses. Completion of the minor does not automatically guarantee admission into School of Education graduate program, nor does it fulfill all necessary prerequisites.

The program does not provide teacher certification. Undergraduate students seeking teacher certification should pursue our BS in Teacher Education program.

Requirements

The Secondary Education Minor requires 15 undergraduate credits. 9 credit hours must have the TLL prefix.

- TLL 1000 - INTRODUCTION TO TEACHING
- TLL 1041 - INTRO TO EARLY CHILDHOOD ED
- TLL 1042 - LANGUAGE AND LITERATURE FOR THE YOUNG CHILD
- TLL 1203 - LANGUAGE AND LANGUAGE SYSTEMS
- TLL 1257 - TEACHING ENGLISH LANGUAGE LEARNERS
- TLL 1502 - SUPPORTING STUDENTS WITH DISABILITIES IN INCLUSIVE CLASSROOMS
- TLL 1505 - AUTISM: CHARACTERISTICS AND INTERVENTIONS
- TLL 1509 - APPLIED BEHAVIOR ANALYSIS AND POSITIVE BEHAVIOR SUPPORT
- TLL 1520 - SUPPORTING LITERACIES IN INCLUSIVE CLASSROOMS
- TLL 1580 - FOUNDATIONS OF SPECIAL EDUC
- TLL 1581 - CRITICAL HISTORIES OF EDUCATION
- TLL 1582 - CULTURES, KNOWLEDGE TRADITIONS, AND SOCIAL SYSTEMS OF SCHOOLING I
- TLL 1595 - CULTURES, KNOWLEDGE TRADITIONS, AND SOCIAL SYSTEMS OF SCHOOLING 2
- TLL 1701 - EARLY FIELD EXPERIENCE-SECONDARY
- TLL 1702 - DIGITAL LITERACIES AND LEARNING ACROSS EDUCATIONAL CONTEXTS
- TLL 1704 - CURRENT ISSUES IN SECONDARY EDUCATION
- TLL 1907 - COLLABORATIVE PARTNERSHIPS WITH FAMILIES AND THE COMMUNITIES
- EFOP 1001 - SOCIAL FOUNDATIONS OF EDUCATION
- HHD 1001 - INTRO EDUCATIONAL PSYCHOLOGY
- HHD 1002 - DEVELOPMENT: CONCEPTION THROUGH EARLY CHILDHOOD

- HHD 1003 - DEVELOPMENT: MIDDLE CHILDHOOD THROUGH ADOLESCENCE

Policies for the Secondary Education Minor

- A maximum of 6 credit hours of education coursework may be transferred from another institution with Program Coordinator approval.
- Students must earn a C- or higher in a class for it to satisfy minor requirements.
- Students must have a 2.0 cumulative GPA to declare the minor.
- Students must have a declared major at the University of Pittsburgh.
- The minor GPA requirement to graduate is 2.0.

Major

Applied Developmental Psychology, BS

The undergraduate major in Applied Developmental Psychology (ADP) emphasizes developing the skills necessary for implementing and evaluating effective programs for children, youth, and families. Course work includes the study of human development, professional issues, program design and evaluation, social-emotional skills, and research methods. The program allows for a focus on Child Life hospital work, group care, family support and intervention, administration, play intervention and therapy, and out-of-school time. Successful completion of the program leads to the Bachelor of Science degree.

The ADP Bachelor of Science program is listed as an academic program to prepare Child Life Specialists by the Child Life Council.

The curriculum is organized into four terms of upper-division (junior and senior year) study. Applications for admission should be submitted during the sophomore year.

Eligibility for Major

The B.S. in Applied Developmental Psychology program has the following requirements for entry:

Students need to be in good academic standing and have a cumulative GPA of 2.5. Students must have the planned completion of 30 credits of prerequisite/ADP BS general education courses.

Prerequisite/general education coursework:

Language and Literacy

- ENGCMP 0200 - SEMINAR IN COMPOSITION
- Any advanced Composition course or any writing course "W"

Quantitative and Formal Reasoning (select one)

- STAT 0200 - BASIC APPLIED STATISTICS
- STAT 0800 - STATISTICS IN THE MODERN WORLD
- STAT 1000 - APPLIED STATISTICAL METHODS

Creative Expression/Humanities Credits / Units: 6 (Select 6 credits from two different departments listed below):

- Art - HAA
- Communication -COMMRC
- English Literature - ENGLIT
- Music - MUSIC
- Philosophy - PHIL
- Political Science - PS
- Theater - THEA

Introduction to Psychology

- PSY 0010 - INTRODUCTION TO PSYCHOLOGY

Natural Science Credits / Units: 3

(Select 3 credits from the following subjects):

- Anthropology
- Astronomy
- Biological Sciences
- Chemistry
- Geology
- Neuroscience
- Psychology
- Physics

Social Science Credits / Units: 6

(Select 6 credits from two different departments listed below):

- Anthropology - ANTH
- Economics - ECON
- History - HIST
- Political Science - PS

- Religious Studies - RELGST
- Sociology - SOC
- Classics - CLASS
- Women's Studies - WOMST
- Psychology - PSY

Cultural Course Credits / Units: 3

International/Non-western culture (e.g. approved courses in AFRCNA, CHIN, JPNSE, PS - areas: Comparative Politics or International Relations & Law, SOC)

Major Requirements

- Maintain a 2.5 cumulative GPA or above in order to remain in and confer the program.
- Updated yearly clearances (PA Criminal Record and Child Abuse, FBI Federal Criminal History) and current TB test.
- 120 credit hours

The ADP BS major requires 48 credits of major coursework, and an additional 12 credits of ADP electives.

Required major courses:

- HHD 1002 - DEVELOPMENT: CONCEPTION THROUGH EARLY CHILDHOOD
- HHD 1016 - DEVELOPMENT CURRICULUM AND ACTIVITIES
- HHD 1025 - CONTEMPORARY ISSUES IN COMMUNITY
- HHD 1007 - METHODS OF EVIDENCE-BASED PRACTICE
- HHD 1003 - DEVELOPMENT: MIDDLE CHILDHOOD THROUGH ADOLESCENCE
- HHD 1014 - PSYCHOLOGICAL INTERVENTIONS IN REAL WORLD CONTEXTS
- HHD 1013 - DEVELOPMENTAL PSYCHOPATHOLOGY
- HHD 1024 - FAMILY DYNAMICS
- HHD 1028 - DEVELOPMENTAL PRACTICE SEMINAR 1
- HHD 1029 - DEVELOPMENTAL PRACTICE SEMINAR 2
- HHD 1036 - DEVELOPMENTAL MEANING CULTURAL DISTANCE
- HHD 1041 - CHILD & YOUTH WORK PRACTICE 1 Credits / Units: 6
- HHD 1043 - CHILD/YOUTH PRACTICE 2 Credits / Units: 6
- HHD 1050 - SUPERVISORIAL ADMINISTRATION CHILD YOUTH WORK SETTING

Exercise Science, BS

The Bachelor of Science (BS) program in Exercise Science offers students rigorous training in the application of exercise science for prevention and treatment of chronic diseases and conditions, human performance, and health and well-being. This also prepares students for graduate training or additional training in areas of allied health (e.g., physical therapy, occupational therapy, physician assistant, or other allied health opportunities). The B.S. in Exercise Science is focused on training students to prepare for health-fitness and clinical careers related to exercise science. Specifically, this degree program prepares students for careers in 1) health, fitness, or performance benefits of exercise and physical activity; 2) Health-related careers related to exercise (cardiac rehabilitation, pulmonary rehabilitation, etc); 3) Admission to physical therapist, occupational therapist, physician assistant, or other health-related career programs; 4) Admission to graduate training in exercise science, exercise physiology, public health, or a related field.

General Education Requirements (50-52 Credits)

Communication Skills (9 credits)

- ENGCMP 0200 - SEMINAR IN COMPOSITION
- Public Speaking - 3 credits
- Composition Elective ("W" course) - 3 credits

Quantitative Reasoning (6-7 credits)

- MATH 0031 - ALGEBRA
- Statistics - 3-4 credits

Humanities (9 credits)

- Literature, 3 credits
- Music or Art, 3 credits
- Philosophy/Philosophy of Science, 3 credits

History, Social Science & Public Policy (9 credits)

- History, 3 credits
- Social Sciences, 3 credits
- Public Policy, 3 credits

Introductory Sciences (17-18 credits)

- BIOSC 0150 - FOUNDATIONS OF BIOLOGY 1
- BIOSC 0057 - FOUNDATIONS OF BIOLOGY RESEARCH LABORATORY 1
OR
- BIOSC 0058 - FOUNDATIONS OF BIOLOGY SEA-PHAGES LABORATORY 1
- CHEM 0110 - GENERAL CHEMISTRY 1
Plus CHEM Lab
- PHYS 0110 - INTRODUCTION TO PHYSICS 1
- PSY 0010 - INTRODUCTION TO PSYCHOLOGY
- ELECTIVE (second course in subjects above) - 3-4

Exercise Science Requirements (70-73 credits)

Biophysical Foundations (19 credits)

- HHD 1011 - APPLIED HUMAN ANATOMY
- HHD 1012 - APPLIED HUMAN ANATOMY LAB

- HHD 1033 - HUMAN PHYSIOLOGY
- HHD 1042 - PHYSIOLOGY OF EXERCISE
- HHD 1044 - BIOMECHANICS
- HHD 1485 - NUTRITION AND HEALTH
- HHD 1487 - CHRONIC DISEASE AND OBESITY

Behavioral & Sociocultural Foundations (3 credits)

- HHD 1486 - BEHAVIOR CHANGE STRATEGIES

Research Methods & Practicum (3-5 credits)

- HHD 1031 - RESEARCH IN SPORTS SCIENCE
- HHD 1045 - DIRECTED RESEARCH PRACTICUM

Health & Wellness Foundations (7 credits)

- HHD 1489 - CONSIDERATIONS FOR HEALTH AND FITNESS PROGRAMMING

Natural Sciences (14-16 credits)

- BIOSC 0160 - FOUNDATIONS OF BIOLOGY 2
- BIOSC 0067 - FOUNDATIONS OF BIOLOGY RESEARCH LABORATORY 2
OR
- BIOSC 0068 - FOUNDATIONS OF BIOLOGY SEA-PHAGES LABORATORY 2
- CHEM 0120 - GENERAL CHEMISTRY 2
- Additional Science Electives (e.g. BIO, CHEM, PHYS, PSY, NEURO, NUTR), 6-9 credits

Exercise Science Foundations (22-23 credits)

- HHD 1035 - EXERCISE SCIENCE SEMINAR 2
- HHD 1169 - HEALTH FITNESS PRACTICUM 1
- HHD 1170 - HEALTH FITNESS PRACTICUM 2
- HHD 1226 - ASSESSMENT AND PRESCRIPTION FOR SPECIAL POPULATIONS
- HHD 1233 - PRINCIPLES OF STRENGTH AND CONDITIONING
- HHD 1996 - CLINICAL INTERNSHIP

Instructor Courses (2 credits)

Required for Applied Focus students only

- HHD 0497 - WATER SAFETY INSTRUCTOR
- PEDC 0242 - AMER RED CROSS LIFEGUARD INSTRC
- PEDC 0243 - AMER RED CROSS FIRST/CPR INSTRC

Minor

Applied Fitness Minor

Students may minor in applied fitness if they are interested in having a solid background in exercise science that focuses on active fitness instruction and hands-on skills training for a fitness professional. Upon completion of all requirements the minor will appear on the final transcript as an awarded Academic Minor. The student is responsible for working closely with their Minor Advisor to ensure that the necessary documentation is provided to allow for this to appear on the final transcript.

Graduates of the applied fitness minor program do not qualify for public school teacher physical education certification.

Requirements

- Completion of a minimum of 17 credits of minor coursework.
- 2.5 cumulative GPA

APPLIED FITNESS REQUIRED COURSES (13 credits)

- HHD 1011 - APPLIED HUMAN ANATOMY
- HHD 1012 - APPLIED HUMAN ANATOMY LAB
- HHD 1033 - HUMAN PHYSIOLOGY
- HHD 1042 - PHYSIOLOGY OF EXERCISE

APPLIED FITNESS MINOR FOUNDATION COURSES (1 CREDIT)

Select 1 of the following:

*Starting in the 2024-25 catalog year, Lifetime Activities 1 & 2 will be merged to create the following course:

- HHD 0476 - LIFETIME ACTIVITIES

APPLIED FITNESS MINOR INSTRUCTOR COURSES (2 CREDITS)

Select 2 credits from the following:

- HHD 1173 - AEROBICS INSTRUCTOR
- HHD 1178 - GROUP FITNESS INSTRUCTOR
- HHD 1177 - YOGA AND PILATES INSTRUCTOR

APPLIED FITNESS MINOR PRACTICUM COURSE (1 CREDIT)

- HHD 1169 - HEALTH FITNESS PRACTICUM 1

Aquatics Minor

The Aquatic Minor prepares students to assume responsibilities related to aquatics in many areas which is beneficial to those who pursue careers in coaching, recreation, physical therapy and aquatic rehabilitation, recreational management, or exercise science. This professional preparation provides coursework and exposure to aquatics-related teaching, administration, and coaching.

The Aquatic minor will also prepare students to earn certifications that are now becoming requirements for aquatic-related positions. Following completion, the Aquatic minor can certify students in American Red Cross Instructor courses (Water Safety, Lifeguard, and CPR/First Aid) . The minor will also provide opportunity to pursue the Certified Pool Operator (CPO) certification as well as United States Swimming Safety Training for Swim Coaches and other coaching certifications.

Requirements

- Completion of a minimum of 18 credits of minor coursework.
- 2.5 cumulative GPA

AQUATICS REQUIRED COURSES (15 CREDITS)

- HHD 0497 - WATER SAFETY INSTRUCTOR
- HHD 1211 - ATHLETIC INJURY PREVENTION
- HHD 1212 - ATHLETIC INJURY PREVENTION LABORATORY
- HHD 1241 - TEACHING EXPERIENCE 1
- HHD 1242 - TEACHING EXPERIENCE 2
- HHD 1300 - NUTRITION IN EXERCISE AND SPORT
- PEDC 0133 - LIFE GUARDING 1
- PEDC 0242 - AMER RED CROSS LIFEGUARD INSTRC

Additional Aquatic Courses (3 CREDITS) Select 3 of the following:

- PEDC 0001 - BEGINNING SWIMMING
- PEDC 0002 - INTERMEDIATE SWIMMING
- PEDC 0026 - AQUATIC CONDITIONING
- PEDC 0158 - WEIGHT TRAINING - BEGINNER
- PEDC 0193 - PERSONAL FITNESS
- PEDC 0194 - SPORTS CONDITIONING

Dance Minor

The University of Pittsburgh Dance 15 credit minor program focuses on the development of dance technique within a wide variety of dance courses, and the teaching of dance technique and other complementary movement styles. Students will participate in additional core Exercise Science curriculum opportunities such as Lifetime Activities, Instructor courses, and Health Fitness Practicum experiences for teaching practicum placements. In addition to focusing more on the education of dance as a skill, the focus of the program would be more scientific in nature including classes such as Anatomy and Nutrition as options for students. This will develop more a well-rounded Dance educator, allow opportunities for employment teaching a wide variety of dance forms, and prepare a student to be poised to teach movement from a scientific approach. Also the Dance minor would allow gainful opportunities to use group exercise and Dance as recreational and therapeutic modalities in health-fitness settings.

Dance Minor REQUIRED Courses (6 credits)

All Dance minors are required to take HHD 1011 (3 credits), HHD 0195 (1 credit), and HHD 0476 (2 credits).

- HHD 1011 - APPLIED HUMAN ANATOMY
- HHD 0195 - FIRST AID AND CPR
- HHD 0476 - LIFETIME ACTIVITIES

Dance Minor TECHNIQUE Courses (5 Credits) Choose 5

- HHD 0031 - MODERN DANCE 1
- HHD 0033 - BALLET 1
- HHD 0041 - JAZZ 1
- PEDC 0164 - PARTY DANCE
- PEDC 0367 - BALLROOM 1
- PEDC 0207 - PILATES
- PEDC 0262 - YOGA 1
- HHD 0032 - MODERN DANCE 2
- HHD 0042 - JAZZ 2
- HHD 0034 - BALLET 2

Dance Minor (INSTRUCTOR) Courses (2 credits) Choose 1

- HHD 1178 - GROUP FITNESS INSTRUCTOR
- HHD 1177 - YOGA AND PILATES INSTRUCTOR
- HHD 1176 - CARDIO CONDITIONING INSTRUCTOR

Dance Minor TEACHING PRACTICUM course (1 Credit) Choose minimum of 1

- HHD 1169 - HEALTH FITNESS PRACTICUM 1
- HHD 1170 - HEALTH FITNESS PRACTICUM 2

Dance Minor SCIENCE Selection course (1 credit) Choose 1

- HHD 1012 - APPLIED HUMAN ANATOMY LAB
- HHD 1300 - NUTRITION IN EXERCISE AND SPORT

Exercise Science Minor

Students who are interested in adding a more in-depth understanding of exercise science and its' impact on performance, health, and quality of life may minor in exercise science. Upon completion of all requirements the minor will appear on the final transcript as an awarded Academic Minor. The student is responsible for working closely with their Minor Advisor to ensure that the necessary documentation is provided to allow for this to appear on the final transcript.

Graduates of the exercise science minor program do not qualify for public school teacher physical education certification.

Requirements

- Completion of a minimum of 18 credits of minor coursework.
- 2.5 cumulative GPA

EXERCISE SCIENCE MINOR REQUIRED COURSES (13 CREDITS)

- HHD 1011 - APPLIED HUMAN ANATOMY
- HHD 1012 - APPLIED HUMAN ANATOMY LAB
- HHD 1033 - HUMAN PHYSIOLOGY
- HHD 1042 - PHYSIOLOGY OF EXERCISE

EXERCISE SCIENCE MINOR ELECTIVE COURSES (5-6 CREDITS)

Choose from the following courses:

- HHD 1044 - BIOMECHANICS
- HHD 1233 - PRINCIPLES OF STRENGTH AND CONDITIONING
- HHD 1226 - ASSESSMENT AND PRESCRIPTION FOR SPECIAL POPULATIONS
- HHD 1487 - CHRONIC DISEASE AND OBESITY

Swanson School of Engineering

Swanson School of Engineering

The Swanson School of Engineering's undergraduate programs prepare students for entrance into a diverse spectrum of careers, providing both a strong, fundamental engineering education and a thorough understanding of the broader aspects of society. Students have an opportunity to participate in the highly successful Cooperative Engineering Education Program, an increasing number of global opportunities, joint programs with the David C. Frederick Honors College, and a number of certificate programs. Students also have the option of earning a minor or a dual degree from various Dietrich School of Arts and Sciences programs. Minors may also be earned from the other Swanson School of Engineering undergraduate degree programs, as well as some programs in the School of Computing and Information. The curricula provide sufficient flexibility to allow graduates to pursue careers in industry, government, or education, including programs in medicine, law, and business.

Full-time Bachelor of Science in Engineering degree programs are offered on the Pittsburgh campus in the following engineering disciplines: bioengineering, chemical, civil, computer, electrical, engineering science, environmental, industrial, materials science, and mechanical. Special interdisciplinary programs can be structured based upon individual student interest and ability through the engineering science program. The Cooperative Engineering Education Program, in which students alternate terms of relevant work experience with course work, is available for students in all undergraduate engineering majors. Approximately 40% of the graduating seniors complete at least three co-op rotations. There are also certificate programs in cybersecurity in engineering, engineering data analytics; engineering for humanity; engineering simulation in design; health systems engineering; innovation, product design and entrepreneurship; international engineering studies; nanoscience and engineering; nuclear engineering; supply chain management; and sustainability.

Application Procedures

The Swanson School of Engineering works closely with the University of Pittsburgh's Office of Admissions and Financial Aid (OFA). Ultimately, all admissions, financial aid and scholarship decisions take place through OFA following the procedures detailed below:

First Year Engineering Program

All admissions to the Swanson School of Engineering are determined by the University's Office of Admissions and Financial Aid. (Please see Pittsburgh Campus First-Year Admissions section of this bulletin for details.) Approximately 650-700 first-year students enter the Swanson School of Engineering each fall term.

Transfer Students from Other Colleges and Universities

The Swanson School of Engineering admits transfer students from within the University system, and from other U.S. and international programs. Transfer applicants are evaluated according to their academic record as well as space available in the program of choice. An applicant for transfer to the Swanson School of Engineering from another college or university should apply through the Office of Admissions.

Contact the Office of First Year Recruitment at 412-624-9825, ssoetransfer@pitt.edu or see the transfer engineering student Web site for more information on transfer procedures.

A transfer applicant from a four-year college should have a cumulative grade point average (GPA) of at least a 3.0 (for courses that satisfy Swanson School of Engineering's first year requirements) on a 4.0 scale to be considered for admissions. Applicants from a two-year college should have a minimum GPA of a 3.25 on a 4.0 scale. Students interested in the Bioengineering program from any institution (two-year or four-year) need a minimum of 3.5 GPA. Students must also have completed two semesters of Calculus, Calculus-based Physics and Chemistry for consideration. In general transfer students will only be accepted for the upcoming Fall Term except for special cases of well-prepared applicants.

All transfer applicants are required to provide high school academic records. Advanced standing credits will be granted for college course work at another accredited institution depending on grades received and equivalency of the courses to the applicant's proposed program in the Swanson School of Engineering.

Articulation Agreements

The Swanson School of Engineering has developed combined liberal arts/engineering articulation agreements with a number of accredited liberal arts colleges. In these programs, students first complete a three-year structured course of study at the liberal arts college, including that college's general education requirements, specific introductory courses required for the engineering program of interest, and other courses necessary for acceptance into a Swanson School of Engineering program. With the recommendation of the faculty advisor at the liberal arts college, the student applies for transfer to the University of Pittsburgh, Swanson School of Engineering, spending the final two or more years in an engineering program.

Transfer Students from University of Pittsburgh

Oakland Campus

Students from any of the University's other schools at the Oakland campus are eligible for transfer if they meet the Swanson School of Engineering's requirements. Students must submit an Academic Program Change Form through their current advising or academic records center for transfer consideration.

An applicant for transfer from an Oakland campus school must have a minimum 3.000 cumulative GPA (3.500 for Bioengineering) and must have completed no fewer than 7 of the 8 First Year Engineering courses (MATH 0220 and 0230 - Analytic Geometry and Calculus 1 and 2; PHYS 0174 and 0175 - Physics for Science and Engineering 1 and 2; CHEM 0110 and 0120 - General Chemistry 1 and 2; and ENGR 0015 and 0016 Introduction to Engineering Analysis and Introduction to Engineering Computing) with a grade of "C" or better to be considered for admission. Completion of all transfer minimum requirements does not guarantee transfer, as space limitations within each degree program will be considered. For additional information, see the transfer engineering student Web site.

Regional Campuses

Request forms for relocation from the Bradford, Greensburg, Johnstown, or Titusville campuses are available at each regional campus. Pre-engineering students who have a grade point average of 3.0 or higher (with the exception of Bioengineering, which requires a 3.5 GPA) in the required first year engineering curricula are eligible to relocate pending departmental approval. Completion of all transfer minimum requirements does not guarantee transfer, as space limitations within each major will be considered.

Consistent with our admissions deadlines with the Office of Admissions, we will not be able to consider Regional Campus transfer students for the Spring semester if required engineering curricula course grades are in process during the applicant's Fall term. Exceptions to this rule must be approved in advance by the Associate Dean for Academic Affairs.

Interdepartmental Transfers

A Swanson School of Engineering student whose academic record satisfies the minimum requirements for continued registration may apply for transfer from one engineering department or program to another. To initiate a program change, the student must complete a Program Change form with their academic advisor. It is the prerogative of the department or program to which the student desires to transfer to approve or reject a program change request, based on academic performance and/or space limitations/availability.

Guest Students

Students wishing to enroll in a Swanson School of Engineering course as a guest student (enrolled as a degree-seeking student at another college or university and planning to transfer credit to their home institution) or as a non-degree post-baccalaureate student must complete a Special Student Application, available from the Swanson Office of Student Records. Students must meet prerequisites for the specific course(s) they wish to take.

Reinstatement

An engineering student in good academic standing who has not attended the University of Pittsburgh for three consecutive terms and has attended no other institution in the intervening period must complete a Request for Reinstatement, available from the Swanson School Office of Student Records. If the student has attended another institution and completed more than 12 credits, the student must reapply through the University's Office of Admissions and Financial Aid in accordance with the procedure for transfer applicants from other colleges or universities.

A student who has withdrawn while on academic probation may be reinstated only by action of the appropriate faculty committee, typically based upon substantial evidence of a positive change in the student's attitude toward academic work. The student must complete a Request for Reinstatement, available from the Swanson School Office of Student Records.

Transfer Credit

Advanced Standing / Transfer Credit for Courses Taken Outside the University

Students transferring into the Swanson School of Engineering from other college-level programs will have their academic records officially reviewed for advanced-standing credit only after they have been admitted and pay their tuition deposit. This determination will be made by the responsible academic department or program in accord with Swanson School of Engineering's policy and criteria established by ABET, the engineering accrediting agency. Courses that are taken on a pass/fail system that includes a D grade as passing will not be approved for advanced standing.

Transfer credit policies are as follows:

1. Advanced standing for engineering or engineering science courses will be considered only if the student completed the course and earned a grade of C or better. Courses that are taken on a pass/fail system that includes a D grade as passing will not be approved for advanced standing.
2. The Swanson School of Engineering accepts credits, but not grades, for transfer. Consequently, any courses that are accepted for transfer will be used as credit toward graduation, but will not be calculated into the student's GPA at the University of Pittsburgh.
3. All engineering courses that have equivalent counterparts in the Swanson School of Engineering, in both content and credits, are eligible for transfer consideration.
4. Mathematics, science, humanities, and social sciences courses will be awarded to the extent that such courses match specific University of Pittsburgh, Dietrich School of Arts and Sciences courses. Humanities and social sciences courses must correspond to those on the Swanson School of Engineering's approved list of humanities and social sciences electives.
5. No transfer credits can be part of the final 25% of credits required for a degree. These credits must be earned in residence. In interpreting this regulation, credits earned on regional campuses are considered as transferable.
6. Transfer credits need to be earned within 12 years of the date when the Swanson School of Engineering degree requirements will be completed.

7. In accordance with University policy, re-evaluation of credits will be done by the admitting school, when necessary, according to applicable University policy and procedure. The policy applies to all previous credits earned, no matter if they were earned at the University of Pittsburgh or another institution.
8. No more than 60 credits may be transferred from a two-year college. No more than 90 credits may be transferred from a four-year college.
9. The number of transfer credits granted for a given course cannot exceed the number awarded on the transcript of the original school or the number earned for the corresponding course at the University of Pittsburgh.
10. If a course for which advanced standing credit has been granted is repeated, the advanced standing credit is canceled, even if a grade of W is earned.
11. Coursework earned in approved foreign study programs will be awarded on a Satisfactory/No Credit (S/NC) basis, assuming a grade of C or better has been earned.
12. One credit taken at a quarter system school is equal to two-thirds a credit at the University of Pittsburgh. This may affect the ability of a course to transfer.
13. Engineering courses must be completed at an ABET certified institution with the exception of approved study abroad courses.
14. The Swanson School of Engineering does not accept CLEP credit for course credits.
15. Writing Designated courses ("W" Courses) may not be transferred in from another institution.

If a student participates in the University of Pittsburgh College in High School Program, grades earned in Pitt CHS courses appear on the official University of Pittsburgh transcript and are part of the student's academic record. The grade(s) will be included in the calculation of the student's grade point average at the University. CHS courses are only eligible to be repeated at the University if the original grade was below C and no more than one year has passed since the original course was taken, per the Swanson School of Engineering Course Repeat policy. Exceptions may be made only with the approval of the Senior Associate Dean for Academic Affairs.

Students may also earn advanced standing credit by taking Advanced Placement or International Baccalaureate classes in their high schools. Students who have their AP or IB scores sent to the University of Pittsburgh will have those scores evaluated by an academic advisor, who will determine their transferability. For more information on the IB, see the IB Score Information. For more information on the AP, see the AP Score Information.

Foundational courses in the First-Year Engineering program are taken in sequence. Transfer credit may be used for foundational courses (e.g. Math, Chemistry, and/or Physics). If a student chooses to repeat a course at Pitt for which he/she has transfer credit, then transfer credit for subsequent courses in the same sequence is forfeited. Please note that this applies to equivalent courses (e.g. CHEM 0110 and 0120/CHEM 0960 and 0970 are equivalent courses. If a student with transfer credit for Chemistry chooses to take CHEM 0960 at Pitt, they may not then use transfer credit for CHEM 0120). Additionally, if a student with test/transfer credit repeats a class at the University and earns less than the minimum required grade to move forward in the course sequence, he/she may not retroactively use test/transfer credit to earn credit for that course.

Summer/Special Session Courses Taken Elsewhere

Swanson School students in good academic standing (cumulative GPA of at least 2.000) may attend a summer or special session of another accredited institution in order to supplement their program, provided they receive prior approval from the Swanson School of Engineering. Students must submit the name of the institution, the course number, and the relevant course descriptions to their advisor.

Swanson School students may not be enrolled for classes at the University of Pittsburgh and another institution concurrently. Courses may not be a repeat of any course taken before (passed or failed) unless an exception is made by the undergraduate coordinator. A maximum of two courses (no more than 8 credits) may be taken in a single period of enrollment elsewhere.

Students who wish to take "winter term" (e.g. "wintermester", "January-term") courses at another institution must obtain the approval of the Associate Dean through their Academic Advisor/Undergraduate Coordinator. Math, science,

and engineering courses will not be approved winter term courses. The winter term in question may not overlap with Pitt's fall or spring term.

Degree Options

Name	BSE	Minor ¹	Certificate ²	EAGrMS ³	Available To
Bioengineering	x	x		x	Minor - Pitt Oakland Students
Civil Engineering	x	x		x	Minor - SSOE & Science Students
Environmental Engineering	x	x		x	Minor - SSOE & Science Students
Civil Engineering and Architectural Studies Certificate			x		Certificate - ARC BS & ARC BA
Architectural Design		x			Minor - CEE students
Chemical Engineering	x	x		x	Minor - Pitt Oakland Students
Pertoleum Engineering		x			Minor - SSOE Students
Polymer Engineering		x			Minor - SSOE Students
Electrical Engineering	x	x		x	Minor - SSOE Students
Computer Engineering	x	x		x	Minor - Pitt Oakland Students
Cybersecurity in Engineering			x		Certificate - SSOE Students
Engineering for Humanity			x		Certificate - Pitt Oakland Students
Innovation, Product Design, and Entrepreneurship			x		Certificate - SSOE & CBA Students
International Engineering Studies			x		Certificate - SSOE Students
First Year Engineering Program					N/A
Sustainability			x	x	Certificate - Pitt Oakland Students
Industrial Engineering	x	x		x	Minor - Pitt Oakland Students
Health Systems Engineering			x		Certificate - SSOE Schools
Supply Chain Management			x		Certificate - SSOE Students
Engineering Data Analytics			x		Certificate - SSOE Students
Materials Science and Engineering	x	x		x	Minor - SSOE Students

Name	BSE	Minor ¹	Certificate ²	EAGrMS ³	Available To
Mechanical Engineering	x	x		x	Minor - SSOE Students
Engineering Science	x	x			Minor - SSOE & Science Students
Engineering Simulation in Design			x		Certificate - SSOE Studmets
Nuclear Engineering			x		Certificate - SSOE & Science Students
Nanoscience and Engineering			x		Certificate - SSOE & Science Students

The programs listed are for students admitted and registered at the Pitt-Oakland campus

1. SSOE students cannot obtain a minor in their major (e.g., cannot obtain a minor in bioengineering if they are majoring in bioengineering)
2. Certificates have a home department but are available to students across SSOE and other units, where specified
3. The EAGr MS program is available to SSOE students who qualify

Assessment

As part of the Swanson School of Engineering's commitment to student learning and academic achievement, effective teaching, and continuous improvement of our programs, we regularly conduct outcomes assessment activities. To obtain periodic measurements of student perceptions and intellectual growth, students will be expected to participate in surveys, focus groups, interviews, and related activities. While individual input is collected, the data resulting from these assessments will be published only in aggregate form.

Degree Requirements

General Requirements

The degree requirements are established by the individual departments and programs. Depending on the program, between 126 to 135 credits may be required for the individual degree. Each program's requirements include the common first year, a mathematics sequence, and six approved humanities and social science electives (including the W-course requirement). The specific degree requirements are found in the program pages linked below in this catalog.

Humanities and Social Science Requirement

An important part of the undergraduate engineering student's education is the humanities and social science component. All Swanson School of Engineering undergraduates must complete at least six humanities and social science elective courses from the school's approved list of Dietrich School of Arts and Sciences (A&S) courses, while meeting the school and ABET requirements for breadth and depth. To meet the depth requirement, a student must complete two or more courses in the same area, only one of which can be below the 0200-level (see list) from the Dietrich School. The depth requirement can also be satisfied by taking two or more courses with a related theme, e.g., courses that focus on a geographic region, historic period, or ideological perspective. For the breadth requirement, the courses must include approved offerings from at least three different humanities and social science departments from the Dietrich School of

Arts and Sciences. Students may use one study abroad course that might not otherwise be counted toward satisfying this requirement, at the discretion of their undergraduate coordinator.

No more than two of the required six elective courses can be satisfied via high school Advanced Placement, International Baccalaureate, and/or GCE-A-Level credits.

Students must also complete one Writing Intensive W-designated course; i.e., a course that has a substantial writing component that has been so designated by the Dietrich School of Arts and Sciences (A&S). Depending on the course, it may also count as one of the humanities/social science electives. The Associate Dean for Academic Affairs maintains a list of approved humanities and social science electives. Students are not permitted to use College of General Studies courses.

Additional information about the Humanities and Social Sciences electives can be found here: [Approved Humanities/Social Science Electives and Requirements](#).

Writing Course Requirement

Engineering students must demonstrate an ability to communicate effectively. This includes both written and oral communication and the ability to make professional presentations. Upon admission, some students demonstrating writing deficiencies may be required to take at least one linguistics and/or english composition course during their first year that will not count toward the Swanson School of Engineering graduation requirements.

While most students take their W course as part of their humanities/social science requirements, students may also satisfy the W requirement by taking a math, science, or elective course with a writing component. In addition, each engineering program has substantial communications components throughout the curriculum. Some programs require a specific course in communications. It is important to refer to each program's graduation requirements to identify requisite communication courses.

For students planning on a dual degree from the Swanson School of Engineering and a Dietrich School major, the University of Pittsburgh Composition Program has agreed that the Dietrich School of Arts and Sciences composition requirement is satisfied by ENGCOMP 0210.

Writing intensive courses may not be transferred in from another institution.

Credit Hours

In the Swanson School of Engineering, a credit or credit hour is one of the following:

- One hour of lecture or recitation a week, requiring two hours of outside preparation
- Two hours of laboratory a week, requiring one hour of outside preparation
- Three hours of laboratory a week, requiring no outside preparation

Co-Curricular Academic Opportunities/Programs

Experiential Learning and Professional Engagement (ELPE)

Cooperative Engineering Education Program/Internships

The school's Cooperative Engineering Education Program enhances the student engineer's educational experience through a series of challenging, highly relevant "real world" work sessions. This is accomplished by integrating rotations of school and employment terms that enables the cooperative education student to complement his or her formal classroom training with additional technical knowledge, hands-on experience, and financial remuneration. The co-op graduate possesses the maturity and assurance of a more seasoned employee and the ability to incorporate academic knowledge and theory into practice. During co-op sessions, students earn competitive salaries, which also makes the program financially rewarding.

Through the assistance of the Swanson School of Engineering's Cooperative Education program, formal arrangements are established with industry that permit students to participate in four-month or six-month rotations alternating work experience with coursework. At the University of Pittsburgh, these rotations begin primarily during their sophomore year, with the additional alternating rotations, or second six-month rotation happening Junior/Senior year. Students working longer at an employer can experience increased job duties as the knowledge and skills of the student engineer progress. The positions can be local, national, or international. This practical work experience has also been found to increase academic motivation and classroom performance.

Students can work three alternating rotations, or two six-month rotations. Alternating rotations can start summer, fall, or spring terms. Six-month rotations can run a Spring/Summer (January-June) or a Summer/Fall (July-December). Students can opt to stay with the same employer, or switch to a different company or industry for their remaining rotations. Co-op students become aware of business practice and etiquette and possess a mature, responsible attitude. Thus, upon graduation, students who have successfully completed the co-op program are able to handle more challenging initial assignments with confidence and assurance. A high percentage of co-op students also obtain and accept full-time offers from their co-op employers.

Sample Co-op schedules are available through the Co-op Program Office and faculty Co-op advisors in the Engineering departments as well.

Keep in mind that students while on co-op rotations are unable to simultaneously hold employment positions as student workers or federal work study positions during that timeframe. Students earn transcript certification and a total of 3 credits towards departmental graduation requirements upon satisfactory completion of the program requirements. The Co-op program offers resume preparation, interviewing skills, workshops, and job fairs in order to facilitate appropriate placements for students.

SSOE Global Experiences and Engagement

As the world around us grows ever more connected, it is evident that engineering students must be prepared to engage in an increasingly globalized world, and, upon graduation, to compete in an international job market. Accordingly, the Swanson School of Engineering has placed a strong emphasis on the development of exciting and academically enriching global programs for its students.

All students in SSOE are encouraged to add a global dimension to their education by pursuing one or more international programs as part of their academic study. At present, SSOE students may elect to participate in study, research, co-op, internship, or service learning abroad. Most of these opportunities are offered on a for-credit basis, and

many can be used to satisfy major, minor, technical elective, or other degree requirements. Foreign language study is helpful, but not required, as many courses are on offer in English. Depending on their academic and personal interests, students may elect to participate in dozens of individual international programs. Some of these may last for only a week or two, either during spring break or over the summer term. Others may involve a commitment of a semester or even an entire academic year abroad. Depending on the type of study abroad global program, there may be a minimum GPA requirement.

The Swanson Signature Global Programs are short term opportunities that focus on a relevant engineering topic in detail over the course two to five weeks. Recently, Swanson Signature programs have occurred in Brazil, Germany, Guam, Italy, South Africa, and Uruguay, studying such diverse topics as renewable energy and sustainability, island nation risk, and global supply networks. Plus3 is another innovative short term program designed for first-year SSOE students, and which has taken place in locations such as Brazil, China, Costa Rica, Germany, Italy, South Korea, and Vietnam. Students who wish to invest in longer term study may decide to participate in an exchange program. This affords them the opportunity to study engineering, social sciences or humanities at a foreign college or university for one or two consecutive academic terms, and for little more than the cost of a regular term in Pittsburgh. Finally, scholarships and other funding opportunities are also available, and financial aid administered by the University of Pittsburgh may apply.

There is an International Engineering Studies Certificate as well as a Global Distinction offered to University of Pittsburgh students that formally recognizes broad and meaningful engagement in global learning. The Swanson School of Engineering encourages its students to explore the requirements to obtain these complements to their degree program.

Current and prospective SSOE students and their parents are welcome to contact the Office of Global Experiences and Engagement for more information:

Career and Industry Engagement

On the career side, helping students to grow and develop professionally throughout their time at SSoE is essential. Through customized professional development, students are provided with the career tools that they need to help prepare them for the future. Being able to build and demonstrate those skills through experienced based opportunities gives our students the confidence and competitive edge that they need to be as successful as possible in the post graduate job market.

On the industry side, we help to build, manage, and maintain relationships between the companies that want to work with the Swanson School of Engineering (SSoE) and our departments, faculty, administration, student clubs/organizations, and alumni. We help companies effectively engage within SSoE to provide maximum experienced based learning benefits to our students. These relationships not only help students to connect to opportunities to grow and develop professionally, but also helps students practice what they learn in the classroom in real time.

Learning involves developing from both a curricular and co-curricular perspective. The Career and Industry Engagement office helps to provide opportunities for students to develop and connect with the companies that can potentially hire them and individuals that can help build their networking relationships well into the future.

Diversity and Inclusion Initiatives

The Engineering Office of Diversity exists to create and sustain learning and working environments where differences and similarities are valued and respected, and all scholars, especially underrepresented scholars, are included and empowered to excel in engineering education. The office provides diversity education to the community, undergraduate scholars, graduate scholars, staff and faculty. The office also provides continuous academic and community support services through its undergraduate and graduate scholar programming.

The Swanson School of Engineering undergraduate diversity program develops and implements activities that promote and support the academic excellence of high achieving undergraduate scholars from groups historically underrepresented in engineering fields. These initiatives provide a continuous pipeline for scholars to prepare for, enter and graduate from the University of Pittsburgh as engineering majors.

Pitt EXCEL Program

The Pitt EXCEL Program is a comprehensive undergraduate diversity program committed to the retention, development, and graduation of historically underrepresented engineering scholars. Pitt EXCEL scholars strive to advance in the areas of scholarship, professionalism, graduate endeavors, and community engagement. In addition, Pitt EXCEL scholars have access to academic counseling, peer mentoring for first year and upperclassmen scholars, year specific seminars, tutoring resources, engineering research, graduate school preparation and professional development workshops. Lastly, first year Pitt EXCEL scholars are eligible to participate in our two-week intensive study skills, math and science summer bridge program.

The vision of the Pitt EXCEL Program:

1. Achieve 100% placement in each Pitt EXCEL scholar's desired engineering field of pursuit, inclusive of graduate school, industry, and medical school.
2. Establishing lifelong connections with fellow undergraduate scholars, staff, faculty, alumni, and industry relations.
3. Producing the highest achieving scholars that rank in the top 20% in all engineering disciplines within the Swanson School of Engineering.

PITT STRIVE Program

The University of Pittsburgh Swanson School of Engineering PITT STRIVE Program stands for **S**uccess, **T**ransition, **R**epresentation, **I**nnovation, **V**ision, and **E**ducation. The STRIVE program was established through a grant from the National Science Foundation (NSF), the University of Pittsburgh Swanson School of Engineering, and its Office of Diversity (EOD) to improve the transitions of Underrepresented Minorities (URM), who are U.S. citizens, into doctoral engineering programs at the University of Pittsburgh and to ensure their successful

completion by employing evidence-based strategies for student and faculty engagement and fostering an inclusive academic climate for URM doctoral students.

Scholarship Eligibility

PITT STRIVE Scholars will be recruited from members of underrepresented minority group (Black/African American, American Indian, Hispanic/Latino, Alaska Native, and Native Hawaiian or Pacific Islander) meeting US citizenship or permanent residency requirements with an undergraduate GPA of 3.3/4.0.

Diversity Professional Development Workshops

During Fall and Spring semesters, the Engineering Office of Diversity and PITT STRIVE program organize a series of workshops that allow the campus community to meet the leading experts in diversity-related issues and initiatives. The Engineering Office of Diversity and PITT STRIVE program also organize seminars and workshops dedicated to such nationally recognized celebrations as Hispanic Heritage Month, Black History Month, and Women's History Month, etc.

David C. Frederick Honors College

Students admitted to the David C. Frederick Honors College (Pitt Honors) and students interested in participating in honors courses have the opportunity to participate in several unique programs. Students admitted to Pitt Honors may elect to pursue the Bachelor of Philosophy degree or the Honors Joint degree in addition to their engineering Bachelor of Science degree. Students who have not been admitted to Pitt Honors prior to the first year may apply for degree candidacy in the David C. Frederick Honors College (FHC) after completing their first year at Pitt. Students admitted to the Honors College will be assigned an Academic Advisor in the Swanson School and another in the Honors College. Swanson students admitted to the David C. Frederick Honors College are given earlier enrollment appointments than non-Honors College engineering students with the same academic level. However, Swanson students, including those admitted to the Honors College, may be restricted from taking a course in a particular term if space is needed to accommodate other students completing graduation requirements.

Students interested in taking honors courses but who do not wish to pursue the honors degree options may instead choose to challenge themselves in and out of the classroom by electing to pursue Honors Distinction, which involves both honors coursework and participation in the Honors Outside the Classroom Curriculum (OCC). Students interested in the Honors College should contact the Honors College: 3500 Cathedral of Learning, University of Pittsburgh, Pittsburgh, PA 15260, or call 412-624-6880. (See the David C. Frederick Honors College section of this bulletin.)

Reserve Officers Training Corps (ROTC)

Academic programs within the Swanson School of Engineering may give credit to students enrolled in Reserve Officers Training Corps (ROTC). This credit may be given in one of the following ways.

- Upon commissioning, some departments will award one technical elective for the student's entire ROTC coursework and training; or
- Some programs may review the specific courses and course objectives for individual ROTC courses to see if the individual course or courses may be counted toward program requirements.
- Select ROTC courses rooted in the humanities and social sciences are on the SSOE list of approved electives. Students enrolled in the ROTC program should meet with the undergraduate coordinator for review of how the ROTC program and courses may be counted for a specific major. Students are encouraged to participate in ROTC if this is of interest to them. With this in mind, the Swanson School of Engineering is lenient with those in the Navy program who must travel to Carnegie Mellon University for coursework and typically are permitted to take over 18 credits per term to satisfy the ROTC requirements.

Dietrich School of Arts and Sciences Dual Degree Program

The Dietrich School of Arts and Sciences (A&S) and the Swanson School of Engineering have developed an undergraduate dual degree program that permits a student to combine a major in arts and sciences with a program in engineering and then receive degrees from both A&S and the Swanson School of Engineering. A student can apply for admission into this program through either A&S or the Swanson School of Engineering and must be admitted into both schools.

While the form of the program is dependent upon the individual student's interests, the first year curriculum is typically the standard engineering program. During the next three years the student may complete the specific requirements for his or her engineering degree while fulfilling certain A&S major and general education requirements. Typically, the fifth year is then used to complete the A&S requirements. Students must complete a minimum of 90 A&S credits, including all A&S skills and general education requirements and an A&S major (but not a related area). Students must also complete all the degree requirements of their chosen engineering program, usually consisting of 70 or more Swanson School of Engineering credits. Each program should be developed with an advisor in the Dietrich School of Arts and Sciences and an advisor in the Swanson School of Engineering and tailored to the student's special interests. Students in this program have combined engineering with neuroscience, philosophy, economics, music, language, and a number of other programs.

Students must satisfy both schools' normal progress requirements and criteria for academic standing as long as they remain in the joint degree program. Students also must apply for graduation from both schools. A&S students earn either a BA or BS degree, depending upon the A&S program of study. The student's GPA for graduation from A&S is calculated based solely upon the credits earned for the A&S degree. For further information, students may contact one of the following: the First Year Engineering Program Office, 152 Benedum Hall; an engineering departmental undergraduate coordinator; the A&S Office, 140 Thackeray Hall; the A&S Advising Center, 252 Thackeray Hall; or the David C. Frederick Honors College engineering advisor, 3600 Cathedral of Learning.

Advising

First Year Students

All students are assigned an advisor and are expected to meet with their advisor prior to registration. The First Year Engineering Program's professional staff serves as first year advisors. Throughout the first year, students are encouraged to meet with their advisor if they need to register for classes, withdraw from classes, add and/or drop classes, seek out resources, find out about their academic progress, discuss problems they are having in a course, or get help deciding on a program. First-Year Students are also assigned an Engineering Peer Leader, who co-facilitates ENGR 0081 - First-Year Engineering Seminar with a professional staff advisor. First-Year Engineering

students admitted to the Honors College will be assigned both an SSOE Academic Advisor and an Honors College Advisor.

Continuing Undeclared Engineering Students will be advised by staff in the First Year Engineering Program (in collaboration with the Engineering programs) until they are department-ready. Students are considered Continuing Undeclared Engineering Students if they meet any of the following criteria:

- have yet to successfully complete more than one First-Year Engineering course
- have a cumulative GPA below 2.000
- have a grade of C- or lower in MATH 0230 (Calculus 2)
- have yet to successfully complete a critical class for their intended major, as follows:
 - Chemical Engineering: CHEM 0970 or CHEM 0120
 - Electrical and Computer Engineering: PHYS 0175

Students are expected to make progress toward completion of First-Year Engineering Program requirements within the first year of enrollment. Students who are unable to declare their major due to incomplete First-Year Program Requirements at the end of the first year have one additional year to complete these requirements and may be limited or restricted from taking departmental classes until first-year requirements are finished. Students should consult with their academic advisor on the most efficient academic path toward First-Year Program completion. Review of a student's academic progress will be made if first-year requirements are not completed by the end of the second year of enrollment. Not completing first-year requirements in the first year may delay time to degree.

Transfer Students

Incoming transfer students are directly admitted into their upper-level engineering program and will have a declared major, unless otherwise noted on their admission letter. For academic advisement, transfer students will be assigned an engineering faculty advisor by their department, which will be found in the student's PeopleSoft Student Service Center. Undergraduate Coordinators/Directors and the Office of Transfer Student Services are also available as support resources during their academic career.

Departmental/Program Advising

Undergraduate engineering students who have declared their major and entered an engineering department are assigned a departmental/faculty advisor upon entering their department. Undergraduate Coordinators/Directors are also available as faculty resources to undergraduate engineering students in their major. Students may consult their PeopleSoft Student Service Center to see the name of their Academic Advisor.

Office of Retention

Swanson School of Engineering (SSoE) is committed to the success of our students, which is why we have created the Office of Retention. We take a proactive approach in supporting our students.

The Academic and Career Enhancement (ACE) program is focused on the retention and graduation of SSoE students. When SSoE students experience an academic set-back, they will be invited by the Director of Retention to have the opportunity to participate in ACE.

Eligible sophomores, juniors, and seniors who have had an academic set-back such as:

1. Academic probation
2. Academic warning
3. Repeating a course(s)

are strongly encouraged to participate in the ACE program.

For additional information, please contact:

Anita Persaud, DEd
University of Pittsburgh

apersaud@pitt.edu
www.engineering.pitt.edu/friends-giving-admin/retention/ace-program/

Academic Policies

Registration

Each student registers for future terms with the assistance of their academic advisor during registration periods specified by the Office of the University Registrar. A student who has registered for a course but has failed to satisfy the prerequisites for that course prior to the beginning of the term may not be permitted to continue attending class and must withdraw from the course if requested to do so. First Year engineering students register for the fall term during the summer advising sessions. Entering students are required to take the ALEKS Math placement exam before registering for their first Math class at the University of Pittsburgh. Students may be exempt from taking ALEKS if they have advanced standing credit for MATH 0220. ALEKS results will only be used to place students into their first math course at the University and cannot be used to skip subsequent math courses.

Maximum Credit Registration

All full-time undergraduate engineering students are expected to register for a normal full term of academic courses (i.e., at least 12 credits). No student shall be allowed to register for more than 18 credits without specific written permission from their academic advisor and approval by the Associate Dean for Academic Affairs. Such permission is given only after a review of the student's academic record in order to verify that an overload is academically justifiable. All credits above 18 for undergraduates will be billed over and above the full-time tuition rate at the prevailing per-credit tuition charge.

Online Courses

Undergraduate engineering students who have completed 24 or more credits in residency at the University of Pittsburgh may take online courses (either at Pitt or outside the University of Pittsburgh for transfer credit), subject to the following conditions:

1. Student must present a valid reason for taking the course online.
2. If a transfer course, the course must be from a two- or four-year college or university that is accredited by Middle States Association of Colleges and Schools (or equivalent if outside the region).
3. Any engineering or engineering science course must be from an ABET-accredited program.
4. Humanities or social science courses must be from the arts and sciences unit of the institution and not from a continuing education or general studies unit.
5. The course(s) must be first approved by the student's undergraduate coordinator.

Late Withdrawal Policy

Between the end of the University's stated add/drop period (approximately the third week of the fall and spring terms) until the last day of the monitored withdrawal period (approximately the ninth week of the academic term for fall and spring terms), a student may withdraw from any Swanson School of Engineering course for any reason. The academic dean or designate will approve the course withdrawal (the instructor's approval is not required).

After the end of the monitored withdrawal period, students will only be withdrawn from courses with the permission of the Associate Dean for Academic Affairs. Withdrawals will be approved only for documented exceptional reasons including medical or personal incidents that preclude the student from continuing with and/or completing their studies; in those cases the student must withdraw from all courses. Withdrawals from a specific course outside the Swanson School of Engineering must be arranged through the dean's office of the unit offering the course. Note that a withdrawal cannot be processed after grades have posted and students should seek withdrawals prior to final exams or the deadline set forth by that school. Late withdrawals may be subject to additional school-specific guidelines.

Grading Policies

The following section details the Swanson School of Engineering's regulations regarding some of the grades that may appear on a student's transcript. (For a complete discussion of all grades and grading options, see the Grading and Records section of this bulletin.)

G Grade

An instructor may give the G grade when a student is unable to complete the work of a course during the term because of extenuating personal circumstances. When given a "G" grade, both the student and instructor complete the Swanson School G Grade Form to define the work that needs to be completed (e.g. a final examination paper) and the date by which it will be completed (no later than one year after the term or session in which the course was taken). Upon completion of the course work, the instructor of the course will complete a Grade Change Authorization form and send it to the University Registrar via PeopleSoft for processing. A student should not request or be given a "G" grade if, in actuality, the student will need to repeat the course. Once the deadline has passed, the "G" grade will automatically change to "NG" and will no longer appear as "in progress" on a student record. The "NG" grade will remain on the record and the student will be required to re-register for the course if it is needed to fulfill requirements for graduation.

Students may not move forward in a course sequence until a G grade in a previous class in the same sequences has been changed to a letter grade, indicating that all work has been completed and the previous course requirements have been satisfied. Students who register for subsequent classes in a course sequence anticipating completion of the previous course are responsible to drop such classes if a G grade is assigned. Students may only enroll in the next class after outstanding work is completed.

S/NC

With the exception of undergraduate seminar courses, which are only offered satisfactory/no-credit (S/NC), the S/NC option cannot be used for any course that is used to meet graduation requirements. All other Swanson School of Engineering courses are only offered on a letter grade basis. This restriction includes humanities/social science electives and other open/science/engineering electives. First-Year Students may not elect to take courses under the S/NC option. Upper-class engineering students may elect to take non-engineering courses that will not be used to meet graduation requirements as S/NC. Because S/NC courses are not considered in the calculation of the grade point average, the option is appropriate for students wishing to explore disciplines they might not otherwise pursue because of potential negative impact on the grade point average.

A student who wishes to take a course under the S/NC option should first consult his/her advisor to assure that the S/NC option is permissible. A student must register for and complete at least one course for a letter grade to be eligible for an S/NC option course in any term. To register for more than one S/NC option course per term, and a maximum of two, a student must register for 12 or more credits for letter grades.

Calculation of Grade Point Average (GPA)

Each credit carried for a letter grade is awarded quality points as noted under the Grading and Records section of this bulletin. A student's term grade point average (term GPA) is the total quality points earned for the term divided by the total credits assigned letter grades. The cumulative grade point average (cumulative GPA) is determined by dividing the total number of quality points by the total number of credits assigned letter grades. Only credits and quality points for courses taken at the University of Pittsburgh and that count toward the requirement for the BSE degree are used in the calculation of the GPA.

Repeating Courses

A Swanson School of Engineering student may wish to repeat a course or may be required to repeat a course to fulfill degree requirements.

- A student may only repeat a course twice.
- A student's third attempt must be approved by the undergraduate coordinator.
- A student who fails to successfully complete a required course after three attempts will be dismissed from the Swanson School of Engineering even if the student's GPA is 2.000 or higher.
- No sequence course may be repeated for credit after a more advanced course in that sequence has been passed with a C or higher grade.
Course repeats must be completed at the University of Pittsburgh.

A grade replacement may be possible in some situations; refer to the Grade Replacement section below for more details.

Grade Replacement for Repeated Courses

A grade replacement and GPA recalculation occurs for a Swanson School of Engineering student who repeats a course in which they have earned below a C and repeats the course within one year of the original registration.

- No course may be repeated at any other institution and have that grade accepted as a replacement for the original grade earned at the University of Pittsburgh.
- The original course and grade remain on the transcript and/or the academic record; however, the grade and credits originally earned are not counted in the calculation of the QPA (prior to Fall term 2005) or the GPA. All grades earned when repeating a course will be posted and recalculated into the academic transcript, even if the student earns a lower grade than the prior attempt.
- The repeated course does not increase the number of credits counted toward meeting the degree requirements unless an F is replaced by a passing grade.
- W, R, N, or NC grades reported for the repeated course will not be identified as a course repeat, thus the original grade earned will continue to be counted in the QPA (prior to Fall term 2005) or GPA. Incomplete (G or I) grades will not be identified as repeated courses until the course work is completed.
- A sequence course cannot have the grade replaced if a succeeding course in that sequence has been taken (e.g., MATH 0220, 0230, and 0240 Analytic Geometry and Calculus 1, 2, and 3; PHYS 0174 and 0175 Basic Physics for Science and Engineering 1 and 2).

- Course number and title must match for the grade replacement to occur unless an exception has been made by the Senior Associate Dean for Academic Affairs. Exceptions should be discussed with your advisor or undergraduate coordinator.
- The same course repeat and grade replacement rules will apply to transfer students from other schools within the University of Pittsburgh and the regional campuses.

Academic Standing

Every engineering student's academic record is reviewed at the end of each term to certify whether or not the student is in good academic standing. Students will be notified by email if they are no longer in good academic standing and are on probation, school probation, suspension, or dismissal.

Good Standing

To be considered in good academic standing, a student's cumulative grade point average (GPA) must be at least 2.000, AND the student must be making satisfactory progress toward earning an engineering degree. More information on Satisfactory Academic Progress standards can be found at <https://oafa.pitt.edu/financialaid/satisfactory-academic-progress/>.

Term Warning

A student who earns a term GPA less than 2.000 but has a cumulative GPA greater than or equal to 2.000 will receive a warning letter from the Swanson School of Engineering. Academic Warning indicates that the student is potentially subject to probation, suspension, or dismissal if academic performance does not improve. The student is still considered to be in good academic standing. A student may only receive one term warning before the possibility of more serious action. (See Academic Probation and Swanson School Probation, below.)

Academic Probation

A student with cumulative GPA below 2.000 is not in good academic standing and will be placed on Academic Probation. A student on probation may be subject to suspension or dismissal if their cumulative GPA remains below a 2.000 for two consecutive terms (with the exception of first year students, see Dismissal below).

Swanson School of Engineering School Probation

Engineering students will be placed on School Probation if:

1. The student meets two consecutive semesters at full time status where their Term GPA is less than 2.000, but their Cumulative GPA is still greater than or equal to 2.000 (see Term Warning, above), or,
 2. The student fails a course for the second time.
- Participation in activities such as the Co-op Program or International Programs is at the discretion of the Senior Associate Dean for Academic Affairs for students on School Probation.

Suspension and Dismissal

A student on probation may be subject to suspension or dismissal if their cumulative GPA remains below a 2.000 for two consecutive terms. The standard for first year engineering students is 1.75; see below. Suspension from the

Swanson School of Engineering is a one-year action. Dismissal from the Swanson School of Engineering is a permanent action.

The following are additional points related to Suspension and Dismissal:

- Students in the First Year Engineering Program who enter in the fall term may be suspended or dismissed from the Swanson School of Engineering if they do not attain a cumulative GPA of 1.750 or greater by the end of the spring term. First term engineering courses should be completed by the end of the first year. Typical first term engineering courses are MATH 0220, PHYS 0174, CHEM 0960, AND ENGR 0011 or their equivalents.
- First year engineering students with cumulative GPAs between 1.750 and 1.999 by the end of their first academic year who fail to obtain a cumulative GPA of 2.000 by the end of their third term are subject to suspension or dismissal. A similar timeline will apply to students who begin the First Year Engineering Program in the spring term.
- After being suspended, students are not eligible to re-enroll for one calendar year, after which they are required to apply for reinstatement through the Swanson School of Engineering Office of Student Records. Request for reinstatement must be approved by the student's department and Senior Associate Dean for Academic Affairs in order to reenroll. Students returning from academic suspension are reinstated on academic probation and their academic performance will be reviewed after each subsequent term. You can take up to twelve credits elsewhere during your suspension, but they will not be transferrable to the Swanson School.
- Students may only repeat a course twice. (See Repeating Courses, above). Any student who fails to successfully complete a required course after three attempts will be dismissed from the Swanson School even if his or her cumulative GPA is 2.000 or higher.
- Students dismissed from the Swanson School of Engineering who wish to enroll at another school/ college at the University of Pittsburgh are subject to the admission requirements for that school.

Honors Lists

At the end of each term, the academic records of all undergraduate degree students in the Swanson School of Engineering are reviewed to determine eligibility for the Term Honor List and the Dean's Honor List. Students who qualify for both honor lists will appear only on the Dean's Honor List.

Term Honors List

To be eligible for the Term Honor List, a student must

- Earn a GPA of at least 3.250,
- Complete a minimum of 15 credits of academic work for letter grades at the University of Pittsburgh, and
- Complete a minimum of 6 credits of work for letter grades in the term of eligibility.

Dean's Honors List

To be eligible for the Dean's Honor List, a student must

- Earn cumulative and term GPA's of 3.250 or higher,
- Complete a minimum of 30 credits of academic work for letter grades at the University of Pittsburgh, and
- Complete a minimum of 6 credits of work for letter grades in the term of eligibility.

Graduation Requirements

In order to graduate with a BSE, a student must have satisfactorily completed all degree requirements and earned the total number of credits required by the department or program in which the student is enrolled. The student must also have obtained a minimum GPA of 2.000 for (a) all required courses completed at the University of Pittsburgh and (b) all program courses.

The work of the senior year (a minimum of 24 credits) should be completed while in residence at the Swanson School of Engineering. Exceptions will be granted for students to take a limited number of credits needed to complete their degree, or through participation in an approved study abroad program. Such requests must be approved in advance by the appropriate undergraduate coordinator, chair or Associate Dean for Academic Affairs.

(See the Graduation section of this catalog for further information on graduation requirements and procedures.)

Statute of Limitations

All required academic work for the Bachelor of Science in Engineering degree, including courses for which advanced-standing credit has been granted, must be completed within 12 consecutive calendar years. Under unusual circumstances, a student may, with the approval of the department or program chair, request a waiver of this policy. This policy means that part-time students must progress toward the degree at a minimum rate of 12 credits per calendar year.

Academic Integrity

The integrity of the academic process requires fair and impartial evaluation on the part of faculty and honest academic conduct on the part of students. Students are expected to conduct themselves with a high level of responsibility in the fulfillment of their course of study and their conduct in and out of the classroom. Violations of the Academic Integrity Policy can impact a student's grade or status with the University as some serious or subsequent violations could lead to suspension or dismissal. Academic Integrity violations can also affect a student's eligibility for scholarships and holding leadership positions in student organizations. A lack of response by the student will result in a blank grade given in the course until the matter is resolved. Further, a student may not drop or withdraw from a course with a pending academic integrity allegation or resolution. A hold will be placed on the student's account until the AI allegation is resolved or the monitored withdrawal period has ended. It is the corresponding responsibility of faculty to make clear to students those standards by which they will be evaluated and the resources permissible for use by students during their course of study. The educational process is perceived as a joint faculty-student enterprise that will involve professional judgment by faculty and may involve, without penalty, reasoned exception by students to the data or views offered by faculty. Consistent with these considerations (and without limiting their scope and application in their entirety to the academic programs of the University), faculty and students are directed to observe established University of Pittsburgh and Swanson School of Engineering guidelines on academic integrity and the University Code of Conduct. The Swanson School of Engineering and the University of Pittsburgh Guidelines on Academic Integrity are available to faculty and students at: <https://www.engineering.pitt.edu/Academic-Integrity-Guidelines/>. The University's student Code of Conduct is available at: https://www.studentaffairs.pitt.edu/wp-content/uploads/2017/08/Code-of-Conduct_10-1-2020.pdf.

Swanson School of Engineering Faculty

School of Engineering Faculty

Program and Course Offerings

First Year Engineering Program

After successful completion of the First-Year Student Engineering Program, students enter one of the specific engineering major programs below at the sophomore level.

Certificate Programs

Cybersecurity in Emerging Engineering Systems, Undergraduate Certificate
Engineering Data Analytics
Engineering for Humanity Certificate
Engineering Simulation in Design Certificate
Health Systems Engineering Certificate
Innovation, Product Design, and Entrepreneurship Certificate
International Engineering Studies Certificate
Nuclear Engineering Certificate
Supply Chain Management Certificate
Sustainability Certificate

Degree Programs in BS in Engineering

Bioengineering
Chemical Engineering
Civil Engineering
Computer Engineering
Electrical Engineering
Engineering Science
Environmental Engineering
Industrial Engineering
Materials Science and Engineering
Mechanical Engineering

Joint Certificate

Nanoscience and Engineering Undergraduate Certificate

Advances in nanoscience and nanotechnology (the ability to predict, create, and design with nanoscale materials and systems) are expected to reveal new physical phenomena and to enable the creation of highly desirable products and devices, in addition to revolutionary changes in industrial practice. Strength in nanoscience and nanotechnology has been identified as the nation's future competitiveness and prosperity, and strategic plans have been developed to accelerate nanoscience research and development, encourage knowledge transfer to spur economic growth, and expand educational programs and workforce training - all in a socially and environmentally responsible and sustainable manner.

Nanoscience and nanotechnology also has had a large and rapidly growing local impact. The Pittsburgh region is home to a number of corporations, including many smaller start-up companies, with major nanotechnology components to their businesses. The continued success of companies such as PPG, Seagate, Bayer, Alcoa, Plextronics, Westinghouse, Bettis, and II-VI will depend on their ability to recruit local engineering talent with the required background in nanoscience and nanotechnology. The continued development of nanotechnology-based entrepreneurial start-ups will depend in large part on a vibrant pool of young engineers and scientists with appropriate educational experience in nanoscience and nanotechnology.

This joint certificate, housed in both the Swanson School of Engineering (SSOE) and the Dietrich School of Arts and Sciences (Dietrich School) enables BS students from both schools to complement their education by completing a five-course sequence. The certificate is designed to be combined with coursework in any SSOE degree-granting program, or with chemistry and physics in the Dietrich School.

The course requirements for this certificate follow.

Required courses

This course has prerequisites.

- ENGR 0240 - NANOTECHNOLOGY AND NANO-ENGINEERING
- PHYS 1375 - FOUNDATIONS OF NANOSCIENCE
- PHYS 1903 - DIRECTED RESEARCH

Elective courses

Select two courses from the following list.

- CHEM 1410 - PHYSICAL CHEMISTRY 1 or
- CHEM 1420 - PHYSICAL CHEMISTRY 2
- CHEM 1480 - INTERMEDIATE PHYSICAL CHEMISTRY
- CHEM 1600 - SYNTHESIS & CHARACTERIZATION OF POLYMERS
- CHEM 1620 - ATOMS, MOLECULES AND MATERIALS
- ECE 1247 - SEMICONDUCTOR DEVICE THEORY
- ECE 2295 - SPECIAL TOPICS: ELECTRONICS
- IE 1012 - MANUFACTURE OF STRUCTURAL NANOMATERIALS or
- MEMS 1057 - MICRO/NANO MANUFACTURING
- PHYS 0520 - MODERN PHYSICS MEASUREMENTS
- PHYS 1361 - WAVE MOTION AND OPTICS
- PHYS 1370 - INTRODUCTION TO QUANTUM MECHANICS 1
- PHYS 1371 - INTRODUCTION TO QUANTUM MECHANICS 2
- PHYS 1374 - SOLID STATE PHYSICS

Additional information

Non-Dietrich School course credit

Students may apply up to 18 credits of non-Dietrich School coursework to their undergraduate degrees.

Credit overlap

No more than six credits of coursework may overlap between the requirements for this certificate and a major in Physics and Astronomy or in Chemistry.

Grade Requirements

A minimum GPA of 2.0 is required in each course that counts toward the certificate.

Satisfactory/No Credit Option

No course that counts toward this certificate may be taken on the S/NC basis.

For more information

Contact the departmental advisor for the Physics and Astronomy major, Russell Clark (RUC2@Pitt.edu).

Quantum Computing and Quantum Information Certificate

Program Requirements

The BS joint Quantum Computing and Quantum Information Certificate (QCQIC) program will consist of a 15 credit requirement (not including any pre-requisites) that must be combined with a BS degree in any discipline in DSAS, SSOE and SCI.

Five Courses

1 Foundations of Quantum Computing and Quantum Information, the only course required of all students.

2-3 Elective courses that have at least 50% quantum related content in them selected from an approved list (at least 6 credits but up to 9 credits, see below, could include individual research or capstone courses with PQI faculty members under the courses listed for individual research or capstone courses in various departments and credits for these courses may be spread over multiple terms)

3-6 credits of other non-quantum electives from an approved list (see below); The undergraduate joint Quantum Computing and Quantum Information Certificate (QCQIC) program targets the following competency gaps:

- Fundamental understanding of the basics of quantum computing and quantum information
- Knowledge of processes used to create useful applications of the fundamental quantum principles in quantum computing, quantum communication and quantum sensing
- Quantum science and technology as an interdisciplinary science and engineering enterprise the quantum behavior of materials, systems, and devices

Required Course

- PHYS 1470 - FOUNDATIONS OF QUANTUM COMPUTING AND QUANTUM INFORMATION

Quantum Related Electives

- HPS 1612 - PHIL OF 20TH CENTURY PHYSICS
- CHEM 1410 - PHYSICAL CHEMISTRY 1 OR

- CHEM 1480 - INTERMEDIATE PHYSICAL CHEMISTRY
- CHEM 1620 - ATOMS, MOLECULES AND MATERIALS
- CHEM 2120 - DESCRIPTIVE INORGANIC AND ORGANOMETALLIC CHEMISTRY
- PHYS 0330 - PHYSICS AND QUANTUM COMPUTING SEMINAR
- PHYS 0477 - INTRODUCTION TO THERMAL PHYSICS, RELATIVITY AND QUANTUM MECHANICS
- PHYS 0520 - MODERN PHYSICS MEASUREMENTS
- PHYS 1370 - INTRODUCTION TO QUANTUM MECHANICS 1
- PHYS 1371 - INTRODUCTION TO QUANTUM MECHANICS 2
- PHYS 1374 - SOLID STATE PHYSICS
- ECE 1232 - INTRO LASERS & OPTCL ELECTNC
- ECE 1247 - SEMICONDUCTOR DEVICE THEORY
- ECE 1272 - SIMULATION AND DESIGN OF SILICON PHOTONICS
- MEMS 1058 - ELECTROMAGNETIC PROPERTIES OF MATERIALS
- ENGR 1066 - INTRODUCTION TO SOLAR CELLS AND NANOTECHNOLOGY
- CS 1613 - QUANTUM COMPUTATION
- CHEM 1710 - UNDERGRADUATE RESEARCH
- PHYS 1903 - DIRECTED RESEARCH
- ECE 1893 - ECE UNDERGRADUATE RESEARCH PROJECT
- CS 1950 - DIRECTED RESEARCH: CAPSTONE
- CS 1951 - DIRECTED RESEARCH
- INFSCI 1710 - DIRECTED RESEARCH

Quantum Adjacent Electives

- HPS 1653 - INTRO TO PHILOSOPHY OF SCIENCE
- CHEM 1000 - MATHEMATICS FOR CHEMISTRY
- CHEM 1420 - PHYSICAL CHEMISTRY 2
- ENGCMP 0530 - WRITING FOR THE SCIENCES
- PHYS 1341 - THERMODYNAMICS AND STATISTICAL MECHANICS
- PHYS 1351 - INTERMEDIATE ELECTRICITY AND MAGNETISM
- PHYS 1361 - WAVE MOTION AND OPTICS
- ECE 0201 - DIGITAL CIRCUITS AND SYSTEMS
- ECE 0301 - ECE PROBLEM SOLVING WITH C++
- ECE 1250 - NANOTECHNOLOGY & NANO-ENGINEERING
- IE 1081 - OPERATIONS RESEARCH
- IE 1082 - PROBLSTC METH IN OPERATNS RES
- ENGR 1453 - DATA SCIENCE: STATISTICAL LEARNING, MODELING & PREDICTION
- INFSCI 1520 - INFORMATION VISUALIZATION
- INFSCI 1530 - DATA MINING
- INFSCI 1470 - IMMERSIVE MEDIA TECHNOLOGIES
- INFSCI 1630 - COMMUNICATION NETWORKS
- INFSCI 1640 - WIRELESS NETWORKS
- INFSCI 0310 - COMPUTATION IN INFORMATION SCIENCE
- INFSCI 1600 - SECURITY AND PRIVACY
- INFSCI 0610 - NETWORKS AND INFORMATION
- CMPINF 0401 - INTERMEDIATE PROGRAMMING
- CS 0441 - DISCRETE STRUCTURES FOR CS

- CS 0445 - ALGORITHMS AND DATA STRUCTURES 1
- CS 1501 - ALGORITHMS AND DATA STRUCTURES 2
- CS 1502 - FORMAL METHODS IN COMPUTER SCIENCE
- CS 1510 - ALGORITHM DESIGN
- CS 1656 - INTRODUCTION TO DATA SCIENCE
- CS 1675 - INTRODUCTION TO MACHINE LEARNING
- CS 1678 - INTRODUCTION TO DEEP LEARNING

Additional elective courses for the QCQIC will be added to the program as they are developed and become available in the DSAS, SSOE and SCI (new courses must be approved by the Advisory Committee). Some courses that apply towards the certificate also count as electives in the degree tracks of Chemistry and Physics and Astronomy but no more than 9 credits can be earned through those courses.

Total Credits: 15

Department of Bioengineering

Bioengineering is an ABET-accredited undergraduate degree program that combines education in engineering and biological sciences, forming a unique experience to prepare students for today's technical challenges in medicine and biology. Our focus is on developing engineers who can apply an analytic approach to solving problems in living systems. Thus, we provide students with a comprehensive education in both engineering and the life sciences.

Research Areas

Undergraduates are required to participate in research with a faculty mentor. In addition to our primary faculty, our strong connections with the Schools of Medicine, Dental Medicine, and Health and Rehabilitation Sciences provide multiple opportunities for students to engage in research in such areas as:

Cellular Engineering

Biomaterials

Tissue Engineering

Movement and Balance

Biotribology

Artificial Organs

Biorheology

Radio Frequency Imaging

Neural Engineering

Clinical Engineering

Our unique laboratory, clinical, and research experiences beyond the classroom are opportunities that few, if any, universities can match.

What Can you Do with a Bioengineering Degree

Graduates of our Bioengineering Program are prepared to obtain employment in industry (about 50%), seek further graduate education (M.S./Ph.D., about 25%), and pursue a career as a health science practitioner (M.D./D.O./P.A./M.P.H., about 25%). Those going to industry have many roles, such as: design of instruments and devices used in healthcare; development of diagnostic tools; assess technology for regulatory compliance with FDA requirements; training clinicians in the use of biomedical technology; research new approaches to providing healthcare; prepare and document procedures and reports; and make recommendation to senior management. Advanced graduate education training can lead to more responsible roles in industry or academic positions in teaching, research, and development. Medical practitioners draw upon skills developed as a bioengineer to help diagnose medical problems and identify new approaches to medical technology.

Curriculum and Electives

The Bioengineering Program undergraduate curriculum requires 29 courses that provide a broad background in mathematics, physics, chemistry, biology, and bioengineering, plus 13 electives. Five of the electives are drawn from a large selection in the Humanities and Social Sciences. The remaining eight electives are selected to meet requirements of one of four tracks (Bioimaging and Signals, Biomechanics, Cellular Engineering, Medical Product Engineering) that provide in-depth experience in an area of the student's choice. The curriculum is designed to provide the breadth and depth required for ABET accreditation and to be a competitive engineer in the global marketplace. The curriculum has also been designed to allow students interested in "pre-med" to satisfy medical school requirements within the requirements of any track.

Cooperative Education and International Experience

The Department of Bioengineering encourages all students to enhance the value of their degree through participation in the Cooperative Education (co-op) and International Studies programs offered by the Swanson School of Engineering. Co-op provides students with semester rotations between college and full-time work assignments with corporate partners that relate directly to bioengineering. An international experience offers a global perspective and cross-cultural awareness of engineering practice that enhances post-graduate opportunities.

Major

Bioengineering

Bioengineering

The undergraduate program in Bioengineering combines education in engineering and biological sciences, forming a unique experience to prepare students for today's technical challenges in medicine and biology. Our focus is on developing engineers who can apply an analytic approach to solving problems in living systems. Thus, we provide students with a comprehensive education in both engineering and the life sciences. Students enrolled in the program will be prepared for continued graduate studies or a career in a bioengineering-related industry. The program also provides a solid undergraduate education for further studies in a school of medicine. The Bioengineering Program is accredited by the Engineering Accreditation Commission of ABET, <http://www.abet.org>, under the General Criteria and the Bioengineering, Biomedical and Similarly Named Engineering Programs Program Criteria.

The mission of the Department of Bioengineering in the Swanson School of Engineering at the University of Pittsburgh is to:

- provide a high-quality engineering education to both undergraduate and graduate students; and
- be a leader in research specific areas encompassed by bioengineering.

Upon completion of the Undergraduate Bioengineering Program, and/or within a few years of graduation, our alumni will be able to:

- Gain employment in professional careers (i.e., an industrial career in bioengineering or related field); and/or
- Enroll in graduate studies (graduate school: MS and PhD programs related to bioengineering, or professional school: e.g., Medical, Dental, Health-Related).

Bioengineering Undergraduate Curriculum

Sophomore Year

Third Term

- BIOENG 1085 - INTRO TO BIOENGINEERING: SEMINAR
- BIOENG 1070 - INTRODUCTORY CELL BIOLOGY 1
- BIOSC 0057 - FOUNDATIONS OF BIOLOGY RESEARCH LABORATORY 1
- ENGR 0135 - STATICS & MECHC OF MATERIALS 1
- MATH 0240 - ANALYTIC GEOMETRY AND CALCULUS 3
- MATH 0290 - DIFFERENTIAL EQUATIONS
- Track Elective

Credits: 17

Fourth Term

- BIOENG 1085 - INTRO TO BIOENGINEERING: SEMINAR
- BIOENG 1071 - INTRODUCTION TO CELL BIOLOGY 2
- BIOENG 1210 - BIOENGINEERING THERMODYNAMICS
- BIOENG 1310 - LINEAR SYSTEMS AND ELECTRONICS 1
- BIOENG 1630 - BIOMECHANICS 1-MECHANICAL PRINCIPLES BIOLOGICAL SYSTEMS
- BIOENG 1000 - STATISTICS FOR BIOENGINEERING

Credits: 16

Junior Year

Fifth Term

- BIOENG 1085 - INTRO TO BIOENGINEERING: SEMINAR
- BIOENG 1002 - INTRAMURAL INTERNSHIP
- BIOENG 1220 - BIOTRANSPORT PHENOMENA
- BIOENG 1320 - BIOLOGICAL SIGNALS AND SYSTEMS
- BIOSC 1250 - HUMAN PHYSIOLOGY
- MATH 0280 - INTRO TO MATRICES & LINEAR ALG
- BIOENG 1241 - SOCIETAL, POLITICAL AND ETHICAL ISSUES IN BIOENGINEERING

Credits: 18

Sixth Term

- BIOENG 1085 - INTRO TO BIOENGINEERING: SEMINAR
- BIOENG 1150 - BIOENG METHODS AND APPLICATIONS
- Biosignals Application or Track Elective
- Imaging Elective or Track Elective
- Track Elective
- Humanities/Social Science Elective

Credits: 16

Senior Year

Seventh Term

- BIOENG 1085 - INTRO TO BIOENGINEERING: SEMINAR
- BIOENG 1160 - BIOENGINEERING DESIGN 1
- Biosignals Application or Track Elective
- Imaging Elective or Track Elective
- Advanced Engineering/Science/Technical Elective
- Humanities/Social Science Elective

Credits: 15

Eighth Term

- BIOENG 1085 - INTRO TO BIOENGINEERING: SEMINAR
- BIOENG 1161 - BIOENGINEERING DESIGN 2
- Biosignals Application or Track Elective
- Imaging Elective or Track Elective
- Advanced Engineering/Science/Technical Elective
- Humanities/Social Science Elective

Credits: 15

Minor

Bioengineering Minor

Undergraduates in other departments can obtain a Minor in Bioengineering by satisfactorily completing (grade of C or better) one BioE seminar and five courses for a total of 16 credits (effective Fall 2022, 15 credits for Swanson School of Engineering students). Students interested in a Bioengineering Minor are required to submit a completed BioE Minor Checklist to the Bioengineering Undergraduate Administrator for course approvals prior to enrolling in BIOENG courses in order to ensure that the requirements for the minor are fulfilled. Approval to use substitute courses to meet minor requirements must be obtained in advance from the Bioengineering Undergraduate Program Director.

Requirements for the Bioengineering Minor are:

Bioengineering Seminar - 0 Credits

- BIOENG 1086 - BIOENGINEERING SEM FOR MINORS (Register for and attend a minimum of 6 seminar presentations)

Basic Life Science Course - 3 Credits

Acceptable course options include (others may be used with permission)

- BIOENG 1070 - INTRODUCTORY CELL BIOLOGY 1
- BIOENG 1071 - INTRODUCTION TO CELL BIOLOGY 2
- BIOSC 0150 - FOUNDATIONS OF BIOLOGY 1
- BIOSC 0160 - FOUNDATIONS OF BIOLOGY 2
- BIOSC 1000 - BIOCHEMISTRY
- BIOSC 1810 - MACROMOLECULAR STRUCTURE AND FUNCTION
- CHEM 1810 - CHEMICAL BIOLOGY
- CHEM 1880 - CHEMICAL BIOLOGY FOR ENGINEERS
- BIOSC 1250 - HUMAN PHYSIOLOGY

Course in Statistics - 4 Credits

Note: Students who have a major in the Swanson School of Engineering seeking a minor should take ENGR 0021 while students who do not have a major in the Swanson School of Engineering should take STAT 1000.

- ENGR 0021 - PROBABILITY AND STATISTICS FOR ENGINEERS
(SSoE Students)
- STAT 1000 - APPLIED STATISTICAL METHODS
(non-SSoE Students)

Three BIOENG Elective Courses - 9 Credits

Note: Students must meet prerequisites (or equivalent) to enroll in BIOENG courses.

- BIOENG 1002 - INTRAMURAL INTERNSHIP
- BIOENG 1005 - RADIOFREQUENCY MEDICAL DEVICES
- BIOENG 1024 - MEDICAL PRODUCT DESIGN
- BIOENG 1050 - ARTIFICIAL ORGANS
- BIOENG 1051 - ARTIFICIAL ORGANS 2
- BIOENG 1052 - ARTIFICIAL ORGANS 3
- BIOENG 1150 - BIOENG METHODS AND APPLICATIONS
- BIOENG 1160 - BIOENGINEERING DESIGN 1
- BIOENG 1161 - BIOENGINEERING DESIGN 2
- BIOENG 1210 - BIOENGINEERING THERMODYNAMICS
- BIOENG 1218 - EMERGING BIOMEDICAL TECHNOLOGIES
- BIOENG 1220 - BIOTRANSPORT PHENOMENA
- BIOENG 1255 - DYNAMIC SYSTEMS: PHYSIOLOGICAL PERSPECTIVE
- BIOENG 1310 - LINEAR SYSTEMS AND ELECTRONICS 1

- BIOENG 1320 - BIOLOGICAL SIGNALS AND SYSTEMS
- BIOENG 1330 - BIOMEDICAL IMAGING
- BIOENG 1340 - INTRODUCTION TO MEDICAL IMAGING AND IMAGE ANALYSIS
- BIOENG 1351 - BIOSIGNAL ACQUISITION AND ANALYSIS
- BIOENG 1355 - MEDICAL PRODUCT REGULATION AND REIMBURSEMENT
- BIOENG 1370 - COMPUTATIONAL SIMULATION IN MEDICAL DEVICE DESIGN
- BIOENG 1383 - BIOMEDICAL OPTICAL MICROSCOPY
- BIOENG 1533 - CONTROLLED DRUG DELIVERY
- BIOENG 1580 - BIOMEDICAL APPLICATION FOR SIGNAL PROCESSING
- BIOENG 1586 - QUANTITATIVE SYSTEMS NEUROSCIENCE
- BIOENG 1615 - INTRODUCTION TO NEURAL ENGINEERING
- BIOENG 1620 - INTRODUCTION TO TISSUE ENGINEERING AND REGENERATIVE MEDICINE
- BIOENG 1630 - BIOMECHANICS 1-MECHANICAL PRINCIPLES BIOLOGICAL SYSTEMS
- BIOENG 1631 - BIOMECHANICS 2: INTRODUCTION TO BIODYNAMICS AND BIOSOLID MECHANICS
- BIOENG 1632 - BIOMECHANICS 3: BIODYNAMICS OF MOVEMENT
- BIOENG 1633 - BIOMECHANICS 4 - BIOMECHANICS OF ORGANS, TISSUES, AND CELLS
- BIOENG 1680 - BIOMEDICAL APPLICATIONS OF CONTROL
- BIOENG 1810 - BIOMATERIALS AND BIOCOMPATIBILITY

Additional Information

Note: BIOENG 1070 - INTRODUCTORY CELL BIOLOGY 1 and BIOENG 1071 - INTRODUCTION TO CELL BIOLOGY 2 are considered Basic Life Science Courses. Neither can be used to satisfy a BIOENG elective course requirement.

Note: BIOENG 1241 - SOCIETAL, POLITICAL AND ETHICAL ISSUES IN BIOENGINEERING is a humanities/social science course that is restricted to Department of Bioengineering students only. The course cannot be used to satisfy a BIOENG elective course requirement.

Note: BIOENG 1095 - SPECIAL PROJECTS cannot be used to satisfy a BIOENG elective course requirement

Department of Chemical and Petroleum Engineering

Chemical engineering is concerned with processes in which matter and energy undergo change. Despite the historically-inspired name, the material/energy transformations studied by chemical engineers include not only chemical, but also physical and biological changes. The range of concerns, therefore, is so broad that the chemical engineering graduate is prepared for a variety of interesting and challenging employment opportunities. The chemical engineer with his/her strong background in chemical, physical, and biological sciences is found in management, design, operations, and research. The chemical engineer is employed in almost all industries including food, polymers, chemicals, pharmaceuticals, petroleum, medical, materials, and electronics. Since solutions to energy, environmental, medical, and food problems (to name but a few) must surely involve material and/or energy transformations, there will be continued demands for chemical engineers in the future. The chemical engineering program is accredited by the Engineering Accreditation Commission of ABET, <http://www.abet.org>

The major objectives of the chemical engineering program are that

- Graduates will gain employment in professional careers (often in positions of technical expertise in chemical engineering, but also including professions such as medicine, law, business, finance, non-profit organizations, government, education, etc.) and/or enroll in graduate studies.
- Graduates will be committed to lifelong learning throughout their careers.
- Graduates will assume positions of leadership.

- Graduates will recognize the importance of utilizing their knowledge, skills, and initiative for the benefit of society and demonstrate that understanding through their interactions within their community, in government, or in society as a whole.

The chemical engineering faculty have strong interests in transport phenomena, process dynamics, biotechnology, biomedical application, nanotechnology, kinetics, catalysis, thermodynamics, polymers, and energy supply and conversion. Petroleum engineering faculty interests are in fluid displacement in porous media and enhanced oil recovery and reservoir modeling. Courses and research opportunities are available in all of these areas for undergraduate students of demonstrated ability. For more information on these programs, please visit <http://www.engineering.pitt.edu/chemical>

Major

Chemical Engineering

The following areas of concentration are available for Chemical Engineering students:

Petroleum Concentration

Polymers Concentration

Chemical Engineering Undergraduate Curriculum

Undergraduate chemical engineering courses cover thermodynamics; mass and energy balances; energy, mass, and momentum transfer; unit operations; process dynamics and control; process design; plant and product design; professional practice; and chemical reaction engineering. A cumulative QPA of 2.0 must be achieved in all CHE courses for the student to earn a degree in Chemical Engineering and a minimum grade of C- in CHE 0100, CHE 0200, CHE 0300 and CHE 0400.

In addition, the curriculum provides a sequence of technical electives that makes possible specialization in some of the most important areas in today's society. Among these are the biochemical, petroleum, and polymers areas of concentration. Students may select any combination of technical electives. The appropriate selection of electives, however, can lead to a minor or area of concentration. (See Minors in Engineering.)

The Chemical Engineering Program is accredited by the Engineering Accreditation Commission of ABET, <http://www.abet.org>, under the General Criteria and the Chemical, Biochemical, Biomolecular and Similarly Named Engineering Programs Program Criteria.

Requirements

Third Term

- CHEM 0310 - ORGANIC CHEMISTRY 1
- ChE Composition Requirement - 3 credits
- MATH 0240 - ANALYTIC GEOMETRY AND CALCULUS 3
- CHE 0100 - FOUNDATIONS OF CHEMICAL ENGR
- CHE 0101 - FOUNDATIONS OF CHE LABORATORY
- CHE 1085 - DEPARTMENTAL SEMINAR

Credits: 17

Fourth Term

- CHEM 0320 - ORGANIC CHEMISTRY 2
- MATH 0290 - DIFFERENTIAL EQUATIONS or
- CHE 1290 - DIFFERENTIAL EQUATIONS IN CHEMICAL ENGINEERING or
- MATH 1270 - ORDINARY DIFFERENTIAL EQUATIONS 1
- CHE 0200 - CHEMICAL ENGINEERING THERMODYNAMICS
- CHE 0201 - CHE THERMODYNAMICS LABORATORY
- CHE 0214 - INTRODUCTION TO CHEMICAL PRODUCT DESIGN
- CHE 1085 - DEPARTMENTAL SEMINAR

Credits: 16

Fifth Term

- ENGR 0021 - PROBABILITY AND STATISTICS FOR ENGINEERS
- Humanities/Social Science - 3 Credits
- CHE 0300 - TRANSPORT PHENOMENA
- CHE 0301 - TRANSPORT PHENOMENA LABORATORY
- CHE 0314 - TAKING PRODUCTS TO MARKET: THE NEXT STEP IN CHEMICAL PRODUCT DESIGN
- CHE 1085 - DEPARTMENTAL SEMINAR

Credits: 16

Sixth Term

- CHEM 1480 - INTERMEDIATE PHYSICAL CHEMISTRY
- CHE 0400 - REACTIVE PROCESS ENGINEERING
- CHE 0401 - REACTIVE PROCESS ENGINEERING LABORATORY
- Humanities/Social Science - 3 Credits
- CHE 1085 - DEPARTMENTAL SEMINAR

Engineering Elective - 3 Credits

Suggestions:

- ENGR 0022 - MATERIALS STRUCTURE AND PROPERTIES
- ENGR 0135 - STATICS & MECHANICS OF MATERIALS 1
- ENGR 1700 - INTRODUCTION TO NUCLEAR ENGINEERING
- ENGR 1701 - FUNDAMENTALS OF NUCLEAR REACTORS
- ENGR 1702 - NUCLEAR PLANT TECHNOLOGY
- ENGR 1869 - INTRO ELEC ENGRG FOR NON EE'S

Credits: 15

Seventh Term

- CHE 0500 - SYSTEMS ENGINEERING 1: DYNAMICS AND MODELING
- CHE 0501 - SYSTEMS ENGINEERING 1: DYNAMICS AND MODELING LABORATORY
- Humanities/Social Science - 3 Credits

- CHEM 1810 - CHEMICAL BIOLOGY or
- CHEM 1880 - CHEMICAL BIOLOGY FOR ENGINEERS or
- BIOSC 1000 - BIOCHEMISTRY

- CHE 1085 - DEPARTMENTAL SEMINAR

Advanced Science - 3 Credits

Suggestions:

- CHEM 0250 - INTRODUCTION TO ANALYTICAL CHEMISTRY
- CHEM 1130 - INORGANIC CHEMISTRY
- CHEM 1600 - SYNTHESIS & CHARACTERIZATION POLYMERS
- BIOSC 1500 - CELL BIOLOGY
- BIOSC 1940 - MOLECULAR BIOLOGY

Advanced Labs - Total of 2 Credits

Suggestions:

- CHEM 0260 - INTRODUCTION TO ANALYTICAL CHEMISTRY LAB
- CHEM 1430 - PHYSICAL CHEMISTRY LABORATORY 1
- CHEM 1605 - SYNTH & CHARACTERIZATION POLYMERS LAB
- CHEM 0345 - ORGANIC LABORATORY (This is a 2 credit course)

Credits: 17

Eighth Term

- CHE 0613 - SYSTEM ENGINEERING 2: PROCESS DESIGN
- CHE 0602 - CHEMICAL ENGINEERING SAFETY AND ETHICS
- ChE or PETE Elective - 3 Credits
- Humanities/Social Science - 3 Credits
- Professional Elective - 3 Credits

Credits: 16

Total Credits Required: 131

Minor

Chemical Engineering Minor

This minor is available to all students (except Chemical Engineering undergraduates). A cumulative QPA of 2.0 must be achieved for these courses in order for the student to be awarded the Minor in Chemical Engineering. The student must receive a passing grade (C- or higher) in all courses to receive the minor. These courses would have to be completed or taken over and passed prior to the student receiving the minor. Prerequisites include General Chemistry 1 and 2 and MATH 0220 and MATH 0230.

Requirements

For students outside the Swanson School of Engineering, or for Engineering majors that are not required to take a Thermodynamics and Transport Phenomena course in their major, the following three courses and their recitations and labs are required (a total of 21 credits):

- CHE 0100 - FOUNDATIONS OF CHEMICAL ENGR
- CHE 0101 - FOUNDATIONS OF CHE LABORATORY
- CHE 0200 - CHEMICAL ENGINEERING THERMODYNAMICS
- CHE 0201 - CHE THERMODYNAMICS LABORATORY
- CHE 0300 - TRANSPORT PHENOMENA
- CHE 0301 - TRANSPORT PHENOMENA LABORATORY

For students with the Swanson School of Engineering whose major does require that they take both a Thermodynamics and Transport Phenomena course (i.e., BioE and ME majors), the following two courses and their recitations and labs are required (a total of 13 credits).

- CHE 0100
- CHE 0101
- CHE 0400
- CHE 0401

Note, both the Transport Phenomena and Thermodynamics courses must be completed prior to enrolling in CHE 0400.

Petroleum Engineering Minor

This minor is available to all undergraduate engineers.

The successful completion of four PETE courses is required for the minor. A cumulative QPA of 2.0 must be achieved for these courses in order for the student to be awarded the Minor in Petroleum Engineering. The student must receive a passing grade (D- or higher) in all courses to receive the minor. These courses would have to be completed or taken over and passed prior to the student receiving the minor. Prerequisites: MATH 0290 or CHE 1290 or equivalent and CHE 0100 or approval of PETE program director.

Requirements:

Choose four courses from the following list:

- PETE 1160 - PETROLEUM RESERVOIR ENGINEERING
- PETE 1201 - RECOVERY OF OIL BY WATERFLOODING
- PETE 1204 - ENHANCED OIL RECOVERY PROCESSES
- PETE 1205 - PETROLEUM PRODUCTION ENGINEERING
- PETE 1207 - PETROLEUM AND NATURAL GAS PROCESSING
- PETE 1208 - PETROLEUM DRILLING AND WELL COMPLETION

- PETE 1097 - SPECIAL PROJECTS
- PETE 1209 - HYDRAULIC FRACTURING MECHANICS AND APPLICATIONS (Cross-listed as CEE 1809)

** PETE 1097 projects can be conducted with a professor doing petroleum engineering related studies (Baled, Enick, Morsi) and may be replaced by two additional 3 credit PETE courses or a combination of PETE 1097 and a single 3 credit PETE course.

Polymer Engineering Minor

This minor is available to all undergraduate engineering students. The successful completion of six of the following courses is required for the minor. A cumulative QPA of 2.0 must be achieved for these courses in order for the student to be awarded the Minor in Polymer Engineering. The student must receive a passing grade (D- or higher) in all courses to receive the minor. These courses would have to be completed or taken over and passed prior to the student receiving the minor. Prerequisites include General Chemistry 1 and 2, and MATH 0220 and 0230.

Core Courses

- CHE 1754 - PRINCIPLES OF POLYMER ENGINEERING
- CHEM 1600 - SYNTHESIS & CHARACTERIZATION OF POLYMERS with lab
- CHEM 1605 - SYNTHESIS & CHARACTERIZATION OF POLYMERS LAB

Required Chemistry Courses

- CHEM 0310 - ORGANIC CHEMISTRY 1
- CHEM 0320 - ORGANIC CHEMISTRY 2

Two Research Projects with Polymer Content (For a Total of 6 Credits)

- CHE 1097 - SPECIAL PROJECT
- CHEM 1710 - UNDERGRADUATE RESEARCH

Students can take CHE 1097 or CHEM 1710 or a combination of both, totaling 6 credits.

Department of Civil and Environmental Engineering

The University of Pittsburgh is proud of its history and tradition in civil and environmental engineering education, reinforced by a faculty who are dedicated to their students. The curriculum prepares students to tackle today's most eminent engineering, environmental and societal challenges.

The department offers a Bachelor of Science in Engineering degree that may be obtained by majoring in civil engineering or environmental engineering. The civil engineering major has been continuously accredited by ABET since its inception in 1936. The environmental engineering major was established in 2015 in response to strong demand from students, industry and government agencies and has been accredited by ABET since the Fall of 2017. The Department also offers minors in civil engineering and environmental engineering to students majoring in other disciplines.

Civil and environmental engineers are concerned with safeguarding life, health, and property while promoting the general welfare of society. They are the designers of the public and private works that affect large segments of the population. However, because problems of expanding population and increasing human needs that confront our civilization, the responsibility of civil and environmental engineers extends beyond mere physical structures into the

social, political, and economic welfare of the United States and other countries. In brief, the work of the civil and environmental engineer has a significant impact on the quality of life in all areas of modern society.

Major

Civil Engineering

The following areas of concentration are available for Civil Engineering students:

Construction Management

Environmental Engineering

Geotechnical Engineering

Structural Engineering

Transportation Engineering

Water Resources Engineering

The civil engineer may focus in environmental control and in the development or redevelopment of a geographic area through overall planning, as well as in the design, construction, and operation of structures and facilities for public and private use. Included in the broad field of civil engineering are the following: buildings, bridges, and industrial installations; soil mechanics and foundations; transportation, including highways, traffic, airports, and harbors; hydraulic engineering, including irrigation; water resources, including power plants and dams; water supply; waste disposal; air pollution; hazardous and solid wastes; and environmental sanitation. Modern-day requirements have necessitated involvement in the medical and dental fields, oceanography, polar exploration, energy resources, and the space effort.

The curriculum focuses on the electives available for designing individualized programs suited to the student's career goals. Emphasis is placed on societal needs and ways of meeting those needs. Thus, graduates are prepared to begin work in any of the several branches of civil engineering or to continue their education at the graduate level.

The Civil Engineering Program is accredited by the Engineering Accreditation Commission of ABET, <http://www.abet.org>, under the General Criteria and the Civil and Similarly Named Engineering Programs Program Criteria.

Civil Engineering Undergraduate Curriculum

Third Term

- MATH 0240 - ANALYTIC GEOMETRY AND CALCULUS 3
- ENGR 0131 - STATICS FOR CIVIL AND ENVIRONMENTAL ENGINEERS
- IE 1040 - ENGINEERING ECONOMIC ANALYSIS
- CEE 1503 - INTRO TO ENVIRONMENTAL ENGRNG
- Science Elective - 3 Credits
- CEE 1085 - DEPARTMENTAL SEMINAR

Credits: 16

Fourth Term

- MATH 0290 - DIFFERENTIAL EQUATIONS
- ENGR 0021 - PROBABILITY AND STATISTICS FOR ENGINEERS
- ENGR 0141 - MECHANICS OF MATERIALS CIVIL AND ENVIRONMENTAL ENGINEERS
- CEE 0109 - COMPUTER METH IN CIVIL ENGRG 1
- CEE 1105 - MATERIALS OF CONSTRUCTION
- CEE 1085 - DEPARTMENTAL SEMINAR

Credits: 15

Fifth Term

- CEE 1330 - INTRODUCTION TO STRUCTURAL ANALYSIS
- CEE 1402 - FLUID MECHANICS
- CEE 1811 - PRINCIPLES OF SOIL MECHANICS
- Social Science Elective - 3 Credits
- CEE 1703 - TRANSPORTATION ENGINEERING
- CEE 1085 - DEPARTMENTAL SEMINAR
- CEE 1101 - DYNAMICS AND STABILITY

Credits: 18

Sixth Term

- CEE 1200 - CONSTRUCTION MANAGEMENT
- CEE 1609 - LIFE CYCLE ASSESSMENT METHODS AND TOOLS or
- CEE 1610 - ENGINEERING AND SUSTAINABLE DEVELOPMENT or
- CEE 1618 - DESIGN FOR THE ENVIRONMENT
- CEE 1412 - INTRODUCTION TO WATER RESOURCES ENGINEERING
- Social Science Elective - 3 Credits
- CEE Design Elective #1 - 3 Credits*
- CEE 1085 - DEPARTMENTAL SEMINAR

Credits: 15

Seventh Term

- CEE-Design Elective #2 - 3 Credits*
- CEE Elective - 3 Credits*
- CEE Elective - 3 Credits*
- Engineering Elective - 3 Credits
- Humanities/Social Science Elective - 3 Credits

- CEE 1085 - DEPARTMENTAL SEMINAR

Credits: 15

Eighth Term

- Humanities/Social Science Elective - 3 Credits
- CEE 1233 - CONSTRUCTION DESIGN PROJECT or
- CEE 1333 - STRUCTURAL DESIGN PROJECT or
- CEE 1433 - WATER RESOURCES DESIGN PROJECT or
- CEE 1533 - ENVRL ENGR DESIGN PROJECT or
- CEE 1733 - TRANSPORTATION DESIGN PROJECT or
- CEE 1833 - GEOTECHNICAL DESIGN PROJECT
- CEE-Elective - 3 Credits**
- CEE-Elective - 3 Credits**
- CEE-Elective - 3 Credits**
- CEE 1085 - DEPARTMENTAL SEMINAR

Credits: 15

Note:

*Design Electives are: (CEE 1335), (CEE 1410 or CEE 1401), (CEE 1505, CEE 1513 or CEE 1515), (CEE 1714 , CEE 1715, CEE 1717, CEE 1718, CEE 1821, or CEE 2814), (CEE 1700 or CEE 1730). One course from two of the five groups is required.

**Any non-required CEE undergraduate courses, 2000 level CEE graduate courses, and any ENGR course offered by the CEE Department are suitable for CEE Electives.

Minimum Grade Requirements

ENGR 0131 , ENGR 0141, CEE 1330, CEE 1402, CEE 1503, CEE 1811, and all design electives must be passed with a grade of "C" or higher.

Environmental Engineering

Environmental engineers are concerned with safeguarding life, health, and the environment while promoting society's general welfare. They are the designers of the public and private works that affect all segments of the population. The responsibility of the environmental engineer extends beyond mere physical structures into the social, political, and economic welfare of this and other countries. In brief, the work of the environmental engineer has a significant impact on the quality of life in all areas of modern society.

Environmental engineers deal in environmental control and in the development or redevelopment of a geographic area through overall planning, as well as in the design, construction, and operation of structures and facilities for public and private use (infrastructure). The field includes water supply systems, waste disposal, air and water pollution, and environmental remediation. The environmental engineering program at the University of Pittsburgh awarded the first B.S. degree in 2017.

The program begins with studies in the humanities, social sciences, physical sciences, and mathematics, and proceeds to the fundamental aspects of environmental engineering. The curriculum focuses on the electives available for designing individualized programs suited to the student's career goals. Emphasis is placed on societal and environmental needs as well as ways of meeting those needs. Thus, the graduate is prepared to begin work in any of the several branches of environmental engineering or to continue his or her education at the graduate level.

The Environmental Engineering Program is accredited by the Engineering Accreditation Commission of ABET, <http://www.abet.org>, under the General Criteria and the Environmental Engineering and Similarly Named Engineering Programs Program Criteria.

Environmental Engineering Undergraduate Curriculum

The environmental engineering major is designed for the students who enter the program at the end of their freshman year. Qualified transfer students (3.000 GPA) are accepted subject to space available. In addition, summer programs are available primarily to assist students who are not taking the structured curriculum on schedule or students participating in the cooperative study program. Students are expected to complete all prerequisite courses before advancing to the next term.

Third Term

- MATH 0240 - ANALYTIC GEOMETRY AND CALCULUS 3
- ENGR 0131 - STATICS FOR CIVIL AND ENVIRONMENTAL ENGINEERS
- IE 1040 - ENGINEERING ECONOMIC ANALYSIS
- CEE 1503 - INTRO TO ENVIRONMENTAL ENGRNG
- Earth Science Elective - 3 credits
- CEE 1085 - DEPARTMENTAL SEMINAR

Total Credits: 16

Fourth Term

- MATH 0290 - DIFFERENTIAL EQUATIONS
- ENGR 0021 - PROBABILITY AND STATISTICS FOR ENGINEERS

- CEE 1504 - CHEMISTRY IN ENVIRONMENTAL ENGINEERING or
- CHEM 0310 - ORGANIC CHEMISTRY 1

- ENGR 0141 - MECHANICS OF MATERIALS CIVIL AND ENVIRONMENTAL ENGINEERS

- CEE 0109 - COMPUTER METH IN CIVIL ENGRG 1 or
- MATH 0280 - INTRO TO MATRICES & LINEAR ALG or
- GEOL 1006 - ENVIRONMENTAL MODELING

- CEE 1085 - DEPARTMENTAL SEMINAR

Total Credits: 15

Fifth Term

- BIOSC 0150 - FOUNDATIONS OF BIOLOGY 1
- CEE 1402 - FLUID MECHANICS
- CEE 1811 - PRINCIPLES OF SOIL MECHANICS
- CEE 1203 - CONSTRUCT PROFSSN DEVELOPMENT
- Social Science Elective - 3 credits
- Social Science Elective - 3 credits
- CEE 1085 - DEPARTMENTAL SEMINAR

Total Credits: 18

Sixth Term

- CEE 1520 - MATERIAL AND ENERGY BALANCES IN ENVIRONMENTAL ENGINEERING
- CEE 1609 - LIFE CYCLE ASSESSMENT METHODS AND TOOLS or
- CEE 1610 - ENGINEERING AND SUSTAINABLE DEVELOPMENT or
- CEE 1618 - DESIGN FOR THE ENVIRONMENT
- CEE 1412 - INTRODUCTION TO WATER RESOURCES ENGINEERING
- CEE 1513 - ENVIRONMENTAL ENGRNG PROCESSES
- CEE 1523 - ENVIRONMENTAL ENGINEERING LAB
- CEE 1085 - DEPARTMENTAL SEMINAR

Total Credits: 15

Seventh Term

- CEE 1505 - WATER TREATMENT AND DISTRIBUTION SYSTEM DESIGN or
- CEE 1515 - WASTEWATER COLLECTION AND TREATMENT PLANT DESIGN
- CEE 1522 - FATE AND TRANSPORT IN ENVIRONMENTAL ENGINEERING
- Environmental Program Elective - 3 credits
- Environmental Program Elective - 3 credits
- Humanities/Social Science Elective - 3 credits
- CEE 1085 - DEPARTMENTAL SEMINAR

Total Credits: 15

Eighth Term

- Humanities/Social Science Elective - 3 credits
- CEE 1533 - ENVRL ENGR DESIGN PROJECT
- Environmental Program Elective - 3 credits
- CEE 1401 - OPEN CHANNEL HYDRAULICS or
- CEE 1410 - HYDROLOGIC ANALYSIS AND DESIGN
- Environmental Program Elective - 3 credits

- CEE 1085 - DEPARTMENTAL SEMINAR

Total Credits: 15

Minimum Grade Requirements

- ENGR 0131 and ENGR 0141 must be passed with a grade of "C" or higher.
- CEE 1503, CEE 1504, CEE 1505/CEE 1515 , CEE 1513, CEE 1520, CEE 1522 and CEE 1523 must be passed with a grade of "C" or higher.

Minor

Architecture-Design Minor

The Architecture-Design minor consists of 18 credits, distributed as follows.

Requirements for the minor

The minor in Architecture - Design provides an option for students majoring in fields such as Civil Engineering, Environmental Studies, History, Studio Arts, Urban Studies and for whom course work in architectural design and history will provide additional breadth in their studies of the built environment. The minor requires that students complete 18 credits, 12 of which are studio-based design courses and six of which will provide historical and theoretical background for thinking about architecture and the built environment.

Foundational course in architecture

- ARC 0110 - APPROACHES TO THE BUILT ENVIRONMENT

Two courses in architectural design

Students must earn a letter grade of C or higher in ARC 0201 ARC 0201 - FOUNDATIONS STUDIO 1 to enroll in ARC 1201 ARC 1201 - ARCHITECTURE DESIGN STUDIO 1.

- ARC 0201 - FOUNDATIONS STUDIO 1
- ARC 1201 - ARCHITECTURE DESIGN STUDIO 1

One course in architectural history

- ARC 0153 - MEDIEVAL ARCHITECTURE
- HAA 0460 - ART IN PUBLIC: INCLUSION , IDENTITY, AND ACTIVISM
- ARC 0116 - GLOBAL ARCHITECTURE 2: MODERN
- HAA 0900 - SPECIAL TOPICS-ARCHITECTURAL STUDIES
- ARC 1152 - ROMAN ARCHITECTURE
- ARC 1154 - CONSTRUCTING THE GOTHIC
- HAA 1305 - EARLY RENAISSANCE ARCHITECTURE
- ARC 1156 - HIGH RENAISSANCE ARCHITECTURE
- ARC 1158 - ARCHITECTURE AND ENLIGHTENMENT

- ARC 1161 - MODERNITY, MODERNISM AND HOUSING
- ARC 1118 - ARCHITECTURE SINCE 1945
- ARC 1181 - PITTSBURGH ARCHITECTURE/URBANISM
- ARC 1136 - EARLY AMERICAN ARCHITECTURE
- ARC 1137 - AMERICAN ARCHITECTURE SINCE INDUSTRIALIZATION
- HAA 1630 - CHINA: VILLAGE & URBAN ARCHITECTURAL SPACE
- HAA 1656 - JAPAN: ARCHITECTURE AS PERFORMATIVE SPACE
- ARC 1191 - ARCHITECTURE AND THE CITY IN CENTRAL EUROPE: 19TH AND 20TH CENTURIES
- ARC 0210 - SPECIAL TOPICS-ARCHITECTURE
- ARC 0300 - INTRODUCTION TO HISTORIC PRESERVATION
- ARC 1330 - GLOBAL PRESERVATION

Two co-requisites

ARC 1911 ARC 1911 - ARCHITECTURE AND DIGITAL MEDIA 1 may be waived for students who have taken a course in AutoCAD in high school or the equivalent course in the Department of Civil Engineering in the Swanson School of Engineering - CEE 0109 CEE 0109 - COMPUTER METH IN CIVIL ENGRG 1.

SA 0130 SA 0130 - DRAWING STUDIO 1 may be waived for students who have taken art courses in high school.

- ARC 1911 - ARCHITECTURE AND DIGITAL MEDIA 1
- SA 0130 - DRAWING STUDIO 1

Civil Engineering Minor

The Department of Civil and Environmental Engineering offers a Minor in Civil Engineering to B.S. degree students in other engineering or science departments of the University of Pittsburgh. The applicant must have completed the Swanson School of Engineering common Freshman year courses or their equivalent, plus the following courses which are prerequisites for Civil and Environmental Engineering (CEE) courses, each with a grade of "C" or better.

Prerequisites:

- MATH 0240 and MATH 0290
- ENGR 0131 or ENGR 0135
- ENGR 0141 or ENGR 0145

Students from other engineering departments must be in good standing. Students from outside the Swanson School of Engineering must have an overall QPA of 2.5 or greater.

The Minor requires the completion of a minimum of 18 credits of course work in civil engineering.

Course Requirements

Three out of the following introductory courses.

- CEE 1200 - CONSTRUCTION MANAGEMENT
- CEE 1330 - INTRODUCTION TO STRUCTURAL ANALYSIS
- CEE 1402 - FLUID MECHANICS
- CEE 1503 - INTRO TO ENVIRONMENTAL ENGRNG
- CEE 1703 - TRANSPORTATION ENGINEERING
- CEE 1811 - PRINCIPLES OF SOIL MECHANICS

Three Electives from the Following Six Categories Related to the Introductory Courses, Must be Taken from the List Below

Construction Management (prerequisite CEE 1200):

- CEE 1203 - CONSTRUCT PROFSSN DEVELOPMENT
- CEE 2201 - CONSTRUCTION COST ENGINEERING
- CEE 2202 - CONSTRUCTION SCHEDULING
- CEE 2204 - CONSTRUCTION LAW AND RISK MGMNT
- CEE 2205 - CONSTRCT FINANCE & COST CONTROL
- CEE 2206 - CONSTRCT & COST OF ELEC SUPPLY
- CEE 2207 - CONSTRCT & COST OF MECHL SYSTEMS
- CEE 2213 - CONSTRUCTION SAFETY
- CEE 2230 - BUILDING INFORMATION MODELING

Structural Engineering (prerequisite CEE 1330):

- CEE 1335 - DESIGN OF STRUCTURES
- CEE 1340 - CONCRETE STRUCTURES 1
- CEE 1341 - DESIGN OF STEEL STRUCTURES
- CEE 1370 - INTRODUCTION TO NONDESTRUCTIVE EVALUATION AND STRUCTURAL HEALTH MONITORING
- CEE 2330 - ADVANCED STRUCTURAL ANALYSIS
- CEE 2333 - INTRODUCTION TO FINITE ELEMENTS
- CEE 2345 - DESIGN OF TIMBER STRUCTURES

Water Resources Engineering (prerequisite CEE 1402):

- CEE 1410 - HYDROLOGIC ANALYSIS AND DESIGN
- CEE 1412 - INTRODUCTION TO WATER RESOURCES ENGINEERING
- CEE 1401 - OPEN CHANNEL HYDRAULICS

Environmental Engineering (prerequisite CEE 1503):

- CEE 1504 - CHEMISTRY IN ENVIRONMENTAL ENGINEERING
- CEE 1513 - ENVIRONMENTAL ENGRNG PROCESSES
- CEE 1514 - ENVIRONMENTAL IMPACT ASSESSMENT
- CEE 1520 - MATERIAL AND ENERGY BALANCES IN ENVIRONMENTAL ENGINEERING
- CEE 1522 - FATE AND TRANSPORT IN ENVIRONMENTAL ENGINEERING
- CEE 1523 - ENVIRONMENTAL ENGINEERING LAB
- CEE 1531 - AIR POLLUTION AND CONTROL
- CEE 2500 - ENVRNMNTL ENGRG MICROBIOL
- CEE 2501 - ENVIRONMENTAL ENGINEERING CHEMISTRY
- CEE 2502 - PHYSICAL-CHEMICAL PRINCIPLES IN ENVIRONMENTAL ENGINEERING

Transportation Engineering (prerequisite CEE 1703):

- CEE 1700 - TRAFFIC MANAGEMENT AND OPERATIONS

- CEE 1710 - TRAFFIC CONTROL SYSTEMS
- CEE 1711 - ADVANCED TRANSPORTATION MANAGEMENT STRATEGIES
- CEE 1714 - PAVEMENT DESIGN AND ANALYSIS
- CEE 1715 - PAVEMENT MAINTENANCE AND REHAB
- CEE 1717 - COMPONENTS, PROPERTIES AND DESIGN OF PORTLAND CEMENT CONCRETE
- CEE 1718 - ADVANCED CONSTRUCTION AND BITUMINOUS MATERIALS
- CEE 1720 - URBAN TRANSPORTATION PLANNING
- CEE 1725 - PUBLIC TRANSPORTATION SYSTEMS
- CEE 1730 - HIGHWAY ENGINEERING

Geotechnical Engineering (prerequisite CEE 1811):

- CEE 1800 - ENGINEERING GEOLOGY
- CEE 1821 - FOUNDATION ENGINEERING
- CEE 2801 - ADVANCED SOIL MECHANICS
- CEE 2802 - GEOTECHNICAL ANALYSIS
- CEE 2814 - SLOPES & EARTH RETAINING STRUCT

Notes:

- Environmental Engineering Majors seeking the minor may NOT use CEE 1402, 1503 or 1811 courses to satisfy the requirements.
- Environmental Engineering Majors seeking the minor may NOT use CEE 1203, 14XX, 15XX, 24XX and 25XX courses to satisfy the requirements.

Application:

Early application is advised so that the applicant can be assigned to an advisor in the Department of Civil and Environmental Engineering.

To apply, obtain and submit the completed application form with a copy of your academic record to: ceeunder@pitt.edu; Telephone: 412-624-9870; 742 Benedum Hall.

Environmental Engineering Minor

The Department of Civil and Environmental Engineering offers a Minor in Environmental Engineering to B.S. degree students in other engineering or science departments within the University of Pittsburgh. The minor requires the completion of a minimum of 15 credits of course work in the environmental area. This minor is not available to Civil Engineering Majors in the Department.

The completion of the Environmental Engineering Minor will provide the student with a significant career advantage. Engineers and scientists from diverse backgrounds are needed in the control and management of our environment

Course Requirements

(Any deviation or substitution must be approved by the CEE Undergraduate Coordinator):

- CEE 1412 - INTRODUCTION TO WATER RESOURCES ENGINEERING
- CEE 1503 - INTRO TO ENVIRONMENTAL ENGRNG

- CEE 1513 - ENVIRONMENTAL ENGRNG PROCESSES

Two of the following courses:

- CEE 1504 - CHEMISTRY IN ENVIRONMENTAL ENGINEERING
- CEE 1505 - WATER TREATMENT AND DISTRIBUTION SYSTEM DESIGN
- CEE 1514 - ENVIRONMENTAL IMPACT ASSESSMENT
- CEE 1515 - WASTEWATER COLLECTION AND TREATMENT PLANT DESIGN
- CEE 1520 - MATERIAL AND ENERGY BALANCES IN ENVIRONMENTAL ENGINEERING
- CEE 1522 - FATE AND TRANSPORT IN ENVIRONMENTAL ENGINEERING
- CEE 1531 - AIR POLLUTION AND CONTROL
- CEE 1609 - LIFE CYCLE ASSESSMENT METHODS AND TOOLS
- CEE 1610 - ENGINEERING AND SUSTAINABLE DEVELOPMENT
- CEE 1618 - DESIGN FOR THE ENVIRONMENT
- CEE 1996 - SPECIAL PROJECTS

Application:

It is strongly suggested that interested undergraduates contact an environmental engineering faculty member for guidance once they decide they may be interested in the environmental minor. All students should obtain and submit a completed, formal application form with a copy of their academic record to: ceeunder@pitt.edu; Telephone: 412-624-9870; 742 Benedum Hall.

Department of Electrical and Computer Engineering

Computer Engineering

Computer engineers are active in and in demand for all phases of technology research, design and development, testing, manufacturing, sales, and management of computer technologies. In addition, many successful leaders in other professions, such as law, medicine, and business, pursue an undergraduate education in computer engineering as preparation for later professional study. Thus the undergraduate curriculum provides preparation in both mathematics and physical sciences, coupled with coverage of all aspects of computing, software, hardware, design, and application. The program's flexible elective structure offers the student considerable opportunity for professional specialization, area specialization within the computing discipline, or interdisciplinary broadening. The computer engineering program is accredited by the Engineering Accreditation Commission of ABET: <http://www.abet.org>. For more information about the program, contact coeugrad@pitt.edu or see <https://www.engineering.pitt.edu/coeundergraduate>.

Electrical Engineering

The electrical engineering program equips its graduates with solid theoretical and practical foundations in power systems, electromagnetics, semiconductor devices, electronic circuit design, signal processing, and control theory. Students build on these foundations through specialization in advanced and contemporary electrical engineering topics and opportunities to apply and expand their skill set through design projects, research, and cooperative education. The electrical engineering program is accredited by the Engineering Accreditation Commission of ABET: <http://www.abet.org>. For more information about the program, contact ceugrad@pitt.edu or see <https://www.engineering.pitt.edu/ceundergraduate>.

Certificate

Cybersecurity in Emerging Engineering Systems, Undergraduate Certificate

The certificate includes courses in three focus areas: cybersecurity, systems, and artificial intelligence. In the first focus area, students are expected to study the essence of cybersecurity, different types of attacks on systems, and the available tools to secure systems. Students will explore emerging technologies in various engineering domains in the second focus area. No one solution fits all in cybersecurity since every system is unique in vulnerabilities, requirements, tools, and criticality. The second focus area will elaborate on system needs in one or more engineering contexts. In the third focus area, students will learn about artificial intelligence, which provides emerging tools enabling novel cybersecurity techniques.

Undergraduate students in SSoE from all departments can attain this certificate. The certification requires a total of five courses (15 credits) from the list of courses provided in the three different focus areas: cybersecurity (A1), systems (A2), and artificial intelligence (A3). Students seeking this certificate must choose at least two courses from A1 and one from each A2 and A3. As a capstone, a three-credit-hour project with a cybersecurity focus is required, which can be satisfied by a project-based course, internship/Co-Op, senior design project, or a faculty-guided research project/independent study course. At least nine credits beyond core courses required for a major should be taken to attain this certificate.

Cybersecurity courses (choose at least two courses)

In the first focus area, students are expected to study the essence of cybersecurity and the available tools to secure systems. Students seeking this certificate are required to choose at least two courses from the list below, with at least one from:

- ECE 1155 - INFORMATION SECURITY
 - INFSCI 1049/INFSCI 2149 - INTRODUCTION TO INFORMATION SECURITY
 - INFSCI 1600 - SECURITY AND PRIVACY
 - LAW 5623 - CYBER POLICY, CRIME & NATIONAL SECURITY
-
- ECE 1155 - INFORMATION SECURITY
 - ECE 2156 - ADVANCED INFORMATION SECURITY
 - INFSCI 1049 - INTRODUCTION TO INFORMATION SECURITY
 - LAW 5623 - CYBER POLICY, CRIME & NATIONAL SECURITY
 - CMPINF 1205 - COMPARATIVE DIGITAL PRIVACIES
 - CS 1653 - APPLIED CRYPTOGRAPHY AND NETWORK SECURITY
 - CS 1657 - PRIVACY IN THE ELECTRONIC SOCIETY
 - INFSCI 1600 - SECURITY AND PRIVACY
 - INFSCI 1620 - ADVANCED SECURITY AND PRIVACY
 - INFSCI 2170 - CRYPTOGRAPHY
 - INFSCI 2621 - SECURITY MANAGEMENT AND COMPUTER FORENSICS
 - MATH 1025 - INTRODUCTION TO MATHEMATICAL CRYPTOGRAPHY
 - TELCOM 2813 - SECURITY MANAGEMENT AND COMPUTER FORENSICS
 - TELCOM 2820 - CRYPTOGRAPHY
 - INFSCI 1670 - SECURITY MANAGEMENT AND COMPUTER FORENSICS

Systems courses (choose one)

Students will explore emerging technologies in various engineering domains in the second focus area. No one solution fits all in cybersecurity since every system is unique (e.g., in vulnerabilities, requirements, tools, and criticality). The second focus area will elaborate on system needs in one or more engineering contexts. Students seeking this certificate should complete one course from the list below.

- ECE 1188 - CYBER-PHYSICAL SYSTEMS
- ECE 1150 - COMPUTER NETWORKS
- ECE 1675 - ROBOTIC CONTROL
- ECE 2780 - RENEWABLE AND ALTERNATIVE ENERGY
- ECE 1776 - MICROGRID CONCEPTS & DISTRIBUTED GENERATION TECHNOLOGIES
- ECE 2680 - ADAPTIVE CONTROL
- ECE 2165 - DEPENDABLE COMPUTER ARCHITECTURE
- ECE 1710 - POWER DISTRIBUTION SYSTEMS ENGINEERING AND SMART GRIDS
- ECE 1773 - POWER GENERATION, OPERATION, AND CONTROL
- ECE 2781 - SMART GRID TECHNOLOGIES AND APPLICATIONS
- BIOENG 1255 - DYNAMIC SYSTEMS: PHYSIOLOGICAL PERSPECTIVE
- BIOENG 1351 - BIOSIGNAL ACQUISITION AND ANALYSIS
- BIOENG 1680 - BIOMEDICAL APPLICATIONS OF CONTROL
- CEE 1412 - INTRODUCTION TO WATER RESOURCES ENGINEERING
- BIOENG 2351 - BIOSIGNAL ACQUISITION AND ANALYSIS
- CEE 1710 - TRAFFIC CONTROL SYSTEMS
- CEE 1725 - PUBLIC TRANSPORTATION SYSTEMS
- CEE 1730 - HIGHWAY ENGINEERING
- CEE 2410 - WATER RESOURCES ENGINEERING
- CHE 0400 - REACTIVE PROCESS ENGINEERING
- CHE 0500 - SYSTEMS ENGINEERING 1: DYNAMICS AND MODELING
- ENGR 1017 - MANUFACTURING FOR THE FUTURE: FLEXIBLE, GREEN, AND DIGITAL
- ENGR 1638 - MINING HEALTH AND SAFETY
- ENGR 1702 - NUCLEAR PLANT TECHNOLOGY
- IE 1052 - MANUFACTURING PROCESSES AND ANALYSIS
- IE 1080 - SUPPLY CHAIN ANALYSIS
- IE 1302 - ENGINEERING FOR PROCESS SAFETY
- INFSCI 1640 - WIRELESS NETWORKS
- ME 2046 - DIGITAL CONTROL SYSTEMS
- MEMS 1045 - AUTOMATIC CONTROLS
- MEMS 1049 - MECHATRONICS
- MEMS 1081 - SMART MANUFACTURING - KEY TO INNOVATIONS
- ECE 3795 - ADVANCED TOPICS POWER

Artificial Intelligence courses (choose one)

In this focus area, students will learn about artificial intelligence, which provides emerging tools for novel cybersecurity techniques. Students choose one course from the list below.

Note: The special topics course included in the list (ECE 2195) should be in artificial intelligence/machine learning.

- BIOENG 2390 - ARTIFICIAL INTELLIGENCE APPLICATIONS IN BIOENGINEERING
- BIOENG 2525 - APPLIED BIostatISTICS
- CEE 1323 - PRACTICAL DATA SCIENCE AND MACHINE LEARNING

- CEE 2350 - MACHING LEARNING IN INFRASTRUCTURE ENGINEERING
- ECE 1390 - INTRO TO IMAGE PROCESSING
- ECE 1395 - INTRODUCTION TO MACHINE LEARNING
- ECE 2372 - PATTERN RECOGNITION
- ECE 2525 - DETECTION AND ESTIMATION THEORY
- IE 1155 - DISCRETE OPTIMIZATION AND APPLICATIONS IN INFRASTRUCTURE SYSTEMS
- IE 1185 - STOCHASTIC MODELING AND DATA ANALYTICS IN HEALTHCARE OPERATIONS MANAGEMENT
- ME 2043 - MACHINE LEARNING-BASED METHODS FOR DYNAMICS AND CONTROL
- ME 2063 - DATA-DRIVEN MODELING FOR ENGINEERS
- ECE 2195 - SPECIAL TOPICS: COMPUTERS

Capstone Experience

At least one three-credit hour project with a focus on cybersecurity is required. The project is expected to combine the three focus areas. For example, a project concentrates on the cybersecurity of one engineering system and applies tools of artificial intelligence to address a cybersecurity problem. Other projects with a cybersecurity focus can also be accepted. The project can be achieved by:

- a project-based course such as ENGR 2811 - INNOVATING FOR PUBLIC IMPACT or ME 2812 - HACKING FOR ENERGY.
- a senior design project with a major cybersecurity component.
- a semester-long project, independent study/faculty-guided research project with a major cybersecurity component.
- an internship or co-op, where the intern's work focuses on cybersecurity.

Students should prepare a description of the project, approved by the direct project supervisor, and send it to the certificate coordinator to request to have the project counted toward the certificate. The description should explain the cybersecurity aspects of the project.

Major

Computer Engineering

For students who enrolled prior to Fall 2019, please refer to the Archived Catalogs, and select the academic year in which you began to view your program requirements.

The following areas of concentration are available for Computer Engineering students:

Autonomous Systems

Communications Engineering

Electric Power

Integrated Circuits

Nanotechnology

Computer Engineering Undergraduate Curriculum

The overall objective of the computer engineering (CoE) program is to prepare individuals to be successful and lead lives of impact in whatever path they choose to pursue in the 21st century global economy. This includes those who move into practice within the computer engineering discipline either through employment in industry or government, entrepreneurship, those who move on to advanced computer study and research in graduate school, or those that move into other professions such as law, business, or management.

Building upon the Swanson School of Engineering freshmen program, a common and comprehensive year of study is delivered to sophomore computer engineering (CoE) and electrical engineering (EE) students. The sophomore year features four tracks, including two-course sequences in analog hardware, digital hardware, software, and applied math. These eight courses prepare students to continue as juniors in their specific program (CoE or EE) with foundational strength. Students can start taking professional skills and continue to take humanities and social science courses.

During the CoE junior year, students complete six core courses unique to CoE (computer architecture, advanced digital design, embedded systems, computer networks, information security, systems and project engineering) and a core course common to both programs (junior design fundamentals). Broad flexibility is provided in the senior year, including four advanced ECE electives, three technical electives, and one open elective, providing many dozens of options.

The CoE program is designed to build on foundational engineering strength developed during the freshman year, extend with broad ECE fundamentals in the sophomore year, further extend and deepen with CoE fundamentals in the junior year, and then diversify for career exploration and specialization in the senior year. Our graduates will be among the best prepared computer engineers in the nation for impactful careers and post-graduate studies in one of the most exciting and thriving professions of STEM.

The Computer Engineering Program is accredited by the Engineering Accreditation Commission of ABET, <http://www.abet.org>, under the General Criteria and the Electrical, Computer, Communications, Telecommunication(s) and Similarly Named Engineering Programs Program Criteria. For more information about the program, contact coeugrad@pitt.edu.

Third Term

- ECE 0101 - LINEAR CIRCUITS AND SYSTEMS (Fall/Spring)
- ECE 0201 - DIGITAL CIRCUITS AND SYSTEMS (Fall/Spring)
- ECE 0301 - ECE PROBLEM SOLVING WITH C++ (Fall/Spring)
- ECE 0401 - ECE ANALYTICAL METHODS (Fall/Spring)
- Professional Skills Elective - 3 credits
- ECE 1885 - DEPARTMENTAL SEMINAR

Credits: 17

Fourth Term

- ECE 0102 - MICROELECTRONIC CIRCUITS (Spring/Summer)
- ECE 0202 - EMBEDDED PROCESSORS AND INTERFACING (Spring/Summer)
- ECE 0302 - DATA STRUCTURES AND ALGORITHMS (Spring/Summer)
- ECE 0402 - SIGNALS, SYSTEMS, & PROBABILITY (Spring/Summer)
- Humanities/Social Science Elective - 3 credits
- ECE 1885 - DEPARTMENTAL SEMINAR

Credits: 17

Fifth Term

- MATH 0480 - APPLIED DISCRETE MATHEMATICS
- COE CORE Course
- COE CORE Course
- COE CORE Course
- Humanities/Social Science Elective - 3 credits
- ECE 1885 - DEPARTMENTAL SEMINAR

Credits: 16

Sixth Term

- COE CORE Course
- COE CORE Course
- COE CORE Course
- Humanities/Social Science Elective - 3 credits
- ECE 1885 - DEPARTMENTAL SEMINAR
- ECE 1895 - JUNIOR DESIGN FUNDAMENTALS (Fall/Spring/Summer)

Credits: 16

Seventh Term

- Advanced ECE Elective - 3 credits
- Advanced ECE Elective - 3 credits
- Advanced ECE Elective - 3 credits
- Technical Elective - 3 credits
- Humanities/Social Science Elective - 3 credits
- ECE 1885 - DEPARTMENTAL SEMINAR

Credits: 15

Eighth Term

- Advanced ECE Elective - 3 credits
- Technical Elective - 3 credits
- Technical Elective - 3 credits

- Open Elective - 3 credits
- ECE 1885 - DEPARTMENTAL SEMINAR
- ECE 1896 - SENIOR DESIGN PROJECT * (Fall/Spring/Summer)

Credits: 15

Note:

*Students may take ENGR 1050 - PRODUCT REALIZATION to fulfill the Senior Design Project requirement with approval from the Undergraduate Coordinator.

COE CORE Courses

- ECE 1110 - COMPUTER ORGANIZATION AND ARCHITECTURE (Fall/Spring)
- ECE 1140 - SYSTEMS AND PROJECT ENGINEERING (Fall/Spring/Summer)
- ECE 1150 - COMPUTER NETWORKS (Fall/Spring)
- ECE 1155 - INFORMATION SECURITY (Spring/Summer)
- ECE 1175 - EMBEDDED SYSTEMS DESIGN (Fall/Spring)
- ECE 1195 - ADVANCED DIGITAL DESIGN (Fall/Spring)

Electives

Advanced ECE Electives

Students must complete at least four Advanced ECE Elective courses from the following list:

- ECE 1115 - HIGH PERFORMANCE COMPUTING
- ECE 1145 - SOFTWARE CONSTRUCTION AND EVOLUTION
- ECE 1147 - ALGORITHMS FOR BIG DATA
- ECE 1148 - ALGORITHMIC THINKING
- ECE 1165 - DEPENDABLE COMPUTER ARCHITURE
- ECE 1166 - PARALLEL COMPUTER ARCHITECTURE
- ECE 1170 - SPECIAL TOPICS: COMPUTERS
- ECE 1180 - COMPUTATIONAL MODELING AND SIMULATION FOR ENGINEERS
- ECE 1188 - CYBER-PHYSICAL SYSTEMS
- ECE 1190 - ROBOTICS STUDIO
- ECE 1192 - INTRODUCTION TO VLSI DESIGN
- ECE 1193 - ADVANCED VLSI DESIGN
- ECE 1212 - ELECTRONIC CIRCUIT DESIGN LAB
- ECE 1215 - ELECTROACOUSTICS AND AUDIOELECTRONICS
- ECE 1232 - INTRO LASERS & OPTCL ELECTNC
- ECE 1238 - DIGITAL ELECTRONICS
- ECE 1247 - SEMICONDUCTOR DEVICE THEORY
- ECE 1250 - NANOTECHNOLOGY & NANO-ENGINEERING
- ECE 1251 - MICRO AND NANO DEVICE FABRICATION LABORATORY
- ECE 1259 - ELECTROMAGNETICS
- ECE 1266 - APPLICATIONS OF FIELDS AND WAVES
- ECE 1270 - SPECIAL TOPICS ADVANCED APPLICATIONS IN ECE 2
- ECE 1272 - SIMULATION AND DESIGN OF SILICON PHOTONICS

- ECE 1286 - ANAL & DSGN ANLG INTGRTD CRCT
- ECE 1390 - INTRO TO IMAGE PROCESSING
- ECE 1395 - INTRODUCTION TO MACHINE LEARNING
- ECE 1472 - ANALOG COMMUNICATION SYSTEMS
- ECE 1473 - DIGITAL COMMUNICATION SYSTEMS
- ECE 1560 - DIGITAL SIGNAL PROCESSING
- ECE 1562 - DIGITAL AND ANALOG FILTERS
- ECE 1570 - SPECIAL TOPICS: ADVANCED APPLICATIONS IN ECE 3
- ECE 1673 - LINEAR CONTROL SYSTEMS
- ECE 1674 - MECHATRONIC SYSTEMS
- ECE 1675 - ROBOTIC CONTROL
- ECE 1701 - FUNDAMENTALS OF ELECTRIC POWER ENGINEERING
- ECE 1710 - POWER DISTRIBUTION SYSTEMS ENGINEERING AND SMART GRIDS
- ECE 1750 - POWER ELECTRONICS CONVERSION THEORY
- ECE 1770 - SPECIAL TOPICS:ADVANCED APPLICATIONS IN ECE 4
- ECE 1771 - ELECTRIC MACHINERY
- ECE 1773 - POWER GENERATION, OPERATION, AND CONTROL
- ECE 1774 - ADVANCED POWER SYSTEMS ANALYSIS
- ECE 1775 - POWER QUALITY
- ECE 1776 - MICROGRID CONCEPTS & DISTRIBUTED GENERATION TECHNOLOGIES
- ECE 1890 - ECE PROTOTYPING FUNDAMENTALS
- ECE 1893 - ECE UNDERGRADUATE RESEARCH PROJECT
- ECE 1894 - ECE UNDERGRADUATE INDUSTRY PROJECT
- ECE 1898 - ENGINEERING PROJECT
- all 2000/3000 level ECE graduate courses

Humanities/Social Science Electives

Students must complete at least four Humanities/Social Science Elective courses from a list of Approved Electives as part of the Computer Engineering curriculum. (Note: students will complete a total of six Humanities/Social Science Elective courses, but two are completed as part of the First-Year Program curriculum, and four are completed as part of the Computer Engineering curriculum.)

Open Electives

Students must complete at least one Open Elective course. Any course that is not of a similar nature to, or lower level than, a required or previously taken course can be used to fulfill this requirement. Three credits of Physical Education, or three credits of Band, ROTC, or Chorus may also be used as an Open Elective. Three credits of Co-op may also be used to fulfill the Open Elective.

Professional Skills Electives

Students must complete at least one Professional Skills Elective course from the following list:

- BUSBIS 1625 - ELECTRONIC COMMERCE
- BUSBIS 1630 - PROJECT MANAGEMENT
- BUSBIS 1635 - INFORMATION TECHNOLOGY SYSTEMS IN SUPPLY CHAINS
- BUSBIS 1645 - INFORMATION SYSTEMS ETHICS
- BUSBIS 1650 - IS CONSULTANCY PRACTICES SOLUTION DEVELOPMENT
- BUSBIS 1655 - DESIGN THINKING

- BUSBIS 1660 - DISRUPTIVE TECHNOLOGIES
- BUSBIS 1665 - IMPROVING THE USER EXPERIENCE
- BUSBIS 1670 - DATA WAREHOUSING
- BUSECN 1010 - MANAGERIAL ECONOMICS
- BUSECN 1508 - INTERNATIONAL ECONOMICS FOR MANAGERS
- BUSENV 0060 - MANAGERIAL ETHICS AND STAKEHOLDER MANAGEMENT
- BUSENV 1706 - MARKET MANIPULATIONS: CRISES, BUBBLES, ROBBER BARONS AND CORPORATE SAINTS
- BUSENV 1755 - SERVICE LEARNING IN ORGANIZATIONS
- BUSENV 1757 - RACE AND BUSINESS ETHICS
- BUSENV 1760 - BUSINESS LAW
- BUSENV 1765 - LEADERSHIP IN THE SOCIAL ENVIRONMENT
- BUSENV 1780 - CORPORATE GOVERNANCE
- BUSENV 1785 - SOCIAL ENTREPRENEURSHIP
- BUSENV 1795 - BUSINESS AND POLITICS
- BUSMKT 1040 - INTRODUCTION TO MARKETING
- BUSMKT 1411 - MARKETING RESEARCH
- BUSMKT 1427 - PUBLIC RELATIONS MANAGEMENT
- BUSMKT 1428 - DIGITAL AND SOCIAL MEDIA MARKETING
- BUSMKT 1431 - PRODUCT DEVELOPMENT AND MANAGEMENT
- BUSMKT 1435 - SERVICES MARKETING
- BUSMKT 1441 - CONSUMER BEHAVIOR
- BUSMKT 1451 - RETAIL MANAGEMENT
- BUSMKT 1481 - BRAND MANAGEMENT
- BUSORG 1020 - ORGANIZATIONAL BEHAVIOR
- BUSSCM 1730 - MANAGING GLOBAL SUPPLY CHAINS
- BUSSCM 1740 - PURCHASING & SUPPLY MANAGEMENT
- BUSSCM 1750 - REVENUE MANAGEMENT
- BUSSCM 1766 - PROJECTS IN SUPPLY CHAIN MANAGEMENT
- BUSSCM 1780 - SIX SIGMA
- BUSSCM 1825 - MARITIME SUPPLY CHAIN
- BUSSPP 0020 - MANAGING COMPLEX ENVIRONMENTS
- BUSSPP 1080 - STRATEGIC MANAGEMENT
- BUSSPP 1740 - GLOBAL STRATEGY AND COMPETITIVE ADVANTAGE
- BUSSPP 1750 - COMMERCIALIZING NEW TECHNOLOGY
- COMMRC 0300 - COMMUNICATION AND SOCIETY
- COMMRC 0310 - RHETORIC & SOCIETY
- COMMRC 0320 - MASS COMMUNICATION AND SOCIETY
- COMMRC 0500 - ARGUMENT
- COMMRC 0510 - DEBATE
- COMMRC 0520 - PUBLIC SPEAKING
- COMMRC 0530 - INTERPERSONAL COMMUNICATION
- COMMRC 0540 - DISCUSSION
- COMMRC 0550 - SPEECH COMPOSITION
- COMMRC 1102 - ORGANIZATIONAL COMMUNICATION
- COMMRC 1103 - RHETORIC AND CULTURE
- COMMRC 1104 - POLITICAL COMMUNICATION
- COMMRC 1106 - SMALL GROUP COMMUNICATION
- COMMRC 1109 - NONVERBAL COMMUNICATION
- COMMRC 1111 - THEORIES OF PERSUASION
- COMMRC 1148 - RHETORIC AND HUMAN RIGHTS

- COMMRC 1161 - COMMUNICATION ETHICS
- COMMRC 1170 - CROSS CULTURAL COMMUNICATION
- COMMRC 1520 - ADVANCED PUBLIC SPEAKING
- ECON 0100 - INTRODUCTION TO MICROECONOMIC THEORY
- ECON 0110 - INTRODUCTION TO MACROECONOMIC THEORY
- ECON 0220 - INTRO TO HEALTH ECONOMICS

- ENGCMP 1100 - LANGUAGE OF BUSINESS AND INDUSTRY
- ENGCMP 1101 - LANGUAGE OF SCIENCE AND TECHNOLOGY

- ENGCMP 1104 - CORPORATE STORYTELLING
- ENGCMP 1111 - PROFESSIONAL WRITING IN GLOBAL CONTEXTS
- ENGCMP 1112 - PROFESSIONAL USES OF SOCIAL MEDIA
- ENGCMP 1250 - ADVANCED TOPICS PUBLIC/PROFESSIONAL WRITING
- ENGCMP 1400 - GRANT WRITING FOR NONPROFITS
- ENGCMP 1401 - WRITING FOR FUNDRAISING AND DEVELOPMENT
- ENGCMP 1420 - WRITING PROPOSALS FOR BUSINESS
- ENGCMP 1510 - WRITING WITH STYLE
- ENGR 1097 - INTERNATIONAL SPECIAL PROJECT
- ENGR 2061 - INTRAPRENEURSHIP: ENTREPRENEURSHIP WITHIN THE CORPORATION
- ENGR 2062 - STARTUP FUNDAMENTALS FOR ENGINEERS
- ENGR 2080 - INNOVATING FOR COMMERCIAL IMPACT

Note:

In addition to the list above, there are other options that can count toward a professional skills elective slot, including:

- Cooperative Education (Co-op) opportunities - Students may use three rotations of Co-op to satisfy the professional skills requirement or three credits of the technical skills requirement by submitting a Co-op paper.
- ECE 1893 - ECE UNDERGRADUATE RESEARCH PROJECT and ECE 1898 - ENGINEERING PROJECT - Directed research advised by faculty can be counted if there is a requirement of writing a paper (or a paper-like report) and presenting the work done to a research group or in a poster session or conference.
- ECE 1894 - ECE UNDERGRADUATE INDUSTRY PROJECT
- Engineering (ENGR) Study Abroad courses

Technical Electives

Students must complete at least three Technical Elective courses from the ECE Department's list of approved Technical Electives. Technical Electives can be any Advanced ECE Elective or any other School of Engineering course, which has not been used to fulfill another requirement or does not substantially duplicate other required course material. Most science and math courses that can be taken by students majoring in those departments can be used as Technical Electives.

Electrical Engineering

For students who enrolled prior to Fall 2019, please refer to the Archived Catalogs, and select the academic year in which you began to view your program requirements.

The following areas of concentration are available for Electrical Engineering students:

Autonomous Systems

Communications Engineering

Electric Power

Integrated Circuits

Nanotechnology

Electrical Engineering Undergraduate Curriculum

The overall objective of the electrical engineering (EE) program is to prepare individuals to be successful and lead lives of impact in whatever path they choose to pursue in the 21st century global economy. This includes those who move into practice within the electrical engineering discipline either through employment in industry or government, entrepreneurship, those who move on to advanced computer study and research in graduate school, or those that move into other professions such as law, business, or management.

Building upon the Swanson School of Engineering freshmen program, a common and comprehensive year of study is delivered to sophomore computer engineering (CoE) and electrical engineering (EE) students. The sophomore year features four tracks, including two-course sequences in analog hardware, digital hardware, software, and applied math. These eight courses prepare students to continue as juniors in their specific program (CoE or EE) with foundational strength. Students can start taking professional skills and continue to take humanities and social science courses.

During the EE junior year, students complete six core courses unique to EE (electric power, electromagnetics, linear control systems, digital signal processing, semiconductor devices and advanced analog design) and a core course common to both programs (junior design fundamentals). Broad flexibility is provided in the senior year, including four advanced ECE electives, three technical electives, and one open elective, providing many dozens of options.

The EE program is designed to build on foundational engineering strength developed during the freshman year, extend with broad ECE fundamentals in the sophomore year, further extend and deepen with EE fundamentals in the junior year, and then diversify for career exploration and specialization in the senior year. Our graduates will be among the best prepared electrical engineers in the nation for impactful careers and post-graduate studies in one of the most exciting and thriving professions of STEM.

The Electrical Engineering Program is accredited by the Engineering Accreditation Commission of ABET, <http://www.abet.org>, under the General Criteria and the Electrical, Computer, Communications, Telecommunication(s) and Similarly Named Engineering Programs Program Criteria. For more information about the program, contact eeugrad@pitt.edu.

Third Term

- ECE 0101 - LINEAR CIRCUITS AND SYSTEMS (Fall/Spring)
- ECE 0201 - DIGITAL CIRCUITS AND SYSTEMS (Fall/Spring)
- ECE 0301 - ECE PROBLEM SOLVING WITH C++ (Fall/Spring)
- ECE 0401 - ECE ANALYTICAL METHODS (Fall/Spring)
- Professional Skills Elective - 3 credits
- ECE 1885 - DEPARTMENTAL SEMINAR

Credits: 17

Fourth Term

- ECE 0102 - MICROELECTRONIC CIRCUITS (Spring/Summer)

- ECE 0202 - EMBEDDED PROCESSORS AND INTERFACING (Spring/Summer)
- ECE 0302 - DATA STRUCTURES AND ALGORITHMS (Spring/Summer)
- ECE 0402 - SIGNALS, SYSTEMS, & PROBABILITY (Spring/Summer)
- Humanities/Social Science Elective - 3 credits
- ECE 1885 - DEPARTMENTAL SEMINAR

Credits: 17

Fifth Term

- MATH 0240 - ANALYTIC GEOMETRY AND CALCULUS 3
- EE CORE Course
- EE CORE Course
- EE CORE Course
- Humanities/Social Science Elective - 3 credits
- ECE 1885 - DEPARTMENTAL SEMINAR

Credits: 16

Sixth Term

- EE CORE Course
- EE CORE Course
- EE CORE Course
- Humanities/Social Science Elective - 3 credits
- ECE 1885 - DEPARTMENTAL SEMINAR
- ECE 1895 - JUNIOR DESIGN FUNDAMENTALS (Fall/Spring/Summer)

Credits: 16

Seventh Term

- Advanced ECE Elective - 3 credits
- Advanced ECE Elective - 3 credits
- Advanced ECE Elective - 3 credits
- Technical Elective - 3 credits
- Humanities/Social Science Elective - 3 credits
- ECE 1885 - DEPARTMENTAL SEMINAR

Credits: 15

Eighth Term

- Advanced ECE Elective - 3 credits
- Technical Elective - 3 credits
- Technical Elective - 3 credits
- Open Elective - 3 credits

- ECE 1885 - DEPARTMENTAL SEMINAR
- ECE 1896 - SENIOR DESIGN PROJECT * (Fall/Spring/Summer)

Credits: 15

Note:

*Students may take ENGR 1050 - PRODUCT REALIZATION to fulfill the Senior Design Project requirement with approval from the Undergraduate Coordinator.

EE CORE Courses

- ECE 1212 - ELECTRONIC CIRCUIT DESIGN LAB (Fall/Spring)
- ECE 1247 - SEMICONDUCTOR DEVICE THEORY (Fall/Spring)
- ECE 1259 - ELECTROMAGNETICS (Spring/Summer)
- ECE 1560 - DIGITAL SIGNAL PROCESSING (Fall/Spring)
- ECE 1673 - LINEAR CONTROL SYSTEMS (Spring/Summer)
- ECE 1701 - FUNDAMENTALS OF ELECTRIC POWER ENGINEERING (Fall/Spring)

Electives

Advanced ECE Electives

Students must complete at least four Advanced ECE Elective courses from the following list:

- ECE 1110 - COMPUTER ORGANIZATION AND ARCHITECTURE
- ECE 1115 - HIGH PERFORMANCE COMPUTING
- ECE 1140 - SYSTEMS AND PROJECT ENGINEERING
- ECE 1145 - SOFTWARE CONSTRUCTION AND EVOLUTION
- ECE 1147 - ALGORITHMS FOR BIG DATA
- ECE 1148 - ALGORITHMIC THINKING
- ECE 1150 - COMPUTER NETWORKS
- ECE 1155 - INFORMATION SECURITY
- ECE 1165 - DEPENDABLE COMPUTER ARCHITURE
- ECE 1166 - PARALLEL COMPUTER ARCHITECTURE
- ECE 1170 - SPECIAL TOPICS: COMPUTERS
- ECE 1175 - EMBEDDED SYSTEMS DESIGN
- ECE 1180 - COMPUTATIONAL MODELING AND SIMULATION FOR ENGINEERS
- ECE 1188 - CYBER-PHYSICAL SYSTEMS
- ECE 1190 - ROBOTICS STUDIO
- ECE 1192 - INTRODUCTION TO VLSI DESIGN
- ECE 1193 - ADVANCED VLSI DESIGN
- ECE 1195 - ADVANCED DIGITAL DESIGN
- ECE 1215 - ELECTROACOUSTICS AND AUDIOELECTRONICS
- ECE 1232 - INTRO LASERS & OPTCL ELECTNC
- ECE 1238 - DIGITAL ELECTRONICS
- ECE 1250 - NANOTECHNOLOGY & NANO-ENGINEERING
- ECE 1251 - MICRO AND NANO DEVICE FABRICATION LABORATORY
- ECE 1266 - APPLICATIONS OF FIELDS AND WAVES

- ECE 1270 - SPECIAL TOPICS ADVANCED APPLICATIONS IN ECE 2
- ECE 1272 - SIMULATION AND DESIGN OF SILICON PHOTONICS
- ECE 1286 - ANAL & DSGN ANLG INTGRTD CRCT
- ECE 1390 - INTRO TO IMAGE PROCESSING
- ECE 1395 - INTRODUCTION TO MACHINE LEARNING
- ECE 1472 - ANALOG COMMUNICATION SYSTEMS
- ECE 1473 - DIGITAL COMMUNICATION SYSTEMS
- ECE 1562 - DIGITAL AND ANALOG FILTERS
- ECE 1570 - SPECIAL TOPICS: ADVANCED APPLICATIONS IN ECE 3
- ECE 1674 - MECHATRONIC SYSTEMS
- ECE 1675 - ROBOTIC CONTROL
- ECE 1710 - POWER DISTRIBUTION SYSTEMS ENGINEERING AND SMART GRIDS
- ECE 1750 - POWER ELECTRONICS CONVERSION THEORY
- ECE 1770 - SPECIAL TOPICS:ADVANCED APPLICATIONS IN ECE 4
- ECE 1771 - ELECTRIC MACHINERY
- ECE 1773 - POWER GENERATION, OPERATION, AND CONTROL
- ECE 1774 - ADVANCED POWER SYSTEMS ANALYSIS
- ECE 1775 - POWER QUALITY
- ECE 1776 - MICROGRID CONCEPTS & DISTRIBUTED GENERATION TECHNOLOGIES
- ECE 1890 - ECE PROTOTYPING FUNDAMENTALS
- ECE 1893 - ECE UNDERGRADUATE RESEARCH PROJECT
- ECE 1894 - ECE UNDERGRADUATE INDUSTRY PROJECT
- ECE 1898 - ENGINEERING PROJECT
- all 2000/3000 level ECE graduate courses

Humanities/Social Science Electives

Students must complete at least four Humanities/Social Science Elective courses from a list of Approved Electives as part of the Electrical Engineering curriculum. (Note: students will complete a total of six Humanities/Social Science Elective courses, but two are completed as part of the First-Year Program curriculum, and four are completed as part of the Electrical Engineering curriculum.)

Open Electives

Students must complete at least one Open Elective course. Any course that is not of a similar nature to, or lower level than, a required or previously taken course can be used to fulfill this requirement. Three credits of Physical Education, or three credits of Band, ROTC, or Chorus may also be used as an Open Elective. Three credits of Co-op may also be used to fulfill the Open Elective.

Professional Skills Electives

Students must complete at least one Professional Skills Elective course from the following list:

- BUSBIS 1625 - ELECTRONIC COMMERCE
- BUSBIS 1630 - PROJECT MANAGEMENT
- BUSBIS 1635 - INFORMATION TECHNOLOGY SYSTEMS IN SUPPLY CHAINS
- BUSBIS 1645 - INFORMATION SYSTEMS ETHICS
- BUSBIS 1650 - IS CONSULTANCY PRACTICES SOLUTION DEVELOPMENT
- BUSBIS 1655 - DESIGN THINKING
- BUSBIS 1660 - DISRUPTIVE TECHNOLOGIES

- BUSBIS 1665 - IMPROVING THE USER EXPERIENCE
- BUSBIS 1670 - DATA WAREHOUSING
- BUSECN 1010 - MANAGERIAL ECONOMICS
- BUSECN 1508 - INTERNATIONAL ECONOMICS FOR MANAGERS
- BUSENV 0060 - MANAGERIAL ETHICS AND STAKEHOLDER MANAGEMENT
- BUSENV 1706 - MARKET MANIPULATIONS: CRISES, BUBBLES, ROBBER BARONS AND CORPORATE SAINTS
- BUSENV 1755 - SERVICE LEARNING IN ORGANIZATIONS
- BUSENV 1757 - RACE AND BUSINESS ETHICS
- BUSENV 1760 - BUSINESS LAW

Minor

Computer Engineering Minor

The Computer Engineering (CoE) minor provides students with a strong foundation in the design of computing hardware and software systems. The minor consists of three introductory courses and two advanced courses offered by the Department of Electrical and Computer Engineering. The minor program's required core includes foundational courses on digital electronics, embedded processors, computer programming, data structures and algorithms, and accompanying laboratory experiences. After completing the required core, students can satisfy the remaining CoE minor requirements by choosing two advanced Computer Engineering curriculum courses. Students who complete the CoE minor will be prepared to create exciting new technologies requiring fundamental computer hardware and software knowledge.

All students interested in declaring a minor in computer engineering should contact coeugrad@pitt.edu for additional information.

Computer Engineering Fundamentals

Completing three, sophomore-level courses is required of all CoE minors (ECE 0201, ECE 0202, and ECE 0301). After completing these courses, students will have a solid foundation in computer hardware design and the development of software applications.

- ECE 0201 - DIGITAL CIRCUITS AND SYSTEMS (Fall/Spring)
- ECE 0202 - EMBEDDED PROCESSORS AND INTERFACING (Fall/Spring)
- ECE 0301 - ECE PROBLEM SOLVING WITH C++ (Fall/Spring)
- Elective
- Elective

Advanced Computer Engineering Topics

Students must complete their choice of two, advanced ECE courses from the Computer Engineering curriculum. After completing these courses, students will have a depth of knowledge in one or more areas in Computer Engineering.

- ECE 0302 - DATA STRUCTURES AND ALGORITHMS (Spring/Summer)
- ECE 1110 - COMPUTER ORGANIZATION AND ARCHITECTURE (Fall/Spring)
- ECE 1140 - SYSTEMS AND PROJECT ENGINEERING (Fall/Spring/Summer)
- ECE 1150 - COMPUTER NETWORKS (Fall/Spring)
- ECE 1155 - INFORMATION SECURITY (Spring/Summer)
- ECE 1175 - EMBEDDED SYSTEMS DESIGN (Fall/Spring)
- ECE 1195 - ADVANCED DIGITAL DESIGN (Fall/Spring)

Note:

Students cannot apply more than one course from their major toward a CoE minor.

Electrical Engineering Minor

The Department of Electrical and Computer Engineering offers an electrical engineering (EE) minor for engineering students who are not majoring in electrical or computer engineering. The minor will be of interest to undergraduate engineering students who wish to develop expertise in areas such as electronics, instrumentation, control, signal processing, or digital devices. Requirements for engineering physics are slightly different than those for other students because of the extensive overlap between the two programs.

All students interested in declaring a minor in electrical engineering should contact ceugrad@pitt.edu for additional information.

Required Courses

Completing three sophomore-level courses is required of all electrical engineering minors.

- ECE 0101 - LINEAR CIRCUITS AND SYSTEMS (Fall/Spring)
 - ECE 0102 - MICROELECTRONIC CIRCUITS (Spring/Summer)
 - ECE 0402 - SIGNALS, SYSTEMS, & PROBABILITY * (Spring/Summer)
 - Elective
 - Elective
- (*MATH 0280 and MATH 0290 can satisfy the ECE 0401 prerequisite requirement.)

Electives

Students must complete their choice of two, advanced ECE courses from the Electrical Engineering curriculum. After completing these courses, students will have a depth of knowledge in one or more areas in Electrical Engineering.

- ECE 0201 - DIGITAL CIRCUITS AND SYSTEMS (Fall/Spring)
- ECE 1212 - ELECTRONIC CIRCUIT DESIGN LAB (Fall/Spring)
- ECE 1247 - SEMICONDUCTOR DEVICE THEORY (Fall/Spring)
- ECE 1259 - ELECTROMAGNETICS (Spring/Summer)
- ECE 1560 - DIGITAL SIGNAL PROCESSING (Fall/Spring)
- ECE 1673 - LINEAR CONTROL SYSTEMS (Spring/Summer)
- ECE 1701 - FUNDAMENTALS OF ELECTRIC POWER ENGINEERING (Fall/Spring)

Note:

Students cannot apply more than one course from their major toward an electrical engineering minor.

Department of Industrial Engineering

Industrial Engineering (IE) is all about choices. It is the engineering discipline that offers the most wide-ranging array of opportunities in terms of employment, and it is distinguished by its flexibility. While other engineering disciplines tend to apply skills to specific areas, industrial engineers may be found working everywhere from traditional manufacturing companies to airlines, distribution companies to financial institutions, hospitals to consulting companies, high-tech corporations to luxury retailers. Engineers are educated to design and build things, but IEs are educated to design and improve the productivity and quality of integrated systems of people, material, computers, information, equipment, and other resources. IEs draw upon the specialized knowledge and skills in the mathematical, physical and social sciences together with the principles, methods and modeling tools of engineering analysis to make improvements in business processes. In addition to making significant contributions to corporate profitability, they also make the workplace a more productive and streamlined environment. The Department of Industrial Engineering meets the challenge of the growing complexity of modern industry through an intensive educational program that includes a required international component. Building upon a solid foundation in the basic sciences, engineering, and computers, the curriculum provides the student with a capability for systems analysis and design that crosses traditional disciplinary lines and an awareness of and concern for the demands of today's dynamic social systems. The industrial engineering program is accredited by the Engineering Accreditation Commission of ABET, <http://www.abet.org>.

Certificate

Engineering Data Analytics Certificate

The Engineering Data Analytics undergraduate certificate that will prepare future Swanson School of Engineering students to take on the challenge of advancing and innovating engineering applications using the systematic acquisition, management, and analysis of data. In recent years, advances in computing, communication, and data have given rise to data analytics and digital transformation. These new fields are transforming manufacturing, communication, monitoring, and the production of new engineering applications in what has been referred to as Industry 4.0. Data analytics and digital transformation are disrupting industrial practices by the ease of acquiring data in a wide range of applications, combined with advances in distributed and high-performance computing. As a result, data analytics has been identified as the next frontier for innovation, competition, and productivity.

This certificate will require the completion of 15 credits distributed in five different domains across three different levels. An explanation of the levels and domains is provided.

1. Foundations. The foundation courses provide students with programming capabilities and think about data in a statistics framework. Programming courses will focus on Python or R. Students complete two courses that cover two separate domains to complete the foundations. The first domain is Data Science Programming, and the second domain is Inferential Statistics.

2. Expertise. Students will develop skills in the description and analysis of data sources of variability and critical relationships, the development of algorithms and data handling skills to extract and interpret information from complex data sets, and the visualization and communication of results. To complete the expertise level, students complete two courses covering two domains. The first domain is Exploratory Data Analysis, and the second domain is Modeling and Prediction.

3. Specialization. Students will work on a real-world problem with the complications of messy data, ambiguity, and lack of clear structure. This experience should include working with others with diverse skill sets and communicating with non-specialists. This requirement may be satisfied with a capstone project or a faculty-guided research project. Before taking the capstone or research course, students will meet with their respective undergraduate program director and certificate director (housed in Industrial Engineering) to verify the nature of the project can serve as the specialization course for the certificate. Students can work with instructors to tailor their discipline-specific capstone project to include a significant data analytics component (programming in R or python and some data analysis) to satisfy this requirement. Further, if the project is a capstone, the student will confirm with their program coordinator that the capstone may double for both the certificate and their senior capstone.

From these three levels, students will:

- Gain an understanding and ability to apply engineering data analytics across these three levels,
- Obtain practical, real-world experience from the specialization level, and
- Upon graduation, gain employment or pursue a graduate degree in data analytics.

We anticipate new and applicable courses may be added and approved in the future. Further, as approved by the certificate director, students may take certain Carnegie Mellon University classes through cross-registration to satisfy the certificate requirements.

Lastly, students are required to take at least nine credits beyond the courses required for their major. That is students may only double count two courses for their major and the Engineering Data Analytics Certificate.

Foundations - Data Science Programming (Select 1)

The foundation courses provide students with programming capabilities and think about data in a statistics framework. Programming courses will focus on Python or R. Students complete two courses that cover two separate domains to complete the foundations. This set of classes covers Data Science Programming.

- CEE 0109 - COMPUTER METH IN CIVIL ENGRG 1
- CS 1501 - ALGORITHMS AND DATA STRUCTURES 2
- ECE 1148 - ALGORITHMIC THINKING
- IE 0015 - INTRODUCTION TO DATA ANALYTICS
- STAT 1060 - DATA SCIENCE FOUNDATIONS (course number changed from STAT 1061 to 1060 in May 2023)

Foundations - Inferential Statistics (Select 1)

The foundation courses provide students with programming capabilities and think about data in a statistics framework. Programming courses will focus on Python or R. Students complete two courses that cover two separate domains to complete the foundations. This is the second domain, Inferential Statistics.

- BIOENG 1000 - STATISTICS FOR BIOENGINEERING
- ECE 0402 - SIGNALS, SYSTEMS, & PROBABILITY
- ENGR 0021 - PROBABILITY AND STATISTICS FOR ENGINEERS
- IE 1071 - STATISTICAL TESTING AND REGRESSION
- STAT 1000 - APPLIED STATISTICAL METHODS
- STAT 1152 - INTRODUCTION TO MATHEMATICAL STATISTICS
- STAT 1361 - STATISTICAL LEARNING AND DATA SCIENCE

Expertise - Exploratory Applied Data Science (Select 1)

Students will develop skills in the description and analysis of data sources of variability and critical relationships, the development of algorithms and data handling skills to extract and interpret information from complex data sets, and the visualization and communication of results. These courses cover the area of Exploratory Applied Data Science.

- CS 1675 - INTRODUCTION TO MACHINE LEARNING
- ECE 1147 - ALGORITHMS FOR BIG DATA
- ECE 1395 - INTRODUCTION TO MACHINE LEARNING
- ENGR 1451 - EXPLORATORY DATA SCIENCE
- INFSCI 0510 - DATA ANALYSIS
- MEMS 1300 - LINEAR ALGEBRA FOR MACHINE LEARNING

Expertise - Modeling and Prediction (Select 1)

Students will develop skills in the description and analysis of data sources of variability and critical relationships, the development of algorithms and data handling skills to extract and interpret information from complex data sets, and the visualization and communication of results. To complete the expertise level, students complete two courses covering two domains. The courses listed below encompass the domain of Modeling and Prediction.

- CEE 1370 - INTRODUCTION TO NONDESTRUCTIVE EVALUATION AND STRUCTURAL HEALTH MONITORING
- ENGR 1453 - DATA SCIENCE: STATISTICAL LEARNING, MODELING & PREDICTION
- IE 1062 - DATA ANALYTICS FUNDAMENTALS
- IE 1072 - DESIGN OF EXPERIMENTS & QUALITY ASSURANCE
- IE 1171 - DATA FOR SOCIAL GOOD
- IE 1187 - OPTIMIZATION FOR MACHINE LEARNING
- INFSCI 1530 - DATA MINING
- MEMS 1069 - DATA-DRIVEN MODELING FOR ENGINEERS
- MEMS 1120 - APPLIED ENGINEERING SIMULATION IN DESIGN

Specialization - Engineering Data Analytics Project

Students work on a real-world problem with the complications of messy data, ambiguity, and lack of clear structure. This experience includes (where possible) working with others with diverse skill sets and communicating with non-specialists. This requirement may be satisfied with a capstone project, semester-long project, or a faculty-guided research project.

Before taking the capstone or research course, students will meet with their respective undergraduate program director and certificate director (housed in Industrial Engineering) to verify the nature of the project can serve as the specialization course for the certificate. Further, if the project is a capstone, the student will confirm with their program coordinator that the capstone may double for both the certificate and their senior capstone.

A student may take ENGR 2451 or ENGR 2453 as the Engineering Data Analytics Project Specialization if they have not taken ENGR 1451 or ENGR 1453.

If a student chooses to complete their Specialization project via a Semester-Long Project-Based Class, it must be approved by the certificate director.

- CEE 1323 - PRACTICAL DATA SCIENCE AND MACHINE LEARNING
- ENGR 1099 - SPECIAL PROJECT
- ENGR 2451 - EXPLORATORY DATA SCIENCE
- ENGR 2453 - DATA SCIENCE: STATISTICAL LEARNING, MODELING & PREDICTION
- IE 2064 - DATA SCIENCE

Total Credits: 15

Health Systems Engineering Certificate

The Health Systems Engineering (HSE) certificate provides engineering students with the opportunity to apply industrial engineering principles and tools to improve healthcare systems. The HSE program has been designed to let students better understand the dynamics, structure and functions of healthcare organizations.

To complete the certificate, students must satisfy the following requirements:

- Complete six (6) credits of the required HSE courses - listed below as IE 1106 and IE 1108.
- Complete nine (9) additional approved credits from electives in the healthcare field. These can be from Industrial Engineering, the College of Business Administration, or the health-related professions. Approved courses are listed below. With approval of the undergraduate coordinator, other elective courses can be chosen from areas relevant to the student's objectives such as health-related professions or information sciences.
- Complete their Senior Design Project course in a healthcare-related organization.
- Acquire approved work experience with a healthcare organization through internships or the Cooperative Education (Co-op) program. Three of the nine (9) elective credits can be earned by completing the Co-op program within a healthcare organization.

HSE Required Courses

- IE 1106 - OPERATIONS IMPROVEMENT IN HEALTHCARE
- IE 1108 - HEALTH SYSTEMS ENGINEERING: QUANTITATIVE ANALYTICS
- Senior Design Project (focused on healthcare)

Approved Elective Courses for HSE

- IE 1014 - DATA BASE DESIGN
- IE 1102 - LEAN SIX SIGMA I (GREEN BELT)
- IE 1103 - LEAN SIX SIGMA II (BLACK BELT)
- IE 1122 - FUNDAMENTALS OF SYSTEMS ENGINEERING
- IE 1123 - PROJECT MANAGEMENT FOR ENGINEERS
- IE 1185 - STOCHASTIC MODELING AND DATA ANALYTICS IN HEALTHCARE OPERATIONS MANAGEMENT
- IE 1202 - INTRODUCTION TO MEDICAL PRODUCT DEVELOPMENT

Supply Chain Management Certificate

The Certificate in Supply Chain Management (CSCM) provides undergraduate engineering students with the opportunity to understand important concepts in supply chain management and develop technical and managerial skills which are highly valued in today's corporate environment. The program also offers an international travel experience for students to gain hands-on exposure to global supply chain organizations.

Supply chain management encompasses not only the design and planning of supply chain activities, but also the execution, control and monitoring that help companies build a competitive infrastructure and create net value. The supply chain covers all areas, not just manufacturing and services, but also includes suppliers, retailers, warehouses, logistics and customer service; all functional areas involved in receiving and filling a customer's order with a repeatable and satisfying experience. This certificate requires 15 credits to complete.

For engineering students (business students should see the requirements listed on the CBA website), the Certificate in Supply Chain Management requires students to take the following five courses:

Program Requirements

- IE 1080 - SUPPLY CHAIN ANALYSIS - 3 Credits (BUSQOM 1070 is for business students only)
- BUSSCM 1730 - MANAGING GLOBAL SUPPLY CHAINS - 3 Credits
- **CBA Supply Chain Elective Course** - 3 Credits - Choose one of the following:
 - BUSSCM 1740 - PURCHASING & SUPPLY MANAGEMENT
 - BUSSCM 1750 - REVENUE MANAGEMENT
- **Industrial Engineering Elective Course** - 3 Credits - Choose one of the following:
 - IE 1055 - FACILITY LAYOUT AND MATERIAL HANDLING (Note that since Industrial Engineering (IE) students are required to take IE 1055, they must take one of the other courses from this list. Prerequisites can be waived for non-IE engineering students on a case-by-case basis.)
 - IE 1045 - TRANSPORTATION PLANNING METHOD: OR APPLICATIONS
 - IE 1079 - LOGISTIC AND SUPPLY CHAIN ENGINEERING
 - IE 1102 - LEAN SIX SIGMA I (GREEN BELT)
 - IE 1203 - WAREHOUSE OPERATIONS
 - IE 1204 - APPLIED SUPPLY CHAIN ANALYTICS
- **Global Supply Chain Project Elective Course** - 3 Credits - Choose one of the following:
 - BUSSPP 1740 - GLOBAL STRATEGY AND COMPETITIVE ADVANTAGE (does not require travel)
 - ENGR 1228 - EXCHANGE URUGUAY-UNIVERSITY OF MONTEVIDEO
 - ENGR 1450 - ENGINEERING- THE GERMAN WAY
 - ENGR 1600 - INTERNATIONAL TECHNOLOGY: INNOVATION AND LEADERSHIP
 - ENGR 1625 - ENGINEERING BUSINESS COLLABORATIONS IN INDIA
 - *Other international project courses may also be considered*

In addition, the student must obtain a grade of C or better in each course counted toward the Certificate and a minimum QPA of 2.25 (C+ average) across all courses in the Certificate.

Major

Industrial Engineering

The areas of concentration available for Industrial Engineering students are as follows:

- Customized Research
- Data Analytics
- Engineering Management
- Health Systems Engineering
- Operations Research & Computer Modeling
- Product Development & Manufacturing Systems

Information on all areas of concentration can be found here.

Undergraduate Curriculum

The objectives of our undergraduate program are for our graduates to be:

- Successful, ethical professionals, who adapt to and drive innovations in technology and our global society in their desired career path;
- Lifelong learners and pursuers of advanced knowledge;
- Inclusive leaders who create value for their profession and/or community by utilizing their industrial engineering skills.

The IE faculty has committed itself to the broad, multidisciplinary approach needed to solve problems in today's organizations. In addition to core courses in industrial engineering, you will be exposed to the humanities and social sciences with a global focus and have the opportunity to select five technical electives. These technical electives may be chosen from specialized and advanced offerings of the industrial engineering department. In consultation with your advisor, these electives may also be selected from other programs in the University such as other engineering departments, the sciences, mathematics, economics, business, computer science, or information science.

Recognizing that engineering is an increasingly global profession, the undergraduate program is also committed to providing its graduates with the skills they need to compete on an international basis. Such skills will enable Pitt IE graduates to not only have a distinct employment advantage, but will also provide them with a cross-cultural awareness that will enhance their leadership abilities. This commitment is emphasized through an international requirement for all of our undergraduates for which students are expected to complete an international experience, or, in some cases select an integrated set of humanities and social sciences courses with a global focus. The final term of our undergraduate program includes a capstone senior design course in which you, working in small teams with other students, will complete a semester long project in a corporate setting. These projects are sponsored by local industry through our Sponsor An Industrial Engineering Team (SAINT) program, jointly supervised by an individual from the company and an IE faculty member.

The Industrial Engineering Program is accredited by the Engineering Accreditation Commission of ABET, <http://www.abet.org>, under the General Criteria and the Industrial Engineering and Similarly Named Engineering Programs Program Criteria.

For more information on the industrial engineering program, contact ugradie@pitt.edu or www.engineering.pitt.edu/industrial.

Third Term

- MATH 0240 - ANALYTIC GEOMETRY AND CALCULUS 3
- IE 1040 - ENGINEERING ECONOMIC ANALYSIS
- IE 1054 - PRODUCTIVITY ANALYSIS
- IE 1070 - PROBABILITY, RANDOM VARIABLES, AND DISTRIBUTIONS
- ENGR Elective
- IE 1085 - DEPARTMENTAL SEMINAR

Credits: 16

Fourth Term

- MATH 0280 - INTRO TO MATRICES & LINEAR ALG
- IE 0015 - INTRODUCTION TO DATA ANALYTICS
- IE 1052 - MANUFACTURING PROCESSES AND ANALYSIS
- IE 1071 - STATISTICAL TESTING AND REGRESSION
- Humanities or Social Science Elective 3
- IE 1085 - DEPARTMENTAL SEMINAR

Credits: 15

Fifth Term

- MATH 0290 - DIFFERENTIAL EQUATIONS or
- MATH 0413 - INTRO THEORETICAL MATHEMATICS
- IE 1051 - ENGINEERING PRODUCT DESIGN
- IE 1061 - HUMAN FACTORS ENGINEERING
- IE 1072 - DESIGN OF EXPERIMENTS & QUALITY ASSURANCE
- IE 1081 - OPERATIONS RESEARCH
- IE 1085 - DEPARTMENTAL SEMINAR

Credits: 15

Sixth Term

- IE 1035 - ENGINEERING MANAGEMENT
- IE 1055 - FACILITY LAYOUT AND MATERIAL HANDLING
- IE 1082 - PROBLSTC METH IN OPERATNS RES
- IE 1083 - SIMULATION MODELING
- ENGR Elective
- IE 1085 - DEPARTMENTAL SEMINAR

Credits: 15

Seventh Term

- IE 1080 - SUPPLY CHAIN ANALYSIS
- Technical Elective 1
- Technical Elective 2
- Technical Elective 3
- Humanities/Social Science Elective 4
- IE 1085 - DEPARTMENTAL SEMINAR

Credits: 15

Eighth Term

- IE 1090 - SENIOR PROJECTS
- Humanities/Social Science Elective 5
- Humanities/Social Science Elective 6
- Technical Elective 4
- Technical Elective 5
- IE 1085 - DEPARTMENTAL SEMINAR

Credits: 16

Total Credits: 126

Minor

Industrial Engineering Minor

A minor in Industrial Engineering can be earned by completing three required courses and two elective courses.

Required Courses

- IE 1054 - PRODUCTIVITY ANALYSIS
- IE 1081 - OPERATIONS RESEARCH
- ENGR 0020 - PROBABILITY AND STATISTICS FOR ENGINEERS 1 or ENGR 0021 - PROBABILITY AND STATISTICS FOR ENGINEERS or BIOENG 1000 - STATISTICS FOR BIOENGINEERING

Elective Courses

Choose any 2 of the following courses:

- IE 1035 - ENGINEERING MANAGEMENT
- IE 1040 - ENGINEERING ECONOMIC ANALYSIS
- IE 1051 - ENGINEERING PRODUCT DESIGN
- IE 1052 - MANUFACTURING PROCESSES AND ANALYSIS
- IE 1055 - FACILITY LAYOUT AND MATERIAL HANDLING
- IE 1061 - HUMAN FACTORS ENGINEERING
- IE 1080 - SUPPLY CHAIN ANALYSIS
- IE 1082 - PROBLSTC METH IN OPERATNS RES
- IE 1083 - SIMULATION MODELING

Additional Information

The student must earn a GPA of at least 2.0 in the five courses used to complete the requirements for the minor.

Department of Mechanical Engineering and Materials Science and Engineering

Materials Science and Engineering

Materials limitations often impede technological and social progress. The materials engineer applies special knowledge of the structure, behavior, and properties of materials to solve these engineering problems. The engineer may be concerned with developing and improving processes for producing metals and alloys or ceramics; developing new alloys or improving existing alloys; and/or achieving better use of alloys and other materials. New materials must be designed for a variety of functions, including structural, aesthetic, electrical, or magnetic and operating environments. Materials may come in forms so minute that the work is done under a microscope or in forms so large that special handling cranes are required.

Research efforts in the department involve work on the development of new high-strength steels, corrosion and oxidation, structural and electronic ceramics, smart materials, high-temperature materials, plastic deformation, phase transformations, and strengthening mechanisms. A number of graduate students are engaged in thesis research on these topics, and undergraduates are encouraged to work on related senior projects. The materials science and engineering program is accredited by the Engineering Accreditation Commission of ABET, <http://www.abet.org>. For more information on the program, contact undrmems@engr.pitt.edu or see <http://www.engineering.pitt.edu/Departments/MEMS/>.

Mechanical Engineering

Mechanical engineering is concerned with both energy use and the design of machines and systems in such sectors as transportation, manufacturing, materials handling, power generation, and environmental control. Mechanical engineers are involved in design, development, research, management, and related activities in these fields. The breadth and diversity of the profession requires an undergraduate curriculum that provides a sound foundation in the basic sciences, computational skills including use of computers, and the fundamentals of engineering and engineering design. This curriculum provides a base for future professional growth and is also an excellent background for those who wish to pursue careers in other professions including management, law, or medicine. The mechanical engineering program is accredited by the Engineering Accreditation Commission of ABET, <http://www.abet.org>. For more information on the program, contact undrmems@engr.pitt.edu or see <http://www.engineering.pitt.edu/Departments/MEMS/>.

Engineering Science

Engineering Science combines the study of an engineering discipline with the study of a basic science. This provides the educational background for the study of multi-disciplinary problems. Engineering Science is divided into four curricula: Engineering Physics, Nanotechnology-Physics/Materials Science, Nanotechnology-Chemistry/Bioengineering and Engineering Mechanics. Each curricula track prepares graduates to address complex problems at the intersections between fields. A degree in Engineering Science includes a comprehensive foundation in engineering and design, mathematics, and a fundamental science. In addition, the program has flexibility built in that allows students the agency to determine where they would like to develop depth to excel professionally. Engineering Science graduates are involved in design, development, research, and management, and are often leaders in their field. The Engineering Science program is accredited by the Engineering Accreditation Commission of ABET, <http://www.abet.org>. For more information on the program, contact undrmems@engr.pitt.edu or see <http://www.engineering.pitt.edu/Departments/MEMS/>.

Certificate

Engineering Simulation in Design Certificate

Computational simulation has become an indispensable engineering tool across a broad spectrum of industries and fields of study. Simulation-based approaches provide engineers with the opportunity to extend the boundaries of traditional engineering design processes. However, understanding the role of simulation within the context of an engineering system or process is essential to the successful application of these tools.

The certificate program in Engineering Simulation in Design fosters a simulation-based problem solving approach and encourages students to identify opportunities to enhance engineering analysis and design through simulation. The program adopts a mindset that is a synthesis of computational and traditional approaches. Students will leverage practical simulation skills to explore and study interdisciplinary concepts.

The certificate is designed for undergraduate students and requires 15 credits to complete made up of the following areas:

Core Skills (6 credits)

Students will choose at least two:

- MEMS 1028 - MECHANICAL DESIGN I
- MEMS 1052 - HEAT AND MASS TRANSFER
- MEMS 1047 - FINITE ELEMENT ANALYSIS
- MEMS 1071 - APPLIED FLUID MECHANICS
- MEMS 1014 - DYNAMIC SYSTEMS

Simulation Skills (3 credits)

Students are required to take:

- MEMS 1120 - APPLIED ENGINEERING SIMULATION IN DESIGN

Integrated Skills (3 credits)

Students will choose at least one:

- MEMS 1065 - THERMAL SYSTEMS DESIGN
- MEMS 1043 - SENIOR DESIGN PROJECT
- ENGR 1050 - PRODUCT REALIZATION

Each of the above courses is project based and offers the potential for student exposure to analysis and design of an integrated system. Students enrolled in the Engineering Simulation in Design certificate program must include a simulation component to their adopted project. The program coordinator will evaluate and approve projects.

Practical Skills (3 credit total)

Certificate candidates must enroll in the simulation workshop for three terms. The 1-credit workshop will be offered every term and will meet once per week. The workshop will provide a support forum for students engaged in simulation problems across the certificate program courses.

- MEMS 1121 - APPLIED ENGINEERING SIMULATION IN DESIGN (workshop)

Additional Information

For additional information about the certificate, please contact the following:

David Schmidt

509 Benedum Hall

david.schmidt@pitt.edu

Nuclear Engineering Certificate

U.S. domestic nuclear capacity has the potential to scale from ~100 GW in 2023 to ~300 GW by 2050 based on power system decarbonization modeling, which suggests that the U.S. will need ~200 GW of additional nuclear generation capacity, while creating up to 275,000 high-paying jobs. The undergraduate certificate in Nuclear Engineering is a five-course sequence, consisting of three nuclear engineering courses and two discipline-specific courses related to nuclear engineering from the various engineering departments. Any undergraduate engineering students in the Swanson School of Engineering can earn the certificate in conjunction with an undergraduate engineering degree. Qualified students in the Dietrich School of Arts and Sciences can pursue the certificate with approval from the Nuclear Engineering program director.

After earning the certificate, students should be able to do the following: apply the concepts of nuclear and reactor physics, reactor kinetics, radiation protection, fuel depletion, and heat transfer to engineering problems; apply engineering skills, knowledge, and expertise to nuclear energy problems; for light water reactors and advanced reactors, support engineering projects for the design of the reactor core and the reactor coolant system; assess important social and technical issues related to nuclear science and technology; and describe and explain the nuclear fuel cycle from mining to disposal including reprocessing and waste management.

Interested students should visit <http://www.engineering.pitt.edu/nuclear/> or contact either the Director or Associate/Academic Director of the Nuclear Engineering program; currently, these posts are occupied by Dr. Heng Ban (heng.ban@pitt.edu) and Dr. Tom Congedo (tvc9@pitt.edu), respectively.

Requirements

Fifteen (15) credits are required to complete the certificate. A minimum 2.5 GPA is required for students to participate in the certificate. Students must obtain a GPA of at least 2.5 for the courses taken. All undergraduate certificate students are required to complete three (3) courses from the list below as well as two (2) department specific courses:

- ENGR 1700 - INTRODUCTION TO NUCLEAR ENGINEERING
- ENGR 1701 - FUNDAMENTALS OF NUCLEAR REACTORS
- ENGR 1702 - NUCLEAR PLANT TECHNOLOGY

Plus two (2) Degree Specific Courses

Students should select two (2) courses from the list below that are appropriate to their degree of study.

Bioengineering

- IE 1061 - HUMAN FACTORS ENGINEERING

- BIOENG 1810 - BIOMATERIALS AND BIOCOMPATIBILITY

Chemical Engineering

- CHE 0200 - CHEMICAL ENGINEERING THERMODYNAMICS
- CHE 0300 - TRANSPORT PHENOMENA
- CHE 0400 - REACTIVE PROCESS ENGINEERING
- CHE 0500 - SYSTEMS ENGINEERING 1: DYNAMICS AND MODELING

Civil Engineering

- CEE 1340 - CONCRETE STRUCTURES 1
- CEE 1514 - ENVIRONMENTAL IMPACT ASSESSMENT
- CEE 2340 - CONCRETE STRUCTURES 2
- CEE 2343 - PRESTRESSED CONCRETE

Electrical and Computer Engineering

- ECE 1150 - COMPUTER NETWORKS
- ECE 1673 - LINEAR CONTROL SYSTEMS

Engineering Science

- MEMS 1047 - FINITE ELEMENT ANALYSIS
- MEMS 1052 - HEAT AND MASS TRANSFER
- MEMS 1063 - PHASE TRANSFORMATION AND MICROSTRUCTURE EVOLUTION
- MEMS 1071 - APPLIED FLUID MECHANICS

Industrial Engineering

- IE 1122 - FUNDAMENTALS OF SYSTEMS ENGINEERING
- IE 1301 - INTRODUCTION TO SAFETY ENGINEERING
- IE 1302 - ENGINEERING FOR PROCESS SAFETY

Mechanical Engineering and Materials Science

- MEMS 1030 - MATERIAL SELECTION
- MEMS 1033 - FRACTURE MECHANICS FOR PRODUCT DESIGN AND MANUFACTURING
- MEMS 1045 - AUTOMATIC CONTROLS
- MEMS 1047 - FINITE ELEMENT ANALYSIS
- MEMS 1052 - HEAT AND MASS TRANSFER
- MEMS 1063 - PHASE TRANSFORMATION AND MICROSTRUCTURE EVOLUTION
- MEMS 1065 - THERMAL SYSTEMS DESIGN
- MEMS 1070 - MECHANICAL BEHAVIOR OF MATERIALS
- MEMS 1071 - APPLIED FLUID MECHANICS

Non-engineering Math and Science Majors

Non-engineering math and science majors (e.g., Math, Chemistry, Physics) must complete the three (3) core Nuclear Engineering courses, provide the Director of the Nuclear Engineering a proposal for two additional courses in the student's major and obtain the Director's signed approval. The one-page proposal must include the following:

- two (2) courses from the student's major
- the catalog description of the two (2) courses
- a short statement on how these two (2) courses complement the three (3) core nuclear courses and/or apply to nuclear engineering.

This proposal will be signed by the Director or Associate Director of the Nuclear Engineering program and kept on record by the MEMS Department.

Major

Engineering Science

The following areas of concentration are available for Engineering Science students:

The Engineering Science Program is designed for students who have a strong interest in science and mathematics as well as a desire to acquire the skills and perspective of engineering. The Engineering Science Program offers flexible curricula in several interdisciplinary areas of concentration. The program is built on sequences of courses from multiple science and engineering programs. All areas of concentration combine in-depth exposure to both science and engineering and include the opportunity for both a team capstone, as well as an individual project experience. The overall goal of the program is to develop each student's ability to think analytically across disciplines and develop a knowledge base well suited to tackle future technical challenges that will require a thorough understanding of a discipline in the physical sciences and/or mathematics combined with engineering. Interested students are encouraged to pursue the Engineering Science degree jointly with the David C. Frederick Honors College (FHC) by completing the requirements for Engineering Science and satisfying the special degree requirements of the UHC. The academic requirements for the UHC joint degree and distinction pathways are waived for Engineering Science students as the department allows students to cross boundaries and work in an inherently interdisciplinary way, which is directly reflective of the goals of the UHC. The Engineering Science program is ideal preparation for graduate school in a wide range of disciplines, for rewarding careers in industry, and is an excellent background for those who wish to pursue careers in other professions, such as management, law, education, or medicine.

The program objectives for Engineering Science are to produce engineers who build successful, diverse careers based on:

- an understanding of the physical/life sciences, engineering analysis and design, and interdisciplinary problem solving;
- a commitment to ongoing professional development as exemplified by, for example, graduate study, training, conference participation, and certification;
- advancement and leadership in professional and/or community life.

The Engineering Science Program is accredited by the Engineering Accreditation Commission of ABET, <http://www.abet.org>, under the General Criteria and the Engineering, General Engineering, Engineering Physics, Engineering Science, and Similarly Named Engineering Programs Program Criteria.

For more information on the program, contact undrmems@pitt.edu or see http://www.engineering.pitt.edu/Departments/MEMS/_Content/Undergraduate/Engineering-Science/Engineering-Science-Page-Overview.

Engineering Science Undergraduate Curriculum

The Engineering Science Program currently offers the following areas of concentration:

- *Engineering Physics Concentration*
- *Nanotechnology Concentration Physics/Materials Emphasis*
- *Nanotechnology Concentration Chemistry/Bioengineering Emphasis*
- *Engineering Mechanics Concentration*

Materials Science and Engineering

Materials Science and Engineering Undergraduate Curriculum

The undergraduate program is designed to give the student a basic understanding of the structure and properties of materials, the principles underlying the processing of materials, and the concepts of engineering design and problem solving. Both theory and practice are emphasized. Laboratory experiences are integrated into the curriculum, and a variety of professional and engineering science electives are available. When desirable, specialized programs can be arranged for the students with well-defined interests and goals. Students are prepared to accept positions in production, research, and management, in both the basic materials and advanced or high-tech materials industries. This versatile education is a strong preparation for graduate work in metallurgy and materials and other related fields.

The major objectives of the program are to:

- Demonstrate successful application of materials science and engineering knowledge and skills for societal benefit through industry, public sector, or private practice.
- Pursue life-long learning through advanced professional degrees, graduate studies in mechanical engineering, professional training, or engineering certification.
- Demonstrate continuous professional and intellectual growth as leaders in their engineering profession and/or community.
- Demonstrate the ability to collaborate in an intra-disciplinary and cross-disciplinary manner to identify issues and opportunities, and create solutions likely exceeding individual capabilities alone.

The Materials Science and Engineering Program is accredited by the Engineering Accreditation Commission of ABET, <http://www.abet.org>, under the General Criteria and the Materials, Metallurgical, Ceramics, and Similarly Named Engineering Programs Program Criteria.

Third Term

- MATH 0240 - ANALYTIC GEOMETRY AND CALCULUS 3
- MATH 0280 - INTRO TO MATRICES & LINEAR ALG
- MEMS 0023 - INTRODUCTION TO MATERIALS SCIENCE AND ENGINEERING
- ENGR 0135 - STATICS & MECHC OF MATERIALS 1
- MEMS 0024 - INTRODUCTION TO MECHANICAL ENGINEERING DESIGN
- MEMS 1085 - DEPARTMENTAL SEMINAR
- MEMS 1086 - MSE SEMINAR

Credits: 16

Fourth Term

- MATH 0290 - DIFFERENTIAL EQUATIONS
- ENGR 0021 - PROBABILITY AND STATISTICS FOR ENGINEERS
- ENGR 0145 - STATICS & MECHC OF MATERIALS 2
- MEMS 0041 - MATERIALS PROCESSING
- MEMS 0048 - THERMODYNAMICS OF MATERIALS
- Humanities/Social Science Elective - 3 Credits
- MEMS 1085 - DEPARTMENTAL SEMINAR
- MEMS 1086 - MSE SEMINAR

Credits: 18

Fifth Term

- MEMS 1010 - EXPERIMENTAL METHODS IN MATERIALS SCIENCE AND ENGINEERING
- MEMS 1052 - HEAT AND MASS TRANSFER
- MEMS 1053 - STRUCTURE OF CRYSTALS AND DIFFRACTION
- MEMS 1058 - ELECTROMAGNETIC PROPERTIES OF MATERIALS
- MEMS 1059 - PHASE EQUILIBRIA IN MULTI-COMPONENT MATERIALS
- MEMS 1085 - DEPARTMENTAL SEMINAR
- MEMS 1086 - MSE SEMINAR

Credits: 15

Sixth Term

- MEMS 1011 - STRUCTURE AND PROPERTIES LAB
- MEMS 1028 - MECHANICAL DESIGN I
- MEMS 1063 - PHASE TRANSFORMATION AND MICROSTRUCTURE EVOLUTION
- MEMS 1070 - MECHANICAL BEHAVIOR OF MATERIALS
- MSE Technical Elective - 3 Credits
- MEMS 1085 - DEPARTMENTAL SEMINAR
- MEMS 1086 - MSE SEMINAR

Credits: 15

Seventh Term

- MEMS 1030 - MATERIAL SELECTION
- MEMS 1079 - SENIOR MATERIALS RESEARCH PROJECT
- MSE Technical Elective - 3 Credits
- Humanities/Social Science Elective - 3 Credits
- Humanities/Social Science Elective - 3 Credits
- MEMS 1085 - DEPARTMENTAL SEMINAR
- MEMS 1086 - MSE SEMINAR

Credits: 15

Eighth Term

- MEMS 1043 - SENIOR DESIGN PROJECT
- MSE Technical Elective - 3 Credits
- Engineering Elective - 3 Credits
- Humanities/Social Science Elective - 3 Credits
- Humanities/Social Science Elective - 3 Credits
- MEMS 1085 - DEPARTMENTAL SEMINAR
- MEMS 1086 - MSE SEMINAR

Credits: 15

Mechanical Engineering

Mechanical Engineering Undergraduate Curriculum

In the first two years, the mechanical engineering curriculum concentrates on the fundamentals of sciences, mathematics, and engineering. The last two years provide increased depth in the engineering sciences, including fluid mechanics, heat transfer, and systems analysis and also provide exposure to engineering applications, such as mechanical measurements, manufacturing, mechanical design, and thermal systems. Sufficient technical electives are allowed to permit each student to explore areas of special interest.

Course work in the social sciences and humanities is included for the enhancement of the student's awareness of the importance of social, political, and economic problems in the practice of engineering. Where appropriate, the upper-level courses introduce consideration of human values, social benefits, and constraints to prepare future practicing engineers to be responsive to such concerns.

The major objectives of the program are to:

- Demonstrate successful application of materials science and engineering knowledge and skills for societal benefit through industry, public sector, or private practice.
- Pursue life-long learning through advanced professional degrees, graduate studies in mechanical engineering, professional training, or engineering certification.
- Demonstrate continuous professional and intellectual growth as leaders in their engineering profession and/or community.
- Demonstrate the ability to collaborate in an intra-disciplinary and cross-disciplinary manner to identify issues and opportunities, and create solutions likely exceeding individual capabilities alone.

The Mechanical Engineering Program is accredited by the Engineering Accreditation Commission of ABET, <http://www.abet.org>, under the General Criteria and the Mechanical and Similarly Named Engineering Programs Program Criteria.

Third Term

- MATH 0240 - ANALYTIC GEOMETRY AND CALCULUS 3
- MATH 0280 - INTRO TO MATRICES & LINEAR ALG
- ENGR 0022 - MATERIALS STRUCTURE AND PROPERTIES
- ENGR 0135 - STATICS & MECHC OF MATERIALS 1
- MEMS 0024 - INTRODUCTION TO MECHANICAL ENGINEERING DESIGN
- MEMS 1085 - DEPARTMENTAL SEMINAR

Credits: 16

Fourth Term

- MATH 0290 - DIFFERENTIAL EQUATIONS
- ENGR 0145 - STATICS & MECHC OF MATERIALS 2
- MEMS 0031 - ELECTRICAL CIRCUITS
- MEMS 0051 - INTRODUCTION TO THERMODYNAMICS
- Humanities/Social Science Elective - 3 Credits
- MEMS 1015 - RIGID-BODY DYNAMICS
- MEMS 1085 - DEPARTMENTAL SEMINAR

Credits: 18

Fifth Term

- MEMS 0071 - INTRODUCTION TO FLUID MECHANICS
- MEMS 1014 - DYNAMIC SYSTEMS
- MEMS 1028 - MECHANICAL DESIGN I
- Engineering Elective - 3 Credits
- Humanities/Social Science Elective - 3 Credits
- MEMS 1085 - DEPARTMENTAL SEMINAR

Credits: 15

Sixth Term

- MEMS 0040 - MATERIALS AND MANUFACTURING
- MEMS 1029 - MECHANICAL DESIGN II
- MEMS 1041 - MECHANICAL MEASUREMENTS 1
- Open Elective - 3 Credits
- Humanities/Social Science Elective - 3 Credits
- MEMS 1085 - DEPARTMENTAL SEMINAR

Credits: 15

Seventh Term

- MEMS 1042 - MECHANICAL MEASUREMENTS 2
- MEMS 1052 - HEAT AND MASS TRANSFER
- ME Technical Elective - 3 Credits
- Dynamic Systems Elective - 3 Credits
- Humanities/Social Science Elective - 3 Credits
- MEMS 1085 - DEPARTMENTAL SEMINAR

Credits: 15

Eighth Term

- MEMS 1043 - SENIOR DESIGN PROJECT
- ME Technical Elective - 3 Credits
- ME Technical Elective - 3 Credits
- ME Technical Elective - 3 Credits
- Humanities/Social Science Elective - 3 Credits
- MEMS 1085 - DEPARTMENTAL SEMINAR

Credits: 15

Minor

Engineering Science Minor

The Engineering Science minor provides students in engineering or the sciences the opportunity to broaden their education in various areas. The four minor options align with the four tracks in the Engineering Science major and allow students to choose topical areas and courses they are most interested in.

- Engineering Mechanics includes Mechanical Engineering, Materials Science and Engineering, and Physics courses.
- Engineering Physics focuses on upper-level Physics courses, Electrical and Computer Engineering, and Materials Science and Engineering.
- Nanotechnology Chemistry and Bioengineering features Nanotechnology courses, Biology, Bioengineering electives, and upper-level Chemistry courses.
- Nanotechnology Physics and Materials Science includes Nanotechnology courses focusing on upper-level Physics and Materials Science courses.

Each track includes multiple program electives that allow students to customize their degree further and provide a unique experience not found in a traditional engineering minor.

Engineering Mechanics

Minor selection aligned with the engineering mechanics track of the engineering science major.

- ENGR 0022 - MATERIALS STRUCTURE AND PROPERTIES
- ENGR 0135 - STATICS & MECHC OF MATERIALS 1
- MEMS 1014 - DYNAMIC SYSTEMS
- MEMS 1015 - RIGID-BODY DYNAMICS
- MATH 1550 - VECTOR ANALYSIS AND APPLICATIONS
- PHYS 0477 - INTRODUCTION TO THERMAL PHYSICS, RELATIVITY AND QUANTUM MECHANICS
- PHYS 1000+ - UPPER-LEVEL PHYSICS ELECTIVE 1
- PHYS 1000+ - UPPER-LEVEL PHYSICS ELECTIVE 2

Engineering Physics

Minor aligned with the engineering physics track within the engineering science curriculum.

- ECE 0402 - SIGNALS, SYSTEMS, & PROBABILITY
- ECE 1247 - SEMICONDUCTOR DEVICE THEORY

- ENGR 0022 - MATERIALS STRUCTURE AND PROPERTIES
- MEMS 1053 - STRUCTURE OF CRYSTALS AND DIFFRACTION
- PHYS 0219 - BASIC LABORATORY PHYSICS SCIENCE AND ENGINEERING
- PHYS 0477 - INTRODUCTION TO THERMAL PHYSICS, RELATIVITY AND QUANTUM MECHANICS
- PHYS 0481 - PRINCIPLES OF MODERN PHYSICS 2
- ECE 0101 - LINEAR CIRCUITS AND SYSTEMS

Nanotechnology - Chemistry/Bioengineering Emphasis

Minor aligned with the nanotechnology - chemistry / bioengineering major track.

- BIOENG 1070 - INTRODUCTORY CELL BIOLOGY 1
- BIOSC 0150 - FOUNDATIONS OF BIOLOGY 1
- BIOENG - CORE BIOENGINEERING ELECTIVE 1
- CHEM 0310 - ORGANIC CHEMISTRY 1
- CHEM 1410 - PHYSICAL CHEMISTRY 1
- ENGR 0240 - NANOTECHNOLOGY AND NANO-ENGINEERING
- MEMS 1057 - MICRO/NANO MANUFACTURING
- BIOENG 1310 - LINEAR SYSTEMS AND ELECTRONICS 1
- ECE 0101 - LINEAR CIRCUITS AND SYSTEMS
- BIOENG - CORE BIOENGINEERING ELECTIVE 2

Nanotechnology - Physics/Materials Emphasis

Minor aligned with the nanotechnology - physics / materials emphasis major track of the engineering science program.

- ENGR 0022 - MATERIALS STRUCTURE AND PROPERTIES
- MEMS 0048 - THERMODYNAMICS OF MATERIALS
- MEMS 1057 - MICRO/NANO MANUFACTURING
- PHYS 0477 - INTRODUCTION TO THERMAL PHYSICS, RELATIVITY AND QUANTUM MECHANICS
- PHYS 0481 - PRINCIPLES OF MODERN PHYSICS 2
- PHYS 1375 - FOUNDATIONS OF NANOSCIENCE
- ECE 0101 - LINEAR CIRCUITS AND SYSTEMS

Total Credits: 25

Materials Science and Engineering Minor

Requirements

Undergraduate engineering students may earn a Minor in Materials Science Engineering by completing five courses.

- ENGR 0022 - MATERIALS STRUCTURE AND PROPERTIES or MEMS 0023 - INTRODUCTION TO MATERIALS SCIENCE AND ENGINEERING
- MEMS 0040 - MATERIALS AND MANUFACTURING or MEMS 0041 - MATERIALS PROCESSING
- MEMS 1053 - STRUCTURE OF CRYSTALS AND DIFFRACTION
- MEMS 1059 - PHASE EQUILIBRIA IN MULTI-COMPONENT MATERIALS
- MEMS 1063 - PHASE TRANSFORMATION AND MICROSTRUCTURE EVOLUTION

Mechanical Engineering Minor

Undergraduate engineering students can earn a Minor in Mechanical Engineering by completing two required courses and three elective courses in one of four focused option areas.

Required Courses

- MEMS 0024 - INTRODUCTION TO MECHANICAL ENGINEERING DESIGN
- MEMS 1028 - MECHANICAL DESIGN I

Focus Options/Elective Courses

Thermal-Fluids Option

- MEMS 0051 - INTRODUCTION TO THERMODYNAMICS
 - MEMS 0071 - INTRODUCTION TO FLUID MECHANICS
- and either
- MEMS 1051 - APPLIED THERMODYNAMICS or
 - MEMS 1071 - APPLIED FLUID MECHANICS

Dynamic Systems Option

- MEMS 1014 - DYNAMIC SYSTEMS
- MEMS 1015 - RIGID-BODY DYNAMICS
- MEMS 1045 - AUTOMATIC CONTROLS

Mechanical Design Option

- MEMS 1029 - MECHANICAL DESIGN II
- MEMS 1033 - FRACTURE MECHANICS FOR PRODUCT DESIGN AND MANUFACTURING
- MEMS 1047 - FINITE ELEMENT ANALYSIS

Mechanical Measurements Options

- MEMS 1014 - DYNAMIC SYSTEMS
- MEMS 1041 - MECHANICAL MEASUREMENTS 1
- MEMS 1042 - MECHANICAL MEASUREMENTS 2

Additional Information

Depending upon concentration, Bioengineering students have several different possibilities to earn a Mechanical Engineering minor.

- Bioimaging & Signals concentration students : none of the courses in any option can be used as a concentration elective. Two courses can be used to satisfy the Bioengineering 2-course, 6-credit advanced engineering/science elective requirement. Two, and possibly three, courses are extra and on your own.

- Biomechanics concentration students : MEMS 0024 and MEMS 1028 are concentration electives.

- *Thermal-Fluids Option*

BIOENG 1210 is a required course for BioE majors. MEMS 1071 is a concentration elective. MEMS 1071 can be used to satisfy the Bioengineering 2-course, 6-credit advanced engineering/science elective requirement.

- *Dynamics Systems Option*

BIOENG 1255 is a required course for BioE majors. MEMS 1015 is a concentration elective. MEMS 1045 can be used to satisfy the Bioengineering 2-course, 6-credit advanced engineering/science elective requirement.

- *Mechanical Design Option*

BIOENG 1161 is a required course for BioE majors. MEMS 1033 and MEMS 1047 can be used to satisfy the Bioengineering 2-course, 6-credit advanced engineering/science elective requirement.

- *Mechanical Measurements Option*

BIOENG 1255 is a required course for majors. MEMS 1041 and MEMS 1042 can be used to satisfy the Bioengineering 2-course, 6-credit advanced engineering/science elective requirement.

- CE concentration students : all options can use two of the courses to satisfy the Bioengineering 2-course, 6-credit advanced engineering/science elective requirement. At least one other course is extra and on your own.

- MPE concentration students : MEMS 0024 and MEMS 1028 are concentration electives.

- *Thermal-Fluids Option*

BIOENG 1210 is a required course for BioE majors. MEMS 1071 is a concentration elective. MEMS 0071 can be used to satisfy the Bioengineering 2-course, 6-credit advanced engineering/science requirement.

- *Dynamics Systems Option*

BIOENG 1255 is a required course for BioE majors. MEMS 1015 and MEMS 1045 can be used to satisfy the Bioengineering 2-course, 6-credit advanced engineering/science elective requirement.

- *Mechanical Design Option*

BIOENG 1161 is a required course for BioE majors. MEMS 1033 and MEMS 1047 can be used to satisfy the Bioengineering 2-course, 6-credit advanced engineering/science elective requirement.

- *Mechanical Measurements Option*

BIOENG 1255 is a required course for majors. MEMS 1041 and MEMS 1042 can be used to satisfy the Bioengineering 2-course, 6-credit advanced engineering/science elective requirement.

School of Health and Rehabilitation Sciences

School of Health and Rehabilitation Sciences

The University of Pittsburgh School of Health and Rehabilitation Sciences (SHRS) is a nationally renowned leader in the field of health care education, research and clinical practice preparation. With 14 different disciplines related to health and rehabilitative care, SHRS shapes future generations of health care professionals-therapists, counselors, advocates, scientists, providers and practitioners-trained to serve the needs of all people regardless of background, levels of health or mobility. We are built on a legacy of academic excellence and innovation and fueled by passionate educators and researchers, allowing us to meet the health care and rehabilitation needs of today and drive meaningful change in the future. Learn how bold moves SHRS. #BoldMovesSHRS

SHRS Vision, Mission and Values

Established in 1969 as a health sciences school of the University of Pittsburgh, SHRS stands on its solid reputation as an international leader in rehabilitation and disabilities education, research and community service, improving the lives and independence of all people with a focus on people at risk for or having chronic conditions or disabilities and those who have traditionally been underserved and underrepresented.

Our Vision

To be a catalyst for a world free of barriers and disparities that allows all people, regardless of health, to have opportunities to participate in life to the fullest; to be accomplished through education, research, and service.

Our Mission

To advance health, rehabilitation and reintegration service delivery through teaching, research and professional service.

We advance our Mission and pursue our Vision by:

- Providing an unparalleled environment for education and training
- Supporting an inter-professional approach to research to address challenges of people with acute and chronic conditions and disabilities.
- Collaborating with local, national and international partners to address and improve integration of rehabilitation services in health care delivery systems, community engagement and models of care.

Our Values

- **Advocacy** - for those less fortunate or with limited access seeking greater independence
- **Excellence** - in all endeavors and facets of our work
- **Inclusion** - in student, faculty and staff composition, recruitment, retention and advancement with a major focus on inclusion of all people regardless of race, culture, gender, age, ethnicity, socio-economic experience, ability, disability, religion, gender identity and expression or sexual orientation
- **Innovation** - in teaching and educational curricula, research, technology and product development
- **Integrity** - through uncompromising adherence to ethical principles, truthfulness, dignity and respect in all that we do

- **Service** - to all, including the disabilities community, in regard to rehabilitation and health services with a commitment to social responsibility

Philosophy of Undergraduate Education

SHRS faculty base their teaching upon contemporary best practices, scientific research, clinical service, and participation in their respective professional associations. Faculty research and service typically occurs through multidisciplinary collaboration in diverse health care and research environments. Consequently, both entry-level and advanced students are exposed to state-of-the-science curricula, which are continually reviewed from the perspective of new investigational findings, technological developments, changing public policy and accepted clinical and management practice.

Our students are educated and trained to question the basis of current practice, and to challenge prevailing models and assumptions. The entry-level curricula reflect the importance of effective team participation in an interdisciplinary and rapidly changing environment. Emphasis is given to the student's development of analytical problem-solving and human relations skills required for effective clinical and supervisory practice. The student is confronted with the transition between a professional commitment to providing high quality care and service, while recognizing the effects of competitive pressures and cost constraints upon the health care organization.

The primary objective of our entry-level professional programs is to educate knowledgeable, skilled, and ethically responsible practitioners, committed to their respective professions and to the high standards of health care and rehabilitation services.

The primary objective of our pre-professional programs is to provide students with excellent preparation for entry-level professional health care educational programs offered at the graduate level, either at the University of Pittsburgh or elsewhere.

Contact Information

University of Pittsburgh
School of Health and Rehabilitation Sciences
Office of the Dean

Upper-Division Programs and Certificates

SHRS is an upper-division school at the University of Pittsburgh, which means students must have approximately 60 college credits to enter our undergraduate programs. Each program has prerequisite courses that students typically take during their first and sophomore years while simultaneously earning general education credits. Students then apply to an SHRS program during their sophomore year, roughly after completing 45 credits. When applying to SHRS, students can be in the process of completing required credits and admission requirements.

Undergraduate Programs

- Communication Science (BA)
- Emergency Medicine (BS)
- Health Informatics (BS)
- Nutrition Science (BS)
- Rehabilitation Science (BS)

Accelerated Programs

- Athletic Training, Accelerated MS
- Dietitian Nutritionist, Accelerated MS

Certificate programs offered through the undergraduate program in Rehabilitation Science:

- Assistive Technology in Rehabilitation
- Pathokinesiology in Rehabilitation
- Psycho-Social Issues in Rehabilitation and Personal Care

Admission

SHRS is committed to fostering a diverse and inclusive academic environment to create a more equitable health care system by welcoming applicants of all abilities/disabilities, religions, marital statuses, familial statuses, sexes, ages, sexual orientations, veteran statuses, national origins, all ethnic and racial backgrounds, genetic information, and gender identities and expressions.

Each upper-division undergraduate and accelerated program at SHRS has specific admission requirements. Please visit the SHRS Program and Course Offerings section of this catalog for detailed information.

Application Procedures

Students enrolled at the University of Pittsburgh (all campuses) apply to SHRS undergraduate and accelerated programs by completing an internal upper-level application.

Transfer students must apply to the University of Pittsburgh through the Pitt Admissions Office and also submit the internal upper-level application. Please visit <https://www.shrs.pitt.edu/admissions/undergraduate-application-process> for more information.

Admission Status

Full status is granted to those who have met all admission criteria and have been admitted either as full-time or part-time students for study toward the baccalaureate degree. Students enrolled in accelerated programs must maintain a 3.000 minimum GPA to progress from the undergraduate to graduate portion of their program.

Conditional status is granted to those who are in the process of completing prerequisite courses. These students must complete all requirements successfully prior to matriculation. At the discretion of the Department Chair, students may be admitted to an SHRS undergraduate program with a maximum of two courses of prerequisite work remaining to be

taken in their designated program. Any outstanding prerequisite work taken while enrolled in an SHRS undergraduate program must be completed by the end of the fall term of the senior year.

Non-Degree status is granted to those who enroll at SHRS to take courses for credit without reference to a degree.

Admission to most SHRS undergraduate programs is on a competitive basis as class sizes are limited. Students are strongly encouraged to complete as many prerequisites as possible prior to applying and to apply by the application deadlines published by the individual departments. Applications will be evaluated, and qualified applicants will be admitted until classes are filled.

Deferral of Admission

Requests to defer admission must be submitted by the student, in writing, BEFORE the start of the first term. If approved, the student must pay the tuition deposit (if required) which will be held by Student Financials and applied to their account, if enrolled. If they do not enroll, the deposit is forfeited.

Request for Readmission

In each of the circumstances below, the student will be discontinued from PeopleSoft and must initiate reinstatement to rejoin the program by contacting their program director.

- If a student begins their 1st term and then drops all courses BEFORE the add/drop deadline.
- If a student begins their 1st term and then requests to withdraw from all classes AFTER the add/drop deadline and before 60% of the term has passed, the student would need to go through the Student Appeals office Tuition Adjustments | Student Payment Center and their tuition will be prorated based on the last day of attendance.
- In extenuating circumstances, at the discretion of the Department Chair and the Associate Dean, a student could request a late drop of the enrollment after the add/drop deadline which would remove the courses from their transcript and their bill.

Financial Information

Tuition and Fee Rates

Tuition and fee rates are available on the Financial Information page, in the University Catalog. The tuition chart is online at Undergraduate Tuition & Mandatory Fees.

Full-time students

Undergraduate students registered for 12 to 18 credits in the Fall and Spring Terms are regarded as full-time students, and are assessed the current undergraduate "flat" tuition rate for their academic center.

Undergraduate students registered for fewer than 12 credits are considered part-time, and are billed on a per-credit basis.

Students will be charged per credit for each credit exceeding the maximum full-time credit limit.

Summer Term: All students are billed on a per-credit basis.

Residency/Reduced Tuition

Students who reside in the Commonwealth of Pennsylvania may be eligible for reduced tuition through state appropriations.

Eligibility is determined by criteria outlined in the University of Pittsburgh Guidelines for Determining Eligibility for Reduced Tuition Rates, available online at <http://payments.pitt.edu/pa-tuition-rate-eligibility/>

Additional Fees

Lab Fees: Lab courses may incur an additional fee to cover laboratory expenses. These fees will be charged to the student directly and will appear on the invoice generated by Student Accounts in addition to tuition and other fees each semester.

Financial Obligation of Students

The University of Pittsburgh has the right to withhold services if a student defaults on any financial obligation until repayment arrangements have been made that are satisfactory to the office or department to which the debt is owed.

Scholarships, Grants and Financial Aid

If you are interested in applying for loans, scholarships, grants, or work study, you should call, write or visit the University of Pittsburgh, Financial Wellness Center, 139 University Place, Thackeray Hall, Pittsburgh, PA 15260, 412-624-PITT, University of Pittsburgh Financial Aid. See also the SHRS website financial information page.

SHRS Scholarships and Awards

General information on scholarship and awards can be found at: SHRS Financial Information Page on our website. Contact individual departments for information on scholarships and awards specific to your area of study.

SHRS Academic Regulations

Academic Integrity Policy

Students have the responsibility to be honest and to conduct themselves in an ethical manner while pursuing academic studies. Students have the right to be treated by faculty in a fair and conscientious manner in accordance with the ethical standards generally recognized within the academic community (as well as those recognized within the profession). Should a student be accused of a breach of academic integrity or have questions regarding faculty responsibilities, procedural safeguards including provisions of due process have been designed to protect student rights. *SHRS Guidelines on Academic Integrity: Student and Faculty Obligations and Hearing Procedures.*

In addition to the University-wide regulations and standards detailed in the section on General Academic Regulations, each student in SHRS is expected to be familiar with these school-specific regulations and academic Standards:

- It is the student's responsibility to review her/his academic standing, to identify undergraduate program requirements and prerequisites for intended undergraduate program(s) and to monitor their completion.
- All required and prerequisite coursework must be taken for a grade, when letter grade option is available.
- Students must receive a C- or better in each required course and SHRS elective course to earn credit.
- Students must earn a grade of C- or higher in any course intended to count towards their SHRS major and as written in the SHRS Plan of Study. This includes general education requirements, pre-requisites, and elective courses that are part of the degree requirements.

- Any student who does not earn a C- or better in any coursework should consult with their academic advisor.
- All Pitt grades will still appear on the transcript and be calculated into the GPA unless the student repeats the course. However, credits from courses in which student has earned unacceptable grades will not be counted toward graduation.
- Students who receive a grade below a C- in a required course must repeat that course and attain a grade of C- or better.
- Students will not be permitted to register for a course until they attain a C- or better in its prerequisite.
- Failure to receive an acceptable grade after the second repeat of a required course may result in the student being dismissed from the program and SHRS.

SHRS General Education Requirements

SHRS students must complete the general education requirements before graduating. Our General Education Requirements are included in our upper-level program prerequisites and curriculum requirements.

CATEGORY	MINIMUM SHRS REQUIREMENTS
• WRITING/COMMUNICATION	3 courses <ul style="list-style-type: none"> • 1 SEMINAR IN COMPOSITION* course. <i>Students may be exempt from the composition requirement with a 660 or above Evidence-Based Reading and Writing SAT score or an ACT English score of 27 and a 5 on the AP English: Language and Composition or AP English: Literature and Composition.</i> • 1 Writing Intensive** course - ENGCOMP 0400, 0530, 0535 recommended • 1 Oral Communication course - COMMRC 0520 preferred; 0310, 0500, 0510, 0530 acceptable
B. ALGEBRA & QUANTITATIVE AND FORMAL REASONING	2 courses <ul style="list-style-type: none"> • 1 ALGEBRA* course. <i>Students may be exempt from the algebra requirement with a 620 or above Math SAT or a 27 and above Math ACT.</i> • 1 Statistics course - STAT 0200 or 1000
C. DIVERSITY	• 1 DIVERSITY* course.
D. HUMANITIES AND ARTS, SOCIAL SCIENCES, NATURAL SCIENCES	3 courses <ul style="list-style-type: none"> • 1 LITERATURE*, THE ARTS*, CREATIVE WORK* or PHILOSOPHICAL THINKING AND ETHICS* course. <i>Consider courses in bioethics and those with a disability or health & medicine focus.</i> • 1 SOCIAL SCIENCES* course. • 1 NATURAL SCIENCES* course. <i>Check with program to verify if a lab is required.</i>
E. GLOBAL AWARENESS AND CULTURAL UNDERSTANDING	• 1 CROSS-CULTURAL AWARENESS* , GLOBAL ISSUES* , HISTORICAL ANALYSIS* , or SPECIFIC GEOGRAPHIC REGION* course. <i>Study Abroad may be accepted. Consider courses with a disability or health & medicine focus.</i>

*See requirement lists in the Dietrich School of Arts and Sciences General Education Course Catalog.

**Search in PeopleSoft Mobile, Class Search, for High Impact Practices - Writing Intensive Course.

Allowable Credits

Students enter the upper-division undergraduate and accelerated programs at SHRS with approximately 60 credits and must take all courses required by their program.

Up to 30 additional credits of undergraduate coursework completed at a four-year academic institution may be granted pending approval of the Program Director. The Program Director must:

- review and approve these additional credits,
- indicate additional classes/credits on the student's Plan of Study, and
- submit a request to accept additional credits to the Director of Academic Advising and Student Success,
- all required academic work for a degree in SHRS, including courses for which advanced-standing credit has been granted, must be completed within ten (10) consecutive calendar years. Departments have the discretion to lessen this number for specific coursework deemed integral to the course of study in a particular discipline.

Exception: Paramedics and active-duty military students with equivalent licensure enter the Emergency Medicine (BS) program with 90 credits.

Some SHRS programs may allow students to earn particular course credits by successful completion of the following:

Advanced Placement (AP) and International Baccalaureate (IB) Credits

See <https://admissions.pitt.edu/first-year-student/ap-ib-credit/> for credits and course equivalencies currently granted by the University of Pittsburgh for Advanced Placement and International Baccalaureate examinations.

College Level Examination Program (CLEP)

SHRS does NOT accept CLEP general examination credits.

Credit by Course Examination

The following regulations govern this procedure:

- The individual department shall determine specific courses open to examination.
- A student may not earn credit by examination if the student has previously taken the course.
- Students may obtain the form, Credit by Course Examination, from the Office of Student Services. Enrolled students must apply for examination during the term preceding the term in which the course is scheduled. Newly admitted students may apply and take the examination early in the term in which the course is taught.
- The Credit by Course Examination form and a check or money order for the appropriate fee must be processed in the Cashier's Office, G-7 Thackeray Hall, for validation prior to taking the examination. Upon passing the examination, the department will submit the Credit by Course Examination form to Student Services. Students will receive advanced standing credit for the course, which may be applied towards graduation. If a student fails the exam, neither a failing grade nor credits will be posted on the transcript. An exemption examination may be taken only once per course. The

faculty of each Department will determine the number of courses that can be exempted by students enrolled in that academic program.

Online Courses

The acceptance of online coursework is at the discretion of the department to which the student is applying. All online coursework must be taken at a regionally accredited institution.

Educational Experiences in the Armed Services Credits

SHRS will evaluate credits earned as part of Educational Experiences in the Armed Services.

Reserve Officer Training Corps (ROTC)

SHRS will grant up to four credits toward graduation for the following courses in lieu of or in combination with PEDC (Physical Education) courses: AFROTC 0001, 0002, 0003, and 0004; MILS 0011, 0012, 0021, and 0022.

Also, upper-level ROTC courses may be used as electives in meeting SHRS degree requirements. These courses include AFROTC 1013, 1014, 1015, and 1016 (all 3-credit courses); MILS 1031, 1032, 1041, and 1042 (all 1-credit courses).

Transfer Credit Policy

- At the time of application coursework completed outside the University of Pittsburgh is evaluated by SHRS Admissions to determine if it meets the University and SHRS policy required for transfer.
- A maximum of 60 credits can be transferred from a two-year degree program; and a maximum of 90 from a four-year college/university.
- Courses must be passed with a grade of C or better and must be earned at an appropriately accredited institution. Courses must have reasonable equivalents at the University of Pittsburgh to be eligible for transfer. When requested, students are responsible for supplying descriptions for courses taken elsewhere.
- The number of credits granted for a given course cannot exceed the number awarded for the course on the transcript of the school where the course was taken, or the number earned for the corresponding course at the University of Pittsburgh.
- Credits earned on the quarter system will be converted into semester credits. A quarter credit is equal to two-thirds of a semester credit (e.g., five quarter-system credits equal three semester credits, and three quarter-system credits equal two semester credits).
- SHRS accepts credits, but not grades, for transfer. Consequently, any courses that are accepted for transfer will be used as credit toward graduation but will not be calculated into the student's GPA at the University of Pittsburgh.
- Contact admissions@shrs.pitt.edu for information about transfer credit evaluation.
- Please note: All transfer credits are subject to re-evaluation when a student transfers from one school to another within the University of Pittsburgh.

Transfer Students Credit Evaluation

Upon application, transfer students will receive a formal credit evaluation. Following admission, transfer students will receive formal notification from SHRS indicating which requirements have been satisfied and if any prerequisite coursework or credits are outstanding.

Current SHRS students taking courses off campus for transfer credit

Current SHRS students in good academic standing (cumulative GPA of at least 2.00), including students admitted to SHRS who need to complete prerequisites prior to starting their program, may attend another accredited institution in

order to complete their degree requirements, provided they receive prior approval from the Director of Academic Advising and Student Success. Students are required to fill out an approval form and provide appropriate course descriptions. They must send this form with the descriptions to: advising@shrs.pitt.edu. Students will not receive credit for courses taken without advance approval. SHRS students may not enroll in courses outside the University of Pittsburgh in the semester they are graduating from SHRS.

Advising

Academic and faculty advisors for SHRS undergraduate students are assigned by the Program Directors. Students are notified of the name of their advisor by their department.

Change of Advisor

Requests for an advisor change should be submitted to the Director Academic Advising and Student Success who shall review the request.

Plan of Study

Every student in SHRS must have a Plan of Study. The academic advisor manages the Plans of Study, and each department has access to these plans. Revisions to the Plan of Study must be approved by the academic/faculty advisor or Department Chair.

In order to be certified for graduation, students must successfully complete all courses outlined in their final Plan of Study along with any other requirements for the degree. A final Plan of Study will be submitted to Student Services by the academic advisor in the graduating term.

Dual Degree Option

- Students may pursue dual degrees within SHRS or between SHRS and another school at the University. SHRS follows the University policy concerning dual degrees.
- The student must complete 150 credits accepted by the University.
- The student must complete all requirements necessary to complete each degree.
- The student must receive both degrees simultaneously.
- The student must be admitted and enrolled in SHRS as their primary academic center for half the terms necessary to complete both degrees, typically this is 4-5 semesters.
- Students must contact SHRS Admissions Office to be admitted prior to the midpoint of their studies.

David C. Frederick Honors College

Students enrolled in SHRS programs are eligible for membership in the David C. Frederick Honors College and to participate in earning Honors College recognition. For more information and to learn more about the various levels of engagement, go to the following links for Honors Outside the Classroom Curriculum (OCC) Honors OCC, Honors Distinction, Honors Distinction, and Honors Joint Degree.

Independent Study

Independent study allows the student to pursue independent academic work for credit. The independent study must be supervised by an SHRS approved faculty member. To register for an independent study, the student must:

- Identify and develop an independent study project with independent study supervisor to include objectives for the independent study, methods to be used to meet those objectives, and measurable assessment methods for determining degree to which objectives were met. Independent studies must have an academic focus, and the academic rigor of the objectives and assessment methods will determine the number of credits to be earned.
- Complete the *Independent Study form which will need to be signed by* the Independent Study supervisor, academic/faculty advisor, and Associate Dean of Undergraduate Studies.
- Submit completed *Independent Study form to their advisor for enrollment.*

Clinical Education and Directed Practice

- All clinical education sites must have current contracts with the University of Pittsburgh.
- Each program's clinical education coordinator will assign students to their clinical education site.
- Students must provide proof of HIPAA certification with registration.
- Student must provide proof of Blood Borne Pathogen certification with registration
- Students are required to carry personal health insurance.
- Students must provide proof of having undergone a physical exam, blood work, and vaccinations.
- A list of exam and vaccination requirements and required forms will be provided by the clinical education coordinator.

Some SHRS programs require that students complete clinical education at facilities internal or external to the University and may require completion of 1) Pennsylvania Department of Human Services Child Abuse History Clearance; 2) Pennsylvania State Police Criminal Record Check; 3) FBI Criminal Record Check to determine whether the student is qualified to participate in clinical education. If these are deemed to be required and the student has not already done so, the student should immediately start the process of obtaining these three clearances and background checks.

The Commonwealth of Pennsylvania has posted information on how to obtain these clearances and background checks here: <http://www.dhs.state.pa.us/findaform/childabusehistoryclearanceforms/S001087>.

Additional requirements may also include a drug screen, CPR training, attending orientation sessions, compliance with dress code, and personal transportation. Each program's clinical education coordinator will advise students of additional program or site-specific requirements and instructions on how to submit required documentation to verify completion of all requirements.

Students may be required to travel a distance or to relocate outside the city for their clinical education assignments. All expenses for transportation, housing, food, etc. are the responsibility of the student. Any student who misses clinical education time for any reason must meet with their clinical education coordinator to discuss any needed make-up time. See individual programs for specific details regarding clinical education.

Health Insurance Portability and Accountability Act (HIPAA)

All SHRS students participating in clinical education or field experience must complete HIPAA certification training prior to beginning at the clinical/field site. No clinical contact in a "covered entity" will be allowed before certification is completed. (Student should see individual department information regarding additional HIPAA certification requirements.)

Procedure for completing HIPAA certification: Go to <http://cme.hs.pitt.edu>. Look for UPMC HIPAA Security Awareness Training for Physicians (formerly RPF Module 15) and HIPAA Physicians Privacy Awareness Training by UPMC (formerly RPF Module 8). Complete the UPMC HIPAA Security Awareness Training for Physicians and HIPAA Physicians Privacy Awareness Training by UPMC. Complete the quizzes. Print certificates, complete all information, sign them, and turn them into your department.

Blood Borne Pathogen Training and Certification

All SHRS students who will be going into a clinical setting must complete Blood Borne Pathogen (BBP) training and certification annually. This certification must be completed prior to the beginning of the term in which the clinical setting will begin. No clinical placement will be allowed before certification is completed.

Procedure for completing online BBP training and certification: Go to <http://cme.hs.pitt.edu>. Look for Blood Borne Pathogen Training (formerly RPF Module 9). Complete Blood Borne Pathogens Training. Complete the quiz. Print certificate, complete all information, sign it, and submit it to your department.

Enrollment Status

A student must be registered **for at least one credit in a twelve (12) month period** from the time of admission until the degree is granted **in order to maintain active status**. Those students who fail to observe this rule will be placed on inactive status and will have to seek formal readmission in order to continue in the program. If active status is not maintained, the student is not permitted to use University facilities or receive counseling or active supervision by a faculty member, advisor, or committee.

Undergraduate students cannot enroll for more than (18) units without approval from the SHRS Registrar. Only the SHRS Registrar can enroll you after you receive approval for the additional unit(s).

Undergraduate students registered for 12 to 18 credits in the Fall and Spring Terms are regarded as full-time students.

Students cannot enroll in courses that meet at the same time.

Enrollment in Graduate Courses

University of Pittsburgh undergraduate students with sufficient preparation are permitted to enroll in certain graduate courses at the University following procedures determined by each school. The graduate credits earned may be counted toward the undergraduate degree if approved by the student's school. These may not be counted as credits toward a graduate degree except as noted below.

Undergraduate students who need fewer than 15 credits to complete requirements for the baccalaureate degree and who intend to continue study toward an advanced degree may be permitted during their final term to register for graduate courses that will later apply toward a graduate degree. The student must obtain written permission from the school of proposed graduate study that the courses may count when and if the student is admitted into the graduate degree program. This privilege should not be granted if the proposed total program exceeds a normal full-time load. Although

these credits will appear on the undergraduate transcript, they will not count toward fulfilling undergraduate degree requirements. They will be posted as advanced standing credits on the graduate transcript.

Extended Drop Period

Under special circumstances, undergraduate students may be eligible to drop a course in the third week of the fall or spring semester. Students must meet all the following criteria to drop a course during the extended drop period:

Students must meet all the following criteria to drop a course during the extended drop period (Only Fall & Spring term):

- must be an Undergraduate student and the course you are dropping must be an Undergraduate course,
- students must remain in full-time status after dropping the course(s),
- students must review the proposed drop with their academic advisor.

If the student's advisor finds that the student is eligible, the **academic advisor** must provide permission to drop via email to the SHRS Student Services Coordinator. **Students do not have access to drop classes during the extended period.**

- The email request must include all student and course information. (student's name, PeopleSoft ID number, subject, number, section, credits) to process the drop(s).

Monitored Withdrawal

After the add/drop period has ended, students may withdraw from a course that they no longer wish to attend by completing a Monitored Withdrawal Request form in the office of the school offering the course. Students must process the Monitored Withdrawal Request form within the first nine weeks of the term in the fall and spring.

Because summer sessions vary in length, students should check the University's Academic Calendar for those deadlines. Students should check with the school offering the course for the last day to submit a Monitored Withdrawal Request form. The grade "W" will appear on the student's grade report and transcript. There is no financial adjustment to students' tuition or fee obligations involved in withdrawing from courses, but withdrawing may jeopardize satisfactory academic progress, financial aid, and assistantships or fellowships.

The form must be signed by the instructor of the course and be returned to the SHRS Director of Student Services, Registrar, within the first nine weeks of the fall or spring term.

Late Withdrawal procedure

Procedure for an Appeal for Late Withdrawal

After the Monitored Withdrawal deadline has passed, students may appeal to withdraw from a course by submitting an Appeal for Late Withdrawal. The form can be found on the SHRS Student Life website, in the Forms tab.

All appeals for late withdrawal must be for non-academic reasons, i.e. medical or family emergencies. If you are trying to withdraw without extenuating circumstances, your appeal will be denied.

- Appeals must be submitted to the Dean's Office of the school offering the course, regardless of the student's home school.
- Appeals for Late Withdrawal from SHRS courses should be submitted to the SHRS Registrar.

You will be notified of the Associate Dean's decision via your student email account. Appeals for late withdrawal must be submitted before the end of the 13th week of the semester.

After the 13th week, students can only appeal to withdraw from the entire semester.

If your request is approved and you accept the grade of "W" there is no tuition adjustment for withdrawing from the course.

Repetition of Courses

Consult with your academic advisor for the proper procedure of repeating a class and for information on how this will affect your grades and the calculation of your Grade Point Average (GPA). When you repeat a class, you must officially enroll and pay for the class again.

University policy prohibits any student from attending a class without being officially enrolled for that class. A repeated course has a notation appearing underneath the previous course taken designating that it is excluded from the GPA. The original course and grade will always remain on your record/transcript. Please note that the Course Repeat form can only be processed before the student completes the degree for the program. Once a student receives the bachelor's degree, they are unable to submit a course repeat if they decide to retake a course after they graduate. For instance, undergraduate students can only retake courses while they are still enrolled in the undergraduate program. Students enrolled in one of the accelerated master's programs cannot submit a request for a Course Repeat once they complete the bachelor's degree.

Students are only permitted to repeat a course twice; the course cannot be taken more than three times.

NOTE: Any grade earned in the repeated course will be recorded on the academic transcript, even if it is lower than the original grade.

- A sequence course may not be repeated for credit if the student passes a higher sequence course with a C or better grade.
- A student may not enroll in the same course at another institution and have that grade replace the original grade earned at the University.
- The original course and grade remain on the transcript; however, the grade and credits originally earned are not counted in the calculation of the GPA.

Statute of Limitations on Allowable Coursework

All required academic work for a degree in SHRS, including courses for which advanced- standing credit has been granted, must be completed within ten (10) consecutive calendar years. Departments have the discretion to lessen this number for specific coursework deemed integral to the course of study in a particular discipline.

Resigning from the University for a Specific Term

If students decide to drop all their courses after the add/drop period has ended and before 60 percent of the term or session has been completed, they must resign from the University for that term. Official resignation from the University requires students to contact the Student Appeals Office. Students have several options. They may resign in person, by mail, or by calling 412-624-7585, where students may leave a message 24 hours a day, including weekends and holidays. An R grade will appear on the student's academic transcript. Tuition is prorated from the date of the student's notification to the Student Appeals Office of the student's desire to resign, unless 60 percent of the term has been completed, in which case there is no refund.

After the 60 percent point of the term or session has passed, students who wish to terminate their registration may process a withdrawal from all classes only with the permission of their academic dean. If the reason for withdrawal is medical or psychological in nature, the academic dean may consult with the director of the Student Health Service prior

to making a determination. There is no financial adjustment associated with this procedure, which results in the assignment of W grades for the courses.

Please visit the Student Payment center resignation page on the University of Pittsburgh website for more information.

Leave of Absence

Under special conditions, a leave of absence is available for students enrolled in the second term or later of their program.

- To request a LOA, the student, along with their advisor, must complete the SHRS **Request for Leave of Absence - Undergraduate Program** form, which can be found on the SHRS Student Life website, in the Forms tab. This form must be submitted to Student Services for approval.
- The length and rationale for the leave of absence must be approved by the Associate Dean. If approved, the time of the leave shall not count against the total time allowed for the degree (statute of Limitations) being sought by the student.
- If a student requests a leave for up to 1 year, and they are auto discontinued from PeopleSoft due to 3 consecutive terms of no enrollment, they will automatically be readmitted by the Admissions office to return.
- If the reason for the leave is medical in nature, a formal note from a doctor must be included with the request. Reinstatement is not guaranteed. Students who have been dismissed from SHRS for academic reasons or who have not enrolled at SHRS for three consecutive terms must request reinstatement by contacting their program director.

Failure to Communicate

Students should stay in regular communication with their academic advisor and faculty members. SHRS defines **Failure to Communicate as not responding to two (2) requests for communication with faculty or staff or failure to attend one (1) required meeting with faculty or staff.**

If the student is enrolled in the term and fails to communicate,

- They will be assigned the grade earned in the course.
- Student grades will be assigned based on performance in the course, including failing grades for any missed assignments, at the instructor's discretion.
- If the course is a required course for degree completion, the student will need to repeat the course.

If a student is **NOT enrolled in the current term or drops all courses by the term's add/drop deadline** and has **NOT done A or B below**, they will be subject to dismissal from the program.

- communicated with their advisor or department the reason for withdrawing, or
- has not requested a leave of absence by the add/drop deadline and fails to communicate

To facilitate regular communication, students are strongly encouraged to:

- Check their Pitt email regularly.
- Inform their academic advisor, faculty, or department chair of difficulties that may impact their academic standing.
- Seek help as needed.
- Make and keep regular advising/registration appointments with their academic advisor.

Grading Policy

All SHRS undergraduate programs adhere to the University's grading system and grading policies for graduate students. Please refer to the Office of the University Registrar on Grades or the University Catalog on Grading and Records..

Course Grading

The method of evaluation and grading is the prerogative of the course instructor and is based on the course objectives and expectations. SHRS faculty have the option of issuing "+" or "-" grades. SHRS faculty also have the option of assigning letter grades or HSU evaluations, as printed in the course catalog and determined at student's enrollment. Students will be apprised of the evaluation procedure by the instructor at the beginning of each course. It is the student's responsibility to request clarification of any evaluation or grading policy.

SHRS (G) Grade Policy

The G grade signifies unfinished course work due to extenuating personal circumstances. Students assigned G grades are required to complete course requirements no later than one year after the term or session in which the course was taken.

A student should not request or be given a "G" grade if, in actuality, they need to repeat the course. The G grade should only be given if they had an extenuating circumstance (medical issue, family issue, etc.) that did not allow them to complete coursework.

If a G grade is not changed by the next term add/drop deadline (Summer term included) the instructor will submit an online G grade form which will include objectives to be completed and expected date of completion. This form will be sent to the student to review and agree to, and a completed form will be placed in the student's file when the work is completed, and the grade is changed.

Completing the work by the Date of Completion:

When the work is completed, the instructor will enter an online grade change to update the grade on the student record.

Not completing the work by the Date of Completion for an G grade:

- If the date of completion agreed upon is prior to the one-year deadline and the work is NOT completed by that date, the instructor reserves the right to change the grade to the grade earned.
 - If the grade earned is a failing grade the student will be required to re-register for the course if it is needed to fulfill requirements for graduation.
- If the date of completion is the one-year deadline and the work is NOT completed by that date, the G grade will automatically change to NG and will no longer appear as "in progress" on a student record.
 - The NG grade will remain on the record and the student will be required to re-register for the course if it is needed to fulfill requirements for graduation.

Dean's List for SHRS

The SHRS Dean's List is compiled upon completion of each fall and spring term. The criteria used to determine eligibility for the Dean's List is as follows:

- full-time student status for the term,
- minimum GPA of 3.500 for the term,

- minimum cumulative GPA of 3.000 (total Pitt).

Academic Probation and Dismissal Policy

Students who have completed at least 12 credits and whose cumulative GPA falls below 2.000 will be placed on academic probation and will receive written notification of this status. At this point it is the student's responsibility to meet with his or her advisor.

To be removed from academic probation, the student will need to achieve a cumulative GPA of 2.000 within his or her next two terms of study. Failure to do so may subject the student to recommendation for immediate dismissal from the program by the Department Chair, in collaboration with the Associate Dean of Undergraduate Studies.

Students who fail to demonstrate progress toward meeting graduation requirements in a timely manner may be placed on academic probation or recommended for dismissal from the program by the Department Chair in collaboration with that Associate Dean of Undergraduate Studies.

SHRS reserves the right to terminate a student at any time for academic or other reasons.

Dismissal from the program is at the discretion of the SHRS Dean. Notwithstanding the foregoing, in the event it is not mathematically possible for a student to remediate their cumulative program GPA within their next two terms of study the student may be immediately dismissed.

A student may appeal their dismissal with the University of Pittsburgh Provost office.

Graduation Requirements

Graduation Requirements for a bachelor's degree from the School of Health and Rehabilitation Sciences are as follows:

- satisfactory completion of a minimum of 120 approved credits (including advanced standing),
- minimum of 30 SHRS credits taken once admitted and enrolled in SHRS department or program,
- minimum cumulative GPA 2.000,
- The GPA will be calculated as a composite of all courses taken at the University of Pittsburgh and counting toward completion of the degree.
- completion of all requirements for the program in which student has enrolled,
- no outstanding D, F, or G grades in a required course,
- updated and approved Plan of Study on file in Student Services,
- student must be considered an "active student" at time of graduation; the student must have been registered for at least one credit at the University of Pittsburgh within the last three terms or sessions.

Students may **not** enroll in courses outside the University of Pittsburgh in the semester they are graduating.

An application for graduation must be submitted by the student in PeopleSoft the term prior to the graduation term. A student with outstanding financial obligations to the University is not eligible to receive the diploma, official academic transcripts, or any certification of completion of the academic program.

Graduation with Honors

A baccalaureate degree student attaining an outstanding scholastic record will graduate with university honors if a minimum of 60 letter-graded credits have been earned at the University of Pittsburgh. The GPA used for the awarding of honors at graduation will be calculated as a composite of courses taken at the University of Pittsburgh and counting toward completion of the degree. The following recognition of academic standing with honors applies:

- Cum Laude 3.250 - 3.499
- Magna Cum Laude 3.500 - 3.749
- Summa Cum Laude 3.750 - 4.000

SHRS Student Organizations

The School of Health and Rehabilitation Sciences has student organizations for undergraduate students. Visit <http://www.shrs.pitt.edu/studentgroups/> for more information.

Ombudsperson

The Ombudsperson assists students with resolving conflicts and issues that arise in the course of their education and training that they believe have not or cannot be addressed within their academic department. The Ombudsperson can help mediate conflicts and provides information about institutional policies related to the student's issues, including the University's grievance procedures. The Ombudsperson directs students to further resources on campus as appropriate. The Ombudsperson in the School of Health and Rehabilitation Sciences (SHRS) will be a neutral contact person (non-faculty) for students with whom they can engage in informal discussions.

The Ombudsperson for SHRS is Jessica Maguire, Executive Director of Student Affairs. She can be reached at maguire@pitt.edu to make an appointment. More information on the Ombudsperson's role for SHRS can be found on the SHRS website under the Orientation page.

School of Health and Rehabilitation Sciences Faculty

SHRS Faculty

Program and Course Offerings

Department of Sports Medicine and Nutrition

In Pitt's Department of Sports Medicine and Nutrition (SMN), there's a vision for the future. It's a place where scientists, using contemporary, state-of-the-art practices have the potential to extend the careers of elite athletes and weekend warriors, where human performance optimization translates to injury prevention and military operational

success, where exercise and diet help to prevent and manage disease and nutrition information impacts the well-being of the community and informs public policy.

It's a place where innovative and multidisciplinary research makes an immediate connection to real-world practices. Proof lies in the Department's growing number of regional, national and international partners as well as the quantity and quality of funding from prestigious organizations such as the National Institutes of Health, U.S. Department of Defense, NASA and others.

Through the use of technology and collaborative science, the Department of Sports Medicine and Nutrition is improving the quality of life and resiliency of people from all walks of life and abilities today, and championing health and wellness for life.

The department aims to meet these objectives by:

- developing cognitive skills, psychomotor mastery and affective values in students through the delivery of a proven formula of sound classroom education, combined with invaluable clinical education experiences, for the promotion of competent entry-level clinicians and enhancing the health and well-being of individuals and diverse populations
- becoming thoughtful leaders by advancing the state of the science through evidenced-based practice, rigorous curricula, interdisciplinary collaboration and innovative technology
- mitigating injury and disease and optimize human performance by conducting innovative, multidisciplinary basic and applied research and contributing to the scientific community in order to enhance clinical decisions and education

Accelerated

Athletic Training, Accelerated BS-MS

The athletic training degree program earned initial accreditation in 1997 and continuing accreditation in 2004, 2012, and 2024 through the Commission on Accreditation of Athletic Training Education (CAATE). Prior to this, the curriculum had been National Athletic Trainers' Association approved since 1978. The athletic training curriculum is defined by the current Board of Certification, Inc. Role Delineation Study/Practice Analysis, which consists of five performance domains to include: (1) Risk Reduction, Wellness, and Health Literacy; (2) Assessment, Evaluation, and Diagnosis; (3) Critical Incident Management; (4) Therapeutic Intervention; (5) Healthcare Administration and Professional Responsibility. The curriculum is structured to provide both academic and clinical instruction. The academic curriculum includes such courses as anatomy, kinesiology, human and exercise physiology, injury evaluation, medical and pharmacological principles, administrative aspects, among others. The course work provides a foundation for hands-on clinical experiences provided in the clinical education setting. The students' clinical requirements include direct patient care with athletes and physically active patients and evaluation of skills by preceptors who supervise each student's clinical experience. Students rotate through four on-campus athletic training facilities and several off-site affiliated settings during the clinical education component acquiring valuable skills under the direct supervision of certified athletic training staff, team physicians and other allied health professionals. Upon successful completion of the program, students are eligible to sit for the BOC, Inc. certification examination. Successful completion of this exam affords the candidate a variety of employment opportunities including athletic training positions at the high school, college, or university level; sports medicine and rehabilitation clinics; professional athletic teams; performing arts; the military; industrial settings; and more. Additionally, many students pursue graduate education opportunities in a number of sports medicine-related professions.

For more information, please contact:

Amy E. Aggelou, PhD, LAT, ATC
Program Director, Athletic Training
School of Health and Rehabilitation Sciences

Admission Requirements

SHRS's General Education Requirements are included in our upper-level program prerequisites and curriculum requirements; therefore, changes will be reflected in prerequisites and curriculum requirements.

Prerequisite Courses

Basic Athletic Training, ATHLTR 1811	<i>Transfer credit not accepted</i>
Basic Athletic Training Lab, ATHLTR 1812	<i>Transfer credit not accepted</i>
Seminar in Composition*	1 course
Writing Intensive	1 course (<i>ENGCOMP 0400 recommended</i>)
Oral Communication	1 course (COMMRC 0520 preferred; COMMRC 0500, <i>COMMRC 0510, COMMRC 0530 acceptable</i>)
College Algebra	1 course (MATH 0031 or higher math required. <i>Exemption accepted</i>)
Statistics	1 course (STAT 0200 or STAT 1000 required)
Foundations of Biology 1	BIOSC 0150
Foundations of Biology 1 Lab	BIOSC 0050, BIOSC 0057 or BIOSC 0058
General Chemistry 1 and Lab	CHEM 0110
Introduction to Physics	PHYS 0110
Introduction to Psychology	PSY 0010
Developmental Psychology (PSY 0310) or other upper level Psychology	3 credits
Cross-Cultural Awareness*, Global Issues* or Specific Geographic Region*	1 course
Diversity*	1 course
Social Sciences*	1 course

* See the Dietrich School of Arts and Sciences General Education Course Catalog.

Additional Requirements

- Required credits for admission: 60 (Applications may be submitted while prerequisite coursework is in progress).

- Grades of C- or better (C for transfer) in all prerequisite coursework with the exception of ATHLTR 1811 and ATHLTR1812, where a grade of B or better must be earned.
- EMT certification is required either through a course for credit or another qualified course leading to NR-EMT credential.
- Minimum cumulative GPA of 2.8 (based on 4.0).
- Submit admissions application including technical standards for admission document.
- Personal interview with athletic training faculty (as needed).

The Athletic Training Program at the University of Pittsburgh is a rigorous and intense program that places specific requirements and demands on the students enrolled in the program. An objective of this program is to prepare graduates to enter a variety of employment settings and to render care to a wide spectrum of individuals engaged in physical activity. The technical standards set forth by the Athletic Training Program establish the essential qualities considered necessary for students admitted to this program to achieve the knowledge, skills, and competencies of an entry-level athletic trainer, as well as meet the expectations of the program's accrediting agency (Commission on Accreditation of Athletic Training Education [CAATE]).

The following abilities and expectations must be met by all students admitted to the Athletic Training Program. Candidates for selection to the Athletic Training Program must demonstrate:

- The mental capacity to assimilate, analyze, synthesize, integrate concepts and problem solve to formulate assessment and therapeutic judgments and to be able to distinguish deviations from the norm.
- Sufficient postural and neuromuscular control, sensory function, and coordination to perform appropriate physical examinations using accepted techniques; and accurately, safely, and efficiently use equipment and materials during the assessment and treatment of patients.
- The ability to communicate effectively and sensitively with patients and colleagues, including individuals from different cultural and social backgrounds; this includes, but is not limited to, the ability to establish rapport with patients and communicate judgments and treatment information effectively. Students must be able to understand and speak the English language at a level consistent with competent professional practice.
- The ability to record the physical examination results and a treatment plan clearly and accurately.
- The capacity to maintain composure and continue to function well during periods of high stress.
- The perseverance, diligence, and commitment to complete the athletic training program as outlined and sequenced.
- Flexibility and the ability to adjust to changing situations and uncertainty in clinical situations.
- Affective skills and appropriate demeanor and rapport that relate to professional education and quality patient care.

Application Procedures

Application Deadline: March 1

Transfer Student Information

Transfer students must apply to the University of Pittsburgh by completing the Office of Admission and Financial Aid's Transfer Application and selecting Athletic Training as their intended field of study. International transfer students [click here](#). Transfer students must also provide application materials directly to SHRS.

All admission criteria applies to transfer students in the same way as students enrolled at the Pittsburgh campus. Students with prior athletic training experience seeking to transfer to the University of Pittsburgh for admission to the Athletic Training Program must complete the same prerequisite requirements as all other candidates including the Basic Athletic Training (ATHLTR 1811) and Basic Athletic Training Lab (ATHLTR 1812) courses and all observation hours. If admitted to the program, all students must complete University of Pittsburgh core athletic training courses. In some instances, credit may be given for other coursework taken at another institution and will be evaluated on an individual case basis. International transfer students [click here](#).

Curriculum

Coursework for the professional BS-MS in Athletic Training program is divided into two phases: Pre-Professional Phase and the Professional Phase. Students applying for the Accelerated BS-MS in Athletic Training program will complete prerequisite coursework during the first two years of their undergraduate degree. At the conclusion of their sophomore year, students will apply to the Accelerated BS-MS in Athletic Training program. Upon successful application and acceptance into the program, students will complete one year (two semesters) of pre-professional curriculum. During their last two years, students will complete the professional (graduate) curriculum.

Pre-professional Phase

During the pre-professional phase students complete prerequisite and general education courses along with specific Athletic Training-related prerequisites.

First Semester (Fall)

- REHSCI 1200 - HUMAN ANATOMY
- REHSCI 1201 - HUMAN ANATOMY LAB
- REHSCI 1205 - HUMAN PHYSIOLOGY
- REHSCI 1235 - MEDICAL TERMINOLOGY
- NUTR 1006 - INTRO TO HUMAN NUTRITION
- ATHLTR 1813 - INTRODUCTION TO CLINICAL ATHLETIC TRAINING 1
- ATHLTR 1815 - FOUNDATIONS IN EVALUATION AND TREATMENT
- ATHLTR 1816 - MEDICAL ETHICS

16 Credits

Second Semester (Spring)

- REHSCI 1000 - PRINCIPLES OF RESEARCH METHODOLOGY
- REHSCI 1220 - KINESIOLOGY AND BIOMECHANICS
- REHSCI 1221 - KINESIOLOGY AND BIOMECHANICS LAB
- REHSCI 1265 - PHARMACOLOGY IN REHABILITATION
- ATHLTR 1814 - INTRODUCTION TO CLINICAL ATHLETIC TRAINING 2
- ATHLTR 1833 - STRENGTH AND CONDITIONING

15 Credits

Professional Phase

The following courses are to be completed in four semesters and are graduate-level curriculum.

First Semester (Fall)

- ATHLTR 2801 - CLINICAL PRACTICUM 1
- ATHLTR 2805 - INJURY/EVAL 1 - LOWER EXTREMITY
- ATHLTR 2807 - THERAPEUTIC INTERVENTIONS 1
- ATHLTR 2809 - FUNCTIONAL HUMAN ANATOMY
- ATHLTR 2810 - EVIDENCE BASED PRACTICE IN ATHLETIC TRAINING

15 Credits

Second Semester (Spring)

- ATHLTR 2802 - CLINICAL PRACTICUM 2
- ATHLTR 2806 - INJURY/EVAL 2 - UPPER EXTREMITY
- ATHLTR 2808 - THERAPEUTIC INTERVENTIONS 2
- ATHLTR 2813 - GENERAL MEDICAL AND PHARMACOLOGICAL CONDITIONS

15 Credits

Third Semester (Fall)

- ATHLTR 2803 - CLINICAL PRACTICUM 3
- ATHLTR 2811 - GRADUATE RESEARCH 1
- ATHLTR 2814 - ADVANCED CLINICAL PROCEDURES
- ATHLTR 2815 - CURRENT CONCEPTS IN SPORTS MEDICINE
- ATHLTR 2816 - ADMINISTRATIVE ASPECTS OF ATHLETIC TRAINING

15 credits

Fourth Semester (Spring)

- ATHLTR 2804 - CLINICAL PRACTICUM 4 - CLINICALLY IMMERSIVE SEMESTER
- ATHLTR 2812 - GRADUATE RESEARCH 2
- ATHLTR 2817 - LEADERSHIP AND PROFESSIONAL DEVELOPMENT
- ATHLTR 2818 - BOARD OF CERTIFICATION (BOC) PREPARATION
- ATHLTR Elective, 3 credits

15 Credits

Dietitian Nutritionist Program, Accelerated BS-MS

Students who choose to pursue Pitt's Dietitian Nutritionist Program degree are ahead of the game! All Registered Dietitian/Nutritionists (RDNs) entering the field will be required to have a masters level degree to enter the profession. The program is a competency-based educational program that integrates experiential learning with didactic coursework to enable students to demonstrate the higher level of competence that will be needed for future practice as a RDN.

Interested students will apply in the Spring Term of each year to begin the accelerated program as juniors.

For more information, please contact:

Trisha A. Cousins, EdD, RDN, LDN, CLC
Program Director, Dietitian Nutritionist Program
6037 Forbes Tower
412-383-6532
E-mail: tcousins@pitt.edu

About

The Dietitian Nutritionist Program, housed within the Department of Sports Medicine and Nutrition, is an accelerated BS/MS graduate degree program accredited by the Accreditation Council for Education in Nutrition and Dietetics (ACEND) as a Future Education Model Graduate Degree Program (GP). The competency-based educational program that integrates experiential learning with didactic coursework affording graduates a strong foundation in medical

nutrition therapy, public health nutrition and food service. Students may apply for a specialty rotation option that provides an immersive experience in a specialty practice area.

This accelerated program offers points of entry for:

- qualified undergraduates
- post-baccalaureate candidates
- graduates of Didactic Programs in Dietetics (DPD)

Undergraduate students will earn both Bachelor of Science and Master of Science degrees. Preparation for a career in dietetics as an RDN requires the following:

- completion of an ACEND accredited degree-granting program
- completion of an ACEND accredited supervised experiential learning meeting all required competencies*
- successful performance on the national Registration Examination for Dietitians**

No matter your professional goals in the Dietetics profession, this program offers an entry-level advanced degree option to provide a competitive edge for today's health care environment. Upon successful completion of the master's program graduates are eligible to take the national registration examination for Dietitians. Graduates passing the registration exam are eligible for licensure in Pennsylvania by the Board of Nursing. For licensing information please visit Instructions for Licensed Dietitian-Nutritionist (LDN) Applicants.

*This program provides supervised experiential learning required to become an RDN. The supervised experiential learning sites are randomly assigned and public transportation is not available to all sites. All students should anticipate the necessity of having access to their own transportation for Year 2 and Year 3 of the program. Please review the experiential learning information.

**The credentialing exam requirements are set by the Commission on Dietetic Registration (CDR).

For more information on becoming an RDN, visit www.eatright.org.

Program Requirements

Admission

There are three ways to enter the Dietitian Nutritionist Program. As an undergraduate, a post-baccalaureate, or as a graduate of a DPD. The application deadline for all entry points is March 1. Application review begins in January. Admission is for the fall term only. Applications can be submitted when course requirements are in progress.

Entry Point for Undergraduate Students to the Accelerated MS Program

Prerequisites must be completed for a letter grade, minimum grade of C- (C for transfer) unless otherwise noted; with the exception of AP/IB credits and/or exemptions awarded by the University of Pittsburgh. Courses listed below are offered at the Pittsburgh Campus, courses taken at the regional Pitt campuses or external institutions must be evaluated as equivalent to satisfy these requirements.

- General Chemistry 1 with lab, CHEM 0110
- General Chemistry 2 with lab, CHEM 0120
- Foundations of Biology 1, BIOSC 0150
- Foundations of Biology 2, BIOSC 0160
- Biology Lab, BIOSC 0057 or BIOSC 0058
- Organic Chemistry, CHEM 0350, or CHEM 0310
- Biochemistry, BIOSC 1000*
- Introduction to Microbiology, BIOSC 1850
- College Algebra, MATH 0031 or higher math required. Exemption accepted.

- Statistics, STAT 0200 or STAT 1000
- Seminar in Composition, ENGCOMP 0200 or equivalent
- English Writing, any "W" or upper-level writing course
- Oral Communication, COMMRC 0520 preferred; COMMRC 0310, COMMRC 0500, COMMRC 0510, and COMMRC 0530 are also accepted.
- Social Science, any
- Psychology, PSY 0010
- Introduction to Nutrition, HRS 1006, NUTR 1006*, or NUTR 1007
- Introduction to Dietetics, NUTR 1600+
- Food and Culture, NUTR 1612+

*These courses need to have been completed within the past five years.

+These courses can be taken in the first year of the Dietitian Nutritionist Program.

Additional Requirements

- Minimum cumulative and prerequisite GPA of 3.0 (based on 4.0)
- Personal interview with nutrition faculty
- 61-63 credits are required to begin the program

Application Requirements

- Complete the application for admission. Please visit the SHRS website to access information about applying;
- A personal essay addressing the following:
 - What you have done to learn about the field of nutrition and dietetics (both the science and supervised experiential learning) in preparation for our dietitian nutritionist program (maximum word count: 200 words); and,
 - An accelerated nutrition and dietetics program is challenging and the application process will be very competitive. Please explain what academic and personal skills you have developed since starting college that will allow you to be successful in this professional degree program. What do you feel are the critical skills, practices, and attitudes that you must continue to work on as you proceed further in your academic studies? (max. word count: 500 words)
- Resume demonstrating evidence of adequate exposure to the field of dietetics and an appreciation of the breadth, depth, and scope of practice. This can be accomplished through either volunteer or paid work experience in a nutrition and dietetics related settings; there is no minimum number of hours required;
- Transcripts from all institutions attended. Pitt students do not have to provide transcripts they have already submitted to Pitt.

SHRS General Education Requirements are included in our upper-level program prerequisites and curriculum requirements.

Essential Standards

This information is provided to inform applicants of the non-academic technical performance and expectation standards required to complete the program successfully. Applicants should review the essential program standards to ensure that they are able to meet and maintain the standards program. The University fosters a culture of inclusiveness and is committed to providing an accessible environment for its faculty, staff and students. Please note, the Dietitian Nutritionist Program is committed to non-discrimination, including on the basis of disability. Individuals with disabilities are encouraged to apply and reasonable accommodations will be provided as appropriate. The following link provides detailed information on Essential Program Standards.

Please note that this program requires students to complete portions of their education (e.g., supervised experiential learning experiences) at facilities external to the University to meet requirements for graduation. Many of these external facilities require screening measures such as, but not limited to, criminal background check, child abuse clearance, health appraisal, fingerprint-based background check and/or drug test prior to placement at the facility. The results of these requirements may limit and potentially eliminate placement options for the student which can, in turn, result in an inability to meet graduation requirements. Additionally, a conviction of a misdemeanor, felony, or felonious or illegal act abuse may prevent the student from becoming credentialed and/or licensed to practice in the field.

The University of Pittsburgh, as an educational institution and as an employer, values equality of opportunity, human dignity, and racial/ethnic and cultural diversity. Accordingly, the University prohibits and will not engage in discrimination or harassment on the basis of race, color, religion, national origin, ancestry, sex, age, marital status, familial status, sexual orientation, disability, or status as a disabled veteran or a veteran of the Vietnam era. Further, the University will continue to take affirmative steps to support and advance these values consistent with the University's mission. For information on University equal opportunity and affirmative action programs and complaint/grievance procedures, contact the Office of Affirmative Action, 901 William Pitt Union, University of Pittsburgh, Pittsburgh, PA 15260, 412-648-7860/412-648-7860.

The Dietitian Nutritionist Program is accredited by the Accreditation Council for Education in Nutrition and Dietetics (ACEND) the accrediting agency for the Academy of Nutrition and Dietetics (Academy), (ACEND@eatright.org), phone (1-800-877-1600 or 1-800-877-1600 x5400), or mail (120 South Riverside Plaza, Suite 2190, Chicago, IL 60606-6995).

Program Mission, Goals and Objectives

The mission of the Dietitian Nutritionist Program is the development of graduates with the competence and advanced skills to practice effectively as entry-level RDNs to enhance the health and wellbeing of individuals and diverse populations. In addition, the vision is to lead among dietetics programs in advancing knowledge, skills, and evidence-based practice of RDNs.

The program goals are:

1. Graduates will have the competence and advanced skills to practice effectively as entry-level Registered Dietitian/Nutritionists (RDN).
2. Graduates will have the advanced knowledge and skills to contribute to the evidence-based practice of RDNs.

Program outcomes are available upon request.

Curriculum

Students entering as a junior will complete the program 156 credits.

First Year

Fall Term

- NUTR 1000 - INTRODUCTION TO RESEARCH
- NUTR 1020 - NUTRITION ASSESSMENT
- NUTR 1030 - NUTRIENT METABOLISM
- NUTR 1622 - LIFE CYCLE NUTRITION
- REHSCI 1205 - HUMAN PHYSIOLOGY
- NUTR 1600 - INTRODUCTION TO DIETETICS (If not taken previously)

Spring Term

- NUTR 1605 - PRINCIPLES OF NUTRITION EDUCATION
- NUTR 1604 - FOOD SERVICE MANAGEMENT WITH LAB

- NUTR 1614 - NUTRITION CRITICAL THINKING OR NUTR 1612 - FOOD AND CULTURE (If not taken previously)
- NUTR 1610 - FOOD APPLICATION
- NUTR 1613 - FOOD APPLICATION LAB
- NUTR 1625 - NUTRITION THERAPY

*Students must maintain a 3.0 minimum GPA to matriculate from Year 1 to Year 2 of the program.

Second Year

Didactic Program in Dietetics (DPD) graduates will enter the Dietitian Nutritionist Program here.

Fall Term

- HRS 2004 - PATHOPHYSIOLOGY ACROSS THE LIFE SPAN
- HRS 2623 - ADVANCED MEDICAL NUTRITION THERAPY 1
- HRS 2631 - NUTRITION FOCUSED PHYSICAL EXAMINATION
- HRS 2680 - EVIDENCE BASED PROFESSIONALISM IN DIETETICS
- Elective, 3 credits - Advisor approved

Spring Term

- HRS 2612 - ADVANCED MEDICAL NUTRITION THERAPY 2
- HRS 2625 - NUTRITION COUNSELING METHODS
- HRS 2646 - FUNCTIONAL NUTRITION
- HRS 2655 - RESEARCH METHODS AND APPLIED STATISTICS
- Elective, 3 credits - Advisor approved

Undergraduate students will receive a BS in Nutrition Science after successful completion of the Year 2.

Third Year

Fall Term

- HRS 2675 - PRACTICUM IN DIETETICS 1
- HRS 2676 - EXPERIENTIAL PRACTICE 1
- HRS 2658 - CAPSTONE PROJECT

Credits / Units: 15

Spring Term

- HRS 2659 - PRACTICUM IN DIETETICS 2
- HRS 2672 - EXPERIENTIAL PRACTICE 2
- HRS 2652 - EXPERIENTIAL PRACTICE 3
- HRS 2674 - CAPSTONE PROJECT

Credits / Units: 15

Major

Nutrition Science, BS

Nutrition Science is the study of how food and nutrients affect health. The program's focus on nutrition, health and disease, and the biological sciences makes the Nutrition Science program an ideal undergraduate degree for students who are planning to pursue health-related graduate programs such as medicine, physician assistant studies, dental medicine, physical therapy, sports science, occupational therapy, or public health. The program also provides a solid foundation for career opportunities in nutrition science research and the food industry.

This program does not meet the eligibility requirements for Registered Dietitian/Nutritionists (RDNs). For students desiring to become a Registered Dietitian/Nutritionist (RDN) please refer to the Dietitian Nutritionist program.

For more information, please contact:

Lori Cherok, PhD, RDN, LDN

Program Director, Nutrition Science

School of Health and Rehabilitation Sciences

Department of Sports Medicine and Nutrition

6038Forbes Tower

412-383-6566

E-mail: lcherok@pitt.edu

Admission Requirements:

SHRS's General Education Requirements are included in our program prerequisites and curriculum requirements.

- A minimum cumulative GPA of 2.5 (based on 4.0)
- A minimum grade of C- in all courses designated as prerequisites taken at the University of Pittsburgh. A minimum grade of C or better is required for courses taken elsewhere.

Admission to the Nutrition Science program requires successful completion of a minimum of 60 credits including all prerequisite courses below. Students who will have completed a minimum of 54 credits may be eligible.

Prerequisite Courses

Foundations of Biology 1	BIOSC 0150, 3 credits
Foundations of Biology 2	BIOSC 0160, 3 credits
Biology Lab	BIOSC 0057 or BIOSC 0058, 1 credit
General Chemistry 1 with Lab	CHEM 0110, 4 credits
General Chemistry 2 with Lab	CHEM 0120, 4 credits

Organic Chemistry 1 or Principles of Organic Chemistry	CHEM 0310 or CHEM 0350 , 3 credits
Introduction to Human Nutrition	NUTR 1006, NUTR 1007, or HRS 1006, 3 credits
Seminar in Composition*	ENGCOMP 0200, 3 credits
Oral Communication*	COMMRC 0520 preferred; COMMRC 0310 , COMMRC 0500, COMMRC 0510 and COMMRC 0530 are also accepted, 3 credits
Algebra or Higher Math*	MATH 0031 or higher, 3 credits
Statistics*	STAT 0200 or STAT 1000, 4 credits
Literature/Arts/Creative Work/Philosophical Thinking*	1 course, see DSAS Catalog
Social Sciences*	1 course, see DSAS Catalog

*SHRS General Education Requirement

The following SHRS General Education Requirements can be taken within the program:

- Writing Intensive course, 3 credits - ENGCOMP 0400, ENGCOMP 0450, ENGCOMP 0530, or ENGCOMP 0535 are recommended
- Diversity, 1 course - NUTR 1612 - FOOD AND CULTURE, *taken within the Nutrition Science program, will meet this requirement*
- Global Awareness and Cultural Understanding, 1 course - NUTR 1612 - FOOD AND CULTURE, *taken within the Nutrition Science program, will meet this requirement*

Note: Students who complete all program prerequisites and curriculum courses will meet the SHRS General Education requirements.

Application Procedures:

The deadline for submission of an application for admission consideration is March 1st annually.

Pitt Students (including regional campuses)

SHRS uses the ULTA application platform. Please visit the SHRS website to access information about applying to enter our programs.

Transfer Student Information:

Transfer students must apply to the University of Pittsburgh by completing the Office of Admission and Financial Aid's Transfer Application and selecting Nutrition Science as their intended field of study. International transfer students click here. Transfer student must also provide application materials directly to SHRS.

All applicants must:

- Submit a personal essay (1-2 pages in length) discussing why you are interested in the Nutrition Science program, your professional goals including how and when you became interested in that field, as well as any work or volunteer experience you have that will demonstrate your awareness of the field. Also include other areas of interest, extra-curricular activities and leadership experiences.
- Resumes are strongly recommended.
- Transcript from all institutions attended. Pitt students do not have to provide transcripts they have already submitted to Pitt.
- Application may be submitted while course requirements are in progress.

Please note that admission is competitive. Meeting the minimum admission criteria does not guarantee admission.

Guaranteed Admissions Program for the Physician Assistant Studies (MS) Program

The Physician Assistant Studies (MS) hybrid and on-campus programs will offer guaranteed admission to select Nutrition Science (BS) students beginning with those admitted to the BS program for fall 2024. Consideration for the Physician Assistant Studies (PAS) Guarantee is a multi-step process. Qualified students will be asked by the School of Health and Rehabilitation to submit supplemental information in support of their candidacy.

To be considered for the Guarantee, Nutrition Science (BS) applicants must:

- Apply to the Nutrition Science (BS) upper-division program by March 1. Students are encouraged to apply early.
- Hold a 3.60 or better science prerequisite and overall grade point average (GPA) at the time of application.
- Eligible students will be invited to submit supplemental application materials, including recommendation letters and personal statements, to the PA program by April 1. The supplemental information will be reviewed by the PAS selection committee.

Students selected for the guarantee based on their submissions will be notified by the PAS program. Students offered the guarantee must:

- achieve a 3.60 or better science prerequisite and overall grade point average (GPA) while enrolled in the Nutrition Science (BS) program,
- complete all admission requirements for the PAS program,
- meet with a PAS faculty or staff member at least once per year providing proof of GPA and courses taken,
- complete your Nutrition Science degree at Pitt in two years, and
- apply to the program through CASPA by October 1 following graduation from the Nutrition Science (BS) program.

You must apply to the format of the program (hybrid or on-campus) to which you were Guaranteed admission. PAS reserves the right to limit the number of students offered Guaranteed Admission each year. Only admitted Nutrition Science (BS) students can be considered for the guarantee.

Curriculum:

The BS degree in Nutrition Science requires the completion of a minimum of 120 credits which includes 60 credits prior to admission and 60 credits of required courses taken within the program. The usual time required to complete the program after admission to the junior year is two years. The program curriculum is as follows:

Junior Year - Fall Term

- BIOSC 1000 - BIOCHEMISTRY
- REHSCI 1205 - HUMAN PHYSIOLOGY
- NUTR 1000 - INTRODUCTION TO RESEARCH

- NUTR 1020 - NUTRITION ASSESSMENT
- NUTR 1030 - NUTRIENT METABOLISM

Credits: 16

Junior Year - Spring Term

- NUTR 1610 - FOOD APPLICATION
 - REHSCI 1235 - MEDICAL TERMINOLOGY
- or
- NUTR 1613 - FOOD APPLICATION LAB
 - NUTR 1614 - NUTRITION CRITICAL THINKING
 - NUTR 1625 - NUTRITION THERAPY
 - ELECTIVES, 3 credits

Credits: 14

Senior Year - Fall Term

- BIOSC 0350 - GENETICS
- BIOSC 1850 - MICROBIOLOGY
- NUTR 1622 - LIFE CYCLE NUTRITION
- NUTR 1626 - PUBLIC HEALTH NUTRITION
- ELECTIVES, 3 credits

Credits: 15

Senior Year - Spring Term

- NUTR 1612 - FOOD AND CULTURE
- REHSCI 1250 - PATHOPHYSIOLOGY/HUMAN DISEASE
- Writing Intensive Course, 3 credits - ENGCOMP 0400, ENGCOMP 0450, ENGCOMP 0530, or ENGCOMP 0535 are recommended.
- ELECTIVES, 5 credits

Credits: 15

Total Program Credits: 60

Total Degree Credits: 120

**Department of Communication Science and Disorders
(CSD)**

The Department of Communication Science and Disorders offers an undergraduate major in Communication Science. The degree program focuses on the anatomical, physiological, and psychological foundations of communication, as well as the basic structure of language and the process of speech and language development. The degree program is designed to develop critical thinking skills including the ability to evaluate scientific information. Additionally, students are exposed to evidence-based practices, introductory research and clinical methods, discussions surrounding issues of equity, justice and inclusion, and the importance of interprofessional collaboration. With a bachelor's degree in Communication Science, graduates will have a collection of transferable skills that can be applied to a graduate program or taken directly into the workplace.

This major is particularly appropriate for students considering graduate study and a career in Speech-Language Pathology [SLP] or Audiology [AuD]. (A graduate degree is required for clinical practice in both professions.) Speech-Language Pathology and Audiology are among the most attractive and diverse healthcare and educational professions available. Projections from the U.S. Bureau of Labor and Statistics indicate job growth in both Speech-Language Pathology and Audiology. The future of the job market is healthy due to increasing public awareness of the need for early diagnosis and intervention for communication disorders. Other factors impacting employment include increased awareness of the educational, social, and vocational benefits of programs for communication disorders and an aging population. The need for speech, language, and hearing scientists is also great; there are many research and academic opportunities for those interested in research including careers in higher education.

The degree program in Communication Science is also excellent preparation for professional or graduate programs in education-related fields (i.e., education of the deaf and hard of hearing, early-childhood, special education) or health-related professions (i.e., rehabilitation counseling, occupational therapy, physical therapy). The necessary prerequisites for these programs can be taken while completing the Communication Science degree.

Interested students should contact the Director of Undergraduate Education in Communication Science Professor Ali Lewandowski at ael89@pitt.edu.

Admission Requirements

Students are eligible for admission to the Communication Science degree program after successful completion of 60 credits*. [Note: Applications will be reviewed when approximately 45 credits are completed and 15 credits are in progress.] For admission, an application with all transcripts from universities/colleges attended and responses to question prompts is required. Resumes are strongly suggested. A letter of recommendation is NOT required. A minimum grade point average (GPA) of 2.75 is required.

Prior to applying, students are encouraged to contact the Director of Undergraduate Education in Communication Science, Professor Ali Lewandowski at ael89@pitt.edu. (Specialized advising is available to students at the first-year and/or sophomore year level.) Students should complete the Prerequisites prior to admission. They should also focus on completing much of the Additional Requirement Coursework prior to admission. [Note: Some of these courses may be completed while enrolled in the program.]

**Students who will have completed a minimum of 54 credits may be eligible.*

University of Pittsburgh Guaranteed Admissions Program

An entering first-year student may qualify for a guarantee into the graduate programs in Audiology or Speech-Language Pathology. For consideration for the Guaranteed Admissions Program, indicate an intended field of study as Pre- Communication Science on your application when applying as a first-year student (at regional campuses, choose corresponding codes).

At the time of application to the graduate program, guaranteed students must have a cumulative GPA of 3.6 or better and a GPA of 3.75 in the core communication science major courses. A full application must be submitted on time.

Early Decision for Graduate Programs

Students pursuing an undergraduate degree in Communication Science from the University of Pittsburgh are eligible to apply Early Decision to either the graduate program in Audiology or Speech-Language Pathology. Information about the application process and applicant qualifications are available in the CSD Advising Office and from the Communication Science Program Director.

Major

Communication Science, BA

The Department of Communication Science and Disorders offers an undergraduate major in Communication Science. The degree program focuses on the anatomical, physiological, and psychological foundations of communication, as well as the basic structure of language and the process of speech and language development. The degree program is designed to develop critical thinking skills, including the ability to evaluate scientific information. Additionally, students are exposed to evidence-based practices, introductory research and clinical methods, discussions surrounding issues of equity, justice and inclusion, and the importance of interprofessional collaboration. With a bachelor's degree in Communication Science, graduates will have a collection of transferable skills that can be applied to a graduate program or taken directly into the workplace.

This major is particularly appropriate for students considering graduate study and a career in Speech-Language Pathology [SLP] or Audiology [AuD]. (A graduate degree is required for clinical practice in both professions.) Speech-Language Pathology and Audiology are among the most attractive and diverse healthcare and educational professions available. The degree program in Communication Science is also excellent preparation for professional or graduate programs in education-related fields (i.e., education of the deaf and hard of hearing, early-childhood, special education) or health-related professions (i.e., rehabilitation counseling, occupational therapy, physical therapy). The necessary prerequisites for these programs can be taken while completing the Communication Science degree.

Interested students should contact the Director of Undergraduate Education in Communication Science Professor Ali Lewandowski at ael89@pitt.edu.

Admission Requirements

Requirements for students entering the University of Pittsburgh in Fall 2022 as first-year students, and students currently enrolled at the University of Pittsburgh and external transfer students entering the upper-level programs offered at SHRS in Fall 2024:

Prerequisites must be completed for a letter grade, minimum grade of C- (C for transfer) unless otherwise noted; with the exception of AP/IB credits and/or exemptions awarded by the University of Pittsburgh. Courses listed below are

offered at the Pittsburgh Campus; courses taken at the regional Pitt campuses or external institutions must be evaluated as equivalent to satisfy these requirements.

- Seminar in Composition*, 1 course
- Writing Intensive, 1 course: ENGCOMP 0400, 0450, 0530 or 0535
- Oral Communication, 1 course: COMMRC 0520 preferred; 0310, 0500, 0510, 0530 acceptable.
- College Math, 1 course: MATH 0031 or higher math required. Exemption not accepted **
- Statistics, 1 course: STAT 0200 or STAT 1000 or 1100 required
- Introduction to Psychology, PSY 0010 (Required)
- Biological Science, 1 course: Human Biology (BIOSC 0150, 0805, 0815) or any Human Anatomy & Physiology course
- Physical Science, 1 course: Physics (PHYS 0091 or PHYS 0110) OR Chemistry (CHEM 0110 or higher) Required

- Other Course Requirements (to be met before graduation)
- Social Science* OR Quantitative and Formal Reasoning*, 1 course
- Diversity*, 1 course.
- Philosophical Thinking or Ethics*, 1 course
- Literature*, (any ENGLIT course)
- Lifespan/Human Development, 1 course: HHD 0005, REHSCI 1245, or PSY 0310 required
- Cognitive/Neurological Foundations, 1 course: PSY 0405, 0410, 0422, 0505, 0510; or NROSCI 0080, 0081, 1000
- Cross-Cultural Awareness*, Global Issues*, or Specific Geographic Region*, 1 course from any of these three categories. May also be satisfied through Study Abroad.

*See the DSAS Catalog

**At least 6 semester hour credits in college level mathematics are required to obtain certification through the Pennsylvania Department of Education (i.e., any school-based professional in Pennsylvania).

Additional Requirements

- Complete the application for admission. Please visit the SHRS website to access information about applying.
- Minimum cumulative GPA of 2.75 (based on 4.0) is required for admission. Students with a lower GPA may be admitted provisionally. 60 credits are required to begin the program. (students with a minimum of 54 credits may be eligible)
- Application Deadline: March 15th. Application review begins in January. If spots are available after the deadline applications will be considered on a rolling basis until the class is full. Applications may be submitted while prerequisite coursework is in progress.

The application includes the following elements:

- Responses to question prompts
- Resume
- Applicants enrolled at the University of Pittsburgh are not required to submit a letter of recommendation
- Transcripts from all institutions attended; Pitt students do not need to provide transcripts if they have already been submitted to the University of Pittsburgh

University of Pittsburgh First-Year Guarantee

An entering first-year student may qualify for a guarantee into the graduate programs in Audiology or Speech-Language Pathology. For consideration for the Guaranteed Admissions Program, indicate intended field of study as "Communication Science" on your application when applying as a first-year student (at regional campuses, choose corresponding codes).

At the time of application to the graduate program, guaranteed students must have a cumulative GPA of 3.6 or better and a GPA of 3.75 in the core communication science major courses. A full application must be submitted on time.

Early Decision for Graduate Programs

Students pursuing an undergraduate degree in Communication Science from the University of Pittsburgh are eligible to apply Early Decision to either the graduate program in Audiology or Speech-Language Pathology. Early Decision applications should only be submitted when the University of Pittsburgh graduate program is a student's top choice, AND the student does not intend to apply to any other graduate programs. Information about the application process and applicant qualifications are available from the Communication Science Program Director or the Academic Advisor of the Communication Science Program.

Communication Science Curriculum

SHRS requires a minimum of 120 credits for graduation.

First-years and sophomores who are interested in the major should contact the Communication Science advisor, Dave Bodnar at dab308@pitt.edu for specialized advising about the major.

Core Curriculum Requirements (47 credits)

Most of the core courses in Communication Science degree program are taken after admission at the junior year level. Four of the core courses are available at the first-year and sophomore year level or can be completed as part of the Communication Science degree program at the junior year level. Several core courses have prerequisites resulting in a sequence of courses. The course sequence is represented in the example Plan of Study. Interested students should be aware that the core courses or sequence of courses may change.

Core Courses Available to First Year and Sophomore Students

The following courses are available to students at the first-year and sophomore year level including students not formally in the Communication Science major.

Open to students of all levels:

- CSD 1232 - INTRODUCTION TO AUDIOLOGY
- CSD 1230 - INTRODUCTION TO SPEECH LANGUAGE PATHOLOGY

Open to Sophomores or higher:

- CSD 1020 - NATURE OF LANGUAGE OR LING 1000 - INTRODUCTION TO LINGUISTICS
- CSD 1102 - INTRODUCTION TO PROFESSIONAL AND CLINICAL ISSUES IN COMMUNICATION SCIENCE & DISORDERS

Plan of Study

This plan of study identifies the sequence of core courses offered in the Communication Science degree program. A course schedule for each semester may also include any remaining Prerequisites Requirements or Additional Requirements, minor or certificate courses, or other elective courses. Students are required to have an individual advising appointment with the Communication Science Academic Advisor every semester prior to registering for classes for the upcoming term.

Junior Fall

If not already completed -

- CSD 1020 - NATURE OF LANGUAGE or LING 1000 - INTRODUCTION TO LINGUISTICS

- CSD 1232 - INTRODUCTION TO AUDIOLOGY

Core Courses Fall Junior Year

- CSD 1023 - ANATOMY AND PHYSIOLOGY OF SPEECH
- CSD 1027 - LAB IN ANAT/PHYSIOLOGY OF SPEECH
- CSD 1233 - INTRODUCTION TO RESEARCH

If CSD 1232 Intro to Audiology already taken:

- CSD 1111 - AURAL REHABILITATION -OPTIONAL You must have completed CSD 1232 with a C- or better to enroll in this course. This course can also be taken Senior year.

Junior Spring

If not already completed -

- CSD 1230 - INTRODUCTION TO SPEECH LANGUAGE PATHOLOGY
- CSD 1102 - INTRODUCTION TO PROFESSIONAL AND CLINICAL ISSUES IN COMMUNICATION SCIENCE & DISORDERS

Core Courses Spring Junior Year

- CSD 1021 - LANGUAGE DEVELOPMENT
- CSD 1026 - SPEECH SCIENCE - You must complete CSD 1023 with a C- or better to enroll in this course
- CSD 1030 - LAB IN SPEECH SCIENCE

Senior Fall

If not already completed -

- CSD 1111 - AURAL REHABILITATION - You must complete CSD 1232 with a C- or better to enroll in this course.

Core Courses Fall Senior Year

- CSD 1024 - ANATOMY AND PHYSIOLOGY OF HEARING
- CSD 1029 - LAB IN ANAT/PHYSIOLOGY OF HEARING
- CSD 1022 - TRANSCRIPTION PHONETICS

Senior Spring

Core Courses Spring Senior Year

- CSD 1025 - HEARING SCIENCE - You must complete CSD 1024 with a C- or better to enroll in this course.
- CSD 1028 - LAB IN HEARING SCIENCE
- CSD 1235 - CLINICAL METHODS IN COMMUNICATION SCIENCE & DISORDERS
- CSD 1234 - WRITING PRACTICUM FOR CLINICAL METHODS IN COMMUNICATION SCIENCE & DISORDERS
- CSD 1237 - INTRO TO NEUROSCIENCE OF COMMUNICATION

Related Area / Minors and Certificates / Directed or Independent Studies

No additional related area is required for this undergraduate degree.

Many students are able to complete certificate programs or minors in addition to the major requirements in *Communication Science*. In recent years, students have attained certificates in Conceptual Foundations of Medicine, Latin American studies, American Sign Language, and Children's Literature and minors in Education, Neuroscience, Linguistics, Social Work and Sociology, among others. These are only a few of the many certificate programs and minors available at the University of Pittsburgh.

In some locations, employment within an educational setting requires additional courses for certification. Students considering work in educational settings should consider enrolling in education courses (i.e., IL 1257 - TEACHING ENGLISH LANGUAGE LEARNERS) as electives. Students can consult with the CSD Advising Office for more information.

Students should consult with Dave Bodnar (dab308@pitt.edu) or the Director of the Communication Science Program, Professor Ali Lewandowski (ael89@pitt.edu) about the possibility of pursuing a directed or independent study with a member of the faculty, as a formal approval process is required. Opportunities are also available for students at all levels to volunteer in a research lab with a Communication Science and Disorders faculty member.

Courses

- CSD 1020 - NATURE OF LANGUAGE
- CSD 1021 - LANGUAGE DEVELOPMENT
- CSD 1022 - TRANSCRIPTION PHONETICS
- CSD 1023 - ANATOMY AND PHYSIOLOGY OF SPEECH
- CSD 1024 - ANATOMY AND PHYSIOLOGY OF HEARING
- CSD 1025 - HEARING SCIENCE
- CSD 1026 - SPEECH SCIENCE
- CSD 1027 - LAB IN ANAT/PHYSIOLOGY OF SPEECH
- CSD 1028 - LAB IN HEARING SCIENCE
- CSD 1029 - LAB IN ANAT/PHYSIOLOGY OF HEARING
- CSD 1030 - LAB IN SPEECH SCIENCE
- CSD 1031 - GUIDED CLINICAL OBSERVATION
- CSD 1102 - INTRODUCTION TO PROFESSIONAL AND CLINICAL ISSUES IN COMMUNICATION SCIENCE & DISORDERS
- CSD 1111 - AURAL REHABILITATION
- CSD 1230 - INTRODUCTION TO SPEECH LANGUAGE PATHOLOGY
- CSD 1232 - INTRODUCTION TO AUDIOLOGY
- CSD 1233 - INTRODUCTION TO RESEARCH
- CSD 1234 - WRITING PRACTICUM FOR CLINICAL METHODS IN COMMUNICATION SCIENCE & DISORDERS
- CSD 1235 - CLINICAL METHODS IN COMMUNICATION SCIENCE & DISORDERS
- CSD 1237 - INTRO TO NEUROSCIENCE OF COMMUNICATION

Total Credits: 47 core curriculum

Department of Community Health Services and Rehabilitation Science

Certificate

Assistive Technology in Rehabilitation Certificate

Undergraduate Rehabilitation Science Certificates

The Undergraduate Program in Rehabilitation Science offers undergraduate certificates for students planning to continue their education in rehabilitation science programs or those seeking a concentration of courses in a particular rehabilitation science area. These certificates are designed to best prepare students for rehabilitation-related graduate programs; however, the certificates are not a requirement for application.

Completion of the Assistive Technology in Rehabilitation Certificate provides a focused area of study for students interested in careers providing technology to individuals with disabilities. It will prepare students for graduate programs such as prosthetics and orthotics or rehabilitation technology. It will also provide the course work and some of the clinical hours needed to satisfy the requirements for the RESNA (Rehabilitation Engineering and Assistive Technology Society of North America) Assistive Technology Supplier certification.

Requirements

Course requirements are as follows:

- REHSCI 1200 - HUMAN ANATOMY and
- REHSCI 1201 - HUMAN ANATOMY LAB
- REHSCI 1205 - HUMAN PHYSIOLOGY *

Or other approved Human Physiology course(s), 4 credits

- HRS 1787 - INTRODUCTION TO ORTHOTICS AND PROSTHETICS
- RT 1101 - FUNDAMENTALS OF REHABILITATION & ASSISTIVE TECHNOLOGY APPLICATIONS
- RT 1102 - FUNDAMENTALS OF REHABILITATION & ASSISTIVE TECHNOLOGY DESIGN

Select one Neuroscience course:

- REHSCI 1210 - NEUROSCIENCE or
- NROSCI 0080 - BRAIN AND BEHAVIOR or
- NROSCI 0083 - UHC BRAIN AND BEHAVIOR or
- NROSCI 1000 - INTRO TO NEUROSCIENCE or
- NROSCI 1003 - UHC INTRODUCTION TO NEUROSCIENCE or
- PSY 0505 - INTRODUCTION TO BIOPSYCHOLOGY
- REHSCI 1220 - KINESIOLOGY AND BIOMECHANICS and
- REHSCI 1221 - KINESIOLOGY AND BIOMECHANICS LAB

Select one Disability/Epidemiology course:

- REHSCI 1275 - INTRO TO OCCUPATION SCIENCE
- REHSCI 1290 - PRACTICAL ISSUES IN DISABILITY or
- PUBHLT 0330 - INTRODUCTION TO EPIDEMIOLOGY or
- HRS 1515 - REHABILITATION PSYCHOLOGY or
- PSY 0515 - REHABILITATION PSYCHOLOGY or
- TLL 1580 - FOUNDATIONS OF SPECIAL EDUC or
- TLL 1560 - EARLY EDUCATION OF YOUNG CHILDREN WITH DISABILITIES or
- HHD 1013 - DEVELOPMENTAL PSYCHOPATHOLOGY
- TLL 1505 - AUTISM: CHARACTERISTICS AND INTERVENTIONS
- TLL 1509 - APPLIED BEHAVIOR ANALYSIS AND POSITIVE BEHAVIOR SUPPORT
- REHSCI 1296 - ASSISTIVE TECHNOLOGY IN REHABILITATION FIELD EXPERIENCE or
- RT 1207 - CLIENT CENTERED REHABILITATION & ASSISTIVE TECHNOLOGY DESIGN and
- REHSCI 1296 ASSISTIVE TECHNOLOGY IN REHABILITATION FIELD EXPERIENCE (2 credits)

Total Certificate Credits: 32-33

Pathokinesiology in Rehabilitation Certificate

Undergraduate Rehabilitation Science Certificates

The Undergraduate Program in Rehabilitation Science offers undergraduate certificates for students planning to continue their education in rehabilitation science programs or those seeking a concentration of courses in a particular rehabilitation science area. These certificates are designed to best prepare students for rehabilitation-related graduate programs; however, the certificates are not a requirement for application.

Completion of the Pathokinesiology in Rehabilitation Certificate provides the student with an excellent background in the sciences related to normal and pathological motion. It complements coursework offered in graduate programs such as physical therapy, occupational therapy, physician assistant studies, exercise science, kinesiology, and sports medicine. With minimal additional coursework (nutrition and fitness instruction), it also prepares students to take examinations for certification as a personal trainer or fitness expert, such as the Certified Strength and Conditioning Specialist (CSCS®) offered by the National Strength and Conditioning Association.

Requirements

Course requirements are as follows:

- REHSCI 1200 - HUMAN ANATOMY and
 - REHSCI 1201 - HUMAN ANATOMY LAB
 - REHSCI 1205 - HUMAN PHYSIOLOGY *
- *Or other approved Human Physiology courses(s), 4 credits
- REHSCI 1210 - NEUROSCIENCE
 - REHSCI 1219 - EXERCISE PHYSIOLOGY WITH LABORATORY
 - REHSCI 1220 - KINESIOLOGY AND BIOMECHANICS and
 - REHSCI 1221 - KINESIOLOGY AND BIOMECHANICS LAB
 - REHSCI 1250 - PATHOPHYSIOLOGY/HUMAN DISEASE
 - REHSCI 1285 - INTRO TO EVIDENCED-BASED REHAB

Total Certificate Credits: 25

Psycho-Social Issues in Rehabilitation Certificate

Undergraduate Rehabilitation Science Certificates

The Undergraduate Program in Rehabilitation Science offers undergraduate certificates for students planning to continue their education in rehabilitation science programs or those seeking a concentration of courses in a particular rehabilitation science area. These certificates are designed to best prepare students for rehabilitation-related graduate programs; however, the certificates are not a requirement for application.

Completion of the Psycho-Social Issues in Rehabilitation Certificate provides the student with a background in the psychological and social issues involved in disability, rehabilitation, and personal care. It helps prepare students for graduate programs in areas such as occupational therapy, physician assistant studies, rehabilitation counseling, accelerated or direct entry nursing programs, or disability studies.

Requirements

Course requirements are as follows:

- REHSCI 1200 - HUMAN ANATOMY and
 - REHSCI 1201 - HUMAN ANATOMY LAB
 - REHSCI 1205 - HUMAN PHYSIOLOGY *
- *Or other approved Human Physiology course(s), 4 credits
- REHSCI 1210 - NEUROSCIENCE or
 - NROSCI 0080 - BRAIN AND BEHAVIOR or
 - NROSCI 0083 - UHC BRAIN AND BEHAVIOR or
 - NROSCI 1000 - INTRO TO NEUROSCIENCE or
 - NROSCI 1003 - UHC INTRODUCTION TO NEUROSCIENCE or
 - PSY 0505 - INTRODUCTION TO BIOPSYCHOLOGY
 - REHSCI 1230 - REHABILITATION ETHICS
 - REHSCI 1250 - PATHOPHYSIOLOGY/HUMAN DISEASE
 - REHSCI 1275 - INTRO TO OCCUPATION SCIENCE
 - RT 1101 - FUNDAMENTALS OF REHABILITATION & ASSISTIVE TECHNOLOGY APPLICATIONS
 - REHSCI 1290 - PRACTICAL ISSUES IN DISABILITY or
 - HRS 1515 - REHABILITATION PSYCHOLOGY or
 - PSY 0515 - REHABILITATION PSYCHOLOGY or
 - HRS 1017 - INTRODUCTION TO EPIDEMIOLOGY /PUBHLT 0330
 - TLL 1580 - FOUNDATIONS OF SPECIAL EDUC or
 - TLL 1560 - EARLY EDUCATION OF YOUNG CHILDREN WITH DISABILITIES or
 - HHD 1013 - DEVELOPMENTAL PSYCHOPATHOLOGY
 - TLL 1505 - AUTISM: CHARACTERISTICS AND INTERVENTIONS
 - TLL 1509 - APPLIED BEHAVIOR ANALYSIS AND POSITIVE BEHAVIOR SUPPORT

Total Certificate Credits: 26-27

Major

Emergency Medicine, BS

The Bachelor of Science in Emergency Medicine Program (EM) is an upper-division program housed in the School of Health and Rehabilitation Sciences. The program is designed to provide the essential advanced clinical and leadership skills necessary for positions in the out-of-hospital profession. Additionally, this program is ideal for students interested in attending medical school, physician assistant programs, nursing school, or other graduate education in the health professions.

Students enter the EM Program after earning 60 prerequisite and general education credits and are afforded the opportunity to develop clinical skills during the junior year at facilities external to the University. These clinical and field sites require a criminal background check, child abuse clearance, and FBI fingerprint clearance (Act 33/34/73), physical examination, immunization verification, and a drug screen to verify eligibility to participate in clinical education. The cost of these requirements, as well as required classroom and clinical uniforms, are not included as part of the program fee, tuition, or other school/program-sponsored charges. A non-refundable program fee of \$1,500, covering the fall and spring terms of the junior year, will appear on the fall tuition invoice. Student tuition rates for the School of Health and Rehabilitation Sciences can be found at [Financial Information | University of Pittsburgh School of Health and Rehabilitation Sciences](#). Students are required to maintain health insurance throughout the entire clinical

year and it is strongly recommended for the senior year. Following successful completion of the junior year, students are eligible to take the National Registry of EMTs Paramedic examination (NREMT) to become certified paramedics.

Currently certified paramedics or US SOCOM Advanced Tactical Paramedics may enter the EM program as Emergency Medicine Degree Completion students (Senior Transfers), provided they have earned 51 prerequisite and general education credits. These students must complete 30 core credits within the University of Pittsburgh School of Health and Rehabilitation Sciences to earn an undergraduate degree. EM Degree Completion is offered in two formats: traditional in-person or asynchronous online.

For more information, please contact the program at 412-647-4547.

Admission Requirements

Students must complete prerequisite courses and general education requirements before graduating. Our general education requirements are included in our upper-level program prerequisites and curriculum requirements.

Prerequisite Courses

- Writing/Communication - 3 courses
- 1 Composition course - Seminar in Composition*
- 1 Writing-intensive course - ENGCOMP 400/450/ 530/535 recommended*
- 1 Oral Communication course^
- Algebra & Quantitative Reasoning - 2 courses
- 1 Algebra course
- 1 Statistics course - STAT 0200/1000 required
- Diversity - 1 course
- 1 Diversity course
- Humanities and Arts, Social Sciences, Natural Sciences - 3 courses
- 1 Course from any of these categories (Literature/Arts/Creative Work/Philosophical Thinking)
- 1 Social Sciences course
- 1 Natural Sciences course
- Global Awareness and Cultural Understanding - 1 course
- 1 Course from any of these categories (Global Issues/Specific Geographic Region/Cross-Cultural Awareness) - See [DSAS Catalog](#)
- EM 1102 - EMT Basic+

+ Verification of current Pennsylvania or National Registry EMT certification must be provided. If a non-credit course was taken for this certification, 4 credits may be granted through credit-by-course examination. Junior-year students without Pennsylvania EMT certification will be required to apply for and receive reciprocity from the Pennsylvania Department of Health.

Other Admission Criteria:

All students must have a minimum cumulative GPA of 2.5 (based on 4.0)

- A minimum grade of C- or better is required for EM prerequisite courses and a grade of D or better for additional coursework taken at Pitt.
 - A minimum grade of C or better is required for all transfer credits (courses taken outside of Pitt).
- Required credits for admission for Juniors: 60 (Applications may be submitted while prerequisite coursework is in progress.)

For Emergency Medicine Degree Completion students (Senior Transfers), proof of current paramedic certification or US SOCOM Advanced Tactical Paramedic must be provided to receive the advanced standing of 39 credits (this includes four credits of EMT). The awarding of 39 advanced standing credits limits the transfer of college credits to no more than 51 credits (including the required prerequisites and general education courses). College classes taken as requirements for obtaining paramedic certification may not be utilized toward the 51 credits.

Application Procedures:

Applications are due March 1st and interviews will begin in January for all applicants. Applications received after the deadline will be reviewed based on available space. All applicants are encouraged to apply early, as admission is competitive and limited seats are available.

- Complete the application for admission
- Submit a two- to three-page personal essay (no more than 1500 words) discussing how your experiences shaped your choice to apply to the Emergency Medicine Program that demonstrates your awareness of healthcare professions and your long-term goals. Please include how your experiences may contribute to equity, diversity, inclusion, and a sense of belonging to future classmates, colleagues, and patients. Also include other areas of interest, extracurricular activities, and leadership experiences.
- Transcripts from all colleges/universities attended are required prior to review. Pitt students do NOT need to supply their Pitt transcript. However, if you have earned college credit from any other schools, we will require those transcripts. If you are a student in the Dietrich School of Arts and Sciences, we should have access to the transcripts for any non-Pitt coursework that already appears on your Pitt transcript as Transfer Credit. If you have non-Pitt coursework that does not already appear on your Pitt transcript, you must send us an official transcript. Otherwise, we will contact you if any transcripts are required;
- Have a personal interview with the Emergency Medicine faculty.

Apply online at: [Apply | University of Pittsburgh School of Health and Rehabilitation Sciences](#)

Selection Criteria/Process:

Admissions decisions are based on an assessment of the applicant's overall academic record and application, personal statement, and interview.

Applications are reviewed by the Admissions Committee. Applicants who meet the program minimum requirements are granted an interview. Upon completion of the interviews, the admissions committee meets to review the data on all interviewed applicants and admission decisions (admitted, waitlisted, or rejected) are made. The Director of Admissions notifies the selected applicants.

Applications may be submitted while course requirements are in progress.

Meeting the minimum admission criteria does not guarantee admission to the program.

Recognizing that students will be entering the program with varying levels of education and experience, students are admitted into the program at the appropriate level based on the student's career and academic experiences. Current certified paramedics will be awarded 39 credits of advanced standing.

EM Degree Completion student (Senior Transfers) applications are accepted on a rolling basis. The EM Program is a Fall admit program for all junior year students. Transfer Seniors may enroll during the Fall or Spring.

Emergency Medicine Program

The EM Program junior year curricula consists of required courses that are offered only once during the academic year. Any deviation from completing the courses in the planned sequence will result in the delay of progressing through the curriculum and the year of graduation.

SHRS requires a minimum of 120 credits to graduate, 30 of which must be completed through the School. During the senior year, six (6) credits are required for each term. Elective credits must be approved by your advisor and the Program.

Fall Term - Junior Year

The EM Program junior year curricula consists of required courses which are offered only once during the academic year. Any deviation from completing the courses in the planned sequence will result in the delay of progressing through the curriculum and the year of graduation.

- EM 1111 - FOUNDATIONS OF EMERGENCY CARE
- EM 1112 - PATHOPHYSIOLOGY
- EM 1114 - MEDICATION ADMINISTRATION LAB (LAB)
- EM 1115 - INTRODUCTION TO PHYSICAL ASSESSMENT
- EM 1116 - PHYSICAL EXAM LAB
- EM 1122 - CARDIOLOGY AND RESPIRATORY
- EM 1131 - CLINICAL 1

Spring Term - Junior Year

- EM 1113 - PHARMACOLOGY
- EM 1117 - EMS OPERATIONS
- EM 1123 - CARDIOLOGY LAB
- EM 1124 - ADULT MEDICAL EMERGENCIES
- EM 1125 - OB/GYN, NEWBORN, AND PEDIATRIC CARE
- EM 1126 - ASSESSMENT-BASED MANAGEMENT LAB (LAB)
- EM 1132 - CLINICAL 2

Fall Term - Senior Year

- EM 1155 - LEGAL ISSUES IN HEALTH CARE
 - EM 1166 - SENIOR INTERNSHIP
 - EM 1170 - CRITICAL CARE MEDICINE 1
- SENIOR YEAR ELECTIVES - 6 credits

Spring Term - Senior Year

- EM 1160 - PROFESSIONAL ISSUES
 - EM 1171 - CRITICAL CARE MEDICINE 2
- SENIOR YEAR ELECTIVES - 6 credits

EM Degree Completion (Senior Transfers)

Applicants who have completed the 51 college credits including prerequisite and general education courses and are currently certified as paramedics (by a state EMS agency or the National Registry of EMTs or US SOCOM Advanced Tactical Paramedics), may be awarded advanced standing and admitted into the Program as an Emergency Medicine Degree Completion student (Senior Transfer). During the senior year, these students will be required to complete 30 core credits within the School of Health and Rehabilitation Sciences to be eligible for graduation. These students have the option of attending in a traditional in-person format or an online asynchronous format.

EM Degree Completion: In-Person Format

Fall Term

- EM 1155 - LEGAL ISSUES IN HEALTH CARE
 - EM 1166 - SENIOR INTERNSHIP
 - EM 1170 - CRITICAL CARE MEDICINE 1
- SENIOR YEAR ELECTIVES - 9 credits*

Spring Term

- EM 1160 - PROFESSIONAL ISSUES
 - EM 1171 - CRITICAL CARE MEDICINE 2
- SENIOR YEAR ELECTIVES - 9 credits*

In-Person Format - Elective Courses

Electives outside of the EM program shall be reviewed by your advisor and approved by the Program.

- EM 1135 - CRITICAL CARE CLINICAL EXPERIENCE I
- EM 1152 - ISSUES IN HEALTH CARE
- EM 1153 - ISSUES IN HEALTH CARE EDUCATION
- EM 1154 - HEALTH CARE RESEARCH
- EM 1158 - FINANCE AND ACCOUNTING FOR HEALTH CARE
- EM 1164 - EMS SPECIAL RESPONSE SITUATIONS
- EM 1168 - LEADERSHIP IN HEALTH CARE
- EM 1177 - SENIOR SEMINAR
- EM 1180 - HEALTH CARE MANAGEMENT
- EM 1185 - BEYOND THE BODY - WEB
- EM 1186 - CERTIFIED AMBULANCE CODER - WEB
- EM 1187 - ORGANIZATIONAL THEORY - WEB
- EM 1199 - INDEPENDENT STUDY
- EM 1250 - INTRODUCTION TO COMMUNITY HEALTH
- EM 1251 - MOBILE INTEGRATED HEALTH CARE
- EM 1260 - COGNITIVE PSYCHOLOGY OF DECISION MAKING - WEB
- NUR 0012 - HUMAN ANATOMY AND PHYSIOLOGY 1 with Lab NUR 0002 Credits / Units: 4 *
- NUR 0013 - HUMAN ANATOMY AND PHYSIOLOGY 2 with Lab NUR 0003 Credits / Units: 4 *
- REHSCI 1301 - ANATOMY & PHYSIOLOGY I WITH LABORATORY
- REHSCI 1200 - HUMAN ANATOMY with Lab REHSCI 1201 Credits / Units: 4
- REHSCI 1205 - HUMAN PHYSIOLOGY with Lab Credits / Units: 4

*Nursing Anatomy and Physiology courses are not available to Senior Transfer Student

EM Degree Completion: Online Format

Fall Term

- EM 1172 - ISSUES IN HEALTH CARE - WEB
- EM 1173 - ISSUES IN HEALTH CARE EDUCATION - WEB
- EM 1174 - HEALTH CARE RESEARCH - WEB
- EM 1175 - LEGAL ISSUES IN HEALTH CARE - WEB
- EM 1183 - FINANCE AND ACCOUNTING FOR HEALTH CARE - WEB
- EM 1185 - BEYOND THE BODY - WEB
- EM 1270 - INTRODUCTION TO COMMUNITY HEALTH - WEB

Spring Term

- EM 1178 - LEADERSHIP IN HEALTH CARE-WEB
- EM 1179 - HEALTH CARE MANAGEMENT - WEB
- EM 1181 - PROFESSIONAL ISSUES - WEB
- EM 1182 - CRITICAL CARE MANAGEMENT - WEB
- EM 1184 - SENIOR SEMINAR - WEB
- EM 1271 - MOBILE INTEGRATED HEALTH CARE - WEB

Rehabilitation Science, BS

The Bachelor of Science Program in Rehabilitation Science (BSRS) offers a dynamic curriculum designed to prepare students for graduate education in occupational therapy, physical therapy, physician assistant studies, medicine, prosthetics and orthotics, rehabilitation counseling and assistive technology, and other health care professions. The program has core curriculum requirements designed with enough flexibility to permit students to pursue a personalized education to achieve their educational goals. Students are encouraged to explore other areas of academic inquiry through elective courses, minors and certificates throughout the University and abroad; to participate in clinical experiences; to involve themselves in undergraduate research; and to develop their leadership skills through participation in student organizations and community service.

Faculty who teach in the BSRS program constitute a strong interdisciplinary group of individuals from the School of Health and Rehabilitation Sciences including representation from the departments of Community Health Services and Rehabilitation Science, Occupational Therapy, Physical Therapy, Physician Assistant Studies, and Rehabilitation Science and Technology. In addition, instructors from other Schools of the Health Sciences teach within the program along with community leaders, clinicians and researchers with experience in selected areas.

Contact Information:

Natalie Belin
 Program Administrator
 Undergraduate Program in Rehabilitation Science
 Suite 6065, Forbes Tower
 412-624-3112
undergradrehabscience@shrs.pitt.edu

Admission Requirements

Students are eligible for admission to the Rehabilitation Science Program after successful completion of approximately 60 college credits including the following prerequisite courses, other admission criteria and an application.

- Minimum cumulative GPA of 2.75 (based on 4.0).

- Prerequisite science and math GPA of 2.5 (based on 4.0).
 - *The science and math GPA is calculated using scores from any course taken in the departments of Biology, Chemistry, Physics, and Math including higher level classes. Repeated classes are averaged.*
 - Prerequisites must be completed for a letter grade, minimum grade of C- (C for transfer) unless otherwise noted.
 - Applications may be submitted while prerequisite coursework is in progress.
- Meeting the minimum admission criteria does not guarantee admission.*

General Education Requirements/Prerequisites

Requirements for students entering the University of Pittsburgh in Fall 2022 as first-year students, and students currently enrolled at the University of Pittsburgh and external transfer students entering the upper-division programs offered at SHRS in Fall 2024:

- General Biology (BIOSC 0150 or BIOSC 0715) and Lab (BIOSC 0050 or BIOSC 0057 or BIOSC 0058) - 4 Credits
 - General Chemistry and Lab (CHEM 0110 or CHEM 0710) - 4 Credits
 - Physics 1 (PHYS 0110 or PHYS 0174 or PHYS 0475) - 3-4 Credits
 - Mathematics (MATH 0031 or higher) - 3 Credits. Students exempt from Algebra requirement with a 620 or above Math SAT or a 27 or above Math ACT
 - Statistics (STAT 0200, STAT 1000, or higher) - 3-4 Credits
 - Introduction to Psychology (PSY 0010) - 3 Credit
 - English Composition (Minimum ENGCOMP 0200 or equivalent) - 3 Credits
 - Intensive Writing (W) - 3 Credits. Choose one course with *Course Attribute* "High Impact Practices" and *Course Attribute Value* "Writing Intense Course." ENGCOMP 0440 or ENGCOMP 0540 recommended
 - Oral Communication - 3 Credits. COMMRC 0520 ; COMMRC 0500 , COMMRC 0510 , COMMRC 0530 accepted
 - Diversity course - 3 Credits. Choose one course with *Course Attribute* "DSAS General Education Requirement" and *Course Attribute Value* "Diversity."
 - Humanities course - 3 Credits. Choose one course with *Course Attribute* "DSAS General Education Requirement" and *Course Attribute Value* "Literature" or "Creative Work" or "Philosophical Thinking or Ethics" or "The Arts." Consider a course in bioethics or one with a disability or health/medicine focus.
 - Social Science course - 3 Credits. Choose one course with *Course Attribute* "DSAS General Education Requirement" and *Course Attribute Value* "Social Science." Consider a course with a disability or health/ medicine focus.
 - Global Awareness and Cultural Understanding - 3 Credits. Choose one course with *Course Attribute* "DSAS General Education Requirement" and *Course Attribute Value* "Cross-Cultural Awareness" or "Geographic Region" or "Global Issues." ANTH 0780 Cultural Anthropology recommended.
- Total Required Prerequisite Credits: 43-46

Students planning to apply to graduate programs in health sciences are encouraged to complete most of the prerequisite courses for those programs (e.g., Physics 2, Biology 2, Chemistry 2, etc.) prior to admission to the Undergraduate Rehabilitation Science Program. Anatomy and Physiology (prerequisites for many professional health science programs) are included in the Rehabilitation Science curriculum.

Application Procedures

Please visit the SHRS website to access information about applying to the program.

Required for admission:

- A completed application
- A personal statement (see website for prompt) School of Health and Rehabilitation Sciences | University of Pittsburgh | University of Pittsburgh School of Health and Rehabilitation Sciences

- Resume (see website for prompt) School of Health and Rehabilitation Sciences | University of Pittsburgh | University of Pittsburgh School of Health and Rehabilitation Sciences
- Transcripts from all colleges/universities attended
- A minimum cumulative GPA of 2.75 and a minimum math and science prerequisite GPA 2.5 is required (3.0 or higher GPAs are typical for admission).

Please note that admission to the Rehabilitation Science program is competitive. Meeting the minimum admission criteria does not guarantee admission.

Transfer Student Information:

Transfer students must apply to the University of Pittsburgh by completing the Office of Admission and Financial Aid's Transfer Application and selecting Rehabilitation Science as their intended field of study. International transfer students click [here](#).

Rehabilitation Science Curriculum

While enrolled in the Rehabilitation Science program, students must complete the core courses, at least one course from each of the core areas and a minimum of 30 credits from SHRS, inclusive of course requirements. Students must complete 120 cumulative credits to graduate with the BS in Rehabilitation Science degree.

- *The 30 required SHRS credits include courses from the following departments: ATHLTR, CSD, EM, HIM, HRS, NUTR, and REHSCI.*

Online Course Policy:

Students are expected to review their plan of study with the BSRS Academic Advisor before registering for any online course. While we accept online courses, it is the responsibility of the student to check graduate school prerequisite requirements related to online courses.

Additional online credits may be accepted if taken prior to matriculation into the BSRS Program.

Policy on Taking Courses at Another Institution:

Current BSRS students in good academic standing (cumulative GPA of at least 2.00), including students admitted to BSRS who need to complete prerequisites prior to starting their program, may attend another accredited institution to complete their prerequisites, provided they receive prior approval from the SHRS Advising Center. Students who have completed 60 or more credits may not take program-required courses or electives at two-year institutions. However, up to six credits of graduate school prerequisites may be taken at a two-year institution and be applied to the BSRS degree.

Students seeking to take and transfer credits from another institution are required to fill out the SHRS form, *Undergraduate Request to Take Courses off Campus for Transfer Credit* and submit it along with appropriate course descriptions to the email address on the form. Students will not receive credit for courses taken without advance approval. BSRS students may not enroll in courses outside the University of Pittsburgh in the semester in which they are graduating.

Core Course Requirements

- REHSCI 1200 - HUMAN ANATOMY
- REHSCI 1201 - HUMAN ANATOMY LAB
- REHSCI 1225 - INTRO TO REHABILITATION SCIENCE
- REHSCI 1235 - MEDICAL TERMINOLOGY

- REHSCI 1240 - ISSUES IN HEALTH CARE
- REHSCI 1265 - PHARMACOLOGY IN REHABILITATION
- REHSCI 1280 - PSYCH AND SOCLGY OF DISABILITY

Core Areas

Human Development (3 Credits)

Students must complete one of the following:

- REHSCI 1245 - HUMAN DEVELOPMENT preferred
- HHD 0005 - LIFE SPAN DEVELOPMENT or
- PSY 0310 - DEVELOPMENTAL PSYCHOLOGY accepted

Human Physiology (4 credits):

Students must complete one of the following:

- REHSCI 1205 - HUMAN PHYSIOLOGY
- BIOSC 1070 - HUMAN PHYSIOLOGY-UHC
- BIOSC 1250 - HUMAN PHYSIOLOGY or
- NROSCI 1250 - HUMAN PHYSIOLOGY and
- BIOSC 1255 - PHYSIOLOGY LABORATORY or
- Note: This class is reserved for Bio majors. RS students will be able to register only if there are seats available after Bio students have enrolled.
- REHSCI 1206 - HUMAN PHYSIOLOGY LAB
- NROSCI 1070 - HUMAN PHYSIOLOGY-FHC
- Another approved course

Neuroscience:

Students must take one of the following:

- REHSCI 1210 - NEUROSCIENCE
- NROSCI 0080 - BRAIN AND BEHAVIOR
- NROSCI 0083 - UHC BRAIN AND BEHAVIOR
- NROSCI 1000 - INTRO TO NEUROSCIENCE
- NROSCI 1003 - UHC INTRODUCTION TO NEUROSCIENCE
- PSY 0505 - INTRODUCTION TO BIOPSYCHOLOGY

Research Methodology:

Students must take one of the following:

- REHSCI 1000 - PRINCIPLES OF RESEARCH METHODOLOGY
strongly recommended
- PSY 0036 - RESEARCH METHODS LECTURE
- PUBHLT 0431 - UNDERSTANDING AND INTERPRETING HEALTH RESEARCH

Global Citizenship:

Students must take one of the following:

- ANTH 1761 - PATIENTS AND HEALERS: MEDICAL ANTHROPOLOGY 1
- HIST 1090 - HISTORY OF MEDICINE AND HEALTH CARE
- NUR 1829 - CONTEM ISSUES CROSS CULTL HEALTH
- PSY 0186 - CROSS CULTURAL PSYCHOLOGY
- PUBHLT 1001 - INTRODUCTION TO GLOBAL HEALTH
- REHSCI 1292 - DIVERSITY AND CULTURAL ISSUES IN HEALTH, DISABILITY AND REHABILITATION
- REHSCI 1297 - CROSS-CULTURAL INDEPENDENT STUDY
- SOCWRK 1035 - GLOBAL PERSPECTIVES SOCIAL WORK
- SPAN 1323 - MEDICAL SPANISH
- *A Study/Internship abroad with a health, rehabilitation, or disability component, and an academic inquiry into culture may fulfill this requirement. Contact an advisor for additional details and requirements.*
- SOC 0477 - MEDICAL SOCIOLOGY

Health/Science Writing Intensive:

Students must take one of the following:

- ENGCOMP 0430 - PUBLIC COMMUNICATION OF SCIENCE AND TECHNOLOGY
- ENGCOMP 0450 - RESEARCH WRITING
- ENGCOMP 0530 - WRITING FOR THE SCIENCES
- ENGCOMP 0535 - WRITING IN THE HEALTH SCIENCE PROFESSIONS
- ENGCOMP 1101 - LANGUAGE OF SCIENCE AND TECHNOLOGY
- ENGCOMP 1102 - LANGUAGE OF MEDICINE
- ENGCOMP 1400 - GRANT WRITING FOR NONPROFITS
- ENGCOMP 1402 - GRANT WRITING FOR RESEARCH

Total Core Requirements

Total Core Requirement Credits: 31-32

Rehabilitation Science Elective Courses

NEW COURSE COMING (Spring Term 2025) REHSCI 1320 - Applied Anatomy and Kinesiology (3 credits)

- REHSCI 1206 - HUMAN PHYSIOLOGY LAB
- REHSCI 1219 - EXERCISE PHYSIOLOGY WITH LABORATORY
- REHSCI 1220 - KINESIOLOGY AND BIOMECHANICS
- REHSCI 1221 - KINESIOLOGY AND BIOMECHANICS LAB
- REHSCI 1230 - REHABILITATION ETHICS
- REHSCI 1250 - PATHOPHYSIOLOGY/HUMAN DISEASE
- REHSCI 1275 - INTRO TO OCCUPATION SCIENCE
- REHSCI 1285 - INTRO TO EVIDENCED-BASED REHAB
- REHSCI 1290 - PRACTICAL ISSUES IN DISABILITY
- REHSCI 1295 - FIELD EXPERIENCE
- REHSCI 1296 - ASSISTIVE TECHNOLOGY IN REHABILITATION FIELD EXPERIENCE
- REHSCI 1299 - INDEPENDENT STUDY

- HRS 1787 - INTRODUCTION TO ORTHOTICS AND PROSTHETICS
- RT 1101 - FUNDAMENTALS OF REHABILITATION & ASSISTIVE TECHNOLOGY APPLICATIONS
- RT 1102 - FUNDAMENTALS OF REHABILITATION & ASSISTIVE TECHNOLOGY DESIGN
- RT 1207 - CLIENT CENTERED REHABILITATION & ASSISTIVE TECHNOLOGY DESIGN

Example Plan of Study

This plan of study example includes both required and elective courses offered in the Undergraduate Program in Rehabilitation Science. Students are encouraged to design their own plan of study based on their career, academic and personal interests.

Junior Year-Fall Term

- REHSCI 1200 - HUMAN ANATOMY
- REHSCI 1201 - HUMAN ANATOMY LAB
- REHSCI 1205 - HUMAN PHYSIOLOGY
- REHSCI 1225 - INTRO TO REHABILITATION SCIENCE
- REHSCI 1000 - PRINCIPLES OF RESEARCH METHODOLOGY
- REHSCI 1235 - MEDICAL TERMINOLOGY
- REHSCI 1240 - ISSUES IN HEALTH CARE

Credits: 16

Junior Year-Spring Term

- Study Abroad

-OR-

- REHSCI 1220 - KINESIOLOGY AND BIOMECHANICS
- REHSCI 1221 - KINESIOLOGY AND BIOMECHANICS LAB
- REHSCI 1265 - PHARMACOLOGY IN REHABILITATION
- REHSCI 1275 - INTRO TO OCCUPATION SCIENCE
- REHSCI 1292 - DIVERSITY AND CULTURAL ISSUES IN HEALTH, DISABILITY AND REHABILITATION
- REHSCI 1295 - FIELD EXPERIENCE

Credits: 15

Senior Year-Fall Term

- RT 1101 - FUNDAMENTALS OF REHABILITATION & ASSISTIVE TECHNOLOGY APPLICATIONS
- REHSCI 1210 - NEUROSCIENCE
- REHSCI 1219 - EXERCISE PHYSIOLOGY WITH LABORATORY
- REHSCI 1230 - REHABILITATION ETHICS
- REHSCI 1285 - INTRO TO EVIDENCED-BASED REHAB

Credits: 16

Senior Year-Spring Term

- REHSCI 1245 - HUMAN DEVELOPMENT
- REHSCI 1250 - PATHOPHYSIOLOGY/HUMAN DISEASE
- REHSCI 1280 - PSYCH AND SOCLGY OF DISABILITY
- REHSCI 1290 - PRACTICAL ISSUES IN DISABILITY
- Health/Science Writing Intensive

Department of Health Information Management

As the demand for quality health care rises, so does the need for accurate and reliable patient data. Pitt's Department of Health Information Management is a leader in providing students with high quality education and immersive internships that prepare them to meet future data management challenges across the ever-changing landscape of health care. Our faculty are committed to developing the next generation of health information professionals. They serve at the highest levels of regional, national, and international HI professional associations and conduct research that advances the quality of care for patients. Collaboration with other health care disciplines allows them to successfully research and develop new tools and technologies, including mobile health applications, classification systems and other data management solutions. The Bureau of Labor Statistics cites health information professionals as one of the 20 fastest-growing occupations in the US. On top of strong job prospects, competitive salaries also await HI graduates. More than half of our new HI graduates with a bachelor's degree start with an average salary of \$72,000*.

In addition to course work, the HI program includes clinical education experiences, which provide valuable hands-on learning for the HI student.

Admission Requirements:

- Minimum cumulative GPA of 2.5 (based on 4.0).
- 60 credits are required to start the program. Students who will have completed a minimum of 54 credits may be eligible.

Major

Health Informatics, BS

Accurate, reliable patient data is critical to health professionals, and the health information management department is the key health center for medical staff, administrators, other health professionals, and the community. Due to the increased presence of technology as a key component of health care delivery and the need for quality health care data, more Health Informatics (HI) professionals are finding career opportunities in data analytics, business intelligence and in the information systems environment, where they analyze and use health care data, develop, market, and implement software; ensure that systems comply with standards and regulations, and work in support of quality, privacy, and security. The Bureau of Labor Statistics cites health information professionals as one of the 20 fastest-growing occupations in the US. On top of strong job prospects, competitive salaries also await HI graduates. More than half of our new HI graduates with a bachelor's degree start with an average salary of \$ 72,000 *. In addition to course work, the HI program includes clinical education experiences, which provide valuable hands-on learning for the HI student.

Admission Requirements

- Minimum cumulative GPA of 2.5 (based on 4.0).
- 60 credits are required to start the program. *Students who will have completed a minimum of 54 credits may be eligible.*

Prerequisite Courses

Grade of C- (C for transfer), 3 credits minimum unless otherwise noted

- Computer Programming, 1 course
- Seminar in Composition*, 1 course
- Writing Intensive, 1 course.
- Oral Communication, 1 course. *COMMRC 0520 preferred; 0310, 0500, 0510, 0530 acceptable.*
- College Algebra, 1 course. MATH 0031 or higher math required. *Exemption not accepted.*
- Statistics, 1 course. *STAT 0200, 1000, or 1100 required.*
- Diversity*, 1 course
- Literature*, The Arts*, Creative Work* or Philosophical Thinking and Ethics*, 1 course
- Social Science*, 1 course
- Biology, Chemistry or Physics, 1 course
- Cross-Cultural Awareness*, Global Issues*, or Specific Geographic Region*, 1 course

*See the [DSAS Catalog](#).

Pitt Students (including regional campuses)

Complete the SHRS online application by [clicking here](#). For more information on the undergraduate application process, please [click here](#).

Transfer Students

For information on the HI undergraduate application process, please [click here](#). To apply, please complete the following steps:

Step 1: Fill out the [University of Pittsburgh Transfer Application](#).

Step 2: Fill out the free [SHRS online application](#). You will need the Student ID (PeopleSoft ID) you received when filling out the [University of Pittsburgh Transfer Application](#) (Step 1) in order to start the [SHRS application](#) (Step 2).

Application Requirements

- Complete the application by the March 1 deadline. Applications may be submitted while prerequisite coursework is in progress.
- Submit a personal essay-a brief statement discussing why you are interested in the Undergraduate Program in Health Informatics, your professional goals including how and when you became interested in this field of study. You may also include other areas of interest, extra-curricular activities and leadership experiences as well as anything you have done to learn about the field of health informatics in preparation for majoring in the program (max. word count 500 words).
- Official transcripts from all colleges and universities attended.

Additional Information

All students are required to bring a wireless laptop with Microsoft platform to class for courses that incorporate hands-on learning of computer applications and technology.

Applications are reviewed on a rolling basis.

Part-Time Study

Students may pursue this program on a part-time basis. Please consult with the [Center for Academic Advising and Student Success](#).

Clinical Internship

Health Informatics undergraduate students are required to complete a 3 credits internship (minimum of 120 hours) to facilitate a deeper understanding of the professional practice aspects of health information and health informatics. The overall goal of the internship is to provide students with practical experiences to apply their knowledge and skills that they develop as they progress through the HI curriculum.

The HIM department has affiliation agreements with approximately 120+ clinical sites for student internships. [The following list provides a sample of sites which recruit and/or host internships for HI students:](#)

- 3M/M*Modal
- Adelphi Village
- Allegheny Health Network
- Athena Health
- Central Ohio Trauma System
- CVS/Aetna
- Deloitte
- Geisinger Health System
- goShadow
- Grant Thornton Consulting
- Highmark
- HM Health Solutions
- Infinitus
- KPMG

- Mayo Clinic
- Merck
- Neighborhood Resilience Project
- Omnicell
- Pitt CTSI
- Southwest Veterans
- UPMC Health Plan
- UPMC Health System
- UPMC Hillman Cancer Center
- UPMC Physician Services Division
- Western PA Patient Registry

Prerequisites for Internship:

If a student chooses to complete their internship at a site that is under contract with the HIM department (or any other site where a contract is required), the items listed below are required. The clinical education coordinator will provide guidance to the student on completion of contract requirements.

- Physical examination including proof or completion of specific immunizations
- TB test, 2 step or blood test
- Pennsylvania Criminal Record Check
- Pennsylvania Child Abuse Clearance
- Recognizing and Reporting Child Abuse Training
- FBI Background Check (includes fingerprinting)
- HIPAA Training and Certification
- Bloodborne Pathogen Training and Certification
- **Students must carry professional student liability insurance coverage while participating in an internship at a site where contracts are required. The University provides liability insurance for internships covered by clinical affiliation contracts.**
- Some sites may have additional requirements (i.e. drug screen, Covid-19 vaccine, influenza vaccine, or orientation programs specific to their organization).
- Internship sites may not allow a student to participate in an internship at their site if the background check reports that they have been convicted of a misdemeanor, a felony; or a felonious or illegal act associated with alcohol and/or substance abuse.

Additional Information:

- Travel to the internship site is the responsibility of the student.
- All expenses for transportation, parking, meals, and costs of prerequisites associated with the internship are the responsibility of the student.
- The HIM Department utilizes an outside document management vendor, EXXAT, to collect and track student compliance with internship requirements. Cost for creating an Exxat account is \$25/student. Approximate cost for clearances is \$125 annually, and costs for physical exam and immunization status are dependent on health insurance coverage and provider costs.
- Approximate cost for drug screen is \$60.

For more information on the Internship, email Taylor Cronauer, HIM Clinical Education Coordinator: tah241@pitt.edu.

The Pitt Freshman Guarantee

All incoming Pitt freshmen choosing the Pre-Health Informatics major will be granted guaranteed admission for the Master of Science in Health Informatics (at regional Pitt campuses, choose corresponding codes).

Program Curriculum

Fall Term-Junior Year

- HI 1011 - CLINICAL SCIENCES IN HEALTH INFORMATION MANAGEMENT
- HI 1020 - HEALTH DATA SCIENCE PROGRAMMING USING PYTHON AND R
- HI 1210 - HEALTH INFORMATION AND THE HEALTH CARE SYSTEM
- HI 1250 - FOUNDATIONS OF HEALTH INFORMATICS AND INFORMATION MANAGEMENT
- HI 1430 - LEADERSHIP

Credits: 15

Spring Term-Junior Year

- HI 1437 - CLASSIFICATION SYSTEMS IN HEALTHCARE
- HI 1451 - DATABASE DESIGN AND BIG DATA ANALYTICS
- HI 1452 - DIGITAL HEALTH AND ELECTRONIC HEALTH RECORD SYSTEM
- HI 1454 - DATA SCIENCE IN HEALTH INFORMATICS
- HI 1650 - INTRO TO STATISTICS AND RESEARCH DESIGN

Credits: 15

Fall Term-Senior Year

- HI 1230 - FINANCIAL MANAGEMENT & HEALTH CARE REIMBURSEMENT
- HI 1411 - QUALITY MANAGEMENT
- HI 1450 - SECURITY, PRIVACY, LEGAL & ETHICAL ISSUES IN HEALTH CARE
- HI 1453 - DATA ANALYTICS AND MACHINE LEARNING IN HEALTH SCIENCE
- HI 1485 - PROJECT MANAGEMENT & SYSTEMS ANALYSIS

Credits: 15

Spring Term-Senior Year

- HI 1231 - TALENT MANAGEMENT AND HUMAN RESOURCES
- HI 1431 - REVENUE CYCLE MANAGEMENT
- HI 1471 - INTRO TO HEALTHCARE IT AND EMERGING TECHNOLOGIES
- HI 1497 - CLINICAL INTERNSHIP
- HI 1651 - CAPSTONE PROJECT

Credits: 15

Total Prerequisite Credits: 60

Total SHRS Credits: 60

Total Credits: 120

School of Nursing

School of Nursing

The School of Nursing, as an integral part of the University of Pittsburgh, subscribes to the University's commitment to teaching, research, and service. Through these major functions, the school strives to positively impact the quality of health care for all people.

The school offers baccalaureate (BSN), master's (MSN), and doctoral programs in philosophy (PhD) or nursing practice (DNP) that anticipate and reflect healthcare needs locally, nationally, and internationally. It prepares graduates to function effectively in multifaceted roles in various settings to promote people's health and well-being. It strives to instill a spirit of inquiry, encourage academic excellence, and foster lifelong learning in all students. The school seeks to enroll highly qualified students who represent racial, cultural, and geographic diversity and to prepare students for employment in a multicultural society. In keeping with the University's emphasis on excellence in undergraduate education, the school is committed to providing an undergraduate program with a strong clinical focus that builds upon a background in the liberal arts and sciences and provides the foundation for its graduates to become outstanding clinicians.

The knowledge, skill, teaching effectiveness, and diversity of the faculty are important factors in the success of our graduates. The school is committed to fostering excellence in teaching through the faculty's clinical expertise and practice, instructional competency, and the development of state-of-the-art knowledge through research. State-of-the-art technology is used to enhance student access and learning. The school supports an environment conducive to research, encourages interdisciplinary collaboration, and seeks to make research an integral part of the learning environment. The success of the school's research agenda continues to determine its national recognition and realm of influence.

The school believes that faculty and students should engage in public, professional, and community services as a way for them to share their knowledge, positively influence patient care delivery, and enhance their own and their peers' professional growth. Such involvement provides leadership for societal change, helps develop effective healthcare policies, and enhances healthcare for all people. Service is reflected in leadership and volunteer responsibilities related to the political process, professional organizations, and community service agencies.

Nursing Living Learning Community (LLC)

The Nursing Living Learning Community is an on-campus residency/learning community for nursing students. LLC expresses the School of Nursing's commitment to giving a small campus experience at a large institution. Students are provided with a well-rounded approach to their studies as well as University life, while allowing students to be housed together on one floor, in a group setting. Situated in Lothrop Hall, the LLC is adjacent to the Victoria Building, which houses the School of Nursing. This proximity to the Nursing School provides an added element of convenience for the student. The resident assistant for the LLC is a third or fourth year nursing student who works closely with the faculty and staff in the School of Nursing. One of the goals for the LLC is to provide students with educational experiences that are not normally afforded to incoming first-year students. Students participating in the LLC are given an early opportunity to develop their leadership skills by attending the prestigious Emerging Leaders Program. The LLC also schedules and facilitates study group sessions, nursing presentations, and social gatherings for nursing residents.

Admission to the LLC is by application only and limited to traditional undergraduate baccalaureate program students.

Contact Information

University of Pittsburgh
School of Nursing
Student Affairs Office
240 Victoria Hall
Pittsburgh, PA 15261
412-624-4587 or 1-888-747-0794
Email: sao50@pitt.edu
www.nursing.pitt.edu

Admission Information

The School of Nursing will accept applications for the Undergraduate Baccalaureate Program from prospective students who have had the following educational preparation:

- High school graduates
- Students transferring from the regional campuses and other schools of the University of Pittsburgh
- Students transferring from other colleges and universities
- Graduates from a baccalaureate program in any field of study (Accelerated 2nd Degree BSN Program)

All students who wish to obtain a Bachelor of Science in Nursing degree must apply and be accepted into the School of Nursing. Admission to other schools within the university, or to regional campuses does not guarantee admission to the School of Nursing. In general, the student's educational background will determine the most appropriate curriculum plan and program track in which to earn a BSN.

Individual State Boards of Nursing may prohibit a person convicted of any felonious act from licensure as a registered nurse (RN) Prospective student in that situation should contact the Board of Nursing in the state where they plan to practice following graduation.

High School Graduates

Applicants may obtain application information from the Office of Admissions and Financial Aid's website: <https://admissions.pitt.edu/apply/>.

Additional information regarding the application process and eligibility criteria is available on the School of Nursing website: <https://www.nursing.pitt.edu/programs/undergraduate-bsn>.

All high school applicants must meet the requirements for admission to the University of Pittsburgh as well as those specifically for the School of Nursing. High school courses required of all applicants are:

Course	Units*
English	4
Mathematics (higher level courses recommended)	4
Social Studies	3
Science with a related laboratory or the equivalent (one unit must be in chemistry)	3
Academic Electives**	5

Total	19
--------------	----

*A unit is equivalent to one year of successful completion of acceptable coursework.

**Two units of second language as an elective are highly recommended.

University of Pittsburgh Announces Test-Optional Program Extension Through Fall 2023

The University of Pittsburgh's decision to go test-optional through Fall 2025 is to ensure that no student is denied the opportunity to be considered for admission, particularly in light of ongoing challenges with access to SAT and ACT test centers.

All applicants to the University of Pittsburgh receive a comprehensive individual review; admission.

For more information, please refer to <https://admissions.pitt.edu/test-optional/>

Students Applying for Transfer from within the University (Internal Transfer)

Students who wish to transfer from schools within the University to the undergraduate program in the School of Nursing must submit an application for review of requirements. Consult with their respective academic advisor to officially initiate the transfer process. All records must be received by the School of Nursing in order for students to be considered for admission. Admission is offered for the Fall and Spring terms. The School of Nursing makes transfer decisions through a competitive process based upon academic eligibility and seating availability. For more information, refer to the Internal Transfer Applicants page.

Students Applying for Transfer from Other Universities or Colleges (External Transfer)

Applicants who have completed at least 18 credits or one full-time term of study at any institution of higher education other than the University of Pittsburgh will be considered for transfer into the School of Nursing on a competitive basis. Prospective transfer students are required to complete an online Transfer Application and submit all necessary supporting materials to the Office of Admissions and Financial Aid. For more information, refer to the External Transfer Applicants page.

Admission to the School of Nursing as a transfer student is contingent upon vacancies in the first year class. Competitive transfer applicants typically have a minimum GPA of 3.5 (on a 4.0 scale) after completion of 18 credits at a college level and B grades or better in science classes and SAT score of 1280 or higher (or an ACT composite score of 27 or higher). However, exceptions may be considered based upon the qualifications of the applicant. Applicants will be evaluated on their academic performance in both high school and a college or university. The following points govern the allowable advanced-standing credits:

- Official transcripts of courses taken at other universities or colleges must be submitted.
- Course descriptions for each course may be submitted to be considered for advanced-standing credits.
- Course content must be comparable to that offered at the University of Pittsburgh.

- The credit transferred for any course can be no greater than the credit given at the University of Pittsburgh.
- Only science and NUR equivalent courses with letter grades of B or better are transferable.
- Credit for service, correspondence, or extension courses is not transferable.
- Science courses must have been completed within the past eight years (few exceptions approved).

Readmission

Unless there are special circumstances on record in the school, a student who has been inactive and/or attended a different university/college while not attending the University of Pittsburgh is required to reapply through the University Office of Admissions and Financial Aid (OAFSA). Readmission will be contingent upon a vacancy in the class to which the student is to be readmitted. The start of the program of studies will be based on courses completed, current curriculum, and placement considerations.

Admission of International Students

International applicants for the four-year undergraduate BSN should apply using the International Student Undergraduate Application. For more information, go to the International Student Admissions website.

RN Options and Accelerated 2nd Degree BSN International applicants should apply directly to the School of Nursing at <https://www.nursing.pitt.edu/apply-now>.

Applicants are required to submit official, original academic credentials in certified English translation. The application process should be started 9 to 12 months in advance of the intended enrollment date.

An applicant whose native language is not English must take the Test of English as a Foreign Language (TOEFL), International English Language Testing System (IELTS), or Duolingo English Test (DET) and submit official test results. Applicants must have a level of English proficiency reflected by a score 100 or greater (Internet-based test). The school will accept official scores from International English Language Testing Systems (IELTS) for a minimum test band score of 6.5 taking the academic writing and reading modules of the test, and DET score of 130 or higher. Applicants seeking fall term admission must take the TOEFL/IELTS or Duolingo no later than the preceding March. The Institutional code for the University of Pittsburgh is 2927 and the School of Nursing Code is 43. See the International Student Admissions section of this bulletin for more information on the TOEFL/IETS/or Duolingo. Subject-specific international academic credential evaluation of official college transcript is required.

Accelerated 2nd Degree BSN Program Applicants

The Accelerated 2nd Degree BSN is designed to enable individuals with a Baccalaureate Degree in another discipline the ability to earn a Bachelor of Science Degree in Nursing (BSN) in three consecutive full-time terms. The Accelerated 2nd Degree BSN requires 122 credits: 31 credits from a previous degree, 36 to 38 prerequisite credits, and 54 curriculum credits. The curriculum is fast-paced and designed to build upon the individual's previous education while providing additional science and nursing content. At the completion, graduates are eligible to take the National Council Licensure Examination (NCLEX) to become Registered Nurses (RN).

Admission to the Accelerated 2nd Degree BSN is competitive and is based upon proven academic achievement and grades earned in prerequisite courses. The school admits two cohorts, Fall and Spring.

The Accelerated 2nd Degree BSN requires an applicant to complete 36 prerequisite credits. These courses may be taken at any college or university. Courses from other institutions must be evaluated as equivalent to University of Pittsburgh courses. (Coursework taken at the University of Pittsburgh School of Nursing prior to admission may be taken as a non-degree seeking student.)

Required prerequisites include:

Course	Credits
General Chemistry*+ (<i>includes a lab</i>)	4
English Composition (scientific/technical)	3
General Elective Credits	6
Psychology	3
Statistics (<i>descriptive, probability, & inferential</i>)	3
Human Anatomy & Physiology *+ (<i>includes a lab</i>)	6-8
Human Genetics *+	3
Microbiology *+ (<i>includes a lab</i>)	4
Pathophysiology*+	4

**Should have been completed within the past ten years*

+Should have achieved a grade of "B-" or better

Early submission of an application is recommended. New classes begin in the Fall, and Spring term. Accelerated 2nd Degree BSN applications are reviewed, and admission decisions are made on a rolling basis. Preferred application deadlines are Fall Term-March 1; Spring Term-July 1. Application information and other materials are located on the Accelerated 2nd Degree Admissions page. Prospective students must apply online to the School of Nursing at <https://www.nursing.pitt.edu/apply-now>.

Application items include:

- Completed online application
- Official transcripts of all course work taken at any university or college
- Two (2) letters of professional recommendation (via online application)
- Resume
- Personal essay explaining how this program will help achieve professional goals
- Application fee (non-refundable and does not apply to payment of tuition)
- International Applicants: (in addition to above items)
- Official graduation certificate verifying degree obtained (English translation)
- Subject-specific international academic credential evaluation of official college transcript
- Official TOEFL/IELTS or Duolingo score - exempt if native language is English or graduate of a degree program at an accredited institution in the United States

NOTE: Official documentation not submitted through the online application system must be mailed in sealed envelopes from the originating institutions to the School of Nursing (3500 Victoria Street, 240 Victoria Building, Pittsburgh, PA 15261).

Provisional admission may be granted after completion of 6 credits of science prerequisites if all other admission requirements are met. Undergraduate applicants who are within 12-18 credits of graduation will be considered for provisional admission. All prerequisite courses must be completed and official transcripts received by the start of the

first term. All admitted students will be required to place a \$250 as non-refundable deposit upon acceptance of admission, which will be counted towards tuition in the first term of study.

Academic Standards

Students have the obligation to exhibit honesty and to respect the ethical standards of the nursing profession in carrying out their academic assignments. The academic standards of the school are:

- A student may be placed on probation or dismissed for illegal, unsafe, or unethical professional conduct.
 - Students must maintain a cumulative GPA of 2.00 or better throughout the program.
 - Students must fulfill the requirements for the baccalaureate degree within a period of eight years.
- Students should view the School of Nursing Policies page for current policies.

Academic Advising

For students in the traditional BSN undergraduate track, the academic advisement process begins after successful completion of the University of Pittsburgh Pitt online Orientation.

Students schedule a meeting with their designated advisor. Students maintain the same advisor throughout the program of study, and continue to meet on a regular basis. This continuity permits advisors to promote academic achievements by guiding students through each level in the program, assisting in career planning and preparation, and by serving as primary educational resource, facilitator and student advocate.

Preclinical Requisites

Clinicals begin in the 2nd year of the program. Before beginning each school year, it is mandatory that students meet the following requirements for clinical experience (the frequency of these requirements vary by clinical site):

- HIPAA module completed by students enrolled in clinical
- The American Heart Association (AHA)--BLS- Healthcare Provider Course Certification
- Health evaluation and personal insurance coverage documentation
- ACT 33 Clearances (child abuse)
- ACT 34 Clearances (criminal record check)
- ACT 73 FBI fingerprinting background check
- ACT 168 Pennsylvania Sexual Misconduct/Abuse Disclosure Release (for fourth year students)
- Upload all requirements to Clinical Compliance Documentation system.

School of Nursing Faculty

School of Nursing Faculty

Program and Course Offerings

Major

Nursing, BSN Curriculum, Class of 2021

(Revised 2017 to reduce clinical hours throughout program - Class of 2021)

TOTAL CREDITS: 124-125

Degree Requirements

To earn the degree of Bachelor of Science in Nursing, the student must demonstrate satisfactory academic achievement in required course work prescribed by the curriculum with an overall academic achievement of a minimum GPA of 2.00. All pre-licensure undergraduate students will be required to successfully complete and pass standardized tests throughout the curriculum in order to progress through and graduate from the program. The degree requires a minimum of 124 credits. (Refer to curriculum design at www.nursing.pitt.edu for specific degree requirements.)

Upon completion of the undergraduate program, nursing students receive a Bachelor of Science in Nursing, which is considered the first professional nursing degree. They are then eligible to take the National Council Licensure Examination (NCLEX) to become Registered Nurses (RN).

Special Academic Opportunities/Programs

Students in the nursing program begin clinical experience during the first semester of the sophomore year and continue to have complex, rigorous, and unique experiences throughout the junior and senior years. During the senior year students identify an area of clinical interest and complete an extensive internship under the direction of a nurse preceptor.

Many opportunities are available for nursing students including independent study with advanced practice nurses and/or nurse researchers, research projects, and volunteer activities. All students are members of the Nursing Student Association (NSA) and are encouraged to participate in local, state, and national activities. Group tutoring and special review sessions for chemistry, microbiology, anatomy, and physiology are available for all nursing students. Students may also pursue a variety of other academic opportunities available throughout the university, such as participation in Honors College and other optional undergraduate activities and programs.

First Year

Fall (17 cr.)

- CHEM 0910 - CHEMICAL PRINCIPLES HEALTH PROFESSIONS
- NUR 0012 - HUMAN ANATOMY AND PHYSIOLOGY 1
- NUR 0002 - NURSING ANATOMY AND PHYSIOLOGY LABORATORY 1
- English Composition - 3 cr.
- Psychology - 3 cr.
- Art, Music, Creative Expression or Literature - 3 cr.
- NUR 0001 - FIRST YEAR SEMINAR

Spring (16 cr.)

- NUR 0031 - MICROBIOLOGY

- A series of Kaplan Preparation Practice Tests are integrated throughout the nursing program. A Diagnostic Prep, a Predictor exam, and a 3 day Kaplan Review are scheduled at end of program to provide students with prep resources to take the National Nursing License.

Nursing, BSN Curriculum, Class of 2022 and 2023

Degree Requirements

To earn the degree of Bachelor of Science in Nursing, the student must demonstrate satisfactory academic achievement in required course work prescribed by the curriculum with an overall academic achievement of a minimum GPA of 2.00. All pre-licensure undergraduate students will be required to successfully complete and pass standardized tests throughout the curriculum in order to progress through and graduate from the program. The degree requires a minimum of 124 credits. (Refer to curriculum design at www.nursing.pitt.edu for specific degree requirements.)

Upon completion of the undergraduate program, nursing students receive a Bachelor of Science in Nursing, which is considered the first professional nursing degree. They are then eligible to take the National Council Licensure Examination (NCLEX) to become Register Nurses (RN).

Special Academic Opportunities/Programs

Students in the nursing program begin clinical experience during the first semester of the sophomore year and continue to have complex, rigorous, and unique experiences throughout the junior and senior years. During the senior year students identify an area of clinical interest and complete an extensive internship under the direction of a nurse preceptor.

Many opportunities are available for nursing students including independent study with advanced practice nurses and/or nurse researchers, research projects, and volunteer activities. All students are members of the Nursing Student Association (NSA) and are encouraged to participate in local, state, and national activities. Group tutoring and special review sessions for chemistry, microbiology, anatomy, and physiology are available for all nursing students. Students

may also pursue a variety of other academic opportunities available throughout the university, such as participation in Honors College and other optional undergraduate activities and programs.

First Year

Fall (18 cr.)

- CHEM 0910 - CHEMICAL PRINCIPLES HEALTH PROFESSIONS

Department of Acute and Tertiary Care

Accelerated

Nursing - Accelerated 2nd Degree, BSN

Accelerated 2nd Degree BSN Program Applicants

The Accelerated 2nd Degree BSN is designed to enable individuals with a Baccalaureate Degree in another discipline the ability to earn a Bachelor of Science Degree in Nursing (BSN) in three consecutive full-time terms. The Accelerated 2nd Degree BSN requires 122 credits: 31 credits from a previous degree, 36 to 38 prerequisite credits, and 54 curriculum credits. The curriculum is fast-paced and designed to build upon the individual's previous education while providing additional science and nursing content. At the completion, graduates are eligible to take the National Council Licensure Examination (NCLEX) to become Registered Nurses (RN).

Admission to the Accelerated 2nd Degree BSN is competitive and is based upon proven academic achievement with a 3.0 minimum cumulative GPA required in the first degree and grades earned in prerequisite courses. The school admits two cohorts, Fall, and Spring.

The Accelerated 2nd Degree BSN requires an applicant to complete 36 prerequisite credits. These courses may be taken at any college or university. Courses from other institutions must be evaluated as equivalent to University of Pittsburgh courses. (Coursework taken at the University of Pittsburgh School of Nursing prior to admission may be taken as a non-degree seeking student.)

Required prerequisites include:

Course	Credits
General Chemistry*+ (includes a lab)	4

English Composition (scientific/technical)	3
General Elective Credits	6
Psychology	3
Statistics (<i>descriptive, probability, & inferential</i>)	3
Human Anatomy & Physiology *+ (<i>includes a lab</i>)	6-8
Human Genetics *+	3
Microbiology *+ (<i>includes a lab</i>)	4
Pathophysiology*+	4

*Should have been completed within the past ten years

+Should have achieved a grade of "B-" or better

Early submission of an application is recommended. New classes begin in the Fall, and Spring term. Accelerated 2nd Degree BSN applications are reviewed, and admission decisions are made on a rolling basis. Preferred application deadlines are Fall Term-March 1st; Spring Term-July 1st. Application information and other materials are located on the web at accelerated 2nd degree admissions. Prospective students must apply online to the School of Nursing at <https://www.nursing.pitt.edu/apply-now>.

Application items include:

- Completed online application
- Official transcripts of all course work taken at any university or college
- Two (2) letters of professional recommendation (via online application)
- Resume
- Personal essay explaining how this program will help achieve professional goals
- Application fee (non-refundable and does not apply to payment of tuition)
- **INTERNATIONAL APPLICANTS:** (in addition to above items)
- Official graduation certificate verifying degree obtained (English translation)
- Subject-specific international academic credential evaluation of official college transcript
- Official TOEFL/IELTS or Duolingo score - exempt if native language is English or graduate of a degree program at an accredited institution in the United States

Provisional admission may be granted after completion of 6 credits of science prerequisites if all other admission requirements are met. Undergraduate applicants who are within 12-18 credits of graduation will be considered for provisional admission. All prerequisite courses must be completed, and official transcripts received by the start of the first term. All admitted students will be required to place a \$250 as non-refundable deposit upon acceptance of admission, which will be counted towards tuition in the first term of study.

Accelerated 2nd Degree BSN Curriculum

Effective Fall 2024

Term 1

- NUR 1281 - FOUNDATIONS OF NURSING PRACTICE 1
- NUR 0082 - NURSING MANAGEMENT OF ADULT WITH ACUTE/CHRONIC HEALTH PROBLEMS
- NUR 1282C - NURSING MANAGEMENT OF ADULT WITH ACUTE/CHRONIC HEALTH PROBLEMS CLINICAL
- NUR 2000 - RESEARCH FOR EVIDENCE-BASED PRACTICE 1
- NUR 0066 - NUTRITION FOR CLINICAL PRACTICE
- NUR 0087 - PHARMACOLOGY AND THERAPEUTICS ACROSS THE LIFESPAN

Total Credits: 18

Term 2

- NUR 1120 - ADVANCED NURSING MANAGEMENT ADULT ACUTE/COMPLEX HEALTH PROBLEMS
- NUR 1020C - ADVANCED NURSING MANAGEMENT OF THE ADULT WITH ACUTE/COMPLEX HEALTH PROBLEMS CLINICAL
- NUR 1060 - NURSING CARE OF CLIENTS WITH PSYCHIATRIC MENTAL HEALTH PROBLEMS
- NUR 1260C - NURSING CARE OF CLIENTS WITH PSYCHIATRIC MENTAL HEALTH PROBLEMS CLINICAL
- NUR 1050 - NURSING CARE OF MOTHERS, NEWBORNS AND FAMILIES
- NUR 1250C - NURSING CARE OF MOTHERS, NEWBORNS AND FAMILIES CLINICAL
- NUR 1052 - NURSING CARE OF CHILDREN AND THEIR FAMILIES
- NUR 1252C - NURSING CARE OF CHILDREN AND THEIR FAMILIES CLINICAL
- NUR 1054 - NURSING CARE OF OLDER ADULTS
- NUR 1212 - INTRODUCTION TO HEALTHCARE FINANCE AND POLICY

Total Credits: 18

Term 3

- NUR 1121 - ADVANCED CLINICAL PROBLEM SOLVING
- NUR 1221C - ADVANCED CLINICAL PROBLEM SOLVING CLINICAL
- NUR 1134 - TRANSITION INTO PROFESSIONAL NURSING PRACTICE
- NUR 1234C - TRANSITION INTO PROFESSIONAL NURSING PRACTICE CLINICAL
- NUR 1128 - COMMUNITY HEALTH NURSING
- NUR 1228C - COMMUNITY HEALTH NURSING CLINICAL
- NUR 1085 - ETHICS IN NURSING AND HEALTH CARE
- NUR 0086 - NURSING INFORMATICS
- NUR 1990 - SENIOR SEMINAR

Total Credits: 18

Note:

A NCLEX-RN Preparation Process has been developed to assist students. The process is completed by students during their final term and consists of practice and proctored Comprehensive Exams and remediation, and a 3-day

NCLEX-RN Review Course that students attend. Students also receive additional preparation materials accessible following graduation.

School of Pharmacy

School of Pharmacy

Chartered in 1878, the School of Pharmacy has a tradition of developing leaders and innovators that drive the future of pharmacy. We investigate, discover, and create ways to improve patient health and, through partnerships, change practice and improve efficiency of care. We also use computational and bench research methods to discover and develop drugs and drug delivery systems, and optimize drug therapy. The School of Pharmacy leads the way in education, personalizing education and getting students to expert faster. The School of Pharmacy is among the oldest pharmacy schools in the country. **Pitt Pharmacy is in the top tier of schools of pharmacy in US News & World Report rankings and NIH-funded research.**

Mission

The School of Pharmacy is committed to improving health through excellence, innovation, and leadership in education of pharmacists and pharmaceutical scientists, in research and scholarship, in care of patients, and in service to our communities.

Vision

To be an outstanding school of pharmacy renowned for excellence in discovery and advancement of science-based use of medicines and other interventions to enhance the vitality and quality of life.

Values

Integrity guides our daily work. We foster:

Passion, commitment, and diligence

Creativity and personal growth

Collaboration and teamwork

A culture of respect for the individual.

Contact Information

University of Pittsburgh
School of Pharmacy
3501 Terrace St
Pittsburgh, PA 15261
Admissions: 412-383-9000
rxschool@pitt.edu
www.pharmacy.pitt.edu

Admissions

The School of Pharmacy admits students to its programs under one of two statuses - guarantee or open. The guarantee admission status is detailed below:

Pharmacy Guarantee First Year Admission

All students should first submit an application to the University of Pittsburgh, Office of Admissions and Financial Aid. The School of Pharmacy does not directly admit first year students to the professional program. Rather, candidates who

specify pre-pharmacy on their application, demonstrate academic success in high school, and score 1330 or higher on the SAT I (Math and Critical Reading sections), with a minimum of 660 in the Math section, will be offered a pharmacy guarantee if available. Students who receive the guarantee are expected to perform well in their pre-professional courses. In order to secure a place in the PharmD Program, students must earn:

- a letter grade of a C or better in all preprofessional courses with no repeated courses
- a 3.25 or greater overall GPA in preprofessional courses
- a competitive Math and Science GPA of 3.0

NOTE: Required Math and Science courses must be taken at the University of Pittsburgh (AP credits are acceptable).

Test optional applicants are eligible for this guarantee.

To exercise the Pharmacy guarantee, all applicants must:

- submit a completed PharmCAS application and fee
- participate in a satisfactory interview prior to School of Pharmacy Admission
- submit the Pharmacy College Admissions Test (PCAT) scores (PCAT for Fall 2023 Admissions see below)
- writing assessment

Pharmacy Guarantee students who meet these performance criteria will be admitted into the PharmD Program.

The PCAT is optional for the Fall 2022 Admissions cycle and will be considered in the holistic application review process for applicants who have reported scores. Applicants who are unable to complete an exam or choose not to report exam scores will not be disadvantaged.

All students interested in applying to the pharmacy program should also consult the Application for Admission of the *Graduate and Professional Catalog*.

Visit the School of Pharmacy Web site at www.pharmacy.pitt.edu.

Program Offerings

Major

Pharmaceutical Sciences, BSPS

The School of Pharmacy offers the opportunity for enrolled PharmD students to obtain a Bachelor of Science in Pharmaceutical Sciences (BSPS) degree after the completion of a minimum of 120 credit hours. Typically, students will have completed the pre-professional component and the first four academic terms (semesters) of the nine term (semester) PharmD program. Students are not enrolled into the BSPS program without admission to the PharmD program.

The school also offers graduate programs leading to an MS and a PhD.

For further information on the professional and graduate programs, see the School of Pharmacy-Graduate and Professional Degrees sections of the Graduate & Professional Studies Catalog.

School of Public Health

School of Public Health

About the School of Public Health

Founded in 1948, the School of Public Health (formerly known as the Graduate School of Public Health) is affiliated with the University of Pittsburgh Schools of the Health Sciences. Public health is the science of protecting the health of populations and communities. Public health professionals address issues such as effects of climate change; population control of infectious disease; air, food and water safety; and health equity. This contrasts with the role of clinicians such as nurses or physicians, who focus mainly on treating individuals who generally already have a health problem. Public health professionals apply tools from almost every field, but especially the quantitative, social, and biological sciences.

Since its founding, Pitt Public Health has ranked among the country's top schools of public health. Over the years, we have successfully implemented a three- component mission of research, education, and service/practice. The school responds to today's health threats by preparing the next generation of public health leaders to use innovation as the catalyst for problem-solving. The work of public health professionals has never been more important than in today's world of emerging disease, environmental threats, changing demographics, and growing health disparities. Public health addresses broad issues that affect the health and well-being of individuals, families, communities, populations, and societies-both now, and for generations to come.

Philosophy of Undergraduate Education

The primary objective of our undergraduate program is to educate the public health workforce of the future by providing the highest quality curriculum grounded in innovative science, principles of health equity and interdisciplinary approaches. Our vision at Pitt Public Health for the next decade is ambitious. We plan to conduct pioneering and high-quality research that addresses complex current and emerging public health issues; provide high-quality, inclusive, supportive, and progressive learning environments to prepare and inspire future public health leaders; promote action and promote equitable public health through practice, policy, advocacy, and professional engagement; and create sustainable pathways and a school climate for diverse faculty, staff and students to safely flourish and advance in public health. The BSPH program is key to unlocking the future of Public Health at Pitt.

Financial Information, Academic Standards and Graduation

Office of the Provost Policies and Guidelines

The Office of the Provost provides general oversight of academic affairs, including education, faculty, and student life. Policies and guidelines can be found at www.provost.pitt.edu.

International Students

All international students should refer to the University's Office of International Services (OIS) website at <http://www.ois.pitt.edu> for information on admissions, orientation, immigration and visas, and life in Pittsburgh.

Admission through the Office of Admissions and Financial Aid

The following students are admitted to the School of Public Health by the Office of Admissions and Financial Aid (OFA). Please visit <https://www.admissions.pitt.edu> for more information.

- First-year students.
- Transfer students who have previously enrolled at a college or university other than the University of Pittsburgh. These include former University of Pittsburgh students who have since earned college credits at another institution and now wish to return to the School of Public Health.
- Continuing education students: Adults who wish to begin or continue to work toward an undergraduate degree by taking a full- or part-time course load should apply as new or transfer students through the Office of Admissions and Financial Aid.
- Students who have previously earned a bachelor's degree from an institution other than the University of Pittsburgh and now wish to earn a second undergraduate degree.
- International students should refer to admission guidelines on the Office of Admissions and Financial Aid.

External Transfer Students

Students at other institutions who wish to apply for admission to the School of Public Health as a transfer student should submit a Transfer Application and supporting materials to the Office of Admissions and Financial Aid.

To be considered for admission, external transfer degree applicants must have completed at least 24 transferable college credits. A GPA of 3.0 or higher is preferred. Applicants who have earned 48 or more credits will be expected to have satisfactorily completed one college-level English composition course and a college-level algebra class (or higher-level math) with a 'C' grade or better. Students who have not completed these requirements will be reviewed on an individual basis.

After acceptance, the student's previous coursework will be evaluated to see how it equates to the School of Public Health's general education requirements. To gain a sense of how many of your credits may be transferrable to Pitt, please consult the Pitt Transfer Tool.

Admission through the School of Public Health

The following students must apply directly to the School of Public Health. See Pitt Public Health website for requirements and associated forms.

- Transfers from Other University of Pittsburgh Schools at the Pittsburgh campus
- Relocation from University of Pittsburgh Regional Campuses

Students Seeking Reinstatement

The following students must apply for reinstatement through the School of Public Health.

- School of Public Health students who have not enrolled for three consecutive terms (one calendar year).
- School of Public Health students who have completed their suspension periods and wish to continue their studies.

- Students who last attended another school at the Pittsburgh campus but have not enrolled in classes for three consecutive terms (one calendar year), have not attended another institution, and wish to be admitted to the School of Public Health.
- Students who are returning after completing their suspension period will be reinstated on probation.

Post-baccalaureate Students

Students who have completed an undergraduate degree and wish to take additional undergraduate courses on a non-degree-seeking basis may apply directly to the College of General Studies.

Transferring Out

Students need to complete an Academic Program (School) Change form. This form is sent to the appropriate University of Pittsburgh School which then decides whether to admit the student. Students should contact the school they want to transfer to determine if there are admissions requirements they need to complete before applying to transfer. Forms can be found in the student handbook.

Tuition and Fees Rates

Tuition rates and mandatory fee rates are available on the Undergraduate Tuition & Mandatory Fees page on the University website.

Full-time Students

Fall and Spring Terms: Undergraduate students registered for 12 to 18 credits in the Fall and Spring Terms are regarded as full-time students and are assessed the current undergraduate "flat" tuition rate for their academic center. Undergraduate students registered for fewer than 12 credits are considered part-time and are billed on a per-credit basis. Students will be charged per credit for each credit exceeding the maximum full-time credit limit.

Summer Term: All students are billed on a per-credit basis in the Summer Term.

Minimum Academic Standard

In addition to the University-wide regulations and standards detailed in the section on General Academic Regulations in the University Undergraduate Catalog, each student is expected to be familiar with these school-specific regulations and academic standards:

- It is the student's responsibility to review her/his academic standing, to identify undergraduate program requirements and prerequisites for intended undergraduate program(s), and to monitor their completion.
- All required and prerequisite coursework must be taken for a grade, when letter grade option is available, unless approved by the Program Director. Students must receive a C or better in each required course and Public Health elective course to earn credit.
- For non-Public Health, non-required coursework, students must earn a grade of D- or better.
- All grades will remain on the transcript and will be calculated into the GPA unless or until a course repeat has been processed. After the repeat has been processed, the credits will be removed, but the grade will remain on the transcript, although not factored into the GPA. A repeat flag will also be noted on the transcript.
- Students who receive a grade below a C- in a required course must repeat that course and attain a grade of C or better.
- Failure to receive an acceptable grade after the second repeat of a required course may result in the student being dismissed from the BSPH program.

Transfer Credit Policy

At the time of application coursework completed outside the University of Pittsburgh is evaluated by a Pitt Public Health advisor to determine if it meets University and School of Public Health policy required for transfer.

- A maximum of 60 credits can be transferred into the University of Pittsburgh from a two-year degree program: and a maximum of 90 from a four-year college/university.
- Courses must be passed with a grade of C or better and must be earned at an appropriately accredited institution.
- Courses must have reasonable equivalents at the University of Pittsburgh to be eligible for transfer. When requested, students are responsible for supplying descriptions for courses taken elsewhere.
- Courses cannot be a repeat of any courses taken at Pitt.
- The number of credits granted for a given course cannot exceed the number awarded for the course on the transcript of the school where the course was taken, or the number earned for the corresponding course at the University of Pittsburgh.
- Credits earned on the quarter system will be converted into semester credits. A quarter credit is equal to two-thirds of a semester credit (e.g., five quarter-system credits equal three semester credits, and three quarter-system credits equal two semester credits).
- Pitt Public Health accepts credits, but not grades, for transfer. Consequently, any courses that are accepted for transfer will be used as credit toward graduation but will not be calculated into the student's GPA at the University of Pittsburgh.
- Contact the BSPH Office at PHUndergrad@pitt.edu for information about transfer credit evaluation.

Grading Policies

Letter Grade Option

The School of Public Health adheres to the following University letter grade system without exception.

A+		
A	4.00	Superior
A-	3.75	
B+	3.25	
B	3.00	Meritorious
B-	2.75	
C+	2.25	
C	2.00	Adequate
C-	1.75	
D	1.25	
D+	1.00	Minimal
D-	0.75	

F	0.0	Failure
---	-----	---------

S/NC Grade Option

The School of Public Health offers both a standard letter-grade option and the Satisfactory/No-Credit (S/NC) option for students enrolled in most of the School of Public Health courses. Under the S/NC option, a student who does satisfactory work (a grade of C or better) in a course receives the grade of S. If the student's work is not satisfactory (a grade of C- or lower), the grade of NC (no credit) is given. Courses for which an S is earned are counted toward graduation but are not computed in the GPA. Courses for which an NC is earned are not counted toward graduation or the GPA, because the NC designates that no credit has been earned.

Students can select the S/NC grade option when enrolling for a course. After the end of the add/drop period, a student must complete a Grade Option/Audit Request form and submit it to PHundergrad@pitt.edu by the Grade Option deadline noted each term on the School of Public Health calendar.

Note: There are some formal limitations to a student's choice of grading systems; he or she should check with an academic advisor before deciding to take a course S/NC.

Audit (N Grade)

To audit a course, a student must register for and pay tuition for the course. The instructor for the course must sign the Grade Option/Audit Request form before the form can be processed. Completed forms must be submitted to PHundergrad@pitt.edu. Students who audit a course are given an N grade, which means that the course is counted neither towards graduation nor the GPA. A student typically chooses to audit a course for personal enrichment.

G Grades

At the discretion of an instructor, a G grade may be awarded when students who have been attending a course and making regular progress are prevented from completing the course due to extenuating personal circumstances. Students who are assigned a G grade are required to complete course requirements no later than one year after the term or session in which the course was taken, or by an earlier deadline established by the instructor. After that year, the grade will automatically change to NG; an NG grade cannot be changed, and the credits will no longer appear as "in progress." The student will be required to re-register for the course if it is needed to fulfill requirements for graduation. The School of Public Health encourages students with G grades to work with their instructors to complete the requirements for the course as soon as possible.

Academic Honors

Outstanding undergraduate students in the School of Public Health are recognized for their academic achievement in several ways.

Dean's List

After grades are posted for the fall and spring term, School of Public Health undergraduate students whose academic performance indicate outstanding achievement are recognized on the Dean's List. To be placed on the Dean's List, a student must have earned at least 12 letter grade credits (not including courses taken on the Satisfactory/No-Credit option) with a term GPA of at least 3.50 and no grade lower than a C. Seniors with a term GPA of at least 3.50 and no grade lower than a C in the last term prior to graduation are recognized on dean's list if they have earned at least 9 letter grade credits AND Capstone course (3 credit S/NC course) or at least 11 letter grade credits AND Capstone seminar (1 credit S/NC course).

If a letter grade is changed after the Dean's list is generated, it is the student's responsibility to contact PHUndergrad@pitt.edu to reassess Dean's list eligibility.

Academic Standing

The School of Public Health is committed to its students' success and has guidelines in place to connect them with the appropriate resources at the earliest sign of academic difficulty. A student's academic standing is comprised of three factors: term GPA, cumulative GPA, and progress toward a degree. Students in the School of Public Health are expected to maintain a cumulative GPA and term GPA of 2.00 or above for each term of enrollment. In addition, full-time students must successfully complete at least 12 credits during each enrollment term. Part-time students must successfully complete at least 3 credits during each enrollment term.

Academic Alert is a marker designed to notify students who show signs, early on and throughout their academic career, of jeopardizing successful progress toward the completion of their undergraduate degree. Students who receive two consecutive **Academic Alerts** will be placed on **Academic Probation**.

Students are placed on **Academic Probation** after earning a GPA between a 1.50 and a 1.99 over two consecutive terms or have one semester at or below a 1.49 cumulative GPA. Students may also be placed on Academic Probation if they fail to make progress toward their degree (e.g., failing to earn any academic credits).

Students currently on Academic Probation who earn a term GPA below a 2.00 or fail to make progress toward their degree will be subject to **Academic Suspension**. After being suspended, students are not eligible to re-enroll for one calendar year. Following suspension, students are required to apply for reinstatement at the School of Public Health Dean's Office. Students returning from academic suspension are reinstated on academic probation and are required to develop an academic success plan upon their return. These reinstated students' records are reviewed after each subsequent term of enrollment.

Students who have been reinstated from Academic Suspension must earn at least a 2.00 GPA for each term that they enroll until they have achieved a cumulative GPA of a 2.0 or above. If a student fails to earn a 2.00 term GPA, they are subject to **Academic Dismissal** from the University. Dismissed students are not eligible for reinstatement.

Probation and Eligibility for Financial Aid

The Office of Admissions and Financial Aid (OAFAs) monitors financial aid eligibility (www.financialaid.pitt.edu). Students on probation should contact OAFAs at 412-624-7488 for more information.

Credit Policies

The following section details the School of Public Health's rules regarding allowable credits and courses for students earning a degree in the School of Public Health.

Advanced Placement (AP) Credits

See the AP credit section of the Office of Admissions and Financial Aid website.

Summer Courses Taken Elsewhere

School of Public Health students in good academic standing (cumulative GPA of at least 2.00) may attend a summer or special session of another accredited institution in order to supplement their program, provided they receive prior approval from their School of Public Health advisor. Students may not repeat any course taken at the University of Pittsburgh (passed or failed) at another institution. A maximum of two courses (no more than 8 credits) may be taken in a single period of enrollment elsewhere.

Repeating a Course/Duplication of Course Content

If a student repeats a course, they must complete a course repeat form and submit it to the Office of Student Affairs. Please note the following.

- The original grade remains on the transcript but is not counted in the calculation of the GPA.
- Any grade earned in the repeated course will be factored into the GPA, even if it is lower than the original grade.
- The repeated course does not increase the number of credits counted toward meeting degree requirements unless an F is replaced by a passing grade.
- W, R, N, or NC grades reported for the repeated course will not be identified as a course repeat, thus the original grade earned will continue to be counted in the GPA. Incomplete (G) grades will not be identified as repeated courses until the course work is completed.
- No sequential course may be repeated for credit after a higher numbered course in that sequence has been passed with a C or higher grade.
- No course can be repeated at any other institution.
- Students may repeat a course no more than two times.

Students may not earn duplicate credit for courses that substantially duplicate the content of courses taken previously. For example, duplicate credit cannot be earned for the following:

- Both a regular version of a course and an honors version of that course.
- Courses that are cross listed with a course the student has already taken.
- Courses taken under a newly assigned course number if already taken under an old course number.
- Certain specific courses that duplicate material.

Students with questions about repeating courses or duplicating course content should consult with their academic advisors.

International Baccalaureate

The School of Public Health recognizes the International Baccalaureate (IB) Higher-Level Examinations and may grant advanced standing and/or credit for various fields for scores on the Higher-Level Examinations, which range from five to seven. Advanced standing is determined individually by subject according to departmental policy. Students should send the results of their IB examinations directly to PHundergrad@pitt.edu. No credit will be given for Subsidiary-Level Examinations.

Normal Credit Load

A normal credit load is 12 to 18 credits per academic term (e.g. fall and spring). Students should complete at least 15 credits per term to graduate within four years.

Any term credit load more than 18 credits requires approvals from the Director of Advising and the Associate Dean of Undergraduate Academic Affairs. Students must initiate a petition for a credit overload with their advisor. A credit overload (more than 18 credits) will result in additional tuition charges.

Statute of Limitations

All of the credits required for a degree, whether earned in residence or transferred from another institution, must have been earned within 12 years prior to the date on which the degree is awarded. However, when given evidence that the previous courses still provide adequate preparation for courses yet to be taken and still represent a reasonable part of the total academic program, this limitation may be waived. In such cases, the waiver is for a specific period during which the program must be completed.

Online Courses

Students may count a maximum of 24 credits of online coursework completed at Pitt toward their degree.

Adding and Dropping Courses

Generally, students enrolled in the School of Public Health are not required to have their academic advisor's approval before adding or dropping a course. However, all first-year students are strongly urged to consult their academic advisor before adding or dropping a course.

Withdrawing from Courses

Withdrawing from one or more courses may impact a student's financial aid status. Withdrawal from a course must be done by the withdrawal deadline, which is posted on the Office of the University Registrar's Web site. All students are encouraged to consult with their academic advisor before withdrawing from a course.

Graduate Classes

Undergraduates with sufficient preparation are encouraged to take advantage of the rich variety of graduate courses offered by the Departments and Schools within the University. Students enrolled in the School of Public may use credits in graduate courses toward their undergraduate degree. These may not be counted as credits toward a graduate degree except for students admitted into a 4+1 degree program. To enroll in a graduate course, students must obtain the written consent of the instructor of the course, have a 3.00 cumulative GPA, and have the approval of the Director of the undergraduate program. See the University's allowable credits and course limitations regulations for details. If students are in their senior year and have completed all of the BSPH requirements, they may take graduate level SPH courses (at the permission of the instructor) that would count towards a graduate degree in SPH.

Graduation Requirements

Graduation Requirements for a bachelor's degree from Pitt Public Health are as follows:

- Satisfactory completion of a minimum of 120 approved credits (including advanced standing)
- 120 service learning hours completed
- Minimum cumulative GPA 2.000
- All general education requirements and completion of all BSPH requirements
- The GPA will be calculated as a composite of all courses taken at the University of Pittsburgh and counting toward completion of the degree
- No outstanding D, F or G grades in a required course
- Student must be considered an "active student" at time of graduation; s/he must have been registered for at least one credit at the University of Pittsburgh within the last three terms or sessions
- Students may **not** enroll in courses outside the University of Pittsburgh in the semester they are graduating
- An **application for graduation** must be filed in the BSPH Office, based on the deadlines determined for that term. Email notification of these deadlines will be sent to students in the prior term and will be posted on the Pitt Public Health Undergraduate Graduation website and the BSPH student communication Canvas page.

A student with outstanding financial obligations to the University is not eligible to receive the diploma, official academic transcripts, or any certification of completion of the academic program.

Graduation with Honors

A BSPH student attaining an outstanding scholastic record will graduate with University honors if a minimum of **60 letter-graded credits** have been **earned at the University of Pittsburgh**. The GPA used for the awarding of honors at graduation will be calculated as a composite of courses taken at the University of Pittsburgh and counting toward completion of the degree. The following recognition of academic standing with honors applies:

Cum Laude	3.250 - 3.490
Magna Cum Laude	3.500 - 3.740
Summa Cum Laude	3.750 - 4.000

Honors Cords

In most cases, grades for the term you are graduating in will not be due until after the graduation ceremony is held. Therefore, whether you qualify for an honor cord will be based on your cumulative GPA from the semester prior to graduation.

Academic Integrity

Students are responsible for being honest and behaving ethically while pursuing academic studies. All individuals (students, faculty, post-doctoral researchers, and staff) at Pitt Public Health abide by the University's policy on academic integrity as well as the Pitt Public Health academic integrity procedures.

Special Academic Programs/Opportunities

- Bioethics Certificate
- Dual Degree-currently there is no dual degree option with other University of Pittsburgh schools.
- 4+1 Program-currently BSPH students are not eligible to apply for the SPH 4+1 program

Certificate

Bioethics Certificate

The School of Public Health undergraduate Certificate in Bioethics offers a practical, interdisciplinary and in-depth exploration of bioethical issues with a particular focus on public health ethics, medical ethics, and research ethics. This program is likely to be of interest to those in health-science related programs. By completing the certificate, students will acquire translatable skills required to analyze and resolve a wide breadth of ethical issues applicable to a variety of health care environments, including but not limited to, public health, community health, acute care, home care/hospice care/palliative care, human subjects research, long-term care, rehabilitation, private practice, schools and athletic facilities. Courses included in the certificate focus on ethical, legal and societal issues in population health and individual health including health equity (particularly in relation to at-risk populations), end-of-life decision making, informed consent, decision-making capacity, confidentiality and privacy, organ donation, religious and cultural implications in medicine, conflict resolution, human subjects research and distribution of scarce resources. The certificate is designed to provide students translatable skills and authentic experiences.

Academic Requirements

To receive a certificate in Bioethics, a student will complete 18 credits in courses that focus on Bioethics or related topics. This represents 10 required foundational credits, 3 elective credits, a 3 credit prescribed interdisciplinary experience, and 2 credits of capstone experience.

Required Courses (13 Credits)

- PUBHLT 0120 - ESSENTIALS OF HEALTH EQUITY: EXPLORING SOCIAL AND STRUCTURAL DETERMINANTS OF HEALTH
- PUBHLT 0500 - ETHICAL ISSUES IN PUBLIC AND COMMUNITY HEALTH
- PUBHLT 0501 - INTERDISCIPLINARY RESOLUTION OF BIOETHICS CASES
- PUBSRV 1305 - HEALTH, LAW AND ETHICS
- REHSCI 1235 - MEDICAL TERMINOLOGY

Elective Courses (3 Credits)

Elective courses in public health, arts and sciences, rehabilitations sciences, and nursing which relate to the student's career focus or particular area of interest, including but not limited to population health, religious and cultural issues in health/medicine, global health and health issues faced by individuals from populations who are at-risk for discrimination. A list of approved courses is below. Students may propose alternative courses that are not included on the approved list for individual consideration.

The process would be for the student to provide a copy of the proposed syllabus to the certificate administrator. The request will be considered by a minimum of two Bioethics Certificate faculty members with the final determination being made by the certificate administrator.

Bioethics Certificate Approved Elective Courses

Capstone Experience (2 Credits)

- PUBHLT 0901 - CAPSTONE: BIOETHICS CERTIFICATE

Total Credits: 18

Major

Public Health, BSPH

Curriculum & Requirements

The BSPH curriculum consists of 10 credits of introductory Foundational courses, including a one-credit first-year seminar. This is followed by 15 credits of Core courses that provide students with an introduction to each of the fundamental disciplines of public health (epidemiology, behavioral and community health, biostatistics, health policy and management, and environmental health). A cluster of 18 credits of upper tier major electives is also required. Major electives can be topical if a student chooses to have an area of focus. Students may also take 6 credits of pre-approved non-BSPH coursework to fulfill the cluster requirement. Finally, each student will complete one of five choices of course-based capstone experience (3 credits) as well as a 120 hour service-learning requirement.

Program Requirements

DEGREE REQUIREMENTS	HOURS
General Education Requirements	variable

BSPH Foundational & Core Curriculum	
TIER 1: Foundational Courses	25 credits
TIER 2: Core Courses	
TIER 3: BSPH Major Elective Courses	18 credits
BSPH Capstone (see below for details)	3 credits
Service Learning	120 hours
TOTAL CREDITS	120 credits

General Education Requirements

The School of Public Health is committed to providing all undergraduates with a holistic learning experience. In addition to the public health course requirements, students must also fulfill their general education requirements. See more information below.

A. Writing

Written communication is central to almost all disciplines and professions. Developing writing proficiency is an especially important part of undergraduate education to provide a base appropriate for professional or graduate education or for professional employment. The school requires that all students complete the following writing courses during their undergraduate career.

1. Composition

Students must complete the composition requirement, ENGCMP 0200 - SEMINAR IN COMPOSITION or equivalent, with a minimum grade of C- by the end of their first year of study. Part-time students should complete the requirement within their first 30 credits. Transfer students must complete this requirement within their first 15 credits.

Based on placement, students may be required to complete ENGCMP 0150 - WORKSHOP IN COMPOSITION or its equivalent, prior to enrolling in ENGCMP 0200. Students may be exempt from the composition requirement with a 660 or above Evidence-Based Reading and Writing SAT score or an ACT English score of 27 and a 5 on the AP English: Language and Composition or AP English: Literature and Composition.

2. Two Writing-Intensive Courses

Writing intensive courses (W-Courses) are designed to teach writing within a discipline through writing assignments that are distributed across the entire term. In these courses, students will produce at least 20-24 pages of written work. A significant portion of this work should be substantially revised in response to instructor feedback and class discussion.

All students must complete two courses that are designated as W-Courses.

We recommend the following courses:

- ENGCMP 0530 - WRITING FOR THE SCIENCES

- ENGCOMP 0535 - WRITING IN THE HEALTH SCIENCE PROFESSIONS
- ENGCOMP 1101 - LANGUAGE OF SCIENCE AND TECHNOLOGY
- ENGCOMP 1400 - GRANT WRITING FOR NONPROFITS

B. Algebra and Quantitative and Formal Reasoning

1. Algebra

Students must complete the algebra requirement, MATH 0031 - ALGEBRA or equivalent, with a minimum grade of C- by the end of their first year of study. Part-time students should complete the requirement within their first 30 credits. Transfer students must complete this requirement within their first 15 credits. Students will be exempt from the algebra requirement with a 620 or above Math SAT score or a 27 or above Math ACT score, or completion of full year High School Algebra 2, Trigonometry, Pre-calculus, or Calculus course with a grade of B or better.

2. Quantitative and Formal Reasoning

All students are required to take and pass with a minimum grade of C- at least one course in university-level mathematics (other than trigonometry) for which algebra is a prerequisite, or an approved course in statistics or mathematical or formal logic. PUBHLT 0310 - INTRODUCTION TO PUBLIC HEALTH BIostatISTICS will satisfy this requirement.

C. Language

A Sequence of Two Courses in a Second Language

All students are required to complete with a grade of C- or better two terms of university-level study in a second language other than English. Exemptions will be granted to students who can demonstrate elementary proficiency in a second language through one of the following:

- Having completed three years of high school study of a second language with a grade of B or better in each course;
- Passing a special proficiency examination;
- Transferring credits for two terms or more of approved university-level instruction in a second language with grades of C or better;
- Having a native language other than English.

D. Diversity

All students must complete one course that is designated as a Diversity course but may take this course within their major field of study. Diversity courses may also be courses that fulfill other General Education Requirements. PUBHLT 0120 - ESSENTIALS OF HEALTH EQUITY: EXPLORING SOCIAL AND STRUCTURAL DETERMINANTS OF HEALTH fulfills this requirement.

E. Humanities and Arts, Social Sciences, Natural Sciences

Each student is required to take nine courses in the humanities, social sciences, and natural sciences distributed as below. Such courses allow students to pursue their own interests while they explore diverse views of a broad range of

human cultures, modes of thought, and bodies of knowledge. The courses that fulfill these requirements are truly courses in the disciplines that draw on the unique resources of a research university.

1. Literature (1 course)

By studying a range of literary and other texts in this course, students will be introduced to the techniques and methods of textual analysis and will develop critical perspectives on a variety of forms of cultural expression.

2. Arts (1 course)

This course introduces students to modes of analysis appropriate to music, theatre, or the visual and plastic arts. It may take the form of a survey, the study of a genre or period, or may focus on a particular artist.

3. Creative Work (1 course)

In this course students are expected to produce some form of creative work, and they will also be trained in the techniques and modes of its production. The course could be situated in theatre, studio arts, writing, visual arts (including photography, film), music, and dance; or it may be a course that engages in innovative or original work in relation to written, oral, or visual material, new media, social media, and other contemporary forms of communication and representation.

4. Philosophical Thinking or Ethics (1 course)

This course will emphasize close and critical reading of theories about knowledge, reality, humanity, and values. Courses could focus on human nature; scientific reasoning; theories of cognition and consciousness; human/social rights; competing systems of belief; morality; concepts of freedom; theories of justice; social obligations/constraints; or ethics, including applied or professional ethics.

5. Social Science (1 course)

A course that treats topics considered of significant importance in the social or behavioral sciences (including social psychology). Courses will introduce students to the subject matter and methodology of a particular discipline and will involve them in the modes of investigation, analysis, and judgment characteristically applied by practitioners.

6. Historical Analysis (1 course)

In this course, students will develop skills and methods by which to understand significant cultural, social, economic, or political accounts of the past. The course may focus on pivotal moments of change, or important transitions over longer periods of time. Courses could explore developments in science, technology, literature, or art, and the ideas around them, or examine critical historical shifts by analyzing various data or cultural forms.

7. Natural Sciences (3 courses)

These will be courses that introduce students to scientific principles and concepts rather than offering a simple codification of facts in a discipline or a history of a discipline. The courses may be interdisciplinary, and no more than two courses may have the same primary departmental sponsor. PUBHLT 0110 - GENES, CELLS, AND COMMUNITIES: INTRODUCTION TO PUBLIC HEALTH BIOLOGY fulfills one of the courses for this requirement.

F. Global Awareness and Cultural Understanding

Each student must complete three courses in global awareness and cultural understanding as distributed below.

1. Global Issues (1 course)

This course will examine significant issues that are global in scale. Courses could address, for example: globalization; the global and cultural impact of climate change/sustainability; the effects of and resistances to colonialism; or worldwide issues related to health, gender, ethnicity, race, technology, labor, law, or the economy.

2. Geographic Region Specific (1 course)

This course will be an in depth study and analysis of a particular region or locality outside of the United States.

3. Cross-Cultural Analysis (1 course)

This course, through cross-cultural perspective, will promote knowledge of and reflection upon the cultures of Asia, the Middle East, Africa, Latin America, the Caribbean, or the indigenous peoples of the world past and present. Students will develop an understanding of cultures, traditions, and societies that differ substantially from those that prevail in North America and Europe.

BSPH Foundational & Core Curriculum:

Tier 1: Foundational Courses

This tier consists of 10 credits of introductory classes, including a one-credit first-year seminar.

- PUBHLT 0100 - FUNDAMENTALS OF PUBLIC HEALTH
- PUBHLT 0110 - GENES, CELLS, AND COMMUNITIES: INTRODUCTION TO PUBLIC HEALTH BIOLOGY
- PUBHLT 0120 - ESSENTIALS OF HEALTH EQUITY: EXPLORING SOCIAL AND STRUCTURAL DETERMINANTS OF HEALTH
- PUBHLT 0140 - FIRST-YEAR PUBLIC HEALTH SEMINAR

Tier 2: Core Courses

This tier consists of 15 credits of classes that provide students with an introduction to each of the fundamental disciplines of public health (epidemiology, behavioral and community health, biostatistics, health policy and management, and environmental health).

- PUBHLT 0300 - INTRODUCTION TO COMMUNITY-BASED APPROACHES TO PUBLIC HEALTH
- PUBHLT 0310 - INTRODUCTION TO PUBLIC HEALTH BIostatISTICS
- PUBHLT 0320 - INTRODUCTION TO ENVIRONMENTAL HEALTH SCIENCES
- PUBHLT 0330 - INTRODUCTION TO EPIDEMIOLOGY
- PUBHLT 0340 - FUNDAMENTALS OF HEALTH POLICY AND MANAGEMENT

TIER 3: BSPH Major Elective Courses

This tier consists of 18 credits of upper-tier BSPH electives that can be used to focus on an area of interest. Students must take a minimum of 18 credit hours of major elective BSPH courses. Electives can be organized into topical areas ("clusters") to allow students to explore an area of interest in greater depth. Students are free to create their own cluster based on their area of interest in collaboration with their advisor. Public health is an interdisciplinary field by design, and our goal is to provide a degree that encourages students to take advantage of the full breadth of training in relevant disciplines that is available across the University of Pittsburgh by incorporating classes from other schools into their clusters. Therefore, students may take six credits of pre-approved non-BSPH electives to complete to fulfill this elective cluster requirement.

BSPH elective courses:

- PUBHLT 0400 - SOCIAL MEDIA AND HEALTH
- PUBHLT 0401 - CAN ART HEAL? AN INTRODUCTION TO THE ARTS IN HEALTH RESEARCH AND INTERVENTIONS
- PUBHLT 0402 - ENTERTAINMENT MEDIA AND HEALTH
- PUBHLT 0410 - DATA FOR GOOD: BIOSTATISTICS IN ACTION
- PUBHLT 0411 - STATISTICAL PACKAGES FOR PUBLIC HEALTH ANALYSIS
- PUBHLT 0412 - DATA TO DECISION: MODELING IN PUBLIC HEALTH
- PUBHLT 0420 - EVIDENCE-BASED ENVIRONMENTAL AND "ONE HEALTH" POLICY AND PRACTICE
- PUBHLT 0421 - HEALTH CONSEQUENCES OF ATMOSPHERIC POLLUTION AND CLIMATE
- PUBHLT 0422 - MOLECULES OF LIFE, SICKNESS, AND DEATH
- PUBHLT 0423 - THE AQUEOUS ENVIRONMENT, SUSTAINABILITY AND PUBLIC HEALTH
- PUBHLT 0424 - OCCUPATIONAL HYGIENE: PROMOTING WORKPLACE SAFETY & HEALTHY RETIREMENT
- PUBHLT 0430 - GET SASSY: DATA MANAGEMENT & ANALYSIS WITH SAS
- PUBHLT 0431 - UNDERSTANDING AND INTERPRETING HEALTH RESEARCH
- PUBHLT 0432 - EPIDEMIOLOGY IN PUBLIC HEALTH PRACTICE
- PUBHLT 0433 - EPIDEMIOLOGY OF FIREARM INJURIES AND DEATH
- PUBHLT 0440 - INTRODUCTION TO THE US HEALTH SYSTEM
- PUBHLT 0441 - IMPROVING COMMUNICATION WITH APPLIED IMPROVISATION TECHNIQUES
- PUBHLT 0442 - FUNDAMENTALS OF MANAGEMENT FOR HEALTH INDUSTRY LEADERS
- PUBHLT 0443 - REPRODUCTIVE HEALTH IN THE US: POLICY, POLITICS, AND JUSTICE
- PUBHLT 0444 - HEALTH EQUITY AND THE US HEALTH SYSTEM: WHAT IS AND WHAT COULD BE
- PUBHLT 0445 - ADMINISTRATIVE BURDEN AND INEQUALITY IN U.S. HEALTH CARE
- PUBHLT 0451 - HUMAN GENETICS: HEALTH AND DISEASE
- PUBHLT 0452 - HUMAN GENETICS, SOCIETY, & LAW
- PUBHLT 0453 - INTRODUCTION TO GENETIC COUNSELING
- PUBHLT 0461 - VECTOR-BORNE DISEASES
- PUBHLT 0462 - HISTORIC AND CONTEMPORARY SOCIETAL IMPACTS OF INFECTIOUS DISEASES
- PUBHLT 0464 - INFECTIOUS DISEASE EMERGENCIES: PREVENTION, PREPAREDNESS, & RESPONSE
- PUBHLT 0500 - ETHICAL ISSUES IN PUBLIC AND COMMUNITY HEALTH
- PUBHLT 0501 - INTERDISCIPLINARY RESOLUTION OF BIOETHICS CASES
- PUBHLT 1001 - INTRODUCTION TO GLOBAL HEALTH

Other elective courses:

Students may take up to 6 credits of pre-approved non-BSPH electives.

- AFRCNA 1710 - AFRICAN AMERICAN HEALTH ISSUES
- ANTH 1722 - CULTURE AND POLITICS OF MENTAL HEALTH

- ANTH 1761 - PATIENTS AND HEALERS: MEDICAL ANTHROPOLOGY 1
- ANTH 1797 - MOUNTAINS AND MEDICAL SYSTEMS
- ECON 0220 - INTRO TO HEALTH ECONOMICS
- ENGCMP 0535 - WRITING IN THE HEALTH SCIENCE PROFESSIONS
- ENGCMP 0540 - INTRODUCTION TO DISABILITY STUDIES
- ENGCMP 1400 - GRANT WRITING FOR NONPROFITS
- FR 0088 - AILING BODIES: NARRATIVES OF HEALTH AND ILLNESS
- FR 1074 - PLAGUES AND PANDEMICS: PUBLIC HEALTH IN THE FRANCOPHONE WORLD
- HIST 0705 - AN ENVIRONMENTAL AND CLIMATE HISTORY OF THE WORLD
- HIST 0791 - HEALTH CONTROVERSIES IN HISTORY: ETHICS, PUBLICS, INTERVENTIONS
- HIST 1197 - BLACK DEATH: PLAGUE AND HISTORY
- HPS 0612 - MIND AND MEDICINE
- HPS 0613 - MORALITY AND MEDICINE
- HPS 1602 - RACE: HISTORY, BIOLOGY, PSYCHOLOGY, PHILOSOPHY
- PUBSRV 0020 - INTRODUCTION TO PUBLIC SERVICE
- PUBSRV 1305 - HEALTH, LAW AND ETHICS
- SOC 0473 - SOCIOLOGY OF GLOBALIZATION AND HEALTH
- SOC 1450 - HEALTH AND ILLNESS
- SPAN 1056 - READING, WRITING, & HEALTH IN SPANISH
- SPAN 1459 - MAPPING THE FEMALE BODY: A CULTURAL APPROACH TO WOMEN'S HEALTH IN THE HISPANIC WORLD
- RELGST 1402 - HEALTH AND RELIGION
- RELGST 1519 - RELIGION, NATURE AND ENVIRONMENT
- RELGST 1622 - BODY SIZE AROUND THE GLOBE
- RELGST 1726 - HEALING AND HUMANITY

Internship/Research/Independent Study

Students can also receive credit for doing an internship, working on research projects or completing an independent study. If the main mentor for these opportunities is outside the SPH, students will need to have a BSPH faculty sponsor.

- PUBHLT 1900 - INTERNSHIP
- PUBHLT 1901 - UNDERGRADUATE RESEARCH
- PUBHLT 1902 - INDEPENDENT STUDY

BSPH Capstone

Students must complete 3 credit hours

The BSPH Capstone Experience provides students with the opportunity to synthesize their learning in different competency areas and apply cross-cutting skills. Students can choose from five options to complete their undergraduate training within the school. Each experience is designed to challenge students to synthesize what they have learned, apply knowledge and skills acquired, and gain new experience in public health practice. The capstone will be guided and monitored by faculty mentors in addition to being supervised within the course context.

Option 1: PUBHLT 0910 - BSPH CAPSTONE PROJECT

- 3-credit semester-long course
- Project-based course focusing on case-studies from local public health organizations that highlight a real-life challenge where students work in groups to design a solution.

- Final deliverable is poster presentation and a three-minute talk at a school-sponsored event to present analysis and synthesis of practicum experience.
- Timing: Students cannot take this course until senior year.

Option 2: Practicum + PUBHLT 0911 - BSPH CAPSTONE SEMINAR

- Students must enroll and in a minimum of 2 credits of a pre-approved public health practicum (recommended junior or senior year including summer and academic breaks) and PUBHLT 0911 (must be taken senior year).
- Pre-approved semester-long public health-related practicum completed by the student. Options include: Internship, Research project with faculty member or independent study, study abroad experience, Bachelors of Philosophy in the Honors College on a public health topic.
- Students must complete a minimum of 10 hours per week at their practicum. Students must complete a total of 140 hours engaged in the activity over the course of the practicum.
- Students will be required to have a supervisor or preceptor for their experience. There will be midway and final check-ins with this individual to ensure successful completion of project. Forms for check-ins can be found at <http://www.sph.pitt.edu>.
- PUBHLT 0911 final deliverables include a poster presentation and a three-minute talk at a school-sponsored event to present analysis and synthesis of practicum experience.

Service Learning

As part of the BSPH degree, we will incorporate service learning and experiential learning opportunities to complement the curriculum and provide students with meaningful ways to apply their coursework to real work scenarios. All students are required to complete 120 hours of service learning over the course of four years. The first ten hours are built into PUBHLT 0100, and portions of the remainder may also be course-based. Students will self-track hours but will be monitored by the Experiential Learning Specialist. Additionally, the Experiential Learning Specialist will assist in placement and learning objectives at these sites. These opportunities should be discussed with the academic advisor.

School of Social Work

School of Social Work

The School of Social Work was founded in September 1938 as successor to the Division of Social Work in the Department of Sociology. The Bachelor of Arts in Social Work (BASW) program was accredited in 1973 and has been continuously reaffirmed since that time.

The mission of the School of Social Work is to advance knowledge and to apply that knowledge for the fulfillment of human potential through the prevention and amelioration of social problems. The school is committed to promoting the values of social and economic justice. Recognizing the complexities of contemporary society, the school dedicates itself through its educational, research, and public service activities to advocating for a society that respects the dignity and achievement of all individuals, families, and communities.

In furtherance of its mission, the School of Social Work strives to

- Educate professional social workers with the knowledge, skills, and values needed to engage in culturally competent practice with diverse populations and communities; to critically analyze personal, familial, and environmental factors affecting practice settings and practice techniques; and to advocate for those who confront barriers to maximizing the achievement of their fullest potential.
- Engage in scholarly activities that contribute to professional knowledge about complex social problems and innovative approaches to ameliorate those problems.
- Provide service to local, national, and international communities through the development of and participation in collaborations with social agencies, community-based organizations, government, and foundations.

In concert with the School's mission, the BASW Program, built on a strong liberal arts base, prepares its students to be competent entry-level generalist social work practitioners and for graduate education. Recognizing the profession's values of service, social justice, the dignity and worth of the person, the importance of human relationships, integrity, competence, human rights, and scientific inquiry, the program provides students with the knowledge and skills needed to advance human and community well-being. Utilizing a person-in-environment framework, the program prepares students to enhance the quality of life for all people, locally and globally; to practice with diverse populations; to analyze critically the social, economic, and environmental factors affecting individuals, families, groups, organizations, and communities; and to advocate for those who confront structural barriers; thus, program graduates are prepared for service and leadership. Since 2001, the BASW Program has offered the Child Welfare Education for Baccalaureates (CWEB) program as an educational opportunity for undergraduate social work majors to prepare for employment in one of Pennsylvania's 67 public child welfare agencies.

The BASW Program is offered as an upper-division (i.e., junior and senior years only) academic major, underscoring the program's commitment to a strong liberal arts base. Learn more about degree requirements, full- and part-time enrollment options and class schedule, and field education for BASW students.

The Social Work Minor is open to undergraduate students throughout the university (see minor requirements)

The Goals of BASW Program are to prepare students to competently engage in generalist social work practice.

As such, it is our goal that by completion of the program, students will be prepared to:

- Practice with cultural humility in accordance with the principles, values, and ethics that guide the social work profession.
- Use their liberal arts foundation and their understanding of bio-psycho-social-spiritual-cultural development to engage in evidence-informed generalist social work practice with individuals, families, groups, organizations, and communities within a multicultural society.
- Advocate for human rights and social, economic, and environmental justice.

- Continue formal education either in graduate social work education or in some other graduate discipline. The BASW Program Faculty have defined "generalist practice" as:

The application of knowledge, values, and skills of the general method of problem-solving, which spans the processes of engagement, data collection, assessment, intervention, evaluation, and termination. Preparation in the general method focuses on the application of the method to client/consumer systems of various sizes (individuals, families, groups, communities, organizations). Key to this problem-solving approach is its applicability to multi-cultural contexts, focusing on the strengths inherent in clients/consumers' and systems. The ethics and values of the social work profession anchor this practice.

The BASW Program has also identified a number of more specific and measurable objectives that allow us to document progress toward attaining our goals. We expect graduates from the BASW Program to practice in a manner consistent with social work traditions, values, and ethics, as expressed in the NASW Code of Ethics.

Special Opportunities

The Child Welfare Education for Baccalaureates (CWEB) Program provides an educational opportunity for students interested in public child welfare services. Qualified students who are enrolled as social work majors may receive substantial financial support in return for a contractual obligation to accept employment in a Pennsylvania public child welfare agency following completion of their social work degree. Students interested in the program should contact Dr. Toya Jones, Director of BASW Program at toyaj@pitt.edu or 412-648-9306.

The Behavioral Health Case Management Program is a certificate available to Social Work and Psychology majors, that leads to possible employment opportunities in a fast paced behavioral health service sector. To read more about the career opportunities available to graduates who hold this certificate please visit the Allegheny County Department of Human Services (DHS) web page.

More information about the program is available on the web and by contacting the Director of the Bachelor of Arts in Social Work Program, Dr. Toya Jones, MSW at toyaj@pitt.edu or 412-648-9306.

Admission Requirements

For admission to the Bachelor of Arts in Social Work program (BASW), a student must meet the following requirements:

- Completion of approximately 60 transferable credits from an accredited undergraduate institution and/or completion of an accredited associate degree program.
- A minimum of 2.50 GPA on a 4.00 scale.

Credits awarded from the College Level Examination Program [CLEP] by the College of General Studies are counted toward the 60 credits. Academic and field education credits are not granted in the BASW program for life, volunteer, or employment experience.

Application Procedures

Students may apply for the fall term or spring term. Students currently enrolled within the University of Pittsburgh system should submit applications and all credentials to the School of Social Work Office of Admissions. Students applying from outside the University of Pittsburgh should send all application materials and credentials directly to the University Office of Admissions and Financial Aid (see Pittsburgh campus Freshman Admissions for address). The Undergraduate program in the School of Social Work has a [ROLLING ADMISSIONS POLICY](#). There is no specific deadline for submitting applications.

- The application fee of \$45 (only if applying from another institution; current University of Pittsburgh students do not have to pay this fee).
- A complete transcript from the registrar of each college attended. If course work is still in progress at the time the application is filed, the student should request a supplemental transcript at the end of each term. Although a decision for acceptance may be made while academic work is still in progress, an up-to-date transcript must be received before the applicant can register for course work. Persons seeking a transfer to the University of Pittsburgh from another college or university must also submit a high school transcript or its equivalent.
- A three-part typewritten statement (of no more than eight pages) discussing the following concerns in depth:
 - the influence in the student's life experience that made him/her select social work as a profession,
 - what the student believes social work education can contribute to his/her professional competence, and
 - what the student believes to be one of the most important contemporary social issues and why.
- The application supplement sheet, which requests information on the student's employment background, a list of the names and addresses of the people who will be completing reference forms on the applicant's behalf, and academic credit requirement questions.
- Three letters of reference. **Required** references include college advisors, an instructor at the college level, and the current (or last) employer/volunteer supervisor. Applicants should send the blank reference forms received with the application materials to each of the reference persons. The School of Social Work admissions office will periodically notify the applicant of the status of the application materials, and the applicant will be expected to follow through with each reference to ensure receipt of the letter. Reference persons should mail the completed form directly to the School of Social Work Office of Admissions.

Other Supporting Application Materials

The School of Social Work does not require the submission of scores from an examination for admission consideration. However, applicants wishing to submit such exam scores or other materials (publications, major papers, etc.) in support of their application may do so. In no instance will an applicant not submitting these be penalized in determining acceptance for the program.

Admission Interviews

Interviews may be initiated by the admissions personnel of the School of Social Work. Applicants who feel they would like to discuss special circumstances surrounding their applications are encouraged to seek admission interviews. The interview, if requested, should be scheduled after all application materials have been received. Usually, decisions on applications for admission are made without an interview.

Grading Standards Policy for the BASW Program

This policy covers the following areas in regard to grading:

Good Academic Standing

In order to remain in good academic standing and to graduate from the BASW program, all students must

- Obtain a grade of C or better in all courses required for the major (including Practicum 1 and 2),
- Maintain a minimum 2.50 on a 4.00 scale in their social work major
- Conform to the standards of professional conduct as specified in the NASW Code of Ethics (see below), and
- Maintain a minimum cumulative GPA of 2.50 on a 4.00 scale.

Honors

The program honors those students whose academic performance (cumulative GPA) places them in the upper two percent of their graduating class. These students are considered for honors recognition at the annual Honors Convocation conducted by the University in the spring of each year. BASW majors are also eligible for membership in *Phi Alpha*, the National Social Work Honor Society, if they have completed their social work major with a social work GPA of 3.85 or higher.

Bachelor of Philosophy Degree

In the spirit of intellectual curiosity envisioned by the Board of Trustees and the David C. Frederick Honors College when the Bachelor of Philosophy degree (BPhil) was created, the BPhil creates the opportunity for undergraduate students to engage in research and scholarly work toward a more rigorous baccalaureate degree traditionally reserved for the graduate level. In combination with the David C. Frederick Honors College requirements it, "preserves an element of intellectual scope, ever the distinctive feature of American undergraduate education (A. Stewart)." This degree is offered jointly between the David C. Frederick Honors College and the School of Social Work.

BASW majors who meet the David C. Frederick Honors College (FHC) eligibility requirements and who are interested in pursuing a Bachelor of Philosophy degree in social work should make an appointment with the BASW Program Director to review criteria and process for the degree.

The BASW student will be referred to the David C. Frederick Honors College Web site to review the Bachelor of Philosophy degree requirements.

The requirements to participate in the UHC are as follows:

- Maintain a 3.50 GPA or higher in BASW major in the School of Social Work and a 3.50 GPA or higher overall at the University of Pittsburgh.
- Transfer students must have an incoming GPA of 3.50 or higher and maintain a 3.50 GPA in BASW major course work offered through the School of Social Work as well as a 3.50 GPA or higher overall at the University of Pittsburgh.
- In unusual circumstances, a student who shows exceptional promise but does not meet the above requirements may be accepted to BPhil candidacy as recommended by the BASW Program Director to the School of Social Work Associate Dean for Academic Affairs and determined by the UHC advising staff.

Based upon a BASW student's area of interest, a thesis advisor will be assigned by the Associate Dean for Academic Affairs. The BASW Program Director and the student's advisor will meet with the student to draft a program of study/curriculum plan. Assignment of an advisor is contingent upon faculty availability and willingness to serve.

General degree requirements are:

- Fulfill the BASW degree requirements with a minimum 3.50 GPA.
 - Complete the social work general education requirements with a minimum 3.50 GPA. This includes 24 credits in the social and behavioral sciences; minimum of 3 credits in Africana studies; minimum of 3 credits in English composition; minimum 3 credits in human biology and a minimum of 3 credits in statistics.
 - Enroll in one course in each of the following areas, selecting one as an area of specialization, with a minimum of 12 credits and grades corresponding to a 3.50 GPA or higher: Africana studies; anthropology; economics; global studies; political science; psychology; sociology; urban studies; women's studies.
 - In all of the above coursework, a prospective BPhil student is encouraged to enroll in an UHC section of the course, if available. Overall GPA requirements remain the same for these courses.
- The prospective BPhil student will make an appointment with the UHC advising staff regarding Honors College qualifications for degree candidacy.

The prospective BPhil student will complete the BASW degree requirements listed above as well as complete

"Special Degree Requirements". These include:

1. Completion of independent research culminating in the production of an original undergraduate thesis.

- The thesis will be completed under the tutelage of the faculty advisor who will guide the student in designing and implementing the research project as well as in writing the thesis.
- At least two terms prior to the B.Phil. in Social Work student's expected date of graduation a synopsis of the proposed research (approved by the School of Social Work thesis advisor) will be submitted to the David C. Frederick Honors College.
- By the last term in residence, the student will: Submit a revised and completed thesis to their Faculty Advisor (for distribution to the Examining Committee) at least five weeks prior to the end of the term.

Defend their thesis to a faculty Examination Committee selected by the faculty advisor.

- a. Include a faculty member from outside the University of Pittsburgh as an invited member of the Examination Committee.
- b. Consist of a public presentation and discussion of the thesis project followed by a private oral examination conducted by the Examining Committee.

Recommendation from the Faculty Examination Committee for the awarding of the B.Phil. in Social Work degree will be made to the Dean of the Honors College, who, after certifying that all aspects of the BASW degree requirements as well as the B.Phil. Special Degree Requirements have been fulfilled, will make a recommendation to the UHC. The B.Phil. in Social Work degree will be conferred jointly by the School of Social Work and the UHC through the granting of a single Bachelor of Philosophy in Social Work diploma.

If all of the degree requirements are met, a single degree, the Bachelor of Philosophy degree with a major in social work, will be conferred jointly by the School of Social Work and the David C. Frederick Honors College.

For additional details on this degree program, please contact the School of Social Work or the Honors College.

National Association of Social Workers (NASW)

Code of Ethics

Professional ethics are at the core of social work. The profession has an obligation to articulate its basic values, ethical principles, and ethical standards. The NASW Code of Ethics sets forth these values, principles, and standards to guide social workers' conduct. The code is relevant to all social workers and social work students, regardless of their professional functions, the settings in which they work, or the populations they serve. The NASW Code of Ethics serves six purposes:

- The code identifies core values on which social work's mission is based.
- The code summarizes broad ethical principles that reflect the profession's core values and establishes a set of specific ethical standards that should be used to guide social work practice.
- The code is designed to help social workers identify relevant considerations when conflicting professional obligations or ethical uncertainties arise.
- The code provides ethical standards to which the general public can hold the social work profession accountable.
- The code socializes practitioners new to the field to social work's mission, values, ethical principles, and ethical standards.
- The code articulates standards that the social work profession itself can use to assess whether social workers have engaged in unethical conduct. NASW has formal procedures to adjudicate ethics complaints filed against its members. In subscribing to this code, social workers are required to cooperate in its implementation, participate in NASW adjudication proceedings, and abide by any NASW disciplinary rulings or sanctions based on it.

The code offers a set of values, principles, and standards to guide decision making and conduct when ethical issues arise. It does not provide a set of rules that prescribe how social workers should act in all situations. Specific applications of the code must take into account the context in which it is being considered and the possibility of conflicts among the code's values, principles, and standards. Ethical responsibilities flow from all human relationships, from the personal and familial to the social and professional. Social work students are required to comply with the NASW Code of Ethics. Copies can be obtained from the NASW Web page at www.socialworkers.org.

Statute of Limitations

There is a seven-year limitation on the earning of the BASW degree with the seven-year period beginning from the date of entry into the program. Under the following extenuating circumstances, the advisor may recommend an extension of time to the program director and the associate dean:

- Extended illness of the student,
- Involuntary mobilization into a U.S. military unit,
- Death of a close family member,
- Extended personal emergency, or
- Academic probation in the last term of the student's program.

Undergraduate Advising

When admitted, new BASW majors are assigned an advisor by the BASW program director (students completing the social work minor maintain the academic advisor in their current college or school). Incoming BASW majors meet their assigned faculty advisor at the school's orientation, which is held prior to the start of fall semester. Incoming students are then encouraged to make an appointment with their faculty advisor during the first three to four weeks of the term. Each advisor will work with his or her advisee to clarify educational options, answer questions about the BASW Program, and discuss career opportunities. When students enroll for Practicum Seminar I and the concurrent

Practicum Seminar and Lab I, the seminar and lab instructor in the section the student chooses becomes his or her faculty advisor for the remainder of their enrollment in the program. Faculty advisors should be the first point of contact for any or all of the following:

- Registration including add/drop, leaves of absence, and withdrawals; Clarification of all academic policies and procedures (i.e., grading policies, graduation requirements, directed study);
- Discussions regarding academic expectations and performance;
- Information about other departments and/or programs in the School of Social Work or the University of Pittsburgh;
- Planning of the student's educational program in accordance with his or her career interests.

Phi Alpha National Honor Society

Mu Omicron Chapter

Phi Alpha Honor Society was created to provide a closer bond between social work students and the profession in order to promote humanitarian goals and ideals. With the motto, "Through knowledge-the challenge to serve," Phi Alpha fosters high standards of education for social workers and invites into membership those who have attained excellence in scholarship and achievement in social work. Founded in 1960, Phi Alpha Honor Society currently has more than 110 chapters nationwide.

Program and Course Offerings

Department of Social Work

Major

Social Work, BASW

Degree Requirements

The School of Social Work requires a minimum of 120 credits for graduation. The courses listed below are required of all students working toward the Bachelor of Arts in Social Work:

Social work courses:

A total of 48 credits in the social work major:

- SOCWRK 1000 - INTRODUCTION TO SOCIAL WORK
This is a service-learning course and requires 45 hours of volunteer service as part of the course.
- SOCWRK 1005 - FOUNDATIONS OF THE WELFARE STATE
- SOCWRK 1006 - POLICY ANALYSIS
This is a service-learning course and requires 45 hours of volunteer service as part of the course.
- SOCWRK 1008 - GENERALIST SOCIAL WORK PRACTICE WITH DIVERSE POPULATIONS
- SOCWRK 1011 - INTRODUCTION TO GENERALIST METHODS: SOCIAL WORK WITH INDIVIDUALS AND FAMILIES
- SOCWRK 1012 - SOCIAL WORK WITH COMMUNITIES AND ORGANIZATIONS
- SOCWRK 1013 - SOCIAL WORK WITH GROUPS
- SOCWRK 1015 - HUMAN BEHAVR & SOCL ENVIRONMENT
- SOCWRK 1020 - INTRODUCTION TO SOCIAL WORK RESEARCH
- SOCWRK 1024 - PRACTICUM SEMINAR AND LAB 1
- SOCWRK 1025 - PRACTICUM 1
- SOCWRK 1026 - PRACTICUM SEMINAR AND LAB 2
- SOCWRK 1027 - PRACTICUM 2
- SOCWRK 1050 - RACIAL AND SOCIAL PROBLEMS

Social Work Elective (3)

- Anthropology (3)
- Economics (3)
- Gender, Sexuality, and Women's Studies (3)
- Political Science (3)
- Psychology (3)
- Sociology (3)

Other course requirements: 12 credits **

** these courses/ credits (in part or in whole) may have been taken as a part of the 60 credits...

- Africana Studies (3)
- English Composition (3)
- Global Studies (3)
- Human Biology (or equivalent course emphasizing the biological determinants of human behavior) (3)
- Religion/Spirituality (3)

- Statistics (3)
- Social Work elective (3)

Note:

* Course of equivalent content may have been taken at another institution.

** These courses/credits (in part or in whole) may have been taken as part of the 60 credits required for admission. Any of these courses/credits not taken prior to admission must be completed prior to graduation.

Minor requirements:

The minor requires successful completion (with a grade of C- or better) of four of the following three-credit courses:

- SOCWRK 1000 - INTRODUCTION TO SOCIAL WORK
This is a service-learning course and requires 45 hours of volunteer service as part of the course.
- SOCWRK 1005 - FOUNDATIONS OF THE WELFARE STATE
- SOCWRK 1006 - POLICY ANALYSIS
This is a service-learning course and requires 45 hours of volunteer service as part of the course.
- SOCWRK 1035 - GLOBAL PERSPECTIVES SOCIAL WORK
- SOCWRK 1058 - ECONOMICS AND SOCIAL WORK
- SOCWRK 1079 - CHILD WELFARE SERVICES
- SOCWRK 1088 - SPECIAL TOPICS
This course is not offered every term.

Note:

* SOCWRK 1000 - INTRODUCTION TO SOCIAL WORK is required for all subsequent courses, with the exception of SOCWRK 1005

Social Work, BPHIL

Minor

Social Work Minor

The Social Work Minor requires successful completion of 15 credits (with a grade of C or better) from the following courses:

- SOCWRK 1000 Introduction to Social Work** (offered in both Fall and Spring Terms)
- SOCWRK 1005 Foundations of the Welfare State (offered in Fall Term)
- SOCWRK 1006 Policy Analysis (pre-requisites SocWrk 1000 & SocWrk 1005; offered in Spring Term)
- SOCWRK 1035 Global Perspectives on Social Work Practice (offered in Spring Term)
- SOCWRK 1040 Poverty & Income Inequality: Social Responses (offered in Spring Term)
- SOCWRK 1058 Economics and Social Work (offered in Fall Term)
- SOCWRK 1059 Child and Family Advocacy (offered in the Fall Term)
- SOCWRK 1063 African-American Health Issues (offered in Fall Term)
- SOCWRK 1079 Child Welfare Services (offered in both Fall and Spring Terms)

- SOCWRK 1088 Special Topics (not offered every term)
- **SOCWRK 1000 Introduction to social work is a requirement for subsequent courses..

Degree Requirements

- SOCWRK 1058 - ECONOMICS AND SOCIAL WORK
- SOCWRK 1079 - CHILD WELFARE SERVICES
- SOCWRK 1088 - SPECIAL TOPICS

This course is not offered every term.

- SOCWRK 1059 - CHILD AND FAMILY ADVOCACY
- SOCWRK 1063 - AFRICAN-AMERICAN HEALTH ISSUES

Note:

* SOCWRK 1000 - INTRODUCTION TO SOCIAL WORK is required for all subsequent courses, with the exception of SOCWRK 1005

University Center for International Studies

University Center for International Studies

The University Center for International Studies (UCIS) is the primary resource for initiating and managing international studies and global programs and support services while promoting the University's reputation as a global leader in higher education. A key goal of UCIS is to cultivate globally capable and engaged students toward lives of impact in their community and in the world. Students become global ready through certificate programs, study abroad, and participation in co-curricular activities focused on regional/area/thematic expertise, foreign language proficiency, intercultural competency, and career and job readiness. UCIS offers 13 certificates and 2 related concentrations, which are academic credentials that attest to acquisition of international knowledge about a particular world region or global issue, cross-cultural understanding, and language proficiency relevant for international careers or for advanced degrees.

Certificates are available in:

- African Studies
- Asian Studies
- Central European Studies
- European Union Studies
- Global Health
- Global Studies
- Human Rights and Social Justice
- Latin American Studies
- Mediterranean Studies
- Russian, East European and Eurasian Studies
- Transatlantic Studies
- Transnational Asia Studies
- West European Studies

The certificates are administered through the Center for African Studies, Asian Studies Center, European Studies Center, Global Studies Center, Center for Latin American Studies, and the Center for Russian, East European and Eurasian Studies. All six centers are designated by the federal government as National Resource Centers and can also award the prestigious federal Foreign Language and Area Studies Fellowships.

UCIS certificates evidence language proficiency, regional knowledge and cultural competency that students find useful for international careers or for advanced degrees with a concentration in a particular world area or global theme.

ucis@pitt.edu
www.ucis.pitt.edu

Admission to Certificate Programs

Formal admission to the UCIS certificate programs is accomplished by completing a simple application form. Interested students are encouraged to apply in their freshman or sophomore year. There are no special requirements for admission. All undergraduate certificate programs in UCIS (with the exception of the certificate programs in Global Studies, European Union Studies and Latin American Studies described below) require 15 credits/five courses in the applicable area, with three or more courses in at least two departments other than the major. Language requirements vary.

Certificate courses can be used simultaneously to fulfill the student's general education and international/foreign culture requirements. Grades generally must be C or better to be accepted for the certificate program. Upon graduation, both the academic degree and the certificate are posted on the student's transcript.

Global Distinction and myPittGlobal

Students who participate in global activities and experiences at home or abroad can combine those activities with globally-focused coursework and earn an official transcript recognition called the Global Distinction. The Global Distinction demonstrates cross-cultural exposure and awareness to potential employers, while being accessible to students in programs without enough flexibility to complete a full certificate. Participation in activities is tracked through myPittGlobal, a student platform which serves as your one-stop-shop to integrate the curricular achievements with study abroad, civic & global engagement, and professional development opportunities. The app will help you access all UCIS academic programs, study abroad, international events and activities, advisors and your peers. For more information, [click here](#).

Advising

All UCIS certificate programs provide personalized advising services to students interested or registered in its programs in addition to those routinely offered by the students' major advisors. Center advisors assist in selecting courses, language training, and arranging internships or study abroad to fit the students' academic and personal interests. See the program descriptions below for contact information.

Special Academic Opportunities

In addition to the regular certificate programs, UCIS offers the following special academic opportunities:

Foreign Language and Area Studies (FLAS) Fellowships

FLAS fellowships are administered by the U.S. Department of Education through selected grantee institutions. The University of Pittsburgh has been selected as a grantee institution for FLAS Fellowships through its six area and global studies centers. This prestigious and competitive federal award allows eligible Pitt undergraduates to compete for fellowships that will allow them to devote greater attention to the study of a chosen modern foreign language and area studies specialty. Academic year undergraduate fellowships provide up to \$10,000 in tuition assistance and a \$5,000 living allowance. Summer FLAS awards to support intensive summer language study provide funding up to \$7,500. For more information, including a list of supported world languages, please [click here](#).

Asian Studies Scholarships and Fellowships

Students enrolled in the Asian Studies certificate program are eligible for a variety of fellowships and scholarships, including the Chinese Summer Language Study Abroad Scholarships, the Japanese Studies Undergraduate Scholarship, the Study-in-Japan Scholarship, and the Japanese Summer Language Study Scholarship. In addition, a new undergraduate scholarship program for students studying Chinese and Japanese languages is available for study abroad in an approved program. For more information on these funding opportunities, please [click here](#).

European Studies Center Study Abroad Scholarships

The European Studies Center offers a variety of scholarships to help students defray the cost of studying abroad. Information about available opportunities can be found [here](#).

Latin American Studies Undergraduate Seminar/Field Trip Program

The Undergraduate Seminar/Field Program is a unique component of the Latin American studies undergraduate certificate program. The Center for Latin American Studies (CLAS) firmly believes that all undergraduates should have the opportunity to experience Latin American culture firsthand. This objective is met through an annual field trip to a selected Latin American country for which about 10 - 14 students are chosen each year. CLAS subsidizes the majority of the cost of this program via scholarships to place it within the means of most students. Student participants register for a seminar in the spring term (January-April) that prepares them for the field experience through study of the culture, economics, geography, history, and politics of the area to be visited. Students also are introduced to research methodology and are guided through the development of a project which forms the basis for research they conduct while in the field. In the summer session (early May-late June), the students travel to Latin America, where they reside with host families and undertake their field projects under the direction of a CLAS faculty member. (In past years, groups have gone to Argentina, Bolivia, Brazil, Colombia, Costa Rica, the Dominican Republic, Ecuador, Guatemala, Mexico, Uruguay, and Venezuela.)

Russian and East European Studies Summer Study Abroad and Internship Awards

The Center for Russian, East European Studies and Eurasian Studies (REEES) believes that study or work abroad is a key component of its certificate program. In an effort to encourage students to travel to the region, REES offers several scholarships each summer to students enrolled in the certificate program. In addition, REES offers several awards to its students annually to fund paid internships in Pittsburgh during the academic year in the field of Russian and East European studies.

Program Offerings

Russian, East European, and Eurasian Studies Certificate and Related Concentration
Transatlantic Studies Certificate
Transnational Asia Studies Certificate
West European Studies Certificate and Related Concentration

Global Distinction

Certificate

Central European Studies Certificate

Central European Studies is dedicated to exploring one of Europe's most diverse and dynamic regions since 1800. Close to twenty nations exist today between the rivers Rhine and Dnepr, and between the Baltic and the Adriatic Seas. It is the place where all European language groups and religions intersect with each other. The region made its mark on European and global history through its enormous cultural and intellectual creativity in the past 200 years, but also as the focal point of two world wars and ethnic violence of an unprecedented scale. It is the place the Cold War divided into east and west and where the two halves of Europe are growing together again ever since.

The Central European Studies Certificate serves students who are interested in exploring the specific experiences of Central European societies. This includes the formation and transformation of regional identifications, migration and its effects on societies, national mythmaking and collective memory in the context of national and ethnic diversity and a history of exceptional violence, as well as processes of European integration in the region most affected by Europe's Cold War division. Given that these processes play out in a great variety of forms - be it in politics, social movements, literature, art, architecture, or in music - the interdisciplinary nature of the certificate provides an appropriate intellectual and academic framework.

Language Courses:

Two years (four semesters), or equivalent, of any language relevant to the Central Europe, including Bosnian-Croatian-Serbian, Bulgarian, Czech, German, Hungarian, Polish, Russian, Slovak, and Ukrainian.

Central European Studies Content Courses:

Five Central European Studies content courses (15 credits) are required. One of them must be the core course for the program, HIST 0200 - Between Kafka and Hitler: How Central Europe Shaped the Modern World.

Two of the courses may overlap with the student's major or other credentials. Two of the courses must be at the 1000 level and students must earn a C or better in classes counting toward the certificate.

To reflect an engagement with Central Europe's diversity, the required courses beyond the core course must address topics related to at least two Central European ethnic, national or linguistic cultures.

Electronic Portfolio:

Additionally, for purposes of assessment, students will be required to produce an electronic portfolio upon completion of the certificate. Building on a narrative that explains the connection between the classes used to complete the requirements, students may include papers or projects developed as class assignments, observations from study abroad, and insights gained from pre-professional experiences such as internships and informational interviews. The portfolio can also serve as part of an online resumé, highlighting a student's experiences, skills and interests.

These requirements match those of numerous other certificate programs offered in UCIS, including the West European Studies, Asian Studies, Transatlantic, and Russian and East European Studies Certificate programs.

The new core course, HIST 0200 - Between Kafka and Hitler: How Central Europe Shaped the Modern World, is being offered for the first time in the Fall of 2021. Dr. Gregor Thum has designed it so students will explore the following themes related to Central Europe:

Empire, borderland and diversity

Migration and the transformation of society

Nationalism, mass violence and collective memory

Democracy, authoritarianism and contested culture in Central Europe

Central Europe's reintegration after the cold war

"Central Europa", "Mitteleuropa", "East Central Europe": The politics of geographic labels

These themes are also intended to help students consider how they may choose courses and organize their studies in the certificate program.

Courses:

- ANTH 1730 - ETHNO-NATIONAL VIOLENCE
- ANTH 1768 - CULTURES AND SOCIETIES OF EASTERN EUROPE
- ARC 0116 - GLOBAL ARCHITECTURE 2: MODERN
- ARC 0150 - INTRODUCTION TO WESTERN ARCHITECTURE
- ARC 0153 - MEDIEVAL ARCHITECTURE
- ARC 1191 - ARCHITECTURE AND THE CITY IN CENTRAL EUROPE: 19TH AND 20TH CENTURIES
- GER 1106 - GERMAN CULTURAL HISTORY
- GER 1108 - GREEN GERMANY
- GER 1220 - LITERATURE AND CULTURE 1750-1830
- GER 1228 - LITERATURE AND CULTURE 1830-1890
- GER 1390 - MINORITIES IN POST-WAR GERMANY
- GER 1410 - KAFKA AND THE MODERN WORLD
- GER 1504 - EUROPEAN IDENTITY BETWEEN HISTORY AND EUROPEAN UNION CULTURAL POLICY
- GER 1528 - VIENNA
- GER 1529 - BERLIN: A DIVIDED CITY
- GER 1530 - SEX, ROBOTS, REVOLUTION: CULTURE OF THE WEIMAR REPUBLIC
- GER 1535 - OUTSIDERS IN GERMAN LITERATURE
- GER 1542 - MARX AND MARXISM
- GER 1544 - FREUD AND FREUDIANS
- GER 1545 - NAZI CULTURE
- GER 1546 - HOLOCAUST LITERATURE AND FILM
- HAA 1440 - EXPRESSIONISM
- HAA 1450 - ART AND POLITICS IN THE WEIMAR REPUBLIC
- HAA 1455 - ART IN THE THIRD REICH AND MEMORIALIZATIONS OF THE HOLOCAUST
- HIST 0187 - WORLD WAR II-EUROPE
- HIST 0301 - RUSSIA TO 1917
- HIST 0302 - SOVIET RUSSIA
- HIST 1001 - INTRODUCTORY SEMINAR

- HIST 1046 - NATIONALISM
- HIST 1047 - COMMUNISM: FROM MARXIST THOUGHT TO "REALLY EXISTING SOCIALISM"
- HIST 1048 - THE HOLOCAUST IN CONTEXT
- HIST 1049 - AFTER HITLER: RETRIBUTION, RECONSTRUCTION, AND RECONCILIATION: POSTWAR EUROPE
- HIST 1108 - COMPARATIVE EUROPEAN HISTORY
- HIST 1131 - THE RISE OF THE GERMAN EMPIRE
- HIST 1132 - GERMANY IN THE COLD WAR
- HIST 1220 - BETWEEN EMPIRES: POLISH HISTORY THROUGH FILM
- HIST 1225 - BALKAN HISTORY FROM THE OTTOMANS TO THE YUGOSLAV COLLAPSE
- HIST 1226 - EASTERN EUROPEAN COMMUNISM AT THE MOVIES
- HIST 1315 - STALIN
- JS 1644 - CHRISTIAN MUSLIMS JEWS IN THE MIDDLE AGES: CONNECTION & CONFLICT
- PS 1504 - NATIONALISM
- PS 1512 - THE POLITICS OF MIGRATION
- PS 1518 - GERMANY AND EUROPE: A FOREIGN POLICY TRANSFORMED

The Undergraduate Certificate

Through a wide range of courses and activities, the program allows students opportunities to learn and develop a better grasp of the continent's internal dynamics and its evolving place in the world.

The program sponsors a wide range of learning activities such as lectures, symposia, and conferences that focus on the interconnected issues of development in Africa and the African experience within the wider global context. The program offers opportunities for study abroad in Africa and other forms of field based experiential learning. Limited

scholarships are available and interested students enrolled in the African Studies program are encouraged to stop by our office or visit our website for more information.

Certificate Requirements

To receive the Undergraduate Certificate in African Studies each student must complete the following requirements:

- **African Studies Courses:** Students will complete five courses (15 credits) that must include one core course (3 credits) with 100% Africa-related content, and four electives (12 credits) with at least 25% or more Africa-related content. For a full list of approved courses, [click here](#).
 - **Language Proficiency:** Students will complete two years (4 semesters) of language study of either an indigenous African language (Pitt offers Amharic, Swahili, and Arabic) or, a European language (other than English) that is relevant to African studies because of Africa's historical experience. For example, a student with two years or more of French, Portuguese, German or Spanish meets the language proficiency requirement.
 - **Digital Portfolio:** Each student will complete a digital portfolio highlighting their learning experience and clearly demonstrating their specific growth in knowledge of Africa related issues within their respective academic discipline and in a broader global context. Students must submit their digital portfolio by the provided deadline before graduation. The digital portfolio may include assignments submitted as part of coursework or on the student's own time, and any other examples showing personal or academic growth.
 - **Presentation:** Before graduation, each student will be required to present their African Studies related work through sharing highlights of their experiences in a mini-forum to students, friends and family. The program advisor will communicate with each graduating students requirements for the presentations.
- GPA in African Studies Courses should be 2.5 or higher.**

Academic Opportunities

Study Abroad and Internships: Although Studying abroad in Africa is not required, it is highly encouraged. Students can earn up to 15 credits towards the certificate by studying abroad in an African country. There are also several internship opportunities available to students locally and in Africa. Meet with the academic advisor to learn about these opportunities.

Professional Development: The African Studies Program offers academic internships every semester where a student is given full exposure to the field of African Studies and can earn 3 credits for the internship. Students work on skills such as networking, public speaking, communications, media relations, critical thinking, and knowledge of Africa. This internship is a great way for students to build their resume and get real life experience working for a university.

UCIS International Career Toolkit Series: The Toolkit Series introduces students to the multitude of careers available by meeting and interacting with professionals in a variety of fields. Many of the guests are Pitt alumni and those that graduated with an International Studies Certificate. By attending one of these panels students will gain insight on career choices, what specific careers entail, how to articulate and prepare for short and long term career goals, and utilize resources at Pitt to make their goals a reality. Each year, students enrolled in the certificate program will have the opportunity to visit Washington, DC to interact with professionals and learn about a variety of opportunities for employment possibilities.

Other Outside of the Classroom learning activities: Students can attend lectures and conferences on campus and off campus on a variety of topics that enhance their classroom learning. African studies offers the Let's Talk Africa Series particularly designed for students to share their Africa related learning experiences. In addition the program hosts other forums for knowledge and cultural exchanges including during international week and during Africa Week. Visit our website for more information.

Asian Studies Certificate

University of Pittsburgh
University Center for International Studies
Asian Studies Center
Emily Rook-Koepsel, Undergraduate & Graduate Advisor and Assistant Director for Academic Affairs
4109 Wesley W. Posvar Hall
Pittsburgh, PA 15260
Phone: 412-648-7370
rookkoepsel@pitt.edu
<http://www.ucis.pitt.edu/asc/academics/certificate-program/undergraduate-certificate-program>

Engage with Asian cultures, languages, histories, and economies through the interdisciplinary Asian Studies Certificate. Building a personalized learning program based on a thematic or regional interest in Asia, the Asian Studies certificate can be accomplished using general education credits to compliment a language or disciplinary major or minor. Undergraduate students from any field or school interested in Asia can supplement and strengthen their major field of study by enrolling in the Asian Studies certificate program. To learn more about the Asian Studies program please contact the Asian Studies Advisor via email (rookkoepsel@pitt.edu) or by making an appointment at <http://www.ucis.pitt.edu/asc/academics/advising-appointment-scheduler>

Certificate Requirements

- **Asian Area Studies Courses:**

Interdisciplinary understanding of Asia can help build an understanding of broad trends and ideas from many different perspectives. Students earning an Asian Studies Certificate must take a minimum of five courses (15 credits) either designated as an Asian Studies course or which has been approved by the Asian Studies Academic Advisor. You can look at the courses available for the Asian Studies Certificate in any given semester at <http://www.ucis.pitt.edu/asc/academics/courses>. Required courses for the Asian Studies certificate may overlap with Gen. Ed. requirements and with courses taken on study abroad.

Students must take courses in a total of three different departments. At least one course (3 credits) should be in the student's major, unless their major does not include an Asian Studies designated course, in which case a course from a different department can count towards this requirement.

- **Language proficiency:** A minimum of two years (four terms) of Asian language study at the college level or equivalent proficiency is required. The University of Pittsburgh offers Chinese, Japanese, Korean, Hindi, Vietnamese, and Arabic, but any Asian language at intermediate proficiency would count toward fulfilling the Asian Studies Certificate. Students can fulfill the language requirement through taking two years of college language, demonstrating intermediate proficiency through testing, or by being a native speaker of an Asian language. If you have questions about a language Pitt doesn't teach, please see the Asian Studies advisor.

- **Digital Portfolio:** Students will be given a template to create an Asian Studies digital portfolio soon after they have signed up for the program. Students will work with the digital portfolio site throughout their time in the program, completing the digital portfolio during their final semester at the University of Pittsburgh. The portfolio offers a chance for students to reflect on academics, work/internship experience, study abroad observations, and co-curricular activities

that highlight their Asian Studies experience. Students should work closely with the Asian Studies advisor on the creation of their portfolio. Information on the digital portfolio can be found at www.ucisportfolios.pitt.edu.

- **GPA requirement** is 2.0 for all courses to be counted towards the Asian Studies Certificate.

Financial Assistance

Asian Studies certificate students may be eligible for a variety of scholarships and study abroad awards. For information, visit <http://www.ucis.pitt.edu/asc/funding/undergraduate>

European Union Studies Certificate

University of Pittsburgh
University Center for International Studies
European Studies Center
Stephen Lund, Assistant Director
4216 Wesley W. Posvar Hall
Pittsburgh, PA 15260
Phone: 412-648-7422
slund@pitt.edu
[schedule advising appointment](#)

The European Union (EU) Studies Certificate provides an introduction to the history of European integration, working knowledge of the EU's laws and administrative bodies, economics and the Euro Area, and (depending on the classes chosen) an overview of specific policy areas (defense and security, immigration, economic, international relations, etc.). The certificate provides a multidisciplinary and cross-regional (east-west) perspective, and it is perfect preparation for students who want to pursue careers in both public and private international organizations and to continue the study of Europe and the EU at the graduate level.

The University of Pittsburgh is an internationally recognized center for European Union studies. Selected in 1998, the university is one of 7 European Union Centers of Excellence in the United States (as chosen by the EU itself). The EU certificate has a high visibility that will assist students as they apply to competitive graduate programs in a number of disciplines and to corporations and organizations that interact with the European Union.

Certificate Requirements

- **Six EU studies courses:** (18 credits) from at least three different departments are required. These courses will include PS 1317 - Politics of the European Union, PS 1381- Capstone in European Union Studies, one course on the historical foundation of the EU, and three courses on the EU or with significant EU content. Students must earn a C average or better in the classes counting towards the certificate. Approved courses are posted online here.
- **Language proficiency:** Two years of college-level study of an official European Union foreign language (excluding English). Languages currently available include: Spanish, German, French, Italian, Swedish, Modern Greek, Portuguese, Hungarian, Polish and Slovak. Students may request placement tests through the language department.
- **Digital Portfolio:** An online digital portfolio that showcases research, work/internship experiences, study abroad, extra-curricular activities, language acquisition, and coursework to highlight expertise in European Union Studies, and associated professional and academic goals

Related Concentration in European & Eurasian Studies

The Related Concentration, administered in collaboration with the Russian, East European and Eurasian Studies Center, is designed to let students explore their interests in both the ESC and REEES world areas so that it fits comfortably alongside their majors or minors. It appeals particularly to pre-professional students who wish to broaden their international experience while minimizing language requirements. It is crafted to offer comparative study of your intended professional field - pre-medicine, pre-law, business, engineering, and health and rehab sciences - while capitalizing on your existing European/Eurasian language credits. This individualized, interdisciplinary credential provides a context for studying abroad and complements most academic plans and majors

Requirements

- A **minimum of four** (12 credits) **content courses** is required. The courses must come from at least two different departments and none of the courses can overlap with a student's other credentials. These courses are allowed to overlap, however, with general education requirements. Students must earn a C or better in classes counting towards the certificate.
- **Language proficiency:** one year (two semesters) of college-level study of an official European (excluding English) or Eurasian language, or demonstration of equivalent proficiency. The same language classes (or AP credits or three years of study from high school) used to fulfill the general education requirement may be used here as well.
- **Digital Portfolio:** An online digital portfolio that showcases research, work/internship experiences, study abroad, extra-curricular activities, language acquisition, and coursework to highlight expertise in European and Eurasian Studies, and associated professional and academic goals

Special Academic Opportunities

In addition to the certificate itself, the European Studies Center also offers its students a number of valuable resources, including scholarships for study abroad, directed research opportunities, research assistance, and a full calendar of events and visits from politicians and practitioners from across the US and Europe. The center also sponsors the Euro Club for students interested in Europe related social activities, as well as opportunities to participate in Model EU and Model NATO simulations in both the US and Europe.

Global Health Certificate

University of Pittsburgh
University Center for International Studies
Global Studies Center
Elaine Linn, Assistant Director for Academic Affairs
4100 Wesley W. Posvar Hall
Pittsburgh, PA 15260
Phone: 412-648-2113
eel58@pitt.edu
<http://www.ucis.pitt.edu/global/>

With the **CERTIFICATE IN GLOBAL HEALTH**, undergraduates can tailor a program of study to suit their academic, personal, and career interests. There is no additional cost to enroll, and most students will be able to complete the requirements within a standard four-year program of study. There are many options for related study abroad and co-curricular activities.

What You'll Learn

Students who complete the certificate should be able to:

- Understand the global burden of disease, social determinants of health, and treatment disparities from transnational and historical perspectives

- Differentiate among research, programs, strategies, and coordination mechanisms that address these issues in a variety of settings and the organizations that promote them
- Recognize the behavioral and cultural dimensions of health in myriad contexts
- Appreciate how different disciplines approach these issues and apply one or more such approaches to a key question in global health
- Critique different discourses on global health (e.g., medical, policy, anthropological) and communicate effectively about these issues orally and in writing to an interdisciplinary audience.

Program Requirements:

The certificate requires 18 credits of coursework, distributed as follows:

Required Course

- PUBHLT 1001 - INTRODUCTION TO GLOBAL HEALTH

This course lays the foundation for the Certificate and is required for all students. We strongly recommend taking this course as early as possible.

Core Courses (6 credits):

Students will select any two courses from the following list. We recommend that you consult the advisor for guidance on which courses would best support your course of study and career goals.

- NUR 1829 - CONTEM ISSUES CROSS CULTL HEALTH
- LING 1263 - CROSS-CULTURAL COMMUNICATION
- HIST 1091 - GLOBAL HEALTH HISTORY: HISTORICAL PERSPECTIVE
- HRS 1017 - INTRODUCTION TO EPIDEMIOLOGY
- PS 0550 - INTRODUCTION TO GLOBAL STUDIES
- ECON 0220 - INTRO TO HEALTH ECONOMICS
- ANTH 1761 - PATIENTS AND HEALERS: MEDICAL ANTHROPOLOGY 1
- SOC 0473 - SOCIOLOGY OF GLOBALIZATION AND HEALTH
- STAT 0800 - STATISTICS IN THE MODERN WORLD

Global Health Electives

Students can further personalize their course of study through electives offered by departments and schools across campus (9 credits total), including additional courses from the "core" list. A comprehensive list of courses is available prior to registration each term here. Students may also receive credit through their home department for related field visits, internships, community-based research, and other experiential learning as well as 1-credit "pop up" courses. Students should consult the advisor about these options.

Capstone

Students create a dynamic portfolio that curates and narrates their global health education and co-curricular experiences for external audiences.

Global Studies Certificate

University of Pittsburgh
University Center for International Studies
Global Studies Center
Elaine Linn, Assistant Director for Academic Affairs
4100 Wesley W. Posvar Hall
Pittsburgh, PA 15260
Phone: 412-648-2113
eel58@pitt.edu
<http://www.ucis.pitt.edu/global/>

Global studies is an exciting - and evolving - interdisciplinary field concerned with transnational structures, processes, and interactions that cross familiar political borders and cultural boundaries and affect our social, economic, cultural, political, and ecological environments.

Global Studies students pursuing an undergraduate degree in any school within the University can tailor a unique plan of interdisciplinary study drawn from more than 200 courses across 5 global concentrations, gaining a solid understanding of the academic debates over globalization and their policy implications, learn important critical thinking skills and use them to arrive at their own stances on these issues. Students can double count up to six credits from their major, allowing them to fulfill their general education, major or certificate requirements at the same time and must maintain a 2.50 cumulative GPA.

In addition to the certificate, the Center provides a hub for students wanting to understand and take action on today's pressing issues at home and/or abroad. It offers numerous complementary programs and opportunities that support students' intellectual and personal development: research skills, career exploration and career readiness, experiential education and civic engagement, and a critical understanding of current events. Also, funding is available for travel grants and tuition remission for student ambassador positions.

Certificate Requirements

- **Global Concentrations:** Working with the advisor, students personalize a course of study selecting from one of five global concentrations:

Cultural Dynamics

World Ecologies

Health and Well-Being

Peace, Conflict, and Security

Politics and Economy

- **Introduction to Global Studies (3 credits):** PS 0550 Introduction to Global Studies examines current global trends and issues in ways that encourage students to think critically about how to analyze, interpret, and respond to global interactions and their consequences for different regions, localities, and groups. It gives particular attention to the concept of globalization, highlighting the controversies surrounding its use and engaging core debates about the impact of global and transnational processes on economic and social relations, politics and governance, cultural interactions and the environment in local and global contexts.
- **Five Global Thematic Courses (15 credits):** After students select a global concentration, they choose from a comprehensive and dynamic list of courses ensuring three disciplines are represented to provide an interdisciplinary perspective on their chosen global concentration. At least two of the courses must be 1000 level. Students must maintain a 2.50 cumulative G.P.A.
- **Language Proficiency:** Building on Pitt's vast offering of over 30 languages, a minimum of two years of college-level study (four semesters) in a foreign language is required. Students can fulfill this requirement by passing a proficiency exam at the Intermediate low-mid proficiency level.

- **E-Portfolio:** Students create a dynamic portfolio that reflects their scholarly engagement within their global concentration or their understanding of a global issue, highlights how they are informed about, as well as engaged with, a global issue through their various co-curricular experiences at Pitt, and lastly highlights their professional development experiences preparing them for career success.

Special Academic Opportunities

Students enrolled in Global Studies are the first to be informed about funding for research, travel, language study, and study abroad; internships and career development; networking opportunities with dignitaries, academics, and professionals; and interesting events on campus and in the city of Pittsburgh.

Experiential Learning: Student may participate in a wide range of study away, study abroad that will count towards their certificate credits.

Human Rights and Social Justice Certificate

Global Studies Center
4100 Wesley W. Posvar Hall
Elaine Linn, Assistant Director for Academic Affairs
eel58@pitt.edu
www.ucis.pitt.edu/global

The Undergraduate Certificate in Human Rights and Social Justice embeds learning and engagement with issues of diversity, equality, inclusion, and social change, within the bedrock of the deeply entrenched and long-standing global human rights system. It focuses on the interdisciplinary study and application of foundational concepts and global standards of human rights to diverse issues and movements, including poverty, race, ethnicity, gender, sex, sexual orientation, religion, ability, and age, both past and present. It equips students with the understanding and skills to engage with important issues of our times, to explore multi-disciplinary foundations and current debates about human rights and social justice, and to contribute positively to communities and in future careers and public service.

The certificate is designed around five thematically-specific learning objectives. Upon completion, students should be able to:

- Identify foundational human rights and social justice concepts including equality, discrimination, universality, and interdependence, from historical to current and local to transnational perspectives.
- Differentiate current research, programs, strategies, and actors, that address human rights and social justice issues in a variety of settings.
- Recognize the cultural, political, sociological, economic, and other dimensions of particular human rights issues in a variety of contexts.
- Appreciate how different disciplines approach human rights and apply one or more approach to a human rights issue.
- Identify different discourses on human rights and social justice, to communicate effectively about rights issues for various audiences.

The certificate requirements entail two foundation courses (including one from outside the student's home discipline), four electives (including two from outside the student's home discipline), and a Capstone Digital Portfolio project. Academic requirements are described in detail in the sections below.

Foundation Courses (6 Credits)

Students select two foundation courses, including no more than one from the home discipline.

- ANTH 1709 - ACTIVIST ANTHROPOLOGY

- COMMRC 1148 - RHETORIC AND HUMAN RIGHTS
- ENGCMP 0641 - WRITING FOR CHANGE
- HIST 1062 - HUMAN RIGHTS IN WORLD HISTORY
- PHIL 1400 - RIGHTS AND HUMAN RIGHTS
- PS 1675 - POLITICS OF HUMAN RIGHTS
- PS 0550 - INTRODUCTION TO GLOBAL STUDIES
- URBNST 0112 - SOCIAL JUSTICE AND THE CITY

Elective Courses (12 Credits)

Students must select four elective courses, including no more than two from the home discipline. For current list visit www.ucis.pitt.edu/global/programcourses.

- AFRONA 0536 - 20TH CENTURY AFRICAN AMERICAN WOMAN HISTORY
- AFRONA 1012 - EARLY 20TH CENTURY BLACK SOCIAL MOVEMENT
- AFRONA 1522 - SEX AND RACISM
- AFRONA 0787 - BLACK CONSCIOUSNESS
- AFRONA 1535 - DIMENSIONS OF RACISM
- AFRONA 1331 - AFRICAN LIBERATION MOVEMENTS
- ANTH 1737 - SPECIAL TOPICS IN CULTURAL ANTHROPOLOGY
- ANTH 1709 - ACTIVIST ANTHROPOLOGY
- ANTH 1760 - ANTHROPOLOGY OF LAW
- ARC 1138 - BLACK BUILT AMERICA: ARCHITECTURES OF BLACK RESISTANCE IN THE UNITED STATES
- COMMRC 1148 - RHETORIC AND HUMAN RIGHTS
- ENGCMP 0641 - WRITING FOR CHANGE
- ENGCMP 0432 - WRITING FOR ENVIRONMENTAL ADVOCACY
- ENGCMP 0565 - WRITING PLACES
- ENGCMP 0208 - SEMINAR IN COMPOSITION: SERVICE-LEARNING
- ENGLIT 0365 - IMAGINING SOCIAL JUSTICE
- ENGLIT XXXX - GRANT WRITING
- GEOL 1332 - ENVIRONMENTAL ADVOCACY AND ACTION
- GSWS 1470 - GENDER & CITIZENSHIP IN EUROPE
- GSWS 1280 - TRANSNATIONAL SEXUAL POLITICS
- HAA 0460 - ART IN PUBLIC: INCLUSION, IDENTITY, AND ACTIVISM
- HAA 1050 - WORLD ART: CONTACT AND CONFLICT
- HIST 1510 - VIOLENCE & HUMAN RIGHTS IN LATIN AMERICA
- HIST 1632 - THE HISTORY OF THE CIVIL RIGHTS MOVEMENT
- HIST 1175 - XENOPHOBIA IN MODERN EUROPE
- HIST 1076 - COMPARATIVE SLAVERY
- HIST 1000 - CAPSTONE SEMINAR
- HIST 1772 - RACE, CASTE AND ETHNICITY IN A GLOBAL PERSPECTIVE
- HIST 1062 - HUMAN RIGHTS IN WORLD HISTORY
- LCJS 1320 - CIVIL RIGHTS LAW
- LCJS 1581 - INTERNATIONAL LAW
- MUSIC 1280 - MUSIC, ARTS, AND CONFLICT
- PHIL 1400 - RIGHTS AND HUMAN RIGHTS
- PS 1675 - POLITICS OF HUMAN RIGHTS
- PS 1216 - MODERN CIVIL RIGHTS IN AMERICAN POLITICS

- RELGST 1415 - RACE AND RELIGION IN AMERICA
- RELGST 1252 - HOLOCAUST HISTORY AND MEMORY
- PS 1702 - VISUALIZING AND UNDERSTANDING SOCIAL DATA
- PS 0550 - INTRODUCTION TO GLOBAL STUDIES
- SOC 1362 - REVOLUTIONARY SOCIAL MOVEMENTS
- SOC 0352 - SOCIAL MOVEMENTS
- SOC 0473 - SOCIOLOGY OF GLOBALIZATION AND HEALTH
- SOC 1365 - RACE, CLASS, AND GENDER
- SOC 1360 - PEACE MOVEMENTS AND PEACE EDUCATION
- SOC XXXX - HUMAN RIGHTS IN THE CITY INTERNSHIP
- SOCWRK 1059 - CHILD AND FAMILY ADVOCACY (Social Work Students Only)
- SPAN 1456 - LATIN AMERICAN SOCIAL MOVEMENTS
- SPAN 1432 - WRITING FEMINISM
- SPAN 1433 - WOMEN'S NARRATIVES IN LATIN AMERICA
- STAT 0800 - STATISTICS IN THE MODERN WORLD
- THEA 1393 - THEATRE AND THE BLACK LIVES MATTER MOVEMENT
- URBNST 0428 - SANCTUARY CITIES: POLITICS, POLICY AND SOCIAL JUSTICE
- URBNST 0160 - DATA VISUALIZATION
- URBNST 0112 - SOCIAL JUSTICE AND THE CITY
- URBNST 0140 - CRIME, PUNISHMENT, JUSTICE, REINTEGRATION

Capstone Requirement: Human Rights Digital Portfolio

The "Human Rights Digital Portfolio" required for this certificate enables students to document their work on human rights and social justice in fulfillment of certificate requirements, draw out key themes and learning outcomes that connect those courses and experiences, reflect on their learning experience, and develop their writing and presentation abilities. The portfolio also highlights student involvement on campus and in the city through co-curricular engagement, and integrates working with diverse communities and engaging with diverse opinions.

Total Credits: 18

Latin American Studies Certificate and Related Concentration

University of Pittsburgh
 University Center for International Studies
 Center for Latin American Studies
 Luis G. Van Fossen Bravo, Undergraduate Advisor
 4207 Wesley W. Posvar Hall
 Pittsburgh, PA 15260
 412-648-7396
 bravo@pitt.edu
 Advising: www.ucis.pitt.edu/clas/advising
www.ucis.pitt.edu/clas

Any undergraduate student at the University of Pittsburgh may enroll in the **Certificate or Related Concentration** of the Center for Latin American Studies (CLAS). The earlier you enter the program, the easier it is to incorporate Latin American courses into your plan of study. As a CLAS student, you will become eligible for grants and fellowships awarded by the Center. You also receive information about the many events sponsored by the Center.

Certificate Requirements

- **Seven Latin American courses** (21 credits): two courses in the major department and five courses from at least two departments outside the major. If majoring in a department in which no Latin American courses are offered, the requirement is seven Latin American area courses in at least three different departments. For a list of approved courses, click here.
- **Language proficiency:** three years (six terms) of college-level Spanish, Portuguese, Quechua, or Haitian Creole (or have equivalent competency).
- **Study abroad in Latin America is required.** The study abroad program must be for academic credit and last at least four weeks. *The requirement may be fulfilled by participation in the CLAS Undergraduate Seminar and Field Program.*
- **Digital Portfolio:** Students will develop a brief digital portfolio where they can reflect on their studies, explain the connection between the classes used to complete the requirements, and present examples of their work. Students may include papers
- **GPA requirement** is 2.5 for all courses to be counted toward any Latin American Studies Certificate.

Related Concentration Requirements

Like a minor, the related concentration is designed for students who want to learn about the cultures and societies of our neighbors to the south. It is suitable for students considering a career specializing in the Latin American region and has two academic requirements: area studies courses and language proficiency.

- **One course in the major** department, and **four courses** from at least two departments outside the major (15 credits). If majoring in a department in which no Latin American courses are offered, the requirement is five Latin American area courses in at least three different departments.
- **Language proficiency:** two years of study (four terms) of college-level Spanish, Portuguese, Quechua or Haitian Creole (have equivalent proficiency).
- **Digital Portfolio:** Students will develop a brief digital portfolio where they can reflect on their studies, explain the connection between the classes used to complete the requirements, and present examples of their work. Students may include papers.
- **GPA requirement** is 2.5 for all courses to be counted toward any Latin American Studies Related Concentration.

Special Academic Opportunities

The Center for Latin American Studies (CLAS) offers a variety of funding opportunities for undergraduate students entering or currently enrolled in one of its undergraduate programs. Please visit: https://www.ucis.pitt.edu/clas/ugrad_opportunities.

Mediterranean Studies Certificate

The Certificate in Mediterranean Studies provides students with interests in Mediterranean history, culture, politics, and languages to complement their major with a regional specialization, and to explore the interconnectedness of North Africa, the Levant, Anatolia, Southern Europe, and the Balkans. The certificate is self-designed, and students may choose any theme to organize their studies and class choices. Examples of possible themes immigration, regional politics and security, ancient civilizations, and Mediterranean arts and architecture.

Requirements and Courses

The academic requirements of the new program have three components: language proficiency, content courses and an electronic portfolio.

Language Courses: Two years (four semesters), or equivalent, of any Mediterranean language.

Mediterranean Studies Content Courses:

A minimum of five Mediterranean Studies Content Courses (15 credits) is required. These must include the required core course HIST 1790 - Mediterranean World Since 1500. Two of the courses may overlap with the student's majors. The remaining courses must be from at least two departments outside the student's major. Two of the courses must be at the 1000 level and students must earn a C or better in classes counting towards the certificate.

Electronic Portfolio: Additionally, for purposes of assessment, students will be required to produce an electronic portfolio upon completion of the certificate. Building on a narrative that explains the connection between the classes used to complete the requirements, students may include papers or projects developed as class assignments, observations from study abroad, and insights gained from pre-professional experiences such as internships and informational interviews.

These requirements match those of numerous other certificate programs offered in UCIS, including the West European Studies, Asian Studies, Transatlantic, and Russian and East European Studies Certificate programs.

Courses: A variety of courses will be developed for the new program. One that has already been approved by the History Department, and will serve as the certificate's core course, is being offered for the first time in Fall 2019 (2201): **HIST 1790 - Mediterranean World Since 1500**. The purpose of this course is to introduce students to the history of the region's politics, economics, religions and cultures, providing a base for additional coursework in which they will focus their regional interests and studies.

Many pre-existing courses also fulfill requirements for the certificate and a sample list is attached to this proposal. Future course offerings will likely be informed by the visiting Italian Fulbright Scholars who are in residence at Pitt every Spring semester.

Internships and research experiences already offered by the ESC, and the university itself, are also applicable to this new program. But, in addition, prospective new internships, with companies like Addev Materials (and their offices in France) might also serve the program. Moreover, new international partnerships with universities in Italy (Rome) and Croatia (Zagreb) are also applicable.

- LCJS 1571 - TERRORISM
- AFRCNA 0318 - HISTORY OF AFRICA BEFORE 1800
- ANTH 1530 - ORIGINS OF CITIES
- ARABIC 1615 - ARABIC LIFE AND THOUGHT
- CLASS 1151 - DEATH IN THE MEDITERRANEAN WORLD
- ECON 0640 - ECONOMIC DEVELOPMENT OF THE MIDDLE EAST AND NORTH AFRICA (MENA) REGION
- ENGLIT 1258 - ISRAELI AND PALESTINIAN LITERATURE
- FR 0227 - THE FRENCH ATLANTIC
- GER 1502 - INDO-EUROPEAN FOLKTALES
- HAA 0730 - ART AND ARCHITECTURE OF THE MUSLIM WORLD
- HIST 0687 - US IN THE MIDDLE EAST
- ITAL 0087 - FOOD FOR THOUGHT: ITALIAN FOOD CULTURE
- JS 1100 - ISRAEL IN THE BIBLICAL AGE
- PHIL 0200 - HISTORY OF ANCIENT PHILOSOPHY
- PS 1351 - GOVERNMENT AND POLITICS OF THE MIDDLE EAST
- RELGST 1148 - RELIGIONS OF ANCIENT EGYPT
- THEA 1341 - WORLD THEATRE: 500 BCE TO 1640

- TURKSH 1615 - TURKISH CULTURE AND SOCIETY

Deepen your understanding of a world region that spans Europe and Asia, where shifting identities and political boundaries are complicated by control of energy resources, EU/NATO affiliations, and the Cold War legacy. The Certificate in Russian, East European and Eurasian Studies is an interdisciplinary credential that appears on your transcript and complements your major and minor. The undergraduate Certificate in Russia, East European, and Eurasian Studies is crafted to allow students in any major - from STEM and professional disciplines to languages and other liberal arts - to enhance their program of study without extra tuition cost and usually with no increase in their overall course load. The certificate integrates language study with the study of the region where the language is spoken.

Certificate Requirements

- **Coursework:** Five Russian, East European, and/or Eurasian area studies (non-language*) courses (15 credits). Courses must be taken in at least three departments, and up to two courses may overlap with the student's major. Students must maintain a minimum 3.0 GPA in REEES-related courses.
 - **Language proficiency:** a minimum of two years (four terms) of college-level study of a language of the former Soviet Union or East-Central Europe. Pitt offers Russian, Polish, Slovak, Hungarian, Ukrainian, Modern Greek, Turkish, Persian and Bosnian/Croatian/Serbian. Additionally, Pitt's Summer Language Institute offers Bulgarian and Czech. Heritage speakers must demonstrate intermediate-level proficiency.
 - **Digital Portfolio:** An online digital portfolio that showcases research, work/internship experiences, study abroad, extra-curricular activities, language acquisition, and coursework to highlight expertise in Russian, East European, and Eurasian Studies, and associated professional and academic goals.
- *Students may apply advanced language coursework as Area Studies coursework in certain circumstances, in consultation with the certificate advisor.*

Related Concentration in European & Eurasian Studies

The Related Concentration in European & Eurasian Studies is crafted to offer comparative study opportunities for students in a pre-professional field - pre-medicine, pre-law, business, engineering, and health and rehab sciences - will while capitalizing on existing European language credits. This individualized, interdisciplinary credential provides a context for studying abroad and complements most academic plans and majors. For the Related Concentration, we define Eurasia as the Russian Federation, Turkey, Mongolia, and the former Soviet republics.

Requirements

- A **minimum of four** (12 credits) **content courses** is required. The courses must come from at least two different departments and none of the courses can overlap with a student's other credentials. These courses are allowed to overlap, however, with general education requirements. Students must earn a C or better in classes counting towards the certificate.

- **Language proficiency:** one year (two semesters) of college-level study of an official European (excluding English) or Eurasian language, or demonstration of equivalent proficiency. The same language classes (or AP credits) used to fulfill the general education requirement may be used here as well.
- **Digital Portfolio:** "An online digital portfolio that showcases research, work/internship experiences, study abroad, extra-curricular activities, language acquisition, and coursework to highlight expertise in European and Eurasian Studies, and associated professional and academic goals."

Special Academic Opportunities

Pitt offers a range of study abroad course that can be used to fulfill certificate requirements. Short-term summer study abroad courses, taught in English and offering 3 to 6 Pitt credits, may include:

- Czech Republic and Poland: Economy and Policy (ECON 0905) in Prague, Budapest, and Krakow, May;
- Romani (Gypsy) Music, Culture, and Human Rights (MUSIC 1362 , URBNST 0600) in Prague and Budapest, 6 credits, May-June;
- Architecture and the City in Central Europe (ARC 1191) in Vienna, Zagreb, Ljubljana, and Prague, May;
- Competing Perspectives on Global Energy (PS 1301) in Ukraine, Belgium, Pennsylvania, and Washington, DC, 3 credits, May;
- Monsters, Madmen, and the Modern City (ENGLIT 0636 , ENGLIT 0612) in Prague, 6 credits, July-August.

The intensive Summer Language Institute (SLI) is a great option to study languages of our region. Study abroad options are available for Russian, Bosnian/Croatian/Serbian (BCS), Bulgarian, Czech, Hungarian, Polish, Slovak and Persian (www.sli.pitt.edu).

**For those students interested in pursuing graduate or other advanced regional studies, a Bachelor of Philosophy degree in International and Area Studies/Russian, East European, and Eurasian Studies Track is also available.*

Transatlantic Studies Certificate

The Certificate in Transatlantic Studies allows students to pursue a comparative study of Europe and the United States, as well as countries that touch the Atlantic. Primary areas of study include governance, policy and security issues, the history of colonialism, humanities and culture, and the comparative study of various professional fields such as business and medicine.

Certificate Requirements

- A **minimum of five** (15 credits) **Transatlantic Studies content courses** is required. Two of the courses may overlap with the student's major or other credentials. The remaining courses must be from at least two departments outside the student's major. Courses chosen must be thematically relevant to each other, and students may study any aspect of

European and American history and culture of interest to them. Examples include film studies, health and science policy, architecture, politics, economics, and immigration. Approved courses can be found [here](#).

- **Language proficiency:** two years (four semesters) of college-level study of an official European language (excluding English). Languages currently available include: Spanish, German, French, Italian, Swedish, Modern Greek, Irish Gaelic, Portuguese, Hungarian, Polish and Slovak. Students may request placement tests through the language department.
- **Digital Portfolio:** An online digital portfolio that showcases research, work/internship experiences, study abroad, extra-curricular activities, language acquisition, and coursework to highlight expertise in Transatlantic Studies, and associated professional and academic goals

Special Academic Opportunities

In addition to the certificate itself, the European Studies Center also offers its students a number of valuable resources, including scholarships for study abroad, directed research opportunities, research assistance, and a full calendar of events and visits from politicians and practitioners from across the US and Europe. The center also sponsors the Euro Club for students interested in Europe related social activities, as well as opportunities to participate in Model EU and Model NATO simulations in both the US and Europe.

Transnational Asia Certificate

Asia is at the forefront of many of the world's most pressing issues, leading to many analysts declaring the 21st century to be the Asian Century. Representing 60% of the world's population and 3 out of the 10 largest economies in terms of GDP, Asia plays a critical and ever-expanding role on the global stage. Transnational flows of people, disease, goods, and ideas in and out of Asia have fueled much of the rapid change within the region and its influence abroad. As the world wrestles with issues of global economics, environmental sustainability, public health, and labor migration, Asia's impact defines a large number of research and social questions spanning academic and professional disciplines. Students endeavoring to understand international business, history, and politics need to be intellectually agile and able to make transnational and even transregional connections. The **Transnational Asia Certificates** that will focus the continent's transnational linkages with the world. This certificate programs will help students prepare for international careers as well as graduate degrees with a global focus. To learn more about the Transnational Asia Certificate please contact the Asian Studies Advisor via email (rookkoepsel@pitt.edu) or by making an appointment at <http://www.ucis.pitt.edu/asc/academics/advising-appointment-scheduler>

Requirements and Courses

- **Transnational Asia Studies Courses:**

Interdisciplinary understanding of transnational Asia can help build an understanding of broad trends and ideas from many different perspectives. When students apply for a Transnational Asia Certificate, they will work together with the Asian Studies Center advisor to choose an appropriate theme and will, over the course of their remaining semesters take a minimum of five courses (15 credits) approved by the Asian Studies Academic Advisor to fit around the theme. Some popular themes include: Asian Diaspora Studies (including Asian American Studies), Asian Public Health,

Transnational Asian Popular Culture, Transnational Supply Chains, and many others. Required courses for the Asian Studies certificate may overlap with Gen. Ed. requirements and with courses taken on study abroad.

Students must take courses in a total of three different departments. At least one course (3 credits) should be in the student's major, unless their major does not include a course appropriate to their certificate theme, in which case a course from a different department can count towards this requirement.

• **Language proficiency:** Students must complete one of the three language tracks to earn the Transnational Asia Certificate:

Track A: Proficiency in an Asian Language equivalent to two years of college courses, relevant to the certificate theme. This can be fulfilled by 4 semesters of college language courses or proficiency proven via examination.

Track B: Proficiency in an Asian Language equivalent to one year of a college courses and proficiency equivalent to one year of college courses in a comparative language relevant to the certificate theme. This requirement can be fulfilled by course work at the college level, university language management, and or proficiency proven via examination.

Track C: Proficiency in two different Asian languages, each equivalent to one year of college language courses.

3. Digital Portfolio: Students will be given a template to create a Transnational Asia digital portfolio soon after they have signed up for the program. Students will work with the digital portfolio site throughout their time in the program, completing the digital portfolio during their final

semester at the University of Pittsburgh. The portfolio offers a chance for students to reflect on academics, work/internship experience, study abroad observations, and co-curricular activities that highlight their Asian Studies experience. Students should work closely with the Asian

Studies advisor on the creation of their portfolio. Information on the digital portfolio can be found at www.ucisportfolios.pitt.edu.

4. GPA requirement is 2.0 for all courses to be counted towards the Asian Studies Certificate.

- ANTH 1740 - GENDER, SEXUALITY, AND CHILDHOOD IN A GLOBAL CONTEXT

The Certificate in Western European Studies provides students with strong interests in predominantly Western European history, culture, politics, and languages to complement their major with a regional specialization. The certificate is self-designed, and students may choose any theme to organize their studies and class choices. Examples of possible themes include country or region specific ones, such as Spanish Studies and British Studies, policy driven ones

such as Intelligence & Security or Social Policy, and culture and history-based ones such as Ancient Greece & Rome or European Art & Architecture.

Certificate Requirements

- A minimum of **five West European studies courses** (15 credits). Courses must be chosen according to a theme to ensure intellectual cohesion.
- Two courses from the major may overlap with the certificate. Remaining courses must be from at least two departments outside the major. Approved courses can be found [here](#).
- **Language proficiency:** two years of college-level study (four terms) in French, German, Spanish, Portuguese, Italian, Irish Gaelic, Swedish or Modern Greek.
- **Digital Portfolio:** An online digital portfolio that showcases research, work/internship experiences, study abroad, extra-curricular activities, language acquisition, and coursework to highlight expertise in European and Eurasian Studies, and associated professional and academic goals.

Special Academic Opportunities

In addition to the certificate itself, the European Studies Center also offers its students a number of valuable resources, including scholarships for study abroad, directed research opportunities, research assistance, and a full calendar of events and visits from politicians and practitioners from across the US and Europe. The center also sponsors the Euro Club for students interested in Europe related social activities, as well as opportunities to participate in Model EU and Model NATO simulations in both the US and Europe.

University Learning Research and Development Center

University Learning Research and Development Center

The Learning Research and Development Center (LRDC) advances the science of learning by bringing together researchers from the cognitive, developmental, social, educational, and computational sciences. We take a highly collaborative and interdisciplinary approach to studying a wide range of types of learning across varied settings. Our research on learning aims to contribute both to a just and equitable society and to building a future where everyone can develop the knowledge, skills, and agency they need to fully participate in society and thrive.
